DURHAM, N. H., OCTOBER 29, 1913

PRICE 5 CENTS

NEW HAMPSHIRE 45 WORCESTER 0

The Game was Fast and Clean Throughout.

Playing sensational football, the New Hampshire gridiron warriors triumphed over the Worcester Polytechnic Institute team, Saturday, Oct. 18, 45 to 0. The game was a fast, clean one, and was a treat to the large crowd who were present to witness the contest.

Never before this season has the New Hampshire interference been so strong and consistent. The style of open play that Coach Eberle has been working to perfect was a revelation to the crowd. Time and time again long forward passes were pulled off that netted 40 yards.

The largest crowd of the season was out to witness the game and the college band interspersed the periods with martial music. Between the halves the student body, headed by the band, marched up and down the field giving cheers and singing songs.

The Game in Detail.

New Hampshire kicked off to Kane on Worcester's 30-yard line and the Worcester half back came in five yards. Hedburg failed to gain around right end, while Eaton was thrown for a loss in attempting to circle left end. Eaton made three yards on the next play through left tackle. Worcester punted to New Hampshire, five yard line. A forward pass, Brackett to Westover netted 15 yards, and two more passes to Hale and Woodman, respectively, totalled 15 yards more. Hobbs snatched a forward pass from Brackett and ran 40-yards for the first touchdown. Haines kicked the goal and the score was: New Hampshire 7, Worcester P. I. 0.

Worcester kicked off to New Hampshire, Bissell getting the ball on the 15-yard line and carrying it to the 40-yard line. Woodman made 15-yards around right end, but a forward pass to Westover failed. Captain Brackett circled left end for five yards. Steele intercepted a forward pass intended for Bissell. Hedburg banged right tackle for five-yards, but Eaton failed to gain. On the next play Worcester was forced to punt, Hobbs nailing the ball on the 10-yard line. Bissell slammed left tackle for six-yards while Brackett tore around right end for a gain of 25 yards. With that the whistle blew. Score: New Hampshire 7, Worcester P. I. 0.

Second Period.

Captain Brackett opened the period with a trick play that netted 15 yards. Hobbs got away with a forward pass and ran 35-yards before being downed. This brought the ball to the nine-yard line. Bissell smashed the right side of the line for five yards and Captain Brackett outwitted his opponents on a trick play carrying the ball over for the second touchdown. Haines again kicked the goal. Score New Hampshire 14, Worcester P. I. 0.

Woodman kicked off and downed Desmond after a five-yard run. After

making five-yards through tackle, Kane fumbled and Murdock recovered for New Hampshire. Brackett punted on the first play, Worcester recovering. The Bay State boys failed to gain, however, and punted to Hobbs who returned the pigskin 15 yards. Two forward passes amounted to seven yards. Westover nailed the next forward pass and ran 25-yards before he was downed, this brought the ball to the one-yard line. Woodman hit the line and went over for a touchdown. Haines failed to kick the goal. Score: New Hampshire 20, Worcester P. I. 0.

Worcester kicked off again and Brackett by wonderful dodging ran it back 40-yards. At this point Parker went in at right end. He nailed a forward pass in a sensational manner and netted an 18-yard gain. Another forward pass to Bissell gained New Hampshire's fourth touchdown. Haines failed at the goal. Score: New Hampshire 26, Worcester P. I. 0.

Again Worcester kicked off to New Hampshire, Brackett getting the ball on the 10 yard line and carrying it back 40-yards. A succession of line plays and forward passes netted 15-yards. Becker nailed a forward pass intended for Westover and the ball went to Worcester. Kane circled left end for two yards, while Eaton made five more at center. The referee's whistle ended the half.

Third Period.

Coyne kicked off to Brackett and he ran it back 40-yards. After a series of line plays Woodman was forced to punt. Heldburg rattled off 15-yards around right end and Camp made two more at center, giving Worcester first down. Coyne fumbled the ball and Parker recovered for New Hampshire. Again New Hampshire failed to gain and the ball went to Worcester on downs. Worcester tried the forward pass but it did not work. Failing to gain Coyne punted to Murdock. On a quarter back run with fine interference, Captain Brackett circled right end for 45-yards. This brought the ball to the 15-yard line. Woodman found the center solid and failed to gain, but Bissell banged left tackle for two yards. At this point the whistle blew, ending the period.

Fourth Period.

On the first play New Hampshire fumbled, Worcester recovering. Tullock hit the line for seven-yards but Camp failed to gain. Reardon intercepted a forward pass, and carried the pigskin over for a touchdown. Reardon kicked the goal. Score: New Hampshire 33, Worcester P. I. 0.

Woodman kicked off to Gleason who ran it back 15-yards. Worcester fumbled, Thompson recovering. After bucking the line for small gains New Hampshire lost the ball on downs. Coyne punted to Hobbs on the 30-yard line. The longest forward pass of the game, Brackett to Westover, gave New Hampshire another touchdown. Westover, however, dropped the ball behind the goal post and Worcester recovered. The chance at a goal was lost. Score: New Hampshire 39; Worcester P. I. 0.

Woodman again kicked off to Worcester. The Worcester backs could not pierce the line and tried a forward pass. Thompson intercepted it and ran 35-yards for a touchdown. Reardon failed to kick the goal. Score: New Hampshire 45, Worcester P. I. 0.

Coyne kicked off to Farker, who was

DR. SEERLEY MEETS STUDENTS.

Last Saturday evening in the college chapel, a large number of students assembled in spite of the rain to hear Dr. Seerley of the Springfield Y. M. C. A. College talk on one of the most practical subjects of the day, "Sex Hygiene." After being introduced by H. V. Bent, president of the College Y. M. C. A., Dr. Seerley in a straightforward, sincere way presented his subject to the students.

Sunday forenoon he spent in giving informal talks at the different fraternity houses and boarding clubs, but the scheduled public meeting in the afternoon was called off because of the rain. He went away on the 2.30 train, leaving behind the feeling that his visit had been of much benefit to the student body and the desire that his visit might be repeated next year.

COACH EBERLE TO SPEAK.

Next Sunday afternoon Coach Tod Eberle will address the New Hampshire College Christain Association. Every man should make a special effort to be present and hear what Tod has to say.

CANCELLED.

The game scheduled between New Hampshire and Boston College for October 25 was cancelled half an hour before the time for the game, after a consultation between the two coaches. At that time it was raining steadily and the field looked more like a pond than a gridiron.

Next Saturday Rhode Island is the attraction and is the last contest before the Massachusetts game.

AGRICULTURAL NOTES.

Plans are making for a Soil Fertility Day in the spring, when lectures on how to fertilize soils, and demonstrations in the use of implements will be given.

Agricultural Reading Courses were established last year by the Extension Service of the College for the benefit of residents of the State who for various reasons can not attend college. A regular text-book was employed and an opportunity for correspondence given. Much under the same plan will be followed in this year's work. By a proper utilization of the long winter evenings in formulating plans for carrying out the farm work, and in systematic study of the business and other problems of the farm, this course may be made the most profitable study of the year.

The courses offered this year are:

1. Solis and Fertilizers.
2. Farm Crops.
3. Farm Stock.
4. Orchard Management.
5. Dairy Farming.
6. Poultry Husbandry.
7. Sheep Husbandry.
8. The Farm Woodlot.
9. Farm Home Reading Courses. (Principals of Cooking.)

The success of last year's courses amply warrant the continuation of the work this year.

On the evening of Oct. 30th Prof. R. V. Mitchell of the Animal Husbandry Department will speak at Pinkerton Academy, Derry. His subject will be "Poultry Production in New Hampshire."

"CHINNING" SEASON.

One more strenuous "chinning" season has passed. How much the first few weeks of college means to the freshman can hardly be appreciated by the new men, who have but recently left their home towns. Now that the "rushing" season is over, it should be the duty of each and every student of the college to see to it that his studies and various other activities in which he should be interested be not neglected.

Under the present system of "rushing" the new men, it is practically impossible either for the freshman or upper classman to do justice to his studies and also to the other branches of student life. A man or woman in college should be able to render his greatest efficiency at any time. Under the present arrangement, this is impossible. This means that both the freshman and upper-classman are deprived of approximately five weeks at the beginning of each college year, during which time they are unable to give their maximum efficiency not only to their studies, but various other phases of their college life as well, thus rendering to themselves an injustice, which, under the present system, seems unavoidable.

While it is not possible to state precisely what the ideal "chinning" season should be, does it not seem, in the face of these facts, that some different arrangement could be devised, whereby the strain of the present methods could be alleviated, and the students spared the injustice which necessarily follows? If the period of the "rushing" season was lengthened till the end of the first semester or even to the end of the year, the strain would not only be lessened but the men would have a much better opportunity to know each other, while those who were unable to keep up in their studies and pursue their course would be singled out before becoming affiliated with any society. Under these conditions, it seems that an injustice both to the student and to the college itself would be discarded.

NEWSY NOTES

At a meeting of the freshman football squad recently, Kyle Westover was elected captain. Owing to the fact that "Kyke" will be with the varsity squad for some time, H. A. Russell was elected captain pro tem. The team is practising daily under Coach C. A. Reed '15.

Realising the adverse financial conditions under which the football department is laboring at this season of the year, the Eurnham A. A., which is composed of several sport-loving members of the faculty, desiring to show their appreciation of the faithful endeavors of the coach and team, have purchased for this department two new footballs. Inasmuch as this gift will assist materially in preparation for the game with Rhode Island State on Saturday next, the manager and coach wish to take this occasion to express their sincere thanks to this public spirited body which is not only of material benefit to our football team but is an indispensable asset to New Hampshire College.

Several new poultry houses are being erected by the Poultry Department on the Colony house plan. The size of the houses will be six by eight feet.

This department is also busy securing birds of the most profitable breeds to be used as a foundation for future flocks.

"Entered as second-class matter September 20, 1911, at the post office at Durham, N. H., under the act of March 3, 1879."

DURHAM, N. H., Oct. 29, 1913.

Due to "the untiring efforts" of Mr. T. A. Carlyle, the dairy department of our extension service has put into motion another cog in the wheel of cow testing association work here in the state. Mr. Frank A. Carroll, a graduate of R. I. Agricultural College is in charge of the work. Mr. Carlyle certainly is one big feature in the successful organization of all our cow testing associations to date, throughout our state.

Prof. Rasmussen will be in Chicago this next week attending the national Dairy Show where he will speak before the International Milk Dealer's Association on "Dairy Laws and Their Influence on the Dairy Industry. Later he will speak on the "Economies of Milk Production," and also at a conference of organizers of cow testing associations on the "Danish Feed Unit System."

Another cow testing association is organized and ready to start in the vicinity of Piermont, as soon as a capable man can be obtained to take charge of the work.

The 19th annual meeting of the New Hampshire Horticultural Society was held last Wednesday, Thursday and Friday, Oct. 22, 23, 24 in Iaconia Notch. Prof. Wolfe spoke on "Tree Surgery and Antiseptics," and in the evening Prof. O'Kane illustrated "New and Old Discoveries in Insect Control." Thursday morning Prof. Wolfe again figured in a demonstration of the box packing of apples. Prof. Kendall spoke in the afternoon of Thursday on "Horticultural Extension Work in New Hampshire," followed by Prof. Lumsden, who discoursed on "Vegetable Growing in New Hampshire." During the evening the subject of "Maintenance of Soil Fertility in Cereals" was well covered by Prof. Gcurley.

Chapel Exercises.

Pres. Fairchild spoke at chapel on Wednesday, Oct. 22, taking for his subject, Loyalty. He alluded to the growing favorable sentiment of the state at large toward this institution but, by way of admonition, said that the efficiency of a college depends upon its student body. He struck from the shoulder in emphasizing the importance of cooperation and the necessity of placing personal, class, or fraternity interests subordinate to the general welfare. Finally the president urged unselfish devotion and loyalty to New Hampshire College in all that redounds to her honor.

PLEDGES.

The Eutomology department is having the insectary at the rear of Thompson hall made into a combined insectary and greenhouse. Plants for the "bugs" to feed upon will be grown under glass and experiments carried on through cold as well as warm weather.

Prof. Cardullo will give a talk before the Church Forum in Lisbon, Nov. 2, on "Some Problems in Taxation." The following evening he will deliver a lecture before the Lisbon board of trade on "Science and Industry."

President Fairchild, Professor Whoriskey and Professor Rasmussen, attended a meeting of the Schoolmaster's Club at Concord last week. President Fairchild delivered an address to the society.

At chapel, Wednesday, Oct. 22, Prof. Richards led the student body in rehearsing several New Hampshire songs, among them a rousing new football song.

DE LAVAL CREAM SEPARATORS

Are equipped with a perfect oiling system

In a machine which is operated at the speed required for a cream separator perfect oiling is very necessary.

The new system of De Laval automatic oiling provides for a constant and liberal supply of *CLEAN* oil to every wearing surface of the machine at all times. There are no oil holes to fill

up with dirt or perhaps to be neglected altogether, and every part is supplied with clean oil from the oil reservoir automatically and constantly.

In other, so-called, automatic oiling systems some of the parts have to be oiled by hand and no provision is made for getting rid of dirt that may get into the oil from the outside or of small particles of metal that come from wear, so that after a short time the oil supply becomes foul and injurious to the finely adjusted wearing parts.

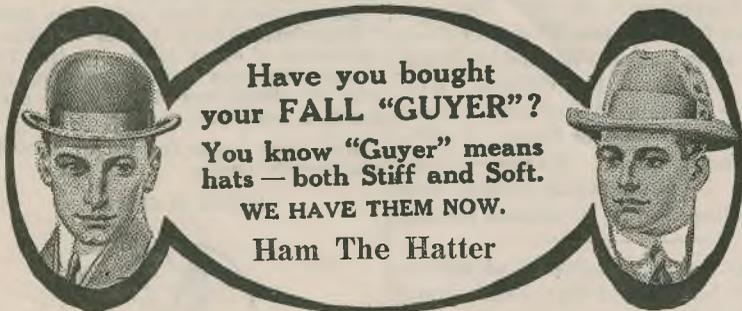

have the only automatic oiling system which provides for a constant supply of fresh oil and at same time the constant discharge of the used oil together with all worn metal particles or dirt which may have gotten into the used oil.

The perfect system of De Laval lubrication means an easier running and a much longer wearing machine. Visit the local De Laval agent and ask him to explain the advantages of De Laval automatic oiling.

The new 72-page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request. Write to nearest office.

ORCHARD DAY.

Orchard Day will be conducted by the New Hampshire College and experiment station extension service on Thursday, October 30, 1913.

Following is the program.

9.30 a. m. to 12 noon.

Greetings from New Hampshire Horticultural Society C. W. Barker
Bordeaux Mixture Dr. O. Butler
Spraying Prof. J. H. Gourley
Use of Dynamite & Results after Two Years Growth of Trees W. E. Putnam
Demonstration Packing Fruit

Prof. W. H. Wolff
Luncheon. Inspection of Fruit Exhibits.

1.30 to 5. p. m.

Address of Welcome Dr. E. T. Fairchild
Sod-mulch versus Cultivation as Applied to New Hampshire Conditions Stanley K. Lovell
Some Mistakes I Have Made

Benj. E. Brierley
Renovating the Orchard Robert Gould
Some Factors in Pruning Old Orchards H. B. Tuttle

Experiences in Handling a Neglected Orchard Wallace P. Mack
The Growing and Marketing of Peaches A. H. Littlefield

Some Orchard Pests and Their Control W. C. O'Kane

Discussions by prominent orchardists of the state will follow the introduction of each subject.

Swett Jesseman and McCartney went Monday to Chicago, to the International Dairy Show. They will compete Friday in the stock judging contest.

"EBEN SAYS."

P. C. Brown, the leader of the Beta Phi sporting circle, had the good fortune, last week to draw nine boxes of chocolates at a raffle. Oscar always was a lucky gambler.

We understand that Mr. J. W. Taylor who has suffered for the last year from rheumatism, so severely that it has prevented his partaking in the military exercises of our institution, is on the high road to recovery. At the present writing, he hopes to be in condition for the baseball season.

President J. H. Annis of the College Club hereby gives notice that all non-members of this club who enter the club room, do so at their own risk. Johnnie is a bad man on the war path.

It is reported that there was a small but tasty banquet given at the Zea House, Saturday evening. Occasion—Mr. Reardon's touchdown against Worcester. May you have many such banquets Mike.

THE POPULAR ROLE.

Francis Burton Harrison, the new Governor-General of the Philippines, has a gift of repartee which, in his entertainments in his beautiful Fifth avenue house, he exercises brilliantly.

At one of Mr. Harrison's dinners a group of "professional reformers" came up for discussion.

"Well," remarked a Bostonian, "as Longfellow says, we knock or are knocked in this world—we must all of us be either hammer or anvil in this world, to use the precise words of the poet."

"We must all be either hammer or anvil, eh?" said, Mr. Burton Harrison. "But how about the bellows?"—St. Louis Globe-Democrat.

President Fairchild, Professor Kendall Professor Gourley, Professor O'Kane and Mr. Lumsden addressed the New Hampshire Horticultural Society at Laconia last Thursday.

Miss Black will address the New Hampshire Horticultural Society at Laconia in the near future.

Touchdowns—Hobbs, Frackett, Woodman, Hissell, Feardon, Westover, Thompson. Coals from touchdowns, Haines 2, Feardon. Substitutions—New Hampshire, Fuse for Thompson, Dowden for Corriveau, Dodge for Feardon, Parker for Fale Willard for Woodman, McCartney for Willard. Worcester—Leadson, Sherwood, Tullock for Ledburg, Camp for Eaton. Referee Stevenson, Exeter. Umpire—Moore, Maine. Head Linesman, Holden, New Hampshire. Time 20 minute periods.

Prof. Fairchild delivered an address to the New Hampshire Horticultural Society last Thursday evening.

CAMPUS NOTES.

The concrete work for the new engineering building is about two-thirds done. It is expected that it will be finished the first of next week.

The brick work will be begun in about one week.

Professor Whoriskey was elected President of the modern language section at a meeting of the State Teacher's Association.

Prof. C. E. Hewitt has just received the appointment of consulting engineer for the Municipal Power Plant of Watkins, N. Y. A large extension is to be made during the coming year.

FAVORITISM.

Favoritism may be partial or favoritism may be merited.

Those closely in touch with the facts never question for a moment that the favoritism shown for

by an overwhelming majority of buttermakers and dairy authorities is anything less than merited favoritism.

"Wyandotte" cleanliness is shown the world around. It is protective. It insures milk and its products against contamination. It is the arch enemy of milk bacteria. It is the champion of purity and sanitary cleanliness. It is the standard of dairy cleanliness.

Who will allow anything less than "Wyandotte" cleanliness where milk is kept is inviting the bacteria germ, lessened milk quality and a lower grade of butter or cheese. Buttermakers who have discovered this fact naturally favor Wyandotte Dairyman's Cleaner and Cleanser and they number three out of every four.

No person is ever asked to favor "Wyandotte" until he is absolutely convinced of every claim for it. This always has been the understanding and why we always say—if not all we claim for it, it costs you nothing.

Ask your dealer for a sack or write your supply dealer.
