PRICE 5 CENTS

TWO YEAR FOOTBALL

1914 Proved to be the Stronger.

The two-year 1914 and two-year 1915 football teams engaged in the last football game of the season last Saturday on the Athletic field. The 1914 team proved the stronger and more skillful and won by the score of 16 to 9. A small crowd was present to witness the contest. Woodman and Mosher starred for the '14 team and Smith, McMahan, and Huse for the first year men.

1914.	1915.

Leon Hawkins, referee; Irving Brown, umpire; J. Keyes, timer; John Grady, headlinesman; Bennet and Jaquith, linesmen; touchdowns, McMahan, Mosher, Woodman; goals from field, Huse, Woodman. Time 10 periods.

BASKET BALL PRACTICE.

The basketball team, under Coach Arthur Adams, is working out daily in the gym. in preparation for the hard schedule prepared by Manager Lloyd S. Riford. A large number of candidates are out and competition for places on the team is being fiercely contested. Of last year's team, Jones and Jenness have graduated and Lindquist has left college. Came, Thompson, Bissell and N. Sanborn are out again this year. Coach Adams has picked out the following men to constitute the first team for the present: Came, rb; E. Watson, lb; N. Sanborn, c; Bissell, rf; and Capt. Thompson, lf. The following men have been reporting daily for practise: Burbee, Hazen, Clark, Arnold, E. Sanborn, Torrey, Fernald, Corriveau, Woodman, Sussman, Sellers, Downey, Smith, Swett and Ross.

Coach Arthur Adams who comes here from Concord, N. H., to coach basketball and track is well known in athletic circles throughout New England. He was for three years track coach at Colby College and also coached track at Brewster Academy.

THANKSGIVING RECESS.

Great was the rejoicing Monday evening when it was learned that the faculty, in meeting assembled, had decided that the Thanksgiving vacation would extend from Wednesday noon to Monday noon. This will give the students who live at some distance ample opportunity to enjoy the associations of home during the holidays and to sober off so that they may return to their work with renewed vigor.

FOOTBALL BANQUET.

Manager John E. Davis, in behalf of the Athletic Association, tendered a banquet to the members of the football team last Thursday evening at the Grange Hall. "Simp" produced an excellent "feed", which was enjoyed by all present. In addition to the team, the three assistant managers and Lieut. C. A. Hunt, who had charge of the second team during the past season, were in attendance. After the banquet Capt. W. H. L. Brackett called upon the various men present for a few words. Following this the crowd was augmented by divers representatives of the fair sex, and dancing was enjoyed until the wee small hours of the morning. Dean Thompson and the matron of the dormitory, Mrs. Marcia Saunders were the chaperons of the evening. Music was furnished by that popular dance team, Ward and Langley on the piano and traps.

BASKET BALL SCHEDULE.

Below is given the basket ball schedule as arranged by Mgr. L. S. Riford. A trip through New York during the spring recess, playing Fordham, New York University and several others may be added. These games are being negotiated for at present. There are several new games noted on this schedule, namely Dartmouth, Harvard Graduates and Boston University of Law. The schedule is as follows:

Dec. 12—M. I. T. at Durham
Dec. 18—Dartmouth at Hanover
Jan. 7—Wesleyan at Middletown
Jan. 14—Cushing at Durham
Jan. 23—Harvard Grads at Durham
Feb. 14—Springfield Y. M. C. A. College at Durham
Feb. 20—Cushing at Ashburnham
Feb. 21—Dean at Franklin
Feb. 25—Boston U. at Durham
March 2—Dean at Durham
March 7—Sophomores vs Freshmen.

HARD-LUCK TRIO.

J. F. Perkins, C. F. Graham and Henry Hart thought it would be great fun to take a boat ride Sunday so they procured a dory and started out, about nine o'clock in the morning, for Portsmouth. They arrived there safely and spent a very enjoyable day of rest. Late in the afternoon they happened to think that they resided in Durham and thought that it was about time for them to start on their return trip. They proceeded a short way on their return journey but the tide and wind were against them and they had to turn back to Portsmouth. They remained in Portsmouth a short time trying to figure out how they were to get back to Durham. After some meditation they decided to "hoof it" to South Berwick, Me. Here by good luck they ran across a friend who, after some persuasion, paid their fare to Dover, but no farther, so they had to "hoof it" again, and after a long time they arrived in Durham, a forlorn and distressed looking "bunch."

The initiation of fifteen pledges and two honorary members into Alpha Alpha Alpha sorority took place last Saturday evening. The new members are Mrs. Fairchild, Mrs. Pettee, Misses Mack, Colby, Dietrich, Beatrice Reed, H. Nudd, Brackett, Tebbets, Worcester, Langley, Chase, Basch, Roberts, Lumsden, Steuerwald and Hardy.

GRANGERS VISIT COLLEGE.

A delegation of Grangers who have been attending the grange meeting at Manchester arrived last Saturday afternoon, on a tour of inspection. They were met at the station by the band and conducted to the gymnasium, where a luncheon was served by the girls of the college home economics department. Speeches of welcome were made and were responded to by the State Master of the Grange. The delegation then inspected the college buildings and left late in the afternoon feeling grateful to New Hampshire College for the pleasant time which was passed.

Y. M. C. A.

Those who did not hear Mr. L. R. Talbot of Boston University speak on "The abundant Life," before the college Christian Association last Sunday, missed something worth while. Mr. Talbot considered his subject as manifested in body, mind, and spirit, and he made clearly evident the interrelation between these different phases of a man's life. Proper exercise, he pointed out, made a fit body, which in turn made possible a clear brain. These conditions fulfilled, the man could further ennoble his life by social service; properly equipped and directed by a life of close communion with and nearness to the Master. Such a life would be successful even if the results were not immediately apparent. Mr. Talbot's personality and his method of handling his subject lent much interest to his remarks.

CHAPEL EXERCISES.

Prof. James was the speaker at chapel last Wednesday. He gave a very interesting talk on a journey which he made in Central America. After bringing up some humorous experiences. The close of his speech was met with considerable applause on the part of the students and that the lecture was exceedingly enjoyable was the opinion of all.

GRANGE DANCE.

A large number of students of the College took in a whist party and dance at the Grange Hall last evening. These social evenings are becoming more and more popular, since they tend to break up the monotony of the long winter evenings. Music was furnished by Ward and Langley.

At the regular meeting of the New Hampshire board held Monday afternoon in Thompson Hall, the following additions were made to the staff of the paper: Miss Mary Frances Murphy will fill a long felt want in the capacity of society editor; Aloysius J. Connor and Roger L. French will assume positions as associate editors. Several others are being considered and more will probably be added to the staff in the near future. Mgr. R. E. Came wishes for some hustling young men with some business ability to try out for the position of assistant business manager of the paper. Any who are willing to do this will please report to him at once.

A wing of the dairy building is being fixed over for the better handling of the farm milk.

A sterilizer is being built, and modern up-to-date sanitary equipment is being installed.

THE BOSTON OCTETTE.

On Friday evening, the twenty-first, the opening number of the Lecture Course, The Boston Octette, was enjoyed by a large audience of students and townspeople. Before the first number of the concert the College Orchestra rendered several selections in a superb manner, which convinced everyone that it is not necessary to send to "The Hub" for musicians.

The first number "Bedouin Song," was rendered by The Schubert Quartette, Harold S.ripp, first tenor; Charles W. Swaine, second tenor; William W. Walker, baritone and A. Cameron Steel, Bass; and Miss Kinsman, accompanist in an exceedingly pleasant manner. This brought forth an outburst of applause which was answered with "Barcarolle" from "Tales of Hoffman." The second number a reading from act four, "Paola and Francesca" given by Miss Catherine Cole was an unusual exposition of dramatic reading. This was not allowed to pass without a further demonstration of Miss Cole's ability, who responded with a selection in German dialect the opposite in character of her first selection.

Following the readings, Miss Evelyn Blair sang "A Song of Joy" and "Will O' the Wisp" in a superb manner. Miss Blair is an exceedingly pleasing soprano soloist of unusual ability who is bound to receive a warm welcome where ever she goes. "Les Adieux" a violin solo was rendered in a most beautiful manner by Miss Barbara Werner, that bespoke a great deal of practice and patience to attain such a degree of perfection. The Schuberts sang, "Hark! Hark!" a vocal waltz and a few other selections of a humorous nature which were warmly welcomed by all.

Mrs. Puffin's silver wedding and illustration of a young father (Eben) putting the baby to sleep were further evidence of Miss Cole's unlimited ability as a reader. Every one was greatly pleased when Miss Blair appeared again and sang "Vale of Dreams." The Schuberts now entertained with a most splendid rendering of "Sunset" by Vaude Water. A violin solo "Habanara" was further evidence of Miss Werner's great accomplishment upon so difficult an instrument and was received enthusiastically by the audience.

"Moonrise" the final number was rendered in a most excellent manner by the Schuberts accompanied by Miss Werner on the violin and Miss Kinsman at the piano. It was a fitting finale to a program, every number of which was enjoyed to the fullest extent by the large crowd which attended.

On Saturday evening, the fifteenth gymnasium was the scene of a gay dancing party which was attended by a large number of the alumni, many out-of-town guests, several of the faculty and the majority of the student-body. The dance was in charge of Miss McKone, Mr. Waite and Mr. MacDonald, members of the Social Committee. Mrs. Sanders, Mrs. Laton and Miss Helen Thompson were the matrons of the evening. The affair was a pronounced social success and one of the most enjoyable of the season.

Prof. Guy C. Smith addressed the Farmington Woman's Club November 21st on the subject "Some Neglected Elements in the High Cost of Living."

FACULTY AND STUDENT.

One of the gravest and most serious mistakes which a student can make during his course at college is failure to become personally acquainted with his instructors. The student who fails to come into closer contact with the faculty members of his course than that contact which the routine of daily recitations affords is depriving himself of one of the most valuable assets of a college training. Not only is he doing himself a grave injustice during his college life, but he is failing to grasp an opportunity, which, had he accepted, would have been of inestimable value in after life.

While the majority of instructors endeavor to be of as much service as possible in the class-room, it is impossible, by the very nature of their work, for them to convey the confidences and radiate the inner personalities, that they possess, which individual companionship renders possible. How much better it would be if students cultivated, at the beginning of their college careers, the habit of confiding in their professors and instructors, and thus soliciting the friendship and confidence of men, whose companionship and advice is sure to prove profitable!

Such a relationship between students and faculty can be made practical if the student will only show a willingness to accept such friendships and meet his instructor half way. He will find him willing to do his share and even more, if the student will but show a desire for such friendship, and manifest upon his part a willingness to co-operate.

In this way, student and instructor not only become better acquainted with each other while the student is in college, but such a relationship will nearly always bear fruit in more ways than one after he has left his almer mater, and becomes engaged in the larger affairs of the outside world. This is a point well worthy of careful consideration, and still is one which is all too liable to be passed upon lightly and carelessly neglected.

A girl's Glee Club was formed about a month ago under the direction of Dr. A. E. Richards, Miss Genievire Charbonneau is leader of the club and the following are members: Misses Burpee, Basch, Brackett, Crandall, Chase, M. Dudley, Dietrich, Ewer, Finley, A. Hoitt, Lumsden, Murphy, F. Nudd, H. Nudd, Plummer, Poland, Gilson, Nash, Weston, Turcotte, Mack, Roberts, White, Worcester and Bernice Reed.

The club expects to join forces with the Mandolin Club soon in several selections which are mutually appropriate to both organizations.

LIFE SAVING STATION SACKED

Last Tuesday night, the eighteenth, two of Durham's young men effected an entrance to Brackett's Emporium during the early morning hours by removing a screen from one of the back windows which happened to be open. In the morning when George opened up disorder greeted him on all sides. Tables, packing cases and tonic boxes were scattered all over the floor, George wended his way through the debris to the cash register which he found had been tampered with. Immediately he procured a pencil and paper and after some figuring realized that he had been relieved of fifty dollars. He sent in a riot call to Durham's police station at once. The constable and his plain clothes men arrived on the job in a remarkably short time in the new patrol wagon. The sleuths reviewed the debris and immediately set out on the trail of the culprits after the fashion of Sherlock Holmes. After a long and strenuous chase through the wilds of Dover Point and the Piscataqua Valley they came upon the trail of one of the yeggs and after a running chase through swamps and woods they succeeded in capturing him at Watson's farm. Upon being taken the criminal whose name we withhold, divulged the name of his fellow in crime who was at once secured and taken to the police station in the patrol wagon. They were let out on bail of \$1000 apiece. George appeared against them at the hearing and at this writing was still testifying.

Thomas C. Bailey '12 has recently been made head of the science department and athletic director of the schools of Ludlow, Mass. In addition to this he is superintendent of the Sunday school at the Union Church. Mr. Bailey was married last August to Miss Ethel Leach of New Boston, N. H.

The Women's League of New Hampshire College—a league whose membership consists of women students, resident alumni, wives of resident alumni, women of the faculty and of the Station Staff, the Registrar and the matron—is planning to give a play in the near future. The proceeds of this entertainment will go towards fitting up a new rest room in "T" hall for the young ladies of the college.

Mr. Lewis informs us that the Mandolin Club is developing rapidly. At present those connected with the club are Misses Ewer, Beatrice Eed, Worcester, Messrs Loomis, Dresser, MacDonald, Lapey Brogini and L. F. Brown. An addition to this number will be made after Christmas where it is expected that eight or ten more players will join. First and second mandolins, tenor mandola and guitars comprise the instrumentation of the club. We may safely expect to hear several fine selections from the club in chapel some time shortly after Thanksgiving recess.

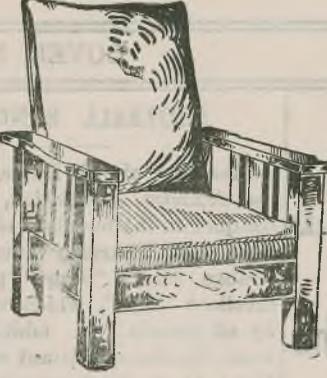

A picked team of students, representing Durham High School, went to Portsmouth Saturday where they played the strong Portsmouth High eleven. "Durham High" won by the score of 13 to 0. Hazen and Fernald starred for Durham while Davis showed up strong for Portsmouth.

DE LAVAL CREAM SEPARATORS

Are equipped with a perfect oiling system

In a machine which is operated at the speed required for a cream separator perfect oiling is very necessary.

The new system of De Laval automatic oiling provides for a constant and liberal supply of *CLEAN* oil to every wearing surface of the machine at all times. There are no oil holes to fill

up with dirt or perhaps to be neglected altogether, and every part is supplied with clean oil from the oil reservoir automatically and constantly.

In other, so-called, automatic oiling systems some of the parts have to be oiled by hand and no provision is made for getting rid of dirt that may get into the oil from the outside or of small particles of metal that come from wear, so that after a short time the oil supply becomes foul and injurious to the finely adjusted wearing parts.

have the only automatic oiling system which provides for a constant supply of fresh oil and at same time the constant discharge of the used oil together with all worn metal particles or dirt which may have gotten into the used oil.

The perfect system of De Laval lubrication means an easier running and a much longer wearing machine. Visit the local De Laval agent and ask him to explain the advantages of De Laval automatic oiling.

The new 72-page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request. Write to nearest office.

DISSERTATION ON THE SHIRT

Writer Uncorks Vials of Wrath in a Few Indictments of Uncomfortable Modern Garment.

The onward march of civilization has its obstacles.

Shirts being made for man and not man for shirts, every time a man gets a new shirt or one comes back from the laundry the moral uplift needs the application of the safety brake and the emergency clutch to keep us from dropping into the cellar again.

Shirts are made of various kinds of materials. After the sewing is finished they are left for a few hours in a strong mixture of glue and concrete. This fastens the back to the bosom and sticks the sleeves together. Buttonholes are then made in the neckband, and the band is then steeped in cement so that the buttonholes cannot be opened. The bosom is then adorned with buttons. These buttons are sewed on with one weak thread, so that when you try to button the shirt, after having pried it apart with a paper knife and strong language, the buttons will fly away merrily.

Shirts that are laundered are always sent back with the lower button buttoned in, and all the buttonholes glued tight.

Dress shirts are made with veneered bosoms, with little round holes where the studs are only supposed to be placed. These bosoms are absolutely inflexible, and the studs cannot be inserted without the aid of a sledge hammer, which is damaging to the disposition.

The man who will invent a buttonless shirt, which cannot be starched in the neckband, will earn a monument which will be illuminated at night.—Chicago Evening Post.

Removing Mildew Stains.

Soaking mildew stains in buttermilk or sour milk will many times remove them, but not always. Try a solution of one heaping teaspoonful of chloride of lime to a quart of soft water; strain, when well dissolved, and dip the mildewed spots in it until the stains disappear, then rinse immediately and thoroughly in clear water.

On a Pinch.

Rivers (erasing something he has written)—I want to speak of a bald-headed man and I don't want to use the billiard-ball comparison. Can't you think of something not quite so hackneyed?

Brooks—You might say he's as bald as an eggplant.

Rivers (rattling away on his typewriter)—Thanks, that'll do fairly well.

Origin of Present-Day Games.

Though we get our games of tennis from the eastern countries, most of our games of bat and ball come down to us from the ancient north. Ring games and games in which light objects are thrown come also from forest countries, where the spear was a familiar weapon. But all of them alike appear to revert in origin to early experiences of the race by which they worked out their salvation.

Wisdom of Childhood.

The following composition on men is credited to a little girl: "Men are what women marry. They drink and smoke and swear, but don't go to church. Perhaps if they wore bonnets they would. They are more logical than women and also more zoological. Both men and women sprung from monkeys, but the women sprung further than the men."

Queer Find on Golf Links.

While "approaching" one of the greens on Athy, County Kildare, Ireland, golf links during a recent week, a lady who cut into the turf with her club unearthed a set of false teeth.

Meals Served Up To Almost Midnight.

The winning team of the Lecture Course ticket sellers enjoyed a banquet last Monday evening at Ham's in Portsmouth. The fellows went down in automobiles, and the night was a perfect one for such an occasion.

Coach Adams held a short conference with the track candidates last Thursday in which he meted out a few words of advice in regard to training. A large number of last years' men and new candidates were on hand. Candidates for the relay team, which competes annually with Rhode Island at the Boston Arena, are already practising daily.

When you have your chimney cleaned down't throw away the soot. Put it on the lawn or on the garden and it will make better grass or crops next year. One manufacturer recently wrote to the college asking if there was any use to which his accumulating soot could be put. He was much interested to learn that his dirt was worth nine dollars a ton as fertilizer.

Professor F. W. Taylor of the agricultural faculty, explains that soot is rich in nitrogen, one of the essentials of a good fertilizer. It will kill many pests and keep off slugs. A good fertilizing mixture is made of one part soot, one part lime and five parts dry earth.

Last Friday President Fairchild was in Manchester at the meeting of the grangers. He escorted a number of them to Durham, to the college.

Good reports have been received from Gale Eastman, Agricultural Agent for Sullivan County, under the direction of the Bureau of Plant Industry and New Hampshire college.

A new cement trough is being built in the college barnyard. In the new trough there will always be fresh water.

Professor Taylor of the agronomy department will be judge of cows at the cow show to be held at Springfield, Mass., by the Massachusetts State Board of Agriculture, from December 3 to 4 inclusive.

Through the courtesy of the manufacturers, Keuffel and Esser, the Physics department recently had on display samples of slide rules and calculating machines to the value of about \$400.

Oren L. Farwell, '08 is married to Millicent Ruffler of Nelson.

Cleanliness is "Prolific."

Benjamin Franklin says, "Money is of a prolific, generating nature. Money can beget money, and its offspring can beget more, and so on."

So with "Wyandotte" cleanliness. It is of a generating nature, for the protection it gives to milk and cream not only insures a better quality of milk and cream but makes possible a higher grade of butter or cheese, and for higher grade butter or cheese there is a big demand, and demand in turn means higher price, and higher price means bigger pay for your labor.

"Wyandotte's" success in cleaning the factory is predetermined. It is made to remove bacteria, to freshen all staleness and to produce a sanitary condition that protects milk from deteriorating influence. Other benefits are derived from the excellent condition in which it keeps the utensils and the containers, for "Wyandotte" is not an injurious chemical which will corrode or rust. It is equally harmless to the thing cleaned as well as to the milk quality.

Ask your dealer for "Wyandotte" or write your supply house. Give it a thorough trial and then you too will appreciate why it is used steadily by 855 of the factoryman as well as hundred of dairyman and milk dealers.

All claims always guaranteed.
