

The New Hampshire.

Miss C. A. Thompson,

Vol. 3, No. 13.

DOVER, N. H., DECEMBER 17, 1913

PRICE 5 CENTS

FIRST GAME A VICTORY.

Home Team Runs Up Large Score.

In a one-sided contest the New Hampshire State basketball team defeated the quintet representing the 1914 class of the Massachusetts Institute of Technology at the College Gym Saturday evening Dec. 13, by the score of 50 to 9.

In spite of the one sided score the game proved interesting, as the visitors displayed an excellent exhibition of passing, but the New Hampshire backs kept the ball away from the basket most of the time. The teams appeared to be more evenly matched in the first half, but in the second period Thompson dropped the ball into the basket almost at will.

Captain Thompson was easily the star of the game, getting 15 baskets from the floor, four in the first half and 11 in the last, while Captain Williams showed up the best for the visitors. Burbee, Came and Watson also played well for New Hampshire.

"Joe" Killourhy held down the referee's job in his usual fashion, keeping the crowd in a joyful mood throughout the game.

Darkness put a stop to the game for ten minutes during the second period. An investigation was made and a burned out plug was finally located in the basement:

The summary:

New Hampshire	M. I. T. 1914.
Burbee, rf	lb, Williams
Bissell, rf	lb, Galene
	rb, Bryant
Thompson, lf	c, Fox
N. Sanborn, c	c, Ruoff
Watson, rb	lf, Comber
Came, lb	rf, Tirrell
E. Sanborn, rb	

Goals from floor; Thompson, 15; Burbee, 2; Came 2; Watson, 2; N. Sanborn, 2; Williams 2; E. Sanborn, Comber. Goals from Fouls; N. Sanborn, 2; Tirrell, 3. Time: two 20 minute periods. Umpire, Killourhy. Timer, Swett. Scorer, Key.

Mr. Kendall has recently bought a big Holstein bull from J. W. Prentiss & Son, of Alstead, N. H. He is well bred, weighs 1950 pounds and will be three years old in February.

Mr. Hardy of Newmarket, is going to construct four bull-pens, and some hay storage houses for the college.

President Fairchild has prepared an interesting study of the marks of the fraternity and non-fraternity men of '14, '15, and '16, which affords a clear comparison of their standing. Copies will be put in the hands of the various fraternities, and the non-fraternity men. This study has taken about three weeks in its preparation and should be of extreme value.

The steel has arrived for the new building and the masons are again at work after quite a lay off. The delay will somewhat offset the plans of the contractors, who planned to have the roof on by February.

NEW FRATERNITY HOUSES IN PENNSYLVANIA.

There has been a remarkable growth of fraternities at the University of Pennsylvania. Improvement work has been on the increase also, and at present the Phi Gamma Delta and Delta Upsilon Fraternities are building new chapter houses on Locust street, between Thirty-sixth and Thirty-seventh streets, that will rank with the most modern and costly clubhouses at the University. Both buildings will be completed and ready for occupancy early in the Spring.

There are twenty-six general fraternities, seven local, two legal, twelve medical, three dental, two veterinary, two graduate, two women's, one engineering and three honorary societies represented, making a total of sixty chapters.

The only larger general fraternity which had its beginning at the University of Pennsylvania, however, is the Phi Kappa Sigma, founded in 1850. Another fraternity, the Sigma Phi Sigma, which started at the University in 1908, is meeting with considerable success. A number of unique local societies, including the Sphinx, Book and Jug, Friars and Gargoyles, are also conspicuous in undergraduate life.

Forty-three fraternities have chapter houses, thirteen own the properties they occupy and eight have within recent years built clubhouses. A distinct type of architecture is a noticeable feature.

Among the most imposing clubhouses at the University of Pennsylvania are the Tau Chapter of the Psi Upsilon, which owns the gray stone building triangularly shaped at the forks of Woodland avenue, Locust and Thirty-sixth street; the Alpha Chapter of Phi Kappa Sigma, on the northeast corner of Thirty-sixth and Locust streets; the Delta Psi House, known as St. Anthony Hall, on Locust street, between Thirty-sixth and Thirty-seventh streets, and the Zeta Chapter house at the Phi Delta Theta, at the west forks of Walnut street, Woodland avenue and Thirty-fourth street.

The Delta Psi House is probably the most spacious clubhouse near the campus. The material is the same as that used on all recently-constructed University buildings—hard brunt brick with Indiana limestone trimmings.

The faculty of the University of Texas has prohibited first semester pledging among the Greek letter fraternities. Only those students who have passed 12 hours work are now eligible to become members of a fraternity.

Massachusetts "Tech." has a total enrollment this year of 1,668 students, which exceeds last year's enrollment by 57. This institution is noted for the large number of students from foreign lands.

The University of Pennsylvania awarded 19 honorary degrees in the last school year.

At the end of 2½ hours, the annual flag rush of the University of Cincinnati was stopped and declared a draw because 15 men had been injured.

One hundred Wesleyan Freshmen last week abandoned their recitations at the command of the Sophomores and started to take a census of all the cats in the city. The city was divided into districts, and an accurate return had to be made from every household as to the number, sex, and pedigree of all cats owned.

CHAPEL EXERCISES.

Music by the Girls Glee Club, the Mandolin Club, and the College Orchestra, constituted the Chapel exercises last Wednesday.

The selections by both the Glee Club, the mandolins, and the orchestra were enthusiastically applauded and especially "Mister Boogaman," by the Glee Club, and "Humoresque," by the mandolins.

The reception given them should promise their services for future Chapel meetings.

Singing by the student body followed the special program.

COLLEGE CHRISTIAN ASSOCIATION.

Last Sunday Henry Abrams, president of the Boston Central Labor Union addressed the Christian Association on the subject of the Labor Union. He showed the necessity of unions from the fact that he had never known of a case where wages had been increased and hours shortened, without the organized effort of a union bringing it about. Among the things that have helped hold the union together he mentioned the travel benefit where a man could borrow enough to carry him to another town to get a job, strike benefit, where he received five dollars a week, sick benefit, when he was entitled to the sum for thirteen weeks, out of work benefit, when he could draw three dollars a week, besides the death benefits of varying amounts that he might receive. All these benefits were secured by the payment of .30 a week, with an initiation fee of three dollars. In addition to these benefits the unions have been able to shorten the number of hours, increase the pay, and get Saturday afternoon off for its members, all of which has resulted in better health for the wage earner and longer life.

FROM OTHER COLLEGES.

An alumni directory is being compiled by the Alumni Council of the University of Chicago, which will include about 7,000 names, arranged according to degrees conferred. The register will also include tables of statistics of the different classes.

In a recent debate at Colby on the subject, "Resolved, That the honor system should be adopted in all examinations at Colby College," the negative side was an easy winner.

Washington and Jefferson's football eleven led the country in scoring this fall, running up a total of 347 points. 127 of these were rolled up by their left half back, Spiegel, who made 21 touchdowns, and kicked one goal. Other colleges scored as follows:

Washington and Jefferson	347
Navy	303
Indians	295
Syracuse	270
Army	252
Harvard	225
Dartmouth	218
Princeton	181
Tufts	174
U. of P.	169
Yale	126

The gymnasium of Dartmouth is so large that a full sized baseball diamond can be laid out on it. This has already been done and daily practice has been held on it.

SMITH HALL SOIREE.

The girls house party of last Friday evening proved to be a splendid success. The guests arrived about eight o'clock and were ushered into a charmingly improvised reception room. From there they were taken to the large entrance hall which was given up to the dancers for the evening. The hall and dining room were artistically decorated with trailing evergreen and tiny fir trees sprinkled with sparkling mica snow. The soft glow from red and white shaded lights gave the finishing touch to the Yuletide effect. Too much credit cannot be given to Miss Charbonneau for her masterly arrangement and carrying out of the decoration scheme.

During intermission the merry party repaired to the parlor which with its stately palms and beautiful flowers was converted into a miniature conservatory. Here refreshments consisting of harlequin ice cream and wafers, were served. Thirty carefree couples danced to the well-rendered music of Messrs Dresser, Wiegel and Brogini until eleven. Mrs. Saunders and Miss Helen Thompson were the chaperones of the evening.

TANGO PARTY.

The "Tango Trio" gave an informal dancing party in the Crange Hall, last Friday evening. Guests were present from Haverhill, Portsmouth, Dover, Newmarket, Madbury, Lee Hill, Barrington and Boston. Dancing was enjoyed until a late hour with the exception of a short intermission during which refreshments were served. Among the elaborate gowns noticed was an exquisite creation in pink crepe de chien which was worn by the hostess. Music for the occasion was furnished by Ward's Imperial Orchestra of Seabrook, Mass. A short concert program preceded the carefully arranged dance order, and was as follows:

March, Turkish Imperial Guards Suppe Overture, A Knight for a Day, Sousa Selection, The Purple Widow
Manderville
Xylophone Solo, Red Pepper Rag.
Mr. Lester Langely.

Below is given the time of arrival and departure of mails from the Durham Postoffice:

Leave going East.	
7.45 a. m.—9.05 a. m.***2.30 p. m.—	5.45 p. m.
Arrive from East.	
9 a. m.—10.30 a. m.***2 p. m.—5.45	p. m.
Leave for West.	
8.25 a. m.—9.45 a. m.***1.30 p. m.—	5.10 p. m.
Arrive from the West.	
8.30 a. m.—9.45 a. m. ***3.10 p. m.—	6.30 p. m.

The steel has not arrived for the floors of the new engineering building except for the first. The work, however, is going on rapidly. The brick walls are steadily rising, and the brick-layers are putting on the first layer or course of terra cotta.

The carpenters are putting on the roof of the laboratory and the plumbers are laying sewerage pipes through the basements.

Thursday, Dec. 11, Mr. Kendall went to Keene, N. H., where he spoke to the Commercial Club.

DOVER, N. H., DEC. 17, 1913.

THE HOCKEY SITUATION.

Three years ago the students of New Hampshire College attempted to organize a hockey team. Owing to a poor start, and also to lack of funds, the attempt was not very successful. A rink was made but this too was doomed to failure. The following year a second attempt was made to have the college represented on the ice. Although this rink was an improvement over the one of the previous year, it was not an ideal place to practice. As a result, the college was not officially represented; however, an independent team was organized and a number of games were played.

This year the athletic association has decided to organize a team and adopt hockey as a winter sport. In order that this movement may be successful, it behooves everyone, who has any ability whatever in this line, to come out and support the movement. Like every other athletic sport, the best hockey team can only be developed by keen competition. No team can hope to be at its best with scarcely enough men out to make one team. With new and better facilities for skating than ever before, there should be an abundant supply of available material, from which to pick a team. Come out for the exercise if for nothing more. Those who are interested in athletics, and are not "out" for some other activity, should find this branch of sport an ideal outlet for their enthusiasm and energy.

Every year many institutions are abolishing basket ball. This means increased difficulties in arranging games for our teams. In the face of such a situation, it seems to be only a matter of time when basket ball will be abolished at New Hampshire. New Hampshire College has in the past been represented by some strong teams. In fact, she has probably gained more prestige through this sport than any other. If she is to lose this major sport, it is of vital importance that the one which replaces it be supported with the same interest and enthusiasm. At the present time, hockey seems to be the sport which is to replace basket ball. If this is so, it may readily be seen how important it is to have New Hampshire College represented by a first class hockey team, which will uphold the prestige already secured by our basket ball teams in the past.

A co-operative association is being formed at Ohio State by stewards of fraternities and eating clubs, to enable them to buy foodstuffs in carload lots. It is estimated that \$40,000 was spent for edibles by their organizations last year.

ABOUT COLLEGE.

The Senior Skulls will conduct a select dancing party tomorrow evening in the Grange Hall. These parties are an annual affair and are looked forward to with a great deal of pleasure by those who are fortunate enough to be able to attend. The Senior Skulls is Senior secret society which was formerly a signal strength in the social swirl of the assembly.

Several new members were initiated into the mystic brotherhood of "Dogs" at a recent meeting. This society with its rapidly increasing membership, has its quarters on the third floor of the Pettee Block, on Broadway. "Flower" and "Red Lead" was furnished by George Brackett, Licensed Victualer. The complete list of new members is not yet ready for publication.

At a meeting of the Athletic Association last Wednesday afternoon in the College Club room "Clint" Reed, "Chipper" Parker, and "Sherb" Fogg were elected assistant basketball managers for the season. The subject of hockey was also discussed and it was decided to have a team. "Ike" Haines was elected manager.

According to a ruling of the council of the University of Kansas, no student may attend a dance at which a general price of admission is charged to the public.

Students at the University of Louisiana announce their candidacies for the various college offices in the college weekly.

President H. S. Drinker and Lehigh University are taking a notable part in the development of the student's military camp project originated by Gen. Leonard Wood. At the Gettysburg camp last summer eight students were members of the camp.

Out of 395 of the American colleges 135 have the honor system. Of the remaining number, all but 35 favor its adoption.

People who take special pride in their growing libraries are particular to use

Globe-Wernicke Sectional Bookcases.

These bookcases grow space with the library and are an aid to library building because they afford opportunity to classify books according to topics and authors.

And this is also very important they adapt themselves to rooms of all shapes and sizes and can be rearranged in any number of new combinations as the old arrangement becomes tiresome. This is one feature that should influence you.

DE LAVAL CREAM SEPARATORS

Are Easiest to Wash

The construction of the De Laval bowl is such that it can be completely taken apart for washing.

The discs, bowl parts and tinware have no tubes, crevices, holes or corrugated surfaces such as are found in other machines and which are very hard to clean.

The De Laval discs are washed as a single piece and the whole machine can be thoroughly

CLEANED IN FIVE MINUTES

There is no part of the De Laval bowl which cannot be easily reached and seen, so that the operator can always tell whether or not every part has been properly cleaned.

The ease in which the De Laval can be thoroughly washed and kept in a Sanitary condition is one reason why creamerymen prefer De Laval to other separator cream, and is likewise one of the reasons why butter made from De Laval cream has always scored highest at the National Dairy show for 20 years.

The 72-page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. Larger De Laval catalog also mailed upon request. Write to nearest office.

NOTES ABOUT COLLEGE.

Prof. F. E. Cardullo journeyed to New York last week, where he attended a meeting of mechanical engineers.

Electrical Engineering 7, a new course for freshmen electrical engineers, was slated last week. The first lecture was held, Thursday 4, in Conant Halls. Prof. Fawcett, presiding. Next week, Prof. Cardullo will take charge of the other new course, mechanical engineering 51.

On Dec. 17, President Fairchild addressed the Wonalanset Club of Concord, N. H., on "The New Movement and What it Means in Building Up the Resources of the State." The Wonalanset Club is one of the largest in the state, and is made up of some of the most influential business men of Concord. President Fairchild is the first of a number of prominent men who will speak during the year.

On Dec. 17, Professor Gourley went to Newport, N. H., to speak on "Apple Growing in New Hampshire, and Why." He will try to establish there, the agricultural reading courses offered by New Hampshire College.

The Women's Club of Durham was entertained by Mrs. Fairchild last Wednesday afternoon. Prof. Richard Whoriskey gave Christmas readings from Dickens.

At Harvard the official enrollment figures for the year 1913-14 have just been supplied through the medium of the Harvard University Catalogue, and shows an increase in all departments of the university except the Law School where there is a decrease of 45.

The Chinese students at Cornell were given charge of a meeting held by the Freshman class recently and put on a program which met with unanimous approval.

The upper classmen of Dartmouth have been asked to volunteer to tutor those students who cannot afford a private tutor.

Gifts of \$1,500,000 to Johns Hopkins Medical School; \$200,000 to Barnard College; \$200,000 to Wellesley College; and \$50,000 to Ripon College, a total of \$1,900,000, have been made by the general educational board which was founded in 1904 by John D. Rockefeller.

No physical exercise credits will be given to the students at the University of Pennsylvania unless they pass an examination in the form of athletics they pursue.

Princeton has more than 500 men out for athletics this year.

A commendable service is being done hundreds of poor people at the dental and surgical dispensaries of the University of Pennsylvania Settlement. Treatment is free and daily clinics are held at which all who desire may avail themselves of the opportunity of consulting experienced physicians.

Business judgement rather than sentiment may save the quaint little house in Craven street, London, where Benjamin Franklin, founder of the University of Pennsylvania lived. The block is to be the home of a large hotel, and at first it was thought the famous dwelling house of the philosopher might have to be destroyed. But the owners of the hotel have decided to include the Franklin apartments. Its historical associations will undoubtedly repay the owners many times over.

An innovation has been instituted at Dickinson College in the form of a practical lecture every Friday morning during the school year by prominent men of the United States.

Columbia has officially made soccer football a part of the regular training in gymnasium work. At least 600 students will be required to play the game twice a week. A champion squad is to be selected from this number.

Statistics of enrollment show that more students at F. & M., are enrolled in the A. B. course than all the other courses combined.

Rattlesnake Poison Wouldn't Answer for Whites of Eggs.

We are told by chemists that the white of an egg and the rattlesnake poison are composed identically of the same quantity of the same elements. The same is true of oil of roses and common coal gas.

The way chemical elements are combined determine largely the chemical nature of the resulting material.

True it is that

looks very much like other white powders, and even though chemists' analysis, as is sometimes claimed, should determine "Wyandotte" to be like some other similar looking powder, there would still be a possibility of a difference in the chemical action of cleaning.

The fact is however, that "Wyandotte" is positively different from any other material used for dairy cleaning. Its ever increasing demand and its superior quality of cleaning results bear witness to this fact.

Ask your dealer for a sack of "Wyandotte" or write your supply house for a keg or barrel.
