Vol. 3, No. 17.19

LOVER, N. H., MARCH 4, 1914

PRICE 5 CENTS

N. H. C. FIVE VICTORIOUS

Season Closes with Hard Fought Game.

In the fastest and most interesting game seen here this season New Hampshire defeated Dean Academy Monday evening to the tune of 19 to 11.

The game was hotly contested from beginning to end and at no time, before the final whistle blew, was the outcome assured. Enthusiasm ran high at all times and the splendid showing made by the New Hampshire men kept the large crowd of spectators keyed to a high pitch.

For New Hampshire every man on the team merited high commendation. Bissell was the star of the game scoring eleven of New Hampshire's points.

The game was rough at times and many fouls were called on both sides. Dean failed to get a basket from the floor until the second period.

For the visiting team Welch and Braney showed up the best but the phenomenal work of Bissell and Watson at guard kept the Dean tries for baskets well scattered.

The summary:
New Hampshire Dean Academy
Thompson, lf rb, Braney
E. Sanborn, rf lb, Norton
Came, c, Welch
Watson, lb rf, Pond
Bissell, rb lf, O'Mara, Capt.

Score. New Hampshire 19, Dean Academy 11. Baskets from the floor, Bissell, 3; Sanborn 2; Thompson 2, Welch, Braney. Baskets from fouls, O'Mara 7 out of 15 tries; Bissell 5 out of 10 tries. Referee, "Joe" Kilhourey; Timer, Swett; Scorer, Key.

ZETAS DEFEAT THE CRESCENTS.

Between the halves of the varsity game Monday evening the quintets representing the Zeta Epsilon Zeta fraternity and the Crescent Boarding Club lined up. The final score showed the Zeta's as winning 11 to 8.

"Mike" Readron was back into harness again and starred at guard for the Zeta's, getting a basket after 30 trials. Kennett and Morgan played good for the Crescent's.

The summary:
Zeta Epsilon Zeta The Crescent
Brackett, rf lb, Foss
Hazen, lf rb, Graham
Russell, c, Colomy
Parker, rb lf, Kennett
Reardon, lb, rf, Morgan
Score: Zeta's 11, Crescent's 8. Baskets from the floor, Mike 2, Brackett, Hazen, Colomy, Russell, Morgan. Baskets from fouls, Morgan 3, Hazen. Referee, Ross. Timer, Ralph Brackett. Scorer, Finnegan.

EXTRA LECTURE.

An extra number has been added to the lecture course. It will be something in the nature of a concert number, and is to be held in Thompson Hall Friday evening March 20th. Season tickets admit to this number.

MAN WANTED.

A new distinct department is soon to be added to "The New Hampshire." The office of "Exchange Editor" is to be created, and a good man for the position is now being sought. All who wish to try out for the place will please signify their intentions for so doing to the managing editor.

GLEE CLUB TRIP ASSURED.

Manager R. A. Knight announces that a Glee Club trip to Franklin has been definitely decided upon. The final arrangements have been completed for this trip, and negotiations are now pending for concerts in Milford and Plymouth. It is hoped that as many students as possible will come out for the team in order that these concerts may meet with success.

NEW BUILDING.

The new engineering building faces almost due north. The main part will be three stories high besides the basement and will have a slated hip roof, the wings will be two stories high besides the basement and will have a flat plaster slated roof.

When completed there will be in all fifty-seven rooms.

A. T. A. BANQUET.

The annual banquet of the Alpha Tau Alpha fraternity was held Saturday, Feb. 21 at the Hotel Bellevue, Boston. A large number of the undergraduates as well as alumni members were present. The banquet was a very enjoyable affair, and was followed by speeches and toasts. After this, the party adjourned to the theatre, where they saw "Way Down East." Among those present were Pres. R. H. Holmes, toastmaster, Horace V. Bent, J. A. Dodge, E. A. Paul, S. R. Harriman, F. W. Barker, R. W. Forristall, and B. E. Silver.

At a meeting of Casque and Casket last Thursday evening, the representatives from the Alpha Tau Alpha fraternity, G. C. Bishop and R. H. Holmes, were initiated into the society. After the initiation ceremonies, the fellows adjourned to the A. T. A. house, where a banquet was served. Everyone spent a most enjoyable as well as profitable evening.

The annual Sophomore-Freshman basketball scrap which is scheduled for Saturday, March 7 has been brought forward one day and will be played Friday evening. Spectators are warned that the management will not be responsible for any cases of deafness that may arise. "Joe" Kilhourey will be on hand to hold down the referee's end. This annual conflict marks the end of a very successful basketball season.

During the basketball season, that came to a fitting close last Monday evening when Dean Academy was defeated, New Hampshire won seven games out of eleven played. All of the lost games were away from home. The teams lost to were Dartmouth, Clarkson College, "40th" Separate, and Dean. Games were won against M. I. T., Cushing 2, Tufts Independents, St. Lawrence University, Boston Collegiates and Dean.

N. H. C. ADDS ANOTHER VICTORY.

Has Easy Time with Boston Collegiate.

New Hampshire had no difficulty whatever in defeating the Boston Collegiate quintet last Wednesday evening in the gymnasium, the final score being 61 to 5. After the first few minutes of play it was merely a question of how large a score New Hampshire would be able to pile up.

Both teams started off with a rush at the sound of the referee's whistle and Boston was the first to score on a basket from a foul. The local team then started in to score and by the end of the period had run a score of 17 against 2 for the visitors. Captain Thompson of the Boston team hurt his ankle in the first period and although finishing the game he was unable to do much in the way of stopping the New Hampshire forwards.

The second period proved devoid of excitement, Came, Clark and Watson dropping the ball into the basket almost at will. During this period Sullivan scored Boston's only goal from the floor, when a chance shot from the middle of the floor fell into the basket.

Came starred for New Hampshire getting 11 baskets from the floor. Thompson and Clark also played well.

The summary:
New Hampshire Boston Collegiates
Thompson, rf lb, Lally
Sanborn, lf
Torry, lf rb, Wood
Came, c, Thompson
Clark, c
Bissell, rb
Watson, lb lf, Sullivan
Came, lb rf, Smith

Score, New Hampshire 61, Boston Collegiates 5. Baskets from the floor, Came 11, Thompson 5, Clark 4, Bissell 4, Sanborn 3, Watson, Sullivan. Baskets from fouls, Thompson 3, Thompson 3.

Referee, Kilhourey. Scorer, W. S. Bartlett. Timer, Parker.

NEW HAMPSHIRE MEETS DEFEAT.

Franklin, Mass., Feb. 22:—In a close and somewhat exciting game New Hampshire State was defeated by Dean Academy last Saturday evening, by the score of 22 to 16. The New Hampshire team was severely handicapped by the fact that they were not able to get used to the small floor.

Dean plays a return game in Durham on the 2nd of March and New Hampshire should make up for this trimming at that time.

The summary:
New Hampshire Dean Academy
Bissell, (Clark) lf, rb, O'Mana
Thompson, rf lb, Pondright
N. Sanborn, c, Braney
Sanborn, lb, rf, Welch
Watson, (Came) rb lf, Rice (Pond)
Score: Dean Academy 22, New Hampshire 16. Baskets from the floor.

FRESHMAN BASKETBALL TEAM DEFEATED.

In one of the best games seen on the local floor this season the 1917 basketball team was defeated by the first year two-year quintet. The game, although not as fast as some, was marked at times by sensational rallies which thrilled the spectators and kept them on the "qui vive" throughout the entire three periods.

The first year two-year men were out en masse, and backed their team to the limit with efficient cheering.

Wentworth starred for the freshmen, and Price and Kennett for the two year men. The summary:

Freshmen	Two Year
Wentworth, rf,	lf, Brackett
Ross, lf	rf, Hazen
Meserve, lr	
Sussman, c	c, Price
C. Graham, c	lg, Campbell
Weston, rg, Capt.	lg, Bennett
Thomas, rg	lg, Tibbetts
Stevens, lg	rg, Smith
Brown, lg	rg, Kennett

Score: Two year 25, Freshmen 17. Baskets from floor, Price 4; Wentworth, 4; Brackett, 3; Kennett, 3; Sussman, 2; Ross. Baskets from fouls, Price, 5; Wentworth, 3. Referee, Thompson. Timer, Torrey. Time, 3 ten-minute periods.

ONLY 27 PER CENT OF LAND UNDER CULTIVATION.

Only 27 per cent of the tillable land in the United States is actually under cultivation according to estimates of the Department of Agriculture, or in other words 829,000,000 acres are not in use, and of this only 21 per cent is not available for any form of agriculture. The entire United States excluding foreign possessions contains about 1,900,000,000 acres. Of this area about 60 per cent or 1,140,000,000 is estimated to be tillable that is capable of being brought under cultivation by means of the plow. This includes land already under such cultivation by clearing, drainage, irrigation, etc.

According to the census of 1909 the land area in crops where acreage was given was 311,000,000 acres. This is about 16 per cent of the total land area or about 27 per cent of the estimated tillable area of the United States.

In other words, for every 100 acres that are now tilled, about 375 acres may be tilled when the country is fully developed. In the development of the agriculture of the country the land which was most easily brought into a state of cultivation, as the great Mississippi valley, was the first to be brought into such use. Extension of the tilled area will be at greater expense for clearing, drainage, irrigation, etc. The increased production for the future will be the result of increased yields per acre as extension of area.

A copy of Spaulding's College Base Ball Annual has just been received and what attracted the writer's attention most was the absence of any mention of New Hampshire College base ball news in it. As this is one of the most important ways of advertising a college, it seems that some organized system of reporting athletic news would be worthy of consideration by the College Athletic Association or perchance, the Publicity Board.

PUBLICITY NEED AT N. H. C.

One of the urgent needs at New Hampshire College at the present time is greater publicity before the citizens of her own state. While the publicity committee is doing all in their power to bring the college before the public, there is a large scope of work along this line which can be done by the students of the institution. With the rapid strides which the college has made in the last few years, it seems lamentable that people within the borders of the state itself are so little acquainted with the nature, extent, and importance of the work that is being carried on here. If the people within our own limits are ignorant of the work and growth of the institution, it hardly seems reasonable to expect recognition to any great extent elsewhere. Yet, is not this the case? While there are occasional isolated cases, where people are actually familiar with the work and scope of the institution in the majority of cases people are literally surprised when they are given a true knowledge of the growth and character of the college.

And who is to blame for this situation? It is hard to say that anyone is responsible for this condition of affairs. It is rather a result coincident with the remarkably rapid growth of the institution. Yet, be that as it may, there is something which can be done now which will do away with this condition in the future. If each student would co-operate in some way with the publicity committee of the college, the work of that committee would be much more effective and the results more beneficial. A student publicity organization might well be established, which would co-operate with and be auxiliary to the faculty committee. In this way New Hampshire College would appear oftener in the daily papers and would be brought in a much more effective way before the people throughout the state.

Nor is this the only way in which students can serve their alma mater along this line; every undergraduate should make it a special duty, as well as privilege, to bring New Hampshire College before the people of his community at every possible opportunity. Vacations, and in some cases week-ends, afford excellent times to advertize the institution before the people of our respective districts.

SOCIOLOGICAL SURVEY.

It is a noteworthy fact that the first sociological survey of its kind in New England and the second in eastern United States was accomplished under the supervision of a graduate of New Hamp-

shire College. The survey of the town of Claremont by P. C. Jones, '13, marks the beginning of a new era in sociological work in New Hampshire. This survey will doubtless be followed by similar undertakings throughout the state. This movement not only shows that increased interest is being taken in progressive sociology but that New Hampshire College is preparing and training men who are capable of meeting both urban and rural problems, and understand the underlying principles of their solution.

INTERCOLLEGIATE NOTES.

The Graduate Magazine, published in connection with the University of Kansas, states that the average allowance given each member of Greek letter fraternities is \$43.00 per month. The article shows that many members work their way through college and that the general scholastic standing is good.

The tuition of each student in the University of Illinois costs the taxpayers of the State \$300 per year, according to President E. J. James.

At Cornell University there are 1,069 students who are almost wholly self-supporting, and 124 students who earn from \$100 to \$200 more than their expenses.

That American universities excel in instruction, although foreign schools are more prominent in research, is the decision reached by Prof. William McPherson, head of the department of chemistry at the Ohio State University, who has been studying the methods of the eighteen leading universities abroad during the past year.

One hundred and thirty-two foreign students are registered at the University of Illinois this year. The number represents twenty-two nations. China has 53 students and also has the only foreign woman registered at the university. The majority of these men are registered in the technical course.

February 21:—In what their college paper called the best race of the season the M. A. C. relay team won from the Rhode Island State College by fifteen yards. The time was 2 min. 51 3-5 sec.

M. I. T. is the first institution in the country to establish a course in the study of air navigation. Apparatus has been installed, and the work of instruction will begin at once.

Smoking in or around the University of Kansas buildings must cease according to a recent ruling of the board of administrators.

The seniors of the University of Indiana have adopted corduroy as their distinctive dress, while at Miami they are wearing white gloves and carrying gold-headed canes to distinguish themselves from other classes.

President Wilson has announced himself decidedly in favor of the summer military camps for college students. The approval was expressed in a letter to Henry S. Dinker, president of Lehigh University and of the Society of the National Reserve Corps of the U. S.

DE LAVAL

CREAM SEPARATORS

Their Great Simplicity

THE DE LAVAL SEPARATOR EXCELS ALL OTHERS not only in thoroughness of separation, sanitary cleanliness, ease of running and durability, but as well in its great simplicity.

Complete gearing of the De Laval Separator as it would appear if removed intact from the frame of the machine. Note the remarkable simplicity of construction.

There is nothing about the operation, cleaning, adjustment or repair of a modern De Laval Cream Separator which requires expert knowledge or special tools.

Nor are there any parts which require frequent adjustment in order to maintain good running or to conform to varying conditions in the everyday use of a separator.

There is nothing about the machine that cannot be taken apart, removed or replaced by any one who can use a wrench or screw driver. In fact, the only tool which is needed in the use or the operation of a De Laval Cream Separator is the combination wrench and screw driver illustrated

below, which is furnished free with every machine. Visit the local De Laval agent and see for yourself its simplicity of construction.

Combination wrench furnished with each De Laval Separator, the only tool required in setting up, taking down or using a De Laval machine, the simplest as well as the best cream separator ever built.

NEW HAMPSHIRE UNION.

For the benefit of those who do not thoroughly understand the organization recently formed here in college, the following will be of interest. The New Hampshire Union is an organization of non-fraternity men of New Hampshire College, who have banded together for the following purposes:

1. To create a better and more democratic New Hampshire Spirit.
2. To put the so-called non-fraternity men and the fraternity men on a common basis.
3. To make the non-fraternity men realize their opportunities.
4. To form a union for mutual benefit, without in any way antagonizing the existing college fraternities.

It is the earnest desire of this new organization to bring about certain improvements and reforms in the various college activities and it is hoped that their efforts will receive the support and co-operation of the entire college.

Three successful meetings have already been held and a constitution has been adopted. The sections of the constitution relating to membership are as follows:

Sec. 1. Membership in this organization shall be open to and limited to the undergraduates and members of the faculty of New Hampshire College, who are not members of the so-called "college fraternities," here at New Hampshire, as distinguished from technical or scientific societies and fraternities.

Sec. 2. All members shall be registered by the secretary.

Sec. 3. Identification with this organization will not prevent any member from joining a fraternity.

Although the membership of this organization is at present limited to non-fraternity men it is hoped that the membership may sometime be extended to the entire student body and the alumni.

The following officers have been elected for the remainder of the year: W. R. Place, president; B. G. Odiroen, 1st vice president; G. T. Studd, secretary; and S. G. Johnson, treasurer.

Regular meetings will be held every 1st and 3rd Tuesdays of the months during the college year.

The Unseen
Nine Tenths

Bright, shiny utensils with a sweet, wholesome smell is but a small part of the real proof of the cleaning properties of

So thorough are the cleaning properties of this unusual washing agent that it cleans far beyond what the eye can see, removing thousands, yes millions of bacteria, the deadly destroyers of milk and butter quality.

It is because of this extra cleaning, doing what other washing agents can not do, that has given Wyandotte's Dairyman's Cleaner and Cleanser the unanimous support of Dairy Colleges and scientific Dairy experts.

In estimating the value of a dairy cleaner they do not forget the "unseen nine tenths."

Ask your dealer for a sack of "Wyandotte" or write your supply house for a keg or barrel.
