PRICE 5 CENTS

N. H. C. WINS FROM WORCESTER TEAM

FOURTH GAME OF SEASON VERY CLOSE—SCORE 2 to 0.

SHIFT PLAYS PUZZLE VISITORS.

New Hampshire Penalized Once—Hobbs Makes Long Run But Steps Out of Bounds and Touchdown Not Counted.

In the fourth game of the season here Saturday Oct. 10, New Hampshire defeated W. P. I. by a score of 2 to 0.

Both the Blue and White and Worcester played a hard game from start to finish. The former used line bucks and several shift plays, which puzzled her opponents very much.

New Hampshire especially played a very clean game being penalized but once for offside play.

In the second period a back of Worcester received the ball from New Hampshire on a punt, near the former's goal line. From here he was forced back by Woodward, giving the Blue and White her only score.

The feature of the game was a long run by Hobbs for a touchdown, but unfortunately he stepped out of bounds near the middle of the field and was called back by the referee.

New Hampshire showed a decided improvement in her plays over those of previous games.

A very small proportion of the student body was present as almost all had gone home for the holidays. The cheering was therefore very ragged.

The line up:
New Hampshire Worcester P. I.
Davis le le Tommasi
Jenkins lt lt Shumway
Morrill lg lg Banan
Brown e e Hazelton
Bell rg rg Merriam
Thompson rt rt Casavant
Swett rt
Willand re re Duffy

Umpire, Moore of the University of Maine. Head linesman, Jenness of New Hampshire.

PROF. C. E. HEWITT DIRECTS TEST IN NEW YORK STATE.

Prof. C. E. Hewitt left Durham on Monday for Wellsville, N. Y., where he is to direct an exhaustive test on a large steam turbine generating unit.

The unit is for the Municipal Electric Lighting Plant of Watkins, N. Y. Prof. Hewitt is the consulting engineer for this plant.

BOWLING ALLIES FOR COLLEGE GYMNASIUM.

The desirability of installing bowling alleys in New Hampshire College gymnasium has occurred to several persons interested in providing facilities for sport indoors when the season for out-of-door sports has passed. At the present time the college has no bowling alleys but there is ample room, and desirable conditions afforded by the gymnasium basement.

SCHOOLMASTERS WILL BE COLLEGE GUESTS

Annual Banquet of Club Oct. 22—President Aley of Maine and Prof. Laycock of Dartmouth to Speak.

Principals and superintendants of schools from all over New Hampshire will gather in Durham the night of Oct. 22 for the annual banquet of the Schoolmasters' club which this year will be given with New Hampshire College as host.

President Fairchild has issued a cordial invitation to all members to share the hospitality of the college and to bring other teachers with them. More than 100 are expected and at the conclusion of the speaking here they will be taken in a special train to Portsmouth, where the other sessions of the annual meeting of the club will be held.

Among the speakers at the banquet there will be President Robert J. Aley of the University of Maine, Prof. Craven Laycock of Dartmouth, Principal Perry of Exeter and Frank Knox, editor of the Manchester Union.

MUSICAL ORGANIZATIONS REHEARSE AFTER CLASSES.

The hours for the rehearsal of the various musical organizations of New Hampshire College are as follows: College Glee Club, Wednesdays, at 7.30 P. M., Girls' Glee Club, Fridays, at 4.30 P. M., Mandolin Club, Thursdays, at 4.30 P. M., Orchestra, subject to call of leader, Mr. Broggin; Band, Mondays, at 11; Wednesdays at 2.30 P. M.

R. E. BATCHELOR '14 TO ASSIST IN MOVABLE SCHOOL WORK.

The services of R. E. Batchelor '14 has been secured by the extension service of New Hampshire College, to assist in movable school work planned for the coming winter. These schools will last a week and are to be held in various parts of the state. Lectures in the morning and demonstrations in the afternoon will be followed by public lectures in the evening. The attendance is to be limited to a certain number, and probably only one of the main phases of agriculture will be taught.

FACULTY MEMBERS ATTEND AGRONOMISTS' MEETING.

Professor Taylor and Mr. Prince attended the meeting of the New England Agronomists at the Parker House, Boston, last Saturday. The meeting was called for the purpose of discussing the following subjects:

- The Students Judging Contest in Field Crops.
- What Should be the Policy of Agronomists on Soil Survey and Examination in New England?
- Teaching Methods in Crops and Soils.

CIVIC PRIDE GROWING, NEW SIDEWALKS APPEAR.

Civic pride is taking possession of students and faculty of New Hampshire College, and residents of Durham as well. A new sidewalk has been laid in front of Pettee Block, and another long cement walk in the southeastern part of the town, by Mrs. Onderdonk.

ANNUAL POULTRY DAY ON TUESDAY NEXT

EVENT BOUND TO BE OF INTEREST TO LARGE NUMBER.

EXCELLENT SPEAKERS SECURED

Gymnasium to be Used for Demonstration—Caponizing to be Handled by an Expert—Program of Lectures.

One of the most prominent features of the extension work carried on by New Hampshire College is the annual Poultry Day, held in the Gymnasium. The date set for the event this year is Tuesday, October 20. Circulars have been sent to every town in the state, and a large attendance is expected. It is hoped that arrangements can be made so that those of the student body who wish to attend may do so without taking cuts.

Several first-class speakers have been secured to address the gathering. Henry D. Smith of Rockland, Mass., is one of the best poultry breeders in the country, and is an expert in the subject of caponizing, as well as breeding for egg production. Professor Graham of the Massachusetts Agricultural College has been carrying on experiments for several years to find out the best type of house for poultry, and the effect of different rations on egg production. Because of this, his remarks will be worthy of the closest attention. Professor Mitchell will have charge of the program and will also deliver a talk on "Marketing Poultry Products." The program is appended: 10.30 to 11.45 A. M. Poultry House Construction.

Prof. J. C. Graham, Poultryman at the Mass. Agri. College.

11.15 to 12.00 A. M. Selection of Breeding Stock.

Henry D. Smith, Rockland, Mass.

LUNCHEON. 12.00 to 2.00 P. M. Demonstration in Caponizing.

Henry D. Smith, of Rockland, Mass.

2.45 to 3.45 P. M. Feeding for Egg Production.

Prof. J. C. Graham, Poultryman, Mass. Agri. College.

3.45 to 4.30 P. M. Marketing Poultry Products. Prof. R. V. Mitchell.

MOTH DEPARTMENT TO PLACE PARASITE COLONIES IN N. H.

Professor O'Kane has been over the state making arrangements for trial colonies of a new parasite on the gypsy moth, which has been imported from Japan. Colonies will be put in the central and eastern parts of the state.

Mr. Osgood '14 is employed temporarily in this parasite work.

RESULTS OF THINNING IN APPLE ORCHARDS.

Prof. J. H. Gourley, head of the Horticultural Department of the college, has just completed tabulating the results of thinning fruit in orchards at Stratham and Greenland the past season. The results were striking and show a largely increased yield of No 1 apples, where thinning has been practiced. Such a yield is highly desirable, especially this year when the poorer grades of fruit are worth practically nothing.

HORTICULTURAL SOCIETY DRAWS N. H. C. SPEAKERS

Meeting at Antrim Largely Addressed by Professors From New Hampshire College—Prof. Paddock of Ohio on Program.

Among the speakers who are to address the New Hampshire Horticultural Society in their annual meeting held this year, October 21-22 at Antrim are several professors from the college. Prof. Wolf is to discuss "The Value of Bees in the Orchard" and demonstrate the box packing of apples. Prof. J. H. Gourley is to talk upon "The Season's Lessons from the Orchard." Prof. O'Kane gives an illustrated talk on the subject, "Winter Work Against the Bugs," while Mr. Sherrer has a similar talk upon "Methods of Vegetable Production in Northern New York." Director Kendall discusses the "Benefits of Extension Work to the Horticultural Interests of the State." Miss Caroline Black will be present and address the children in a session held especially for them. Another speaker is Wendell Paddock, professor of horticulture at the Ohio State University, who will treat in his talk, "Causes of Unfruitfulness in the Orchard."

IMPROVED SANITATION FOR NEW HAMPSHIRE COLLEGE.

A new chapter will be added to Durham history. The bombardment of the town for the last two months will have the glorious effect of driving typhoid out once and for all. Sewerage will be conveyed henceforth not into the brook as formerly but into the main sewer on the eastern side of the town.

NOTED HORTICULTURIST TO SPEAK TO STUDENTS.

Professor Wendell Paddock, horticulturist at the Ohio State University, has been secured to address a joint meeting of the horticultural and agricultural clubs next Monday evening. Professor Paddock is among the most eminent horticulturists of the country and those who fail to hear him will miss a rare treat.

NEW PRESIDENT ELECTED IN HORTICULTURAL CLUB.

The first regular meeting of the Horticultural Club was held on Wednesday evening of last week. J. S. Elliott, '15, was elected president to fill the vacancy left by E. B. Emerson, who has transferred to Cornell. L. A. Hawkins, '16 was elected to the vice presidency which was made vacant by Elliott's election. W. T. Tapley, '16 was appointed Master of Program.

A short but interesting talk was given by J. A. Purington '16 concerning the experiment work that the college farm is carrying on.

DEBATING ENCOURAGED TRUSTEE DONATES CUP.

Walter M. Parker, treasurer of New Hampshire College, will donate a silver cup to be awarded in the Interscholastic debate to the secondary school producing the winning team. These annual debates are to be under the direction of Dr. Richards, head of the English department.

RIFLE SHOOTING AS AN ORGANIZED SPORT

Many Colleges and Universities are Giving the College Letter to Students Making the Rifle Team.

Over five thousand college marksmen is the record for the college year ending June 30th, 1914. Through the combined efforts of the National Rifle Association of America and the National Board for the Promotion of Rifle Practice, rapid strides are being made looking to the introduction of rifle shooting as one of the recognized sports in the colleges throughout the country and the movement has been still further stimulated by a recent act of Congress authorizing the free issue of rifles and ammunition to college and university rifle clubs.

This work was begun several years ago by the National Rifle Association backed by the War Department with the result that now there are 42 colleges and universities having well organized and active rifle clubs. National championships are now being carried on annually both indoor and outdoor. The annual competition for college teams is now being organized for the indoor season. These matches are shot on indoor ranges with 22-caliber rifles. The championship for 1914 was won by the Michigan "Aggies" and the outdoor championship was won by the Massachusetts "Aggies."

COLLEGE LETTER AWARDED.

As an evidence of the fact that the athletic authorities of a great many colleges and universities, are recognizing marksmanship as a part of their athletic curriculum, many of them are giving the college letter to those students who make the rifle teams.

A feature of this work which is worthy of mention is the fact that there have been no serious accidents of any kind on rifle ranges since the work was introduced, a claim that could hardly hold good in connection with other prominent school sports such as football and baseball. Furthermore, only a small percentage of students can take part in baseball and foot ball matches, while the number of students who can enter the shooting competitions is only limited to the capacity of the range.

CORNELL LEADS IN 1914.

In addition to competing against each other in rifle matches, college clubs are given annually a medal for a members' competition by the National Rifle Association. Decorations are also presented to club members by the War Department for qualifying as expert, sharpshooter and marksman. The college which made the best showing in the number of students qualified for the fiscal year ending June 30th, 1914 was Cornell University. The rifle club which made the best showing in the number of qualifications was the Minnesota University Rifle Club which qualified 66 marksmen, 11 sharpshooters and 19 experts.

AT THE SUMMER CAMPS.

At the camps of instruction for college students held during the summer, rifle shooting was one of the courses of

NEW ORCHARD FOR THE HORTICULTURAL DEPT.

To be Used For Fruit Bud Formation Experiments—County Institutes to Be Held Next Month.

The Department of Horticulture has just leased an additional piece of orchard to be used in experiments on fruit bud formation.

It is planned to hold County Institutes some time next month at Chester, Milford, Pembroke, and Rindge. There will be exhibits of the work of the Boys Clubs, which have thrived the past season under the leadership of L. A. Carlisle, the state leader.

Almost nine tenths of the undergraduates of college visited their homes, and friends over Columbus Day.

The college is represented at the horticultural meeting at Antrim by an exhibit.

The regular meeting of the trustees was held Oct. 14th.

No Christain Association meeting was held last Sunday, owing to the fact that many students left town, Saturday to spend the holiday at their homes.

HISTORIC FOOLS.

"Christopher Columbus was a fool to think that the earth was round and might contain lands hitherto undiscovered.

Martin Luther was a fool to defy the established church of his country and to preach salvation by faith rather than by money.

Galileo was a fool to insist that the world moves around the sun, particularly as the statement involved life imprisonment.

Napoleon was a fool to look for courage and a sense of honor in a people who had just succeeded in murdering their king and the greater part of their aristocracy.

William Wordsworth was a fool to try to write interesting poetry by merely describing exactly what he saw.

George Washington was a fool to claim that a British colony could be governed in any other way than that of the British Empire.

George Stephenson was a fool to believe that steam could be utilized for making a machine travel on wheels.

Riehard Wagner was a fool to use the operatic stage for the production of realistic and dramatic effects.

Abraham Lincoln was a fool to demand that the Union be preserved on a basis of freedom and equality for all men.

Bismarck was a fool to attempt an organization and centralization of the heterogeneous German kingdoms.

Woodrow Wilson is a fool to place morality and conscience above expedience and the line of least resistance."—"The Gettysburgian.

military training laid down. At these camps 31 students qualified as experts, 114 as sharpshooters and 21. as marksmen. The National Rifle Association of American presented a cup for an intercollegiate team competition and also a medal for the student making the highest score at each camp. The cup was won by Cornell University whose four men scored 854. The University of California was second with 809 and the University of Minnesota third with 782. The high score men in each camp were as follows:

Burlington, H. C. Newberry of Colgate University; Asheville, Wm. W. Search; Ludington, Theron G. Bethen, University of Minnesota; and the Presidio of Monterey; Harcourt Blades, University of California.

SOCIAL SERVICE PLANS OUTLINED IN CHAPEL

Y. W. C. A. to Cooperate with Christian Association—Classes to be Started in Durham and Nearby Towns.

In a recent issue of "The New Hampshire" the work planned this year by the Social Service Committee of the Christian Association was briefly mentioned. Since then the work has been definitely organized and will begin immediately. Mr. Baghdigian in giving a synopsis of his plans at a recent chapel exercise said:

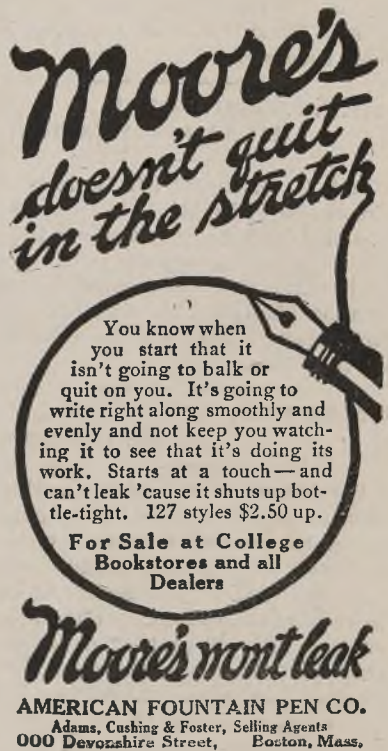

"The progress made by the three classes carried on at Newmarket last year warrants their continuance this season. Plans are also developing for the initiating of classes in Durham for the Italian men, and the Y. W. C. A., expects to have charge of a class for Italian women. The boys and girls of the town have not been forgotten, as a patrol of Boy Scouts and of Campfire Girls is to be formed. Classes will be started in Dover and other nearby towns, if possible taught by resident students. A talk has been prepared by one of the students on the "Needs of the Immigrant," which is to be given under the auspices of the Christian Association wherever there may be a call for it."

GLEE CLUB SECURES DATES,
SCHEDULE TAKING FORM

Two Engagements Already Made—Others Under Consideration.— Good Chance For Those Who Sing to Make Trip.

As early as this in the season, the college Glee Club has two of its trips definitely settled. The exact date has not yet been decided upon but both concerts will be held in the week's vacation between semesters. The first will be at the Simmonds Free High school in Warner, N. H., and the second will be in Claremont. The latter will be under the auspices of the Ladies' Union Aid Society for the benefit of the Claremont General hospital.

Negotiations are being carried on with other towns on the route so that a full week of concerts can be made if possible.

MISS CAROLINE BLACK
ATTENDS ANNIVERSARY.

Miss Caroline A. Black, assistant botanist, is in St. Louis attending the twenty-fifth anniversary of the Missouri Botanical garden, where some of the greatest botanists in the world are met, among whom are John M. Coulter of the University of Chicago, Professor Frederiek Czapek of Austria, Director Hans Fitting, of Germany, and Dr. Erwin, of the United States Department of Agriculture.

England, Norway, Russia, Switzerland, and Canada are also represented. Miss Black will return to New Hampshire college Saturday, October 24th.

His ma bequeathed him money

His wardrobe came from Paris,
His cane from Malacca
From Persia came his cigarettes
His brains have not arrived as yet.
Selected.

THE HIDDEN WORTH.

(Edgar A. Guest, in Detroit Free Press.)

You've got to go below the skin
To know a fellow well;
You've got to learn what's deep within
His worth to really tell.
The outside doesn't mean a thing
It's nothing but the case,
A sort of airproof covering
That keeps the heart in place.

Don't ever judge him as he looks,
It is a foolish plan.

You wouldn't do it with your books,
Nor should you with a man.
For underneath the roughest skin
And back of all you see,
The chilling frown, or idle grin,
The warmest heart may be.

You've got to dig beneath his vest
To know a fellow's worth
Man isn't always at his best
In public scenes of mirth.

And what a fellow seems to be
Where all his deeds are known,
May not be what he is, when he
Is standing all alone.

I know some men that others pass
Indifferently by
Because their rough outsides, alas
Do not attract the eye.
And yet full many a silent deed
Of kindness has come
From them, who strangers only read
As brothers cold and glum.

You've got to go below the skin
To know a fellow well,
You've got to know what's deep within
The most indifferent shell.
You cannot say you know a man
And know him at his best,
Unless you've had a chance to scan
What's underneath his vest.

This is a Store of Sincerity.

According to our ideas there's a lot more to the clothing business than merely buying and selling.

We know that sincerity is a vital part of "THE GAME," sincerity in purpose, sincerity in policy, in quality and service.

We are sincere in our purpose to make this the kind of a store you will like—sincere in our policy to satisfy you—in our idea of quality—in our idea of service.

We sell the kind of merchandise that represents the same sort of sincerity we believe in ourselves.

We invite you to look at our Mackinaws and Sweaters, no bigger or better stock anywhere.

FRANK W. HANSON,

436-438 Central Avenue,

Dover, N. H.

ATTENTION ATTRACTED
BY BOYS' CLUB WORK

Results Already Obtained—Special Brand for Clubs Products to be Used—Many Premiums Offered.

A noteworthy feature of the extension work which the College is carrying on, is the success achieved in the Boys and Girls' clubs which are under the charge of L. A. Carlisle.

The 187 boys who are enrolled have an average of 135.9 bushels of potatoes per acre to their credit, while individual yields approach the 400 bushel mark.

Corn clubs are exhibiting and winning in the local shows, and parents are getting interested in the work. A special brand has been adopted for the clubs, the 4H brand. Where this is present, there is assurance that the product has been carefully graded and inspected.

A premium of from 15 to 20 cents per bushel over the market price has been paid for potatoes grown and branded by the clubs, both for seed and eating purposes.

There was a good display shown by the boys at the Franklin Grange Fair.

Winners in contests are to be rewarded by scholarships to the State College, in some cases, and by trips to some of the shorter courses given by the college, in other instances.

Many other premiums are offered, such as manual training outfits, sets of agricultural books, farm and garden tools, pure bred live stock, and similar inducements to industry and encouragements to ambition on the part of the boys.

SPEAKERS SECURED FOR
CHAPEL EXERCISES.

Mrs. Larve Uredenburgh will speak in Chapel, Wednesday, Oct. 21, on "Edison the Inventor, And the Man."

The Chapel speaker for the 28th of October, will be Montgomery Rollins, a Boston banker. He will have as a subject "The Economic Aspects of the European War."

PACKING DEMONSTRATIONS
ARE GIVEN BY COUNTY AGENT.

Mr. Richardson, horticultural agent for Hillsboro county, has been carrying on nearly a dozen different packing demonstrations in the various demonstration orchards of southern New Hampshire this fall. In addition to this demonstration work, other tests and experiments are in progress.

Prof. G. C. Smith spoke in Epping on Peace Sunday. His subject was "International Peace."

"Entered as second-class matter December 1, 1913, at the post office at Dover, N. H., under the act of March 2, 1879.

DOVER, N. H., Oct. 16, 1914.

On account of the stopping of college exercises and activities over the week end and Columbus Day, this issue of "The New Hampshire" contains six instead of eight pages.

Now that it has been definitely decided that we will send a stock judging team to Chicago, let every one of us support it with that broader and truer New Hampshire spirit. Not the spirit that is born and then dies on the athletic field before and after a game, but the kind that makes us "stand by" all New Hampshire activities because we love our alma mater.

We can not be with the stock judging team at Chicago when it enters the contest with a score or so of other college teams. We can in other ways show them that we are "with them."

Show yourself first and then others, that you know that there is a stock judging team belonging to your college and that its victories and its defeats mean just as much as the greatest athletic victory or defeat ever did.

Give the team your personal and individual support. A large share of the expenses must be raised from the voluntary contributions coming from the student body. No matter how small these are they count. Will you do your share when called upon?

AN OLD BOOK.

The oldest school book in the world was recently uncovered in the Nippur collection.

It is a small tablet of clay about as large as a soda biscuit and is known to be at least 4200 years old.

Professor Langdon, of Jesus College, Oxford University, who has been spending a few weeks at in the examination of parts of the Nippur collection, in the course of his researches turned up this school book, that was used by a little boy in ancient Sumeria forty centuries ago. Even of greater interest is the "slate" of this school boy, upon which he attempted to copy his "lessons" from the treatise. For a reason that never will be rightly understood the boy failed to complete his task, and even defaced part of what he had written by an energetic use of his thumb.

This is only one of the many school books in the Nippur collections which have just been cleaned and deciphered by Professor Langdon. Some years ago some mathematical books, multiplication tables and the like were discovered, but the new books just found are considered of vastly greater importance.

RHODE ISLAND AWARDS GOLD SEALS TO EDITORS

Three Highest Members of "The Beacon's" Staff to Receive Rewards—Social Service Work at Harvard.

The student body of Rhode Island State College has voted to award a seal in the form of a watch fob to each Editor-in-chief, Managing Editor, and Business Manager of their College weekly. "The Beacon." This seal is to be ten carat gold with the name and position of the recipient engraved upon the back. The design was selected by the students from designs submitted by one of their professors in the drawing department.

HARVARD.

Harvard men interested in philanthropic work met in the Phillips Brooks house and listened to a discussion on the benefits of the social service work and the plan adopted to advance the work this year.

To bring the facts right from the source, as it were, two men, both of whom are well experienced in this sort of work in and round Boston, were heard from. They are Prof. Cabot of the medical school and R. W. Kelso of the Massachusetts board of charities.

Several members of the college were asked to present the problem from the undergraduates' standpoint, and the following spoke: R. H. Kettell '14, S. B. Pennock '15, W. B. Pirnie '15 and L. A. Morgan '17. Those present were asked to sign up for one or two evenings a week to take a class of foreigners who are in need of instruction in English or to take charge of a boys' class.

OHIO.

Sixteen new members have been added to the Ohio University faculty this year.

CORNELL.

An anonymous gift of \$150,000 for the erection of the first of Cornell's long planned residential dormitories has been announced.

Cornell has now a course in horse shoeing in connection with its veterinary college.

The Christian Association of Cornell University collects about \$6,000 annually from the undergraduates, alumni, faculty, people of Ithaca, and the families of undergraduates to defray the expenses of the Association.

Cornell University receives a gift of \$700,000 from the Schoellkopf family to complete the track and football field, which is to be named after the family.

ILLINOIS.

At the last commencement of the University of Illinois, a Chicago man named North, got his degree of B. S. after a delay of 29 years. He was a member of the class of 1885, but shortly before his graduation became known as the man who never attended chapel exercises. These exercises were compulsory then, but North insisted he was agnostic, had no religious convictions and would not go to chapel. He was suspended forty days before he was to have been graduated. He spent his last dollar in a vain attempt to secure his degree, only to have it offered him this year. At first he refused but was finally persuaded by the president to accept.

PENNSYLVANIA.

Five members of the faculty of the University of Pennsylvania have remained in Europe and entered the war instead of coming back and teaching. One of these is Paul Phillippe a designer of the Pan-American building in Washington, D. C.

NEW YORK.

New York State College of Agriculture receives about \$537,500 annually

STOCK JUDGING TEAM CANDIDATES GET PRACTICE

Three Day Trip Taken as a Last Preparation For the Chicago Contest—Five Massachusetts Farms Visited.

The candidates for the stock judging team which is to represent New Hampshire College at Chicago left last Wednesday afternoon for a threeday practice trip in judging. Thursday they planned to visit the Ames estate, Langwater Farms, at North Easton Mass., where Guernseys are kept, and the Lawson estate at Egypt, Dreamwold, where fine Jerseys are found. Friday and Saturday was to be spent near Spencer, where Ayrshires at the Sagendolph estate, Holsteins at the Knowles place, and Jerseys at the Moose Hill Farm, were to be inspected.

The 21st, next Wednesday, is the date set for the departure of the teams for Chicago. They will probably be gone a week.

from the state legislature. \$450,000 of this sum goes for the maintenance, \$70,000 for extension work, \$10,000 for the summer school, and \$7,500 to cover expenses of drawing up plans for a plant industry building.

DE LAVAL CREAM SEPARATORS

are the cheapest
as well as the best

LOOK AHEAD!

DON'T TRY TO SAVE \$10.00 TODAY if it means a loss of 25 cents a day for all the years a cream separator may last you.

THAT'S JUST WHAT YOU WILL DO IF you buy a cheap or inferior cream separator simply because its first price is a little less than that of the De Laval.

WHEN A PRUDENT MAN BUYS A CREAM separator he knows that what he is really paying for is not just so much iron, steel, brass and tin, whether it is called a separator or not.

WHAT HE WANTS IS A MACHINE TO perform a certain service, and he must be sure of the machine doing the work for which it is intended as thoroughly and with as little effort as possible on his part.

THOUSANDS OF BABCOCK AND OTHER tests have proved that the De Laval skims closer than any other cream separator under any conditions, and particularly under the harder conditions always experienced at times.

JUST THINK WHAT A LOSS OF AS little as 10 cents worth of cream at each skimming means to you in a year—twice a day for 365 days—over \$70.00, and with as many as ten cows the cream losses alone from an inferior separator usually amount to more than this.

CREAMERYMEN WHO ARE DEPEND-ent on their separators for business success,

have long since found out the difference between De Laval and other separators, with the result that De Laval factory separators are almost universally used the world over today.

DE LAVAL SEPARATORS ARE IDENTI-cal in all sizes, for one cow or a thousand, and the differences between separators are just the same with the smallest machine and the largest. They mean as much relatively to the little as the big user.

THEN THERE IS THE SAVING IN LABOR because of the easier running and greater capacity of the De Laval over other machines and the less care required in cleaning and adjustment, worth at least 10 cents a day.

AND THERE IS THE INDISPUTABLE fact that De Laval machine lasts from 10 to 20 years as against an average of from two to five years in the case of other separators, or five times the average life of competitive machines.

THESE ARE THE REASONS WHY DE Laval Separators are cheapest as well as best. Why thousands of other machines are yearly being replaced with De Laval and why their use is rapidly becoming as universal on the farm as in the creamery.

IT SHOULD BE REMEMBERED, MORE-over, that if first cost is a serious consideration a De Laval Separator may be bought on such liberal terms that it will actually save and pay for itself, as many thousands of them have done.

These are all facts every De Laval local agent is glad of the opportunity to prove to any prospective buyer. If you don't know the nearest De Laval agency simply write the nearest main office, as below.

WAR SECRET DISCLOSED "LUTE" IN THE BACKGROUND

Sophomore-Freshman War Nearing a Crisis—Trenches Masquerading as Sewer Drains—Peace Council in Session

(Official.) The various trenches about town are nearly ready for use by the freshmen and sophomores in their next encounter.

When hostilities first broke out we had a sneaking suspicion that the "Lute" was behind it all; now, after carefully inspecting the strategical and tactical positions of these trenches, we are positive that the "Lute" is indeed the power behind the throne. These trenches are masquerading as sewer drains at present but with our customary keen perception we soon saw that their real purpose was far different and left no stone unturned until we had unearthed the secret.

LARGE MACHINE GUNS.

Several machine guns are on the way to the front that will shoot anything from bull to bullets. This versatility should be of great help to both sides. Every drill day the sophomores have extended order drill and target practice with apples. Their proficiency in this branch of the artillery service has increased from good marksmanship to the ability to produce a look of bland innocence immediately upon the beginning of investigations by company officers. That the freshmen hold no outdoor target practise or manifestations of preparation looks very suspicious and many far sighted war experts predict a bloodcurdling scheme of diabolical ingenuity, more terrible because it is unsuspected.

MIGHTY PEACE COUNCIL.

Be that as it may, the nightly peace council around George Brackett's brass rail have resolved, after much discussion, to submit a plan of arbitration from the A. B. C., powers of Durham, if it can be done with perfect safety to themselves. The pontoon bridge of concrete in front of the block appears to be a wasted piece of strategy owing to the mud flats having dried out there last summer. No more skirmishes are expected until the results of the peace conference are known.—By special wire from the war correspondents at the front.

W. S. EDGERLY, DURHAM, N. H.

NEW HAMPSHIRE COLLEGE FIFTEEN YEARS AGO.

Examination of the Old Student Monthly Shows Present Problems Not All New.—Weekly Suggested in 1899.

The following items are clippings from the October 1899 number of "The New Hampshire College Monthly." The first two are taken from the editorial department and are interesting to note because they express "college ailments," that have not been wholly healed up to date.

The idea of a students' weekly has been suggested and we offer it for their consideration.

If we may be allowed to express an opinion, we would say we have no doubt but what a good four-paged weekly might be run in a successful manner, but until there is more interest shown in the monthly by the students in general, and until it does not have to look to a few for its support, we think the idea of a weekly should be dropped.

One means through which a college receives great benefit is athletics.

Here must come the hearty cooperation of the whole student body. Not all of us are fitted to take places on the teams, but there's not one of us that cannot count one in its support, which is perhaps more necessary than anything else. Join the Athletic association, come out and help the teams practice, contribute as much as your means will possibly allow when the subscription paper comes your way, and last but by no means least, show that you appreciate the efforts of the team by letting forth all the encouragement your lungs are able to produce at the critical stages of the games.

With the abundant material at hand it seems a pity that the various organizations among us do not include a glee club, or at least a quartette. Will not some one try and bring about the realization of this suggestion?

The annual cane rush was won by the Freshmen to the tune of 15-5.

It is encouraging to find that there are about fifty new students this fall.

Many of the students availed themselves of the holiday on Sept. 14, to attend the annual fair at Rochester, N. H.

Demeritt Hall has been leased by the

bachelor members of the faculty, and is no longer the "Dorm," but will henceforth be known as "The Durham Club."

A representative of the Concord Photo Co. has been in town taking pictures of the college buildings, various groups, and the entire student body with the faculty. The results have been very satisfactory.

The following promotions have been posted: First Lieutenant E. E. Nelson to captain; Second Lieutenant W. N. Shipley to be first lieutenant; First Sergeant C. E. Hunt to be second lieutenant; Corporal H. M. Runlett to be first sergeant.

Wednesday evening, Sept. 20, a reception to the new students was given in the vestry by the C. E. Society. The entertainment consisted of a musical programme: Piano duets by Mrs. Grant and Miss Mathes, and solos by Miss Edna Bartlett of Lee, N. H., and Mr. Thornhill, and reading by Miss Adams of Berwick, Me. After the programme, ice cream and cake were served in the dining room.

Over six hundred new books have been added to the college library during the summer, and Miss G. A. Mark '99 was in town through the vacation, to assist Professor Scott in cataloguing these and other library work. Mr. E. E. Lyon is librarian this year, with Miss M. L. Robertson '00 and Miss E. A. Demeritt ex-'99 as assistants.

There has been much delay and inconvenience in obtaining books this term. We hardly know just where the blame belongs, but hope before another term definite arrangements will be made and explained to the students that this misunderstanding may be avoided.

NEWS ITEMS OF PEOPLE THAT YOU KNOW.

President Fairchild addressed the Durham Woman's Club on "The Woman of Today and of Yesterday."

Mr. Sherrer was out of town last Thursday, Friday, and Saturday, doing extension work in Belknap County and around Concord.

Prof. R. V. Mitchell speaks before the Brentwood Grange this Friday evening upon the subject, "The Feeding and Care of Poultry for Winter Egg Production."

President Fairchild spoke to the Warwick club at Portsmouth Oct. 6th.

Miss Sarah E. Pettee, N. H. C. '08 has accepted a position of dietitian at the Methodist Episcopal hospital at Omaha, Nebraska.

Professor O'Kane lectured recently before the Pomona Grange at Plaistow, New Hampshire on "New Facts in Insect Control."

The Proper Care Of Milk Utensils.

The difference between poor milk and good milk may result from the way you clean the milk utensils.

All college authorities and expert dairy officials are unanimous in their belief that

is essential to the proper care of milk utensils and that it should be used throughout the dairy and creamery for all cleaning purposes.

You will not only find Wyandotte Dairyman's Cleaner and Cleanser a better cleaner than ordinary agents, but one that is far more pleasant to use. It quickly removes sour milk taints, keeping everything sweet and wholesome. At the same time you will be rid of soap odors. For Wyandotte Dairyman's Cleaner and Cleanser contains no fats or oils to produce soapy films or grease.

This same cleaning material is used by 35% of all butter and cheese makers besides thousands of milk dealers, creamery patrons and milk producers.
