DURHAM, N. H., SEPTEMBER 24, 1916.

PRICE 5 CENTS

## TOTAL REGISTRATION OF 584 STUDENTS

**BIGGEST FRESHMAN CLASS IN HISTORY NOW AT COLLEGE**

## MORE THAN 275 NEW STUDENTS

**167 Freshmen in Four Year Courses 69 in First Year of 2 Yr. Agriculture—34 in First Year Engineering Course**

Nailing its flag to the slender tip of the great pole in front of Thompson Hall, and firmly tying hand and foot all sophomore foes, many of them to the base of the flagpole, the biggest freshman class in the history of New Hampshire College triumphantly established itself in Durham, Wednesday, September 15.

There are 277 students among the new comers. Of these 157 are freshmen in the regular four-year courses, 68 are entered in the first year of the two-year course in agriculture and 34 in the first year class of the new two-year Engineering course. In addition, there are 4 transfers and 4 new students registered special. This brings the total registration to date (September 22) up to 584. Of this number 109 are girls. The class of 1919 has 157 members. There are 116 sophomores, 89 juniors, and 75 seniors and 2 yr '16 has 36 members.

The village is literally stuffed with students, and a large number come daily by train from Exeter, Dover, Newmarket, Rollinsford, Berwick, Somersworth Rochester and other nearby towns.

One feature of the greatly increased enrollment which gives President Fairchild particular satisfaction, is the size of the entering class in the two-year Engineering course. This course is given this year for the first time. Its purpose is to do for the young man of the manufacturing cities of the state what the two year course in agriculture has done for years for the young man of the rural community.

It is a course which is not only new here, but is new everywhere. It has been tried but once or twice and then in the West. President Fairchild saw that there was an opportunity for service of this sort in New Hampshire, and has met it promptly. The response as indicated by this initial enrollment of 34 is very gratifying.

A new and somewhat complicated system of registration was in force to further puzzle the already bewildered freshman. The essential difference from last year's system lies in the fact that the student now does much of the work formerly done by the registrar, in the matter of filling out blank forms. A list of the new students and their home addresses follows:

- 1919**
- Hillmore, Ralph H., Concord
  - Vagner, Edgar R., Manchester
- 1918.**
- Gove, Lucile A., North Danville
  - Waterman, Clarence S., Durham
- SPECIALS.**
- Boomer, Marjorie R., Dover
  - Davis, Otto W., Concord
  - Gould, John H., Union
  - Kargas, Dionysios D., Dover
  - Adams, Albert W., Alton
  - Adams, Forest E., Westbrook, Me
  - Amor, John A., Penacook
  - Andrew, Edwin S., Concord
  - Ashford, Olive, Antrim
  - Atwood, Grace E., Worcester, Mass
  - Baker, Margaret E., Littleton
  - Bartlett, Edward E., Derry
  - Bellows, Charles, Groveton
  - Belyea, Clement, Newfields
  - Benson, Priscilla, Lebanon
  - Blodgett, Frank, Concord
  - Boomer, Steven H., Cumberland Mills, Me.
  - Brosnan, John A., Thorndike, Mass
  - Brown, Charles E., Dover
  - Brown, Lawrence C., Franklin
  - Brown, Irving C., Franklin
  - Buckley, John E., Nashua

## COMMISSIONED OFFICERS RECEIVE APPOINTMENTS

**Lieutenant Sutherland Selects Officers For the Two Battalions in the New Regiment**

The military department issued its first general orders of the year last Tuesday, and they are as follows:

General Orders, No. 1. The following promotions and appointments of officers are announced to take place this date. The officers are assigned to organizations as indicated and any transfers to other organizations will be made for cogent reasons only.

### REGIMENTAL FIELD AND STAFF.

Lt. Col. D. P. Crockett, Commanding Regiment; Captain L. P. Philbrick, Adjutant; Captain C. W. Archibald, Quartermaster; Captain Joseph A. Sullivan, Range Officer.

### 1ST. BATTALION.

Major W. I. Waite, Commanding Battalion; 1st. Lieut. G. D. Parnell, Adjutant; 2nd. Lieut. O. C. Work, Quartermaster.

#### Company A.

Captain G. W. Burke, Commanding Company; 1st. Lieut. K. C. Westover; 2nd. Lieut. W. P. Knox.

#### Company B.

Captain E. L. Blake, Commanding Company; 1st. Lieut. V. W. Batchelor; 2nd. Lieut. A. B. Whittemore.

#### Company C.

Captain W. E. Howard, Commanding Company; 1st Lieut. R. C. Graham; 2nd Lieut. J. D. Colomy.

### 2ND. BATTALION.

Major C. S. Pettee, Commanding Battalion; 1st Lieut. R. W. Watson, Adjutant; 2nd Lieut. R. D. Brackett, Quartermaster.

#### Company D.

Captain H. W. Chase, Commanding Company; 1st Lieut. W. H. Thomas; 2nd Lieut. S. W. Wentworth.

#### Company E.

Captain W. T. Tapley, Commanding Company; 1st Lieut. R. C. Wiggin; 2nd Lieut. C. B. Tibbetts.

#### Company F.

Captain W. J. Nelson, Commanding Company; 1st Lieut. C. C. Bond; 2nd Lieut. R. T. Roberts.

### Band.

1st Lieut. F. S. Manter;

## ANNUAL RECEPTION TO FRESHMAN GIRLS GIVEN BY Y. W. C. A.

The annual reception given by the Young Women's Christian Association to the Freshman girls was held on Smith Hall piazza the evening of registration day. Miss Finley, president of the Y. W. C. A., welcomed the girls in the name of the organization, and music was furnished during the evening by Miss White, '16, and Miss Roberts, '17. The Freshman posters and bells, accompanied by much good advice, were presented to the girls by the class of 1918. Refreshments were served by the social committee, and the evening ended with the singing of the college songs.

### NOTICE.

All men interested in newspaper work are urged by the board to try out for positions as reporters on the New Hampshire. All those taking courses in journalism should combine theory with practice and endeavor to get a place on the board. All interested should hand in their names to the news editor.

There are also three positions as assistant business manager that will be filled from candidates trying out this fall. If you have any business ability, here is your chance—hand in your name to the business manager.

## NEW COURSES IN ACCOUNTING THEORY AND PRACTISE OFFERED.

The only new courses of study not published in the catalogue are Economics 13, interpretation of accounts; Economics 14, advanced accounting; and the 2 year engineering courses. The latter have a special pamphlet covering them

## Y. M. C. A. ENTERTAINS ENTERING CLASS

**1919 AND 2 YR. 1917 CLASSES OFFICIALLY WELCOMED TO N. H. C.**

## ALL ACTIVITIES REPRESENTED

**Varied Speakers Urge New Men to Serve Alma Mater Outside of Classroom as Well as In—Refreshments**

"The growth of this institution has been little short of marvelous," declared President E. T. Fairchild to the 277 Freshmen assembled in the gymnasium, Saturday night, September 18, "and we may reasonably expect to have to hold this reception out-of-doors within the short period of three or four years."

Under the auspices of the College Christian Association, the classes of 1919 and 2 yr. '17, were cordially welcomed to New Hampshire College by the faculty and under-graduates of this institution.

After introductory remarks by Chairman W. J. Nelson, '16, in which he presented to the new men and women an outline of the varied and numerous activities of the college, W. J. Bugbee, president of the Y. M. C. A., spoke briefly of the work and ambitions of the Christian Association. "The Y. M. C. A. heartily welcomes the class of 1919." "For the last few years," said President Bugbee, "the spirit in the Y. M. C. A. has seemed dormant. We wish to relieve that condition and to infuse a new spirit of attractiveness into the association. We hope to do this by more frequent joint meetings with the Y. M. C. A. There will be no Bible classes this year. Instead, a series of lectures on social, economic, and religious questions will be given. The Y. M. C. A. will this year attempt to create a stronger, more definite, growing spirit in the work."

Mr. Bugbee spoke of the advisability of having college traditions. He also referred to the employment, lost and found bureaus which the association will run this year.

The work of the Y. W. C. A. was discussed by Miss N. E. A. Finley, who spoke of its contact with the Y. W. C. A.'s of other institutions, and of the mission study which the association will undertake this year.

The Student Council was represented by G. T. Studd, who outlined its activities speaking of its charge of all class rules and contests, and of the revision of rules that will soon be made. "We need the support of every man in New Hampshire College. We need the fellows and the spirit out at the very start. A large number of students out at all class contests and games means good spirit." Mr. Studd said that the Student Council has agreed to sell \$1500 of tickets for the Athletic Association. These tickets will admit anyone having one to all home games. He urged everyone to have his money ready to buy a ticket at Chapel, Wed. Sept. 22.

"The Girls' Council is made up of all women in New Hampshire College, of all who are loyal to their Alma Mater," said Miss Marion H. Dudley. Miss Dudley extended thanks to Dr. A. E. Richards through whose kindness the debt over the first publication of the Song Book was removed. Every new student and all old students were urged to possess the song book.

The activities of the Woman's League founded in 1913 for the purpose of establishing a more intimate relationship between the women among the undergraduates and the women on the faculty were outlined by Miss M. C. Dole, who spoke of the work done by the League in furnishing the Woman's Rest Room in Thompson Hall, by the proceeds of plays given, and urged every woman in New Hampshire College to become a member at the earliest opportunity. "Let every one who can sing or who thinks he can sing come out next Wednesday evening to the first rehearsal," was the welcome of E. L. Blake, leader of the Men's Glee Club.

Continued on Page 2

## FOOTBALL PROSPECTS GOOD FOR A SUCCESSFUL SEASON

**W. H. Cowell Director of Athletics Comes Highly Recommended as Coach—Eight Games on the Schedule.**

The football season is now on and the prospects have never looked brighter for a successful season. Eight men have returned who won their letters last year and this will form a very good nucleus about which to build a fighting machine. Another factor which encourages the outlook in athletics for the coming year is that a new position on the faculty has been created—that of physical instructor. He will have charge of all branches of athletics. The new director of athletics is W. H. (Butch) Cowell, a former star on the University of Kansas football eleven. He has had much experience in the game and, in fact, in all branches of college athletics, not only at Kansas, but at the universities of Illinois and Pittsburg. Here at New Hampshire he will have charge of the football, basketball, baseball and track teams, and will give regular courses in gymnasium work for both men and women students.

Director Cowell is a native of Lynn, but went to a western Kansas town with his parents when two years old, and now Kansas claims him.

The past summer he attended the coaching school at the University of Illinois, where he delved deep into baseball with George Huff and battled with Zupke, the wizard who turned out a Western Conference football championship eleven last fall.

After the training school season at Illinois he spent several days with Zupke outlining formations for the fall campaign, working mainly along the lines of open football. He believes in the open game, as played in the western universities, he says, and plans to depend upon it during the coming season.

**PRACTICE STARTED EARLY.** Football practice started a week and a half before college opened with a squad of a dozen men. The squad now numbers about 50 men and increases every day.

Swasey, an old star halfback, formerly captain of the Berwick Academy eleven, who has been out of college two or three years has returned and will make a valuable addition to the team. Other old players who have returned are Captain K. C. Westover, end; Bissell and Broderick, halfbacks; Jenkins, Swett, Huse and Perley, tackles; Bell and Morrill, guards; Brackett, quarterback; Watson and Brown, ends; and Burekel, full-back

### THE SCHEDULE.

- Sept. 25—Bowden at Brunswick.
- Oct. 2—Colby at Waterville.
- Oct. 9—Conn. Aggies at Durham.
- Oct. 16—Bates at Durham.
- Oct. 23—Middlebury at Middlebury.
- Oct. 30—Norwich at Durham.
- Nov. 6—University of Vermont at Burlington.
- Nov. 13—Worcester Poly. at Worcester.

It will be noted that Rhode Island is not on the schedule to play at Durham this year. New Hampshire went to Kingston last year and as it was Rhode Island's turn to come here this year and as they declined, New Hampshire canceled the game.

## GLADYS HOAGLAND AWARDED VALENTINE SMITH SCHOLARSHIP.

The Valentine Smith scholarship, which was established thru the generosity of the late Hamilton Smith of Durham, and is awarded annually by competitive examination "to the graduate of an approved high school or academy who shall be judged to have the most thorough preparation for admission to college" is this year awarded to Miss Gladys Hoagland, '19 of Stow, Massachusetts.

A pickup baseball team sallied out of Durham last Saturday to get the scalps of the Farmington eleven, but the latter team proved so speedy that the Durham boys were defeated 2 to 0.

## SOPHOMORES WIN ANNUAL ROPE PULL

**1919 MEN WALK AWAY WITH THE INTER-CLASS CONTEST**

## 2 YR. '16 ALSO TRIMS 2 YR. '17

**"Phil" Watson Pulls Top Heavy First Year Man from Briny Deep—Members of Losing Class Kiss the Rope**

Friday afternoon the Sophomores made up for their theoretical victory of "poster night" by winning the annual rope pull from the Freshmen in whirlwind fashion. The '19 class won the toss-up and selected the further side of the river, on which the Sophomore class last year won their pull. This, however, availed them nothing as less than 40 seconds after the gun was fired the first man of the team was in the water. The Sophomore team averaged much heavier than the 'Freshies' and this combined with their experience of last year enabled them to keep the '19 class team on the move after the first tug.

### 1918 TEAM.

Cummings, Dalton, Badger, Sawyer, R. H., Huse, Wadleigh, Jeffers, Humiston, Bennett, W. Willand, Allen, Bril, Perley, Dodge, Sawyer, LL., Fope, Ford, Morrill, J., Jenkins and Bell, Leader.

### 1919 TEAM.

Landrey, Smith, I. R., Rector, Nightingale, Smith, H. B., Gale, Torrey, Harrell, Lovejoy, Belyea, Andrew, Emery, Wildes, Robinson, Wallace, Brown, L. W., Knowles, Buckley, and Mitchell, Leader.

### TWO YEAR CONTEST.

For the first time in the college history, the two year men also participated in the excitement of the day by having a tug between 2 yr. '16 and '17. This was a much more even match than the 4 year pull, the Sophomores finally winning by superior weight and better knowledge of existing conditions. The match was without excitement except for the "hero" act with "Watso" as leading man. One of the Freshmen 2 year men got beyond his depth and but for the prompt aid of Philip Watson might have swallowed a portion of Oyster Bay. We judge nothing more serious would have happened, by Watson's remark to the man as he set him on his feet near shore. "Walk or sink now," said Phil, "I've carried yer far enough." The rope was then halved for the winning teams to dispose of as they saw fit. The winning 2 year team made all first year men kneel and kiss the rope, to the huge delight of all spectators.

A list of the two year contestants will be published in the next issue of the New Hampshire.

## ENTOMOLOGY DEPARTMENT INVESTIGATES INSECT PLAGUES.

Professor O'Kane and Mr. Cleveland of the entomology department recently spent two days in the towns of Tamworth and Sandwich investigating damage caused by an insect of the plant louse type which has a peculiar life history. The animal attacks pine and spruce trees.

## L. J. BATCHELDER APPOINTED INSTRUCTOR IN WOODWORK KING.

Lyman J. Batchelder of Laconia has been appointed Instructor of Woodwork and Manual Training. Mr. Batchelder is a graduate of the Exeter High School and was for some time a manufacturer of store and bank fixtures and house-furnishings in Haverhill. He has been since 1903 in the cabinet and wood mill department of the Laconia Car company. Since 1912 he has been the head of the Engineering department there.

John E. Ladd, herdsman and instructor in annual husbandry, was granted a year's leave of absence which he is spending at Purdue University working for his Master's degree. He has been granted a fellowship at the University.

## EDITORIALS.

The following words are an extract from "How To Succeed In College" by the late President Buckham of the University of Vermont.

"Go slow," in everything except regular College duties until you get your bearings and have a chance to make up your mind and decide your course with some deliberation. Its all a new life and serious mistakes are easily made."

"Keep a discerning eye out on men and choose the right leadership. The new comer, at first, will naturally be a follower. Go with men whom you carefully approve."

"Seek and accept and cherish the society and friendship of your instructors—especially some of them—those to whom you are drawn. Visit them—confide in them; they will be your real friends—and in College you will need such friends."

"If possible, don't get behind in your work one single day. Work done when it is due, in proper order and succession to what comes before and after it, is worth twice as much, many times as much, as the same work 'made up.' If it is neglected or omitted, at the right time, make it up, but settle it in your mind that every lost or 'not prepared' recitation or lecture is at least one-half irrecoverable."

"Devote a certain reasonable amount of time to recreation and sport—but beware of wasteful games. Have always, on your table good books for reading, and the best books for Sunday reading. Commit to memory passages from the best literature—especially from the Bible. Go to church every Sunday morning. Accept invitations to the beautiful homes of Durham, and so cultivate the graces of good society that many of these homes will welcome you. And this above all; write often to your parents and friends at home, and keep ever close and tender the tie which connects you with those who follow you here with their love and prayers, to whom your success will be joy and pride, and who are most happy when they think of you as doing your utmost and best for their sakes."

## FOOTBALL.

Football is, or should be, the main topic of conversation and thought in an athletic way from now until the end of the season.

We have never supported our teams as they should be supported. Let us support the team in the right way this year.

Every man ought to be a member of the Athletic Association. Every man who possibly can should attend the games here in Durham. We cannot all play, but those who can should consider it their duty to ask the manager for a suit of football togs so that they can get out on the field and help build a winning team.

Our record in football has become a joke. When our football team is mentioned among outside people they smile. It's up to us to justify ourselves. We have made great progress in other respects. Let us not lag behind in this one but put our shoulders to the wheel

and boost so that old New Hampshire may come out where she belongs—on top!

## THE RUSHING SEASON.

With so many men to pick from this year the rushing season bids fair to be more or less of a jumble. Therefore it is right and proper that a word be said at this time to assist the freshmen in their choice of a fraternity.

Much unpleasantness and after-hard-feeling may be obviated if the freshmen will remember to give their natural inclinations more play. When being entertained by a fraternity, remember, judge the men in it by the usual standards. Do not, because a man happens to belong to a fraternity, think that he must be a little tin god. Pick your friends as you would in outside life and stick to them.

## USE YOUR TALENTS.

The musical material which seems to be present here in college this year indicates the possibility of making a wonderful record if all the material will come out.

We admit that all the men who can play football should consider it their duty to come out for the team. Likewise it is the duty of every man who can play an instrument or sing to come out for the musical organizations.

It has been mentioned by some returning ones that Durham appears to be turned inside out, the insides being scattered along the banks of two or three miles of ditch. This seems to be a matter of sorrow to many. However, they may be comforted by the knowledge that as long as our insides are made of the stuff they should be made of we need have no fear of showing them.

All the new system of registration lacks is a means for securing the thumb-prints and a photograph of each student.

The men who are languishing in the basement of Demeritt Hall may cheer themselves up somewhat by coming down to the new dormitory and enjoying in anticipation the quarters they soon will have.

## HOYT AND CHAMBERLAIN ANNOUNCE DISSOLUTION OF PARTNERSHIP.

The management of the "College Shop" has been changed according to the announcement given below.

"We hereby announce that the partnership heretofore existing between us is now dissolved. All bills due and against the former firm of Hoyt and Chamberlain "College Shop" will be assumed by W. H. Hoyt who will continue the business.

Signed W. H. Hoyt, '17; W. E. Chamberlain '16.

"Bill" wishes to announce that it is his desire to accommodate his customers to the utmost. In order to do this he is laying in a large variety of stock. As soon as possible, he will have arrangements made to keep the shop open all day. Max McConachie '18 has been appointed assistant manager.

## DR. OTIS, ASSISTANT BOTANIST AT EXPERIMENT STATION.

C. H. Otis, Ph. D. has been named the new assistant botanist of the experiment station, and he will also act as instructor in botany in the college. Dr. Caroline L. Black, who has been assistant in the station work, will hereafter devote herself exclusively to the college.

Dr. Otis took his doctor's degree at the University of Michigan, where he was assistant curator of the botanical garden and arboretum and later director of the garden. For the last two years he has been an instructor in botany in Cornell. Besides being the author of several technical papers he has written a popular bulletin "Michigan Trees," which has run through several editions.

## NEW EQUIPMENT IN DAIRY BACTERIOLOGY LABORATORY.

Four new tables are now being fitted for use in the bacteriology laboratory. Their addition gives increased facilities for teaching the subject since a class of twelve, instead of four, can now be accommodated.

The tables were made at the shops under the direction of Mr. R. E. Haines, 15.

## SOPHOMORES WIN POSTER CONTEST BY SLIM MARGIN

Freshman Capture 30 or 40 1918 Men in Scrimmage—1919 Banner Hung From Flag Pole

Last Thursday morning the sophomores won the poster contest even though 30 or 40 of their number were tied up and waiting for seven o'clock to come to set them free.

After the Minstrel show, Wednesday evening, the Freshmen met just above the station on the Madbury road, while most of the Sophomores met on the old railroad bed back of the Kappa House. Several scouting parties of Sophomores were out, besides a couple of auto parties, all of whom were amply provided with the posters and paste.

At one o'clock, the Freshmen marched into town, and woke the few who were asleep, with their songs and cheers. The Sophs, however, were playing a "watchful waiting" game, and did not immediately go out to meet the enemy. As soon as it began to be light, they started but first they dispatched a few more men to put up posters.

Then the fun began. The Sophomores had hardly reached the road in front of Demeritt Hall when the Freshmen came in sight. The Sophs retreated to the campus and made a stand. The Freshmen were far larger, in numbers, than the '18 bunch and so inside of five minutes it was all over. All of them were tied hand and foot and carried to the foot of the flag pole, from the top of which triumphantly waved a 1919 banner.

All this happened at five o'clock, and from then until seven, when the contest closed, all was comparatively quiet. There were, however, a few escapades, and many attempts to escape.

Just before seven o'clock the autos came in and stuck up a few posters on the town hall and the railroad station and then the contest was won for the Sophomores.

## ATHLETIC ASSOCIATION AND STUDENT COUNCIL COMBINE.

In order to raise money for the Athletic Association and by increasing its membership and the attendance at games materially increase the spirit here at New Hampshire, the Student Council has planned a membership campaign. Two tickets are to be issued. The three dollar one covers membership in the Association, four football games, probably seven baseball games, and too subscriptions to sweaters, all of which purchased separately, would come to \$6.25. The four dollar ticket covers in addition seven basketball games, three track meets, and two more sweater subscriptions, which would total up to \$9.25. In order to assure the holders of these tickets that they will not be in the minority the Student Council promises to sell \$1500 worth of tickets or return the money.

The sale regarding the use of Athletic Association material is to be enforced this year.

Continued from Page 1  
Y. M. C. A. ENTERTAINS

"Until last year the club had never been on an extended trip, but last year we were able to take one. The club is one of the best advertisements for the college. We want the loyal support of all the old and new men."

Miss Roberts, manager of the Girls' Glee Club assured every woman that if she once became a member of the Girls' Glee Club she would never regret having given the service to the college. "We need and expect every woman in the 1919 class to join the club."

Mr. C. A. Weigel spoke for the orchestra saying that the orchestra is as old as the Glee Club and has become indispensable in the concerts given by the club. "The orchestra aids greatly in making all social functions in the college more attractive." Mr. Weigel mentioned the sum of money set aside by President Fairchild for the orchestra. He urged every man in college who has any musical talent for instruments to try out for the orchestra.

Mr. A. R. Morgan explained the object of the Dramatic Club to develop dramatic talent if possessed by any student.

At this point in the program all the classmen assembled, sang "The Line-Up."

"Since its publication as a weekly, the college paper has steadily grown in influence and has ambitions to become more influential in creating real New Hampshire Spirit," said W. E. How-

A. O. McCartney, '15, is principal of Jefferson High, Jefferson, N. H.

R. H. Kinder, '15, is teaching physics and elementary science at Quincy High, Quincy, Mass.

R. C. Bowden, '15, is Y. M. C. A., Secretary at Waterville, Maine.

B. H. Odiome, '15, is a candidate for an M. A. degree at Harvard University.

F. D. Bronson, '15, is in the State Forestry Work, Lisbon, N. H.

Mr. W. C. Krook, '14, and Miss F. A. Mudd, '14, were united in marriage September 14.

Miss B. M. Hayes, '12, is teacher of mathematics in the High School at Dalton, Mass.

P. E. Corriveau, '15, and W. W. Swett, '15, are candidates for their M. S. degrees at the University of Missouri.

P. A. Foster, '13, is now in State Y. M. C. A., work with headquarters at Concord, N. H.

Mr. A. S. Colby, '11, and Miss M. Bullard were married August 18.

Wm. Bartlett, '15, J. Croghan, '08, S. DeMerritt, '12, B. R. Wells, '10; and P. Gale, '13, are in the employ of the Stone and Webster Company, who are doing electrical work in the new Remington, U. M. C. plant at Bridgeport, Conn.

Miss G. McKone, '15, is teaching mathematics in Dover High school.

G. W. Towle, '12, is sub-master in Malden High, Malden, Mass.

Miss M. A. Chesley, '08, is teaching French in the High School in West Warwick, R. I.

Y. G. Key, '15, is working in the Postal Agency, Shanghai, China.

L. F. Brown, '15, is in the employment of the college dairy department.

Miss M. E. Lord, '13, was married to J. L. Sweet of Errol, N. H., in July.

J. F. Thompson, '15, is teaching science and coaching athletics at Sanborn Seminary, Kingston, N. H.

Miss H. Plumer, '15, is teaching mathematics in the High School, Rochester, N. H.

C. A. Reed, '15, is in the Seaman's Saving Bank, New York City.

W. F. Parker, '15, is teaching in the High School, Northwood, N. H.

L. L. Langley, '15, is in the livery business in Dover, N. H.

O. G. Paulson, '15, is taking the college course of the Westinghouse company, Pittsburgh, Penn.

C. A. Sawyer, '15, R. E. Dearth, '15, and E. E. Watson, '15, have returned to their home farms for the present.

A. J. Grant, '15, is instructor in chemistry at New Hampshire College.

J. I. Garside, '15 is in the employ of the Starrett Tool Co., Athol, Mass.

J. S. Elliott, '15, is in charge of the Madbury greenhouses.

J. L. Grady, '15 is with a paper concern in Berlin, N. H.

Among the summer visitors to Durham were the following:

Prof. McNutt, now in South Carolina. Miss M. E. Townsend, former registrar, now of Dartmouth College.

Mrs. D. Hazen, '07, of White River, Vt. E. J. Roberts, '06, Brooklyn, N. Y.

F. W. Randall, '07, and wife of Cornwall-on-Hudson, N. Y. Mrs. D. Smalley '07 of Lynn, Mass. E. L. Forristall, '07, of Cortland, N. Y. Miss K. DeMerritt, '08, of Chicago and Miss M. DeMerritt, '11, of Wellesley College.

H. C. Holden, '12, and wife; and H. P. Corless, '10 and wife; all of Pittsburg, Penn. E. D. French, '10, of Boston, Mass.

NEW HAMPSHIRE BOARD ELECTS  
FOUR TO FILL VACANCIES.

At a meeting of the New Hampshire Board, September 20 in Demeritt Hall, the following officers were elected: for News Editor, E. F. Cutts, '17, for Assistant News Editor, W. H. Jeffers, '18; for Society Editor, Helen F. Tilton, '17; for reporter, P. Batchelder, '18.

Prof. E. R. Groves speaks this evening in Gorham N. H., before the State Federation of Women's Clubs. The subject of his lecture will be "Abiding Satisfaction of Life."

# Fall Announcement.

We extend to the Faculty and Students of New Hampshire College a cordial invitation to visit our many departments and inspect our Fall lines of Clothing, Furnishings and Shoes.

Our lines are very large and varied in styles and prices.

## Lothrop=Farnham Co.,

476-480 Central Avenue,

Dover, N. H.

THE CHURCH IN DURHAM.

Preaching 10:45 a. m.

Bible School 12:00 noon.

Short Sermon—Good Music.

ALL WELCOME.

### PRESIDENT FAIRCHILD SPEAKS AT FIRST CONVOCATION.

The college chapel room in the top of Thompson Hall, once large enough for all the students with room to spare, found itself unequal to the task the Thursday afternoon following registration of furnishing seats for those who attended the first convocation of the year. Every chair was taken; all alcoves were filled, and students lined the rear wall and peered in from the hallway.

President Fairchild was enthusiastically applauded when he took his place on the platform. He told his hearers that they had come to Durham with ambitions, but that they must learn at once that ambition was not enough for success. There must also be stamina, the ability to endure.

"The path to success is strewn with obstacles," he said, "and it is for you to remove them. There are critics whose views I do not share, who contend that there is something lacking now in a college course; that there is a tendency to do too much smoothing for the student. Let me tell you that you must make your own way. There is no royal road through this or any college.

"Keep before you always this thought your purpose here is your mental and moral advancement. Your being here implies an obligation. You are under an obligation to your home, and you are under an obligation to your state and nation. Make your returns in intelligence, loyalty and patriotism."

Miss Velma Davis of Dover is secretary to President Fairchild in place of Miss Blodgett who is secretary to Dean Pettee.

### DR. A. E. RICHARDS SPENDS SUMMER IN CALIFORNIA.

Dr. A. E. Richards enjoyed a most interesting and profitable summer in California. He resided in Berkeley, the seat of the University of California, for nine weeks. While there he attended two of the courses in the University summer school in which there was a total registration of five thousand. He also heard the address of the president to the incoming freshman class at the beginning of the regular college year, which comes early in August.

Dr. Richards found two former students of New Hampshire residing in Berkeley, one of whom is Miss Downs who has charge of the University book store. There were also twelve Durham people at the Exposition during the summer.

At the Yale week ceremonies at the exposition Dr. Richards was official pianist. He tells of playing a portable organ one day, while travelling through the mountains, and being relieved of three pounds of superfluous weight as a result. He also saw a magnificent performance of *Modena* with Margaret Anglin in the leading role. The play was held in a large open air Greek theatre and was witnessed by twelve thousand people on that one occasion. Dr. Richards attended the meeting of the National Education Association of which President Fairchild is an exception and a life member. He said that the California state exposition at San Diego was exceptionally good. While in San Francisco he had the opportunity of hearing the human voice over three thousand miles of wire from New York to California.

### ANNUAL MINSTREL SHOW GIVEN BY THE FRESHMEN

Sophomores Act as Hosts—Same Old Stunts Pulled Off—A Fair Sized Audience Present

Acting upon the many urgent invitations found posted in the most conspicuous spots of Durham the delighted members of the classes of 1919 and 2 yr, '17 found their way to the Gym on the Wednesday evening that college opened. Their greeting at the door by a reception committee of sophomores, well provided with stout paddles was of the heartiest type. They were thrust almost violently into the midst of a throng of their classmates herded in the basement, and there awaited the call of the stage manager. A congregation of upper classmates and friends was anxiously waiting for the evening's entertainment to begin, in the meanwhile listening to some doleful strains being executed by a 1919 Paderewski on the piano on the running track. Soon the pounding of the war clubs announced the arrival of an ambitious candidate from the basement. The paddles began to work automatically, and the aspirant and many of his friends began a most spirited amble around the gym floor. Chariot races, wrestling, and boxing, brought about much talent, and to liven things up a bit one freshman ran out the door unheeded. Some of the freshmen were considerate enough to get on their knees under a table with just enough of their anatomy projecting for a 99% efficient use of the paddles by their hosts. Others joyously pushed pennies across flypaper with their noses. But one mishap marred the pleasure of the evening. The accidental dropping of a pail of water from the gallery on a sophomore. It wasn't long before the unpreparedness of the sophomores for starting new stunts became noticeable and the number of onlookers decreased, whereupon the freshmen were finished up with a rush. After each act the entertainers found relief from the hot weather by taking a swim in the shower room in the basement, after which each was advised to enter his nightshirt and not depart from it until the following morning.

### VOLUNTEER COURSE ON USE OF SLIDE RULE TO BE SCHEDULED.

Will all students and others who would be interested in a volunteer course (of about four periods) on the use of the slide rule hand their names and schedules to Prof. Fisher as soon as possible. From these schedules a selection of convenient hours can be made. The schedules should include evening hours, as it may not be possible to find convenient hours in the daytime. The hours decided upon will be advertised on the bulletin boards and in the New Hampshire.

### SHUBERT COMPANY WILL OPEN LECTURE COURSE

Announcement of Other Numbers Soon to be Made—Price of Tickets to be Same as Before

The Shuberts will open the lecture course for 1915-16. The combination will be the same as that of two years ago, including the regular Shubert quartet, made up of Mr. Tripp, Mr. Swaine, Mr. Walker and Mr. Steele, and in addition four women soloists.

The concert of two years ago was a splendid success. Each of the members of the organization is a soloist of ability, while the ensemble work of the double quartet and the single male quartet was remarkably effective. The opening concert will take place in a few weeks.

#### OTHER NUMBERS.

Other numbers of this year's lecture course will be of a similar high grade. There will be at least two speakers of national, or even of international, reputation, and in addition other numbers of superior merit. Negotiations for the speakers have reached a point where announcement of their names can be made within a few days. At no time have men of greater renown visited New Hampshire.

The lecture course is conducted by New Hampshire College itself, the trustees making an annual appropriation towards its maintenance. Student tickets are sold at \$1 for the entire course. To others the price is \$1.50.

### NEW HEAD OF MECHANICAL THE ENGINEERING DEPARTMENT

Professor Roy H. Porter of Iowa State College has accepted the position of head of the department of Mechanical Engineering here to succeed Professor Richard E. Chandler resigned.

Professor Porter took his B. S. degree in Mechanical Engineering at the University of Maine in 1903 and the degree of Mechanical Engineer at Iowa State College in 1912. He has been instructor in Mechanical Engineering at Iowa state, was made assistant professor there in 1908 and associate professor in 1915. He has also spent much time in practical work with various engineering companies.

Professor Porter has enjoyed great success as a teacher, having the faculty of inspiring his students with his own enthusiasm. He is remembered in New England by college men of a decade ago as an athlete, for as an undergraduate he was one of the star sprinters of the Maine track team.

### NEW HEAD FOR HOME ECONOMICS DEPARTMENT

Dr. Nellie E. Goldthwaite, in charge of the work in Dietetics in the Department of Household Science in the University of Illinois, has been appointed by President Fairchild head of the Department of Home Economics here.

Dr. Goldthwaite is a graduate of the University of Michigan, took her doctor's degree at the University of Chicago, and was from 1897 until 1905 head of the department of Chemistry at Mount Holyoke. She is a member of the American Association for the Advancement of Science, American Chemical Society, Sigma Xi, and the Association of Collegiate Alumnae. She is the author of many scientific publications and is at present engaged in the preparation of a bulletin on Food and Nutrition, for the University of Illinois, and is writing the chapter on Food for the work on general agriculture being prepared by F. D. Gardner of the State College of Pennsylvania.

### MISS MARTHA FLAGG EMERSON TO BE NEW COLLEGE LIBRARIAN.

Miss Martha Flagg Emerson is the new college librarian succeeding Miss Harriet H. Stanley. Miss Emerson is the daughter of Professor C. F. Emerson, dean emeritus of Dartmouth. She received her library training in the Boston Public Library Catalogue Department (as a volunteer worker), in the Springfield, (Mass.) City Library apprentice class, and one year in the library school of Simmons College. Subsequently she was on the staff of the Springfield Library, had charge of the Art Department Library of Wellesley College, was substitute cataloguer in the Lynn, Mass., Library and worked five years as library organizer of various small libraries. She comes here after two years as librarian of the Atlanta University Library, Atlanta, Georgia. Her home is in Hanover, N. H.

### WELFARE COMMITTEE STARTS CLEAN-UP CAMPAIGN

State Laws Give Authority for Stringent Measures if Necessary—Co-operation of Students Desired.

The Student Welfare Committee composed of Professor Perley, chairman, Miss Caroline Black, Mr. Cowell, Professors O'Kane, and Taylor, has done good work for Durham during the past months. Results however, would have been far more gratifying had individuals cooperated better.

Preventable diseases, sanitation, pure foods and proper housing are among the principal points involved in the work attempted by the committee.

This committee is made up of faculty members who are ever ready to serve as advisers for the better safe-guarding of the health of our student body. With the greatly increased registration results can only be accomplished by complete cooperation between the students and the committee.

A plea for greater care in the disposal of waste cans, paper, etc., as well as a more rigid control of garbage cans has been made to house managers. If everyone maintains daily cleanliness in his room house and yards there will be no need for "clean up week." Each student must be brought to the realization that bacteria pass from person to person by the three principal avenues of food, fingers and flies.

The committee desires to be promptly advised as to every nuisance which may come to the attention of any student and efforts will be made to abate such. The milk and water supplies furnished the students will be investigated periodically. Any undesirable conditions relating to any of these matters should be communicated at once to the committee.

#### PUBLIC HEALTH LAWS.

Public health laws of the State of New Hampshire under Chap. 108, sect. 18 read as follows: "Wherever a building, tenement or room occupied as a dwelling house or school room, or any cellar or other appurtenance connected therewith, has become the source of danger to the health of its occupants or others from want of cleanliness, the health officers may order the owner, his agent, or the occupants, or any of them, to cleanse and put the same in proper sanitary condition, and the occupants to quit the same within a time limited. If the persons so ordered do not cleanse the same as ordered the health officials may do so, and may recover the expense thereof, together with their fees, of the owner, or they may order the same to be closed and to remain so until properly cleaned. If any person shall fail to comply with an order of the health officers made under the authority of this section, after receiving due notice thereof, he shall forfeit \$10 for the use of the town, or be imprisoned not more than thirty days."

It is hoped that the required enforcement of this regulation may be avoided through the individual cooperation of the students.

### PURE BRED GUERNSEYS ADDED TO DAIRY HERD.

The dairy department recently purchased three pure bred Guernseys, one cow and two heifers, from the herd of Mr. H. A. C. Taylor, Newport, R. I. It is expected that the cow will make a milk record of 10,000 pounds this year.

### C. J. FAWCETT INSTRUCTOR IN ANIMAL HUSBANDRY.

C. J. Fawcett, '15, of Ohio State University has accepted a position here as instructor in animal husbandry, taking Mr. Ladd's place. Mr. Fawcett was a member of the team which was to have been sent to the International Fat Stock Show at Chicago. It was unable to compete because of the foot and mouth disease scare.

### PROFESSOR E. R. GROVES TEACHERS IN Y. M. C. A. SUMMER SCHOOL.

Professor Groves gave an advanced course in sociology at the Y. M. C. A., summer school at Silver Bay, Lake George, N. Y. This school is for the state secretaries and other officials of the Y. M. C. A. There are four of these schools in the country. Professor Groves has been asked to give a course in Freudian Psychology to the workers for boys, at the school at North Carolina, and an advanced course in sociology in one of their schools in the western states. He has these two courses under consideration for next summer.
