RISK

Health, Safety & Environment

Volume 11

2000

Number 1

Comment

Allan Mazur, *Looking Back: Unneeded X-rays*

From the discovery of x-rays in 1896 to the present, Dr. Mazur explores the history of risk management of radiation exposure from x-rays and nuclear fallout.

1

Articles

Les Levidow & Susan Carr, *Normalizing Novelty: Regulating Biotechnological Risk at the U.S. EPA*

Drs. Levidow and Carr examine EPA's regulation of biotechnology in the field of genetically modified organisms.

9

Patrick Knott & Kathleen Ruroede, *One Solution for Managing Risks During Cutbacks in Residency Training Programs*

Professors Knott and Ruroede examine the risks associated with downsizing and elimination of physician residency training programs.

35

Karen Lowrie, Michael Greenberg & Lynn Waishwell, *Hazards, Risk and the Press: A Comparative Analysis of Newspaper Coverage of Nuclear and Chemical Weapons Sites*

The authors present a comparative analysis of newspaper coverage for four hazardous substance containment facilities located in different parts of the country.

49

Bryan L. Williams, Alex Valle, Sylvia Brown & Michael Greenberg, *Frequency of Use and Perceived Credibility of Information Sources and Variations by Socioeconomic Factors Among Savannah River Stakeholders*

The authors examine the factors effecting credibility of risk communication in the communities surrounding the Savannah River Nuclear Weapons Site.

69

Congratulations

Betsy Baker and Melissa Leaver will be the 2000-01 Student Editors-in-Chief; Danielle Pacik will be the 2000-01 Book Review Editor.

Forthcoming
