## Articles

Lawrence V. Tannenbaum, *Risk Assessments for Chemical Stockpile Incinerators: Is the Supporting Guidance Adequate?*

The author identifies potential deficiencies in guidance used in the United States for risk assessments of chemical weapons incinerators.

267

Juanita V. Field & George E. Schreer, *Age Differences in Personal Risk Perceptions: A Note on an Exploratory Descriptive Study*

The authors test for differences in risk perceptions among different age groups.

287

John M. Gleason & Darold T. Barnum, *A Performance Indicator Analysis of Proficiency Criteria in the Drug-Testing-Laboratory Certification Process of the DHHS*

The authors highlight and propose remedies for problems in the proficiency criteria used in certifying laboratories for drug testing federal employees in the United States.

297

Branden B. Johnson, *Utility Customers' Views of the "Consumer Confidence Report" of Drinking Water Quality*

The author evaluates consumer understanding of water quality reports provided to them by their drinking water utility under the U.S. Safe Drinking Water Act Amendments of 1996.

309

Bryan Harris, *Food Safety in the United States and the European Union: Sequel to a Case Study*

The author reports on recent regulatory and legislative developments in the United States and European Union relating to toys imbedded in candy.

329

Susan M. Macey, *U.S. Peak and Non-peak Hyperthermia: Who is at Risk?*

The author examines hyperthermia death rates in the United States from 1979 to 1996 to determine the relative risk for different demographic groups during peak years for heat-related deaths and for nonpeak years.

345

## Book Reviews
