DURHAM, N. H., APRIL 6, 1918.

PRICE FIVE CENTS.

SOCIAL AFFAIR BEING PLANNED

Woman's League and Women of Durham Arrange for Plays and Supper

Plans are well under way for the "Grand All Round Entertainment," which is being arranged by the Women's League and the women of Durham, on April 20, in the Gymnasium. Supper will be served at six o'clock, cafeteria style, at submarine prices.

Two plays, "Souvenir Spoons," and "Kid Curlers," will be given starring well known Durham favorites.

The college orchestra will give their services for the dancing which will begin promptly at the close of the plays.

The entire proceeds are to be used for war purposes and the committees in charge are working hard to make the affair a financial as well as a social success.

HOFFMAN AND GARABEDIAN PLAY AT CONVOCATION.

The students of New Hampshire College were given a rare treat at Convocation last Wednesday when Mr. Carl A. Garabedian, piano, and Louis B. Hoffmann, '19, violin, entertained them with a splendid program. Many visitors were present to enjoy this occasion.

The program is as follows:

Concerto No. 1, Ch. de Beriot
Mr. Garabedian, Mr. Hoffmann
Air de Ballet, T. Adamowski
Mr. Hoffmann
Concert Etude, Dennee
Mr. Garabedian
Capricante, Wachs
Mr. Garabedian
Rondino on a Theme by Beethoven, F. Kreisler
Mr. Hoffmann
Caprice Viennois, F. Kreisler
Mr. Hoffmann

FIRE DEPARTMENT SHOWS REMARKABLE EFFICIENCY.

The eagle eyes of Dean Pettee was the means of sounding Box 23 on the fire whistle and thereby calling the efficient and well disciplined Durham fire department to the A. T. O. house at 8.15 last Wednesday evening.

The fire was located in the pipe housing running to the now unused water tower, thirty feet in the air.

The little Pyrenes rushed over from Fairchild Hall were little or no good. The bucket and pan brigade did the greater amount of extinguishing.

Two fellows who had rushed with a large extinguisher from Nesmith Hall, arrived at the house and were directed to the attic three flights up. Arriving there the director said, "Oh, you want the fire? That's out in the tower."

The exact amount of damage is unknown.

POINTS TO BE OBSERVED IN CHOICE OF PRODUCERS.

In choosing heavy layers for breeding purposes, Professor Richardson recommends that the following points be remembered: The heavy laying hen will have pale legs and beak, the paler they are the more eggs the hen has laid. She will have a long breast bone, she will be wide across the back growing wider toward the tail. There will be room between the rear of the breast bone and the lay bones to place four or five fingers. The veins running up and down the outside of the legs will be noticeable. She will be a bird with a good appetite and a bird with torn toe nails. If these are all found in any of the birds she may be marked as a good producer, and is the sort of a bird to use as a mother in breeding males, if egg production is to be improved next year.

The sophomores trying for assistant managership in baseball and track should report to Coach Cowell next Monday.

SECOND NEW HAMPSHIRE DAY

Committee Recommends
April 17

CHAIRMEN APPOINTED

Sidewalks, Board Track, Baseball Diamond and Bleachers on Present Program

A New Hampshire Day committee met Wednesday, consisting of Professors Whoriskey, Porter, Steck, Hewitt, Cleveland, Cowell and T. R. Butler, '21, G. R. Bailey, '20 and R. D. Brackett, '18.

Professor Whoriskey was elected chairman and Mr. Cleveland secretary.

It was decided to recommend to the faculty that April 17 be "New Hampshire Day" and that college exercises be suspended. The necessary funds are available.

Professor Hewitt, representing the administration and sidewalks and roads committee suggested that the sidewalks from T Hall to Smith Hall, Smith Hall to Main street, T. Hall to Library, Morrill Hall to Main street and T. Hall to Main street in direction of station be fixed. It was proposed to use seventy-five men on this job.

Coach Cowell suggested that sixty men be used for grading for a board track. The rest of the men will be used in digging sod for the baseball diamond and building three new sections of bleachers.

It was voted to establish chairmanship of four sub-committees, these chairmen are to select their men. 1, Teams (the securing thereof), Professor Hewitt; 2, Tools, Professor Porter; 3, Bleachers, lumber and supplies, Professor Woodward; 4, Sod, Professor Prince.

President R. D. Brackett of the senior class is vice-chairman of general committee.

There is to be an executive committee with Professor Whoriskey as chairman to do the organizing work.

It was voted to serve a lunch, committee of Professor Whoriskey and the four class presidents to take charge of arrangements for financing it and appointing a sub-lunch committee.

BANNER AT MORRILL HALL RATHER ANCIENT.

The faded, torn banner which hangs in the entrance way of Morrill Hall, has a most interesting story. This story takes one back to the days before New Hampshire became a distinct institution, with its own individual organization.

The banner was given by the women of Hanover to the new State College at the dedication of Culver Hall about 1870. In Culver Hall is found the beginning of our present New Hampshire College. It was built with funds provided by a Mr. Culver of Lynd, and the State of New Hampshire. Twenty-five thousand dollars was given by Mr. Culver, with the provision that it should be used for agricultural purposes. This sum, with fifteen thousand appropriated by the state, built Culver Hall, which is still standing on the campus at Dartmouth.

The state, however, in providing its share of the expense, made the provisions, that the State College should have its home in the new building, and second, that if the State college ever left Hanover, Dartmouth was to pay fifteen thousand dollars to the new State college.

However, when the State college did move to Durham in 1893, Dartmouth was excused from paying the sum required by the state.

However, the State college claimed this banner and it was moved with the rest of the college, and hung in its present resting place.

ACTIVE Y. M. C. A. GROUPS FORMED

Services Held Weekly at Dormitories and Fraternity Houses—Faculty Leaders Appointed

Following the suggestions offered by Mr. C. P. Shedd, the Y. M. C. A. chapel speaker, groups have been formed at the various fraternities and at Fairchild Hall. They meet once a week and discuss live subjects dealing with the practical use of Christian teachings. Last week some of the primary causes of the war and the present day situation as regards ethics were discussed. The different points of view regarding the crisis and the reconstruction, which must follow, were brought forward and later the relation of Christianity to the world war proposition is to be developed. Last week there was an attendance of from fifteen to twenty in each group and it is hoped that every student residing in Durham may be reached. The Fairchild Hall group includes all non-fraternity students. The leaders also meet each week to discuss the subjects previous to bringing them up at the various groups.

The leaders are as follows:

Theta Chi, Professor Suydam
Alpha Tau Alpha, Professor Eckman
Pi Mu Delta, Mr. Fawcett
Alpha Tau Omega, Mr. Pierce
Fairchild Hall, Mr. McAllister
Kappa Sigma, Professor Simmers
Sigma Alpha Epsilon, Mr. MacBride
Lambda Chi Alpha, Mr. Cleveland

AWARDS LETTERS AND ELECTS MANAGERS FOR NEXT YEAR.

At a meeting of the executive committee of the New Hampshire College Athletic Association it was voted to award the following men letters in basketball: Captain R. F. Cahalane, '18; A. F. Davis, '20; W. E. Shuttleworth, '19; T. R. Butler, '21; E. A. F. Anderson, '21; J. F. Steele, '20; T. J. Craig, '21; and C. B. Durgin, '18, manager.

C. A. Wakefield, assistant manager was voted his letter provided he is called into military service before next basketball season.

R. H. Sawyer, '18, manager of baseball for season 1918 was awarded his letter in baseball.

K. E. Fenderson, '19, assistant manager in football was elected to manage football in 1918 season.

C. A. Wakefield was elected to manage basketball during 1918-1919 season unless the above reason contradicts and then it is the sense of the committee that M. H. Strain, '19, be made manager.

A. B. White, '19, assistant manager of baseball was elected to manage baseball in 1919.

E. E. Bartlett, '19, was elected track manager for 1919 season.

INTERCLASS BASEBALL.

The preliminary schedule of the class baseball games is as follows:

1920-1918—April 8, 5.00 p. m.
1921-1919—April 9, 4.15 p. m.
1920-1919—April 10, 4.00 p. m.
1921-1918—April 11, 4.15 p. m.
1919-1918—April 12, 5.00 p. m.
1921-1920—April 15, 5.00 p. m.

ANIMAL HUSBANDRY MEN TAKE INSTRUCTION TRIP.

The class in Animal Husbandry 52 visited John Walker's farm at Newmarket last Thursday afternoon, March 28, in order to study his fine Herefords. There are now in the barn about fifteen calves, twenty yearlings, a dozen two-year olds, twenty cows and two or three bulls. It has been said that he has the best cow of the breed in New England, and his aged bull, "Mac," who weighs around 2,400 pounds is also one of the best. The class judged two rings, one of calves and the other of two-year olds. The class returned on the six o'clock train, after a very instructive and enjoyable trip.

NEW COURSES RECOMMENDED FOR ENGINEERING DIVISION

DEAN C. E. HEWITT FORMULATES
ADDITIONAL TRAINING OUTLINE

COACH CALLS FOR MEN IN SPRING FOOTBALL WORK.

Football men with any experience at center or backfield will report Monday night, April 8, for preliminary spring practice.

The spring workout does not necessitate a man knowing anything about football. All men interested in these positions should report and talk it over with Coach Cowell.

Men are needed to fill the badly needed vacancies. To have a successful football team next fall a large bunch should be out. Competition makes class. Come out and force somebody. That means you!

SOCIAL INVESTIGATION COMMITTEE APPOINTED.

A committee, composed of Dean Groves, Dean Hewitt, and Dean Knowlton, has been appointed by the Administration Committee to conduct, as thoroughly as possible, an investigation of the social relations of the students of this institution. This investigation has a constructive purpose and is undertaken that such information may be gathered as will enable the committee to make suitable recommendations to the Administration Committee and the President in regard to the policy of the college with reference to the social conduct of the students.

The committee has been given authority to summon to its meeting any person connected with the college.

STUDENTS IN POULTRY CARE FOR INCUBATORS.

The students in Poultry 60 are now caring for a set of incubators which were started Sunday morning, March 30. Each man has to record the temperature three times a day, add water, fill the lamp, and in general do all the work on one incubator. Beginning last Thursday, the eggs are being turned daily, and after several days, the first inspection will be made to find out whether the eggs are fertile or not. The college already has a lot of chickens hatched and outside in brooder houses.

TOWN TEAM ROLLERS WIN BY WIDE MARGIN.

On Thursday, March 28, the Town Team handed the Non-Fraternity rollers a good drubbing to the tune of 95 pins. The Town Team warmed up in the second string and soon had things their own way. Stevens' total of 272 and his single of 105 were the best scores of the evening. Benson worked the best for the losers. The summary:

	1	2	3	Totals
Town Team	1	2	3	257
Langley	77	79	101	257
Stevens	83	105	84	272
Eldridge	87	81	91	259
Teeri	79	92	76	247
Wiley	75	88	86	249

	399	445	438	1,284
Non-Frat	1	2	3	Totals
Pichette	95	72	73	240
Colburn	88	74	77	239
Benson	95	79	80	254
Childs	73	75	68	216
Soderlund	73	70	97	240
Totals	424	370	395	1,189

CALENDAR OF EVENTS.

Saturday, April 6. Last number of lecture course in the Gym.
Sunday, April 7. Patriotic meeting at the church, 4.00 p. m., open to all.

Saturday, April 20. Entertainment and supper by Woman's League at the Gym.

THREE BRANCHES

Courses in Architectural, Electrical and Mechanical Construction to Fill Long Recognized Deficiency

Professor C. E. Hewitt, dean of engineering, has recommended to the Administration Committee three new courses which will undoubtedly be added to the college curriculum, before another year begins. Dean Hewitt says of these courses, as follows:

"The present great demand of the war department, for trained mechanics and technicians, brings out very forcibly the need for courses for training men along these lines, in preparation for the great work that must be done in the way of reconstruction after the war.

"The subjects offered in these courses have been so chosen as to involve less mathematics, physics, mechanics and more shop work, laboratory work and drawing than is required for the regular four year engineering courses.

REGULAR STANDARD RAISED

"Hereafter students desiring to take either Electrical or Mechanical engineering will be required to receive a mark of seventy or more in mathematics, and mathematics 2, given in the first semester of the freshman year.

"Those students who fail to make the regular Engineering courses will be allowed to elect one of the three construction courses outlined below.

"For several years it has been recognized that the Engineering Division has been very greatly handicapped on account of the fact that it has not been able to take care of the men who were unable to take the Engineering mathematics, physics and mechanics. "In the past, men who have failed to meet the requirements in mathematics have been obliged to either leave college or change to some other course."

COURSE OF STUDY

The outline of the new courses and their numbers are listed as follows: Architectural, Electrical and Mechanical Construction Courses.

Freshman Year.	
Chem. 51. Inor. Chem.,	3
Draw. 51. Eng. Draw.,	2
Engl. 51. Comp. and Rhet.,	3
Math. 1. Trig. and Anal. Geom.,	3
Math. 3. Coll. Algebra,	3
Shop. 51. Wood Work,	2
Mil. Art. 1,	2
Second Semester.	
Chem. 52. Inor. Chem.,	3
Chem. 54. Qual. Anal. Lab.,	3
Draw. 52. Mach. Draw. Lab.,	3
Math. 102. Shop Math.,	3
Math. 104. Anal. Geom.,	3
Shop. 52. Wood Work,	2
Mil. Art. 2,	2
Sophomore Year.	
First Semester.	
Draw. 53. Descr. Geom.,	3
Engl. 52. Comp. Rhet.,	3
Econ. 13. Accounting,	3
Phys. 51. Mech. and Heat,	3
Shop. 101. Pattern making,	3
Shop. 59. or Wood Work,	3
Mil. Art. 3,	2
Second Semester.	
Draw. 64. Free Hand,	2
Draw. 102. Elem. of Architecture,	2
Econ. 14. Cost Accounting,	3
M. E.102 Mechanics,	3
Phys. 52. Mag. and Elec.,	3
Shop. 66. Forge Work or	3
Shop. 60. Wood Work,	3
Mil. Art. 4,	2
Architectural Construction Course.	
Junior Year.	
First Semester.	
Draw. 65. Arch. Draw.,	2

EDITORIALS.

IT MIGHT HAVE BEEN.

Last Monday's fire may well be taken as a warning to the powers that be, because it is not a bad gamble that had the building been right here on the campus, the results would have been the same. Any attempt on the part of the students at organized action was decidedly lacking. Of course the circumstances did not permit very extensive fire-fighting, but is there any assurance that there would have been any, had the scene been closer home.

A careful investigation of the college fire apparatus will reveal a deplorable condition. If a fire should occur on the campus, the following steps would probably be necessary. After penetrating the collection of packing boxes in the basement of Conant Hall, the hose truck could be brought to light. In its tool box would be found four hose wrenches and a lone hydrant wrench. An examination of the hose thereon would show that about a third of it is practically useless. A test under a few pounds pressure might show that there are other than visible weaknesses. A superficial diagnosis hints that the wheels of the venerable truck would emit audible protest, if called upon to turn for any length of time. The hubs, and axle grease have long been strangers.

The hand extinguishers might be collected from the several buildings, but where is the material for recharging. True the local stores and the chem. lab. might furnish the desired material, but would that be consistent with rapid work? New apparatus would cost money, but so would repairs and new buildings.

TO AID IN PRODUCTION OF CERTIFIED POTATOES.

New Hampshire farmers are urged to take advantage of the opportunity offered which will enable them to produce certified seed potatoes. Heretofore no certified seed potatoes have been produced in this state, while some of the best crops were raised from certified seed shipped in from Maine.

Certified seed potatoes are potatoes guaranteed by authority. Professor Prince of the agronomy department, who has charge of the matter, will have the crop of any farmer, who notifies him that he wishes to have his seed certified, inspected several times so that when the potatoes are finally harvested, the college authorities will be able to say that they have been produced under inspection and that the grower has complied with every precaution to make his potatoes perfect. A certification tag will be furnished by the college. The higher price that certified seed will bring on the market will more than offset the slight expense incurred in the inspection.

The football manager is dicker with Williams College for an early season game next fall probably at Williamstown, Mass.

STRUGGLE BETWEEN OLD AND THE NEW

Professor Groves Explains Germany As Standing for Past Rather Than Future.

"The present struggle is one between the old and the new," was one of the opening statements of Professor Groves' talk on "The Moral Evolution of the German People," before the student body recently. Mr. Groves said, "It is just as it was in our Civil War. Slavery was upheld by the South although it had become morally repudiated and opposed by the North which was looking into the future. In like manner today Germany stands for the past, and the allies the new.

"Darwin's theory of the struggle for existence is the basis of the belief of autocracy. The church fought this theory but should have fought its application. The German people have adapted this theory to their politics and especially to their ethics.

"Nietzsche was the first German philosopher to apply Darwin's thought to ethics. In his doctrine morality was power, right was strength. Christianity was his special opponent because it defended the survival of the weak.

"Glimpłowicz, who was an Austrian by birth, but German in opinion, advanced the theory that nations like individuals must always fight for their existence. Lester Ward, an American in 1903 talked with Glimpłowicz on this subject. Ward said that German theory was all right for the past but for the future it was dead wrong. This meeting was the preliminary meeting-place of the ideals of the present struggle, autocracy against democracy."

Professor Groves explained that the attitude of the German people could be attributed to four causes: First, they are the most belligerent people of the race. Second: They have been oppressed especially by Napoleon and now believe that oppressing others is the best method to avoid oppression. Third: Great sums of money have been spent in publishing books on race conflict. Fourth: And perhaps greatest of all, the education is under the control of the state and the people have been taught to idealize autocracy. They believe that war is a natural situation.

Mr. Groves stated: "The future of nations depending upon their ability to overcome this doctrine of the past, to accept the new and be friendly."

FRESHMEN WOMEN WIN FAST BASKETBALL GAME.

The freshmen won a hard fought game from the sophomores last Tuesday night at seven o'clock, in the girls' gymnasium, in the first of the series of interclass contests.

THE SUMMARY

Freshmen	Sophomores
Aldrich, l. f.	l. f., McQuesten
McWeeney, r. f.	r. f., Brown
Chickering, c.	c., Norris
Colton, l. g.	l. g., Elkins
(Morrill)	(Saxton)
True, r. g.	r. g., Aldrich
(Beggs)	(Kelley)

Score: Freshmen, 16; Sophomores, 4. Goals from floor: Chickering, 2; Aldrich, 3; McWeeney, 2; Brown, Norris. Goals from fouls: Chickering, McWeeney. Referee Miss Shea; Scorer, Eva Eastman, '18. Time, 10-minute halves.

PROFESSOR SIMMERS EXPECTS SCARCITY OF TEACHERS.

Regarding the teachers' positions that will be open next year, Professor Simmers says that undoubtedly the demand will be greater than the supply. This is evidenced already by the fact that at present the college receives more calls for students to do substitute teaching than it is able to accommodate.

HAZEL WINN, '18, TO TEACH AT LISBON HIGH IN FALL.

Hazel Winn, '18, has been engaged for next year, as teacher of languages in Lisbon High school. This appointment, carrying with it a very good salary, came as a result of Miss Winn's substituting at Dow Academy where Superintendent Morrison of Lisbon observed her work.

THIRD LIBERTY LOAN.

The first anniversary of our entrance into the war will be marked by the beginning of the Third Liberty Loan drive. What more fitting date could have been selected? With the intensive fighting now in progress all along the fateful western front, it would appear that the American people will not have to be urged to give freely of their material wealth. We must remember, however, that the government does not ask us to give a dollar when it asks us to subscribe for Liberty Bonds. The people are merely asked to loan their money. The money will be paid back at the maturity of the bonds, and in addition interest will be paid at the rate of 4½ per cent. The interest is payable semi-annually.

These bonds will be the finest security in the world, since they have behind them as security the assets of every state, city, town and individual in the United States. The bonds will be issued in the same denominations as heretofore, namely \$50, \$100 and upwards. They are thus placed within reach of a very great number of the American people.

We feel that there are many students at New Hampshire College who can afford to purchase, at least, a \$50 bond. We are especially desirous to have every fraternity invest in these bonds. This will be patriotic service of a high order. It is no less important to urge upon the several members of the faculty the necessity of their unqualified financial support in this hour of trials and shadows. We feel that there are very few, if any, who have mortgaged their future incomes in order to help sustain our government.

It will be recalled that in the two previous issues, the New Hampshire campaign was directed through the Federal Reserve Officers in Boston. The campaign for the Third Liberty Loan, however, will be directed by the Liberty Loan Committee for New Hampshire under the efficient leadership of Charles W. Tobey of Manchester. Every city and town in the state is organized for the work and a household campaign will be conducted. Every town that attains its quota will be awarded an honor flag by the government, and in Washington there will be a larger flag in the capitol which will have the names of every state on it, and against each state will appear the results of the state's campaign in this Third Loan. Let each individual assume the responsibility to see that Durham shall receive the honor flag, and that New Hampshire shall stand at the head of the list on the larger flag at Washington.

Durham is organized for the campaign. Workers have been assigned districts and every house will be visited. We appeal to the patriotic citizens to encourage the workers by buying early. "Don't wait. Once the word is given to go over the top go over. In both the preceding drives there has been a tendency to tarry, to put the supreme effort off until the end of the campaign. The result has been a heart-breaking finish in all parts of the country. Let us do better this time. Let us celebrate the anniversary of our entrance into the war by getting the loan drive going on that very day."

The banks of the country have responded nobly and stand ready and willing to make arrangements with any respectable citizen whereby bonds can be bought on such terms of payment as best suit his financial convenience during the coming year. Further information concerning the bonds will be furnished gladly by the members of the local committee consisting of Professor McKay, Mrs. Morgan, Samuel Craig, Dean Pattee and Professor Hitchcock.

AUTOMOBILE ROUTE TO PASS THROUGH DURHAM.

Durham will be in for an unusual amount of automobile traffic this summer, as the new route outlined by State Engineer Grover, includes this town. The carrying away of the Dover Point bridge by the ice has necessitated a change in the through automobile routes. The route as outlined will leave the old route at Stark Avenue, Dover, and pass through Durham, Newmarket, Rockingham Junction, and from there it turns east and passes through the Hamptons, Salisbury beach and joins the old route again at Newburyport.

BUY FURNITURE PIECE BY PIECE

No need to furnish a home complete at one time. Buy the article of furniture here, piece by piece, as it is convenient for you. In this way a room when furnished will be as tasteful as if furnished all at once. And the cost will not be noticed. Partial payments can be arranged by responsible parties.

FOR GROWING CHICKS USE SKIMMED MILK.

Skimmed milk is one of the best possible feeds for chickens, according to Professor Richardson of the poultry department. "It is easily and quickly digested and assimilated by young chicks, and if you are not an expert feeder, you can't do better than to feed your chicks nothing but skim milk for the first week. Milk is even better as feed than meat scraps. Sour milk causes chicks to grow rapidly, and reach maturity quickly. If possible keep the milk before the chicks all the time till they are fully grown, but if you can't get sufficient milk to do this, give them all they will drink for the first two weeks, even if you have to buy whole milk and skim off the cream for table use, because the milk will be worth it for this early critical period in the chick's life."

NEW DE LAVAL CREAM SEPARATOR ADVANTAGES

GREATER CAPACITY: Without increasing the size or weight of the new bowl, its capacity has been increased.
CLOSER SKIMMING: The improved bowl design, together with the patented milk distributor, gives greater skimming efficiency.
EASIER TO WASH: Simpler bowl construction and discs, caulked only on the upper side, make the bowl easier to wash.
HAS SPEED INDICATOR: Every New De Laval is equipped with a Bell Speed-Indicator, the "Warning Signal" which insures full capacity, thorough separation, proper speed and uniform cream.

EASIER TO TURN: The Low speed of the De Laval bowl, the short crank, its unusually large capacity for the size and weight of the bowl, and its automatic oiling throughout, make it the easiest and least tiring to the operator.

WEARS LONGER: Due to its much lower bowl speed, high grade of materials used, and careful and exacting workmanship, the De Laval outlasts and outwears other makes by far.

ASSURED SERVICE: In almost every locality there is a De Laval representative, able and ready to serve De Laval users.

L. E. LYNDE '17 WRITES FROM CAMP

Now Commanding Officer of the 412 Motor Supply Train. Congratulates Basketball Team on Good Showing

L. E. Lynde, '17, writes: "Receive my paper every week and certainly enjoy reading them.

"Old New Hampshire is surely doing her part, and I was very glad to read of the successful season that the basketball team had. I am now commanding officer of the 412 Motor Supply Train."

Lynde's address is at present, 412 Motor Supply Train Camp. Jas. E. Johnston, Florida.

RIES, 2-YR. '17, NOW MANAGER

Waldo Ries, 2-yr. '17, the deaf and dumb boy who successfully completed the two-year agricultural course, has written an unique letter to N. E. Curtis, proctor of Fairchild hall. Ries is manager of the Natural Poultry and Egg Farm, Englishtown, N. J., which advertises on its letter head "Poultry in all its branches." Ries writes: "Do you not remember me? This fellow used to live in room No. 5 with Minot. That's me. How are you? Fine? I have been feeling just as good as ever. I have not yet forgotten my pleasant memories at the dear old New Hampshire. I wish I could go back all over again.

"Well, you will see the above address where I am manager of the poultry farm. By April 1st we will have about 2,500 birds. Some of the farmers around here are planting potatoes now. The weather was warm last week.

"I shall be glad if you wish to inform "The New Hampshire" of my whereabouts in the alumni news.

"Remembering me to the faculty staff especially Prof. Prince and Young."

EVANS MARRIES

"Miss King, Newburyport, Bride of Howard T. Evans," is the headline of a clipping dated Newburyport, March 30. The clipping reads as follows: Howard T. Evans, son of Mr. and Mrs. C. M. Evans of South Hampton and Miss Elizabeth Viola King, daughter of Capt. and Mrs. Walter King, were married this afternoon at the home of the bride's parents, 8 Fair street, by Rev. Laurence Hayward. They were attended by Miss Mary Dame of this city and Henry M. Evans of South Hampton. The groom was educated at Amesbury High, New Hampshire State and Dartmouth Colleges and is a travelling auditor. The bride was a stenographer.

KELLEY, '16, ON TRIP

E. H. Kelley, '16, writes from Jacksonville, Fla., that he is taking a six weeks' trip through the South. He calls it a great country.

J. M. Gale, ex-'19, received word that his brother, William M. Gale, who already knows the language of the Hun fire, not long ago very fortunately escaped being wounded, his "tin bonnet" standing a shower of shrapnel. Gale has one other brother who is also in the service as he is himself.

Major G. W. Edgerly, who was commandant at New Hampshire College during the years 1909 to 1912 inclusive, holds his commission in the Infantry of the National Army and is connected with the 157th Depot Brigade at Camp Gordon, Georgia.

ALUMNI PLACED

W. H. Lester, 2-yr. '12, is in the 20th Balloon company, at the aviation camp, Waco, Texas.

Lieut. S. H. Perley, ex-'18, has been reported as arriving safely in France.

T. C. Bailey, '12, who was formerly a teacher in the high school at Ludlow, Mass., is now assistant principal of the Amherst High School, Amherst, Mass. The school has 400 pupils.

R. E. Haines, '15, was in Durham this week. Haines is athletic director and one of the faculty at the Gunnery School at Washington, Conn.

O. M. Colby, ex-'19, has written that by the first of next week he will either be in Durham or started across. He has already received his commission in the aviation.

I. C. Perkins, '12, P. D. Buckminster, '12, G. W. Berry, '12, R. P. Buxton, '13, W. A. Osgood, '14, C. L. Stevens, '17, R. H. Parker, '17, and A. N. Graham, '18, were initiated into Lambda Chi Alpha Fraternity, March 29-30.

Miss Phyllis M. Blanchard, '17, who is at Clark University, has completed her work for a master's degree, which will be given this spring. Miss Blanchard holds a fellowship there and has begun working for a doctor's degree.

GEOLOGICAL MAP GREATLY VALUED

Made by Prof. Hitchcock of Dartmouth with Assistance of New Hampshire College Students—Now in Professor Cleveland's Office

Few students, no doubt, have looked at the large geological map in Prof. Cleveland's office with more than a passing interest. Yet this map is of considerable scientific as well as historical value. The map was made under the direction of Prof. Charles H. Hitchcock of Dartmouth college, at that time State Geologist. Prof. Hitchcock was greatly aided in his work by students of New Hampshire college which was then at Dartmouth. In view of this fact, the State legislature in granting the money for the work decided that the original should become the property of New Hampshire college. The map is constructed of wood and covers one side of the room. Molds were made of this original and many duplicates were cast. The popularity of the map far exceeded expectation and the copies have had a wide range. One is at the State house at Concord, where it is viewed with considerable interest by visitors. Another was exhibited at the World's Fair at Chicago in 1890.

Prof. Hitchcock has come to be recognized as an authority on the geology of New Hampshire and has written many authentic text books on this subject. He now lives in Hawaii where he went after retiring from the faculty of Dartmouth college. He is a member of the Carnegie Foundation from which he receives a pension.

In a recent report of the Y. M. C. A. division of the National War Council, the following note appeared: Rev. Vaughan Dabney was pastor of the Durham Congregational church, Durham, New Hampshire, and director of religious work at New Hampshire State College, located there. Mr. Dabney was graduated from Bethany College, Bethany, West Virginia, and engaged in post graduate work at Chicago Theological Seminary and at Andover Theological Seminary, Andover, Mass.

PROFESSOR WHORISKEY FILLS SPEAKING ENGAGEMENTS.

Professor Richard Whoriskey spoke on Monday afternoon before the Margery Sullivan chapter of the Daughters of the American Revolution in Dover. Monday evening he spoke in Manchester and on Tuesday evening

PROBABLY FIRST MAN IN SERVICE

H. V. Hent, '14, Believed to Be Longest in War of N. H. Men—Now Captain

A communication received recently from D. Watson Ladd, Jr., '14, states that probably H. V. Hent, '14, was the first New Hampshire man to enlist in the present war. It relates some of Bent's experiences since first casting his lot with the Allies. It reads as follows: Bent was one of the first if not the first N. H. man to enlist. He enlisted in the Spring of 1915 in a Canadian regiment, and was granted a lieutenant's commission. After having been through a course of training, he was sent to the trenches and was wounded in the leg. He was then taken to a hospital in London and after recovering, was stationed at a training depot near London, where he remained for about a year. He was then sent back to the continent and despatched to the Italian front, where he is now stationed. He has been promoted to rank of Captain, which rank he now holds.

He reports having had lots of snow and terribly cold nights on the Italian front but fine sunny days. A cold fog settles down at night.

ALPHA TAU OMEGA LOSES TO NON-FRATERNITY MEN.

After losing heavily to the Town Team, the Non-Fraternity team tried a new line-up and succeeded in defeating the Alpha Tau Omega team by 57 pins on last Monday night. The Non-Frat team led all the way and showed some consistent rolling. Soderlund was high man with 260 for a total, and 93 for a single. Parmenter rolled the best for the losers.

The summary:

Non-Frat.	1	2	3	Totals
Bennett	80	85	76	241
Levingston	83	84	90	257
Burpee	89	78	76	243
Benson	82	79	83	244
Soderlund	80	93	87	260

Totals, 414 419 412 1,245

Alpha Tau Omega

	1	2	3	Totals
Pitman	80	79	81	240
Cook	75	71	70	216
Cross	72	78	87	237
Anderson	82	78	81	241
Parmenter	80	85	89	254

Totals, 389 391 408 1,188

GRASS FIRE MAY DAMAGE TRUNKS OF FRUIT TREES.

Last Sunday, March 30, the new fire whistle sounded its first alarm when a grass fire started down the track and was not stopped until it had reached the old railroad bed. It swept through the orchard and it is possible that the trunks of many trees were damaged. It is suspected that the fire was started from the remains of the brush which the railroad men were burning the day before.

CHICKEN HATCHING NOW ON IN FULL SWING.

The college poultry department announces the hatching of about nine hundred chickens, with another hatching due Saturday.

The chickens are housed in the three new brooder houses recently constructed. These houses are 12 ft. by 16 ft. and will house from 350 to 400 chickens. The houses will be used for layers in the winter and will house about 50.

The Bible School meets at noon and there will be a mass meeting in the church in the afternoon in the interest of the Third Liberty Loan.

Additional contributions to Armenian and Syrian Relief Fund may be handed in today by any who desire to make them.

BETA PHI BECOMES LAMBDA CHI ALPHA

Formal Initiation Held in Boston at M. I. T.—Forty-three Chapters

The Beta Phi Fraternity, which, since it was organized in 1906, is one of the oldest brotherhoods at New Hampshire, has ceased to exist and Friday of last week its active members and several alumni were officially initiated and installed as the Alpha Xi-Zeta of the Lambda Chi Alpha fraternity.

The installation took place at the Lambda Zeta at Massachusetts Institute of Technology, 200 Bay State Road, Boston.

At present Lambda Chi Alpha has forty-three Zetas at colleges and universities throughout the United States and Canada, these are all active. New England alone has ten, there being chapters at Dartmouth, Harvard, University of Maine, Rhode Island State, Massachusetts Institute of Technology, Massachusetts Agricultural College, Boston University, Brown University, Worcester P. I. and New Hampshire.

The New England Convention opened Friday evening with Alpha Xi's installation and a formal ball at the Fritz-Carlton. A house party was held at the M. I. T. chapter house after the dance.

In the evening came a most enjoyable banquet at the Parker House. This was not only a convention banquet but a joint initiation banquet for both Alpha and Lambda Zetas. Seated around the hall were a hundred and five members of Lam Kai, some from Wisconsin, Colorado, Illinois and many from the Eastern states.

After the menu, Warren A. Cole, Grand High Alpha, and founder of the fraternity, gave a short talk. This was followed by toasts to Lam Kai.

The music of the evening was furnished by Senor Pietro, a man of ability with the piano and piano-accordion. His imitations and specialties were especially pleasing.

With the installation of this chapter of Lambda Chi Alpha, New Hampshire has seven national fraternities on her campus; Kappa Sigma, Theta Chi, Alpha Tau Omega, Sigma Alpha Epsilon, Lambda Chi Alpha, Alpha Tau Alpha and Phi Mu Delta.

CLOSE MATCH OF SEASON LOST BY THETA CHI MEN.

In the closest match seen on the alleys this season, rolled last week, the Theta Chi fraternity team lost to the Non-Fraternity five by a total of only eight pins. Although the rolling was not high the match was interesting as the result was in doubt up to the last box. Soderlund was high man of the evening with a total of 262, while Colburn topped a high single of 98. Tibbetts was high man for the losers.

The summary:

Pichette,	78	67	76	221
Colburn,	76	80	98	254
Non-Frat	1	2	3	Totals
Benson,	76	78	73	227

Wiggin,	69	66	80	215
Totals,	387	398	405	1,190

MARKET MILK CLASS VISITS BOSTON PLANTS.

The class in Dairy 54 went to Boston last Saturday, March 30, on an instruction trip, the purpose being to study how milk is handled by the large commercial retailers.

Leaving Durham on the early morning train, they arrived in Boston at quarter of nine, and immediately went to the H. P. Hood and Sons plant at Charlestown. Here they were shown the pasteurization, aeration, bottling and the rest of the process of preparing the milk for market. Each bottle has to be inspected before and after capping. In a separate place is the Grade A, milk which is milk of low bacterial count, and brings a higher price. They also visited the D. Whiting and Sons plant which is near by. Here they were especially interested in the manufacture of casein, which is used in making false

ivory and glossed paper. They also saw the stable where 150 horses are kept for delivery, besides several trucks.

In the afternoon, they visited another of Hood's plants, at West Lynn, where they were shown the operations by one of the chemists.

ANIMAL HUSBANDRY COURSES EXTENDED

To Cover Wider Field—Paying Special Attention to Making Work Adaptable to New England

Next year the animal husbandry department of the college will offer to students of the agricultural division a wider choice of courses. The course that now takes up the management and breeding of show animals will be divided into two separate courses. The first of these will take up the management of sheep and swine. The plan being to take up breeding, feeding and management in all the different phases, paying special attention to the factors that make the work adaptable to New England.

The second of these courses will be management of horses and beef cattle. It will take up breeding, and training the colt, and management of brood mares and stallions. Management of the beef herd will be studied, from the pure bred fancier's viewpoint. The handling of steers and oxen, and the production of baby beef will also be studied.

ENTIRELY NEW COURSE

In addition to these courses, an entirely new one in advanced feeding will be offered. In the past only one course has been given in feeds and feeding, but it has been found necessary to design a separate course for students wishing to take advanced work in the subject of live stock nutrition. This course will take up a careful study of digestion, absorption, and assimilation, and the effects of different feeds upon these vital processes. This will include all types of farm animals and all kinds of feeds. These courses are all three-hour courses, and are specially designed to give the students an exact, as well as general knowledge of the subjects dealt with.

TOWN ROLLERS LOSE TO S. E. A. BOWLING TEAM.

In a match characterized by the poor bowling of the losers, the S. A. E. fraternity bowling team defeated the Town Team by a total of 80 pins on last Monday night. The Town Team were off form, none of its five men reaching the 240 mark. Steele seemed to have an eye for strikes and his total of 286 and single of 104 were the best of the evening.

The summary:

S. A. E.	1	2	3	Totals
Spinney	72	81	73	226
Perry	75	77	92	244
Brackett	82	86	81	249
Steele	94	104	88	286
Nichols	92	74	79	245
Totals	415	422	413	1,250
