## COMMITTEE APPROVE FOOTBALL SCHEDULE

**Coach Cowell Has Planned for Heavy Schedule—Many Home Games**

At the last meeting of the Athletic committee, composed of Professors Whoriskey, Steck, Hitchcock, and Mr. Cowell, Director of Athletics, it was voted to approve the following football schedule for the fall of 1918:

- Sept. 28 Open.
- Oct. 5 Open (Maine possible).
- Oct. 12 Bates at Durham.
- Oct. 19 Rhode Island at Durham.
- Oct. 26 (Boston University possible)
- Nov. 9 M. A. C. at Durham.
- Nov. 2 Dartmouth at Hanover.
- Nov. 16 W. P. I. at Worcester.

It was also voted that if possible, the game with M. A. C. be scheduled at the Haverhill Stadium on November 9.

## HEPLER AND CLEVELAND TALK AT AGGIE CLUB.

At the regular meeting of the Aggie Club, last Monday night, April 8, there was a very interesting program, consisting of talks from Professor Hepler and Professor Cleveland.

Professor Hepler talked on vegetable gardening, and gave a survey of the country, pointing out the large centers of truck farming and market gardening, besides the crops in which they specialized. He also spoke on growing crops under glass.

Professor Cleveland gave an illustrated lecture on the more common garden pests, describing the habits, life history, control and the damage which they do. He closed with a very interesting set of colored slides showing the more beautiful moths and butterflies, which was appreciated by all.

The program for the next meeting will consist of a debate on the subject, "Resolved, that every New England farmer should be self-sustaining."

## FACULTY DRAWS UP RESOLUTIONS EXPRESSING REGRET.

Upon the death of Honorable Walter Drew of Colebrook, for many years a trustee of the college, the faculty has drawn up the following resolutions:

Whereas the faculty of the New Hampshire College has learned with deep regret of the death of Walter Drew, be it resolved that the faculty of this institution record its appreciation of the faithful, efficient and intelligent services rendered by him while an honorable member of the Board of Trustees, and be it resolved, that it express to his family sincere sympathy in its bereavement.

## WORKING GIRL DISCUSSED AT Y. W. C. A. MEETING.

The regular meeting of the Y. W. C. A. was held Wednesday evening at 7 o'clock in Smith Hall parlor, with Miriam Sanders, '19, as leader. Her subject was, "The Working Girl" and her talk was based on the book called "A Long Day." Ruth McQuestion, '20, sang a solo.

## CULLINAN, '19, PASSES WITH HIGHEST GRADE.

In a letter received from J. F. Cullinan, '19, he states that he got an average of 95 in the final examinations held at Cornell, at the School of Aeronautics. It is declared that this is the best squad that has been graduated up to this time.

## SOPHOMORES ELECT CLASS TRACK CAPTAIN.

Harold W. Fitch of Claremont, N. H., was elected captain of the sophomore class track team at a meeting of the 1920 class track men held in the Gymnasium last Wednesday afternoon.

## INVESTIGATES FOR TRAINING CAMP

**Lieutenant Garey from War Department Here**

### REPORTS FAVORABLY

New Hampshire Will Undoubtedly Receive Quota of Men May 1—Second Consignment Possible

Last Tuesday Lieutenant Raynor Garey of Washington, D. C., representing the War Department, visited the college to investigate the matter of having a training camp here this summer. Dean Hewitt reports that the following lines of work and the number of men in each line will be reported upon favorably by Lieutenant Garey.

Rough Carpentry,	80
Electricians,	80
Blacksmiths,	20
Machinists,	20
Auto Mechanics,	80
Gas Engine Men,	20
Men in Lumbering Operations,	100

It is proposed to provide housing facilities at Fairchild Hall and DeMeritt Hall. The Gymnasium will be changed over into a mess hall.

The War Department is to furnish all necessary additional cots, blankets and other equipment. The War Department will also furnish one army truck for each twenty men taking the course.

### COMING MAY FIRST

Lieutenant Garey reports that the men will be sent here on May first from civil life, that is, will be drafted men who come here in citizen's clothes and will change to khaki after arriving; that there will be at least three or four officers who will be in charge of the men. All of the men will receive military training probably twice a day; in the morning and in the early evening. Eight hours per day will be devoted to intensive training along the lines mentioned above. The contract calls for two months' training. In all probability a second lot of men will be sent the first of July for the successive months training and in some cases a third lot of men will be trained during the months of September and October.

Lieutenant Garey states that in all probability the college will get its full quota of men promptly on May first.

## GIRLS' GLEE CLUB GIVES CONCERT AT PORTSMOUTH.

On Thursday evening thirty-five members of the Girls' Glee Club went to Portsmouth where they entertained the men in the navy with a concert, given in the Y. M. C. A. building. The girls, chaperoned by Professor and Mrs. Simmers, were able to return, the same night, going by way of Dover and taking automobiles to Durham.

Dean C. E. Hewitt spoke before the Woman's Club of Newmarket, New Hampshire, this afternoon, on the subject, "The Application of Electricity to Domestic Life."

## IMPORTANT ADDITIONS TO ELECTRICAL DEPT.

The Electrical Engineering Department has received another donation of important equipment.

The Westinghouse Electric & Mfg. Co. of Pittsburgh, Pa., has donated one of their latest integrating wattour meters with a glass case.

The Duncan Electric Company has donated one five ampere, direct current integrating wattmeter and one five ampere, A. C. single phase integrating wattmeters, each of the latest type.

The department has now at least one integrating wattour meter from every manufacturer who builds meters in this country.

## VAUGHAN DABNEY WRITES OF LIFE

**Tells Interesting Facts About Y. M. C. A. Work in First Line Trenches and Behind Lines**

The Reverend Vaughan Dabney writes in an interesting letter from somewhere in France: "The mud here is mud. Durham isn't in it."

"We have a tent here. When I came, that was all—no floor, no seats, nothing. Sunday afternoon the truck came up with benches, supplies, sawdust, etc. Tonight we had a movie in the tent, two shows. The tent was packed and many sat on the wet sawdust. The machine is owned by the Y and operated at different places nightly."

### SEES AIR BATTLES

"The boys here are mostly from Iowa, a good, clean, manly bunch, with splendid officers. Today I left the tent twice, to watch battles between French and German planes. The latter were after a big French observation balloon but failed to get it." Of one day's work, Mr. Dabney wrote: "A bugle wakes the village at six. Am through breakfast at seven, when I go to the tent to run the canteen. At twelve comes dinner. The afternoon goes the same way. At night we have a concert or movies. This is a busy place. I see no let up at all." A few days later he says:

### BOXING BOUTS

"The boxing bout last night was great. The tent was packed to the limit. The air was blue with smoke—and language. At six o'clock the boxing began, men from each company volunteering. Imagine this small brown tent, somewhere in France, dimly lighted by flickering candles. On the sawdust in the center prance swiftly moving bodies, naked to the waist. They thwack and thump and beat and—grin. That's the game we all play. It is work, hard work. But it's the life, so we grin."

"There is not a male civilian in the village between the ages of 18 and 50. My landlady has a husband and two sons under arms. When I gave her some cigarettes for her boy in the hospital she wept."

### SERVICES IN TRENCHES

At a still later date, Mr. Dabney wrote: "Ever since I have been up here things have been happening. Even as I write, Boche shells are bursting over the town. My work is in the trenches. We have a hut in the town, located in the ruins of an old building. Here we run a canteen and reading room. There are three of us who carry smokes and eats to the boys in the trenches, who can't get here to our canteen. Every morning we start out with our sack of supplies, each taking a certain section of the trench. It is hard grueling work. Today I had four little church services in the first line trenches. After passing the smokes, a dozen or so of us gathered in a dug-out, out of sight of the enemy and away from danger, for a short service."

### WANTS MORE NEWS

"Last night I gave up my cot to two soldiers who had been out on a patrol in No Man's Land. I walked the town until 2 a. m. watching the few American (censored) and then turned in and slept on the floor. I eat and sleep like a farm hand these days."

"Am crazy to hear Durham news. Tell the people to write as letters go a long way out here. Have seen no one from N. H. C. as yet."

Mr. Dabney's address is: 12 Rue d'Aguesseau, Paris, France, A. E. F. Y. M. C. A.

## STUDENTS ASSIGNED TO GROUPS FOR N. H. DAY WORK

### WOMEN DIVIDED INTO SQUADS AND WILL SERVE LUNCH

#### NEXT SEMESTER'S SCHEDULE IN REGISTRAR'S OFFICE

Registrar Ham has completed the schedule for next semester, and all students must arrange their schedules and have them ready to be submitted for approval, from April 22 to 24 inclusive. The schedule is on the board in the registrar's office and all are urged to be prompt in reporting any conflicts that may be found.

#### MANY MEN OBTAIN WORK ON PINE BLISTER RUST.

Forty-four men of New Hampshire College have signed up for work on the white pine blister rust work in this state for the summer.

Men who are new at this work will receive \$45 per month and expenses, or \$85 per month without expenses. Men who will act as foremen will receive an increased amount to correspond to the increase in responsibility. As yet definite sections have not been assigned the men.

#### DEAN KNOWLTON HOSTESS TO SENIOR WOMEN.

Dean Knowlton entertained the senior girls at supper at her home last Friday night. The meal was served informally, and the menu was a "cheese campaign" one. Afterward Miss Dorsey, the representative from Washington, who is working in Durham in the interests of the cheese campaign, gave a short talk.

Professor E. R. Groves spoke in Tilton on Thursday on "The Community Conscience in War Time."

#### THETA CHI BOWLERS LOSE TO NON-FRATERNITY MEN.

On Wednesday, April 3, the Non-Fraternity team and the Theta Chi team rolled off the close match of the week before and this time the Non-Frat. five succeeding in winning by 95 pins. At no time during the evening was the Non-Frat. team in danger although Craig's single of 127, the highest single seen this year, threw a scare into their camp for a short time. Craig also had the best total, 290. Soderlund's 277 was the best effort of the winners. The summary:

	1	2	3	Totals
Non-Frat	1	2	3	
Levingston,	92	84	78	254
Pichette,	88	88	83	259

#### WATCH BULLETINS

In Case of Rain Regular College Exercises Will Be Held

Men and women have been assigned to the several squads, listed below, for work on New Hampshire Day. If any names have been omitted, students are asked to notify Professor Whoriskey, Chairman of the New Hampshire Day committee.

In case of rain on April 17, regular college exercises will be held and some other day chosen. It may be found advisable to make some changes in the groups as here divided, and students are urged to watch the bulletin boards for further information.

EDITORIALS.

The New Hampshire needs women reporters. Any woman who is interested and is ready to work, is requested to notify the Society Editor.

NO SLACKERS.

As the plans for the second New Hampshire Day are being completed it is hoped, and believed that there will not be a single student at New Hampshire College who will not turn to and with a will, give the best there is in him for the successful fulfillment of the program as scheduled.

The committee in charge have worked hard to obtain a division of the men in such a way that the greatest amount of efficiency may be obtained. Doubtless some men will find themselves allotted to groups not of their own choice. However this may be, the individual must for a day, forget personal preference and do his best to make the second New Hampshire Day one hundred per cent. successful.

UNITY.

The Woman's League and the women of Durham, are planning a "Grand All Round Entertainment," which bids fair to be a big success. This is the first big co-operative movement for mutual benefit that the women of the college and the women of the town have entered into. Although this first step may appear to be insignificant, in itself, it is to be highly commended, because the college needs the hearty co-operation of the town, and the town needs the hearty co-operation of the college. The successful termination of this affair, it is hoped, will mark a point at which the college and town will be found to be closer united than ever before.

DID YOU KNOW,

That the State of New Hampshire has invested in New Hampshire College, in buildings and equipment, over three quarters of a million dollars; and that only a small fraction of one per cent. of this sum represents the amount invested in apparatus for protection against fire?

Impossible? Well, figure it out for yourself.

Professor Richard Whoriskey gave a patriotic talk at the presentation, last week, of the service flag at Hampton Academy at Hampton, N. H.

On Monday night Professor Whoriskey spoke for the Liberty Loan Committee at Marlboro, N. H.

\* A cordial invitation is extended \* to all college women to be present \* at a tea given by Mrs. Henderson \* at her home Thursday, April 18, \* from 4 to 6 o'clock in honor of the \* incoming officers and the Senior \* members of the Y. M. C. A. \*

PAINE SPEAKS TO STUDENT BODY

Relates Experiences with Allied Navies in War Zone—Perfect Cooperation

At Convocation last Wednesday Mr. Ralph D. Paine, who has recently returned from France, addressed the student body. His subject was, "The British and American Navy." Mr. Paine has been in active service with the British and American naval forces for the last five and one half months, his time having been divided half in half between the two.

He says that the people of this country may well be proud of what the American blue jackets are doing over there. The united British and American navies are working together side by side for the first time in the world's history and those at home scarcely realize what they are contributing to win this war. The transportation of American soldiers to France depends on the ability of the naval forces. The American fleets of destroyers are doing a splendid work under Admiral Lewis Bailey, commonly called "Black Bailey" on account of his hard and unrelenting manner.

VISITS BATTLE FRONT

Mr. Paine told of a number of attacks of the destroyers against the submarines, which he himself had witnessed, some of which were very amusing. Just before he sailed, he visited the battle front in France where the recent great battles are being fought. He said that everywhere the British and Americans were in fine spirits, waiting for the German attack and ready to give their lives cheerfully. The closing words of the speaker were that the old navy is gone; the present navy is made up of fine men, who make themselves worthy of their flag.

"They have the right spirit and unless we all have that spirit, we are never going to win the war, and unless we do win it, this will be no world to live in."

## NEW DE LAVAL CREAM SEPARATOR ADVANTAGES

**GREATER CAPACITY:** Without increasing the size or weight of the new bowl, its capacity has been increased.  
**CLOSER SKIMMING:** The improved bowl design, together with the patented milk distributor, gives greater skimming efficiency.

**EASIER TO WASH:** Simpler bowl construction and discs, caulked only on the upper side, make the bowl easier to wash.

**HAS SPEED INDICATOR:** Every New De Laval is equipped with a Bell Speed-Indicator, the "Warning Signal" which insures full capacity, thorough separation, proper speed and uniform cream.

**EASIER TO TURN:** The Low speed of the De Laval bowl, the short crank, its unusually large capacity for the size and weight of the bowl, and its automatic oiling throughout, make it the easiest and least tiring to the operator.

**WEARS LONGER:** Due to its much lower bowl speed, high grade of materials used, and careful and exacting workmanship, the De Laval outlasts and outwears other makes by far.

**ASSURED SERVICE:** In almost every locality there is a De Laval representative, able and ready to serve De Laval users.

#### AVIATION SCHOOL COURSE COMPLETED

Dudley, '17, and Cullinan, ex-'19 Now Go to Columbia University to Become Radio Officers

W. A. Dudley, '17, and J. F. Cullinan, ex-'19, are to be Radio officers. They completed the aviation course given at the Military School of Aeronautics, Cornell University, Saturday, March 27, and left Ithaca, N. Y., to take up the special training for radio officers at Columbia University, New York.

#### PURINGTON WRITES

James A. Purington, '16, who was on the Tuscania when the ship was torpedoed about two months ago, writes on a post card to Dean F. W. Taylor, that he is seeing some country, hopes to see more and that he is as "cheerful as a clam out of salt water."

F. L. Haseltine, ex-'19, may be now addressed Casual D. E. S. School, Fort Monroe, Virginia.

#### GOODRICH WELL SATISFIED

S. H. Fogg, '15, M. B. Jewett, ex-2 yr. '17, and A. E. Goodrich, 2 yr. '16, are in the 14th Company, 4th Battalion, 151st Depot Brigade, Camp Devens, Ayer, Mass. Goodrich writes that Tim Landry, ex-'19, is first sergeant of the company. His brother, R. E. Goodrich, ex-'17, is also in the service in the 472 Aero Squadron, American Expeditionary Forces, somewhere in France. The first three men were called into service as draft men March 28, and reported at Camp Devens the following day. Goodrich says, "Camp life starts real well and I am well pleased with the outlook as we have good quarters, good food, good clothes and expert attention at all times."

E. H. Kelley, '16, writes from Washington, D. C., "I have just returned to Washington from a trip of about nine thousand miles through the South in the War Garden work, and am fully convinced that they will feed themselves for the first time in the history of the country. So much for one good result of the war."

"Am hustling now to get the next train to the North and West, so must refrain from writing a regular letter for old New Hampshire."

P. C. Cole, '20, is now in the service and his address is: Private P. C. Cole, Co. F, 20th Engineers, Camp American University, D. C.

Word has just been received that Lieutenant C. S. Pettee, '16, has safely arrived in France.

#### NEW ADDRESSES OF ALUMNI

Capt. G. A. Perley, who gave up his position as Professor of Physical Chemistry to take up active service in the Ordnance department, sends notice of a change in address from 1468 Chapin St., N. W. Washington, D. C., to the following: c-o Nitrate Division, Ordnance Dept., 6th and B Sts., N. W., Washington, D. C.

The rumor that C. A. Bennett, ex-'18, was killed during the recent German drive has not been confirmed.

Inquiry by Professor Woodward, at the War Department, Washington, D. C., reveals the address of Edward Long, '18, as: Private Edward Long, Co. C, 5th Battalion, 20th Engineers, A. E. F.

#### VEGETABLE PITS OPENED SHOW VARYING RESULTS.

Professor Hepler has just completed an experiment on the storage of vegetables, the aim of which was to find the actual temperature of pits in different conditions. There was about ten bushels of root crops in each of two pits, and twenty to twenty-five heads of cabbage in each of four others. In the first root crop pit, the vegetables were surrounded with six inches of hay, and covered with a layer of soil while another layer of hay covered the whole. The other pit had three layers of hay and two layers of soil. By means of an electrical device, the temperature was taken every day, and it was found that the average was around 34 or 35. The maximum was 52, while the lowest was close to 33. In both, when they were opened April 3, the vegetables were in good condition, and not

ten per cent. will be lost because of rot.

The cabbages were stored in mounds on the top of the ground, heads down. The first lot had a covering of one layer of soil, and one layer of hay. Not a head was hurt by the frost more than to kill the outside. The second lot which had no hay were not in such good condition when taken out, about half being fit for use. Two other pits have not been opened yet, but it is expected that they will turn out well, because they have layers of hay, which seems to keep the pit somewhat warmer. The coldest temperature taken in any of the pits was 26.

As a whole, the vegetables have much better texture and quality, being sweeter and crisper than cellar-stored vegetables.

#### THOMAS, '17, TO GO ACROSS SHORTLY

Will Rejoin Post After Short Period of Intensive Grenade Training

From Fort Sill, Oklahoma, W. H. Thomas, '17, writes: "The I. S. A. is only a temporary post for me. I was the one selected from my regiment at Camp Greene, to come here for a special course in grenade warfare. The course is four weeks in length, after which I am returned to my post as an inspector, if I make good in the work."

#### AUTO RIFLES AND GAS

"The work is interesting and I believe that I am getting a great deal out of it. Inasmuch as grenades are used so extensively at this time in war, you can see that it is an important course. We get a great many things along with it, such as mask-work, one pound guns, auto rifles, gas, etc."

"I report back to my regiment around the 16th of April. My outfit is due to go across soon, therefore when I get back to Camp Greene, I expect my time in the U. S. will be very limited."

#### HOW IT HAPPENS.

Our Business Manager is a good scout.

His chief duty is keeping the funds in sight.

He doesn't work any himself, but leaves the labor to his assistants.

Besides entertaining the office force he keeps track of the cash.

This is a hard job.

The Editor, the B. M.'s co-partner, likes to have cash appropriated for this and that.

The B. M. likes to keep a safe balance on hand.

And so they scrap.

It's many scraps they have too.

And blood-thirsty ones at that.

The ed. works late nights trying to extricate shekels out of the B. M.

The B. M. is always busy trying to find a way to keep the ed. from running the paper to the financial bow-wows.

Thus the struggle continues through the years.

But the B. M. is the better man.

And the ed. is always broke.

While the B. M. leaves a little in the stocking.

For the next B. M. to start on.

But manages to have a good time during his term of office.

And catches the eyes of the co-eds, in the Spring.

When they all come out in their multi-colored coats.

And you see a bunch of them strolling down the walk (actually on the walk) it reminds you of a rain-bow.

Not because they come out after a rain but because of the color of the coats.

Co-education, we're for you.

You make the long days short.

You stretch four-year college course into six or seven.

Yet it seems like two.

For the B. M.

But not for the ed.

#### TO A FRIEND.

### W. R. BALCH GIVES FORCIBLE LECTURE

War Correspondent Lays Bare Many Interesting Facts in Last Lecture Course Number

The last number of the lecture course was given on Saturday evening, April 6, in the Gymnasium. The speaker was W. R. Balch, war correspondent for the Boston Evening Transcript. Mr. Balch has had wide experience in continental journalism, and has also been a student of European affairs for many years. The wonderful knowledge he has thus gained and his insight into things not generally known were shown clearly in his lecture, which was forceful and often startling.

#### FIVE POINTS

"Are you, each one, exercising 100 per cent. of your ability in this war?" was his first question. "You need not be on the battle line, necessarily. There are five points on which we must fight: first, the actual firing line; second, the various kinds of work behind the line and for the soldiers; third, buying Liberty bonds; fourth, fighting German propaganda; fifth and last, fighting within our own hearts. Give up your own selfishness, come out and do your best. This is your job; see that you do it. The reason is we are fighting a mad dog in the form of a nation, Germany, who is fighting for the justification of the most inhuman things ever heard of."

#### GERMANY'S PLANS

Mr. Balch explained the four great divisions in which Germany has prepared and carried on this great war. The first part of her program was commercial conquest—"peaceful penetration;" the next, her propaganda, carefully organized in every country of the world; the third, her marvelous spy system, which had been working for years before the war, until she had, for instance, 53,000 spies in France alone in the year 1914. The last part of Germany's preparation was of course, the building up of her war machine, her army.

"Yet, with all this organization and preparation, Germany has not won and will not win," declared the lecturer. "The reason why is in the spirit now being exemplified by the French women in their wonderful endurance and sacrifice."

#### NON-FRATERNITY MEN LOSE TO KAPPA SIGMA TEAM.

On Friday, April 5, the Kappa Sigma team took a little of the championship ambition out of the Non-Fraternity team by defeating them by 38 pins. The match was close, the Kappa team winning the first string and the Non-Fraternity team winning the second. In the third string however the Kappa five came through and sewed up the game. Davis was high for the winners with 281 while Lev-ington's 277 was high for the losers.

## The Church in Durham

REV. VAUGHAN DABNEY, PASTOR.

REV. F. B. McALLISTER, ACTING PASTOR.

This community church has a welcome for everybody. The morning worship of God is at 10.45. Subject of sermon next Sunday: "Safety Last"—a meditation on the risky business of living. The work of the chorus choir is always an attractive feature of the service. The Bible school, with classes for all ages, follows immediately, the morning service. Announcement is made in church of other meetings for the week.

### PATRIOTIC MEETING AROUSES INTEREST

Liberty Loan Rally Held in Durham Church—Mr. Ralph D. Paine of Durham and Professor Bisbee of Exeter, Speak

A patriotic meeting to arouse interest in the third Liberty Loan drive was held at the Durham church on last Sunday afternoon at 4 p. m. Professor McKay, the chairman of the Social Liberty Loan Committee had charge of the meeting and Durham was very fortunate to have Mr. Ralph D. Paine and Professor Bisbee of Robinson Seminary at Exeter as speakers.

#### TELLS OF GOOD WORK

Mr. R. D. Paine has just returned from a five and a half months' visit with the U. S. navy in the war zone and while there he was privileged to see more actions than any other American correspondent. He said that the U. S. navy, especially the destroyers, are doing wonderful work and that there is absolute co-operation between them and the British even to the extent that when need arises, British officers command American men and ships and visa versa. A British admiral of his acquaintance said that he preferred a fleet of 35 American destroyers rather than the same number of British.

#### VOYAGE ON SUBMARINE

This should serve to weld the two nations, and do away with the last trace of enmity or suspicion. Mr. Paine took the voyages in submarines and on destroyers, trawlers, nine layers and battleships although most of his work was on destroyers. He says that we have a lot for which to thank the British Grand Fleet, for it has stood guard over the German high seas fleet for three years in a region where the sun rises at nine in the morning and sets at three in the afternoon during the winter. At one time Mr. Paine had occasion to be with the fleet when it was called out on a real alarm but the fog and weather prevented any action with the enemy. Mine laying is sixty per cent. more dangerous than destroyer work and yet the British fishermen bravely sweep the sea free of these pests. Mr. Paine's articles in the Saturday Evening Post describe this life fully.

#### VISITED PICARDY

Just before returning Mr. Paine visited the Picardy front where so much action has since taken place. The French navy must not be misjudged as it has been weakened in order to strengthen the army. The administration is not at fault in not making artillery as the allies agreed to furnish this so that transatlantic tonnage could be saved.

#### BISBEE MAKES APPEAL

Mr. Bisbee made a strong and yet delightful appeal to those present to buy bonds. He asked three questions: "Have you patched your old shoes so that they can be worn?" "Have you made over your old clothes?" "Have you done with non-essentials?" He said that if the people were asked to give money and not lend it, he believed that they would do it willingly.

The Durham choir under the direction of Mr. Garabedian furnished patriotic music for the exercises.

#### SOPHOMORES AWARD BASKETBALL SWEATERS.

At a meeting of the sophomore class, last Wednesday evening in Thompson hall, Christopher J. O'Leary, Jr., was elected editor-in-chief of the 1920 Granite.

A committee of four, G. R. Bailey, J. F. Steele, L. G. Jenness and A. F. Davis were elected to aid the editor-in-chief in choosing the staff.

It was voted to give N. R. Golding, H. T. Harling, W. R. Hill and H. T. Leavitt class basketball sweaters and the others who played in the 1920-1921 game their numerals.

The Σ A E fraternity challenges any fraternity baseball team, or other team to one game or to a series of games. Communicate with R. H. Sawyer, '18.

#### WORK OF SUPPLYING CALLS FOR WOMEN CHANGED.

Professor Richard Whoriskey, Adjutant for the Intercollegiate Intelligence Bureau, at New Hampshire College has been informed by a letter from the Department of Labor that the portion of that Bureau's activities

which related to supplying calls for college women to fill professional or technical positions in the Government Departments, has been assumed by the United States Employment Service of the Department of Labor. Hereafter, it will be conducted as the Women's Collegiate Section, and Miss Julia Newton Brooks formerly in charge of the women's division of the Bureau, will be examiner-in-charge. The Bureau urges the loyalty and enthusiasm of all college undergraduates and alumnae in the recurrent opportunities for public service.

### IMPORTANT CLAUSE IN STUDENT RULES

Heretofore Applied Only to Freshman Class But Now Made Operative in All Classes

An important change has been made in the Student Rules, regarding the dropping of students for acquired deficiencies. Heretofore, any member of the freshman class, who at the end of the first semester had received failures in 9 hours, or failures and conditions amounting to 12 hours, automatically ceased to be a member of the college. The change now makes the rule operative not only for freshmen, but for members of any class, at any time. In the past it has been possible for a man to fail in as many as 14 hours and by virtue of not being a freshman he was permitted to stay in college. The balance of the rule, namely that any one accumulating a total of 15 hours, ceases to be a member of the college, remains unchanged.

### THETA CHI BOWLING TEAM DISPLAYS POOR FORM.

On Thursday, April 4, the Theta Chi team dropped another match, this time to the S. A. E. team by a total of 150 pins. The S. A. E. rolled well and showed good team work, the lowest score being 240. Spinney was in rare form and topped a high single of 112 and a total of 281. The best effort of the losers was a 248 by Tibbetts. The summary:

S. A. E.	1	2	3	Totals

### WOMAN'S LEAGUE ELECTS OFFICERS FOR NEXT YEAR.

The regular meeting of the Woman's League was held on Wednesday afternoon, April 10, at 4 o'clock. The following officers were elected for next year: President, Mrs. Hetzel; vice president, Mrs. Fuller; recording secretary, Miss Mary Bailey; corresponding secretary, Miss Ruth McQuestion; treasurer, Mrs. O'Kane; auditor, Mrs. Suydam; faculty member, Mrs. Scott; student member, Miss Sarah Greenfield.

After the business of the meeting the audience listened to a very interesting talk by Miss Hawkrige, who outlined the work which Wellsley College is doing for the war and suggested that the Woman's League adopt similar work next year. Miss Hawkrige also read some interesting letters from a friend in Paris.

### FRESHMEN WIN BASEBALL GAME

First Contest of Season Taken by Lower Class With 5-3 Score

The freshmen toppled the juniors in the first game of the season, despite the raw day, in a seven inning contest, 5-3. The game starts the intramural class contests.

As usual the rivalry between classes persisted and remarks were shot forth at appropriate and inappropriate times. "Bill" Shuttleworth created a laugh when Anderson shot a curve into "Bill's" ribs. "Bill" yelled, "Oh, 'Andy,' what are you trying to do?" Butler chased a high foul almost into the bleachers and hung onto it.

A small crowd attended the game but there was room for many more.

#### THE SUMMARY

Innings	1	2	3	4	5	6	7
Freshmen	0	2	1	0	0	1	15
Juniors,	0	0	0	0	3	0	0

Runs: Bailey, 2; Hilliard, Stafford, Cochrane, Butler, Lorden, Stone. Two-base hits: Butler, Bailey. Sacrifice hits, Anderson, Bailey, McKelvie. Stolen bases: Tilton, 2; Shuttleworth, 2; Stafford, Prescott, Nudd, Bailey, Stone. First base on balls: off Nichols, 3; off Anderson, 2; off Shuttleworth. Struck out by Shuttleworth, 8; by Anderson, 4 in 4 innings; by Nichols, 4 in 3 innings. Hit by pitched ball: by Nichols (Tilton, Stafford); by Anderson (Shuttleworth). Time, 1 h., 48 min. Umpire, Blatchford.

### PROFESSOR C. E. HEWITT SPEAKS AT CONCORD.

On Friday, April 12, the New Hampshire Manufacturer's Association held a meeting at Concord. The assembly was greeted by Governor Henry W. Keyes. Addresses were given by J. B. Jameson, chairman of the State Public Safety Committee; Clarence E. Carr, Director of National Service Reserves; Huntley N. Spaulding, Federal Food Administrator; Professor C. E. Hewitt, Dean of Engineering of New Hampshire College and Chairman of the Sub committee on Research; James A. Emery, General Counsel of the Council of Industrial Defence; and William R. Wood, Congressman from Indiana. Dinner was served in the Eagle Hotel.

### SENIORS ENGAGED TO DO SUBSTITUTE TEACHING.

Miss Helen Bugbee, '18 is to teach in the Junior high school at Rye, N. H., taking up her duties there immediately after the close of college, for the remainder of the school year.

Miss Sue Scott, '18, has been engaged to teach English, history and bookkeeping in Nute High school, Milton.

### FACULTY VOTES DEGREES TO TWO 1918 STUDENTS.

At the last meeting of the faculty, it was voted to recommend to the Board of Trustees that the degree of B.S. in Engineering be given to Richard Bartlett, '18, and Louis Dreler, '18. This is to enable both men, who have successfully passed their examinations for ensign, to accept their commissions.
