STUDENTS FIGHT FIRE IN JUMPERS

Respond to Alarm Armed with Shovels and Do Rapid Work—Little Damage

On last Monday afternoon, the fire whistle blew an alarm for a brush fire. It was north of Durham, on land owned by Ex-Governor Felker. As fast as the students responded to the alarm, they were given the New Hampshire Day shovels to use in fighting the fire. The fire was found to be rapidly spreading through a thick growth of juniper bushes.

Much credit is due the students for the quick time they made in getting the fire under control and putting it out. The statement was made that if the help of the students had not been available, the fire would have swept through the pine timber on the DeMerritt estate and continued on its course to the west through some of the best timber in this section.

Luckily, not much damage was done; as the forty or fifty acres burnt over had on it only underbrush.

NON-FRATERNITY ROLLERS WIN BY CLOSE MARGIN.

In the fastest match of the season the Non-Fraternity team defeated the Town Team by only 15 pins on last Thursday night. The Non-Fraternity five started out by winning the first string but the Town Team came back and at the close of the second were leading by five pins. At this point Manager Burpee handed his team some dope straight from the shoulder, and then the Non-Fraternity Team started in to clean things up. They met some stiff opposition, however, but Soderlund's frequent spares and Benson's strike enabled them to win the match by 15 pins.

Willey of the Town Team toppled two strikes in succession and knocked over 29 pins in three balls. Willey was high man with a single of 115 and a total of 276 although Soderlund and 274 behind him with 110 and 274. The summary:

Town Team	1	2	3	Totals
Langley,	80	90	81	251
Willey,	86	115	75	276
Teeri,	74	67	82	223
Stevens,	92	79	80	251
Jones,	83	80	102	265
Totals,	415	431	420	1,266

Non-Fraternity	1	2	3	Totals
Livingston,	87	93	91	271
Pichette,	84	83	74	241
Bennett,	77	87	79	243
Benson,	95	71	86	252
Soderlund,	83	81	110	274
Totals,	426	415	440	1,281

BOOK AND SCROLL MEETS AT HOME OF DR. RICHARDS.

A very enjoyable meeting of Book and Scroll, was held at the home of Dr. Richards on Sunday evening. Plans for the coming year were discussed and new books were proposed for the club's library. Owing to the lack of a quorum present, the election of officers is postponed until next meeting. Delicious refreshments were served by Mrs. Richards, followed by a pleasant hour of conversation and story telling.

PROFESSOR RICHARDSON LECTURES ON POULTRY.

Professor Richardson, head of the poultry department, spoke at Mount Vernon last Friday and lectured at Milford, N. H., April 19, on the subject, "The Present Poultry Situation."

NEW PRESIDENT ELECTED TO SUCCEED MISS KEMP.

On account of the resignation of Miss Alice Kemp, Miss Olive Ashford has been elected president of the Y. W. C. A.

NEW SIDEWALKS NEARLY DONE

"U" Shaped Walks in Front of Library

LACK OF TEAMS

Squads Do Good Work—Coach Cowell's Gangs Nearly Finish Grading of New Site for Board Track

The most important work done on New Hampshire Day was the building of the new sidewalks. The work was under the supervision of Dean Hewitt assisted by Professors Pierce, Hepler and Porter and although not quite as much was accomplished as was planned still the amount of work done was no small task.

One of the new walks starts at the end of the old five-foot cement walk on the west side of Thompson Hall and goes for a distance of 100 yards until it reaches the main sidewalk. This walk was not quite completed owing to the lack of teams with which to haul cinders. Another of the new walks begins at the end of the old cement walk on the east side of "T" Hall and extends until it meets another new walk in front of the library.

NEW LIBRARY WALK

This walk in front of the library is built in a "U" shaped form and covers what used to be the old driveway. It is seven feet wide but in front of the library door it widens out into an 18-foot square block.

One of the important changes to notice is the fact that the width of the college walks has been changed from five to seven feet. All of the surveying which was necessary in the work was done by the senior engineers and it was owing to the completeness with which they did the work that so much was accomplished.

The trimming of all of the campus walks was also another very good accomplishment. This work was under the supervision of Mr. Hepler.

GRADE FOR BOARD TRACK

Still another feature was the grading of the field east of the gymnasium in preparation for the building of the new board track. This work was under the direction of Coach Cowell and most of the planned work on this job was carried out. Coach Cowell intends that the rest of the grading shall be finished soon. The board track is to be a 12 lap-to-the-mile track and is to have raised corners. It is planned to have the track in readiness at least by Thanksgiving and it will be used to advantage by the indoor track and relay candidates next winter.

ANIMAL HUSBANDRY CLASS MAKES TRIP TO ROCHESTER.

Six members of the class in Animal Husbandry 52, with Mr. Fawcett made an auto trip to the Springfield farm in Rochester, last Saturday afternoon, April 13, and were well repaid for their efforts by the study of the fine Shorthorn and Brown Swiss cattle which they saw there. Six others started in another car, but the snow and ruts were too much for them, and after blowing out a tire and losing a chain, they decided to return to Durham.

NON-FRATERNITY ROLLERS EASILY STOP TOWN TEAM.

On Thursday, April 11, the Non-Fraternity team put the Town Team out of the running by defeating them by 40 pins. The Non-Fraternity five kept up their good rolling, getting a total of 1,321 Levingstone was high man of the evening with a single of 111 and a total of 285.

The Lambda Chi Alpha track team hereby challenges any team or combination of teams for a dual meet. Those interested see C. J. O'Leary, Jr., Lambda Chi Alpha House.

FRESHMEN WOMEN TAKE EASY CONTEST

Sophomore Girls Submerged and Held Down for 41-1 Score

The final Freshman-Sophomore basketball game was played last Monday night in the Girls' Gym at seven o'clock. The freshmen won by a score of 41 to 1, piling up basket after basket through their excellent team work, while the sophomores, in spite of their desperate efforts, were unable to hold the score down. Miss McWeeney, Miss Chickering, and Miss Schurman did the best work for the winners, and Miss McQuesten, Miss Aldrich and Miss Elkins for the sophomores.

THE SUMMARY

Freshmen
Schurman, l. f.
McWeeney, r. f.

Sophomores
l. f., McQuesten
r. f., Browne
(Saxton)

Chickering, c.

c., Norris
(Aldrich)

Aldrich, l. g.

l. g., Elkins
(Herlihy, Kelley)

Morrill, r. g.

r. g., Aldrich
(Herlihy)

(Wallis, Colton)

Score, Freshmen, 41; Sophomores,

1. Goals from floor: Chickering, 6; McWeeney, 8; Schurman, 5. Goals from fouls: Schurman, 2; McWeeney, McQuesten. Referee, Miss Shea; Scorers: Eva Eastman, '18, Lucile Gove, '18; time keepers, Grace Atwood, '19, Olive Ashford, '19. Time, 15-minute halves.

COMMUTERS WIN FROM SOPHOMORE WOMEN, 15-9.

The Commuters defeated the Sophomore girls in a close contest last Wednesday afternoon at five o'clock. Both teams fought hard, the Sophomores succeeding in holding their opponents to only three baskets in the second half. Miss Gerrish, '21, starred for the Commuters, and Miss McQuesten for the Sophomores. The summary:

Commuters

Sophomores

Fluet, '21, r. g.

HEAD OF BOYS' AND GIRLS' CLUB WORK TO BE HERE.

Mr. George E. Farrell, who represents the boys' and girls' club extension work of the Department of Agriculture, will spend the week beginning April 22, in New Hampshire. Meetings will be held for the instruction of club leaders and local club leaders in different parts of the state.

GENERAL DISCUSSION AT AGRICULTURAL CLUB.

The Aggie Club meeting was held as usual, last Monday night at Morrill Hall. A debate had been scheduled for the meeting, but owing to the absence of two of the men, there was instead, a general discussion on the subject, "Resolved, that the New England Farmer Should be Self-Sustaining" with especial reference to grain and other supplies which are shipped from other parts of the country. They also talked over the new regulation forbidding the killing of poultry for meat, and the prospect for farmers this coming season, the labor supply and the question as to whether women should be expected to work on farms. Many new ideas were brought out, and although no decisions were made, the discussion was most profitable and interesting.

Why doesn't some efficiency expert get out a score card for marriageable girls?

WORKERS ENJOY LUNCH AT NOON

Refreshments Served by Women in Gymnasium

EVERYBODY SATISFIED

Chowder, Rolls, Baked Beans and Ice Cream on Menu Prepared by Co-eds

During the morning while the hands of "T" Hall clock were slowly creeping toward the dinner hour the various gangs were upheld against famine by the sight of the new Ford truck manned by Pa Curtis and a bunch of grafters carrying loads of eats to the Gymnasium. At twelve the different gangs assembled at the doors of the "Gym" and waited impatiently, each man with his little ticket ready for instant use. Finally they were allowed to enter and everyone knew exactly what to do during the next twenty minutes.

The lunch consisted of corn chowder, rolls, baked beans and ice cream, and the most important thing about it all was that there was plenty of everything. The choruses of "We want ice cream," "Do we get it," and like demands and inquiries made it resemble the lunch on the last New Hampshire Day. Pictures were taken of the crowd although it was hard to get them to stop eating long enough for the time exposure. The success of the lunch is due to Miss E. M. Walker, '18, of the home economic department and her staff of co-ed cooks and waitresses.

TOWN PEOPLE DONATE TEAMS TO AID COLLEGE.

That the town people are ready to co-operate with the college in things that are of vital importance, is shown by the generous response to the call for teams, issued by Dean Hewitt, chairman of the committee on teams for New Hampshire Day.

Teams were donated for the occasion by C. S. Langley, Fred Davis, F. P. Morrison, the college horticultural department and the farm department, Albert Littlehale and C. H. Pettee.

Two men from out of town were interested enough in the welfare of the college to send in their teams. These men were Frank Dearborn and David Fogg.

MISS ALICE HOIT SPEAKS TO Y. W. C. A. ON THINKING.

The last meeting of the Y. W. C. A. which was held on Monday evening at eight o'clock was led by Miss Miriam Sanders. Miss Alice Hoyt, a visiting secretary of the Y. W. C. A., gave a most interesting talk on "Thinking." Miss Hoyt emphasized the necessity of clear, hard thinking on the part of college women, at a time when the world is in such a crisis.

"We must get away from the petty, everyday thoughts and do some clear, just thinking which will enable us to see how to make the best of every opportunity," were the words of the speaker.

LAST INFORMAL OF THE YEAR WELL ATTENDED.

The last informal of the year which was held on Saturday night, April 13, was well attended. About fifty couples were present. The college orchestra furnished music for the dancing which began at 7.30 and lasted until 11 o'clock. Ice cream and wafers were served during the intermission.

The Bickford Hall tennis court is distinctly for the use of women only. Men are requested not to use the court under any circumstances.

RECOMMENDATIONS ON CROSS COUNTRY

Committee Reports and Fall Running Will Be Added as Regular Varsity Sport

The following recommendations concerning cross country are presented by the committee, elected by the New Hampshire College Athletic Association, as to the awards for the 1917 cross country season and on the future status of that sport.

C. J. O'Leary, Jr., G. W. Weston, H. W. Fitch and H. J. Harling will be granted permission to wear an emblem consisting of a regulation N. H. flanked by a small c on either side, thus c N H c, in recognition of special service rendered as members of the cross country team of 1917.

G. T. Nightingale has already been awarded N H for his work during the season of 1917.

Recommendations Concerning the Status of Cross Country

1. That cross country be henceforth considered a regular Fall track event, and that it take its place in Varsity sport as a part of the regular track organization, except that it shall have its own captain in case the regular track captain shall not be a member of the cross country team.

a. In case the regular track captain should be a member of the cross country team, he shall also serve as captain of cross country during the period of his term of office.

b. In case the team captain is not a cross country member the members of the cross country team having won their emblem previously shall elect their own team captain in the Fall of any cross country season.

2. That members of cross country team winning any one of the first four places in the Annual New England Intercollegiate cross country meet shall be awarded a regular track N H and sweater for the first year, and any of the subsequent insignia so provided from that part of the constitution relating to track athletics during any season following the first year. Furthermore, that if the team shall win the above events, each member shall be granted his N H and sweater.

3. Should any regular member of the cross country team fail to satisfy exactly the above requirements for the winning of his N H but should have been a regular member of the team regularly, and creditably competing in such dual or other intercollegiate meets as may have been on the schedule he may be granted his N H and sweater by the executive committee of the athletic association should his record be such as to warrant such action, or on recommendation of his coach and captain.

SENIORS WIN IN FAST 7-5 BASEBALL GAME.

The seniors won from the juniors last Tuesday on the college field in a good game by a score of 7 to 5. "Crap" Brackett the slow ball artist, was in the box for the 1918 team while "Reggie" Cahalane was on the receiving end. Cokrane circled the bases twice for the juniors.

The summary:

Innings	1	2	3	4	5	6	7
Seniors,	2	0	0	2	2	1	x 7
Juniors,	0	0	0	4	0	0	1 5

Runs made by Haggerty, 2; Blatchford, 2; Steele, 2; Cokrane, 2; Humiston, Page, Matthes, and Garland. Three base hits, Craig, Cochrane. Two base hits, Brackett, Shuttleworth. Stolen bases, Blatchford, 3; Brackett, Humiston, Steele, Page. Sacrifice worth, 10; Brackett, 24. Struck out hits, Sawyer. Base hit off Shuttleworth by Brackett, 7; by Shuttleworth, 6. Base on balls off Brackett, 4; off Shuttleworth. Time, 1 hour, 20 minutes. Umpire, Currier.

A humorist is a man who won't take himself or anybody else seriously; a joke is a poor boob who does.

EDITORIALS.

SUCCESSFUL.

The Second New Hampshire Day has been officially pronounced a success. The whole student body was at its best and had perfect weather to aid in the work. Especially to be commended is the efficiency of the commissary department under the leadership of Miss Ethel M. Walker, '18. Miss Walker deserves no little credit, not only for her efforts, but for the results obtained.

The surveying squads under the direction of Mr. Pierce, had been at work for several days previous and as a result, the grading and filling squads were able to do their work without any delay.

Students and professors alike caught the spirit of the day and were ready to drop the class work, which is pressing so urgently at present, in order to do a good turn for Old New Hampshire.

PETTY THIEVERY.

Within a few days it has been reported that some unauthorized person has entered DeMeritt Hall with the intention of removing college property. Formerly the college buildings have been left unlocked so that students so desiring could do work after six o'clock. If this privilege is to be abused, by some, it will be necessary to keep all students out of the buildings after six o'clock. These petty crimes are being closely watched, and any more attempts will be met with the proper punishment.

PLEASE RETURN.

The two large New Hampshire Day posters placed in "T" Hall were stolen by someone who showed decidedly low grade co-operative spirit. These posters are the property of the drawing department and were used for the occasion with the understanding that they would be returned. It is hoped that the present holders of the posters will return them to the department without further trouble.

THAT'S ALL I WANT.

Give me a book, a bright piece of fiction—
Nothing that deals with torsion or friction;
Give me a pipe with copious fuel—I'll read of heroines, dark villains, cruel,

Till "lights" at eleven.
Give me a message that I've passed all my courses,
No dead-end make-ups, no more remorses;
Give me an easy chair, cushions about me—
Then I'll exclaim, with no one to doubt me:
"This must be heaven!"

—The Beacon.

Vot goes around mit morbid frown?
Vot dinks he is der pest in town?
Vot really acts shust like a clown?
Der Sophomore.

—Ex.

GROVES TO PREPARE ABSTRACT OF ARTICLE.

Dean Groves has been asked by the U. S. Public Information Bureau, Foreign Service Department, to prepare an abstract of a recent article upon "The Rural Worker and the Country School" for translation and circulation among the newspapers of Russia, Europe and South America.

Professor Groves has been elected a member of the National Council of the Religious Education Association, his term of office being six years.

SONG AND DANCING FOLLOWS DAY'S WORK.

New Hampshire Day ended with a good, all around entertainment. At seven o'clock, the tired but happy body of students and faculty gathered in the Gymnasium for a sing and dance. All joined in singing patriotic and college songs for half an hour and then the college orchestra furnished music for the dancing, which lasted until ten o'clock.

A MEM. BOOK.

To many it may seem a foolish thing, To keep such "trash" as mem. books, With programs and so forth that good times bring
And faded flowers tucked in—for looks.

But in years to come on some lone-some day
When life seems dark and so drear,
That book will be worth more than words can say—
For its mem'ries of friends and good cheer.

And now tho' my book is but three years old,
I find as I turn its pages,
It has many things my brains could not hold
Such as names and homes and ages.

Here's a "happy thought" of a girl that's gone
Which brings pictures of feeds and good sport;
Here's my freshman bell that went tinkling along;
Here's a card with my mid-term report.

There are clippings describing a hard-fought game;
Birch bark suggests walks to me;
There are dance orders that have many a name
Of those who have now crossed the sea.

So I think, though there're many that disagree,
That a mem. book certainly pays;
It brings rest when from daily tasks you're free,
It brings mem'ries of college days.

NOT A LOVE JOG.

'18 (in a whisper)—"Say, I am almost sure this pretty girl on the other side of me nudged me with her elbow just now."

'19—"Aw, forget it. Don't you see she is just knitting?"—Ex.

English in Advertising.

The following examples of how to write English are gleaned from advertisements:

"For sale, \$5.00 suits; they won't last long."

"Bathing suits reduced to almost nothing."

"Don't go elsewhere to be cheated, come inside."

"For rent, a room; suitable for a gentleman 12 by 15 feet."

"Shoes half-soled on the inside while you wait for 25 cents." —Ex.

Minnesota—There has been organized at Minnesota probably the most unique club in any college or university in the world—a jail birds' club. Only those who have served a sentence in prison are eligible to membership. Two faculty members are already in the organization: one is Prof. Jules Frelin, who served a term in France in 1888 for refusing to do military service; the other is W. N. Sterburn, secretary of the school of chemistry, who went with the Root mission to Russia and was cast into prison for political reasons being of Russian birth. Applications for membership have not been coming in from students with the rapidity to be expected from a University body. Wanted—Jail-birds.

W. E. HOWARD, '16, NOW STATISTICIAN

Former Managing Editor Holds Position on Paper Issued at Camp Devens

It is interesting to note that New Hampshire College is represented in the person of Wesley E. Howard, '16, as statistician, on the staff of "The Pick," the sparkling memorabilia of the third officers' training camp, which closed this week at Camp Devens.

Howard while in college was greatly interested in the college newspaper, and is a former managing editor of the New Hampshire. That he earned a position on "The Pick" board is a marked proof of his ability. He was a member of the Beta Phi fraternity.

Anna: "What will Germany do when she goes broke?"

Belle: "Don't know."

Anna: "Hock the kaiser and sell the watch on the Rhine." —Ex.

RABBI'S RAVINGS.

DIVINITY fudge might not

HAVE run the wildcat wild,

BUT it was just because he

WASN'T a good judge of candy!

AS for me, when it comes to

CULINARY stunts and domestic

SCIENCE, I can't boil an egg,

BUT when it comes to the sweet

STUFF, Oh, Boy! I'm some

CONNOISSEUR! Just the other day

I pinned the blue ribbon on the

SWELLEST box of pink and white

CONCENTRATED sweetness that

I ever got real familiar with.

IT came all the way from

MISSISSIPPI, but if it lost any of its

DELICIOUSNESS I couldn't miss it.

IT WAS s-o-m-e candy! And on top

OF EACH generous piece there was

A BIG red cherry. Every time I

LOOKED at a cherry which was

EVERY time I took a new piece

OF candy, which, I don't need to say,

WAS quite frequently, I pictured a

CUPID'S Bow about the color of the

CHEERRIES and sweeter than the

CANDY! (The editor is the cause

OF MY reverting to the subject!)

BUT if you can imagine something

PRETTIER than a half-blown pink

AND white rosebud damp with dew,

AND sweeter than the honey from

THE bees, you have a faint idea of

THE contents of the box I got!!!

NOW, if you feel hungry don't try

TO get satisfied on spuds and frijoles

NOR (if you have a dime) on pie

A-LA-Modes nor thick malteds, but

STRAIGHTAWAY, write to your best

GIRL and if after several moons you

STILL feel the pangs of hunger;

VERILY, I say unto you, "Brother,

IT IS about time you got a new

GIRL."

THE Idea: The way to open a man's

heart is to tickle his palate! —Ex.

NEW DE LAVAL CREAM SEPARATOR ADVANTAGES

GREATER CAPACITY: Without increasing the size or weight of the new bowl, its capacity has been increased. **CLOSER SKIMMING:** The improved bowl design, together with the patented milk distributor, gives greater skimming efficiency.

EASIER TO WASH: Simpler bowl construction and discs, caulked only on the upper side, make the bowl easier to wash.

HAS SPEED INDICATOR: Every New De Laval is equipped with a Bell Speed-Indicator, the "Warning Signal" which insures full capacity, thorough separation, proper speed and uniform cream.

EASIER TO TURN: The Low speed of the De Laval bowl, the short crank, its unusually large capacity for the size and weight of the bowl, and its automatic oiling throughout, make it the easiest and least tiring to the operator.

WEARS LONGER: Due to its much lower bowl speed, high grade of materials used, and careful and exacting workmanship, the De Laval outlasts and outwears other makes by far.

ASSURED SERVICE: In almost every locality there is a De Laval representative, able and ready to serve De Laval users.

MARTIN, '18, TELLS OF WORK WITH GAS

C. T. Hunt, '19, at Cornell Likes Hospital Confinement—No Time for Loafing

C. T. Hunt, ex-'19, has been put back two weeks in his course at the U. S. School of Military Aeronautics, Cornell University, by being obliged to stay in the hospital on account of a bad cold coupled with rising temperature. He says they treat a fellow great in the hospital and he does not want to pack his grip for the dusty grimy barracks but it has to be done. He writes: "The chem. course has got nothing on this one here. It's plug all the time as they don't plan on giving a fellow any Jew picnics while he is here. It's 5.30 in the morning and 10.00 at night and I don't see many fellows playing cards, etc., between those hours. They turn back a fellow just once and if he fails again then they give him the high sign of "No gotta de ambish" and he travels for home."

F. W. Fitch, '17, has had a change of address although still at Camp Dix, N. J. His official title is Sergeant 1st Class, Med. Corps, U. S. Army and address, Brigade Surgeon's Office, 153rd Depot Brigade, Camp Dix, N. J. Fitch has been among the majority that have been sick this spring and spent some time in the Base Hospital at the camp.

G. Martin, ex-'18, tells of his first experience with a gas mask in an atmosphere of chlorine: "The entire regiment was marched up to the gas house where they were given a gas mask. We all went through the C1 which was at a concentration of 1-1800. It only takes 1-2000 to kill within five minutes. We all passed through it while the lieutenant explained to us the terrible effect and all the rest. I believe that I had rather face bullets than gas shells, for one never knows when they are coming until he is almost done for."

Friend: Some pup you have there. Where do you keep him?

Sophomore Bill: In my room, of course.

Friend: But it ain't healthy to keep a dog in your room.

Sophomore Bill: Well, he's a strong dog and seems to stand it pretty well.

A "NO GRUMBLING" LEAGUE OF MEN.

A "Men's League Against Food Grumblers" has been organized by the Trinity Men's Club, of Wilmington, Del. The idea was proposed by Chancellor Charles M. Curtis, and members of the league signed the following pledge: "Without prejudice to my rights as an American citizen, and as the head of my home, I pledge myself during the war not to complain by reason of a compliance by the housekeeper with the rules and requests of the United States Government for the conservation and proper use of food supplies as a war measure, and also to eat the food set before me, being thankful that it is no worse." The league has been formed to encourage housewives in necessary food conservation, observe economy when ordering in hotels and restaurants, and report monthly concerning the observance of the pledge, with a verification by the housekeeper in each man's family. Violations of rules are punishable by a system of fines in War Savings Stamps.

ALUMNI NOTE!

The annual meeting of the Alumni Association is to be held after the Commencement dinner on Wednesday, May 1. Very important changes in the constitution of the association are to be considered, also the means of securing the membership of New Hampshire College in the American University Union in Europe. This must be a representative meeting of New Hampshire alumni and only your presence can make it so. Remember, if loyal members of the alumni are in the service elsewhere the obligation on those remaining is just so much increased.

SOPHOMORES DEFEAT JUNIORS IN INTERCLASS BASEBALL.

In a loosely played game the sophomores defeated the juniors by a score of 10 to 6 on last Wednesday afternoon. The errors were frequent and both teams showed a decided lack of practice. Although Steele passed seven men he also showed that he had the stuff on the ball striking out ten. Emery worked well for the juniors, and had his support been better the score would have been closer.

The summary:

Batteries: Steele and Blood. Emery, Prescott and Tilton. Runs: Hilliard, 2; Cochrane, 2; Davis, 2; Currier, 2; Fox, 2; Blood, 2; Farnum, 1; Jenness, 1; Page, 1; Matthes, 1. Two-base hits: Page, Nudd. Hits: off Steele, 4 in seven innings; off Emery, 6 in five innings. Stolen bases, Haggerty, Cochrane. Struck out, by Steele, 10; by Emery, 4; by Prescott, 1. Base on balls: off Steele, 7; off Emery, 2; off Prescott, 1. Double play: Matthes to Hilliard. Umpire, Blatchford.

NON-FRATERNITY BOWLERS TAKE ONE FROM S. A. E.

The Non-Fraternity team easily defeated the S. A. E. team by 138 pins on last Tuesday night. The Non-Fraternity rollers expected some trouble but the match was never in danger as they easily outclassed their opponents. The winners polled a high total of 1,389 and kept the match well in hand throughout. Levingstone had high scores of 111 and 296 while Steele was high for the losers with 264.

These two teams will bowl one more match which will be for the championship. Each team has defeated all comers and each has won one match from the other. The odds are on the Non-Fraternity rollers who have been coming like real champs. in the last few matches.

The summary:

Non-Fraternity	1	2	3	Totals
Levingston,	111	92	93	296
Pichette	95	80	96	271
Bennett,	82	100	86	268
Benson,	78	95	92	265
Soderlund,	96	99	94	289
Totals,	462	466	461	1,389

S. A. E.	1	2	3	Totals
Spinney,	79	93	81	253
Perry,	74	80	92	246
Brackett,	72	76	82	230
Steele,	82	92	90	264
Nichols,	85	97	76	258
Totals,	392	438	421	1,251

THE HEART OF MAN.

How can we tell why a man should do this,

Or that, or the other queer thing?

Why a woman is sad, or gay, or morose,

Or bitter, or talks with a sting?

A frown may cover a heart of gold,
But diffident, shy, out of place;
Bitter words may come from a life
that feels old

Because broken and bereft of faith.

We can not condemn from the spoken word,

For the spoken word oft is a plan
To cover the feelings and hide the
the thoughts

That are formed in the hart of man.

USE MILK WISELY WITHOUT WASTE.

As a means of setting right a misunderstanding among dairy farmers and distributors of milk in certain parts of the country, who are apprehensive that a story to this effect that is in circulation will injure their business, the United States Food Administration announces that it has never advised the public to decrease whole milk consumption or attempt to substitute other foods for milk. The 1918 Home Card, issued recently says: "Use Milk Wisely. Use all the milk. Waste no part of it. The children must have whole milk. Use sour and skim milk in cooking and for cottage cheese." In addition to advising the judicious use of whole milk without waste, the Food Administration urges the wider use of cheese, of which there is now a plentiful supply in this country, as a substitute for meat.

ISSUES ADVICE TO POULTRYMEN

Urges Saving of Unhatched Eggs to Be Used for Pig-Feed—Says Hens Should Be Kept

Professor Richardson, head of the college poultry department, has recently issued a circular of advice to poultry keepers, in which two important matters concerning poultrymen are brought out. Professor Richardson says, in part:

"Poultrymen suffer a big loss from eggs that don't hatch. Most people bury these eggs or put them on the manure heap, but lately there has been evolved a better use for them. If these eggs are boiled they can be fed to pigs. When we think that a dozen of eggs weighs 1 1/2 lbs., and then think of the number of dozens of eggs buried or thrown away, see what a waste there is. While it has not been worked out, it seems that 100 lbs. of eggs would be worth \$4.50. The pigs will eat them readily, and will do well on them.

URGES SAVING HENS

"The poultryman should by all means plan to save his hens. Our farmers who have kept their hens through the winter ought not, in self-defense, to sell any of their hens now. They have paid the grain bill for these hens during the time when the cost was highest and the production was lowest, and now that our hens can get outdoors, the cost of production should lessen because the hens from now till the first of October ought to pick up some of their living. And almost any hen which is well should more than pay her board between now and October first.

"Eggs apparently have gone as low as they will, and will soon be going up and will be high this summer. Those farmers and poultrymen who have kept their hens will get their money back before fall and some with it."

ADVISES PRESERVING OF EGGS IN WATER GLASS.

In these times of high prices of eggs, it will be economical if each housewife puts down, during the time when eggs are cheapest, as many dozens of eggs as she will use during the time when eggs are high. The cost of preserving these eggs will not be over two cents a dozen, and the eggs will be just as good to cook with as strictly fresh ones.

The best solution to use for the preservation of eggs is waterglass, and the directions which come on the package should be followed as all wholesale drug firms do not put out waterglass of the same strength.

USE ONLY CLEAN FRESH EGGS

If eggs are to be put down, use only clean eggs which are as fresh as can be obtained. Try to get the eggs from a pen in which there is no male, because these eggs keep better.

The eggs may be put in from time to time, care being taken to see that the eggs are always covered with the solution. When the container is full, put it in a cool dry place.

When the eggs are to be used, it will be well to wash them, and if they are to be boiled, a small hole should be punched in the end.

If each family would put down a few eggs, the aggregate would mean a big saving to the country because the difference in price of eggs this year between May and December will probably be at least 30 cents a dozen, and this is certainly worth saving.

The Church in Durham

REV. VAUGHAN DABNEY, PASTOR.

REV. F. B. McALLISTER, ACTING PASTOR.

This community church has a welcome for everybody. The morning worship of God is at 10.45. Subject of sermon next Sunday morning: "The Shadow of Peter"—a study of the unconscious influence of personality. Bible school at noon. Among the fifteen or more Bible study classes now being conducted in connection with the college, it is hoped that every interested student may find a place.

NEW HAMPSHIRE SIGN CONSTRUCTED

Forty-eight by Twenty Foot Design Placed at South End of Campus

One feature of New Hampshire Day was the novel placing of a New Hampshire sign a short distance in back of the old Boston and Maine roadbed. The work was done by squads 3 and 6 in charge of Mr. Baker and Mr. Wentworth. The sign is forty-eight feet long and twenty feet wide and is made of stones placed in trenches and banked with sod. The stones are to be whitewashed and will stand out plainly against the grass background which is to be kept in good condition. The letters are eight feet by three and one-half feet and the sign is graded in such a way as to make it plainly visible to all passengers of east bound trains. The sign will be conspicuous and will announce New Hampshire College to all travelers.

NON-FRATERNITY ROLLERS WIN FROM KAPPA SIGMA.

In a match in which the Non-Fraternity team rolled a record total of 1329 they defeated the Kappa Sigma team by 89 pins, last week. The team representing the Non-Fraternity men cleaned up every string and rolled like real champs. Benson was high man with a single of 107 and a total of 289. Hedberg rolled well for the losers getting a total of 260. The summary:

Non-Fraternity	1	2	3	Totals
Livingston,	89	91	90	270
Bennett,	94	78	86	258
Pichette,	86	98	85	269
Benson,	97	85	107	289
Soderlund,	76	82	85	243

Booth,	78	81	85	244
Bearse,	85	76	83	244
Hedberg,	92	77	91	260
Davis,	76	74	89	239

Totals,	442	434	453	1,329
---------	-----	-----	-----	-------

THE AGE LIMIT.

We are not talking now of the age limit for war duty, but what is the age limit for the farmers? The south is burdened with "retired farmers," men of 60, who should have 20 years of good active service before them—have, as they express it, "gotten too old to farm." In looking over the Breeders' Gazette we saw the photograph of two Ohio farmers, one 84 and one 83, who were not only active farmers but so interested in their work that they had gone to Columbus, Ohio, to the "week's institute" for the Ohio farmers. It did us good to look at the live, keen expression in their eyes and faces. These men were not only young enough to work but not too old to learn. We do not like this giving up. No occupation on earth is so well suited to "dying in the harness" as farming. Not only can an old man do farm work, but he can stay with it and manage it as well at 80 as he could at 50. We believe in wearing out—instead of rusting out.—Southern Cultivator.

THAT NEW SLANG EXPRESSION.

First co-ed from Smith Hall meets second co-ed from Ballard Hall, both headed toward a ten o'clock class at the library. First co-ed accents the first word:

"I'll say this spring fever is somep'n fierce."
"I'll say so, too."
"I'll say we cut Economics today."
"I'll say I'm with you."
"I'll say we have an ice cream at Grant's."
"I'll say it's a go."
And they went, I'll say.

Great Scott!
If Ivanhoe the bonny brae,
And Athelstaine his tunic new,
And Friar Tucked his food away,
Pray what, oh, what would Roderick Dhu? —Ex.

"War is certainly more complicated than it was formerly."
"I should say so. Of old we had to teach our men how to act under fire; now we have to teach them also how to act under water and up in the air."

OFFER FOOD PRODUCTION COMMITTEE OPTION.

The special emergency food production committee, headed by President R. D. Hetzel of New Hampshire College, which now has under way its campaign to make New Hampshire self-supporting this year has been offered by the Massachusetts State Board of Agriculture an option on a supply of Ford tractors. These machines which are in great demand cannot be bought just now by individuals and most of the supply has gone to England where the demand was especially pressing. However, the state of Massachusetts was given an option on one hundred of them and will share with New Hampshire through the emergency food production committee. The price of the tractors is \$750, and an Oliver two bottom tractor plow to be drawn by the tractor may be purchased for \$143. Community committees or all who expect to carry on food production work this spring should write at once to President Hetzel if they want tractors. Several towns are already in the market for tractors.

A CHEMIST DREAM.

Last nite I dreamed that I was dead,
And I found myself below,
Amid the fiery depth of Hell;
Where all the Chemists go.

There was a special place for us—
A cave—off to one side,
Filled with odors of Chlorine,
And Sulphur Dioxide.

This den was a dismal place,
And with shrieks and yells it rung,
For each fiend was making H₂O,
To cool his parching tongue.

Sulphuric acid dripped on each fiend
To make him yell the more;
The "DEVIL" taught the frightful class,
To us he was a bore.

Just as I entered he said to me:
As on earth, you shall here below,
Spend eternity in learning this thing,
That chemistry wasn't intended for you to know. —Ex.

The following are some curious titles of old English books. "A Most Delectable Sweet Perfumed Nosegay for God's Saints to Smell At." "Biscuits Baked in the Oven of Charity." "Carefully Conserved for the Chickens of the Church." "The Sparrows of the Spirit." "The Sweet Swallows of Salvation." "The Spiritual Mustard Pot to Make the Soul Sneezed with Devotion." "Eggs of Charity Layed for the Chickens of the Covenant and Boiled with the Water of Divine Love. Take Ye Out and Eat." Most of these books were published in the time of Cromwell.

CHEESE DEMONSTRATIONS.

Miss Dorsey, who was sent here from Washington, D. C., is giving special demonstrations and instruction in cheese making.

Professor: "What has been the dominant character of America's military program up to the last three years?"

Student: "Not prepared, sir."

Professor: "Correct." —Ex.

HIS BUSY SEASON.

First Dairy Farmer—"What sort of a season has Henry had?"

Second Dairy Farmer—"Busy as all get out—hasn't even had time to visit a county fair or a farmer's school. He's got a job writin' testimonial letters for a new cattle feed.—Exchange.

SENIOR TEAM LOSES TO LOWER CLASS

Final Score 12-3—Come Back in Game With Sophomore Class

On Thursday, April 11, the freshmen defeated the seniors in a rather one-sided contest. The seniors started out well and appeared to have the game on ice. In the last two innings they blew up, however, and handed the game to the freshmen. Bailey made some good stabs at first for the winners while "Hummy" helped the losers to score. The final count was 12-3.

The summary:

Batteries: Anderson, Nichols and Batchelder. Humiston and Brackett. Runs: Bailey, 3; Stone, 2; Perry, 2; Anderson, Nichols, Lorden, Morrill, McKelvie, Brackett, Broderick, Humiston. Three base hit, Humiston. Sacrifice hit, Torrey, Stone. Struck out, by Humiston, 10; by Nichols, 4; by Anderson, 2. First base on balls: off Humiston, 3; off Nichols, 1. Time, 1 hour, 55 minutes. Umpire, White.

SENIORS WIN CLOSE GAME.

In the closest game of the inter-class series the seniors defeated the sopohomores 3-0 on last Monday afternoon. Brackett's men did not appear so he had to impress two freshmen and a junior. These men won the game for the seniors although Brackett yelled enough to win any game. The sopohomores could not seem to find their batting eye and "Hummy" was never in danger.

The summary:

Batteries: Humiston and Brackett. Steele and Blood. Runs: Broderick, Shuttleworth, Craig. Sacrifice hit, Perry. Stolen bases, Broderick, Perry. Struck out, by Humiston, 6; by Steele, 3. First base on balls: off Steele, 5; off Humiston, 4. Time, 1 hour, 40 minutes. Umpire, White.

STUDENT CARPENTERS MAKE THREE BLEACHER SECTIONS.

The bleacher squad in charge of Mr. Batchelder did a very efficient day's work on New Hampshire Day and turned out three sections of bleachers. Each section has a seating capacity of fifty and is strongly put together. These bleachers should last a long time as they are of good material and well constructed. Mr. Batchelder and his men should be given credit for making this feature of New Hampshire Day a success.

APPLIED CHEMISTRY.

It is a conjugate salt. The reaction takes place more rapidly in the absence of light. It has a sweet taste, and an ethereal odor. When taken in small quantities, it produces a blissful sensation; but, in large is soluble in distilled moonlight, and quantities it has a nauseous effect. It is best precipitated in the absence of humanity. The presence of a catalytic agent such as love, increases the speed and temperature of the reaction. The reaction is, therefore, exothermic in the presence of the catalytic agent. What is it?
