DISCUSS LEAGUE OF FREE NATIONS

Mr. J. Randolph Coolidge, Jr., Speaker at Chapel

INTERESTING TALK

President of Massachusetts League of Free Nations Sets Forth in Clear Way the Advantages of Such a Union

At the beginning of Convocation Wednesday afternoon, a number of the U. S. Army Song Books, secured by Professor Whoriskey, were distributed among the students by the respective class presidents.

Professor Whoriskey, who presided over the chapel exercises, deserves the credit for securing these little books, replete with popular, patriotic and old fashioned songs, and he is endeavoring to secure more of the books, for the supply was too limited to assure everyone's receiving a copy.

INTERESTING SPEAKER

The speaker of the occasion was Mr. J. Randolph Coolidge, Jr., who is president of the League of Free Nations Association of Massachusetts, and he very interestingly put forward the prevailing arguments favoring the establishment of the principles upon which the organization is founded. Mr. Coolidge said in part: "The greatest world question of the present day is the proposed establishment of a world embracing a federation of states and nations comprising a so-called League of Free Nations.

"Some day, many of us, in our old age, will relate to our grandchildren the stories of things that happened to us, and about us, during the world war, and we shall tell how anti-aircraft guns were located in advantageous positions on Boston Common, to protect the city against a possible attack of enemy airmen and they shall wonder at this.

These guns are capable of bringing down a machine twenty thousand feet in the air and traveling at a rate of 140 miles an hour at the second shot, though they are only three-inch rifles constructed to fire vertically or as nearly so as necessary.

MUST HAVE LEAGUE

"Unless we have a League of Free Nations, the up-to-date method of waging war will include the universal use of motor trucks and of aircraft, so well developed at the present time, fleets of tanks in service, and the best known and by far the most destructive of weapons—'poison gas.' The unannounced air raids were the daily scourge of the Rhine Valley cities during the final weeks of the war. Great squadrons of planes dropping tons of poison gas bombs which could wipe out the entire population of the sections in which they operated.

BALANCE OF POWER

"The natural defences resulting from good will between nations constitute the best policy for the securing of a lasting peace. The best possible example of the existence of such good will is the boundary line between the United States and Canada, which has long remained entirely unfortified.

The 'balance of power' has proven an unstable equilibrium of political and military forces. In such cases as may be cited, war has always been prevented by a preponderance of power, rather than by a 'balance of power.'

"The United States seeks a peace based on justice toward those to whom we do not wish to be just, as well as toward our allies. We find it much easier to be generous than to be just. The price of enduring peace is impartial justice, no matter what nation's path may be crossed in administering such justice. Germany must redeem her character, not by what happened at the peace table,

(Continued on Page Two.)

1920 CLASS PLAN FOR JUNIOR PROM

Probability for Annual Exercises Increases—Weeks of May 8 and 15 Considered—Also to Give Benefit Dance

The 1920 class held one of its most important meetings, to be held this year, in Thompson Hall last Tuesday afternoon at four o'clock. The meeting was held expressly for the purpose of discussing the 1920 Granite and the Junior Prom.

It was made clear at the meeting that all fraternity and other group pictures must be taken in rectangular shape without a curved top as was the case in some of the group pictures last year. This ruling also applies to cuts of fraternity houses, coats of arms and pins. By this method a clear panel cut may be produced and the effect on the book will be much neater.

TO REDUCE EXPENSES

It was also voted to give a dance to help reduce the expenses of the "Prom." The committee appointed to take care of this matter consisted of: Miss W. P. Browne, J. Bloomfield, A. E. Twaddle.

The matter of the Junior Prom officers was left in the hands of a committee of five consisting of H. P. Felker, J. Bloomfield, G. E. Plaisted, Miss Rachael Bryant and Miss Ruth McQuestion.

A committee appointed by the chair to petition the proper authorities for this affair consisted of Miss E. P. Norriss, C. J. O'Leary, Jr., A. E. Twaddle.

Two dates are to be considered for the Junior Prom. They are May 8th to 11th inclusive and May 15th to 18th inclusive.

MISS ETHEL KELLEHER, '19, NOW MANAGING EDITOR.

At a meeting of the "New Hampshire" staff Monday noon, January 20, Miss Ethel Kelleher, '19, was elected managing editor of the "New Hampshire" for the remainder of the year. Miss Kelleher takes the place of O'Leary, '20, who resigned to accept the position of news editor and in order to have more time for the 1920 Granite work. Miss Kelleher is the first woman to hold the position of managing editor of the "New Hampshire."

Other results of the meeting were elections: News editor, C. J. O'Leary, Jr., '20; F. W. Prescott, '19, exchange editor; O. W. Pike, reporter. R. A. Soderland, '21, Sergt. J. J. Mahoney, and Private E. F. Palmer were dropped from the board because of absence from college. Miss Marjorie Saxton, '20, was elected society editor.

BASKET BALL SCHEDULE NEARING COMPLETION.

The freshman basket ball season got under way last night, when our "Freshies" met Haverhill High at Haverhill. As this paper goes to press before the game, the result cannot be stated. The probable lineup for the team is: Lawrence, l. f.; Weston, r. f.; Harris, c.; Smith, r. g.; Nutter, l. g. A return game will be played, but the date has not been set. Two games will be played with Portland High, and Coach Cowell hopes to secure two more games.

"Coach" is satisfied with the varsity's showing against Battery Wharf and will send his charges against Worcester Tech tonight with confidence. The schedule up to date follows:

Worcester Tech at Durham, Jan. 25. Springfield Y. M. C. A. at Durham, Jan. 31.

Wesleyan at Middleton, Feb. 7. Conn. State at Storrs, Feb. 8. Stevens' Tech at Durham, Feb. 20. R. I. State at Durham, Feb. 22. Springfield at Springfield, Feb. 28. Worcester Tech at Worcester, Mar. 1.

The dates for the return games with R. I. State, Conn. State and Wesleyan

have not been fixed as yet. Mgr. Strain is working hard for two games with Brown and Boston College.

All out tonight!
Cheer! !

AGGIE CLUB TO START DEBATING

First of Questions to Be Argued at Next Meeting—Cup Up for Prize Meeting Hour Changed to 7.30 P. M.

The weekly meeting of the Agricultural Club was held in their club rooms, at Morrill Hall, on Monday night. A large number of freshmen turned out to help the upper classmen eat the apples so generously provided by Prof. W. H. Wolff, and enjoy the "smokes" given out by the Club.

It was voted to have an "Aggie" ball as soon as a date could be secured. The club is planning to make up for the dance that was omitted last year.

DEBATING TO BEGIN

Pres. W. E. Shuttleworth spoke of the cup given to the club by the Alpha Zeta fraternity as a prize for debating teams to compete for. Master of Program Cree is planning to conduct a series of debates between teams picked from the various classes. At the next meeting, the series will start off with the discussion of the question: "Resolved, That the dual purpose breeds of cattle are the best for New Hampshire." A team composed of juniors will meet a senior combination over this question. The debating team of the sophomores and freshmen will clash over the question: "Resolved, That the use of milking machines is better than hand milking." The two winning teams will debate on another subject at a later meeting.

FARM TRACTOR

After the business of the evening was finished a very interesting discussion was held as to whether or not the farm tractor is adapted to the average New Hampshire farm conditions. The majority of the men thought that the tractor was and would be a success on our New Hampshire farms.

However, some argued that the overhead expense would be too much for the work available on our typical New Hampshire farm. The Cleveland tractor was favorably mentioned by many, especially in connection with logging and orcharding, also as a source of belt power for stationary work.

At the close of this interesting discussion, Pres. Shuttleworth introduced Lieut. J. A. Sullivan, N. H., '16, man. Lieutenant Sullivan told the boys of some of his experiences in the "world war." He spoke of being in the Argentine and Panama, also in training camps in the south and middle west. He claims that the U. S. government is trying hard to get the dairying industry started in Panama, but so far has had only fair success.

URGE PROMPTNESS

Prof. Werkenthin made the suggestion that everyone try and be present at the opening hour. This is 7.30 p. m., a change from last year when the meetings were opened at 8.00 p. m. Aggie men are asked to note the new opening hour.

UNUSUAL PETITION COMES UP AT FACULTY MEETING.

Among the usual number of petitions brought up at the faculty meeting on last Monday afternoon, was one of particular interest to members and students alike. Miss Celia Gardner, '20, who finished a course in automobile mechanics in preparation for overseas ambulance service, has returned to college, and has requested that she be given the same college credit allowed the boys in the S. A. T. C. last fall, who were also preparing for overseas work. The faculty voted to recommend the petition for acceptance by the trustees.

ENGINEERS HOLD FIRST MEETING

Election of Officers—Dr. Howes and Prof. Getchell Speak—To Have Outside Speakers

The first meeting of the Engineering Society was held in the physics lecture room on Monday evening. Owing to the repairs being made at the College Club room it was necessary to postpone the semi-annual smoker until some later date. However ice cream and cookies were served.

The program consisted of election of officers and talks by the faculty and student members. Dr. H. L. Howes of the physics department, told many interesting stories of life with Cornell University Engineering students, and he certainly proved himself a favorite at the meeting as he has done both in class and on the campus. The message of his talk was, "Master the fundamentals and let the frills come to you during actual work."

URGE STUDENT TALKS

Professor Getchell voiced the idea of having certain of the Society's meetings given over to student talks. He said that many of the men in his classes had unique ideas on certain subjects or have seen some project in engineering that the others had not been able to see. Consequently talks and papers by the students would be both instructive and interesting.

While it is necessary to have both outside speakers and moving pictures to show modern developments of engineering, all were of the opinion that student papers would add greatly to the success of the society and to the gain of the students.

FACULTY SPEAK

Other faculty speakers were Professor L. W. Hitchcock, Professor C. C. Steck, Mr. H. D. McBride and Mr. C. H. Batchelder. These were followed by student talks representing the three branches of engineering, here, and the different classes. It is hoped that as good attendance may be had at ensuing meetings and all persons in the engineering division are urged to join the society.

OFFICERS ELECTED

The officers elected are as follows: Faculty advisor, Prof. L. W. Hitchcock; President, W. E. Nudd; Vice-President, C. F. Mathes; Secretary, O. W. Pike; Treasurer, J. J. Shillaber; Publicity Agent, G. E. Plaisted.

The next meeting of the society will be held Monday evening, February 3. Several reels of moving pictures will be shown at this meeting. The subject of the films will be announced later.

RESIGNATION OF DEAN KNOWLTON KEENLY FELT.

The resignation of Miss Helen Knowlton as Dean of Women and head of the Home Economics department of the college, and her leaving, at the close of the first term, came as a surprise to every one. Since that time her loss has been greatly felt. She was untiring in her work for the college, and, during the two years and a half of her stay here, did much to build up and strengthen the Home Economics course; while in her work as Dean of Women, she always had the interests of the girls at heart. Beside her duties at the college, she was much interested in extension work throughout the state, and was in great demand as a speaker.

Miss Knowlton is entering Y. W. C. A. work, in which she has been much interested for some time, and her present position is in Baltimore, Md.

PI GAMMA FRATERNITY ANNOUNCES PLEDGES.

Pi Gamma Fraternity announces the pledging of the following students: Rachel Bugbee, '21; Esther Brown, '20; Hortense Cavis, '21; Judith Jenness, '20.

BLUE AND WHITE WIN FIRST GAME

Defeat Battery Wharf Five, 20 to 5

CLEAN GAME

Anderson Leads in Baskets—Whole Team Works Together in Great Form—Lombard Stars for Losers—Good Crowd Out

Last Saturday night in the first game of the winter's basketball season, New Hampshire defeated the Battery Wharf Five to the tune of 20 to 5. It was a fairly fast contest despite the one-sidedness of the score, and unusually clean, only seven fouls being called during the entire game. New Hampshire had the upper hand throughout the game, so much so that the opponents were unable to get within range of the basket. The winners showed excellent team work which is very encouraging when it is considered that the team has had but a week of practice.

"ANDY" LEADS OFF

Two thirds of the points were scored during the first period. Anderson got the first basket with a neat board shot immediately after the whistle was blown and Lombardy promptly evened up the score. Butler, Craig and Shuttleworth each got one, beside two more by Anderson, who by the way had a great night although he missed several baskets that seemed sure to go in. Butler was knocked flat by one but as usual was game and kept going as fast as ever. It seems to take more than any ordinary "flop" to stop "Ted." The sailors did all their scoring during the first period which ended 13 to 5.

SECOND TEAM IN

"Andy" started off the second period with another pretty basket and "Bill" Shuttleworth got the last two. The entire second team was put in toward the last of the period and showed up unusually well for a new team. Although the second team played together only since Wednesday, it was able to prevent any scoring on the part of the opponents and only through poor luck in shooting did it fail to increase the total.

Anderson and Shuttleworth were the individual stars for New Hampshire while Lombardy played an excellent game for Battery Wharf. The Blue and White played together well, and promises to be a very fast combination before the season is over.

New Hampshire	Battery Wharf
Butler, l. f.,	r. g., Duffy
Perry	
Craig, r. f.,	l. b., Levine
Stewart	
Anderson, c.,	c., Hefron
Harris	
Shuttleworth, l. g.	r. f., Lombardy
Smith	
Davis, r. g.	l. f., Dutton
Nutter	

Score, New Hampshire, 20; Battery Wharf, 5. Goals from floor, Anderson, 4; Shuttleworth, 3; Lombardy, 2; Butler, Davis. Goals from fouls, Davis, 2; Lombardy. Referee, Broderick. Timer, Cahalane. Scorer, Patten. Time, 15-minute halves.

NOTICE TO FACULTY.

Any members of the faculty or their wives, who are interested in forming a dancing class, will please communicate with Miss Helen Bartlett.

Durham, N. H., January 25, 1919.

ARE YOU SUPPORTING?

The backbone of college athletics is support. A team with a wonderful support behind it is 50 per cent. better than one without any. A visitor judges the team first by its playing ability and then by the support that team is receiving.

There was a fair amount of support behind the team in its game with Battery Wharf but nowhere near the amount that it should have.

Think of the wonderful playing ability the team has this year and then think of what effect good support will have upon the players.

Let's get behind the team and give them the best support we can and one thing is sure they will each do their best.

GIRLS, SPEAK UP.

Editorials have appeared in the past, cohorting the freshman MEN to greet each other and their upper classmen on the campus; but they have not encouraged the co-eds to speak to the freshman MEN and upperclassmen, on the campus. It is exceedingly detrimental to the democratic spirit of our college to have a freshman girl pass one of her classmates, of the opposite sex, and never break the celestial blankness, which beauty has bestowed upon her face. Her classmate receives a severe blow to his cordiality, when just as he is about to say "How do you?" in his sweetest tone, the fair one he is approaching, drops her eyes as though bashful, (which isn't true); and thus another light goes out on the broad highway of friendship. It is the privilege of the fair one to choose whether or not she shall wish the friendship of one of the opposite sex but if she choose in the affirmative, she must at least go half way in her greeting.

CLEAN GAME.

What a clean game of basketball was exhibited at the New Hampshire vs. Battery Wharf game. Both the sailors and the Blue and White men deserve great credit for their cleanliness of the sport. It is by such a game and only by such a game that the sport is boosted. Keep it up.

UNPLEASANT EFFECT.

What a nuisance it is in chapel to see individuals get up during the interesting talk of a speaker and leave the hall, either to catch a train or for some other petty reason.

Surely this ought to be stopped. Why go to chapel at all? Students who intend to go somewhere, and who attend chapel only to leave before it is half over, are not interested listeners. Their minds do not run in accord with the common interest of the student body present. Better stay away and not spoil the pleasures of those who want to listen to a chapel speaker.

NEW SORT OF RESPECT.

With the ruling of the trustees of the college in regard to hazing there comes a new responsibility for the freshman. Loyalty to New Hampshire College and its traditions must take the place of the fear of the "Dogs" and "Midnight Councils." Conformation to the venerable laws of

the institution must come from a sense of respect and pride, in the heart of the freshman, rather than from a well placed paddle in the hands of a sophomore. That the old time poster will not become a relic of the past, as was shown by its appearance this week, but will continue as in former days with the exception that the executive enforcement of its laws must be governed by the freshman's realization that this is one of New Hampshire's traditions and that he is upholding the ancient customs of the college by fulfilling the spirit and letter of the poster which in itself embodies many of the traditions of the past. The freshman must learn to respect the faculty and upperclassmen and the latter must be worthy of the former's respect. The outcome of the new ruling seems to be that an initiative will sooner be established in the freshman and that a lasting sense of loyalty will be more quickly acquired by the entering classes.

Leonardo da Vinci said: "Like iron lying idle about degenerates into a mass of useless rust, like water that in an unruffled pool sickens into a stagnant and corrupt state, so without action the spirit of men turns to a dead thing, loses its force, ceases to inspire us to leave some trace of ourselves on this earth."

The above quotation is of the stuff that Professor James uses to encourage his aspiring chemists-in-the-making. The above quotation has been posted for some time in the glass-enclosed bulletin board of Conant Hall, and when some poor struggling chemical engineer has become so engulfed in the depths of the chemical world, that he has almost decided that he should have elected the Arts and Science course, then the learned "King" takes the erring one by the hand and leads him to the bulletin board. There, the despaired one learns the truth of Leonardo da Vinci, and, with a word of advice from the tall one, the shorter one departs with a new consciousness of the wonders of chemistry.

COLLEGE STUDENTS FORM AMATEUR HOCKEY TEAM.

According to the Manchester Union, several Exeter boys, most of the number being students at N. H. College, have formed a strong hockey team called the Granite State A. A., and will arrange games with the school and college teams about the state. It will engage with the Phillips-Exeter Academy team on Jan. 29. The team will be composed of Norwood Nute, wing on the 1916 eleven at Exeter and later a Yale athlete, Stafford, "Dutch" Connor, former football star at New Hampshire College, Capt. Charles Broderick, also of the N. H. College eleven, Arthur Cooper, hockey player at Exeter, Hill, formerly of the Concord high school, Cassillo, and a younger brother of Capt. Broderick. The ice men are for the most part Exeter residents and have trained with the Academy players. After the Exeter game they will look for games with Colby Academy, Manchester High, and Boston school teams. They are handicapped by not having a ring at the State college, but much of the practice is being done at Exeter. The N. H. College athletes are also training on the Exeter track for the winter meets.

MEN'S GLEE CLUB MEET TO ORGANIZE.

The Men's Glee Club held a meeting Wednesday evening, January 22, in Thompson Hall. Only twenty-five men were present most of whom were trying out for quartet or as soloists. The first regular rehearsal is to be held Monday evening, January 27. A program has been outlined for a concert with numbers for a reader and a novelty soloist. The music has been sent for and it is hoped that it will be here Monday in time for the rehearsal. Plans for a trip are under way and with the promising material under the leadership of Carl F. Mathes, '19, a good concert seems inevitable. There is still opportunity for more men to try out for the Glee Club and they can order music from Manager A. H. Moody, '19. The Glee Club picture is to be taken soon in Dover and the new men will be included in it. It is hoped that a large number of men will show up at the rehearsal Monday evening.

DISCUSS LEAGUE OF FREE NATIONS.

(Continued from Page One.)

but by what follows the establishment of peace.

IDEA OF LEAGUE, OLD

The idea of a League of Free Nations is an old one, and although it has never in times past received much influential support, it has many distinguished advocates at the present time. Senator Henry Cabot Lodge, senior senator from Massachusetts, states that nations must unite as men, and be the means of preventing any single nation from beginning war. The greatest lesson of our Civil War was the remarkable way in which thousands were ready to die for the Union after the constitution had held the country together for only sixty years.

"Switzerland is obliged to maintain an army of over 150,000 men, even though she is one of the most democratic and progressive nations in the world. The United States must have a very close concern with world affairs, for it is world represented in its citizens. The object of the League of Free Nations is not the preponderance of one nation, but the equality and equanimity of all nations. We must make our laws and our labor conditions coincide and harmonize with those of all other nations and stand behind our spokesmen at the peace table of Versailles, that the lasting equanimity of all nations of the earth may be assured.

The following resolutions were adopted by the entire student body: Inasmuch as the recent war was on behalf of the Allies, above all a war to end war,

Inasmuch as the Peace Conference for the drafting of the final terms of peace now in session,

Inasmuch as it is the high ambition of all righteous and peace loving people to prevent if possible the recurrence of war,

Inasmuch as the establishment of a League of Free Nations is a vital step in this direction,

Be it resolved, That the students and members of the faculty of New Hampshire College here assembled do this day, Jan. 22, 1919, register their approval of the establishment of a League of Free Nations, and are in general sympathy with the principles of the League of Free Nations Association.

FACULTY FORMS BRANCH OF LEAGUE OF FREE NATIONS.

A New Hampshire College branch of the League of Free Nations Association was formed here Friday afternoon by members of the college faculty. The organization has as its principal object the desire to forward the formation of a League of Free Nations at the present peace conference in Paris. The president of the college branch is Professor Richard Whoriskey; the secretary, Professor M. O'K. McKay; and the other three members of the executive committee are Professor Charles James, W. C. O'Kane and L. W. Hitchcock.

REGISTRATION FIGURES CONTINUE TO CLIMB.

Now that more than three weeks have passed since college began on a normal basis again, comparatively complete figures for the total registration are at hand. When the S. A. T. C. disbanded, it was generally thought that the majority of the men would not return. But the lure of college was too much. N. H. C. lived true to tradition and staged a wonderful comeback. This can easily be seen by the following table of registrants since Jan. 1.

Seniors, 32 women, 30 men; juniors, 42 women, 44 men; sophomores, 45 women, 87 men; freshmen, 45 women, 142 men; special 2 women; Aggie, 2-yr., 1st year, 7 men; Aggie, 2-yr., 2nd year, 5 men. Total, 481; 166 women, 315 men.

They are divided into courses as follows: Home Economics, 59; Arts and Science, 210; Aggie (4-yr.), 79; Aggie (2-yr.), 12; Engineering, 119; Special, 2. Several men have transferred to N. H. C. from other colleges. They are E. W. Stewart, '21, Dartmouth; R. B. Richardson, '21; Mass. Agricultural College; N. Nute, '22, Yale.

Tau Chapter of Alpha Xi Delta announces the pledging of Katherine McFarlane, '22, of Durham.

NEW HAMPSHIRE.

NEW HAMPSHIRE COLLEGE HAS NEW REGISTRAR.

Recently New Hampshire College had the misfortune to lose from its staff, Conda J. Ham, Registrar. He left his position here to accept one as an auditor for the Boston and Maine Railroad. However, the college has been very fortunate in securing the services of H. A. Vickers for this vacancy. He came here directly from the Agricultural College of Oregon. During this past year he was assistant director of extension service. While there he spent two pleasant years under the supervision of President Hetzel. At present Mr. Vickers and his wife are staying at the Hostess House.

STUDENT WELFARE ON LOOKOUT FOR "FLU."

In spite of the recent return of the influenza epidemic in nearby districts, there are at present no cases of the "Flu" in Durham. The local Student Welfare committee is waging an effective campaign against the scourge and so far has found no traces of its return. Each suspicious case is looked out for very carefully and daily reports are necessary until all doubt concerning the case has been removed.

MANY ALUMNI RECEIVE DISCHARGE

"Dewey" Graham Still a Gob—"Doc" Bell Now First Lieutenant—Other Newsy Items

Lieutenant John Durgin, ex-'18, recently stationed at Camp Meade, has received his discharge and returns to New Hampshire College to continue his interrupted course.

Lieutenant "Joseph Sullivan, '16, A. T. O., spent the week-end in Duham. Lieutenant Sullivan is still in the service.

Ensign E. A. Paul, 2-yr. '14, was a recent visitor in Durham. Ensign Paul is assigned to U. S. S. Androscoggin.

W. M. Farrington, 2-yr. '14, is in the naval service and is stationed at Annapolis on the submarine chaser 228. Farrington was in Durham last week.

A. E. Mosher, 2-yr. '14, of Gorham, Maine, visited Durham recently.

Carroll R. Heath, '14, has moved to South Danville, N. H., from Parlin, New Jersey.

L. R. Nixon, '17, is at present teaching algebra and science in Naugatuck High School, Naugatuck, Conn. He received his discharge from the army November 23, 1918. He was stationed at Camp Lee. His address is, 159 Cliff St., Naugatuck, Conn.

"Reggie" Cahalane, '18, was in Durham last week-end and attended the Glee Club benefit dance.

Lieut. W. P. Knox, '17, having just finished an artillery course at Fort Sill, Okla., has been sent to Camp Travis, Texas. "Knoxie" is in the regular army now.

According to the New York Times of Jan. 20th, when the 18th U. S. Infantry marched through the capitol of Luxemburg it was reviewed by Gen. Pershing and the Grand Duchess of Luxemburg. Col. C. A. Hunt, '01, was in command.

Lieutenant Irving Hedburg has received his discharge and returned to college. Lieut. Hedburg has been stationed at Washington and Lee University, Lexington, Va.

W. L. Owen, '19, A. T. O., and R. B. Emery, '19, A. T. O., spent the week-end in Durham. "Billy" is still doing chemical work at Charlestown Navy yard while "Doc" is teaching at the Wentworth Institute. Both are looking forward to entering college next year.

"Dewey" Graham, '20 and '21, is still wearing the Gob suit and is connected with the Naval Post Office in the Little Building, Boston, Mass.

"Nig" Dame, '18, has returned from England and has received his discharge from the service. He was in the aviation section of the army.

Captain Charles S. Pettee, '16, has been transferred to southern France to recover from the effects of gas poisoning. The gas severely affected his lungs and the southern climate it is hoped will be beneficial.

C. B. Wadleigh, '18, was in Durham this week for a few days. He has been discharged from the army at Portland, Maine, after four months of comparatively inactive duty. Wadleigh plans to enter the work with the Boys' and Girls' County Clubs.

Lieutenant W. J. Nelson, '17, has returned from Camp Custer, Michigan, and is now again teaching at Coe's Academy, Northwood, N. H.

Major W. E. Murchie, '07, was the commanding officer of the S. A. T. C. at Michigan Agricultural College.

Capt. A. J. Grant, '15, was commanding officer of the Brooklyn Polytechnical School for S. A. T. C.

"Bob" Wright, '01, is chairman of the judiciary committee, which makes him floor leader of the Republicans in the New Hampshire Legislature.

"PEB" STONE, '21 DIES IN SERVICE

Succumbs to Exhaustion After Rescue From Castalia, Off Sable Island—Active Student While Here at College

Fred Stone, '21, of Andover, N. H., was one of the four men lost in the rescue of the crew of the United States shipping board steamer Cas-

"PEB" STONE.

talia, which was disabled off Sable Island, Monday, January 13, while on the way to Bergen, Norway. "Peb," according to a wireless message received, was rescued and later died of exhaustion. He is survived by a father, the Hon. George W. Stone, a prominent Andover attorney, and recently very active in the war activities in his part of the state, and a brother, Lieut. Charles Stone, who is with the American Expeditionary forces in France.

"Peb," as he was affectionately called by his fraternity brothers and all who knew him, entered New Hampshire in the fall of 1917-18. He came here from Proctor Academy, where he had had five years of preparatory training. While there he was an active athlete and was noted for his clean game and sportsmanlike attitude. He was a member of the baseball team there for three years,

Corp. Rogers E. Farnham, '19, has been in forty-five battles. He is a wagoner.

"Joe" Morrill, '18, has just arrived in Boston on the U. S. Destroyer Conningham, after nine months' service in foreign waters.

T. N. Weeks, 2-yr. '20, is a member of the New Hampshire Legislature.

"Doc" Bell, '19, ordered two Boche planes to be shot down by machine guns in such a way that by shooting at upper one it struck lower one and brought both down. "Doc" was promoted to a first lieutenant on the field of battle.

Sergeant Howard Morse, '19, was decorated with the Croix de Guerre in June, 1918, for keeping telephone lines open to batteries during a violent bombardment lasting twenty-four hours.

Helen Bugbee, '18, Marguerite Merrill, '18, and Genevieve Charbonneau, '16, were visitors at college over last week-end.

Lieutenant Sherburne H. Fogg, '15, has been enjoying a ten days' furlough from Camp Service, S. C., bringing as his guests to his parents' home, Lieut. Redick from Bozeman, Montana, and Lieut. O'Conner from Red Lodge, Montana.

Lieutenant C. O. Austin, '18, was commanding officer of the S. A. T. C. at Carroll College, Wisconsin.

ALUMNI NOTICE.

If the "New Hampshire" Alumni column is to be kept full each week former students MUST send in news articles. You are asked to co-operate in this and are assured that the "New Hampshire" staff will do its best to produce a lively paper.

basketball team for two years and football for two years.

Upon entering here he immediately became an active student and was a member of the 1921 basketball and baseball teams. His clean sportsmanship was noted here too and it will be with great pleasure that the members of his class will remember his type.

"Peb" Stone was a member of the Beta Phi fraternity and later became Lambda Chi Alpha when Beta Phi went national. He enlisted in the Merchant Marines in Boston this past summer but was not called to active service until late fall.

The death of "Peb" Stone marks the fifth in the Lambda Chi Alpha fraternity since the war's beginning. The fraternity feels the loss of so intimate a brother and has drawn up the following resolutions:

January 22, 1919.

Whereas:

During the week of January 12th, the Great Reaper has visited this world of ours and removed from the fields of toil and worry one of our dearly beloved Brothers, from this, the Alpha Xi Zeta of Lambda Chi Alpha fraternity, be it resolved:

First: That in the death of our Brother, Fred W. Stone of Andover, New Hampshire, we have lost a member whose worldly actions promoted the high ideals of Lambda Chi Alpha fraternity, whose life while here among us was the emblem of fraternal brotherhood and clean sportsmanship.

Secondly: That we sincerely regret the separation thus caused, and hereby pay our tribute of love to his memory by wearing a piece of mourning beneath our fraternity pin and placing upon the permanent records of Alpha Xi Zeta of Lambda Chi Alpha fraternity a copy of these resolutions.

Thirdly: That we tender to the family and friends of our late brother our warmest sympathies and pray that his family and friends shall be consoled by the knowledge of his true Christian life while here on earth.

Fourthly: That we send a copy of these resolutions to the family of our late brother and offer them for publication in the "New Hampshire" and the Franklin Transcript.

Chris. J. O'Leary, Jr.,
F. W. Prescott,
R. S. Hunt,

Committee on Resolutions.

Mr. Eugene Daniel, one of the New Hampshire College trustees, has just returned from Washington, where he was a major in the Ordnance Department.

PISCATAQUA MINISTERIAL ASSOCIATION MEET HERE.

Tuesday, January 21, the Piscataqua Ministerial Association, composed of the ministers of this region, met at the Durham church. There were present men from the district included by Exeter, Portsmouth, Dover, Rochester and Raymond.

Rev. E. W. Pond as moderator delivered the concho. His subject was "The Task of the Church in the Present Age." Rev. C. H. Percival of Rochester gave a review of Jastrow's book, The Psychology of Conviction.

Lunch was served in the church vestry. At the table after lunch Robert Watson, Prof. Babcock and Dean Pettee made short remarks.

In the afternoon, Rev. Mr. Warren delivered the sermon, his subject being: Temperament in Religion. At the close of the session the delegation under the guidance of Dean Pettee, visited the varicous buildings of New Hampshire College.

EVENING ENTERTAINMENT HELD AT HOSTESS HOUSE.

The second of evening entertainments at the Hostess House was held last Tuesday evening, Jan. 21. Miss Beulah Bettel, the dietitian at Smith Hall, entertained a few of her friends at a small informal card party. One of the enjoyable features was the freedom enjoyed, in the use of parlor, dining room, and kitchen. The hospitality of the hostess, Miss Pierson, and her assistant, Miss Crother, which is always so noticeable in one's visit to the House, was also greatly appreciated.

The Delta Delta Chapter of the A. T. O. announces the pledging of Darvell, '22, of South Berwick, Me.

You Will Be Shot At Sunrise

The Church in Durham

REV. VAUGHAN DABNEY, PASTOR.

General Foch Finds Time to Pray.

A California boy—Evans by name—with the American Expeditionary Forces in France, has recently written a letter to his parents in San Bernardino, in which he tells of meeting General Foch at close range in France.

Evans had gone into an old church to have a look at it, and as he stood there, with bared head satisfying his respectful curiosity, a gray man with the eagles of a general on the collar of his shabby uniform, also entered the church. Only one orderly accompanied the quiet, gray man. No glittering staff of officers, no entourage of gold laced aides were with him; nobody but just the orderly. Evans paid small attention, at first, to the gray man, but was curious to see him kneel in the church praying. The minutes passed until full three-quarters of an hour had gone by before the gray man arose from his knees.

Then Evans followed him down the street and was surprised to see soldiers salute this man in great excitement, and women and children stopping in their tracks with awestruck faces as he passed. It was Foch. He had found time to go into that little church to pray.

MORNING WORSHIP, 10.45, CHURCH SCHOOL, 12 M.

MR. DABNEY SPEAKS SUNDAY.

TRACK MEN BEGIN TO ORGANIZE FOR RELAYS.

Tryout for relay team was begun last Wednesday afternoon after chapel. A promising squad of ten men showed up, and it is expected that a winning team can be picked from these. A number of last year's stars were present, and some of the freshmen are men of considerable ability. So far, two meets have been arranged one with M. A. C. at the First Naval District meet which is to be held at Boston, Feb. 15, and another with Rhode Island at the B. A. A. games in March.

Last year, a relay team was organized for the first time, and ran against M. A. C. in the B. A. A. games. It was defeated, but gave the opponents a hard race. It is hoped that this year, relay may be given a big boost and made permanent here.

This is the time for sophomores to come out for assistant managerships. There should be a man out from each fraternity. All men interested should report to Coach Cowell or Manager Bartlett.

LACK OF CHEERING AT BASKET BALL GAME.

At the basket ball game with Battery Wharf, the absence of cheering was very conspicuous, especially during the last half. The crowd was unusually quiet. It is admitted that the game was not intensely exciting, but there was some very good work done by each member of our team that certainly deserved better recognition. There was not the usual applause when the visiting team came on. This not only shows lack of courtesy, but reflects on the college as a whole. There was a good attempt at some yells during intermission between the halves but the crowd was not aroused to any appreciable degree.

This Saturday we play Worcester Polytech and next Saturday, Springfield. Good support will be necessary if our team is to win, at least in the second game. Let's have enough noise at these games to raise the roof.

ADD NEW FURNITURE TO ATHLETIC DEPARTMENT.

The athletic director's office has lately become the proud possessor of some much needed furniture. Desks are now available for every manager of a varsity sport. These desks are made of oak and greatly add to the attractiveness of the office. Such an addition speaks well for the apparent intention of making more of athletics this year than ever.

DR. FRANK M. SHELDON TO SPEAK AT CHAPEL.

Dr. Frank M. Sheldon, who is secretary of the Congregational Education Society in Boston, will come to Durham next Wednesday. He will speak in chapel in the afternoon and at the regular Y. W. C. A. meeting in the evening at Smith Hall. Dr. Sheldon is a prominent leader at the Silver Bay conference, New York, and is a most influential speaker.

BOSTON MUSIC CO. ACCEPTS DR. RICHARDS' LATEST SONG.

The Boston Music Co. has accepted for publication an encore entitled, "Mon P'tit Brave Soldat," written by Dr. A. E. Richards of New Hampshire College. The song was written about three weeks ago by Dr. Richards and was intended for a three-voice selection for the Girls' Glee Club. The feature of the song is the snare drum effect brought in by the alto.

GLEE CLUB BENEFIT DANCE SUCCESSFUL.

The benefit dance given by the Men's Glee Club last Saturday evening in the Gymnasium after the basketball game was a success both socially and financially. Approximately thirty dollars (\$30) was cleared.

The dance, which was well attended, showed a large increase over the number present at the informals of last year.

Social activities are all the more appreciated, now, because of the restrictions of last semester, and this dance marks another step in the re-establishment of the former social life of New Hampshire College.

Dancing was from 8 to 11, the music being furnished by the college

orchestra. At intermission refreshments were served.

The chaperones were Mrs. Marcia N. Sanders, Mr. and Mrs. C. R. Cleveland and Mr. and Mrs. L. W. Hitchcock.

WEEKLY Y. W. C. A. MEETING HELD AT THOMPSON HALL.

The Y. W. C. A. meeting was held Wednesday in Smith Hall with Sara Greenfield, '19, as leader. The subject was, "Because of the War What?" and the book by Harry Emerson Fosdick, called "The Challenge of the Present Crisis," was used. Discussion on the practical application of principles of this book followed.

AGGIE DEPARTMENT TO REVISE READING COURSES.

This winter the heads of the various agricultural departments of New Hampshire College have thoroughly revised the reading courses. Under the supervision of H. B. Stevens of the Extension Service eleven courses have been prepared especially for New Hampshire farmers and their wives. The number enrolled now exceeds four hundred and requests for enrollment are still coming in every mail. One hundred and fifty New Hampshire towns are represented. In addition, the Extension Department has received many requests for enrollment from people of neighboring states, including one from Vancouver, B. C. North Carolina is also represented with one enrollment.

The courses in Soils and Fertilizers, Poultry, and Feeding the Family are the most popular. One of the interesting features is the large number of women enrolled in the course on Feeding the Family.

By means of these reading courses the Extension Service of N. H. C. is helping many whom hitherto it was impossible to reach and their good results will be manifest throughout the entire state in a very short time.

DEAN GROVES TO SPEND WEEK LECTURING IN CANADA.

Dean E. R. Groves has been invited by the Provincial Secretary of the Y. M. C. A. at Nova Scotia to speak to the business men at St. Johns and Halifax on March 22 to 26 inclusive. Professor Groves expects to be in Canada a week, and since the date set comes during the intermission between the second and third terms, his absence will not interfere with his class-work here.

DEAN HEWITT TO GIVE SERIES OF LECTURES.

Dean C. E. Hewitt is to give a series of three lectures before the Scientific Society of St. Paul's School, Concord, N. H., on the subject, "The Development of Modern Electricity." The first lecture was given on Thursday evening of this week.

ECONOMICS CLUB TO HOLD FIRST MEETING.

The first meeting of the Economics Club will be held Wednesday evening at 7.30 o'clock in Prof. McKay's classroom in the library. All students who are specializing in economics are entitled to membership in this club and are cordially invited to attend this first meeting.

The meeting will be given over to the election of officers for this coming year and a short discussion on some current economic subject.

It is planned that this year topics shall be both discussed by the members of the club themselves and also by outside individuals who will be brought in for the purpose of talking to the club.

Remember the time and place. Girls taking economics are invited.

Miss Sadie Marion Griffith, '22, on Friday evening entertained the Alpha Xi Delta Sorority, to which she is pledged, at Griffith's farm, being given a hay ride to and from Ballard Hall. The night was ideal and the sleighing fine and a good time was enjoyed. Mrs. Elizabeth DeMerritt and Miss Beula Bettel were the chaperones.

Miss Caroline Perkins, '19, is substituting for two weeks in the Durham school, taking the place of the principal, who is ill. She is teaching Junior High subjects, which include geometry, bookkeeping, cooking and history.

IMPORTANT CONFERENCE AT HOSTESS HOUSE.

On Tuesday morning, at the Hostess House, President R. D. Hetzel, Mrs. A. H. Harriman, President of the Federation of Women's Clubs of New Hampshire, representatives of the Durham Woman's Club, the Advisory Board for Women of the college, and the Y. M. C. A. Secretary, Mr. Robert Watson, met to formulate rules which will govern the administration of the House. Since the demobilization of the S. A. T. C., the future of this House, which has so endeared itself to the heart of every N. H. C. man, was undecided, for the presence of a branch of the army here offered the motive for the starting of such a venture.

However, the Hostess House will go on. That is decided, and all are happy that it has turned out that way. Necessarily there will have to be some few changes in the rules of the House and it was for this reason that the conference was held Thursday. At the present, the results cannot be obtained for publication, but will appear next week.

PHYSICS DEPARTMENT OFFERS CONSULTATIONS.

The Physics Department offers the following hours each week of the college year for consultation on natural questions and problems which will arise in any course in physics.

It is not necessary to consult that instructor who is giving the course, in truth, it is often an advantage to obtain the view-point of another physicist.

The hours:

Monday at 1.30, Prof. Moran.

Tuesday at 10.00, Prof. Moran.

Wednesday at 11.00, Dr. Howes.

Thursday at 9.00, Mr. Hoffman.

Friday at 10.00, Dr. Howes.

Saturday at 9.00, Mr. Hoffman.

PRACTICE SCHOOLS TO BE SELECTED SOON.

Very soon the Department of Education, in conjunction with the State Department of Education, will have selected schools in which all senior girls in Home Economics will do from four to six weeks of practice, supervised teaching, previous to their time of graduation in June. Miss Louise Knight, assistant professor of Home Economics, and now the acting head of the department, will be virtually in charge of the teaching done by the girls.

STUDENTS ALLOWED TO ATTEND TOWN DANCE.

At a meeting of the Women's Advisory committee Wednesday afternoon it was decided to allow the women students to go to the dance held at the Grange hall last night.

APPOINT COMMITTEE TO DRAW UP CONSTITUTION.

A freshman class-meeting was held January 16 at seven o'clock. A committee to draw up a constitution for the class was elected consisting of Rhoda Hyde, Helen Pettengill, Loren Paine, Francis Keane, and Robert Nuteer. Election of social committee representatives was deferred.

At the first regular meeting of the Mandolin Club held in Thompson Hall Wednesday, twelve members were present.

Any faculty ladies, who have not been reached in the recent membership canvass for the Y. W. C. A., and who care to join the association, are asked to call Mrs. Melvin Smith.

The Y. M. C. A. hut will be open for use about the first of February. Men are now at work laying water-pipes from the gymnasium to the hut. The building has not yet been wired for electricity.

This Saturday Rev. Vaughan Dabney will speak to the Rochester Woman's Club on the "Poetry of the War." In the afternoon he will speak also at the Woodman Institute in Dover on the "Psychology of the German."
