CLUB WORKERS HOLD CONFERENCE

Annual Meeting of Extension Branch SUCCESSFUL GATHERING

Five Days Spent in Discussing Various Phases of Work—Many New Hampshire Alumni Among Those Present

The annual conference of the workers in the state extension service was held during the past week in Durham. This conference is held every year for the purpose of organization and of planning new work. Approximately fifty men and women, including county agents and assistants, club and home demonstration workers were assembled at Morrill Hall Monday afternoon for the opening session.

Tuesday morning committee meetings were held and for the purpose of discussing club work. Miss M. L. Sanborn, Miss C. Hazard, Miss A. L. Ballard, Miss M. A. Worcester and Miss Perkins, girls' club leaders, and H. A. Mostrum, L. A. Carlisle, H. B. Little and O. H. Benson, connected with the boys' club work, all gave talks on boys' and girls' clubs.

HOLD RECEPTION

On Wednesday the committee meetings were continued and in the afternoon a general meeting was held at which the topic was "Demonstration Work." Miss Laura Comstock, State Demonstration Leader from Massachusetts Agricultural College, and Miss Grace Smith from the national extension office at Washington were present and gave most interesting talks on this subject. Miss Antoinette Roof, emergency state home demonstration leader of Massachusetts, was expected, but was unable to be present. That evening a reception was held at the home of Mr. J. C. Kendall, director of the extension service in New Hampshire and all the extension workers enjoyed a most pleasing time.

Thursday committee meetings were held until ten o'clock followed by a meeting at which H. N. Wells, A. G. Davis, R. E. Denel and C. A. Smith gave talks concerning the Farm Bureau, its organization and maintenance of membership. In the afternoon, E. A. Hirst, State Forester, spoke on the subject of: "White Pine Blister Rust," and M. C. Wilson lectured on "The Farm Bureau." W. R. Wilson, who was a member of the dairy faculty of the college last year, talked on demonstrations. In the evening, at the gymnasium, an entertainment was given, which was attended by college students and members of the faculty. President Hetzel spoke a few words of welcome and introduced Dean J. L. Hills, of the Vermont State Agricultural College, who gave a most interesting talk about the relation of the extension service to the reconstruction period. A film of the Field Day, which was held at Durham last August, was shown on the screen.

REPORTS SUBMITTED

The final session was held Friday morning. Reports of committees were read and considered. Final plans were adopted and the conference was then adjourned. The conference was very successful, the objects aimed at being accomplished and it proved a larger and more comprehensive rally than any previously held. While at Durham the workers were provided with rooms at the different fraternity houses and at the Hostess House. Meals were furnished at the mess hall.

CONVOCATION NOTICE.

It is a positive tradition of the college, that students must not disturb speakers by leaving the hall during convocation speaking, unless compelled by sickness.

Students will be marked absent unless in their assigned seats during the speaking. Excuses for necessary absences may be obtained from the Dean.

(Signed) C. H. PETTEE, Dean.

ECONOMICS CLUB HOLDS MEETING

Has Election of Officers—Prof. McKay Discusses Sec. McAdoo's Report on the United States Railroad Administration

The first meeting of the Economics Club was held Wednesday evening at 7.30 in the economics lecture room under Professor McKay's direction. The balloting resulted in the election of the following officers: A. E. Clapp, '19, president; J. F. Stafford, '19, vice president; C. A. Morrison, '20, secretary; C. B. Murther, '21, treasurer. The club voted to hold bi-monthly meetings and elected a committee, composed of A. B. White, '19, C. A. Morrison, '20, and F. E. Paterson, '20, which is to formulate rules governing the eligibility for membership of future prospective members. It was decided to hold the next meeting on Wednesday evening, February 12.

PROF. MCKAY TALKS

Prof. McKay addressed the club and reviewed the report of W. G. McAdoo, Director-General of the United States Railroad Administration on the management of the roads under government control.

In his report he said Mr. McAdoo had discussed the conditions of the railroads at the time they were taken over by the government. Due to mismanagement and various other detrimental features, the roads were in wretched condition both materially and financially. He blamed the lack of central management of the individual roads for their poor condition when confiscated.

The contingencies resulting from the necessities created by war for the transportation of commodities and war supplies made great demands upon the railroads and found them in an extreme stage of quick return to appeals, having no locomotives in reserve when they passed under the new control. At the time the administration report was made public, there were 1,189 reserve locomotives.

The movement of troops was an immense task to be accomplished, while great quantities of war supplies and materials had to be shipped to the docks from the supply centers for transportation overseas.

On February 1, an urgent call was issued to the railroads for the movement of grain from the West and on March 15 every waiting ship had been loaded, every available grain elevator filled and 1,139 full cars remained on the tracks as a surplus for immediate filling of new ships. Such excellent results were due in large measure to the pooling of interests and the common and interchangeable use of repair ships, cars and rolling stock of all the nation's roads. Special export trains were made up at the supply centers and went directly to the coast without a hitch.

Dr. McKay brought out the fact that he thought the response of the railroads to the appeals and demands of the time, in such an efficient manner no less than miraculous. He also believes that government ownership of railroads should be given a longer trial in order to be fair to both sides on the question.

ATHLETIC ASSOCIATION TO HOLD MEETING WEDNESDAY.

An important meeting of the Athletic Association will be held at the gymnasium next Wednesday directly after chapel. The purpose of this meeting is to elect officers and also an executive committee. At present, there is no organization and until this meeting has been held, nothing can be done by the association. The executive committee is necessary, since it decides all questions concerning the presentation of letters, and chooses the managers with their assistants for each sport. Each student is a member and all should be present at the meeting.

WORCESTER TECH IS DEFEATED

Team Wins Second Game of Season

SCORE 31 TO 24

Fine Individual Plays—Kushner Excelled for Visitors—Craig at His Best

In the second basket ball game of the season, New Hampshire won from Worcester Tech. last Saturday night, January 25, by a score of 31 to 24. It was an unusually fast game, and, despite a number of technical fouls, fairly clean. Excellent passing, and fine individual playing furnished some real excitement. New Hampshire held the upper hand throughout, but the score was close enough to keep the game interesting.

The first period was fairly even and it was not for some time that either team obtained a basket. Butler got the first basket and Craig soon got another. The score at the end of the period was 13-10 in our favor. Kushner, captain for the opponents, made the ten points for his team, getting three difficult shots and four foul shots. In the second half, New Hampshire increased her lead until the final score stood seven points in their favor. Offensively and defensively, New Hampshire was too strong for the opponents, and time after time broke through, with some fine play which netted goals.

Shuttleworth did great work at guard, breaking up passes; Craig was at his best, getting five baskets, while Butler played his usual fast game and got four. The team failed in the first period to take advantage of many opportunities but braced up and during the latter part of the game made a good per cent. of their shots count.

Summary:
New Hampshire
Butler, r. f.
Craig, l. f.
Anderson, c.,

Shuttleworth, r. g.,
Davis, l. g.,
New Hampshire, 31; Worcester Tech. l. g., Pickwick
r. g., Carlson
c., McCaffery
Riley
I. f., Steele
r. f., Kushner
W. P. I., 24.
Goals from floor: Craig, 5; Kushner, 5; Butler, 4; Anderson, 4; Riley, 2; McCaffery, 2; Davis, 1. Goals from foul, Kushner, 6; Davis, 3. Referee, Tower. Scorer, Paterson. Time, two twenty-minute periods.

Professor Richard Whoriskey on Wednesday evening took the place of Gov. Bartlett, who on account of illness was unable to fill his engagement as speaker at the Rotary Club banquet given at Manchester.

Prof. W. C. O'Kane spoke on "The League of Free Nations" at Littleton, N. H., January 31.

FIRE! FIRE! FIRE!

Until steam is connected into the hose house on the south side of Thompson Hall, the Fire Chemical will be found in the basement of Conant Hall. The Hose Carriage will be housed in the building on the south end of Thompson Hall.

Until the new Commandant arrives and can organize the students in proper fire brigades, it is requested that whenever there is a fire alarm sounded and the fire is within the limit of the water main one set of students immediately get the hose carriage and connect to the hydrant nearest to the fire at the earliest possible moment.

Another set of students should take the fire chemical as near as possible to the location of the fire and use same whenever possible.

Hand chemicals are provided for the various buildings and these should be secured and used as effectively as possible.

MISS KLING'S PRIZE THESIS PUBLISHED

Personal Knowledge of Life in Russia Adds Much to Subject—Exceptionally Well Written

The prize thesis, "Russia's Social Problem—The Peasant," by Francis Kling, '20, which was awarded the Lillian T. Edwards prize for last year, has been published and is being distributed. This prize, which is offered each year, provides a fund for the publishing and distribution of the best thesis on a sociological subject written by a student for the department of sociology.

VERY INTERESTING

Like the prize essays of other years it is exceptionally interesting and well written, and Miss Kling's thesis like last year's prize thesis by Dorothy Hanson, '19, is all the more remarkable, since it was written in her sophomore year at college. On her subject she is especially well prepared to speak, since she was herself born in Russia, coming to this country when she was but five years old. Remembrances and details she has been able to supply from actual experience or that of her relatives still living in Russia.

RUSSIA IN LIMELIGHT

At the time when Russia is so much in the public mind, such a presentation is of great interest. The chaos and oppression that is responsible for the present day Russia is well explained. For 400 years the peasant was under the cruel yoke of serfdom. When in 1861 the Act of Emancipation freed fifty millions of these serfs, such a class, ignorant, coarse and without ambition, is indeed a serious problem. Their religion has helped them little. They are very superstitious and ignorant. In spite of the depressing facts Miss Kling expresses great confidence in the Russian people concluding with these words: "It rests in the hands of the allies to determine how Russia will issue from the turmoil. The peasants are in the larva, half awakened, half developed stage. It is now up to us to decide whether we shall help them develop into the noble minded, strong people that God meant them to be." Copies of this thesis may be obtained from Professor E. R. Groves, Department of Sociology, Durham, N. H.

REV. VAUGHAN DABNEY DELIVERS UNIQUE SERMON.

In a unique sermon last Sunday, Rev. Vaughan Dabney drew spiritual lessons from the recent wind which swept over Durham with such force and persistency. His subject was, "Through Life's Windy Days with Christ."

"Just as the great wind swept thru Durham last week," said Mr. Dabney, "so the winds of circumstances sweep thru the soul; and as strength and joy come from battling the wind, so strength and joy come from struggling against adverse circumstances. Christ gives peace, poise and power to offset life's windy days."

At a freshman class meeting Tuesday Marjorie McGoff and Willis Day were elected representatives to the Social Committee.

CALENDAR OF EVENTS.

Saturday, February 1. Smith Hall, dance at 8.00 p. m.

Monday, February 3. Engineering Society holds Ladies' Night at Gym, at 7.30 p. m.

Friday, February 7. House Committees of State Legislature to visit college.

Friday, February 7. Basketball game, Wesleyan vs. N. H. at Middleton.

Saturday, February 8. Informal at Gym, 8.00 p. m.

Saturday, February 8. Basketball game, Conn. State vs. N. H. at Storrs.

FINE ADDRESS AT CONVOCATION

Explains Nature of True Christianity

MUCH INTEREST

Dr. Frank W. Sheldon of Boston Tells How Democracy May Be Attained by Living Golden Rule

"Democracy will never be attained until the spirit of democracy has been inculcated; and the spirit of democracy is simply living by the golden rule—believing in the other fellow," said Dr. Frank M. Sheldon of Boston, at Convocation on Wednesday. Dr. Sheldon, widely known in Y. M. C. A. work, and as secretary of the Congregational Education Society in Boston took for his subject, "True Christianity." Following prayer by Rev. Robert W. Coe of Dover, Dr. Sheldon said in part:

"When Peter confessed to Christ at Phillippi, 'Thou art the Son of God,' Peter would not believe that Christ would be crucified and in three days arise from the dead, as He said. Christ came into the world to make people think and act like God. Some of the truest Christians believe that all world questions are soluble through the program and spirit of christianity. We are convinced of this, as we are of the fact that the present christianity is very inadequate to solve the burning questions of the hour.

"Have we mistaken what christianity is? Is it a scheme worked out by Christ whereby, if we accept Christ, God will slip us into a place of safety? Is christianity a selfish creed of self preservation? Is it a program of Christ's to remove the burdens from our shoulders, and give us nothing further to do?"

INSTILLED SACRIFICE

"No, Christ never promised such things. He did promise to endow us with safety that we might face grave dangers, and He instilled in us the spirit of service and self sacrifice, that we might go forth and accomplish great things.

"Is christianity a set of prohibitions? There are no negatives in the teachings of Christ, with the one exception of Christ's command, 'Go thou and sin no more.' Jesus laid down no rules of life, for He was a life giver rather than a rule giver, and He taught the principles of self-sacrifice, love and service.

"Does the acceptance of many theological conclusions make us christian? Jesus identified Himself with humanity. Christianity has theology in it to be sure, but theology is not necessarily Christianity. The great christian experiences of the Bible were social experiences. Christian experience meant service, not saving one's own soul and getting to Heaven. Christianity is the simplest and at the same time most profound thing in the world. Christ went directly to the hearts of men and women.

THE MAKING OF MAN

Christianity is Christ's way of life as he taught it and lived it and the way in which he seeks to lead us. Our ideas of being saved and of being lost have been extremely stupid. What is it for a man to be lost? For what is man made? A man or woman is lost to God when He cannot put His hand upon the individual and use him in the purpose for which the Master made him. A man is lost to his best self when he fails to realize that best self.

"There is only one thing going on in this world—the making of men and women. That is the purpose of the world, for every man and woman, potentially at least, is a child of God. We are now beginning to realize that we must have better adjustments of life to avert further conflict. Man is the one sacred thing in the world. The

THE STUDENT DIRECTORY.

Every student will welcome the announcement that the student directory is to be published this year. For the past three years the New Hampshire has recognized the need for this little book, and has distributed it free of charge to several hundred students, to the faculty, and to many in the surrounding towns.

The need for this book has grown to a necessity, but it is detrimental to the paper to bear this expense for year after year. Since no other organization has attempted to finance it, the "New Hampshire" will publish it as usual, but it will be necessary to charge 10 cents for it.

The list of names will be posted soon so that errors may occur and omissions may be corrected.

The Business Manager requests each student to aid in eliminating errors by seeing that his or her name is properly entered.

DON'T OVERDO IT.

Student scholarship must be carefully watched as social regulations become less stringent. As soon as the student begins to show lack of efficiency in studies, because of too many social activities, the gradual raising of social restrictions, which has been going on since college opened, will be reversed, and hopes of pre-war conditions in New Hampshire's social affairs will suffer a severe blow. The granting of a house party week-end will depend very largely upon the manner in which students regulate their social activities now. College is primarily a place of learning, and so it behooves the student to keep his studies up to a high standard.

A wise choice of the present college activities now will give the student a wide choice of activities later. Laws are made only for those who break them. Restrictions are necessary only for those who will not restrict themselves. The man with low scholarship must necessarily limit his social activities, until his scholarship is again up to grade; while the man with high scholarship is able to participate in more outside activities. Thus his range of experience is widened in proportion to his capacity and ability. Always there is a happy medium which gives the proper balance of work and play; and this proportion must be determined by each man, for himself. Keep up the studies, don't be a grind, enjoy the social life; but don't overdo it.

WHY NOT FIX THEM?

After a great deal of agitation, drinking fountains were set up in the various buildings of the college a short time ago. The fountains are in such a deplorable condition in many cases that it is necessary to spend much valuable time waiting for a flow of water. Even then it is not possible to get a "life-size" drink of the water which finally comes after so much coaxing, and which would usually give one the impression of having come from some source of hot water supply. Why is it that such conditions are not remedied, especially in the Engineering Buildings, where all such engineering projects should be made right and kept in first class condition?

NEW HAMPSHIRE FIRST?

The "New Hampshire" notes in the Boston Herald of January 28, 1919, contained the statement that Dartmouth College was the first New England college to adopt the League of Free Nations plan. What about New Hampshire College being first? Did not the student body, 100 per cent. strong, join the League of Free Nations Association of New Hampshire at a chapel meeting January 22, 1919? Dartmouth did not join until January 27, 1919.

BE AN OPTIMIST.

"Now is the time to be optimistic. We will be if we are thoughtful, for it is mainly the thoughtless and heedless who comprise our minority of alarmists and pessimists. We must face problems more resolutely and with more hope, confidence and courage. We must try to realize conditions that are average and general instead of those that are isolated and specific. And we accomplish things by creating a spirit of confidence in our ability to do them. The duty of every thinking man is to see clearly and largely and spread the gospel of confidence and our ability to achieve."

ALPHA XI DELTA-PI DELTA HOLD SCHOLARSHIP CUP.

The Alpha Xi Delta scholarship cup, awarded to the women's fraternity maintaining the highest scholarship average during the college year, is held this year jointly by Alpha Xi Delta and Pi Delta fraternities. The reason for the joint ownership is because of the percentage that each of the fraternities had.

FIRST GRANGE HALL DANCE ENJOYED BY STUDENTS.

On Friday evening January 24, 1919, the first of a series of dances was held at Grange hall. The college authorities had previously voted to allow the women students to attend, and the result was that there were more than forty couples present. Everyone had a very enjoyable time and the music was especially good, which fact added much to the evening's pleasure.

REGRET THE DEPARTURE OF CAFETERIA HOSTESS.

Last Wednesday saw the departure of Miss Lucy Crowther, the cafeteria hostess at the Hostess House. Miss Crowther came here when the house was first opened early in November in the S. A. E. House, and before many days had proved that "the quickest way to a man's heart is through his stomach. Many a hungry soldier dropped in at the House and smacked his lips over Miss Crowther's pies, cookies and doughnuts, loudly proclaiming that they tasted so "home-like." Though her time for social activities was limited, Miss Crowther's happy laugh and sunny disposition were an ever present enjoyment to all those associated with her. It is needless to say that all who knew her, will feel a genuine pang of regret when they learn that she has gone. She leaves, here, a host of friends who will long remember her, and who, as she goes, wish her the "best o' luck."

LAMBDA CHI ALPHA HAS NOVEL INITIATION STUNTS.

Between the halves of the basketball game with Worcester Tech, five freshmen did a droll stunt as a part of Lambda Chi Alpha initiation. Decked out in fitting costume, they marched onto the floor and commenced a mock tag dance, in which Frank Jones took the woman's part and A. Martin, E. F. Rumazza and Munro took turns dancing, while L. E. Emerson furnished the jazz on the fiddle. Then Emerson accompanied on the ukelele, while L. F. Munro made a noble attempt at "The Perfect Day." Rumazza with a neat little presentation speech produced a cabbage for the songster, who accepted it with due formality, and the five marched out midst a shower of pennies.

A meeting of the sophomore class was held Tuesday at four o'clock and a committee composed of Annie McWeeney, Hortense Cavis and Roland S. Coker was elected for the purpose of collecting write-ups for the Granite.

HOSTESS HOUSE NOTES.

During the conference of state extension workers, which was held in Durham this past week, the Home Demonstration Agents and the Junior Club workers have been staying at the Hostess House. For the first time since the opening of the house, every bed was occupied, and people had to be refused. This is but further proof of the growing popularity of the house, not only as a recreation center, but also as a transient hotel.

On Wednesday afternoon a tea was given for all those attending the conference. Mrs. J. C. Kendall, wife of the director of extension work at New Hampshire College, poured.

On Thursday afternoon a tea was given in honor of Miss Annie L. Sawyer of Warner, N. H., the new hostess, who will assume her duties on Monday, next. This proved to be an excellent chance for her to meet the heads of various departments of the college, who will work in co-operation with the house in accordance with the rules recently made by President Hetzel. The rules will soon be made public, copies of them being made now.

Some of the Women's Clubs of New Hampshire, and also a few individuals, have very kindly subscribed to several popular magazines, that they may be sent to the Hostess House and placed in the reading room there. The books, a list of which is not yet completed, will be of interest to both the men and women of the college, and will be an added inducement to spend a leisure hour or two at the House.

Seven college women, detained until after the last train on Saturday evening, spent the night at the House. This only designates another use to which the House may be put. Commuters, who wish to remain in Durham for Saturday night affairs, but who are prevented from doing so by lack of accommodations, will find the House always ready to receive them for a nominal sum.

GIRLS ARE TO HAVE CLASSES IN BOWLING.

During the past week Miss Helen Bartlett, instructor in Physical Education, has been giving her classes lessons in bowling, at Shoemaker's bowling alley. Miss Bartlett had the alley reserved for the regular class periods, and the bowling counted as part of the class work.

The sophomore class was the first to go to the alley, and is the only class on which Miss Bartlett could make a report. Annie McWeeney had the highest score, which was 65; Rachel Bugbee was next with a score of 62; and Helen Meader was third having scored 58.

The girls were very much interested in bowling and they are hoping to have some inter-class contests. Miss Bartlett is planning to have the alley reserved certain hours every week for women students.

Mu Alpha chapter of Chi Omega held its annual initiation and banquet at Grange hall on Saturday evening, January 25. Those initiated were Mary Gerrish, '21, Esther Huse, '21, Martha Higgins, '22 and Crystal Goodwin, '22.

BASKETBALL PROSPECTS LOOK EXTREMELY BRIGHT.

Basketball prospects are now extremely bright. The team is going fine. Plays have been practiced until the men have perfected them, and Coach Cowell has been able to get a good idea concerning the second string men, all of whom are doing good work. In fact, the second team is the strongest squad of substitutes the team has had for several years. Harris shows a fine eye for shooting, and Nickols, Perry and Stuart are doing some very satisfactory work as forwards. Smith makes a very strong guard and will probably figure in a number of games.

The team is going to make a three-day trip next Thursday, to play Brown, Wesleyan and Connecticut, Feb. 6, 7 and 8. Of these three, probably the hardest game will be against Wesleyan, since this team has already defeated Springfield and Williams, both strong teams. This is Brown's first season in basketball.

E. MORRILL FURNITURE CO.

DOVER,

NEW HAMPSHIRE.

Consequently the result of that game will be watched with interest. In the past few years, New Hampshire has won the majority of the games with Connecticut, although the margin is rather slight. A victory is rather expected at Storrs, and it would be no surprise if the team came home with a clean slate from the three contests. It would however be considerably to the credit of the team, if they do come out on top, for the Wesleyan quintet thus far has appeared to be one of the strongest teams in New England.

SETTEES IN LIBRARY CLASS ROOM ARE HISTORICAL.

Among the old settees still in use here at the college are several which were in Culver Hall at Hanover, when New Hampshire College was associated with Dartmouth. Prof. C. W. Scott of the History department can still remember them as they were in Culver Hall in his freshman year in Hanover. Prof. Scott also has in his office a small chair which was in the boarding house at Hanover at the time he was there. This chair, together with the settees, were moved from Hanover to Durham upon the separation of the colleges in 1893, and they are still sturdy and in daily use.

DE LAVAL

The World's Greatest Cream Saver

All over the world creamerymen, big milk concerns, dairy authorities and cow owners who have special opportunity for judging the worth of cream separators have for years recognized the superior skimming and all around efficiency of the De Laval.

That's why 98% of the plants throughout the world separating large quantities of milk use the De Laval. It skims so much closer that they can't afford to use any other machine.

That's why 2,325,000 De Laval's are in daily use, more than all other makes combined.

Not only is the De Laval the greatest cream saver but it turns easier, is easier to wash, has larger capacity and greater durability than any other separator.

The more you know about cream separators the more certain you are to buy a De Laval.

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash or on such liberal terms as to save its own cost. See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office as below

ODIORNE, '15, VISITS DURHAM THIS WEEK

Capt. C. S. Pettee Has Been Sent to Southern France—Barker, '19, and Wakefield, '19, to Return to College

Benjamin G. Odiorne, '15, visited Durham on Tuesday of this week and spent an enjoyable day renewing old acquaintances. Upon his graduation from New Hampshire he studied at the Harvard Law School and School of Business Administration, and received his A. M. degree from that institution last year. For the past six months he has been secretary of the Board of Trade in South Amboy, N. J. He was on his way to Mansfield, Mass., where he in a similar capacity as secretary of the board, is to organize on a business basis the Board of Trade in that town.

C. T. Ilsley, 2-yr. '19, is located at Camp Hunt, France.

E. D. Hardy, '06, has a position in Providence, R. I., as mechanical engineer.

Lieut. Forrest Barker, '19, of Co. C, 73d Inf., U. S. A., has received his discharge and will return to college.

Warren Allen, 2-yr. '18, is assistant manager of the Rockingham Electric Light Co., Portsmouth, N. H.

Raymond H. Bagg, '18, is employed by the Western Union Telegraph Co., Boston, Mass.

Sidney Anthony, '21, is on the U. S. S. Goliath, and is at present cruising around Scotland and England.

Giles Martin, '18, is somewhere in France with the 203rd Field Artillery, American Expeditionary Forces.

H. T. Irvine, '18, "Skeet," was in Durham a few days ago. He has taken up a position at the Portsmouth navy yard.

C. B. Broderick, '18, is also working at the Portsmouth navy yard. He has obtained his release from active service in the navy and was in Durham a short time ago.

J. E. Humiston, '18, has returned from Texas to his home in Hanover, N. H. He has been discharged from the army a second lieutenant. He also attended Camp Zachery Taylor, Louisville, Kentucky.

H. E. Barnard, '99, Ph. D., is connected with the Food and Drugs Department of the Indiana State Board of Health in several capacities. He plans to celebrate the 20th anniversary of his graduation in Durham next June.

Captain Charles S. Pettee, '16, who several months ago was gassed and who has since been in a hospital, has been sent to the southern part of France that he may better regain his health. Colonel Kelton, chief of staff of the 3rd division, U. S. Regulars, who has been speaking in this country, very recently, spoke very highly of Captain Pettee saying that he considered him to be one of the most able officers on his staff.

Ralph E. Came, '15, visited Durham recently. He was feeling rather weak from the effects of pneumonia. He has been in the hospital five weeks in Washington, D. C., and is now home on a ten-day furlough. He is still in military uniform with the insignia of the chemical warfare service. Upon the expiration of his furlough he expects to return to his job in Washington, but as a civilian instead of a soldier.

M. H. Johnson, '19, U. S. S. C. 253, has done some extensive traveling since he joined the navy. Up to last September he was on patrol off our own coast but since then he has been on a cruise with his submarine chaser 253. He went across to Spain via Bermuda and was on duty in the straits of Gibraltar until the armistice was signed. He is now on his way back to Charlestown by way of the West Indies, Cuba and Key West. He expects to get back into civilian life when he returns.

Hazel Moore, ex-'20, is at Keene Normal School

Private Wm. L. McCarten, 2-yr. '14, is at Aubreville, France.

Hazel Wasgatt, ex-'20, is employed at the Portsmouth navy yard.

Wesley Lowe, 2-yr. '16, is located with the U. S. Naval Forces in France.

Marion Chadwick, ex-'20, is attending the Boston School of Physical Education.

Eleanor Gardner, ex-'20, is working for the Travelers Insurance Co. at Worcester, Mass.

Esther Sughrue, ex-'20, is employed in the Nashua office of the Boston and Maine Railroad.

Miss Eleanor Lambert, '17, and Miss Eva Eastman, '18, are both teaching at Vineyard Haven, Mass.

P. A. Footill, 2-yr. '15, is mess sergeant for Troop I, 13th Cavalry at Fort Clark, Texas.

C. A. Wakefield, '19, A. T. O., expects to receive his discharge this week and to return to college.

The engagement of Miss Ruth W. Hadley, '18, to Mr. Philip A. Hayden, '17, has recently been announced.

R. Harold Gilmore, '17, is now on a large farm where he has been doing his bit by increasing production.

E. W. Christensen, '20, visited Durham recently. He has been across once, visiting both England and France.

John W. Veasey, '20, has been reported wounded in five places by a burst of shrapnel. Details are lacking.

M. A. Neville, U. S. N., U. S. S. Morrill Hall, returned for a short stay in Durham. "Sneaker" is putting in his daily hours at the Portsmouth navy yard.

H. V. Bent, '14, who has been wounded twice while in the Canadian army, has returned to his pre-war occupation with the Canadian Department of Agriculture.

Lieut. Fred Ordway, '19, ate New Year's dinner with Lieut. W. D. Reed, '20. "Freddie" paid for the dinner as a settlement for an old bet made during the cross country season of 1916.

The "New Hampshire" has just received the information that Lieut. Chester Buck Blodgett, 2-yr. '13, was married on July 23, 1918, to Miss Olive Marion at Montgomery, Ala.

Ralph Brackett, '18, paid a week-end visit to Durham. He has been transferred from the service at Camp Upton to a governmental position in the Department of Justice at Washington, D. C.

Edith Hodgdon, '20, and Sidnie McIntyre, '20, have been training at the Deaconess Hospital, Boston. As a part of their work there, they are at present taking the Special Nurse's Course at Simmons College.

Lieut. W. D. Reed, '20, writes from France that he expects to stay "over there" for some time. He is with the army of occupation and is doing ferry work. He says that aviation is just like gambling, "the more you see of it, the more you like it."

G. D. Melville, '20, writes from Camp Jackson, S. C., that he expects to get his release from service immediately. He plans to return to college if his plans work out. "Mel." has seen much service in the field artillery and is ready to come back to civil life.

PORTSMOUTH CLUB ELECTS OFFICERS FOR YEAR.

The Portsmouth Club held its first meeting in "T" Hall on Thursday evening, January 24, at 8.00 o'clock. There were 25 men present who elected the following officers for the year: J. J. Shillaber, '19, president; T. R. Butler, '21, vice president; T. J. Craig, '21, secretary; and J. M. Cotton, '21, treasurer. A few minor matters of business were attended to, and plans made for a dance to be given by the club at some future date.

LT. CYRIL HUNT, '19, DIES IN SERVICE

Killed in Airplane Accident at Carlstrom Field, Arcadia, Florida, Last Monday—Details of Accident Are Lacking

Word reached the members, of the Lambda Chi Alpha fraternity, early this week of the death of Lieut. Cyril T. Hunt, '19, at Carlstrom Field, Ar-

LIEUT. CYRIL HUNT, '19.

cadia, Florida. Details regarding how he met his death are lacking at present, but the paper reported the death due to an airplane accident.

Cyril T. Hunt, better known to all as "Cy" Hunt, came to New Hampshire College in the fall of 1915 from Kimball Union Academy. Before coming here he was a member of the Kimball Union Academy baseball team for two years.

From the time of his entrance here "Cy" Hunt was always an active student. He was a member of the Rope Pull of his class for two years, was a member of the class football team for two years and the class baseball team for one year. He was a member of the Lambda Chi Alpha fraternity and Alpha Chi Sigma (Chemical) fraternity. He left here early in 1918 to take up aviation and in the spring of 1918 he was awarded a commission as second lieutenant in the aviation service. Recently he has been stationed at Carlstrom field, Florida, as an instructor.

He had planned to stay in the aviation service even after the war and to apply for a commission in the aerial mail service. His work while in the aviation service was of a high degree.

His brother, R. H. Hunt, '21, who was here left Tuesday to attend the funeral, which was to be held at his home in Cornish Flat, N. H.

Lieut. Cless Richardson, '19, a fraternity brother of Hunt's accompanied the body home.

Lieut. Hunt's death is the sixth in the Lambda Chi Alpha fraternity. His death is keenly felt by the aforesaid fraternity and the following resolutions have been drawn up:

January 28, 1919.

Whereas, It has pleased God in his infinite wisdom to remove from our earthly sight, our beloved brother, Cyril Thomas Hunt, be it,

Resolved, That we, of the Alpha Xi Zeta of Lambda Chi Alpha fraternity, to express our deepest regret at the loss of our esteemed brother, do hereby extend our sincere and heartfelt sympathy to his family in this their day of sorrow, also, be it further

Resolved, That a copy of these resolutions be sent to his family; a copy be printed in the "New Hampshire" and a copy be written upon the permanent records of the fraternity.

F. W. Prescott,

C. J. O'Leary, Jr.,

B. R. Callender,

For the Fraternity.

Miss Sue Scott, '18, was in Durham over the week-end. "Sue" is teaching in the fifth and sixth grades at the Hampton grammar school.

Among those attending the county workers' conference in Durham this week are A. G. Davis, '15; F. D. Ellsworth, '16; L. B. Robinson, '16; F. W. Hall, '18; L. A. Carlisle, '08; R. J. Bugbee, 16 and C. B. Wadleigh, '18.

STATE SUPERINTENDENT OF PUBLIC INSTRUCTION HERE.

G. M. Witcher, Deputy State Superintendent of Public Instruction, visited Durham this week to look over the work done here under the auspices of the Smith-Hughes Act. He also consulted with the Department of Education and other departments concerned, in regard to expanding the work here in the college for the training of teachers of vocational subjects.

During Alterations Our Store Is Open For Business As Usual.

Our Lower Entrance is closed but all departments may be reached by way of the Shoe Entrance.

Come in and see our line of Sheep and Leather Lined Coats.

The Church in Durham

REV. VAUGHAN DABNEY, PASTOR.

SERMON SUBJECT: "CHILDREN OF THE FIRE."

"How far that little candle throws his beams!
So shines a good deed in a naughty world."

On Feb. 9 Mr. Dabney will speak on "The Idealism of Theodore Roosevelt."

MORNING WORSHIP, 10.45 CHURCH SCHOOL, 12M.

A CORDIAL WELCOME FOR ALL.

AGGIE CLUB HAS LIVELY DEBATES

Interesting Program Put on—Next Meeting to be Held With Engineering Club at Latter's Invitation

A large number of Aggie Club members were on hand Monday evening to enjoy the debate put on by Master of Program Cree. Debating promises to be a popular pastime at the Aggie Club this year.

"Bob" Nutter, '22, entertained the Club with several vocal selections accompanying himself with the ukelele. The members of the club are hoping that Master of Program Cree has something of this nature every evening.

President Shuttleworth announced that the club had been invited to an entertainment in the college gym by the Engineering Society. It was therefore decided that the next meeting be omitted and everyone turn out to see what the engineers can put on for a "good time."

DEBATE LIVELY

In the debate between the freshmen and sophomore teams, the freshmen combination won out. R. N. Burgess, H. G. French and B. M. Davis represented the sophomores and had the affirmative, while H. V. Ingham, N. J. Rice and G. B. Olsson were the team that won out for the freshmen. The question debated was: Resolved, That the use of milking machines is better than hand milking. Rice and Olsson were both stars in their ease of delivery.

For the other debate, C. C. Dustin, W. R. Hilliard, and O. A. Page made up the senior team; while P. I. Fitts, H. P. Felker and H. M. Ladd were their opponents from the junior class. The question debated was: Resolved, That the dual-purpose breed of cattle is better than dairy cattle for New Hampshire conditions. The negative side won by the unanimous vote of the judges. The juniors were able to put up some good arguments, but the decision was given to the senior team.

MAY ORGANIZE STATE ACADEMY OF SCIENCE.

Several members of the faculty, interested in scientific study, held a meeting on Monday, January 27. This meeting was a preliminary discussion on the question of forming a State Academy of Science, such as is in practice in many states at the present time.

A similar meeting has been held at Dartmouth. A committee consisting of Prof. W. C. O'Kane, Prof. Charles James, and Dr. H. L. Howes was elected at the meeting to further consider the matter and to confer with the Dartmouth committee. Prof. O'Kane left for Hanover today to become acquainted with the plans already made by the Dartmouth College.

INDOOR RELAY SEASON HAS ITS BEGINNING.

The indoor relay season has at last started at New Hampshire. About twenty men are reporting daily to Coach Cleveland and are being trained as rapidly as possible. Corners have been put in on the upper floor of Co. "B" barracks. This place will make an ideal indoor track for temporary training, but it will not be large enough to allow of much speed work.

The relay team is scheduled to meet Massachusetts Agricultural College on February 15 and Rhode Island State, March 1.

The team has been late in starting owing to prevailing conditions, but it is hoped now that affairs will be better adjusted. In all probability in the final tests the men will be taken to Exeter, to be timed.

FRESHMEN WIN FROM HAVERHILL, 26-16.

The freshman basket ball team played its first game of the season against Haverhill High last Friday night. The final score was 26 to 16 in their favor. It was a fast contest, with some fine playing on each side. In the first half the score was fairly even, but in the last period, the freshmen established a wide margin. Harris and Lawrence were the stars for the winners, while Marcotte excelled for Haverhill.

The game was well attended and was fairly clean throughout with the

team showing promise of developing into a fast five.

Summary:
New Hampshire Lawrence, r. w.
Western, l. f.
Harris, c.
Nutter, r. g.
Smith, l. g.
New Hampshire Freshmen, 26; Haverhill High 16. Goals from floor: Harris, 5; Marcotte, 5; Lawrence, 4; Western, Smith, Dufour, Legacy. Goals from fouls: Harris, 4; Marcotte, 3. Referee, Watson. Scorer, Pater-son. Timer, Blake. Time, 2 twenty-minute periods.

Haverhill High r. g., Legacy Holt
l. g., Dufour c., Marcotte Gaquin
l. f., Brasseur Kempton
r. f., Horsch

FORMER DURHAM RESIDENT WINS SINGING LAURELS.

Miss Helen P. Thompson, daughter of Col. Lucian Thompson of Denver, Col., who formerly lived at the Davis farm in Durham, was the soloist at a concert given at the Brown Palace Hotel in Denver, Friday evening, January 17. She also sang soprano in a quartet. Press comments on the concert praise very highly Miss Thompson's singing.

For two years, Miss Thompson took vocal lessons in New York. She is a member of the Denver Operatic Society, and of the Tuesday Club of that city.

Miss Thompson is well known in Durham, and will be remembered by many alumni and former students of New Hampshire College. Her friends learn of her success with great pleasure.

DEAN GROVES MARRIES MISS GLADYS HOAGLAND.

Dean E. R. Groves and Miss Gladys Hoagland, class of 1918, were married at Concord Junction, Mass., on Saturday, January 25. Miss Hoagland, since her graduation in June, has been studying sociology at the graduate school of the University of Minnesota, and has been a resident member of the staff of the Pillsbury Settlement House at Minneapolis.

SUPERVISOR OF R. O. T. C. SONG FESTS MAY VISIT HERE.

P. W. Dykema, supervisor of singing in R. O. T. C. units has written Professor Richard Whoriskey to the effect that the War Department Commission on Training Camp Activities will continue work similar to that which is carried on in the S. A. T. C. units. This means that the New Hampshire College R. O. T. C. unit must also be a singing unit. Mr. Dykema expects to visit here soon or send a representative.

GIRLS TO HOLD FORMAL AFTERNOON TEA PARTIES.

At a meeting of all the college women, called by Mrs. DeMeritt, on Friday noon, January 24, it was decided that afternoon teas will be given every two weeks by the women students. This is a function which is practical in all of the larger colleges, and its purpose is to accustom the students in general to formal social activities and to give an opportunity for the better acquaintance among the men and women.

The girls who entertain will be chosen in alphabetical order, one from each class for each tea, and each of these may choose an assistant from her class. Faculty members, men students and senior girls are to be the guests, each girl being allowed the privilege of inviting three. The first of these teas was given yesterday afternoon, January 31, at Ballard Hall.

ENGINEERS WILL HOLD ANNUAL LADIES' NIGHT.

The second meeting of the Engineering Society, which will also be observed as Ladies' Night, will be held Monday evening, February 3, in the college gymnasium. Each member is asked, though not required, to bring a friend. The entertainment will consist of moving pictures, showing the development of modern electric locomotives, and also the use of electricity in a modern up-to-date home and factory. This last film has a unique plot aside from its educational value. The meeting is sure to prove one of the best of the year, and all members are urged to attend.

ENTIRE LEGISLATURE TO VISIT DURHAM

Plans Now Being Made for Their Reception on February 14

The entire New Hampshire Legislature will visit New Hampshire College on Friday, February 14. In addition to this inspection trip, Committees of the Legislature, particularly the House Committees on New Hampshire College and on Appropriations and the Senate Committees on Agriculture and on Appropriations, will come to the college on February 7 for a more careful and detailed inspection of the work of the college, and of the college plant.

This unprecedented arrangement for the visit of the entire Legislature followed President Hetzel's talk before that body last week. A resolution was introduced in the House and properly passed both the House and the Senate and received the enthusiastic endorsement of Governor Bartlett.

President Hetzel returned Wednesday night from Concord, and is now arranging the details for the reception of the state representatives upon the occasion of their visits. Both faculty and students will be asked to give assistance in making the visit of the legislators both profitable and pleasant. Detailed plans will be announced in the very near future.

FINE ADDRESS

AT CONVOCATION.

(Continued from Page One.)

Sabbath was made for man and made to be rightly used—not man made for the Sabbath. Every life in the world is an end in itself. Factories must be run to raise men, rather than money. The only reason for their operation is the development of manhood and womanhood.

GOLDEN RULE

"In practicing the Golden Rule, putting ourselves in the other fellow's place is democracy which we may never attain through organization, apart from the spirit of democracy, which is believing in the other fellow. Christianity should appear in everyone's everyday relationships in the home. If you are dodging every hard problem in college, you have not caught the spirit of christianity. If the spirit of the Golden Rule has not been instilled in our college life, we have not received the christianity that Christ taught and lived. Who is to instill this christianity into the minds of human individuals, if we college students do not do our share?"

WOMEN'S LEAGUE HOLDS MEETING AT MRS. HETZEL'S.

The faculty women of the Women's League held a meeting at the home of Mrs. R. D. Hetzel on Wednesday afternoon. It was decided that since the plans of the league for the year have been changed, owing to the withdrawal of Red Cross work, the books will need revision.

Louise Richmond, '19, was present as a representative of the commuting girls. She gave a report of conditions at the rest room at Thompson Hall, and brought suggestions and estimated expenses of any possible improvement. The league has voted that an emergency room will be fitted out, for the use of the girls, in the small room adjoining the rest room. It was also voted that a dictionary and stand will be bought.

A committee for the maintenance of the rest room was formed consisting of two faculty women and one commuting girl. This committee will be Mrs. O. R. Butler, Miss Helen Bartlett and Miss Louise Richmond, '19.

Edward J. Norman, Jr., 2-yr. '16, has been discharged from the army and has taken a position as superintendent of Mr. Fred Crane's estate at Dalton, Mass., where he will be after March 1.
