MEMORIAL FIELD FUND GROWING

Committee Appointments

District Supervisors

Massachusetts—Carl Dimond, W. W. Smith, S. Roberts.

The freshmen were organized into two lines, the victory line and the beaten line. The freshmen resting place at the Gymnasium.

The college orchestra. Mr. 

In the sticky, slippery mud had tired 

It was decided to call the elect. 

The contest from the freshmen last year, winning 3-2.

The freshmen to break even with the sophomores in the first part of the contest. 

The Beer is won. 

The first question was the election of officers, and the form­ 

occupied the center of the room.

It was again the hero and the big man of the case in the Bates’ game, "Dutch" Carlin, who was again the hero of the game. 

"Dutch" Carlin, who was again the hero of the game. 

He has been playing for the College since the season at Saco, Maine, last Saturday. 

The freshmen with Mahoney and Cole in front of the line, turned the field after O’Hare netted ten points for the team.

The Concordian, r. t.

"Dutch" Carlin, who was again the hero of the game.

Barry Hardy presides at the first meeting of the freshmen class of Tuesday, October tenth. Miss Bugbee and Miss Hennessey presided over the executive committee's work. The meeting was held in the Gymnasium. Another meeting is scheduled for Thursday, October twelfth, to be held in the Class House. 

**Freshmen Announce Class Elections**

Barry Hardy presides at the freshman class meeting held in the Gymnasium. Another meeting is scheduled for Thursday, October twelfth, to be held in the Class House. 

**Business Department**

**Prof. H. W. Smith**

At the regular formality of the meeting the announcement was made that the executive committee had been elected, the club. After some little discussion with Professor Harry W. Smith as speaker of the evening, the meeting was then placed in the hands of Prof. Harry Smith of the Economics Department. Prof. Smith's talk embraced the tendencies of the farmer as to the man in Wall Street. Farmers are business men. Transportation facilities have slowly and surely made the end of Roosevelt's administration. The movement of replacing manual labor on the farm. How the tractor is increasingly economical and reliable in all sorts of weather. And back of this development in electric transportation, in generating and transmitting power. Where is the future? The future lies in a wonderfully co-ordinated scientific, engineering, and manufacturing resources of the General Electric Company.

Unpaid Subscriptions Expire October 30, 1920

Last year's unpaid subscriptions have been carried over to this year's account.

The fact that these problems must be solved in order to have the best modern system of fire protection and the use and theory of fire extinguishing apparatus is the subject of the annual lecture series in the various college buildings.

The general object of the majority of the fire stations in the United States is to prevent the spread of fire and to provide the best possible fire protection for the citizens of the town.

The Agricultural Club Banquet, held in conjunction with the annual history of the club, is this year to be held October 20, at the Commons building.

Able speakers to discuss modern agriculture will be present to tell how it might be used effectively.

From 8:45 to 9:45, Prof. Perley will address the students.

Talk on "E-Eye" Electronics and Physical Research—Makes Subject Interesting

Monday evening, October 11, Dr. W. H. B. Gilmore, President of the New Hampshire Eastern States Farmers' Exchange, will speak on "Recent Developments in Physics".

The special banquet will be served in the Commons, October 20th, at 6 o'clock.

The Agricultural Club Banquet, held in conjunction with the annual history of the club, is this year to be held October 20, at the Commons building. A great deal of work has been done in the past year to prepare this banquet.

FIRE FIGHTERS DETAILED AT PREVENTION DAY

The annual Fire Prevention Day was observed in the various college buildings.

President Hetzel has expressed his appreciation to the students for their assistance in the fire prevention work.

President Hetzel drew L. Felker, Commissioner of Agriculture, and for an "Aggie" student to listen.

"Here, young lady," she called, "is a very important part of the day as National Fire Prevention Day."

"But there's one thing about her which is unique in the Annals of the Chapel, the Mr. Fisher and others who were in attendance were surprised at the result.

Once a minute it's laughter, the next is silence. Finally she rapped on the table and said, "I have heard you all so far."

The general store, Durham, N. H.

The first subject discussed was the use of light waves, as discussed by Prof. Perley.

"Does your garden win any prizes this year?"

---Philip Oregon State, '22.

An old lady after waiting in a considerable time for a cab, was told by the cabman that there was no cab to be had.

She said, "You may wait on the nuts,"—Everywhere.

The subject of physics appeared as the second part of the program. A paper was read by Prof. Babcock on the subject of the arrangement of the atom.

The subject of physics appeared as the second part of the program. A paper was read by Prof. Babcock on the subject of the arrangement of the atom. A great deal of work has been done in this field but the subject will now be considered.
