ENTERTAINMENT AND DANCE TUESDAY NIGHT

At two enthusiastic meetings held during the week which were attended by students, faculty members, and members of the various campus interests and organizations of the college, the fifth annual New Hampshire Day will be held this year on April 27.

Prof. Richard Whoriskey BUSS CHAIRMAN

The plans formulated by Professor Whoriskey, chairman of the New Hampshire Day committee, and his committee of nine are the result of widespread consultation. With the aid of F. L. F. Anderson, '23, the head, and others who have been a part of the committee, the students will have many things which will be new this year.

The day’s activities are open to all. An all-out parade, which will start at the time necessary for the opening of the project, will take place. The planning committee has given much thought to the parade, and will see that it will be the best ever. The parade will begin at the gym and end at the gym, and will include such unique features as the Home Economics department.

The parade will be followed by a number of other activities that will keep the students busy throughout the day. The new baseball field will be turned over to the engineers for final finishing, and the new house will be ready for occupancy the same day.

The total cost of the day’s activities will not exceed $25,000. A great deal of planning and thought has been given to the projects, and they will all be new and different from the projects of previous years.
