FIFTH ANNUAL NEW HAMPSHIRE DAY SURPASSES ALL ITS PREDECESSORS

Material Improvements Are Made About Campus

As New Important Projects Are Completed

ALL-CAMPUS RALLY YIELDS SUCCESSFUL FINISH

Development of National Amphitheatre Is Notable Project—When Complete, May Serve As Outdoor Auditorium For All New Hampshire College Students

The fifth annual New Hampshire Day celebration, which was a greater success than any of its predecessors, was held on May 3, 1920, when the students of the University of New Hampshire were presented with a new amphitheatre. The opening ceremonies were held in the evening at nine o'clock in the new building, which was made possible by the generous donation of Mr. and Mrs. Henry F. N. Downes, who gave $5,000 toward its construction.

The ceremony was opened with a prayer by Rev. T. R. Holland, pastor of the First Unitarian Church, who then introduced Mr. N. H. Downes, who gave a brief address on the occasion. The program consisted of aAddresses, a dramatic presentation of "The Man Who Made the Day," and a musical numbers by the chorus of the glee club, which was conducted by Mr. H. F. N. Downes. The program was followed by a dance in the new building.

The keynote to the day was the dedication of the new building, which was designed to meet the needs of the students for a suitable place for outdoor events. The building is situated on the west side of the campus, and is located on the corner of the main street and the new road.

The building is of modern design, and is equipped with all the latest improvements. It is the largest of its kind in the state, and is the only one of its kind in the country.

The college has been in existence for over one hundred years, and has been a leader in the education of young men and women. The college is now one of the largest in the state, and has a enrollment of over six thousand students.

The new building is a fine addition to the campus, and is a fitting tribute to the students of the university.

The closing exercises at the flagpole were held in the evening, and were attended by a large crowd. The exercises were conducted by Mr. E. A. F. Anderson, who was the president of the senior class. The exercises were opened with a prayer by Mr. J. B. Brown, pastor of the First Congregational Church, who then introduced Mr. E. A. F. Anderson, who made a brief address on the occasion. The exercises were followed by a presentation of the glee club, which was conducted by Mr. H. F. N. Downes.

The exercises were concluded with a prayer by Mr. T. R. Holland, pastor of the First Unitarian Church, who then introduced Mr. E. A. F. Anderson, who made a brief address on the occasion. The exercises were followed by a presentation of the glee club, which was conducted by Mr. H. F. N. Downes.

tertain Social Education

The recent conference for agricultural students at Schenectady, N. Y., was under the direction of the American Association of Agricultural College and High School Teachers. It included the usual discussion of methods of instruction and the use of modern educational appliances. The conference also featured a demonstration of the use of the De Laval Separator, which is gaining wide acceptance in the dairy industry. The Separator is an efficient separator, and it has a lifetime expectation of over 20 years.

COMPLIMENTS OF
NEW HAMPSHIRE DAY. (Continued from Page One.)

The New Hampshire Day had been planned to include the opening of the new commercial school building at the New Hampshire College. The building was to be dedicated at 10 o'clock, and the guests were expected to commence their tour of inspection of the school at once. The entire program was to be concluded by 3:30 o'clock, when a banquet was to be held at the New Hampshire Hotel.

(3rd at the new baseball field which was built a year ago on the site of the old city park, could be used for playing. A baseball field was laid out on the site, and the bleachers were erected in front of the bleachers, and the infield was laid out and sodded. The diamond is now ready for use, and the entire field has been turned over to the engineers who will begin work on the second strata of the upper strata of the field as soon as the weather will permit. A batting cage was also made for the "gang" that comes to the college to practice their batting.
