Content Between Theta Psi and Alpha Tau Omega Expected To Decide Interfraternity League Near's End Of Season

Lambdin Alpha Chi, Phi Mu Alpha, and Sigma Nu are the only teams that have clinched their place in the second third position. The only way the winning team can possibly be determined is through the game between Theta Psi and Alpha Tau Omega. The first third position teams are Alpha Phi and Alpha Sigma Alpha, while the second third position teams are Lambdin Alpha Chi, Phi Mu Alpha, and Sigma Nu. These two teams are almost certain to clinch their place in the upper bracket. The last two teams in the competition are expected to have a hard fight for places. There may be some slight possibility that the last place team may be clinched, but it is almost certain that the Alpha Phi and Alpha Sigma Alpha teams will clinch their third place position. The Alpha Tau Omega and Alpha Psi teams are expected to have a very hard fight for their third place position. The Alpha Tau Omega team has a much better chance of clinching their third place position than the Alpha Psi team. TO BE IDLE is not hard. The common of the three varieties in college life is, the problem of assimilation or adapting to the social environment. The student must display an easy tolerance, not caused by the "American element in our country or the foreign element in our country is to be feared."

The student should learn to understand and appreciate the values of different cultures and backgrounds. This will allow the student to thrive in the multicultural environment of college life.

The Rev. W. H. Smith of Millersville, Md., who attended Roosevelt's Talks to Reporters 1000 Times, Made a Fascinating Talk Today

Mr. Smith started his lecture by reporting that for 4½ years he had been going to Roosevelt as a reporter for the “New York World.” He told about Roosevelt's lectures in New York, how he got into Roosevelt's confidence and what Roosevelt meant to America.

Mr. Roosevelt was never able to forget the fact that he was the son of a poor New York grocer, and Mr. Smith made that the keynote of his talk. He tried to show how much affection Roosevelt had for the poor and how much he tried to help them.

The great American was always afraid to be misunderstood by some people, and he would always be very careful about what he said, and the vital nature of his life, and what he meant was all that was meant. His speeches were the same, and all meant to make misunderstanding.
