

Miss Charlotte Thompson

SPECIAL CONVOCATION EXERCISES FOR STATE SENATE LAST FRIDAY

President R. D. Hetzel Shows "Exhibit A" of College to Interested Members of Upper House from Concord

SENATOR BROWN PREDICTS LIBERAL APPROPRIATION

President Adams Speaks of Pride in This College—Senator Tripp Tells of Laying of Corner Stone of "T" Hall—Ex-Senator James A. Tufts Explains Methods Used by Trustees in Asking for Appropriations—New Hampshire Cheers Given for Speakers

A special convocation was held last Friday morning for the benefit of the State Senate which visited the college on that day. President Ralph D. Hetzel, in his introductory speech explained to the Senators that the "two gentlemen in white who preceded the flags" had just recently been taken into the honorary agricultural fraternity and were being humiliated in this manner lest they feel too exalted by being admitted into such a society. The President allowed the orchestra to introduce itself to the Senate and then explained that this orchestra is composed entirely of students and that even the leader is a student. He also told the Senators that besides the orchestra the college has two glee clubs, a band and dramatic society. He said that the purpose of this convocation was that we might get better acquainted with the Honorable Senators and their ladies, and that they might get better acquainted with us. He said that the Senators had had a bird's eye view of the college and that now he was showing to them "Exhibit A." In speaking of the coming of the Senate on this particular day he compared the enthusiasm which they showed to true college spirit and said that they showed what the students would call real "college spirit" because the night before they had attended the Governor's Ball in Concord and consequently had to get up early in the morning to get the train to Durham. He then called on the President of the Senate, the Honorable Wesley Adams.

President Adams Speaks

President Adams told of the great pleasure it gave him to look over "Exhibit A" for he realized that the elements of this exhibit would be the workers in New Hampshire in the future. "I have heard the statement made," said he, "that this is no longer an agricultural college and I am glad that there are at least two real farmers here. Young men, you should not feel humiliated by appearing as you have for it is a great honor to be a farmer."

"Your President has told us of the needs and the hardships that you are undergoing in order to obtain an education. But the thing that has made the greatest impression on me is the fact that your class rooms are so scarce that you have to be taken into an attic that hasn't even a window in it. I learned later that it is lighted by electricity but I sincerely hope that the Senate will be liberal enough in its appropriation to at least allow dorm windows to be put in, so that you can have light and air."

"I am very proud of this college for agriculture is the greatest of all lines of work. And, although you are not all taking the agricultural courses, surely being so close to them you cannot help but imbibe some of the great spirit of agriculture."

"We hear a lot of talk about the advisability of using this text book or that text book and yet there is one book that should be included in all our courses, and in our life work. That book is the greatest of all books, the Bible."

In closing, President Adams suggested that we do our best for our town, for our county, and for our State, and prove that New Hampshire is still producing the greatest men and women.

Sen. Burns Tremendously Impressed

Senator Burns of Haverhill gave a short address. He said that this was the first time that he had ever come to New Hampshire college and that he was tremendously impressed with the institution. He urged us to try to fully appreciate the wonderful opportunities which were presented here to us and not to waste our time but to make the best of these opportunities.

Sen. Tripp Pledges Support

Senator Walter A. Tripp of Epsom was the next speaker. He explained that the reason that he was called upon to speak was that earlier in the morning he had been called up on President Hetzel's carpet, and this was the result of that interview. He said that in going over the buildings that morning he had noted an inscription on one of the doors that read, "Comic Economics," and that he was glad to see that there was an interest in at least one kind of economics. He told of the great interest that he had always had for this college and said that he had been present at the laying of the corner stone for Thompson Hall. In closing his speech he made this statement, "I wish to leave with you this one thought, that I pledge the best support that I can give to this college."

Senator James Elder of Dover, one of the members of the Senate financial committee, told a story about a work horse hitched to a sulky and a long-limbed race horse hitched to a heavily loaded wagon. Both horses were being belabored by their drivers because they were not doing the work that the drivers wanted them to do, not because they were not trying to do it but because they were unfitted for their tasks. Using this story as an example of what happens when we do not do the thing that we are adapted to do, he urged that we find what we are fitted for and then stick to it. Having found this thing, the next move would be to "stick our claws in and dig" for the bottom of the ladder is crowded, but there is plenty of room at the top.

Explains Courses

Before introducing the next speaker, President Hetzel said that the object of the courses given here was to fit the students along those lines for which they were fitted. He told the Senators that some of the students were training to become teachers, others were training for business and still others were training for the homes.

Senator Ora A. Brown, likewise a member of the Senate finance committee, was the next speaker. He admitted that this was the first time that he had come to New Hampshire college and said that, although he was deeply impressed with the college equipment and buildings he was more impressed as he looked over the students.

MICHELSON IN MID-AIR

SECOND ANNUAL WINTER CARNIVAL TO OCCUR AT BEECH HILL FEB. 17

Cross Country Ski Race Big Feature of Snow Time Festival Which Also Includes Jumping and Hockey

DOVER FIRM OFFERS VALUABLE PRIZE TO WINNER

Under Leadership of Professor George A. Perley Enthusiasts of Webbed Shoe Are Marshalling Forces for Saturday Afternoon—Valuable Trophies to Be Given—Ski-Jumping to Score by Accurate Method

From Professor George A. Perley comes important announcements regarding New Hampshire's Second Annual Winter Carnival, which is to be held next Saturday. The big event of the day is to be a six-mile cross-country ski race from Dover to Durham. The prize for this race is a silver loving cup, donated by the Lothrop-Farnham Company of Dover whose desire it is to stimulate interest in winter sports at the college. The cup is to be the property of the college and to be competed for annually, the name of the winner being engraved upon it each year.

VIEW FROM SKI JUMP AT BEECH HILL Thompson Hall on Horizon

The contestants in the six-mile race will leave Durham on the "thirty-three" for Dover, where the race will start at the "Upper Square." The first runner will start at eleven o'clock, the others will follow at two minute intervals. The judges and timers will return to Durham on the "eleven-forty-six" in time to catch the winners. The race-course is to follow the main highway and the contestants will finish between Thompson Hall and the Practice House, between eleven-forty-five and twelve-fifteen. A large crowd is expected at the finish line, but it is to be remembered that the order in which the men finish may not denote the winners, who will be announced by the timers.

A pair of high grade skis are to be awarded the contestant scoring the greatest number of points in both the ski and snowshoe events, with the exception of the relay, barrel and three-legged races. Gold, blue and white ribbons will be given to the winners of first, second and third places, which will count five, three and one points, respectively. Michelson to Compete Michelson, who has declined invitations to the Brattleboro and Montreal carnivals that he might enter the New Hampshire carnival, is expected to give an exhibition of prize-winning ski jumping.

The other events of the carnival, published in the last issue of the New Hampshire, will be held at Beech Hill, beginning promptly at one-thirty. "Dad" Hayes has promised absolutely to have the ice on the reservoir in good condition, and skating may be enjoyed all day Saturday. The day's program will finish with a hockey game between two teams organized on the campus. This match, it is considered, will be well worth seeing as it is said that there are some fast hockey players walking about the campus every day.

The committee responsible for the carnival is very desirous of a big attendance and promises keen competition and special stunts for the amusement of the spectators.

Score Card for Jumps

The committee wishes to announce that the ski jumping contest will be judged by the method used at Dartmouth and other incollegiate meets which is as follows:

Distance

Longest jump scores 20 points. Subtract 1 point per foot for shorter jumps.

Style

Perfect jump scores 20 points. Subtract 1 to 2 points for errors up to take-off; 2 points for taking off too early; 20 points for falling before take-off.

Subtract 1 to 7 points for poor form in air; 1 to 4 points if landing and run are not steady. Subtract 10 points for a fall on landing; 6 points for a fall after landing; 4 points for a fall at foot of hill.

Touching 1 or both hands is considered a fall. Judges note Distance jumped, and points off for each jump.

Add points for Distance and Style and divide by 2, to get score for each jump.

Add points for each jump and divide by number of jumps to get score for contest by one judge.

Add scores of each man and divide by number of judges to get record score.

Man with highest score wins event; his longest jump is the record.

DELTA KAPPA DANCE AT THOMPSON HALL

Fraternity Banners, Evergreens and Shaded Lights Predominate—Campus Deans Furnish Music

The Delta Kappa Sorority dance occurred Saturday evening, February 3, in the girls' gymnasium at Thompson hall. The decorations included the society colors, purple and silver, banners, evergreen and shaded lights. The Campus Deans furnished excellent music.

In the receiving line were: Dr. and Mrs. H. L. Slobin, Dr. and Mrs. O. R. Butler, Ruth Lyford, '24, and Dixie Hoyt, '24.

The guests included Charles Platt, '25; Irving Doolittle, '23; Mark Neville, '23; Henry Cutler, '24; Frederick Gray, '23; William Marnock, '25; George Summerville, '25; Robert Littlefield, '25; Melvin Bryant, '25; Maynard Wallace, '25; Stanley King, '26; Charles Gray, '26; Oscar Aichel, '26; Leon Spencer, '26; Albert Pillsbury, '26; Edward Gale, '26; Lyle Bell, '26; Howard Hodgman, '26; Walter Harvey, '26, and Ralph Piper of Manchester, N. H.

One of the freshmen taking Apiculture wants to cross bees with lightning bugs so the bees can work at night.

NOTICE

Anyone desiring copies of the 1923 Granite may get them before March 29 from any member of the board upon payment of \$4.50. AFTER THAT DATE those copies which are unsold are to be given to various high schools in the state and none may be bought. THERE WILL BE NO REDUCTION IN PRICE.

PLANS FOR SECOND NEW HAMPSHIRE COLLEGE SUMMER SCHOOL UNDER WAY

Committee in Charge Made Up of Director H. L. Slobin, Dr. J. W. Twente, Dean A. N. French, O. V. Henderson

TOTAL ENROLLMENT IN SCHOOL LAST SUMMER 108

Purpose Is Primarily for Benefit and Advance of Teachers—Gives Opportunity for Normal School Graduates to Earn College Degree and for Graduates and Undergraduates to Take Extra Courses of Study—Expenses Small

The second New Hampshire State College Summer School will be held June 25 to August 7, this year. The committee appointed by the Board of Trustees of the college to be in charge of the Summer School consists of Director Dr. H. L. Slobin, Dr. J. W. Twente, Dean A. N. French of the Arts and Science Department of the college, and Mr. O. V. Henderson. The purpose of the Summer School as stated in the bulletin for the school last year is "primarily for the benefit and advance of teachers. It furnishes the best means, by which the State College, the highest stage of the state educational system, can be brought into direct and usual connection with the lower and secondary schools of the State. The courses of the Summer School are designed to meet the needs of teachers, superintendents, and supervisors of secondary and lower schools, in method and content."

The second point brought out in connection with the purposes of the Summer School is that "Normal school graduates desiring to complete the college curriculum leading to a degree, and graduates of approved colleges desiring to earn the degree of Master of Arts or Master of Science, may do so through work done exclusively during the summer sessions."

The third purpose of the Summer School is to give students from New Hampshire college and from other colleges the opportunity to utilize the vacation period for the purpose of anticipating future courses or supplying deficiencies.

The fourth purpose is to allow "candidates for admission to college or the professional divisions to obtain advance standing or to complete some special requirements for admission."

The privileges of the Teachers' Registration Bureau which is conducted by the college for teachers and for students who are planning to become teachers are extended to students in the Summer School and should prove a valuable aid to teachers who are desirous of obtaining a better position.

Graduate in Three Years

Another advantage of the Summer School is that in many of the courses in college a person, with the proper arrangement of his studies, could graduate from the college in three years by attending college during the regular college year and during the Summer School sessions. In the fourth year the person who followed out this plan could take up graduate work and receive a Master's Degree at the end of the college year. Four Summer School sessions will meet the residence requirements in work for the Master's degree.

Dr. E. W. Butterfield, State Commissioner of Education, expressed in the following words the need of a summer school:

"I believe the state would profit from summer sessions at New Hampshire college. In addition to college graduates who desire to devote a part of their time to study and who may wish advanced credits, we have many young women graduates of our normal schools, who would be pleased to find an opportunity within the state to do summer work at a college, if this work could be planned and college credit given therefor. The normal schools, of course, do not give degrees and many graduates covet these insignia of education. The college has a field which is distinct and supplements the work which we are now doing (in our summer schools at Plymouth and Keene). My idea is that the New Hampshire superintendents might be granted the Master's degree if they satisfactorily complete such work as the college may set up in summer sessions."

Provisions have been made so that all courses for which there is a sufficient demand will be taught during the Summer School. These will include courses in: education, psychology and teachers' courses, and also in economics, history, home economics, modern languages, sociology, zoology, mathematics, physics, chemistry, vocational courses, English, including the regularly required college English and also oral English (debating, public speaking, etc.), and certain agricultural and engineering courses.

The teaching force will not be limited to the resident teachers directly connected with the college, but will include well-known specialists from other colleges and universities. Who

these men are will be announced later.

The recreation and social life of the summer session will receive special attention under the direction of a committee of the faculty and specialists in this work.

The registration charge for New Hampshire residents entering the Summer School will be the same as it was last year, \$5.00. For residents of other states, it will be \$15. The tuition charge will be \$2.00 per term credit hour. Each subject to be counted as a term credit hour must be carried six hours a week. Rooms will cost \$2.50 a week and board can be secured at the Commons for \$6.00 per weekly meal ticket.

Survey of First School

The first regular Summer School, held last summer, was very successful. In spite of the handicap of a late start in the plans for the school, the enrollment exceeded all expectations. There was a total enrollment of 108 students; 46 of these were teachers and superintendents, the others were college students who desired to continue their work during the summer months. The enrollment included students and graduates of New Hampshire College, the Plymouth and Keene Normal Schools, Dartmouth College, the University of Vermont, University of Maine, Bates College, Colgate University, Boston University, Princeton University, Tufts College, Wellesley College, Hunter College, Smith College, Rhode Island State College, the University of New York and Columbia University.

The Summer School catalogue will be out early in March. In the meantime, for any further information or for conferences relative to the Summer School, write to the Director of the Summer School, Dr. H. L. Slobin.

In order that the requisite courses for college credit shall be offered, students are urged to immediately consider the matter of attending Summer School and report their needs to Dr. Slobin as soon as possible.

THE WINTER CARNIVAL

During this, the week of New Hampshire College's second annual Winter Carnival, it is at once a duty and a pleasure to call the attention of the student body to this event and to urge their whole hearted support of the Outing Club and the Carnival Committee.

Last year, due to the efforts of the Forestry Club, a very inclusive program of winter sports was arranged, and a late winter afternoon was spent to good advantage in participation in the various games and races or in watching of others take part if one had no inclination to risk getting well covered with snow. In short it was an afternoon which will not be soon forgotten.

Like the big balls of damp, sticky snow which we have all made by rolling a handful of the stuff along the ground, and letting it accumulate more and more as it went, so is the big day of winter sports planned for this Saturday by a committee from our own Outing Club, the impressive result of a little idea which the Forestry Club started rolling. More power to our Foresters.

Great credit is due Professor Perley and his contemporaries for their untiring efforts with this proposition. They have spent hours of hard work in securing the money to pay for the building of a suitable ski jump from which our own intercollegiate champion and his associates may disport themselves, and beyond that they spent hours further in hard physical labor seeing that the various parts of the job were done properly. The committee has left not a thing undone to make our second carnival entirely delightful.

There is now but one factor left which will spell the difference between a huge success and a flat failure for this event. And this is something which is in no way a part of the responsibility of the committee on winter sports. It rests with the student body and with it alone. This factor is SUPPORT, spelled with capital letters the whole way through. Get out and take part in these events, stroll out to Beech Hill and cheer the contestants, do anything which will secure your presence there one thousand strong, and the success of this carnival, the holding of future carnivals and the active participation of New Hampshire College in intercollegiate winter sports in the years to come will not merely be possible, it will be inevitable.

MEMBERS OF FACULTY ACT AS JUDGES AT DEBATE

Professor and Mrs. Donald C. Babcock and Mrs. Herbert Jackson went to Kingston, N. H., Friday night, February 9, to assist in judging a debate between Sanborn Seminary and Berwick Academy. The question debated was, "Resolved That the 48-hour law of Massachusetts should be adopted in New Hampshire." Sanborn Seminary, affirmative, won the debate by a vote of 3-1.

HUGE CIRCUS DELIGHTS GIRLS

Annual Party for Co-eds Shows Dearth of Males CELEBRITIES PRESENT

All Famous Characters of Sawdust Arena Perform Stunts to Amusement of Feminine Element of College

The "Circus" has come and gone and every one enjoyed it—except the men. There was every circus character from the wild man of Borneo to the Siamese twins, and all kinds of animals, too. And oh, yes, there were clowns who did all sorts of funny things to keep the audience good-natured. The side shows included "Oo-la-Oo-la" girls, a wild man, a tall man, the Siamese twins and a fortune teller, who gave many girls a glimpse into the future.

After everyone had visited the side shows, a short entertainment was given. This included the Marine Band under the direction of Alice Dudley, '24; Mrs. Jarley's Wax Works by members of the College Folk Club; an exhibition of strength by Dorothy Brooks, '26; a movie "The Same Old Story" in which Gladys Harris, '26, was the heroine, Alice Dudley, '24, a farm hand in love with the heroine, Frances Pease, '23, and Grace Flanders, '23, the heroine's mother and father, and Grace Cunningham, '26, a traveling salesman; stunts on the horse by the clowns; a tight rope walker, Irma Dunn, '24; tricks by a trained elephant; a chorus consisting of Elvira Dillon, '24, Elizabeth Baker, '24, Pauline Putman, '25, Virginia Boyd, '26, Dorothy Clarkson, '26, Constance Arnold, '26, Ruth MacIntosh, '26, Marion Nims, '26, Bernice Bennett, '26, Anne Flanigan, '26; assisted by Ida Neil, '25, Grace Flanders, '23, and Pauline Johnson, '26 pleased the audience with their songs and dances. Then came a most exciting chariot race between Helen Hamer, '25, and Harriet Brady, '26, Miss Hamer's chariot finally winning. The last feature was a farce written by Miss Harriet Henderson. In the cast were: Mrs. A. N. French, Mrs. Helen MacLaughlin, Mrs. J. M. Fuller, Mrs. A. E. Richards, Miss Ruth E. Henderson and Miss Florence Basch, '23.

And then came the eats, regular circus eats, popcorn, peanuts, ice cream cones and pink lemonade.

All those present owe their good time to the efforts of the College Folk Club and Mrs. Allen D. Wassall.

SENIOR STUNT PLANS COMPLETE

Six Best Acts Chosen by Committee Last Thursday KEEN RIVALRY FOR CUPS

Vaudeville Followed by Dancing in Big Gym—At 7.30 Friday, February 16—Fifty Cents Admission Charged

All plans for the Senior Stunt Night have been completed and everything points towards one of the most enjoyable events of the year. The six best acts were selected last Thursday night by a faculty committee consisting of Dr. Slobin, Mrs. Smith and Professor DePew. The acts chosen by this committee were those of Kappa Sigma, Chi Omega, Delta Pi Epsilon, Phi Mu, Sigma Alpha Epsilon and Tri Gamma.

The first act of the evening will be presented by the Tri Gamma Fraternity, and is entitled "An Oriental Fantasy." This presentation depicts the den of an Oriental chieftain, with his numerous wives, dancers and slaves. A heavy veil of mystery surrounds this act and the many mystical tricks keep the audience extremely interested at all times. A feature of the stunt is a solo dance by "Jerry" Geremonty, who is one of the chieftain's favorite wives. The cast includes R. Smith, '25; W. Langley, '24; L. Bannon, '24; W. Thurber, '26; F. Geremonty, '25, and C. Hayward, '25.

The Chi Omega girls will entertain in the next number of the show in "Around the Corner." This act is very humorous with Miss Basch, '23, and Miss Tuttle, '25, in the roles of two modern young men. Miss Hamer, '26, and Miss Nutting, '24, are the two modern young women, who manage to foil all efforts of their escorts.

"Look out for our Albert" is the name given by the Delta Pi Epsilon fraternity to their sketch. This is the funniest act that has been presented on this campus for a number of years. The scene is laid in the office of one of the best know faculty members who, the act would indicate, has a weakness for stenographers, but who manages to keep pace with the times through mysterious channels. "Demi" Allard, '24, who takes the part of the faculty member, is supported in the cast by "Doc" Caultstone, '24, "Mac" McDonald, '25, and others.

The Phi Mu girls are showing just how awkward some girls can be under certain conditions. The cast of this act includes the Misses Baker, '24; Boyd, '26; Arthur, '26; Fowle, '26; Burnham, '24; Avery, '24; Flanders, '23; Magwood, '26; Hunt, '24, and Libby, '24. This act is sure to please as it is unusual and its material seldom seen by the male members of the college.

There is one secret act on the bill. The reason that it is secret is that "Sneaker" Neville, '23, is director-in-chief and is also the leading lady. There is little known about this number and the public will have to wait for the mysterious ones to appear Friday night.

The closing number of the program is a musical treat that is bound to please. Irving Doolittle, '23, the musical king of the campus has gathered an orchestra of ten pieces that is to give a concert, which includes classic as well as jazz numbers. There are to be two pianos and numerous novelties that are absolutely new on the campus. The Kappa Sigma boys are practising hard to make this the best number of the evening and a real musical concert is bound to result.

For the best act of the evening a large loving cup is to be presented. This cup will remain the permanent property of the fraternity winning it this year. Therefore the rivalry is keen and a vaudeville show by unusual talent will be given.

The show will begin at seven-thirty sharp, and will last until nine. Then there will be dancing until eleven. The price for the whole evening's entertainment will be fifty cents.

The date, Friday, February 16, The place, The Big Gym. The time, seven-thirty. The price, fifty cents.

Winter Sports for N. H. C.

STUDENTS SPEAK IN DOVER

The many thrilling experiences through which the residents of Smyrna were compelled to pass were graphically described by Martin Papsian and Abraham Pejouhi (both special students at New Hampshire College) Sunday night, February 11th, in St. John's M. E. church, Dover. The church was well filled and the personal experiences narrated were very well received by an appreciative audience. Rev. R. DeH. Fisher accompanied the students on the trip, lead in the prayer of the evening and introduced the speakers.

ASIATIC STUDENTS ARRIVE AT DURHAM

Abraham Pejouhi and Martin Papsian Come to America for Higher Education With Fifteen Others from Mediterranean Region—Have Thrilling Experiences

A four foot snow bank is not the pleasantest reception imaginable even to we people who are used to the "mountain of white." However, this was what greeted Abraham Pejouhi and Martin Papsian late of Smyrna, Asia Minor, when they arrived in Durham January 19th.

Several members of the "Y" were on hand to welcome the new students and in excavating the young men from the drifts. Mr. Ralph DeH Fisher, student-pastor of the college, lost and found his overshoes.

Mr. Pejouhi originally hailed from Tebriz, Persia, but since his removal from Asia, he has been sojourning in Smyrna and Constantinople. It was in Smyrna that both young men attended the American College.

The outrages perpetuated upon the Armenians, Greeks and other foreigners forced the young men to leave Smyrna, in fact the Turks were sacking and burning the city as they left. Mr. Pejouhi managed to board a destroyer in the harbor, while Mr. Papsian's only avenue of escape was by swimming through the water of the harbor until he was picked up by another war vessel. These ships conveyed them to Pireaus, Greece. Here they booked passage for the United States.

The company owning the steam ship line was nearly bankrupt and they found it necessary to put in at many seaports on the way over to replenish the ship stores. These supplies were very difficult to secure because of the company's financial standing, so in many cases the ship was tied up in one port for several weeks. To illustrate how low the coal supply was at one time while on the Mediterranean Sea, the sailors were forced to burn benches, tables and chairs in order to maintain sufficient steam pressure to enable them to reach the next coaling station. Not only was there a lack of fuel, but there was a limited supply of the necessities of life. To quote Mr. Papsian, "We had no food, no water and no lights." The passengers were given sardines for breakfast, codfish for dinner and wormy macaroni for supper. Once when the young men were served meat they offered it to a dog, but it was so poor in quality that he would not eat it. To cap the other hardships of the voyage, the ship encountered may severe storms.

The entire voyage lasted seventy-five days. They embarked November 2, 1922, and the boat made port in New York January 15th, 1923.

Of the party of 17 of which Papsian and Pejouhi were members, 14 are now attending the International School at Springfield, Mass., and one is at the Mount Hermon School at Northfield, Mass.

Mr. Pejouhi has entered the Agricultural division, while Mr. Papsian has enrolled in the Engineering division of the college.

Both young men intend to remain in the United States after the completion of their college work, and become citizens of this country.

Winter Sports for N. H. C.

SPECIAL CONVOCATION EXERCISES FOR STATE SENATE LAST FRIDAY

(Continued from Page 1.)

dent body with the spirit of determination that he saw there. He said that the Senate realized how fast the college has grown in the last five or six years and that the Senators must be liberal in the matter of finances toward the college. He furthermore stated that he believed that they would be liberal, and closed his speech with the statement that there would be no question as to what would happen if every member of the legislature would come down here.

Ex-Senator James A. Tufts of Exeter, was the next and last speaker. He said in part: "When I got off the train here this morning one of my friends on the faculty who evidently remembered that I was no longer a member of the Senate said to me, 'Well, what are you doing here today?' He had apparently forgotten that I am a member of the Board of Trustees but I shall remind him of that fact shortly. I suppose that I am Exhibit Z. If the Senators will do all they can do there is no question about the results. It used to be the custom of Boards of Trustees to ask for more money than they needed because they expected to be cut down. But that day has passed, now Boards of Trustees ask for only that amount of money that they believe will be needed by their particular institution. They do not expect to have their appropriations cut down because they ask for the minimum amount upon which they believe it possible to run the institution for which they are trustees. This is the case with this Board of Trustees. In one sense you are all trustees of New Hampshire college in that it is yours to do with as you want to."

As each speaker finished, assistant cheer-leader Summerville, '25, led in

MARION DAVIES IS EXERCISE ADVOCATE

"When Knighthood Was in Flower" Star Favors Athletics

Marion Davies, star in Paramount Cosmopolitan productions, is an enthusiastic advocate of setting-up exercises for women.

The fair motion picture star doesn't bother about putting a record on the victrola and doing 'em to music. She believes in the spartan simplicity followed during the war days when long lines of olive drab figures were doing their daily bends and twists to pro-

duce supple waists and straight shoulders.

Every morning she goes through a series of regular setting-up exercises and can gain or lose pounds at will. During the filming of "When Knighthood Was in Flower," a Paramount picture, which will be shown at the Strand theatre next Thursday and Friday, she lost ten pounds because of the strenuous fencing she is called upon to do. She guarantees fencing as a wonderful weight reducer.

Business: Everett 1420
GEORGE A. PERLEY, '08, Secretary-Treasurer
Durham, N. H. Phone, 52-5

THE CONNECTICUT VALLEY NEW HAMPSHIRE COLLEGE ALUMNI BRANCH had a very enthusiastic meeting on the night of Feb. 3, at Claremont, N. H. Due to the poor traveling and the prevalent colds the attendance was not as large as usual. Many wrote notes of regret, so wholesome interest still prevails. It was decided to have the March meeting during the period of the college spring vacation in order that the New Hampshire college students may be invited to this meeting. The refreshment committee for this meeting will be Arline Edwards, '19, Rachel Bugbee, '18, and Shirley Polard, '21. The plans for the April meeting were also discussed and C. S. Richardson, '09, Gardner Hazen, 2-yr. '15, and Florence Kelley, '20, were appointed as a committee to investigate the possibility of a University Dance as a substitute for this meeting. The need for a real college dance with all the decorations, frills, etc., is very apparent. Russell Holmes, 2-yr. '14 and Elsie King, '18, were appointed to arrange for the various committees required for the April meeting.

The copy of the Western Mass. Branch Constitution was turned over to C. S. Richardson with instructions to report upon it at the next meeting.

Due to the poor roads the Newport delegate was unable to be present.

THE FEBRUARY GET-TOGETHER OF THE NEW HAMPSHIRE CLUB OF EASTERN NEW YORK was held on Saturday evening, February 3. This consisted of a New England baked bean supper given for the members, their wives and lady friends in the dining room of the Unitarian church, in addition to which the regular business meeting of the Club was held.

Those readers of "The New Hampshire" who are still in the granite or neighboring states can never realize how those poor people who have wandered to other sections of the country feel the lack of the weekly meal of Boston baked beans. Therefore, when the committee announced this kind of a supper for February 3 the exclamations of delight were long and loud. Needless to say, the committee was apprehensive of the appetites of the members so that ample allowance was made, providing everyone with all the baked beans and brown bread which he could eat. The approval of the club was apparent in that it was suggested that the get-together be repeated on every Saturday night while the members are still in the desert of New York State.

It was originally planned to follow the supper with a sleighride, but due to the fact that the majority of the members were married and therefore had not the enthusiasm necessary to make the sleighride materialize, it was omitted. However, these dignified married members sneaked off to a movie for the remainder of the evening.

Mary Elizabeth (Polly) Bailey, '20. Polly is at the last address given for her in this column, namely 4339 Dakota Street, Pittsburgh, Pennsylvania. This is the home of Professor McKay, formerly stationed at New Hampshire, and now on the faculty of the University of Pittsburgh. She is a social case worker for the Mothers' Assistance Fund of Allegheny County. Her office is in the new City-County Building in the downtown district, Pittsburgh. Polly's duties consist in making investigations as to the financial, social and other status of widows who are appli-

cants for state aid, and she seems to find the work very engrossing. She is secretary for the Pittsburgh Alumni Branch and is responsible for the reports of its activities.

Charles F. (Charlie) Cone, '08. Charlie is a Sales Engineer for the George J. Hagan Company, Electric Furnace Department, People's Bank Building, Pittsburgh. He makes a specialty of electric furnaces of the resistance alloy type, for use in medium and low temperature industrial heating. His address is at 6479 Aurelia Street, East End, Pittsburgh. Charlie and Mrs. Cone will be the hosts of the local branch of Alumni on the evening of March 17, which will be the next gathering. Charlie is President of the Pittsburgh branch. He has a couple of little vice-presidents at home with whom the local members are going to become acquainted.

Elmer N. (Sandy) Sanders, '18. Sandy is a Practice Engineer in the Industrial Engineering Department of Jones & Laughlin Steel Company, Alliquippa Works, Woodlawn, Pennsylvania, and represents his department in the Wire Division. He is making his home at 1024 Franklin Avenue, Woodlawn, Pa. He is handling problems relative to economy and improvements, and the promotion of efficiency, and is making a good job of it. His work to date has been such that an applicant for a similar position who stated among his qualifications that he is a New Hampshire man would stand a good chance of favorable consideration.

Morrelle Cannell, '21, was in town over the week-end. Very belated news has been received of the birth of a son, Edward Russell, last July to Mr. and Mrs. John Whitten of Wolfeboro, N. H. Mrs. Whitten was Theodora Hayes, "Theo," ex-'22.

Edson Bailey, '22, is now teaching in Wolfeboro, N. H.

Dorothy Chase, '21, was in Durham Friday and Saturday.

Robert Doran, '22, was in town February 7.

Ernest A. Anderson, '21, refereed the Freshman-Tilton basket ball game here last Saturday night.

Mrs. Byron G. Page, "Sue" Scott, '18, is at her home here in Durham.

INDUSTRIAL GIRLS AT BRYN MAWR DISCUSSION AT MEETING OF Y. W. C. A.

The weekly gathering of the Y. W. C. A., in charge of Priscilla Williams, '24, was held Monday evening in Smith Hall parlors. Mildred Bangs, '23, sang a solo, while Helen Burnham, '23, and Pearl Sargent, '23, lead a discussion on the topic of "Industrial Girls at Bryn Mawr College."

Industrial girls taken right from the factories were given an eight month course at Bryn Mawr college last summer. These courses were very similar to regular college courses, but they emphasized the economical conditions which influenced these girls' lives. About a hundred girls from all parts of the United States attended.

Committees in different cities consisting of Bryn Mawr alumnae and Y. W. C. A. secretaries aroused interest in these courses and raised the money for the scholarships.

NEW HAMPSHIRE FINISHES THIRD

Dartmouth and McGill Lead at Hanover Meet

MICHELSON WINS JUMP

Champion Ski-Artist Brings Honor to State College at Winter Carnival—Not to Transfer to Up-State College

The modern winter carnival was originated by the Dartmouth Outing Club, and this year's carnival surpassed all others in size, in the quality of competition, and in the number of beautiful women imported from all parts of the country. For further description of the dances, the tea-fights, and the women, the reader is respectfully referred to the "Dartmouth Bema," the Dartmouth, and the daily press.

Of interest to New Hampshire students, however, is the fact that on Saturday night, when the last race had been run and the last jumper had shot off the big steel chute, the names of the three winners of the incollegiate ski and snowshoe meet were emblazoned in electric lights over the miniature ice palace in this order: Dartmouth, McGill, New Hampshire which is encouraging when one considers that this is New Hampshire's first year in intercollegiate competition.

GUNNAR MICHELSON, '26

The sign might have properly read, Dartmouth, McGill, Michelson, for the intercollegiate champion was traveling in rare form and scored eight of his team's nine points. Michelson won the ski jump with three standing jumps of 93, 95 and 86 feet respectively. The contestants were held back by a strong wind that retarded their speed and hampered form in the air. While practicing on Thursday, "Mick" equalled John Carlton's record for the Dartmouth jump, with a beautiful standing leap of a hundred and fifteen feet. With favorable weather conditions on Saturday, it is believed that he would have undoubtedly broken this record. On Friday, he finished second to Edson of Dartmouth in the seven-mile cross-country ski race. Edson set a new record for the course, with which he was thoroughly familiar, leading "Mick" by fifty-eight seconds. "Sam" Stowell, '24, finished seventh in this race.

The 150-yard snowshoe race was run off in heats, the winner of each heat entering the finals. Michelson finished his trial a foot behind "Tex" Forbush of Gorham, who won the heat in better time than was made in the finals.

Michelson was awarded a large silver cup for the ski jump win and barely lost another trophy given to the individual high scorer. This cup was won by Blake of Dartmouth who scored nine points.

Charlie Graves Scores
"Charlie" Graves, '23, scored the other New Hampshire point when he placed third in the two-mile snowshoe race. This was a very creditable performance as the winner of the race, Blake, of Dartmouth, set a new record for the course. "Charlie" was running second at the half way mark but a bad spill gave Anderson of McGill the opportunity to pass him. Howard Gordon, '25, finished fourth in the 150-yard snowshoe dash, in a field of 20 contestants.

The members of the New Hampshire team report the enjoyment of a "wonderful time" at the carnival and feel highly gratified at the fine hospitality and sportsmanship of their hosts.

Much credit is due the Outing Club for organizing the team and providing the jump and other facilities for practice. Professor Perley has devoted a great deal of time and effort in arousing enthusiasm for winter sports at New Hampshire and that his efforts are beginning to bring returns is evidenced by the growing interest of the student body in everything labeled "Winter Sports."

"Mick" Not to Migrate
In view of reports printed in Metropolitan dailies or recent date concerning the likelihood of Michelson's transferring to Dartmouth before another winter, when questioned concerning the facts in the case, "Mick" told the representative of "The New Hampshire" that there was absolute-

ly no basis for these rumors. "Tell them," said he, "That it's New Hampshire College for me, now and for all the years to come."

— Winter Sports for N. H. C. —

TILTON SUFFERS SEVERE DEFEAT

Anticipate Easy Game But Receive Rude Jolt

LOSS OF CENTER FELT

Coach Stafford Connor's Team More Than Doubles Score on Up-State Prep-School Five-Game Proves Disappointment to Many

The freshman five added another scalp to its growing collection last Friday night, when the Tilton School basket-men were taken into camp by a score of 29 to 13.

Last year's preparatory and high school champions were evidently handicapped by the absence of their lanky center, Smith, whose playing in the interscholastic tournament, here last year, caused much favorable comment. Following the story which appeared in the Manchester Union last week, under the Tilton date line, which predicted an easy game for the preparatory school team and the seminarians defeat of Dover High School's team Thursday, their rather weak showing here was a disappointment to many spectators who had expected a whirlwind game.

In the early stages of the game, the team from Tilton showed flashes of brilliancy and promised a hard fight. Its passing looked good and its defensive work impressive, but this was not for long. Never were the Tiltonians able to penetrate the frosh defence and they resorted to long shots without much luck.

Passing Brilliant
The freshmen, on the other hand, seemed in top form. They worked the ball, by brilliant passing, into shooting positions like a varsity combination. At no period of the game did the school five appear dangerous.

Cotton was the individual star for 1926, contributing several pretty shots and adding seven points to his team's score through his foul shooting. Taylor, evidently sensing his responsibility in filling the position of the disabled frosh captain, did some great shooting. Foote played his usual flashy game which means that he was exactly where needed at all times. Furber caged two spectacular baskets.

Simpson, with three goals from the floor to his credit, was the visitor's star. Personal fouls marred his performance, however.

In the last few minutes of the contest, Coach Connor sent his entire second string combination into the contest.

The summary:

N. H., '26.	Gls.	Fls.	Pts.
Foote, rf.	3	0	6
Tetzlaff, rf.	0	0	0
Cotton, lf.	3	7	13

VARSITY LOSES TO W. P. I. 32-24

Effect of Illness Is Still Shown by Team

BIG GAMES THIS WEEK

"Henry" Has Big Night Getting Six Baskets—Worcester Makes Big Lead at Start but New Hampshire Men Soon Come Up from Rear

Still suffering from the effects of their recent battle with influenza, Coach Cowell's convalescent basket-ers met the rather mediocre team of Worcester Polytechnic Institute on the latter's home floor and were defeated by the score of 32 to 24. Not so tough.

"Long John" McKinley, who has been at home recuperating for a week, met the team at Worcester, still weak from the effects of his illness. The coach decided that both he and Danny Metcalf were not in condition to start the game and so the contest commenced with Varrell at center and Burr at left forward.

The boys from Durham couldn't get going, and Worcester immediately spurred ahead, running up a commanding lead. Although he hadn't been into a suit since the Clark University game, Mac was raring to go and just before the first period ended, Coach Cowell sent in both him and Danny. The period ended 17 to 9 with Worcester on the long side of the scoreboard.

MORE MEN! MORE VALUES!

Every purchaser of any article here in 1922 received a good, fair and abundant money's worth.

We are proud of our past record as it stands in the minds of our customers but for 1923 we are going in for an intensive campaign that will give us more men and give the men more values!

In brief, this whole section is going to see the biggest value spectacle that it has ever witnessed and these figures are going to be quoted on merchandise of the highest type.

We want more men—men who want to save more money!

The price on our GENUINE RADIO BOOTS is very low, compared with the price quoted by the majority of merchants, it being THREE DOLLARS

New Hampshire started strong in the second half and as their passing game improved, Henry and Danny dropped in a row of baskets. The score became 18 to 21 and hung there for five hectic minutes, while both teams fought furiously for points. Inevitably, the fast pace wore down the weakened men from New Hampshire and the Tech boys gradually drew away to a decisive victory. Atkinson went in for Lang Fernald. New Hampshire was beaten, not by a better team, but by a better conditioned one.

"Henry" Callahan had a big night and Captain Stafford played a hard fast game throughout the contest. Sharpe and Berry played well for Worcester.

The men are gradually rounding into condition and should be in shape to give Vermont and Norwich a hard fight on their own floors next Friday and Saturday nights.

The summary:

Worcester Tech N. H. State
Sharpe, rf lg, Fernald
Whelpley, lf rg, Stafford
Berry, c c, Varrell
White, rg lf, Burr
Higgins, lg rf, Callahan
Score—Worcester Tech, 32; N. H. State, 24. Goals from floor—Whelpley 6, Sharpe 4, Berry 2, White, Callahan 6, Metcalf 3, McKinley. Goals from fouls—Berry 6, Stafford 4. Referee—Kelley, Harvard. Timer—Kimball. Time—two 20 minutes. Substitutions—Atkinson for Fernald McKinley for Varrell, Metcalf for Burr.

FACULTY MEMBERS TO ADDRESS FRESHMAN "Y" CABINET

The 1926 Y. M. C. A. cabinet is conducting a series of lectures at its meetings. Different members of the various departments are presenting the opportunities offered by each department. Professor C. Floyd Jackson gave a very interesting talk on the opportunities of zoology at the meeting last Tuesday evening.

Any Freshman who is interested in the work of the Y. M. C. A. may join the cabinet if he so desires according to a new ruling which went into effect last Tuesday. This holds that if any member is absent from three consecutive meetings he shall be automatically dropped from the cabinet, and if a new member attends three consecutive meetings he may become a member if he so desires. This was passed in order that the personnel of the cabinet be as active as possible. The ser-

ies of lectures will be very beneficial and it is hoped that there will be more students interested than has been the case in the past. The cabinet has been doing some very interesting work lately and there have been some very lively meetings and discussions.

PREP-SCHOOL DEBATES NOW PROGRESSING

Interscholastic League Involves Many Groups

ARGUING 48-HOUR LAW

Enrollment in Association Shows Large Increase in Interest in Forensics—Competition Keen

The debates of the New Hampshire Interscholastic Debating League were begun on Friday night, February 2. The question which is being debated by the members of the League is "Resolved, that the Massachusetts Forty-eight Hour Law is desirable for New Hampshire." The result of the first debates is as follows: Pinkerton Academy, which supported the negative side, defeated McGaw Normal Institute at Reed's Ferry. Whitefield High School, supporting the affirmative, defeated Lancaster Academy at Whitefield. Winchester High School's affirmative team defeated the negative team from Stevens' High School in the debate at Winchester.

On last Friday, the ninth, Sanborn Seminary for the affirmative won the debate held at Kingston, against Berwick Academy. On the same night the negative team from Hampton Academy defeated Epping High School's affirmative team at Epping.

The report of the Manchester-McGaw debate which was held at Manchester last Friday has not yet come in; neither has the result of the debate between Berwick Academy and Epping High School been reported. The debate between Hampton Academy and Sanborn Seminary which was to be held at Hampton has been postponed because of the illness of the members of Hampton's affirmative team.

All the debates scheduled to have been carried out up to date have not been because of the storms and because of sickness. It is planned to have 35 or 40 debates. Last year there were six. There are now seventeen schools in the league. Each school has an affirmative and a negative team. The six winners of the preliminary debates will conduct semi-final debates and the three winners of these debates will come here to Durham for the finals which will be held early next term. All of the schools will participate in at least two debates and some of them will get into six.

The members of the League are: Berwick Academy, Concord High School, Epping High School, Hampton Academy, Laconia High School, Littleton High School, Kimball Union Academy, Lancaster Academy, Manchester High School, McGaw Normal Institute, Pinkerton Academy, Sanborn Seminary, Stevens High School, Tilton Seminary, Whitefield High School, Winchester High School, and Woodsville High School.

Of these schools the only ones that have not yet been in a debate are Concord High School, Kimball Union Academy, and Woodsville High School.

The next debates are scheduled for Friday, February 16.

SENIORS HOLD CLASS MEETING AT "T" HALL

Elect Assistant Treasurer, Caps, Gowns, and Commencement Program Committees

At a meeting of the Senior Class in the Zoological lecture room, Thompson Hall, Monday evening, February 12, Miss Marjorie Ames was elected to serve as assistant treasurer for the remainder of the college year. A report was made by Class Treasurer John Morrill, and the finances of the class were shown to be in very good shape as is evidenced by the fact that the treasurer estimated that a spring assessment of not more than three dollars would be sufficient to supply all the funds needed for the completion of class business.

Robert Horner, Samuel Patrick and Gertrude Allen were appointed to serve as a committee on caps and gowns, and Carl Ball, Charles Ropes and Gordon Savage were chosen to select and purchase the senior canes. D. Kilton and Angela Thomas were appointed to design and order the commencement programs.

It was voted by the class to recommend to the board of trustees that the style of diploma be changed to the standard fourteen by seventeen inch size such as is used by Harvard University and many other of the larger institutions.

Plans for the senior stunt night were reported to be in excellent shape and a pleasant evening was promised to all who might attend. Chairman Karl Dearborn of the Committee for the Senior Dance reported that the function would be held on March 17 from seven to twelve in the evening, and probably at the men's gymnasium. It was voted that this would be an informal dance.

President Earl Farmer announced that the next meeting of the class would probably occur on the evening of March 12.

REGISTRAR GIVES OUT AVERAGES FOR FIRST TERM

The Registrar gives out the following summary relative to the scholar-

ship of the freshman class for the 1st term, 1922-'23:

Average of Freshman Class 67.8

	Agricultural	Arts & Science	Engineering
Freshman Class	68.5	68.6	66.5
N. H. Students	69.1	68.6	66.6
Out-of-State Students	67.1	68.4	66.4
Average of Arts and Science Division			
1 New Hampshire men	63.9		
New Hampshire women	74.4		
2 Out-of-state men	66.1		
Out-of-state women	73.6		
3 New Hampshire students	68.5		
Out-of-state students	67.5		
4 All men	66.2		
All women	74.2

HARVARD FROSH NOSE OUT N. H., '26

Yearlings Lose First Game of Season Feb. 6

FINAL SCORE IS 34-29

Cotton Leads in Point Getting with Captain Davis Close Second—Team Developing into Consistent Fighting Unit

Harvard, '26, had the honor of being the first team to humble the speedy N. H., '26, aggregation February 6th, on Harvard's floor. It was expected that the Freshman team would go through the season with a clean slate, but the Crimson Frosh, having the advantage of playing on their own floor, proved a little too strong for the Blue and White yearlings, and were five points to the good when the conflict ended.

Although the Freshies returned defeated they surely put up a good fight and it was by no means an easy game for the Harvard lads. The first half ended with the N. H. boys but five points behind. In the second period the Harvard Frosh found it more difficult to score and succeeded in adding only 11 points to their first period score. The Granite State boys held their own in this period and also succeeded in dropping enough through the net to bring their total up to 29, but this was 5 points less than were tallied up for their opponents.

Cotton was high scorer for '26, but Davis was the star of the evening with his snappy passing and shooting. Smith played stellar ball for the Crimson Frosh and was also high scorer of the evening. Captain Davis sustained some injuries which will keep him out of the game for a short time, but judging from the performances of the remainder of the team, they have nothing to fear in their next few games.

The summary:

N. H., '26.	Harvard, '26.
Foot, R. F.	L. B., Reed, A. E.
Cotton, L. F.	R. B., Atwater
Davis, C.	C., Reed, J. A.
Taylor, R. B.	L. F., Smith
Furber, L. B.	R. F., Jones
Referee, Parker; timer, Lincoln; scorer, Walker; goals from floor: Foot 3, Cotton 3, Davis 5, Jones, Skilling, Reed, J. A., 1, Smith 7, Raugh, Elberfeld 2. Goals from fouls: Cotton 6, Smith 6, Davis. Substitutions: Skilling for Jones, Raugh for Reed, J. A. for Elberfeld. Time, two twenty minute periods.

AMERICAN COLLEGE STUDENTS TO VISIT FRENCH REPUBLIC

Group to Travel Under Auspices of Alliance Francaise and Institute of International Education

Professor Felix Weill, General Secretary of the Federation de l'Alliance Francaise, has notified the branches of the Alliance that a group of American college students and instructors is being organized to travel in France next summer under the joint auspices of the Federation and the Institute of International Education.

The students will sail from New York on the S. S. "SAXONIA" on June 30th, 1923. After disembarking at Cherbourg, they will go to Paris for a stay of several days, and thence to Brittany, the chateau country, the Pyrenees towns, the Riviera, the industrial section centering around Lyons, the French and Swiss Alps, the redeemed provinces, and the cathedral towns in Normandy. They

NOTICE

The Fortnightly Forum debate will be held in the Zoological lecture room at Thompson Hall Thursday evening, February 15, at 7.15 p. m. The question is "Resolved That New Hampshire College should adopt the honor system as practiced at Princeton University."

PROFESSOR POTTLE SPEAKS AT MEETING OF N. H. Y. P. O.

The N. H. Y. P. O. had one of the most interesting meetings last Sunday evening that it has had this year. Professor F. A. Pottle gave several very interesting readings from Drinkwater's "Abraham Lincoln." It was an opportunity which should have been missed by no one. After Mr. Pottle's reading, the meeting was turned over to the social committee who soon demonstrated that there was a good time awaiting for everyone.

Next Sunday the society will be entertained by the Cosmopolitan Club and it is hoped that there will be a large attendance as they have given assurances of an excellent program.

ALPHA CHI SIGMA TO OFFER COURSE OF CHEMICAL LECTURES

Dr. L. A. Pratt, '09, to Be First Speaker at Gathering on Evening of February 23

The success of an organization must necessarily be measured by the good it accomplishes, and it is with this fact in mind that the local chapter of Alpha Chi Sigma proposes to conduct a series of lectures which will be of real benefit to all chemists, may-be chemists and would-be chemists. Some of these lectures will be of interest to Aggie men and others who are now taking or have taken courses in manipulation of the beaker.

To warrant having these lectures it will be necessary to get the largest possible attendance, and if a good attendance cannot be secured, they will have to be dropped. Every student registered in the chemical courses is urged to attend, not because it will necessarily do the lecturer any good to see him, but because he can himself help others give him the proper perspective of chemistry by supporting these lecturers with his attendance. Faculty and students all are urged to express their interest by being present.

Among the alumni, possible speakers are: Neil Sargent, '14, chief chemist of a large plant in Everett, Mass.; Carl D. Fuller, '08, superintendent of the lamp works of the General Elec-

tric Company; Carl D. Kennedy, '09, of the United States Rubber Co., and others. Possibly we may be able to get speakers from M. I. T., Harvard and other places.

Dr. L. A. Pratt has agreed to come for the first lecture February 23, if possible to leave at that time. Watch for further announcements on the bulletin boards in the Chemistry building, T. Hall and roadside. Dr. Pratt is one of the many successful chemists, graduated from New Hampshire college. As a member of the Chemical Colloquium, he helped to obtain a charter for a chapter of Alpha Chi Sigma here. As director of research for the acid plant of the Merrimac Chemical Co., Dr. Pratt is especially well fitted to make his subject, "Research in Industrial Chemistry," not only of general interest, but also of great practical value to those who have not yet fully decided just what branch of chemistry to follow.
