**WHY DO THE SWEEPERS SWEEP?**

By T. W. 

How many can explain the reasons for sweeping dormitory rooms? It is possible that one or two of them know why, but the great majority of them know not why.

And why is it? Is it because the dormitory is dustier than some other part of the campus? If so, is it in order that the fresh air should be kept as free from dust as possible, and in that case how is it that the rooms hold more dust than the corridors?

And if it is not for the sake of cleanliness, then why is it that the dust is swept up and not allowed to remain on the floor? Why is it that the dust is not allowed to become a breeding place for dust mites or insect pests?

These and many similar problems are discussed in the editorial and circulation departments of the New Hampshire, and in the minds of many students, but not at all in the minds of those who are responsible for the cleanliness of dormitory rooms. But how can one expect to get at the root of the cause if one does not know the cause?

The least that could be done would be to get the students to think over the various aspects of the problem, so that they might be able to discuss the matter with those who have a part in the work of cleaning the dormitories.
