DURHAM, NH - New Hampshire residents are more comfortable than in May with participating in public activities, but levels of comfort differ dramatically based on partisanship. Majorities of Republicans say they are currently comfortable going to large-scale athletic competitions, political rallies, and concerts, while nearly half of Democrats say they will not be comfortable going to these events until 2021 at the earliest. Approval of Governor Sununu's handling of the COVID-19 pandemic has declined slightly among both Democrats and Republicans but remains high and most are confident in the state government's ability to respond effectively to the crisis. Concern about oneself or a family member contracting COVID-19 continues to decline, particularly among young people.

These findings are based on the latest **Granite State Panel\*** survey, conducted by the University of New Hampshire Survey Center. Nine hundred ninety-seven (997) Granite State Panel members completed the survey online between June 18 and June 22, 2020. Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the New Hampshire Secretary of State. The Granite State Panel is part of an effort by the University of New Hampshire Survey Center to investigate new ways of gathering and understanding the opinion of New Hampshire residents. Granite State Panel members are recruited from randomly-selected landline and cell phone numbers across New Hampshire and surveys are sent periodically to panel members.

### Handling of Coronavirus (COVID-19) Situation by Governor Sununu

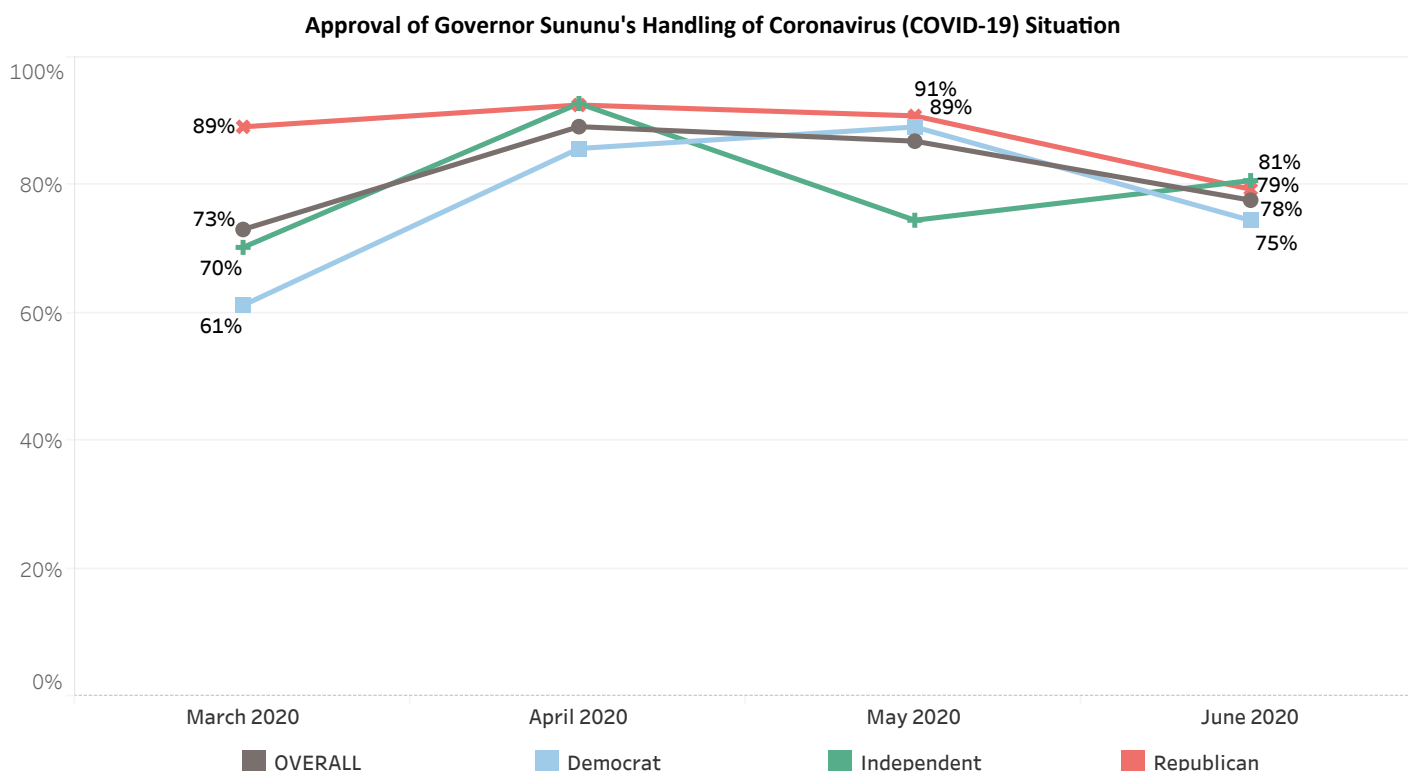

Governor Chris Sununu continues to be seen as effectively handling the COVID-19 situation in New Hampshire. Just over three-quarters (78%) of New Hampshire residents approve of Sununu's handling of the coronavirus (COVID-19) situation, while 21% disapprove and 2% neither approve nor disapprove or don't know. Approval of Sununu's handling of the COVID-19 situation has declined slightly compared to April (89%) and May (87%).

### Approval of Governor Sununu's Handling of Coronavirus (COVID-19) Situation

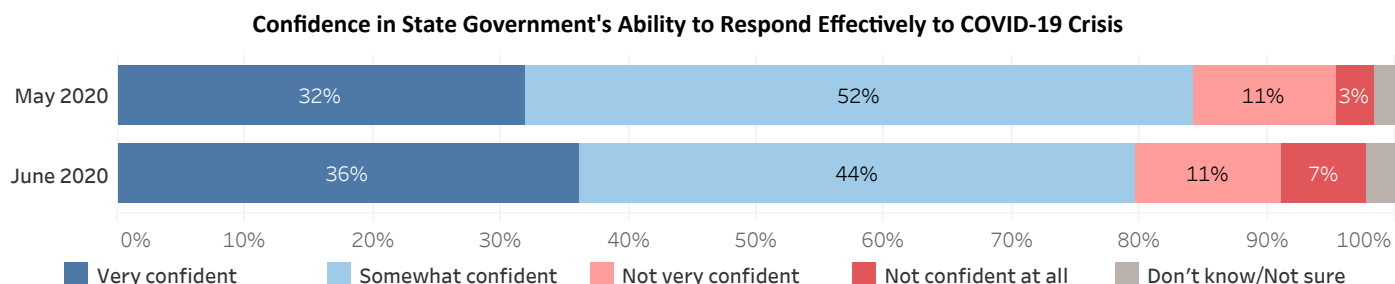

\* We ask that this copyrighted information be referred to as *the Granite State Panel*, conducted by the University of New Hampshire Survey Center.

Republicans (79%), Democrats (75%), and Independents (81%) are about equally likely to approve of Sununu's handling of COVID-19. However, support among Republicans and Democrats has declined since May (91% approval among Republicans, 89% among Democrats).

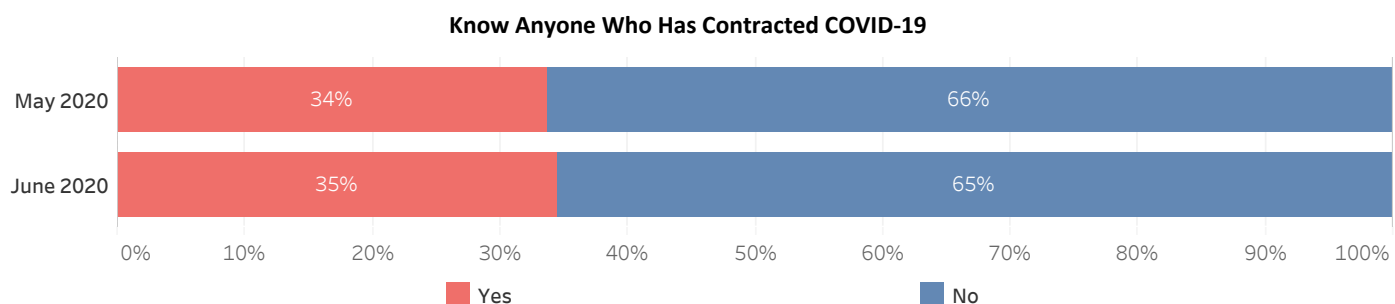

Turning to the state government overall, just over one-third (36%) of state residents say they are very confident in the New Hampshire government's ability to respond effectively to the COVID-19 crisis and 44% are somewhat confident. Eighteen percent of Granite Staters say they are not very (11%) or not at all confident (7%) in the state government's ability to respond effectively while 2% don't know or are unsure.

#### Personal Experience with COVID-19

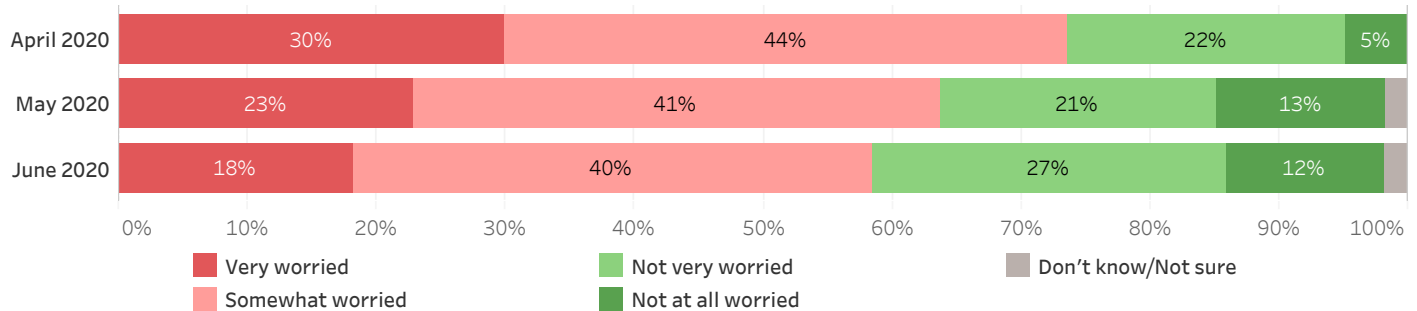

Thirty-five percent of Granite Staters say that they know someone who has contracted COVID-19 while 65% do not know anyone who has. The percentage who know someone who has contracted COVID-19 is largely unchanged since May (34%).

Fifty-eight percent of New Hampshire residents are very (18%) or somewhat (40%) worried that they or someone in their immediate family might contract COVID-19. Twenty-seven percent of Granite Staters are not very worried about this, 12% are not at all worried, and 2% don't know or are unsure.

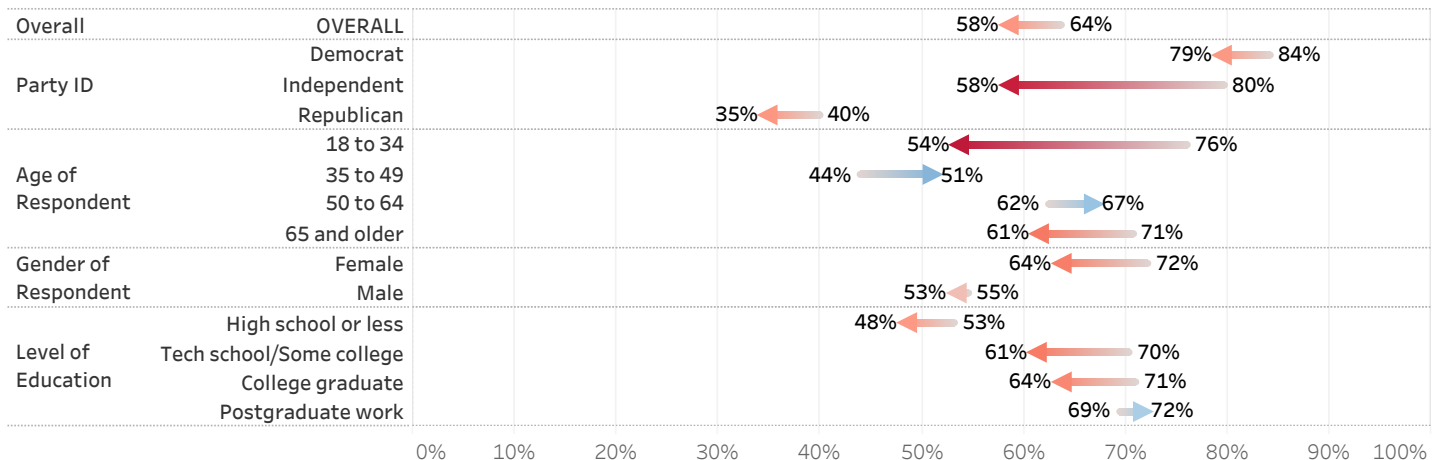

The percentage of New Hampshire residents who say they are very or somewhat worried about contracting COVID-19 continues to decline. In April, 74% of residents were very or somewhat worried that they or someone in their family might contract COVID-19 compared to 58% in June.

### Worry Self or Someone in Immediate Family Might Contract COVID-19

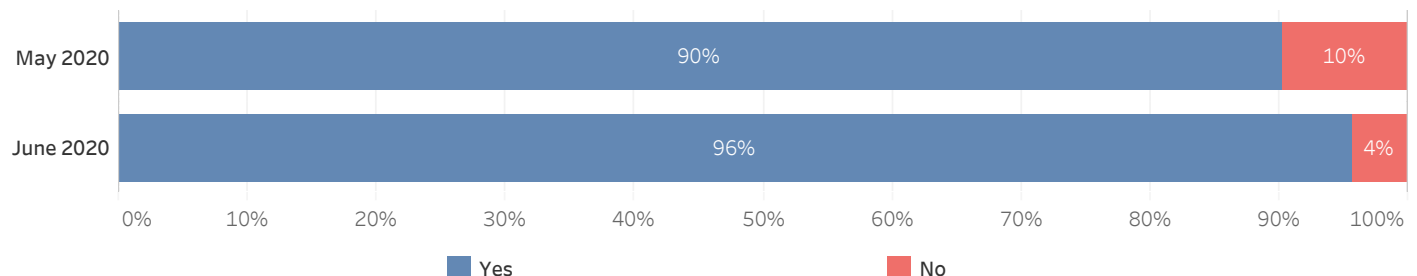

- Concern about contracting COVID-19 has dropped considerably among Independents (-21 percentage points) since May but less so among Republicans (-5 points) and Democrats (-5 points).
- Young people (those under thirty-five) are much less likely than in May (-22 percentage points) to say they are very or somewhat worried about contracting COVID-19 while those aged 35 to 64 are slightly more likely than in May to be worried.
- Respondents with a high school education or less are less likely than people with more education to be very or somewhat worried about contracting COVID-19. Residents with some college or a college degree are also less worried than they were in May about contracting COVID-19.

### Very or Somewhat Worried Self or Someone in Immediate Family Might Contract COVID-19 - Change from May to June 2020

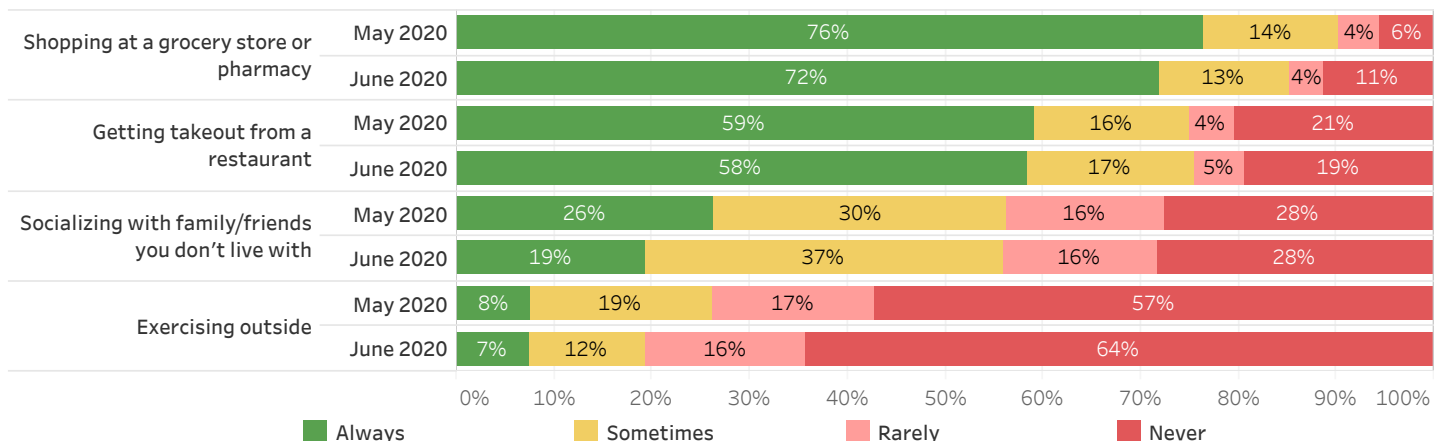

Nearly all (96%) New Hampshire residents say they have worn a mask or face covering at least once since the coronavirus outbreak began in the U.S while 4% have not done so. This represents a small increase compared to May, when 90% said they had worn a mask or face covering.

### Ever Worn Mask or Face Covering Since Coronavirus Outbreak Began

Nearly three-quarters (72%) say they always wear a mask or face covering while shopping at a grocery store or pharmacy, while 11% say they never do so while doing this activity. Just over half (58%) always wear a mask or face covering when getting takeout from a restaurant. Relatively few consistently wear a mask or face covering when socializing with family or friends they don't live with or while exercising outside. Only 19% always wear a mask or face covering while socializing, down from 26% in May, and only 7% always wear one when exercising outside.

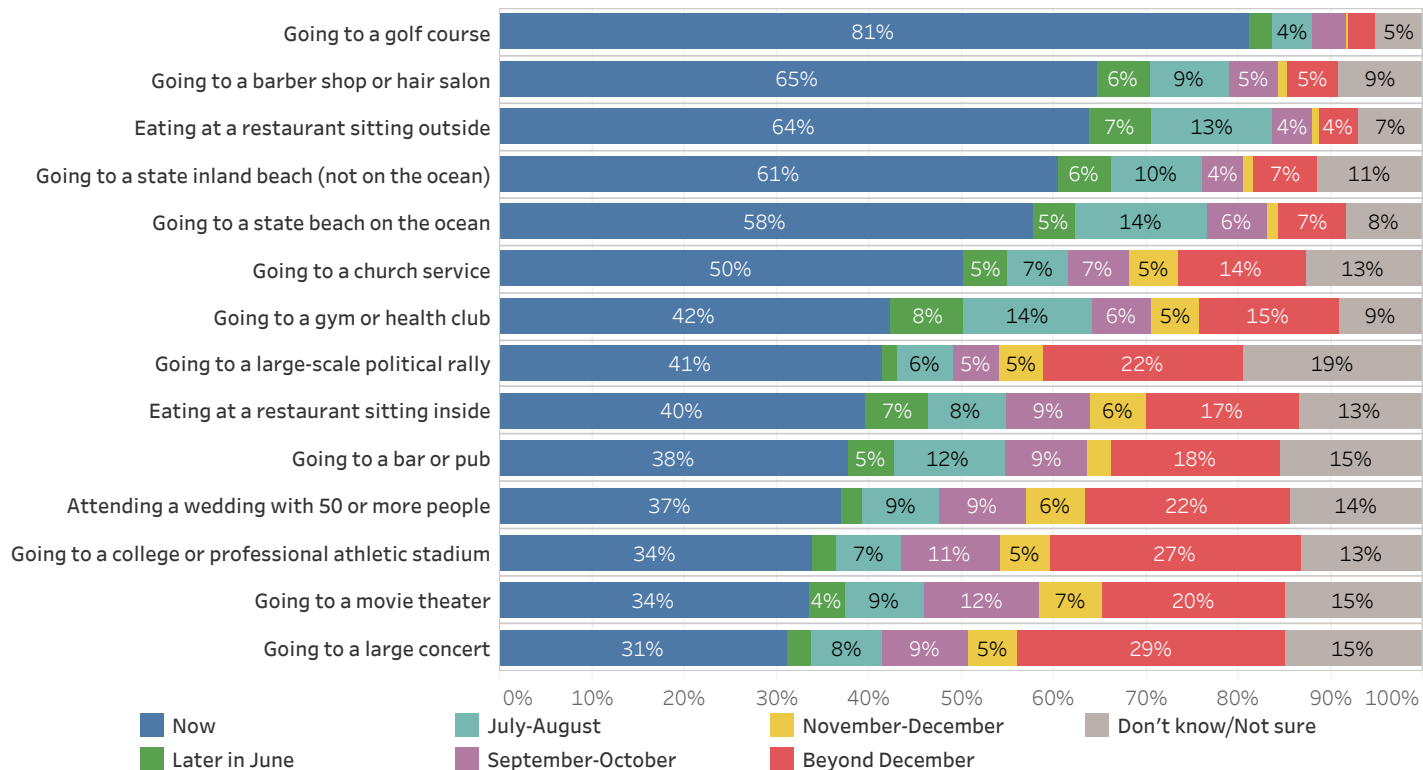

#### Frequency Wearing Mask or Face Covering in Following Situations

Respondents were asked when they would be comfortable engaging in several activities outside of their homes. Majorities of New Hampshire residents who plan to participate in the activity are currently comfortable going to a golf course (81%), going to a barber shop or hair salon (65%), eating outdoors at a restaurant (64%), going to a state inland beach (61%), and going to a state beach on the ocean (58%), all of which are currently permitted under state guidelines. Slightly fewer respondents are currently comfortable going to a church service (50%), going to a gym or health club (42%), going to a large political rally (41%), eating indoors at a restaurant (40%), going to a bar or pub (38%), or attending a wedding with 50 or more people (37%).

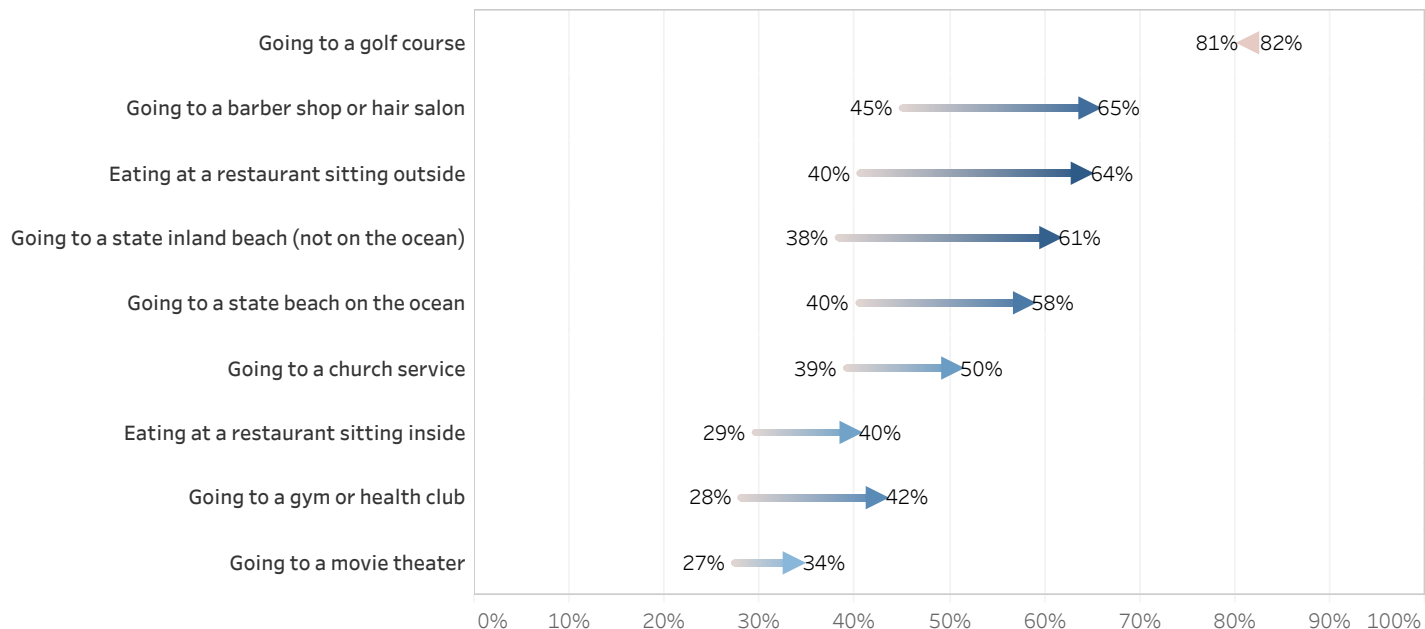

Most residents are still not comfortable going to a college or professional athletic stadium (34% comfortable now), going to a movie theater (34%), or going to a large concert (31%). One-fifth or more of respondents or more say they will not be comfortable doing these things until sometime in 2021.

#### When Expect to Feel Comfortable Going to or Doing Following Things - June 2020

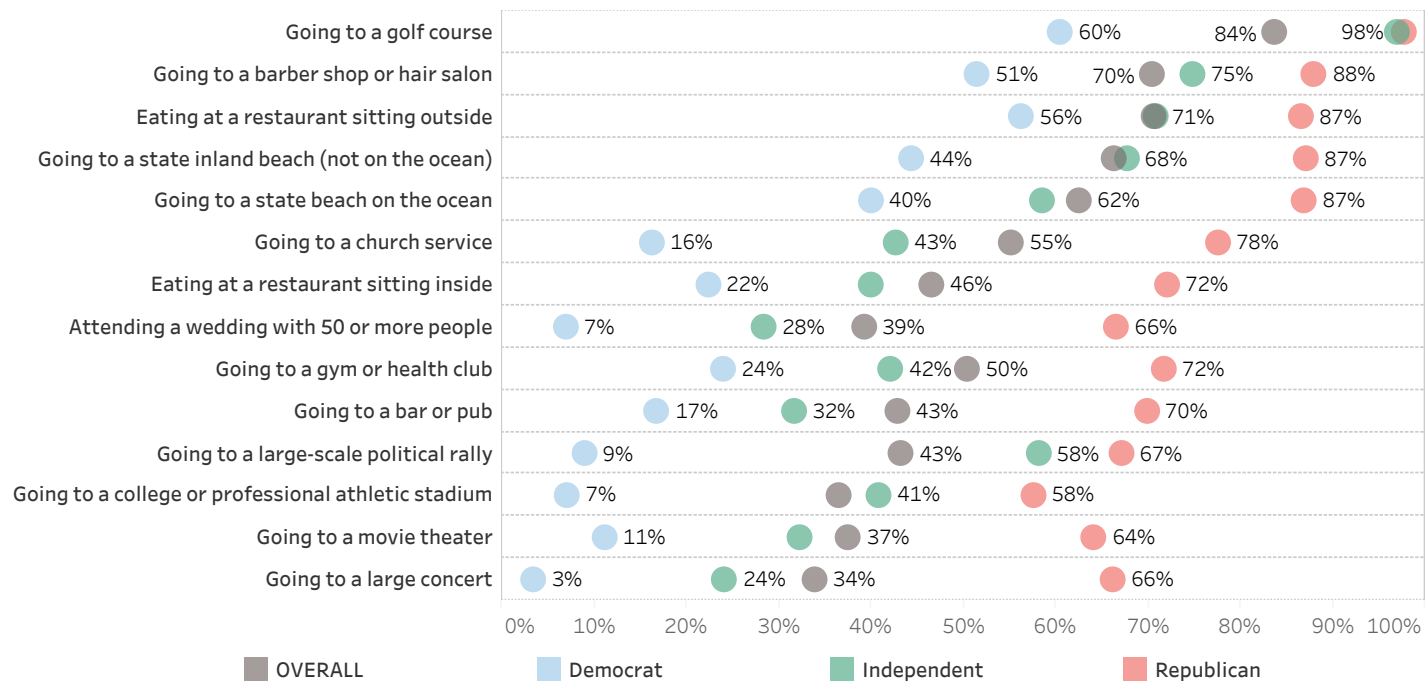

Granite Staters are more comfortable participating in these activities than they were in May. The percentage of respondents who plan to do these things who are comfortable going to a barber shop or hair salon (+20 percentage points), eating at a restaurant sitting outside (+23), going to a state inland beach (+22), and going to a state beach on the ocean (+17) have increased the most since May. Respondents are somewhat more likely than in May to say they are currently comfortable going to a church service (+11 percentage points), eating indoors at a restaurant (+10), going to a gym or health club (+14), or going to a movie theater (+6), though half or a majority of respondents continue to say they are not yet comfortable doing these things.

#### Currently Comfortable Going to or Doing Following Things - Change from May to June 2020

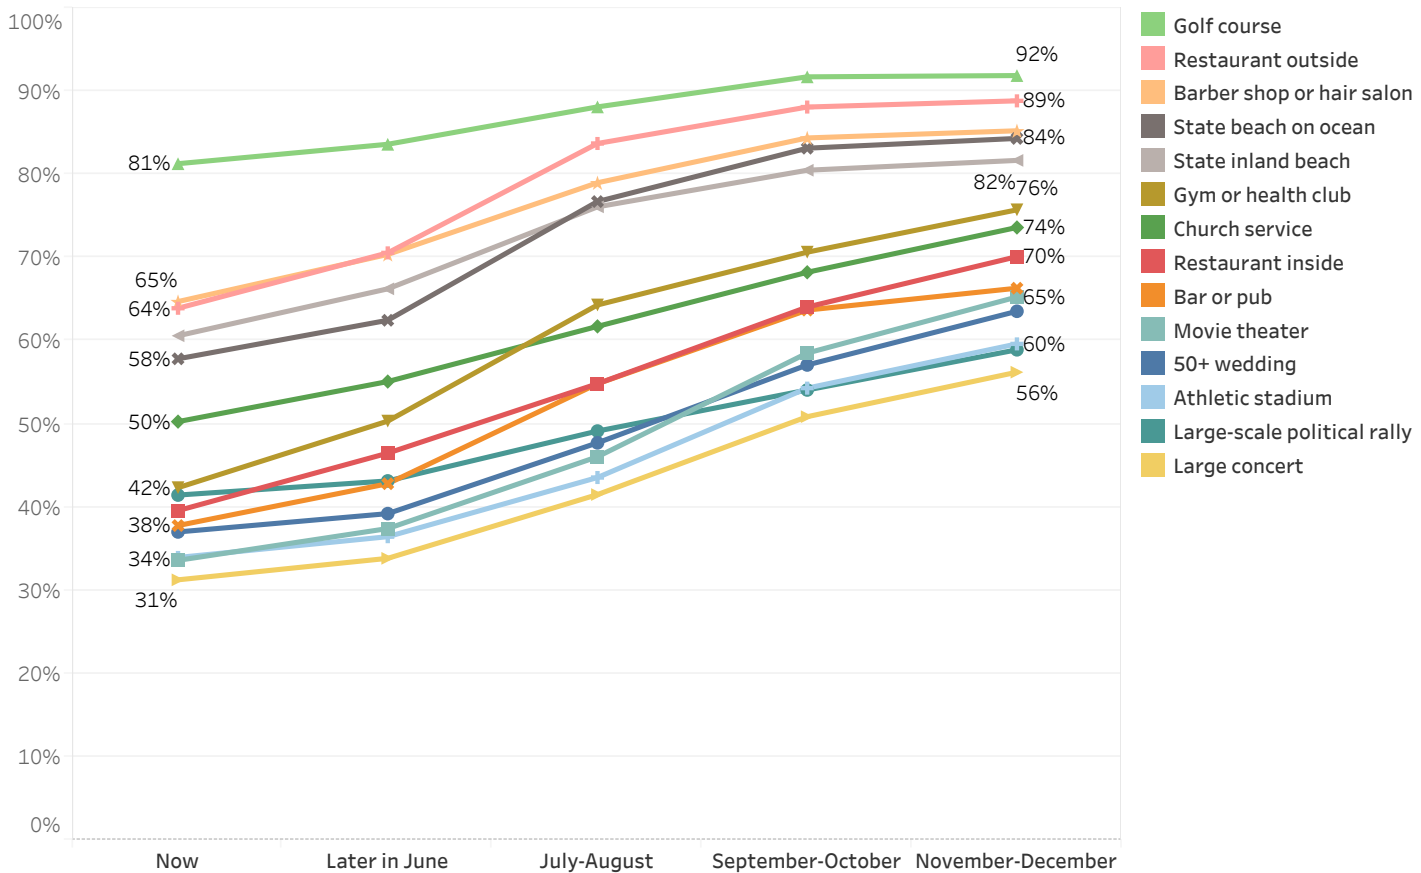

As in May, Democrats and Republicans have vastly different levels of comfort engaging in these activities. More than half of Republicans are currently comfortable participating in each of these activities, while less than half of Democrats are comfortable participating in most of these activities. Republicans are 63 percentage points more likely than Democrats to say they are currently comfortable going to a large concert, and are similarly far more likely than Democrats to be comfortable going to a church service (+61), attending a wedding with 50 or more people (+60), going to a large-scale political rally (+58), going to a bar or pub (+53), going to a movie theater (+53), going to a college or professional athletic stadium (+51), or eating indoors at a restaurant (+50).

#### Comfortable Doing the Following Things By June or Earlier - June 2020 - By Party Identification

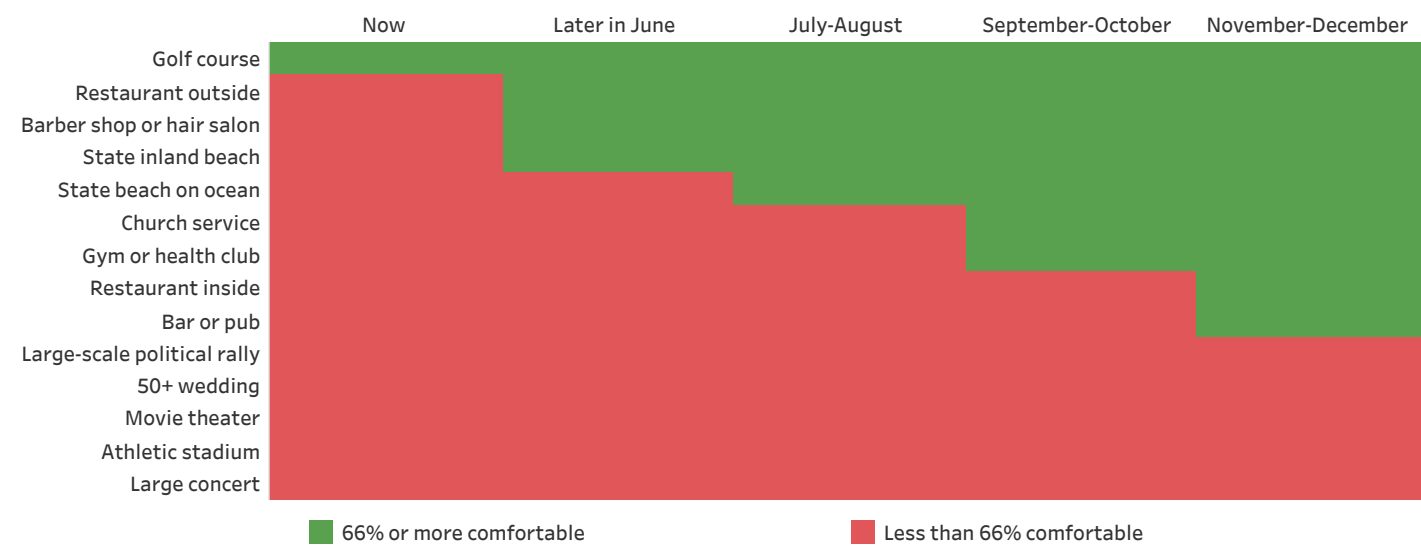

While an increasing number of Granite Staters report being comfortable participating in these activities, a significant percentage of Granite Staters expect that they will still not be comfortable doing many of these activities even months from now. This could significantly slow economic recovery in the state. Currently, going to a golf course is the only one of the following activities in which at least two-thirds of the state is comfortable participating. By later this month, two-thirds or more will be comfortable eating outdoors at a restaurant, going to a barber shop or hair salon, or going to an inland state beach. By July or August, two-thirds or more will also be comfortable going to a state beach on the ocean, and by September or October, at least two-thirds will be comfortable going to church services or to a gym or health club. Only by November or December will two-thirds of Granite Staters be comfortable going to a restaurant indoors or to a bar or pub, and less than two-thirds expect even by December that they will be comfortable going to a large-scale political rally, a wedding with fifty or more people, a movie theater, a college or professional athletic stadium, or to a large c..

When At Least Two-Thirds Expect to Feel Comfortable Going to or Doing Following Things

### Granite State Panel Methodology

These findings are based on the latest Granite State Panel survey, conducted by the University of New Hampshire Survey Center. Nine hundred ninety-seven (997) Granite State Panel members completed the survey online between June 18 and June 22, 2020. Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the New Hampshire Secretary of State.

The Granite State Panel is part of an effort by the University of New Hampshire Survey Center to investigate new ways of gathering and understanding the opinion of New Hampshire residents. Granite State Panel members are recruited from randomly-selected landline and cell phone numbers across New Hampshire. Respondents to the Granite State Poll were asked if they wished to participate in further research and asked to provide an email address. Those who agreed and provided an email address were added to the panel. Panel members were also recruited by texting a random sample of cellular telephones in the state and inviting the recipient to take a short survey.

For each survey which they complete, panel members are entered into quarterly drawings to earn rewards, such as gift certificates from statewide and internet companies. Due to rounding, percentages may not sum to 100%. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions.

For more information about the methodology used in the Granite State Panel, contact Dr. Andrew Smith at (603) 862-2226 or by email at [andrew.smith@unh.edu](mailto:andrew.smith@unh.edu).

### Granite State Panel, June 2020 Demographics

		<u>N</u>	<u>%</u>
Gender of Respondent	Female	495	51%
	Male	477	49%
Age of Respondent	18 to 34	263	27%

## Approval of Governor Sununu's Handling of Coronavirus (COVID-19) Situation

Generally speaking, do you approve or disapprove of the way Governor Sununu is handling the coronavirus (COVID-19) situation?

	<u>Approve</u>	<u>Disapprove</u>	<u>Neither/DK</u>	<u>N</u>
March 2020	73%	15%	12%	643
April 2020	89%	7%	3%	1,153
May 2020	87%	11%	2%	815
June 2020	78%	21%	2%	972

## Confidence in State Government's Ability to Respond Effectively to Current Outbreak of Coronavirus in New Hampshire

How confident are you in the state government's ability to respond effectively to the current outbreak of coronavirus in New Hampshire?

	<u>Very confident</u>	<u>Somewhat confident</u>	<u>Not very confident</u>	<u>Not confident at all</u>	<u>Don't know/Not sure</u>	<u>N</u>
May 2020	32%	52%	11%	3%	2%	837
June 2020	36%	44%	11%	7%	2%	997

## Know Anyone Who Has Contracted COVID-19

Do you know anyone who has gotten the coronavirus?

	<u>Yes</u>	<u>No</u>	<u>N</u>
May 2020	34%	66%	840
June 2020	35%	65%	996

## Worry Self or Someone in Immediate Family Might Contract COVID-19

How worried are you that you or someone in your immediate family might catch coronavirus?

	<u>Very worried</u>	<u>Somewhat worried</u>	<u>Not very worried</u>	<u>Not at all worried</u>	<u>Don't know/Not sure</u>	<u>N</u>
April 2020	30%	44%	22%	5%	0%	1,155
May 2020	23%	41%	21%	13%	2%	840
June 2020	18%	40%	27%	12%	2%	997

## Ever Worn Mask or Face Covering Since Coronavirus Outbreak Began

Since the coronavirus outbreak began in the U.S. have you worn a mask or face covering at least once?

	<u>Yes</u>	<u>No</u>	<u>N</u>
May 2020	90%	10%	840
June 2020	96%	4%	995

## Frequency Wearing Mask or Face Covering in Following Situations

How often do you wear a mask or face covering in the following situations?

		<u>Always</u>	<u>Sometimes</u>	<u>Rarely</u>	<u>Never</u>	<u>N</u>
<b>Exercising outside</b>	May 2020	8%	19%	17%	57%	650
	June 2020	7%	12%	16%	64%	838
<b>Getting takeout from a restaurant</b>	May 2020	59%	16%	4%	21%	581
	June 2020	58%	17%	5%	19%	849
<b>Shopping at a grocery store or pharmacy</b>	May 2020	76%	14%	4%	6%	706
	June 2020	72%	13%	4%	11%	902
<b>Socializing with family/friends you don't live with</b>	May 2020	26%	30%	16%	28%	531
	June 2020	19%	37%	16%	28%	839

## When Expect to Feel Comfortable Going to or Doing Following Things

Based on what you know now, when do you think that you personally will feel comfortable going to or doing the following things?

		<u>Now</u>	<u>Later in May</u>	<u>Later in June</u>	<u>July-August</u>	<u>September-October</u>	
<b>Attending a wedding with 50 or more people</b>	June 2020	37%		2%	9%	9%	
<b>Eating at a restaurant sitting inside</b>	May 2020	29%	5%	7%	13%	12%	
	June 2020	40%		7%	8%	9%	
<b>Eating at a restaurant sitting outside</b>	May 2020	40%	7%	16%	15%	8%
