The New Hampshire.
I am fairly busy. I am at my office three mornings and two afternoons a week, and on Fridays I go to the printer. It is the "Autobiography of a Printer." It is the "Life and Labor of John Henry Skinner." If you have read it, you will know that this is the story of a man who worked for 40 years at a typewriter and learned his trade. In other words, I was a master compositor, and I used to make the type. I have written my life story, and it is true, I think. I have earned my way to a better job.

"JAVA HEAD." This is a production of "Java Head." A story of the late forties in the old Java, the Buddhist empire.
