FRIDAY, OCTOBER 12, 1923.
Price 10 Cents.

**WITH PETER SCHYLER'S BY-PRODUCTS.**

Miss MacDonald has been elected President with Audrey Caldwell, 22, chosen Secretary by the Student Council. They are headed by Clayton Osgood, president of the Student Council. The team went into the game knowing that they were unable to gain when the threatened side would then stiffen defense. The first quarter ended scoreless for both teams. But the New Hampshire boys scored in the second period and it was not long before the Supermen were doing a little more than carrying the ball. They scored three touchdowns (and to make matters worse for the New Hampshire boys) three extra points. They had a great deal of difficulty in getting themselves into the game and listless in the face of New Hampshire's magnificent display.

FRAT. SCHEDULE FOR BASKETBALL

Greek Letter Societies

Delta Phi Epsilon, Alpha Phi Omega, Kappa Alpha Theta, Phi Sigma Sigma, Phi Sigma Chi

TEN TRIM ENTER PLAY

Dana Mottel, Marian President, Philip, Secretary—No Sigma Chi Chapter

At a meeting of the representatives of the various Fraternity Chapters, a motion was made and seconded to have the items drawn up for the insurance of the fraternity chapters. Officers for this year were selected for the various chapters, and it was decided that every chapter should contribute $1.00 per month to the fund. This money will be used to cover any loss that may occur in the future.

FACTORIES

The faculty have decided to have the officers of the various chapters draw up a plan for the future of the fraternity chapters. A meeting has been called for next Tuesday to discuss this matter.

When Henry rang the bell

If any bell was ever heard around the world, Joseph Henry rang it in his famous experiment at the Albany Electrotechnical Academy. The amazing development of the electrical industry traced back to this schoolmaster's coil of insulated wire and his electro-magnet that lifted a ton of iron.

Four years later when Morse used Henry's electro-magnet to invent the telegraph, Henry congratulated him warmly and unselfishly.

The principle of Henry's coil of wire is utilized by the General Electric Company in motors and generators that light the homes of millions of people with household drudgery and perform the work of millions of men.
R. O. T. C. NEWS

The courses in the most brutal artillery of the R. O. T. C. have cut a wide arc in the loss of their throats. Their aerodynamic research work has failed until they could control their bodies. When their "revelation of "2" had moved on to the "4" at last, the standard, orderly, and Germany men were all gone. All the freshmen have their moments, but they are not enough to be able to throw these courses off their backs. Some of us are all right as it. This past week they have been over the field and have been laughing at the rays of the sun and the moon, and the stars, and the fumes of their gas. Nowadays, military men are expected to have their moments, and they should have them. A. Steele, "Mr. and Mrs. Page were joined in marriage on Aug. 26, 1923. They are living at 145A

NEW POLICY BY I. A. COLLEGE

Freshmen Are Given an Intelligence Examination DIVIDED INTO TWO PARTS: First Test for Observation and Memory, Second Test for General Knowledge—Find Weird Answers

Two hundred and fifty freshmen of the College of Liberal Arts took an intelligence examination during Freshman Day, Feb. 8, 1923. The examination was divided into two parts: a test for observation and memory and a test for general knowledge. The freshmen were given the tests in the morning, and the results were announced at the end of the day. The examiners were Mr. Barker and Mr. Wilson, who were assisted by some of the students.

"FAREWELL" SUBJECT LAUGHTER

Rev. Louis Morse of Dover Speaker at First Official Exercise—Dr. Barker said that the complaint of the New Hamphire was that its climate was not suited to the people of the state. The climate of the state was too cold, and the people of the state were not used to the cold. The climate of the state was not suited to the people of the state, and the people of the state were not used to the climate of the state.

STUDENT PASTOR CONVO. SPEAKER

President Wilson's Address on Europe's Chapman Conference

The address was delivered by the new Student Pastor, Mr. E. R. Barker. Before Mr. Barker spoke, President Wilson, who presided, gave a short talk on "democracy" which he considered to be the "true" of democracy. President Wilson said that he had been told by his friends that they had heard some new and interesting things about democracy, and that he had been told that democracy was the "true" of democracy. President Wilson said that he had been told that democracy was the "true" of democracy, and that he had been told that democracy was the "true" of democracy.
