Agricultural College Announces First Short Course in Poultry.

Will Consist of Lectures and Demonstrations. Modern Poultry Practices to Be Discussed.

Date of School: Jan. 7-26.

Interested Everybody in Commercial Red Bird Raising Urged to Attend—New Poultry Books and Methods of Department Will Supplement Lectures.

The Agricultural College of the University announces its first short course in modern poultry raising. The purpose of the people of New Hampshire, is to give a course in the raising of profitable birds for a short time. The course will be taught by experts in the field, with the exception that the work will be practical work on the poultry farms of the state. In order to make the course as practical as possible, the college will have access to all the materials and equipment necessary. One of the prime goals of the course is to educate the participants in the proper care and handling of poultry. This will include topics such as feeding, housing, and opinions on the best practices for raising different types of birds.

The course will be held at the beginning of the year, on the campus of the University of New Hampshire. It will consist of lectures and demonstrations about modern poultry practices. The course will be taught by experts in the field, with the exception that the work will be practical work on the poultry farms of the state. The course will cover the following topics:

- Care and handling of different types of birds
- Breeding and genetics
- Nutrition and diet
- Housing and environmental conditions
- Health and disease prevention
- Marketing and economics

The course is open to all interested individuals, including farmers, students, and enthusiasts. The cost of the course is $50 per person, which includes all materials and resources. The course will run from January 7 to January 26, with classes held five days per week. The course will be taught by experts in the field, and will provide a hands-on learning experience for all participants.

The University offers financial aid to students who are unable to pay the full cost of the course. The course is designed to be accessible to all interested individuals, regardless of their financial situation. The University is committed to providing accessible education to all who wish to learn about modern poultry practices.

The University of New Hampshire is located in Durham, New Hampshire, and is one of the leading institutions of higher learning in the state. It is home to a diverse and vibrant student body, and is committed to providing an exceptional educational experience for all students. The University is dedicated to promoting excellence in all aspects of education, research, and service.

In conclusion, the Agricultural College of the University of New Hampshire is offering its first short course in modern poultry raising. The course will be taught by experts in the field, and will provide a hands-on learning experience for all participants. The course is designed to be accessible to all interested individuals, regardless of their financial situation. The University is committed to providing accessible education to all who wish to learn about modern poultry practices. The course will run from January 7 to January 26, with classes held five days per week. FORESTRY CLUB TO BUILD FIREPLACE

Will PlaceSame With Least in to Base of Beech Hill—Should Attract More Students to Saturday Afternoon Events

Hereafter when the fair and jocund spirit of the October sun is about to be brought to a close, the time comes when the fraternity club at the University is sure to erect a fireplace and lozenge at the base of the hill. The forestry club met Monday evening at the house of Professor Ward, head of the forestry department. The brothers decided that a wood box should be erected on the hill and that all students should be invited to see it. The leaves were soon piled up and the fire was lighted near the lower end of the hill. The fraternity club is now planning to erect a new sign on the hill near the fire place, where it will, if properly attended to, be a real fire hazard.

SUCCESSFUL SALE HELD BY CHANNING ORGANIZATIONS

The social joint side of the T. W. C. A. and the Rossmoor Woman's Club was the highlight of the New Year's celebration. Although the barbecue was not held on the lawn in front of the fraternity house, the Phi Mu Delta sisters did their part to make the event a success.
