B. U. HAS STRONG TRACK OUTFIT

Coach Cohn Predicts Close Meet Saturday COUGHLIN AFTER RECORD

Boston Team Enters Many Winners Of Last Year—New Hampshire Squad Rapidly Rounding into Form

The Boston University track team comes to Durham Saturday for a dual meet with the New Hampshire team. The outcome of the meet looks to be fairly close, with Coach Cohn's men having more than an even chance to come through, in consequence of their work against Bates last week. Last year's meet between the two teams was won by New Hampshire, 78 to 57. Many of the 1923 winners for the Boston team are entered again this spring.

Coach Cohn has decided that the poor showing made by his middle distance men last week was due partly to the fact that the men ran in both the mile and two-mile run, which followed close upon each other. This week he plans to start Snow in the mile and Peaslee in the two-mile event.

Among the B. U. men scheduled to perform Saturday are Stacey, winner of the mile run last year, Richards, who took third place in each hurdle event; Hearne in the half mile; Maxner, who finished second to Hobart, in the shot-put; Finn who placed in the dashes; McDonald, winner of the broad jump. Coach Cohn also plans to start Eddie Coughlin in the half mile only.

The Coach expects that sooner or later, the little black haired runner is just going to step naturally around the Memorial oval in less than two minutes, one and one-half seconds, which is the track record held by Gordon Nightingale. Saturday may be the day.

The B. U. entries are: Dashes—Finn, Hatch, Ayer, McDonald. 440—Henry, Higgins, Smith. 880—Hearne, Wescott, Cullin, Onthank. One mile—Onthank, Horners, McCarthy, White, Stacey. Two mile—Riley, Stacey, LeBlanc. Hurdles—Richards, Welch, Putney, Collins. High jump—Armstrong, Welch, Lemard. Broad jump—Finn, McDonald, Hatch. Pole Vault—Sweetman, Leonard. Shot put—Maxner, Blake, Rosenberg, Cohen, McDonald. Hammer throw—Blake, Maxner, Cohen, Rosenberg. Discus throw—Murphy, Maxner, Aiken, Rosenberg. Javelin throw—Maxner, Finn, Smith and Rosenberg.

ENGINEERS HEAR HARVARD PROFESSOR

W. J. Cunningham, J. J. Hill Professor of Transportation, Talks on Railroad Management to Technology Students

Monday, May 5, Professor William J. Cunningham, holder of the J. J. Hill chair of Transportation in the graduate school of business administration at Harvard University, spoke to the students of the College of Technology on some specific phases of transportation efficiency. Many members of the faculty as well as several students from the economics department were present at the lecture. This is one of many talks arranged by Dean Crouch of the engineering division in an effort to bring the engineers of the University into touch with the broader phases of business life.

Professor Cunningham began his lecture by saying that the United States is the country of the big train load. He then went on to differentiate between ton miles and train miles and finally showed his listeners several ways by which efficient management on various railroads has reduced operating costs and increased the average tonage of train units. His talk was clear, forceful, and direct, and he concluded his lecture by giving the engineers some comprehensive formulas for determining the tractive power of various types of locomotives.

VARSITY DEFEATS WORCESTER TECH IN FIRST GAME OF TRIP

Coach Swasey and 13 Men on Four-Day Series in Mass. and New York City—Loses Game to Springfield Thursday, 9 to 3

Coach Swasey's baseball nine won the first game of their four-day trip by defeating Worcester Tech, 6 to 4. This rather meagre bit of news was received as The New Hampshire goes to press.

The team left Durham Wednesday morning to be gone until Sunday. Worcester Tech was defeated on Wednesday, the team met Springfield College on Thursday, Manhattan College was played in Brooklyn on Friday, and the final game of the trip with the Crescent A. C. will be played Saturday afternoon at the Crescent Athletic Club grounds, Brooklyn.

When Coach Swasey left Durham, he planned to start Cronin against Worcester, Barnes against Springfield, Garvin against Manhattan College, and Emerson against the Crescent A. C. The Crescent Club has an unusually strong array of players on their club, including such men as the Dugan brothers, formerly of Holy Cross. All the players on this club are ex-college stars; and if Coach Swasey's men come through against them, New Hampshire students can boast that they have a ball team. It is interesting to note that Coach Swasey formerly played with the Crescent Club himself during his college career at Amherst. The Crescent Club recently defeated Manhattan College 5 to 4.

The party which made the trip included 13 men in addition to Coach Swasey. They are, as announced in last week's New Hampshire:

Coach Henry Swasey; M. Campbell, Beverly, Mass.; Daniel Metcalf, Piermont; Carl Garvin, Berwick, Me.; Earl Emerson, Pittsfield; Ernest Barnes, Mason; John Cronin, Needham, Mass.; Robert Nicora, Barre, Vt.; William W. Lufkin, Jr., Essex, Mass.; Shirley Wentworth, Salem, Mass.; Gideon Roy, Rochester; Harold Fernald, Laconia; Edward O'Connor, Peabody, Mass.

PRESIDENT RETURNS FROM WASHINGTON

Attends Important Educational Conferences on the Standardization of Various Phases of College Work—Presides at Committee of Standards of Land Grant Colleges

President Hetzel recently returned from Washington, D. C., where he attended several important educational conferences with which he is associated. He first attended a two-day session of the Committee on College Standards of the American Council on Education. This committee considered a final report on the principles and policies for the standardization of normal schools and teachers' colleges throughout the country. Committees were then appointed for the study of a method by which both the capacity of students to do college work and also the actual achievement of students while in the secondary schools might be determined.

President Hetzel then presided at a meeting of the Committee on Standards of the American Association of Land Grant Colleges, of which he is the chairman. The committees decided to recommend that the American Society of Engineering Educational Institutions, the American Home Economics Association, and the American Association of Land Grant Colleges be requested to set up a standardizing agency that shall establish a definite set of standards to which the member institutions of these various national associations shall be required to adapt their work.

The President then attended a session of the American Council on Education at which our international relationships in the field of education were discussed. Methods were proposed at this meeting by which American students could take part of their academic training abroad and receive credit for their work toward a degree in the United States.

PREP STARS TO RUN TOMORROW

Annual Schoolboy Track Meet Brings Many Visitors

ENTRIES BREAK RECORD

11 New Hampshire Schools and 7 Schools Outside State Entered for Saturday's Meet—Manchester High Sending Strong Team

Over 200 schoolboy track men are due to arrive in Durham on Friday night to compete in the annual interscholastic track meet which will begin Saturday morning. While here the men will be the guests of the fraternities and many individuals in the dorms who have offered to "double up" with their room-mates so that the prep school men may be entertained.

The meet this year is divided into two classes, the in and the out-state schools competing for separate prizes. When the entries closed last Saturday, 18 schools had sent in entries for 210 men, Manchester High leading the in-state schools with 23 entries. This is the largest number ever to compete in the annual meet here and the winners are very hard to pick, as even the favored winners may run up against a snag with so many entrants.

For the meet here. It is expected place in the Maine interscholastic meet last week, has entered 22 men that there will be some keen competition between the men from these outside teams.

Cups will be given to the teams with the high totals and the three men paying in each event will be given suitable medals. As soon as the finals of the schoolboy meet are finished, the B. U. meet will begin. The trial heats of the events will begin Saturday morning at ten o'clock.

The entries for the meet are as follows: Manchester, 23 men; Tilton, 19; Nashua, 18; Pinkerton Academy, 17; Concord, 13; Sanborn Seminary, 10; Colby Academy, 8; Hillsborough, 5; Holderness, 5; Manchester, West Side, 4; Proctor Academy, 2; Out-of-State: Portland, 22; Bridgton Academy, 17; Coburn Classical, 15; Melrose, 15; Westbrook Seminary, 9; Gould's Academy (Bethel, Me.), 8; Dean Academy, 2.

SOCIOLOGY CLASSES WILL TAKE ANNUAL FIELD TRIP

The annual field trip of advanced Sociology classes and the Seminar is being discussed. It is planned to visit the Federal military prison in Portsmouth and the State hospital at Concord to make a study of delinquents and defectives.

GOVERNOR BROWN TO ATTEND JUNIOR PROM.

Dates for Annual House Parties May 23 to 25—Music for Prom. Will Be Furnished by Oak Manor Orchestra of Boston

The time for the Junior house parties has been cut one day shorter than it was last year. The house parties will begin at noon on Friday, May 23, and will end Sunday evening, May 25. This brings the Junior Prom. on Friday night. Special arrangements have been made so that Governor Brown will be one of the guests at the Prom.

As the orchestra is one of the most important parts of any dance, and the Junior Prom. in particular, the committee on music has been able, after much work, to secure the services of the famous Oak Manor Orchestra of Boston. The Prom. will be opened by a half-hour concert by this orchestra, beginning at 7.30, following which there will be dancing until 1 o'clock.

President and Mrs. Hetzel, Mr. and Mrs. Henderson, Director and Mrs. Kendall, and Mr. and Mrs. Peterman will be the chaperones for the Prom.

ORATORY WILL FLOW IN CONTEST TONIGHT

Eleven High Schools Enter Annual Interscholastic Prize Speaking Contest in Community House at 7.30 This Evening

Tonight at 7.30, in the Community House, the Annual Interscholastic Prize Speaking contest of the state will be held. Dr. A. E. Richards will preside and the following members of the English department at the University will act as judges: Professor Harold H. Scudder, Mrs. Melvin Smith, Miss Ruth Bixby, Miss Lillian Byrnes, Mr. Irving Churchill.

Eleven schools have entered the contest and the program is as follows: Dover High, Louise J. Raymond, '24, "Hagar" by Eliza P. Nicholson; Sanborn Seminary, Edith Foster Berry, '24, "A Key to Jim's Heart," by T. Maurice Longstreth; Meredith High, Lawrence Wilkins, '24, "Patriotism," by Nicholas Murray Butler; Appleton Academy, Lois M. Hartshorn, "A Retrieved Reformation," by O. Henry; Conant High, Vivian Bean, '25, "The Fool's Prayer" by Edward A. Sill; W. Lebanon High, Mary J. Degnan, '24, "Renaissance" by Edna St. Vincent Millay; W. Side High, Manchester, Real Desjardins, "Alias Jimmy Valentine" by O. Henry; Dow Academy, Ethel Pease, '24, "The Bishop's Candlesticks" by Victor Hugo; Epping High, Carolyn Woods, '24, "We Speak to Men" by Justin H. McCarthy; Lebanon High, Helen Sargent, '24, "The Highwayman" by Alfred Noyes.

QUARTET OF BOXERS ENTER N. E. A. MEET

Coach Cohn Picks Fitzpatrick, O'Gara, Akmakjian, and W. Smith to Represent New Hampshire at Boston Tournament—Bouts Are Preliminary to Olympic Try-outs

Four members of the New Hampshire boxing team fought in Boston on Thursday night in the New England A. A. U. championship bouts. This was too late for The New Hampshire to obtain the results for this issue.

Captain Fitzpatrick fought in the bantamweight class; "Doc" O'Gara in the welterweight; the hard hitting Akmakjian also fought in this class; and "Bill" Smith fought with the middleweights.

These bouts are held as a preliminary to the Olympic championship bouts for New England. The winners of the various classes at this meet will be pitted against the best amateur boxers of the country in the National amateur championships to be held in Boston the latter part of this month. The winners of this tournament will go to Paris with the Olympic team.

The New Hampshire boxers have been training all winter with the meet on Thursday night as their ultimate goal. If they win there, they will enter the big meet at the end of the month. Fitzpatrick has been growing heavier during the last year and the smart little captain of the Blue and White outfit now has to work hard to make the weight for the bantam class. O'Gara is going in good shape and can be trusted to give a good account of himself in Boston. Akmakjian is always in good condition and he and Bill Smith will act as the heavy artillery of the New Hampshire quartet.

Owing to the fact that the mail was miscarried, this week's issue of "The New Hampshire" will necessarily be one day late.

NEW HAMPSHIRE DAY SUCCESSFULLY CARRIED OUT IN PERFECT WEATHER

Students' Eighth Annual Work Day Ends With Many Improvements Apparent on Various Parts of Campus

NEW FRESHMAN BASEBALL FIELD CONSTRUCTED

Ski Jump Put in Condition for Intercollegiate Meets—Weight Event Field Completed—Swimming Pool and Skating Rink Started—Girls Accomplish Much in Painting Bleachers and Track, Carrying Water, Raking Campus, and Preparing Dinner

The eighth annual New Hampshire Day, held on Wednesday of this week, under perfect weather conditions, ended with the face of Beech hill completely changed, the tile drains in place on the weight event field, a freshman baseball field built, a skating rink and swimming hole well under way, a fifty-yard outdoor gallery range constructed, and officially opened by President Hetzel, a swimming crate, float, and diving board built at the dam, and numerous minor projects either completed or nearly completed.

After several years of hard labor, the weight event field has approached a somewhat level condition, and on Wednesday about 140 men under the direction of Professor Bowler and E. B. Grimes completed the work so that the field can be used for the first time in the B. U. meet on Saturday. Two long drains were laid, rocks were blasted out, the filled area was extended towards the brook many rough places were filled in, and the small knolls leveled off. All that remains now to complete this project is to raise a crop of grass, when the field will equal any weight event field in New England. The men on this project were on the job early and worked at top speed all day, Professor Bowler organizing the work so that one half the men worked for thirty minutes while the other half rested. Several teams were assigned to this project and Captain Boulay and Lynch had a crew of men over by the boiler house shoveling hot ashes into carts faster than the horses could haul them away.

Skating Rink Begun

One of the biggest projects undertaken in recent years was the beginning of work on a skating rink and swimming pool back of the gymnasium. It is planned to build a dam on the small brook which runs from the reservoir down through this field, at a point near the old railroad embankment. The contour of the ground here makes a natural basin for a pond, using a natural bank and the old railroad fill as gravel wings for the dam. Although there is but a small flow of water in the brook it is planned to open the gates at the reservoir when the water is needed. Nearly 100 men reported for work here under the direction of Prof. E. L. Getchell, with Instructor Stollworthy, A. H. French, and K. Berry as assistants. The ground which will be flowed out by the artificial pond to be formed here was covered with a thick growth of small trees, bushes, old logs and other obstacles. The trees were all cut down, the bushes either pulled up or cut, and all the debris finally placed in great piles so that it may easily be burned up. Much of it was destroyed by this method New Hampshire Day. Several teams were at work here, too, scraping off the little knolls and dragging out stumps and logs.

Ski Jump Improved

With approximately 190 men swarming over the side of Beech hill, the ski jump rapidly changed in appearance. The landing incline was made about seven degrees steeper,

CHI OMEGA HOLDS MAH JONG DANCE

Decorations in Gymnasium All Unusual for First Time in Several Years—Oriental Atmosphere—Music by Blue Serenaders

A dinner-dance was given by the Chi Omega fraternity on Saturday evening, May 3. The dinner was held in the Community house and the dance in the big gym. The dance was of the popular Mah Jong type, the first held on this campus. All the pieces of the Mah Jong set were represented and the four winds were graphically illustrated with the aid of electric fans. A Buddha shrine added to the Oriental atmosphere. Music was furnished by the Blue Serenaders. The chaperones were: Mrs. E. P. DeMeritt, Mr. and Mrs. R. D. Paine, Mr. and Mrs. Sidney Wentworth, Mr. and Mrs. Perley Fitts, Capt. and Mrs. Charles Pettee, Mr. and Mrs. Russell Garland.

The guests were: Dixie Hoyt, '24; Fred Merrill, '24; William Sayward, '25; Marshall Campbell, '26; Francis Burke, '27; Lyle Bell, '26; Winslow Jennings, '25; Thomas Snow, '24; Russell Smith, Kenneth Morse, Bernhard Menke, '24; Wilfred Lufkin, '25; Harold Pratt, '24; Frederick Robinson, '27; Willard Smith, Austin Hubbard, '26; Melville Taylor, '27; Paul Keller, '26; Elton Gustafson, '26; Stanley MacConnell, '26; Carl Hill, Kenneth Hill, Norman Briggs, '24; Donald Scott, '26; Jack Davis, William Smith, '24.

which, added to the three degrees cut off last year, makes ten degrees that the hill has been cut down since the jump was built. The incline was smoothed up and a layer of turf put over it, making a wonderfully smooth landing place to please the eye of any expert ski jumper. At the right hand side of the incline a novice jump was built, over which a leap of 20 to 40 feet will be possible, and which will be popular with those to whom the big jump proves too much of a thrill.

On the left hand side of the incline a toboggan slide was built, in the form of a trench from one to three feet deep, into which the snow will settle, making a natural slide several hundred feet long.

All the boulders, brush, and roots on the incline were taken away, and the bad bump on the lower side of the road was filled in and levelled. The brush in the lot on that side of the road was cut and burned, thus removing a nuisance at the end of the run.

The cabin was completely rebuilt and in a more favorable position, and a stone fireplace built in front of it. The men were divided into two shifts, thus keeping the work going efficiently from morning until night. (Continued on Page Three.)

CALENDAR OF EVENTS

Saturday, May 10

Baseball: Varsity vs. Crescent Athletic Club at Brooklyn, N. Y.
2.00 p. m. Interscholastic track and field meet, Memorial Field.
2.00 p. m. Varsity track meet: New Hampshire vs. Boston University.
2.00 p. m. Interfraternity baseball: Tri Gamma vs. Theta U.
4.00 p. m. Interfraternity baseball: A. T. O. vs. S. A. E.
8.00 p. m. Informal in men's gymnasium.

Sunday, May 11

9.00 a. m. Episcopal services, morning prayer and Holy Communion at Community church.
10.00 a. m. Celebration of the Holy Sacrifice of the Mass, Morrill hall.
10.00 a. m. Bible classes at Community church.
10.45 a. m. Morning worship at Community church.
7.00 p. m. Theatre service.

Monday, May 12

4.15 p. m. Interfraternity baseball: Delta Pi Epsilon vs. Phi Mu Delta.
7.00 p. m. Meeting of Y. W. C. A. cabinet.

Tuesday, May 13

4.15 p. m. Baseball: Freshmen vs. Goddard Seminary on College Field.
4.15 p. m. Interfraternity baseball: Lambda Chi Alpha vs. S. A. E.

Wednesday, May 14

1.30 p. m. Convocation.

Thursday, May 15

4.15 p. m. Baseball: Varsity vs. Boston University on College Field.
4.15 p. m. Interfraternity baseball: Tri Gamma vs. Phi Mu Delta.
6.00 p. m. Annual Aggie Club banquet.

Friday, May 16

Baseball: Freshmen vs. Tilton School at Tilton.

Saturday, May 17

2.00 p. m. Baseball: Varsity vs. Clarke on College Field.
Baseball: Freshmen vs. Laconia at Laconia.
8.00 p. m. Smith hall dance.

Friday, May 23

12.00 a. m. (noon) Start of Junior house parties.
8.00 p. m. Junior Prom. in men's gymnasium.

Sunday, May 25

Junior house parties end.

Wednesday, May 28

8.00 p. m. Une soirée de Français, Thompson hall gymnasium.

NOMINATIONS

The time for the annual election of the officers of the Athletic Association is only four weeks off. Three weeks from last Wednesday the entire period for Convocation will be given over to the students in which to nominate their Athletic Association leaders for next year. In the past the method of making these nominations has been ludicrous and non-parliamentary. A whole hour is given over to a fruitless bantering between members of the junior class—for most of the offices are open only to seniors in the coming year—who make the nominations in a purely retaliative and nonsensical way. While this is going on, the rest of the students, all of whom are eligible to vote and make nominations, are either trying to sleep or are talking about everything but the business before them—that of nominating competent leaders. The freshmen, who have absolutely no idea of what is going on, hold up their hands when they see the upper classmen do this. They stand when they see the upper classmen and women stand or when they think that they may have to. It might be the ritual of some mysterious order in India for aught they know of what it is about or what the meaning of it all is.

The freshmen are not alone in their mimicry. Most of the sophomores and the upper classmen are just following one or two leaders. When at last the required number of nominations has been made, the meeting is adjourned after more delay while all wait for someone to make a motion to adjourn.

Such is the way in which nominations for the presidency of the Student Council and of the Athletic Association, for the cheer leaders and assistant cheer leaders, for faculty and student members of the executive committee, for vice president, and for secretary of the Athletic Council are made.

Last week The New Hampshire suggested a better method for the nomination of the President of the Student Council. This week The New Hampshire offers the following suggestion for the nomination of the other officers listed above. Have all candidates, except the faculty members, make out regular nomination papers. Those men and women who have the required number of names, say twenty, attached to their papers will present their nomination papers at the annual meeting of the Athletic Association. No nominations would be made from the floor. Only those who presented properly filled out papers would have their names on the ballots and could thus be voted for. The nomination of the faculty members could be made by the nominating committee which already exists under the present constitution.

In this way all the confusion and the lack of interest involved in the present method will be done away with. Another advantage to this is that it will require the students to do a little thinking about the qualifications of the candidates for the various positions. This one feature alone is worth

the effort of trying to put this plan across and of getting it into action this year. To do this an amendment to the Constitution of the Athletic Association is needed. Let such an amendment be made and adopted immediately.

U. OF MAINE NINE
DEFEATS VARSITY

Four of Visitors' Runs
Scored on N. H. Errors

FINAL SCORE IS 5-3

Heavy Hitting by Wentworth and O'Connor Features Game Which Blue and White Team Should Have Won

New Hampshire met its first defeat Roy, 3b 2 0 1 2 1 2 2 0 hands of the University of Maine on College Field Tuesday afternoon, May 6, 5-3. Wentworth and O'Connor featured for New Hampshire, each with a three base hit. While Perry, the Maine pitcher, allowed ten hits to the New Hampshire batters, he pitched a good game, keeping the hits well scattered and striking out ten N. H. batters. O'Connor made an attempt to steal third and home in the third inning and this play proved to be both interesting and funny. "Okky" got caught between second and third trying to make the third sack. He ran back and forth several times and finally the ball hit him and he made third safely. There was a little fuss here between the visitors and the umpire and "Okky" started home. The Maine players woke up when he was well on his way to the rubber. The ball was thrown to the catcher and Eddie dodged the backstop but in the act fell and was tagged out. It took at least five of the Maine team to make this put-out.

Hectic Fifth Inning

The Maine team didn't have any better ball players or any better teamwork than New Hampshire. It was a hectic inning in the fifth that brought New Hampshire all her trouble. Garvin, who started his first game of the season, was slightly off form. Driscoll, the first man up in the fifth, pitched to left and was thrown out at second when Dunham was safe at first. Garvin gave Perry a base on balls and hit the next man to bat. At this point Coach Swasey put Barnes, his speed ball pitcher, into the box. Barnes got a bad break at the outset. He forced the first batter to hit weakly to him and then made a wild throw to first base. This error allowed the three men on bases to score and the runner to make third base. Lufkin allowed one to roll through his legs, scoring the man at third. With four runs, none of which were earned, Maine tucked away a lead of three runs which meant the game. New Hampshire tightened up after this inning; but the damage was done. The home team made desperate attempts to get back the lead and did manage to get some hits, but the Maine pitcher kept these well scattered and the final inning found Maine still three runs in front.

Hit by pitched ball—King, by Garvin. Struck out—By Barnes 3, by Perry 10. Wild pitches—Perry. Umpire, Tilton. Time, 2.

TEAM PLAYS GOOD BALL

Bruce and Shinnick Pitch Opening Games—All Fielders Play Errorless Ball in Second Contest—Team Should Have Successful Season

The freshman baseball team opened its season in Amesbury, Mass., defeating Amesbury high school 8 to 7, on Saturday, May 3, and then completely outclassed the nine from Tilton School, 11 to 0, on the following Monday in Durham.

The game at Amesbury was a close affair with the local nine leading throughout the contest. The Massachusetts high school team threatened to tie the score in the eighth inning, but the rally was stopped with the frosh still in the lead. Shinnick pitched for the locals and was relieved in the eighth by Bruce. Both teams hit the ball freely, but the freshmen bunched their hits and pushed across the necessary tallies.

Tilton school looked very weak in their game here and were completely outclassed by Coach Gustafson's hard working men. Bruce pitched the full game for the 1927 team and held the Tilton hitters to two hits. The freshmen have a good catcher in French, and the work of the battery men looked especially good. Jenkins made several pretty catches in the outfield. He also scored two runs and is credited with one hit.

The freshman infield look as though they will develop into a fast working outfit. The fact that the men played errorless ball, except for one error credited to pitcher Bruce, speaks well for the general fielding of the men. Dagnino played first for the winners and Coach Gustafson later substituted Larson, also using several other subs in the infield before the contest was over. English, a member of the 1927 class here last fall, played a good game for the visitors at second, although he failed to connect for a hit. The summaries:

Results of fertilizer tests with peach trees at the New Hampshire University Experiment Station in 1923 showed an average increase of a basket per tree in the plots where nitrate of soda is being applied. The best yields were obtained from the use of 200 lbs. of nitrate of soda and 120 lbs. muriate of potash per acre.

Extension Agents and Coop. Agencies

In order to avoid any misunderstanding as to the relationship between extension workers and cooperative business agencies, the University of New Hampshire has just issued a memorandum calling attention to the following ruling of the Board of Trustees:

"No officer or employee of the university shall act in any capacity as treasurer or financial agent for any organization identified with our extension service or any cooperative agricultural activity without the written approval of the university authorities."

Similar rulings have been made by the United States Department of Agriculture.

It is pointed out that these rulings are not intended in any way to prevent counsel or encouragement on the part of extension workers in the formation of cooperative agencies, a function which is recognized as an important part of their duties—but only to make clear that they have no financial relation with such agencies.

That this point may not be generally understood by the public was indicated recently by a story which found its way into print to the effect that county agents receive \$1.50 per ton for feeds sold cooperatively by county exchanges. The author of this absurd statement had evidently confused the county agent with the central cooperative headquarters for the New England grain pool. The extension agent is, of course, a public employee and cannot handle funds nor serve as a fiscal agent for cooperative buying or selling.

MILITARY BOOK CATALOG BEING DISTRIBUTED FREE

To R. O. T. C. students of special interest a descriptive catalog of selected military books that is now being distributed gratis by the Quartermaster Association, 1624 H street, N. W., Washington, D. C. The books are arranged according to subject (strategy, tactics, military history, physical training, infantry, cavalry, etc.), only a limited number of standard works being listed under each heading. After every title are given the name of author, year of publication, number of pages, and a brief description of the book. Because of its arrangement, this catalog, which is the first of its kind that has ever been published, is also a splendid, reliable guide to military literature. It will be of great help not only to military men but also to civilian librarians who will be especially interested in the complete and admirable manner in which the subject of military history is covered. Copies can be obtained gratuitously upon application to the Quartermaster Association.

FRESHMAN NINE
WINS TWO GAMES

Defeat Amesbury High 8-7
Then Trim Tilton 11-0

PITTSBURG TO HAVE PICNIC IN RIVER VIEW PARK

Hold Meeting on April 26
At Home of Prof. Nesbit

CHANGES IN ADDRESSES

Several Alumni Around Pittsburgh Have Recently Changed Residences—Word Received from Peter J. Doyle, '22, and "Bill" Haggerty, '22

The Pittsburgh Branch of the University of New Hampshire held a very pleasant meeting at the home of Prof. and Mrs. A. P. Nesbit at 423 Hampton Ave., Wilkesburg, Pa., April 26, 1924. Plans were made for a picnic to be held Saturday, May 31, in River View Park on North Side. Following the picnic the group plans to look through the three big telescopes there.

The Pittsburgh Group held a successful bowling party on April 11. There were about twelve present, including men and women.

The Manchester Branch of the Alumni Association are making plans for a big dinner and meeting at the Temple on Market street, Manchester, on the night of May 16. It is anticipated that President Hetzel will be the speaker of the evening. The committee in charge consists of: A. E. Twaddle, '21, D. W. Anderson, '10, and R. S. Harmon, '22.

William J. Haggerty, '22, is short stop for the Reinhold Ice Cream Company's baseball team of Oakmont, Pa. This team finished second in the intercity series last year.

Peter J. Doyle, '22, writes us that he is studying medicine at McGill University. He may be reached at The University Settlement of Montreal, 179 Dorchester street West, Montreal, Canada.

A printed postal was received this week at the General Alumni office with the following:

UNIVERSITY OF NEW HAMPSHIRE ALUMNI MEMORIAL SCHOLARSHIP FUND

145A Belmont St.,
Everett, Mass.
May 3, 1924.

Dear Alumni:—

The fund received this week was \$19.00, giving a total of \$310.00. Those donating this week are: "Charlie" Cone, '08; C. W. Kemp, '11; J. E. Ladd, '13.

When an alumni association agrees to support a project, it means support. Our association has made a definite agreement as regards these scholarships. The obligation to keep that agreement is as much your affair as mine. One of the questions that will have to be decided at our Alumni meeting, in June, will be: Where are we going to raise the money for this deficit? There is only one place where it can come from, and that is from you as individuals. There are no surplus funds in the Alumni Treasury. It certainly won't be fair to continue this another year, so it is up to each one of you individually to do what you can towards the support of your own project. The other fellow isn't going to do it. It's strictly up to you.

We have played fair in this matter, and according to the agreements we made nearly two years ago, your Alumni meetings and dinners and commencements have been singularly free from our begging. Play fair with us in return, and we'll put this across.

Yours for New Hampshire

"ED." HARDY.

This game is especially for the benefit of the N. Y. Alumni. Let's all be there and make it a real Alumni Week End. Take the downtown B. R. T. Sea Beach Express to 50th St., take 4th Ave. Local 59th to 86th.

The boys are staying at the Hotel Pennsylvania. Let's show them a good time after the game.

H. C. Forbes, Secy.-Treas.

The following alumni around Pittsburgh have changed residences in the last few months: Prof. and Mrs. McKay with Mary E. Bailey, '20, are living at 3410 Iowa St., Schenley Heights, Pittsburgh, Pa.; Mr. and Mrs. Edgar Ross, '17, are living at 4339 Dakota St., Schenley Heights, Pittsburgh, Pa.; Mr. and Mrs. Charles Cone, '08, are now at 6475 1/2 Aurelia St., Pittsburgh, Pa.; and Mr. and Mrs. Leslie Lynde, '20, are living at 1316 Wood St., Wilkesburg, Pa.

NEW HAMPSHIRE DAY SUCCESSFULLY CARRIED OUT IN PERFECT WEATHER (Continued from Page 1)

At the end of the day's work, Michelson, the intercollegiate ski jumping champion, remarked that it is the best jump that he has seen. Professor Perley, who was one of the assistants in charge, says that the work accomplished this year will make possible a very successful intercollegiate meet, the plans of which are being made for next year. Gallery Range Built and Opened

With President Hetzel operating one machine gun, Mrs. E. B. Walker another, R. F. Draper, '24, shooting an automatic rifle, R. D. Stevens, '24, a Springfield, Miss Una Walker, a gallery rifle, and Captain Pettee a pistol, the new 50-yard outdoor gallery range was officially opened.

The new range is located just east of the old railroad track about 500 yards south of the Shop Building. It is suitable for all small arms shooting at any distance up to 50 yards. Its principal use however, will be for pistol and machine gun fire. Musketry problems can be worked out on it using a single squad of men.

A range house was moved from the old range to the new one and will be used for storing targets and range material. A bridge was built over the gully which separates the target from the firing line.

This range will be open for the use of all the members of the University and it is expected that an afternoon will be set apart for the faculty if they desire to use it.

The construction of the range was in charge of Capt. Pettee with Draper, Gunn and Severance as assistants.

Work at Mill Pond

Under the direction of L. J. Batchelder, a crew of about 40 men was kept very busy at the Mill Pond, so busy, in fact, that the men didn't even have the time or permission to smoke.

Here a bath house, 20 by 10 feet was practically finished, a swimming grate was built and launched, and a wharf, on which will be a diving board and tower, was framed and made ready to be put into the water.

The work on the bath house was carried far enough so that, with a little additional work, it will be ready for immediate use. The swimming grate when properly sunk, will form a sort of artificial bathing beach with safety ropes attached. The diving wharf will fill a long felt want of the more expert swimmers.

Miss Mayme MacDonald, women's physical education director, announces that she will start a swimming class as early as possible, probably the first of the week, if enough devotees of ice water baths can be found.

Freshman Baseball Field

A crew of about 30 men, with seven teams and all the necessary equipment of scoop shovels and plows did a great piece of work in practically completing the levelling of a new freshman baseball field, in the rear of the horse barn. All that now remains to be done is to seed it down to grass. A large amount of dirt had to be moved and levelled off in accomplishing this, practically a whole knoll being moved to fill in other hollows. The work was carried on in a very efficient manner, under a boiling sun, with no nearby shade.

Much Painting Done

"The best detail I ever bossed," was Harvey Cohn's comment on the

group of painters who under his direction, assisted by Rachel Penell, completed Project No. 9. In all 16 bleachers were painted and the board track in the rear of the Gym changed color when the brushes of 60 girls started moving. The detail started on the bleachers at the baseball field and finishing them were able to do the board track before noon. A specially prepared paint furnished by Mr. Hayes was used on both the bleachers and track. Miss E. N. Henderson and S. Tarleton assisted Miss Pennell and Coach Cohn in directing the work.

Faculty Work

Even the faculty worked, and anyone visiting the Faculty club on New Hampshire Day would say they did a good day's work. The addition to the Faculty club was screened, the billiard tables were overhauled, the windows, floors and lights were washed, and the furniture was polished and repaired. Mr. Johnson acted as general supervisor.

The faculty tennis courts received their annual spring cleaning, and the wire back stops were repainted.

Girls Rake Campus and Wood Paths

The improved appearance of the campus is due to the efforts of a group of girls working under the direction of Mrs. McLaughlin and Miss Osgood. They raked up the dead grass, twigs and other material which had accumulated on the lawns. According to a rumor four rake handles were broken by this group. Whether this is true or not the fact remains that they did good work.

With five girls' teams working on them, the paths in the college woods were improved in appearance very much. This project, which was in charge of Prof. J. R. Hepler with Prof. K. W. Woodward and Miss E. Baker as assistants, consisted of raking the sticks and stones from the paths and trimming off the overhanging branches made a marked improvement in the appearance of the different paths and made walking in them a less tiresome matter.

Dinner at Noon

All teams knocked off work in time to reach the campus at noon, and at 12.15 at the tolling of the "T" hall bell, the grand parade for dinner began, in the form of three long lines stretched across the campus in front of DeMerritt hall. Then the fun began. All the hungry workers were accommodated in short order, and in equally short order the chicken salad, scalloped potatoes, rolls, coffee, and apple pie a la mode were accommodated, while the band, from their position at the foot of the flagpole, "made music all the while." 450 pounds of chicken, 150 pounds of veal, 10 bushels of potatoes, 400 pounds of coffee, gallons of ice cream, and Heaven knows how many rolls were required to feed the hungry multitude.

Dinner over, there was a half hour rest period, during which the crowd indulged in all kinds of horse play, from pushing "Jock" Sanborn around in a red "flivver bug" to building human pyramids and throwing water. Then all hands stood and sang "Alma Mater," to the accompaniment of the band, while the "T" hall bell tolled again, announcing that it was time to get back to work.

The work of more than 70 girls and 15 men was required to make this noon meal the success that it was. On the afternoon of the day before preparations for it were already going on at the Dafr building and Home Ec. Lab. The whole commissary crew was kept busy at the Commons, Dairy building and Home Ec. Lab., and the continuous service of a motor truck was required to bring all the materials together at the place in front of DeMerritt hall. Another crew of about 35 were required for clean-up work afterwards.

Throughout the day the water girls, under the direction of Miss Margaret King, supplied the demands of the thirsty laborers at the various projects.

The management of the tool supply was ably handled by Professor Getchell and his assistants, one of whom had complete charge of the tools at each project.

From early morning until sunset the University flag, recently presented to New Hampshire by the Dover Chamber of Commerce, flew from the flagstaff below the American flag. This was the second time that the flag has been displayed and it was the first time it has flown all day. At the end of the working day, 4

ALUMNI LUNCHES

The following Alumni Clubs hold regular scheduled lunches. The Pittsburgh Group lunch at the William Penn Hotel Cafeteria, Thursday noons, at 12.30 p. m. The Boston Group lunch at Louis Cafe on the second Tuesday of every month between 12 and 2 p. m.

o'clock in the afternoon, dancing started in the gymnasium and lasted until 6, when the crowd dispersed, each with thoughts that another milestone in the history of New Hampshire had been passed.

SIDELIGHTS ON NEW HAMPSHIRE DAY

"Old Sol" smiled beneficently on the labors of New Hampshire's thousand or more students when they all turned out to work for their Alma Mater on New Hampshire Day.

There was no place for the "dude" on the campus on this all important occasion. Early in the morning everyone was dressed in working togs and various improvements about the campus at nightfall testified to the amount of their labors.

There is nothing on the campus that has not been put into better condition by the exertions of the student body.

The band was surely greatly appreciated by the workers. It seemed to put more "pep" into them and was a real help.

Thorough the efforts of the "Co-eds," our baseball bleachers have taken on a real spring splendor. They (the girls) are surely artistic with the paint brush.

Even the ski jump was not too far away to come in for its share of improvements. With the work done on the jump New Hampshire Day we ought to see our great Gunnar doing longer jumps than ever next year.

There was not a part of the campus that was not covered with a party of busy workers all morning. At noon, however, the workers concentrated in front of DeMerritt hall, and, needless to say, they cleaned up everything before them.

The work in front of DeMerritt proved that our "Co-eds" can cook as well as do other real manual labor. The way the chicken salad, apple pie and ice cream disappeared showed that N. H. girls can make the boys like to adorn their insides as well as the exterior portions of their anatomy.

Captain Pettee's crew at the pistol range did a fine job. "Prexie" showed the boys how a machine gun should be used when the dedication of the new range took place in the afternoon.

President Hetzel, machine gunner; Miss Una Walker, crack shot of the "Co-ed's" rifle team; "Mud" Stevens, rifleman; Lt. Col. Draper, R. O. T. C. automatic rifleman; Captain Pettee, pistol expert; and Mrs. E. B. Walker, wife of Major Walker, first in command of the New Hampshire University R. O. T. C., fired simultaneously at the target the volley that dedicated the new range, while all the men whose labors produced the finished product were interested spectators.

The end of a "Perfect Day" was spent in the Gym where dancing was enjoyed from 4 until 6 o'clock.

Whatever your "Choice of a Career," college training has increased your economic value, and whatever business or profession you enter, adequate life insurance is a proper self-appraisal of your powers in that direction.

The traditions, practices, and financial strength of the JOHN HANCOCK Mutual Life Insurance Company are such that a college man can take especial pride in having a John Hancock policy on his life. It is also a distinct asset from the start. It will pay you to buy it; and later on, should you think of joining the field corps of this company, it will also pay you to sell John Hancock policies. Our representatives will tell you just how, and assist you in selecting both your career and your insurance.

LACONIA HIGH WINS DEBATING CHAMPIONSHIP

Defeats Pinkerton in
Finals for Parker Cup

DECISION MADE ON POINTS

Academy Team Lost by 218 to 232—
Rivalry Between Supporters Runs
High—Misses Lamb and Coburn
of Victors Best Debaters

By piling up 232 points to Pinkerton Academy's 218, Laconia high school last Friday evening at the Community house won the championship of the interscholastic debating league and gained possession of the Walter M. Parker debating cup, which is awarded annually to the league leader. The rivalry between the supporters of the school teams was great, and spirit ran high up to the last minute. Both schools had cheering sections made up of "Royal Rooters" who came to Durham especially to urge their teams on. In the evening the Laconia rooters were led by Miss Alberta M. Lamb.

Each school debated on both sides of the question, "Resolved, that the Philippine Islands should be granted complete independence within five years." Laconia's negative team won the afternoon debate 3 to 2. In the evening Pinkerton's negative team won by the same score. This tying of the team scores necessitated the rendering of the final decision on the basis of the highest number of points scored by the speakers for each school, regardless of the side upon which they debated. In this way Laconia won 117 points in the afternoon to 108 for Pinkerton. In the evening Laconia had 115 to Pinkerton's 110.

As ranked by the judges of the debates, Miss Aleberta L. Lamb, upholding the negative for Laconia and Miss Cythera Coburn, a member of Laconia's affirmative team, were the best debaters in the discussion. Mr. Ross L. Bell (Pinkerton, affirmative) and Mr. Dana J. Condon (Pinkerton, negative) were selected as being the two next best.

Mr. Louis J. Freedman was the Laconia coach. Pinkerton had two coaches, Mr. John W. Condon for the affirmative and Miss Helen Plumer for the negative.

Mr. William G. Hennessy, director of the league, acted as presiding officer for the afternoon debate. In the evening he announced the decision of the judges and presented the handsome Walter M. Parker cup to a representative of the Laconia team. Before making known the results of the debates, Mr. Hennessy expressed his pleasure in finding that in the Granite State debating had not languished. The accomplishments of the league, in spite of the many hours of drudgery "in writing letters and soothing broad-shouldered minds" have given him, he said, a great deal of pleasure and confidence in the work the league has completed this year. After reminding the contestants that they were all winners in the sense that actual benefit had been derived from the work, Mr. Hennessy announced the name of the championship school.

The personnel of the teams and the judges follows: In the afternoon: Pinkerton Academy, affirmative, Miss Frances E. Sondergrad, G. Ernest Thomas, and Ross L. Bell, with Miss Grace L. Lord as alternate. Laconia high school, negative, Miss Alberta L. Lamb, Miss Bernice M. Hopkins, and James A. Haddock, with Miss Elizabeth Prime as alternate. The presiding officer was Mr. Hennessy. The board of judges was made up of Professors H. H. Scudder, James H. Marceau, Mrs. M. M. Smith, Miss Ruth E. Bixby, and Mr. Irving L. Churchill. At the evening debate: Laconia, affirmative, Miss Beatrice G. Aldrich, Miss Cythera Coburn, and Arthur R. Nighswander, with Bernard J. Hopkins as alternate. The Pinkerton team was composed of: John H. True, Amerst E. Huson, and Dana J. Condon, with Miss Florence M. Clark as alternate. Dr. Alfred E. Richards was the chairman. On the board of judges were Dr. J. W. Twente, Professor D. C. Babcock, Miss Lillian Byrnes, Mr. Norman Alexander, and Mr. J. T. Law.

SENIOR DANCE HELD ON FRIDAY, MAY 2

Gymnasium Decorated with Blue and White Streamers, Japanese Lanterns, and Palms—Music by Blue Serenaders

One of the most successful social events of the season took place Friday evening, May 2, when the class of 1924 held the annual Senior Dance in the men's gymnasium.

The hall was artistically decorated with streamers of blue and white, Japanese lanterns, and palms. Varicolored balloons and distinctive styles in paper caps added much to the gaiety of the occasion. Music was furnished by the Blue Serenaders.

The patrons and patronesses were Mr. and Mrs. H. W. Cohn, Mr. and Mrs. H. F. DePew, Captain and Mrs. C. H. Pettee, and Mr. and Mrs. A. O. Morse.

N. H. WINS FIRST MEET WITH BATES IN THREE YEARS

Make Comeback Against
Rivals in Surprise Win

FINAL SCORE 69 TO 66

Coughlin Wins Thrilling Half—Jumpers Take Every Place—Dash Men Score Heavily in Sprints and Hurdles

Coach Cohn's track team upset all previous predictions and threw the dopesters into a smoky haze when they defeated the Bates College track team 69 to 66 in a dual track meet held on Memorial Field May 3. This was the first New Hampshire victory over Bates in track in three years.

Archibald, the Bates ace, equalled the college record for the quarter, held by Melville, '20, when he stepped around the oval in 52 seconds. Eddie Coughlin was close on his heels but was unable to match the sprint of the red jerseyed runner in the home stretch. Coughlin ran a beautiful race in the half mile and beat Corey of Bates by inches at the tape. The surprise of the day was the way in which the New Hampshire dash men and hurdlers came through. Up at Orono the week before, the Blue and White sprinters had not rounded into condition and failed to win the points of which they are capable; but last Saturday things looked much better, and the work of Brown and McManus in the sprints, and Gunn and Draper in the hurdles, hung up some points for the home team that turned a seeming defeat into victory. Coach Cohn's team is weak in the middle distances, however, and the Maine aggregation took every place in both the two mile and the mile run.

New Hampshire did well in the field events. Bridges was not forced to extend himself in the pole vault, and Stevens showed that he is coming along in that event by taking second. The New Hampshire jumpers turned in some good performances, taking three places in the high jump and the first two in the running broad.

The Bates men had the edge in the weight events although "Speed" Hartwell managed to win first place in the shot put and Follansbee took third in the hammer. The discus was won by Tracey of Bates with his teammate, Williamson, second, while Luce of Bates beat Eddie Warren of New Hampshire in the javelin by a scant 4 feet. Glenn Stearns took third place in both the javelin throw and the discus.

The results of the meet showed that Coach Cohn's charges are capable of much better work than they showed against Maine and the work of the past week, together with the warmer weather, is fast rounding the men into A1 condition.

120-yard high hurdles—Won by R. F. Draper, New Hampshire; M. Burdill, Bates, second; R. F. Gunn, New Hampshire, third. Time, 17 2-5s.

One-mile run—Won by A. Brown, Bates; S. Holt, Bates, second; F. Sannels, Bates, third. Time, 4m 38 2-5s.

110-yard dash—Won by R. Brown, New Hampshire; P. Knight, Bates, second; Baker, Bates, third. Time, 11s.

440-yard run—Won by C. Archibald, Bates; S. Wilson, Bates, second; R. D. Stevens, New Hampshire, third. Time, 52s.

Two-mile run—Won by A. Willis, Bates; F. McGinley, Bates, second; S. Holt, Bates, third. Time, 10m 16 3-5s.

220-yard dash—Won by R. Brown, New Hampshire; J. McManus, New Hampshire, second; J. Baker, Bates, third. Time, 23 4-5s.

220-yard low hurdles—Won by R. F. Gunn, New Hampshire; R. F. Draper, New Hampshire, second; D. Giddings, Bates, third. Time, 28s.

880-yard run—Won by E. Coughlin, New Hampshire; R. Corey, Bates, second; P. Nelson, Bates, third. Time, 2m 4 1-5s.

High jump—P. Davis, B. Menke, M. Mansell, New Hampshire, tied for first. Height, 5 ft. 1 in.

Shotput—Won by A. Hartwell, New Hampshire, distance 87 ft.; Leighton, Bates, distance 36.5 ft., second; W. Ledger, Bates, distance 35.6 ft., third.

Run, broad jump—Won by P. Davis, New Hampshire, distance 19 ft. 11 in.; J. McManus, New Hampshire, distance 19 ft. 5 in., second; C. Hinds, Bates, distance 19 ft. 3 in., third.

Javelin throw—Won by M. Luce, Bates, distance 140 ft.; E. Warren, New Hampshire, distance 145 ft. 2 in., second; G. Stearns, New Hampshire, distance 145 ft., third.

Hammer throw—Won by A. Peterson, Bates, distance 109 ft. 5 in.; F. Rowe, Bates, distance 94 ft. 5 in., second; S. Follansbee, New Hampshire, distance 93 ft. 8 in., third.

Discus throw—Won by A. Tracey, Bates, distance 117 ft. 2 in.; S. William, Bates, distance 109 ft. 21 in., second; G. Stearns, New Hampshire, distance 104 ft. 4 1/2 in., third.

Pole vault—W. Bridges, New Hampshire, and R. D. Stevens, tied for first, height 9 ft. 9 in.; A. Tracey, Bates, height 9 ft. 6 in., third.
