DURHAM, NH - President Joe Biden's job approval rating in New Hampshire has dipped since January as Republican disapproval rises. A slim majority oppose the acquittal of former President Donald Trump and larger majorities do not want Republicans to keep following Trump's leadership and do not want Trump to run for President again in 2024. Granite Staters are divided on raising the minimum wage and canceling student debt, with large majorities of Democrats in favor and Republicans strongly opposed.

These findings are based on the latest **Granite State Poll***, conducted by the University of New Hampshire Survey Center. One thousand eight hundred and sixty-one (1,861) Granite State Panel members completed the survey online between February 18 and February 22, 2021. The margin of sampling error for the survey is +/- 2.3 percent. Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the NH Secretary of State and 2020 election results in NH. Granite State Panel members are recruited from randomly-selected landline and cell phone numbers across New Hampshire and surveys are sent periodically to panel members.

Presidential Approval

President Joe Biden has been in office only a month, but already, there are signs that his honeymoon in New Hampshire may be ending. More than half (53%) of New Hampshire residents approve of Biden's performance as president, 45% disapprove, and 2% neither approve nor disapprove or don't know. Biden's net approval rating (the percentage who approve minus the percentage who disapprove) among Granite Staters is +8, down from +18 in January. Despite the increased disapproval, Biden's net approval rating is significantly higher than former President Trump's was in February 2017 (-5). Biden's net approval rating among Democrats (+96) and Independents (+4) is largely unchanged, but his net approval rating among Republicans (-79) has fallen considerably since January (-57).

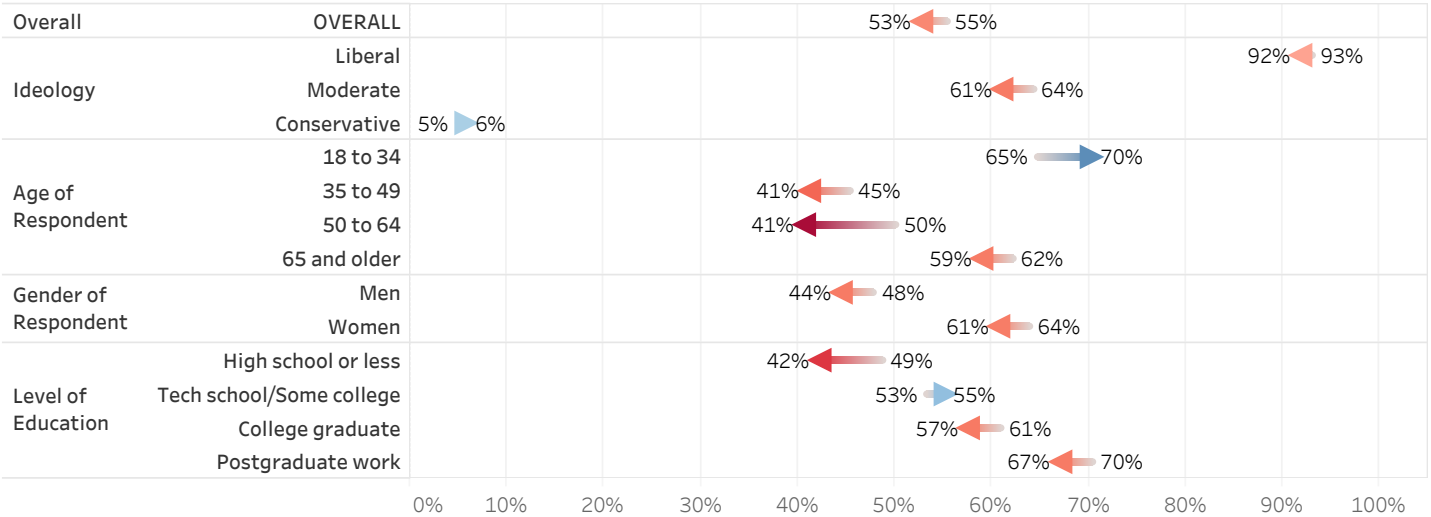

Approval of President Biden's Job Performance

* We ask that this copyrighted information be referred to as *the Granite State Panel*, conducted by the University of New Hampshire Survey Center.

- Nearly all self-described liberals (92%) and six in ten (61%) self-described moderates approve of Biden's handling of his job but only 6% of self-described conservatives agree. All three groups have not significantly changed their opinion of Biden's job performance since January.
- Women (61%) remain more likely than men (44%) to approve of Biden's job performance. Both groups have not significantly changed their opinion of Biden's job performance since January.
- Respondents with a high school education or less are slightly less likely than in January (-7 percentage points) to approve of Biden's job performance. Those with higher levels of education remain more likely to approve of Biden's performance.

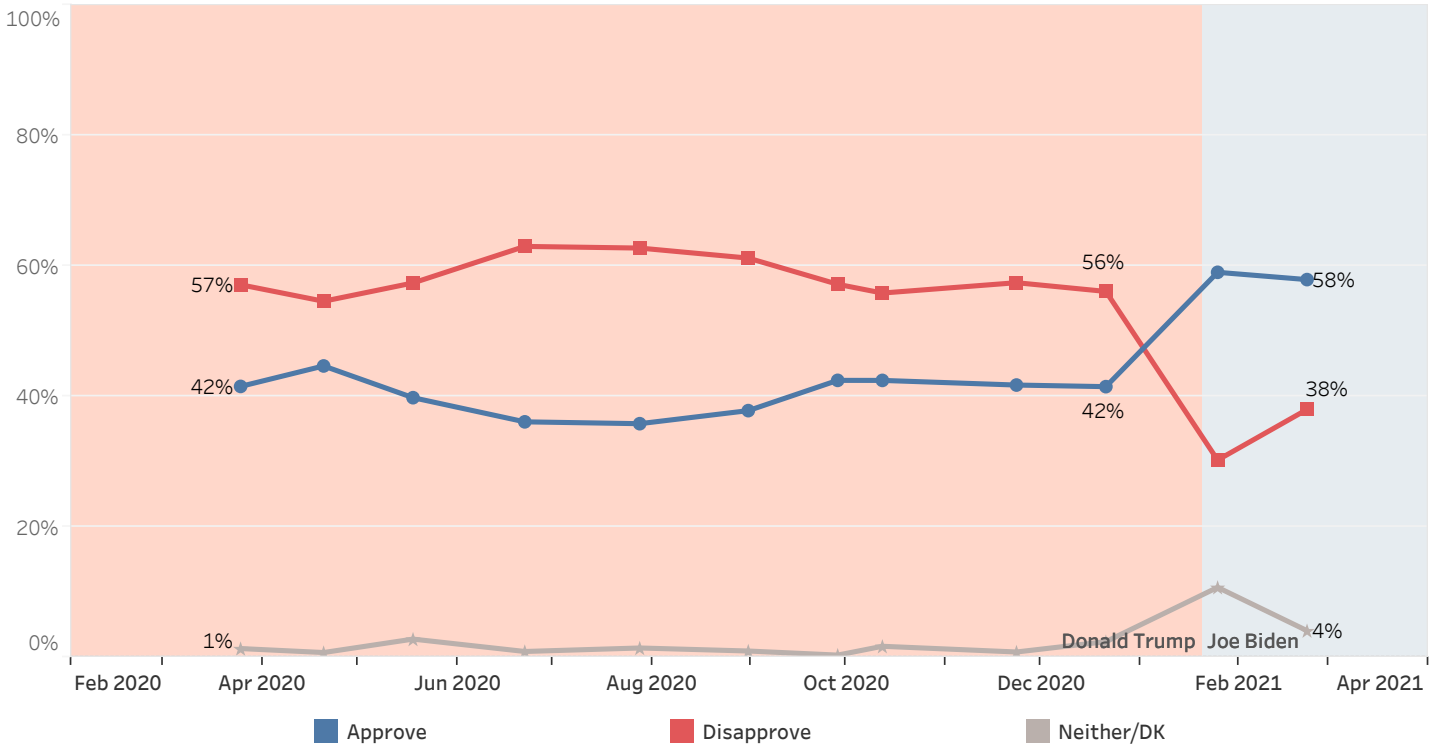

Approval of President Biden's Handling His Job as President - Change from January 2021 to February 2021

Handling of Coronavirus (COVID-19) Situation

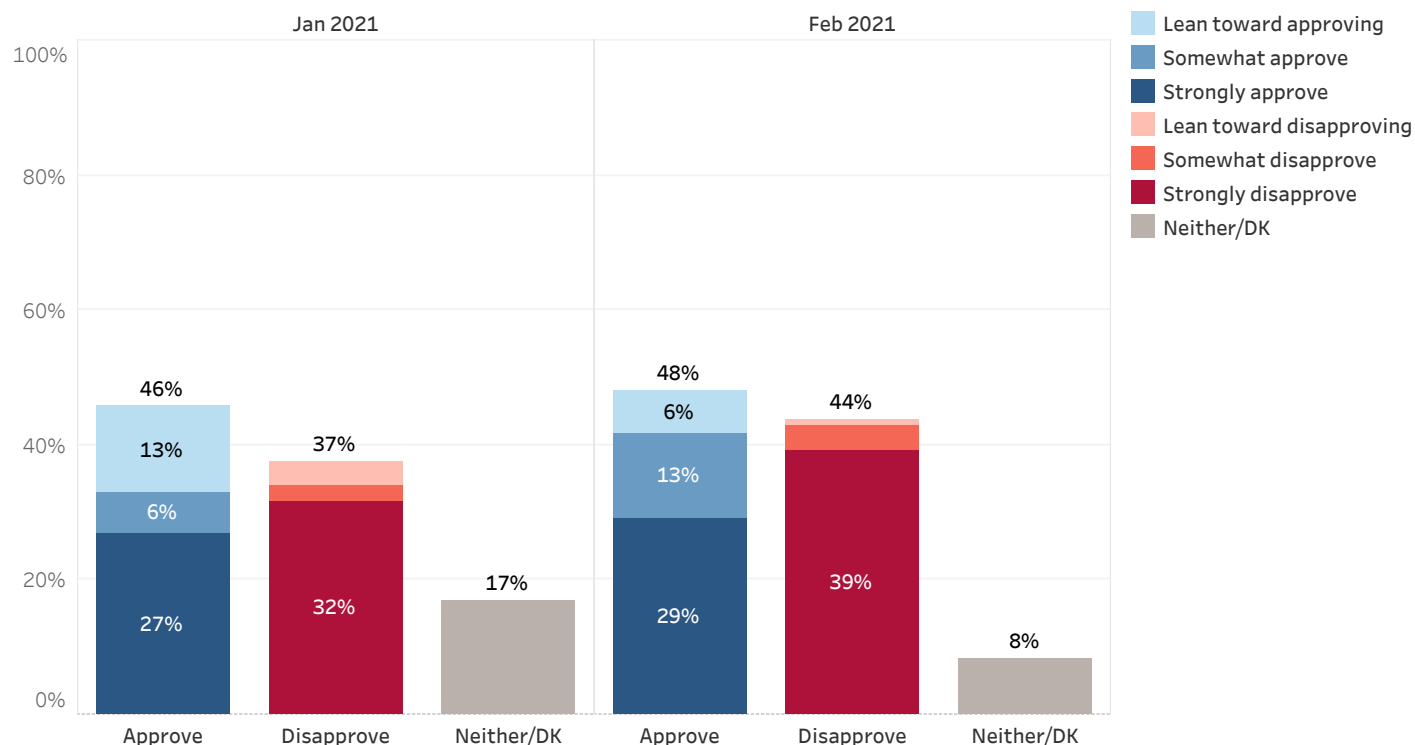

Granite Staters remain much more likely to approve of Biden's handling of COVID-19 than they were of President Trump's. Currently, 58% approve of Biden's handling of COVID-19 and 38% disapprove. Net approval for Biden's handling of COVID-19 is +20, largely unchanged since January (+22). Nearly all (97%) Democrats and a majority of Independents (55%) approve of Biden's handling of COVID-19 but only 19% of Republicans agree.

Approval of President's Handling of Coronavirus (COVID-19) Situation

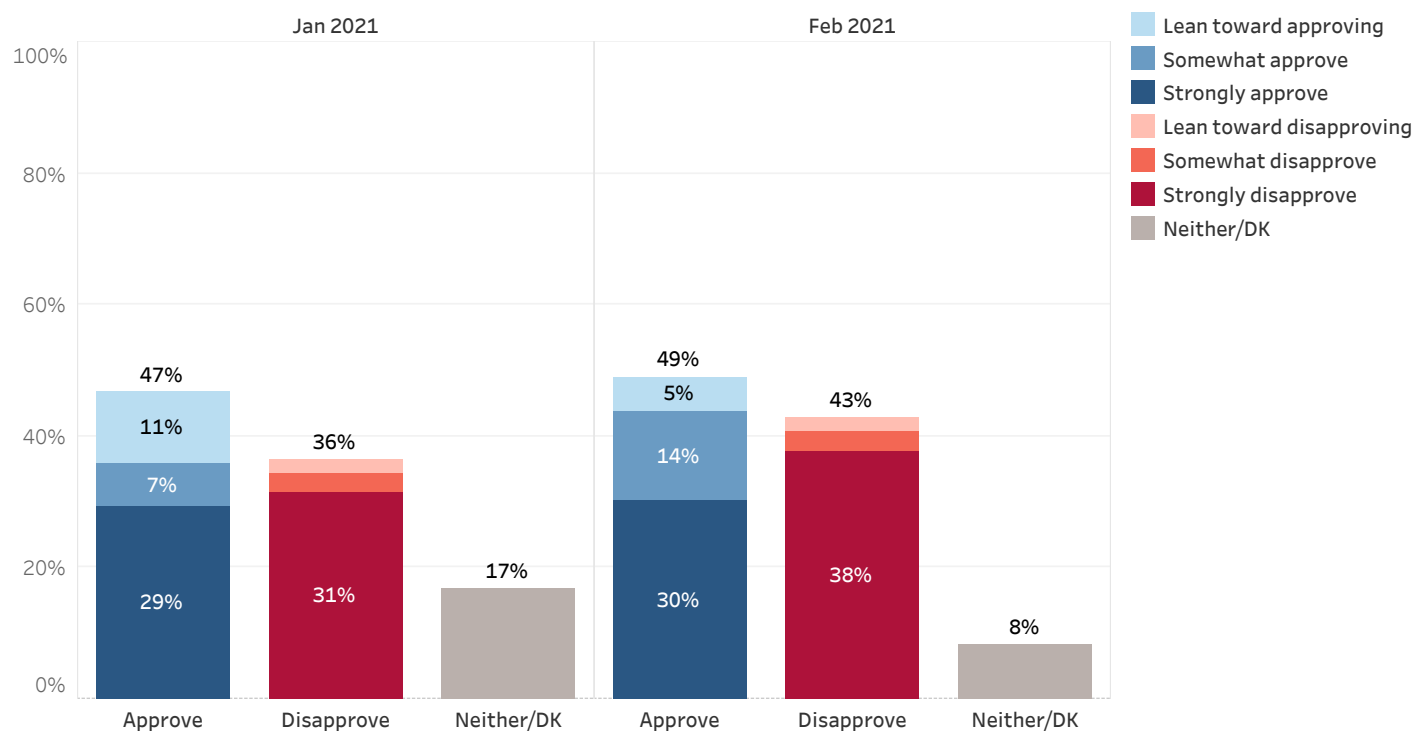

Forty-eight percent of New Hampshire residents approve of Biden's handling of the economy, 44% disapprove, and 8% are unsure. Net approval of Biden's handling of the economy (+4) has declined slightly since January (+9). Eighty-eight percent of Democrats approve of Biden's handling of the economy and 46% of Independents approve but only 8% of Republicans agree. In February 2017, President Trump had a net approval rating of +12 on his handling of the economy.

Approval of President Biden's Handling of the Economy

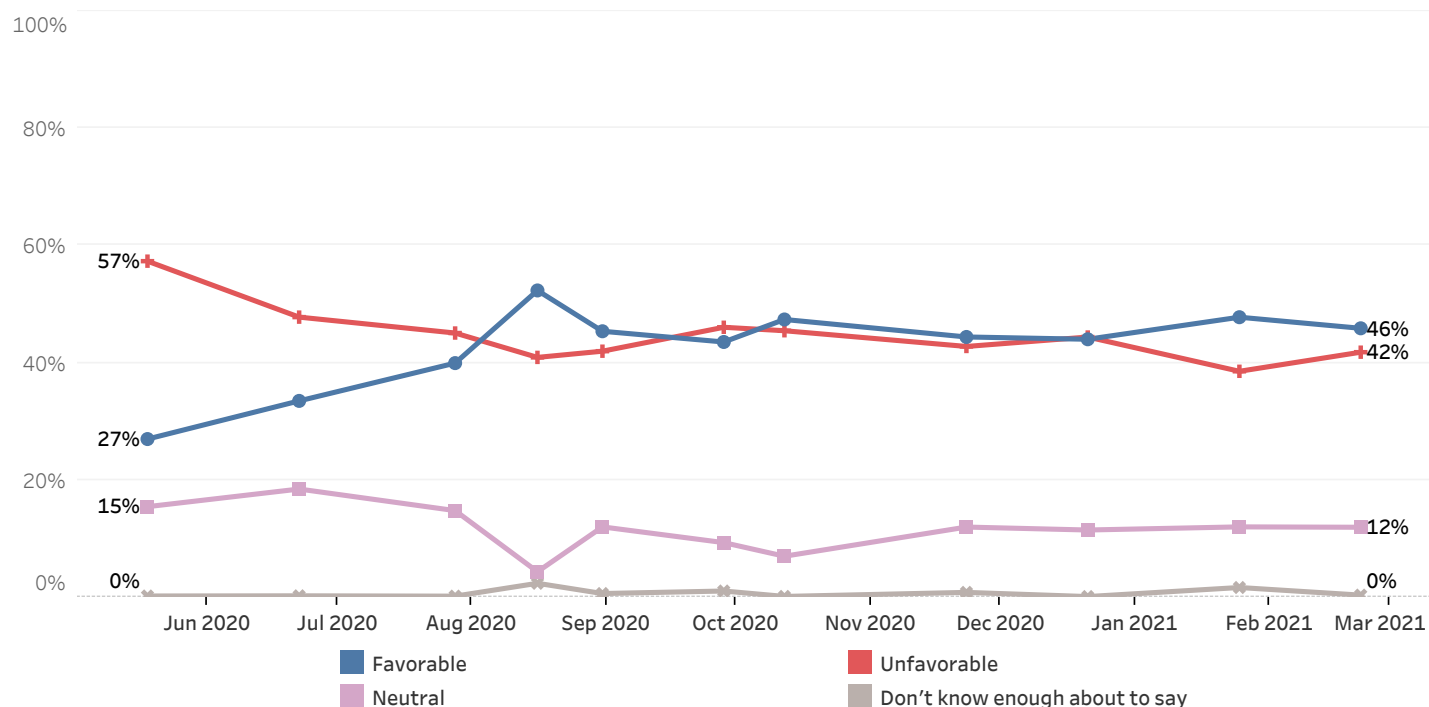

Forty-nine percent of New Hampshire residents approve of President Biden's handling of foreign affairs, 43% disapprove, and 8% are unsure. Net approval of Biden's handling of foreign affairs (+6) has slightly declined since January (+11). Ninety-one percent of Democrats and 41% of Independents approve of Biden's handling of foreign affairs, but only 9% of Republicans agree.

Approval of President Biden's Handling of Foreign Affairs

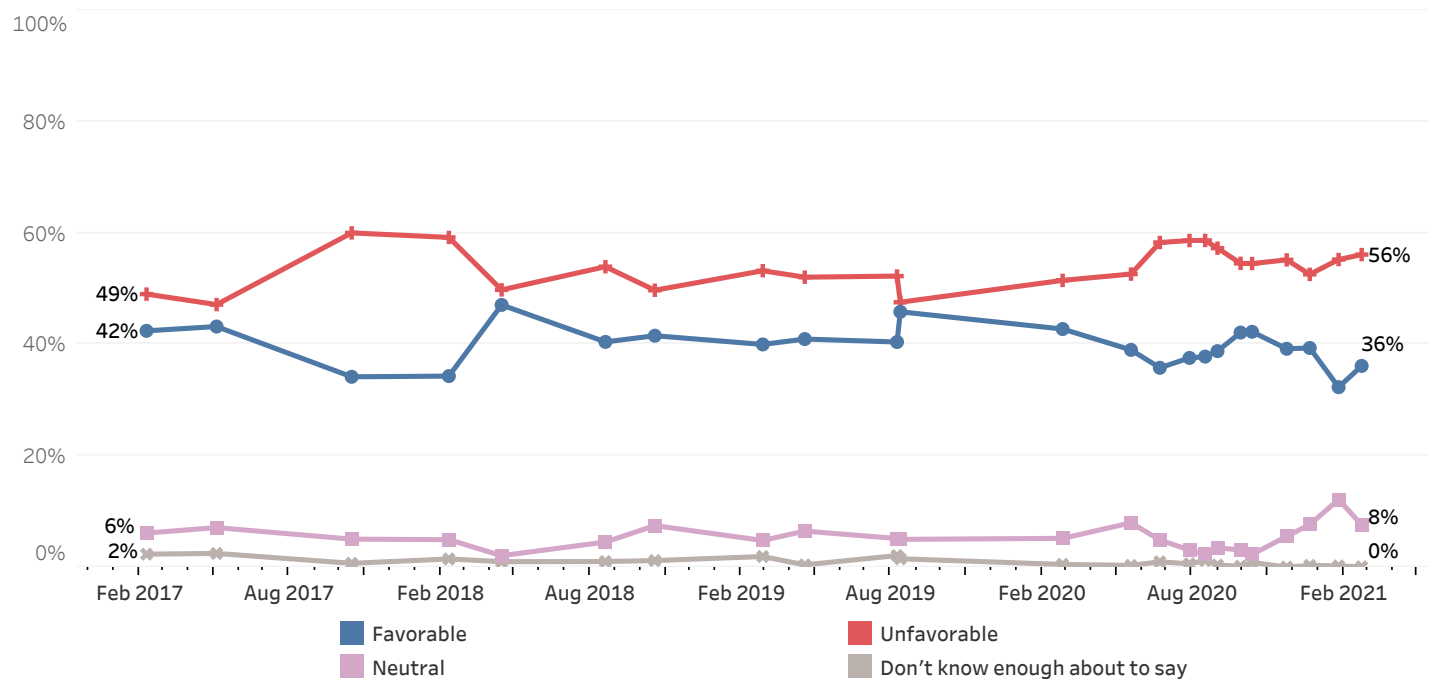

Forty-six percent of New Hampshire residents have a favorable opinion of Biden, 42% have an unfavorable opinion of him, 12% are neutral, and less than 1% are unsure. Biden's net favorability rating, the percentage who have a favorable opinion minus the percentage having an unfavorable opinion, is +4, slightly lower than in January (+9). Biden is very popular among Democrats (+88 net favorability rating), and very unpopular among Republicans (-77) while Independents (-6) are split. Biden has become slightly more popular since January among Independents but is slightly less popular among Republicans.

Biden (D) Favorability

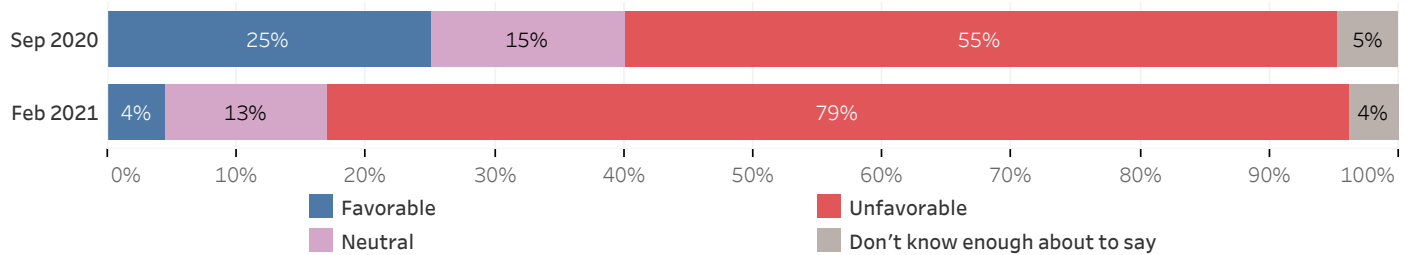

Thirty-six percent of New Hampshire residents have a favorable opinion of Trump, 56% have an unfavorable opinion of him, 8% are neutral, and less than 1% are unsure. Trump's net favorability rating is -20, largely unchanged since January (-23). Trump remains popular among Republicans (+63 net favorability rating) but is somewhat unpopular among Independents (-32) and very unpopular among Democrats (-97). Trump's popularity among Republicans (+63) has increased slightly since January (+54).

Trump (R) Favorability

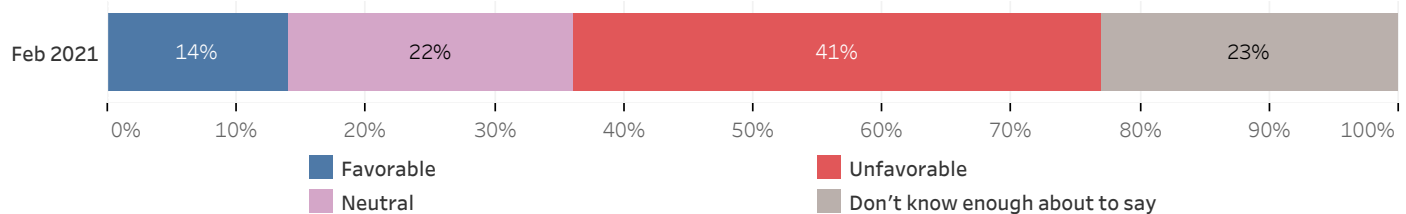

Turning to Congressional leaders, only 4% of New Hampshire residents have a favorable opinion of Kentucky Senator and Senate Minority Leader Mitch McConnell, 79% have an unfavorable opinion of him, 13% are neutral, and 4% are unsure. McConnell's net favorability rating is -75, far lower than in September 2020 (-30). McConnell is very unpopular among Democrats (-92 net favorability rating) and Independents (-73) as well as among Republicans (-58). McConnell's net favorability among Republicans has fallen dramatically since September 2020 (+41), highlighting the divisions in the Republican Party in the wake of the 2020 presidential election.

McConnell (R) Favorability

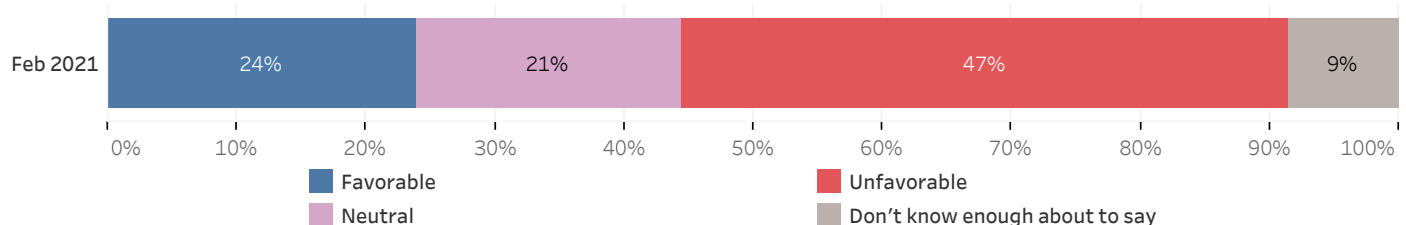

Only 14% of New Hampshire residents have a favorable opinion of House Minority Leader Kevin McCarthy, 41% have an unfavorable opinion of him, 22% are neutral, and 23% are unsure. McCarthy's net favorability rating is -27. McCarthy is somewhat popular among Republicans (+13), somewhat unpopular among Independents (-21), and very unpopular among Democrats (-69).

McCarthy (R) Favorability

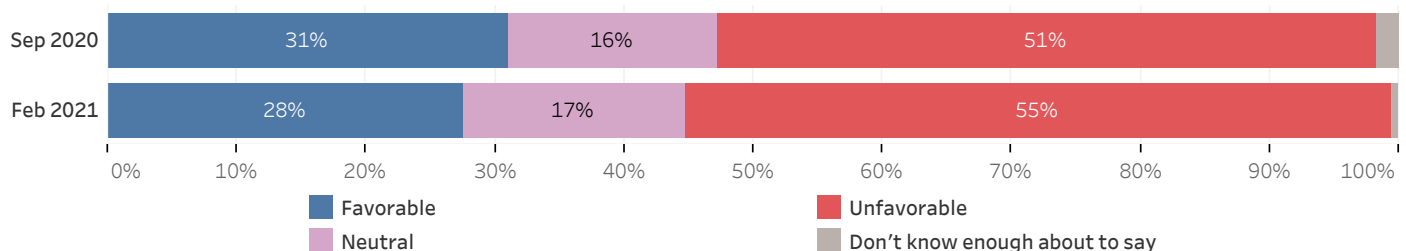

A quarter (24%) of New Hampshire residents have a favorable opinion of New York Senator and Senate Majority Leader Chuck Schumer, 47% have an unfavorable opinion of him, 21% are neutral, and 9% are unsure. Schumer's net favorability rating is -23. Schumer is popular among Democrats (+48 net favorability rating) but is unpopular among Independents (-46) and very unpopular among Republicans (-86).

Schumer (D) Favorability

Twenty-eight percent of New Hampshire residents have a favorable opinion of House of Representatives Speaker Nancy Pelosi, 55% have an unfavorable opinion of her, 17% are neutral, and 1% are unsure. Pelosi's net favorability rating is -27, slightly lower than in September 2020 (-20). Pelosi is popular among Democrats (+50 net favorability rating) but is unpopular among Independents (-54) and very unpopular among Republicans (-95).

Pelosi (D) Favorability

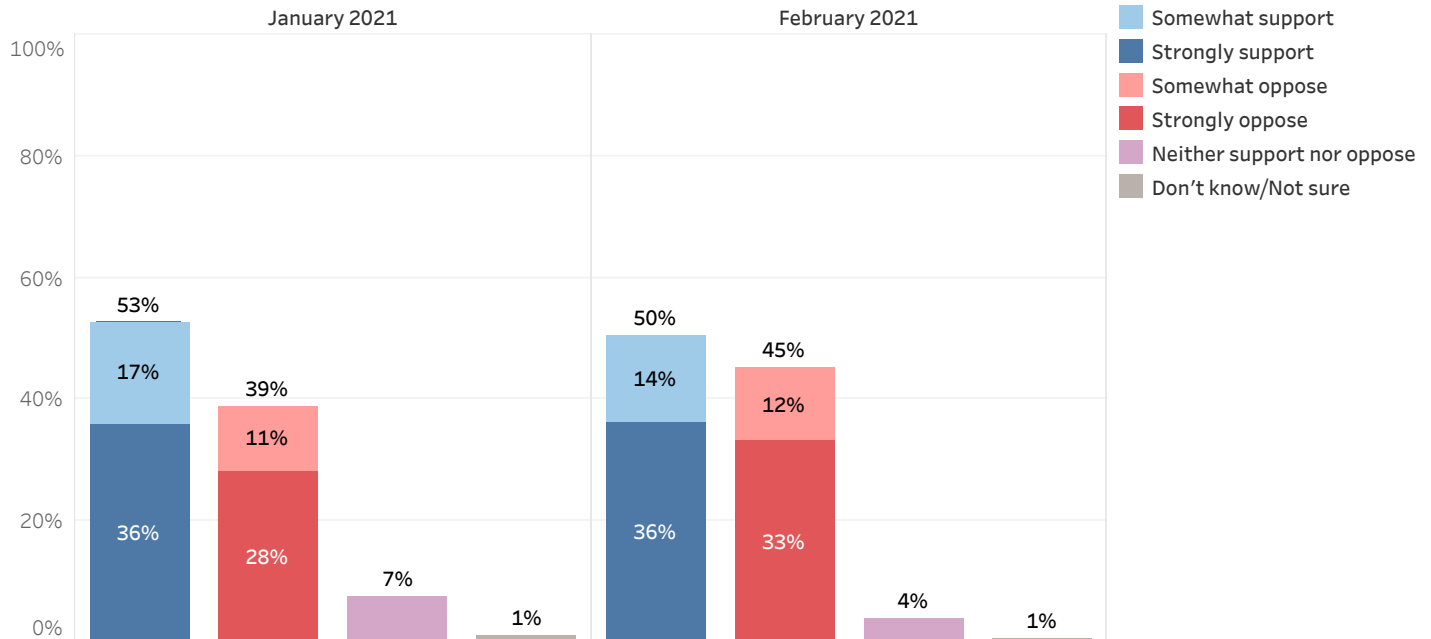

Opinion on Early Biden Administration Policy Proposals

President Biden has asked Congress to pass legislation to raise the minimum wage to \$15 an hour but New Hampshire residents are divided in their support. Half (50%) of New Hampshire residents strongly (36%) or somewhat (14%) support raising the minimum wage while 45% strongly (33%) or somewhat (12%) oppose this move, 4% are neutral, and 1% are unsure. Granite Staters are more opposed to raising the minimum wage to \$15 an hour than in January, when 53% supported doing so and 39% were opposed.

Democrats (93%) are overwhelmingly in favor of raising the minimum wage but Independents are somewhat against it, with 40% in support and 49% opposed. Republicans are adamantly against raising the minimum wage: 84% are opposed and only 11% support it.

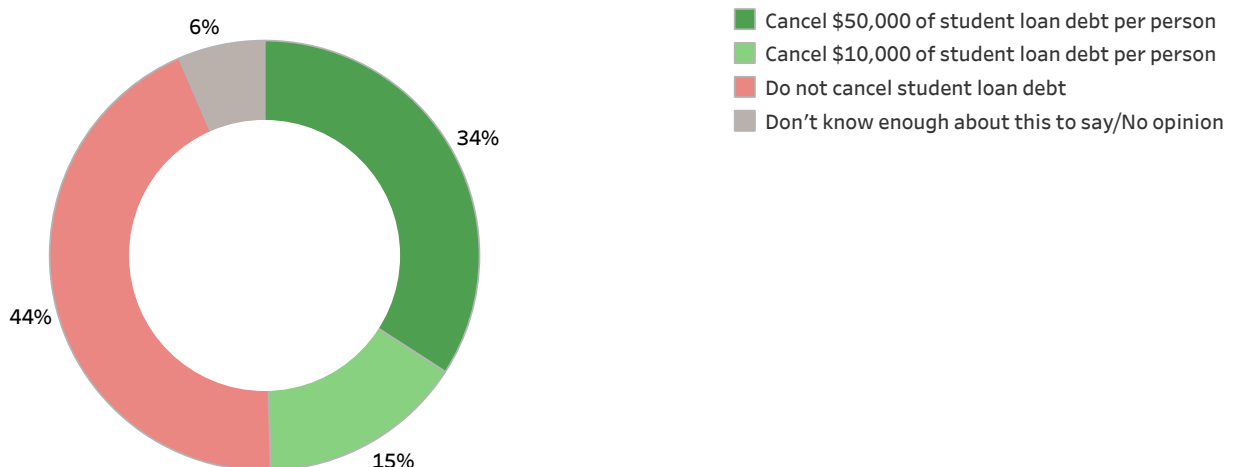

Support or Oppose Raising Minimum Wage to \$15 an Hour

Another proposal being debated in Washington is whether the government should cancel some student loan debt. Some have proposed canceling \$50,000 of student loan debt per person while others have proposed canceling \$10,000 per person. A third (34%) of New Hampshire residents believe that the federal government should cancel \$50,000 of student debt per person, 15% believe \$10,000 of debt should be canceled, 44% don't believe any student loan debt should be canceled, and 6% don't know enough to say or have no opinion.

Eighty-two percent of Democrats support canceling some amount of student debt with most favoring canceling \$50,000, while four in five (79%) Republicans don't believe any student debt should be canceled. Independents are divided: 46% support canceling some amount of student debt while 47% believe none should be canceled.

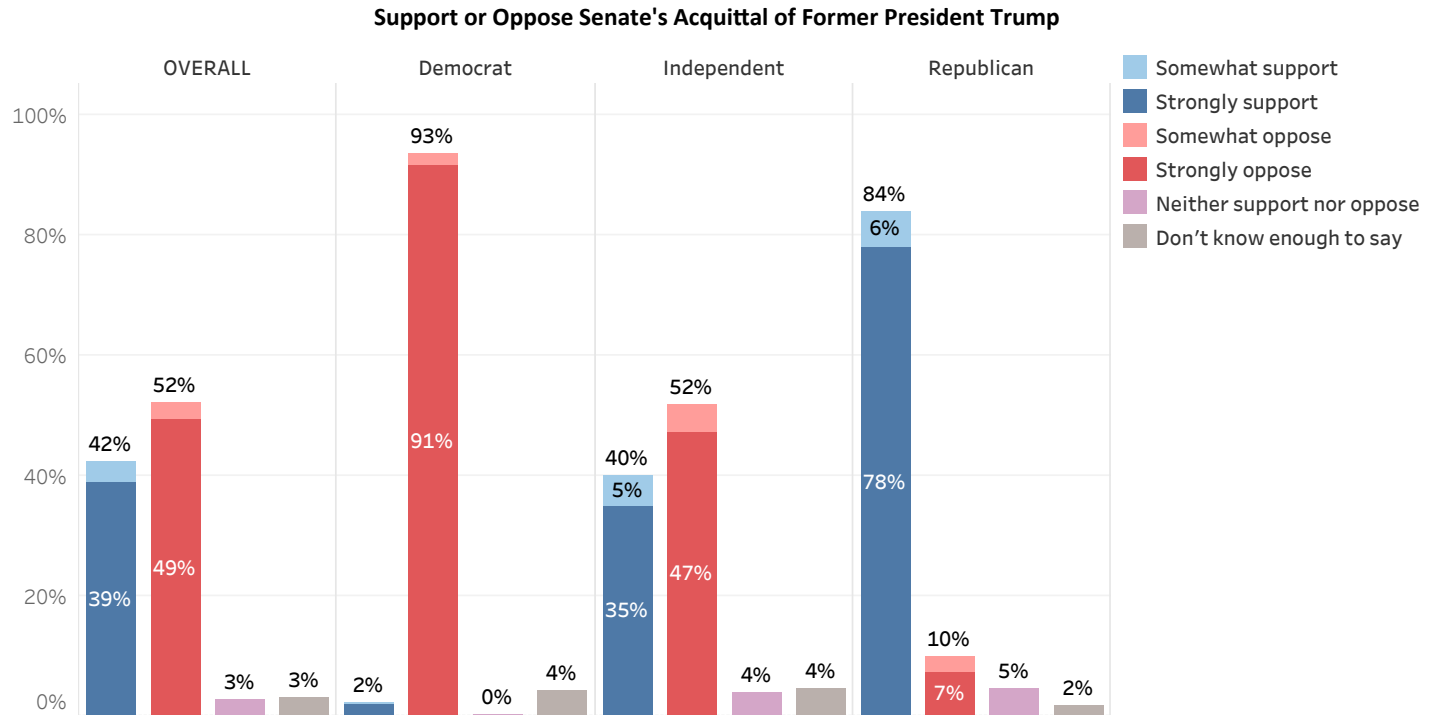

Opinion on Cancellation of Student Loan Debt

Former President Trump

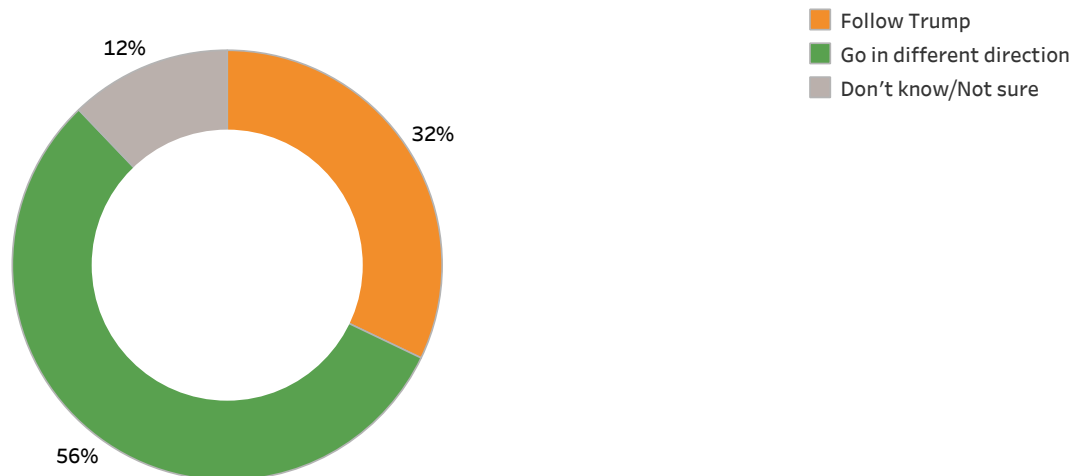

Two weeks ago, the United States Senate voted to acquit former President Trump in his second impeachment trial. Forty-two percent of New Hampshire residents strongly (39%) or somewhat (3%) support the Senate acquittal of Trump, 52% strongly (49%) or somewhat (3%) oppose this move, 3% are neutral, and 3% don't know or are unsure. These results mirror those in January, when 55% supported the House of Representative's decision to impeach former President Trump while 40% opposed it.

Democrats (93%) are overwhelmingly opposed to the Senate's acquittal of Trump, with nearly all strongly opposed, while 84% of Republicans support the Senate's decision to acquit. Independents are divided on the issue: 40% support the Senate's acquittal of Trump while 52% are opposed.

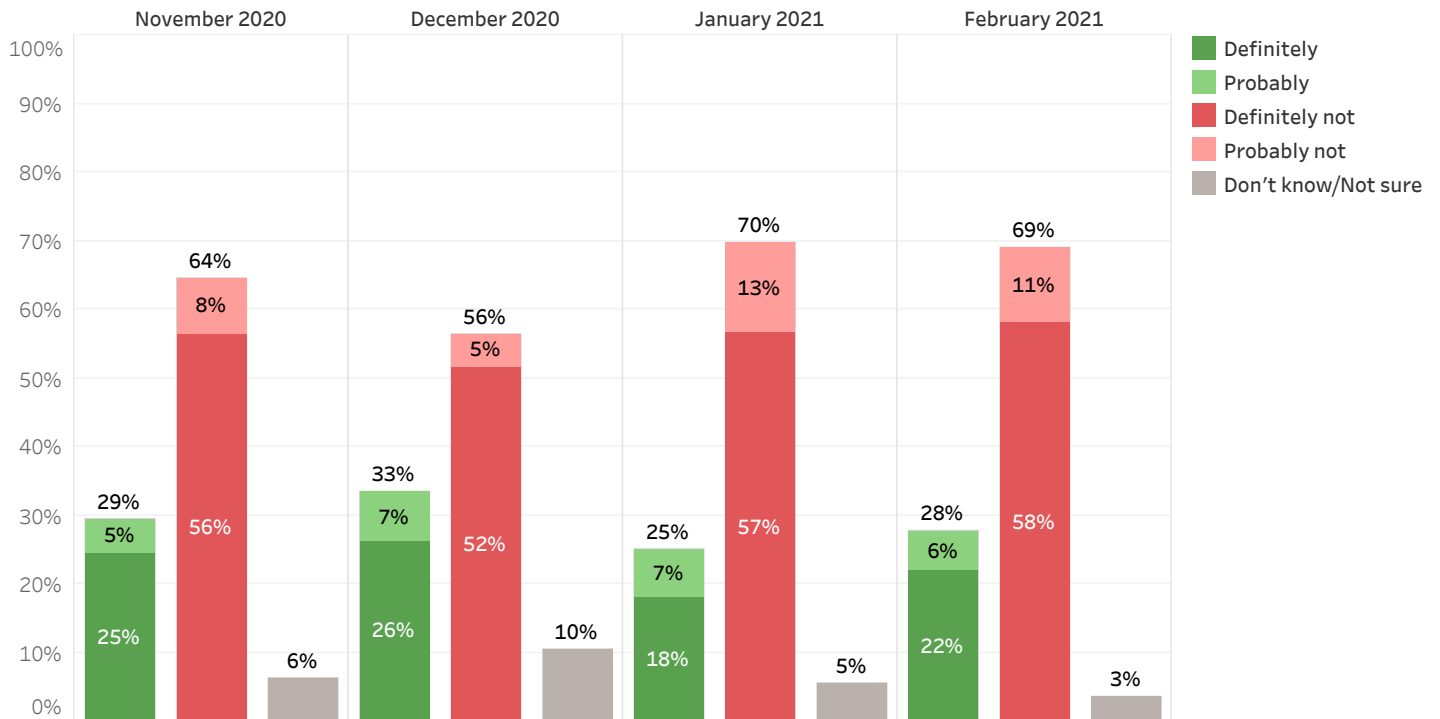

Overall, 56% of Granite Staters believe that the Republican Party should go in a different direction from Trump's leadership while only 32% think Republican leaders should follow Trump's leadership going forward and 12% are unsure. Almost all Democrats (89%) believe Republican leaders should go in a different direction and a majority of Independents (61%) agree. However, 63% of Granite State Republicans believe Republican leaders should follow Trump's leadership going forward and 20% think the party should go in a different direction. Republicans' opinion on the question has remained largely stable since January, when 58% said the party should continue to follow Trump.

Should Republican Leaders Follow Trump's Leadership or Should Party Go in Different Direction

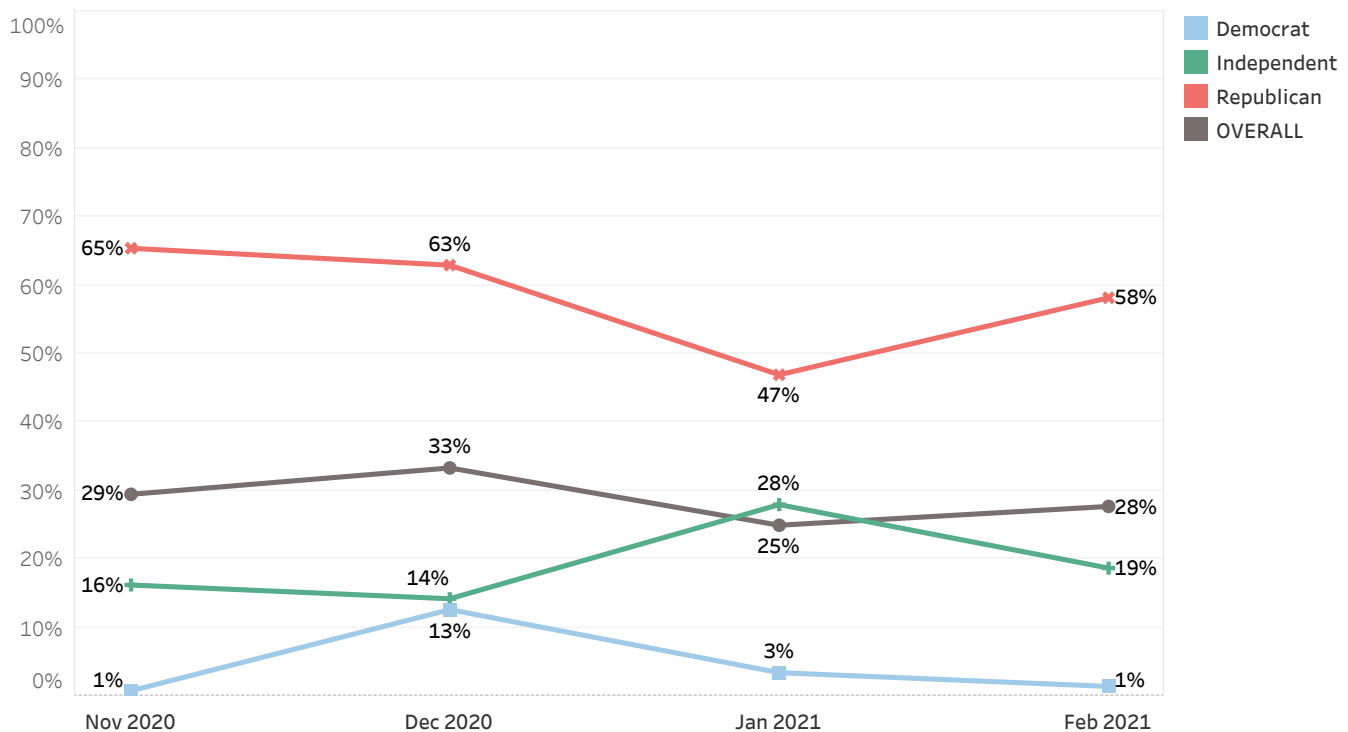

After his acquittal, Trump is still eligible to run for president again in 2024, but this is not popular in New Hampshire. Only 28% of Granite Staters say they definitely (22%) or probably (6%) want Trump to run for president in 2024 while more than two-thirds (69%) definitely (58%) or probably (11%) don't want him to run in 2024. The percentage who do not want Trump to run (69%) is unchanged since January (70%) but remains lower than in December, when one-third (33%) wanted Trump to run again.

Would Like Trump to Run for President in 2024

Only 1% of Democrats and 19% of Independents definitely or probably want Trump to run for president in 2024, but 58% of Republicans would like him to. Since January, Republicans have become slightly more likely to want Trump to run (+9 percentage points) while Independents (-9) have become slightly less likely to want Trump to run.

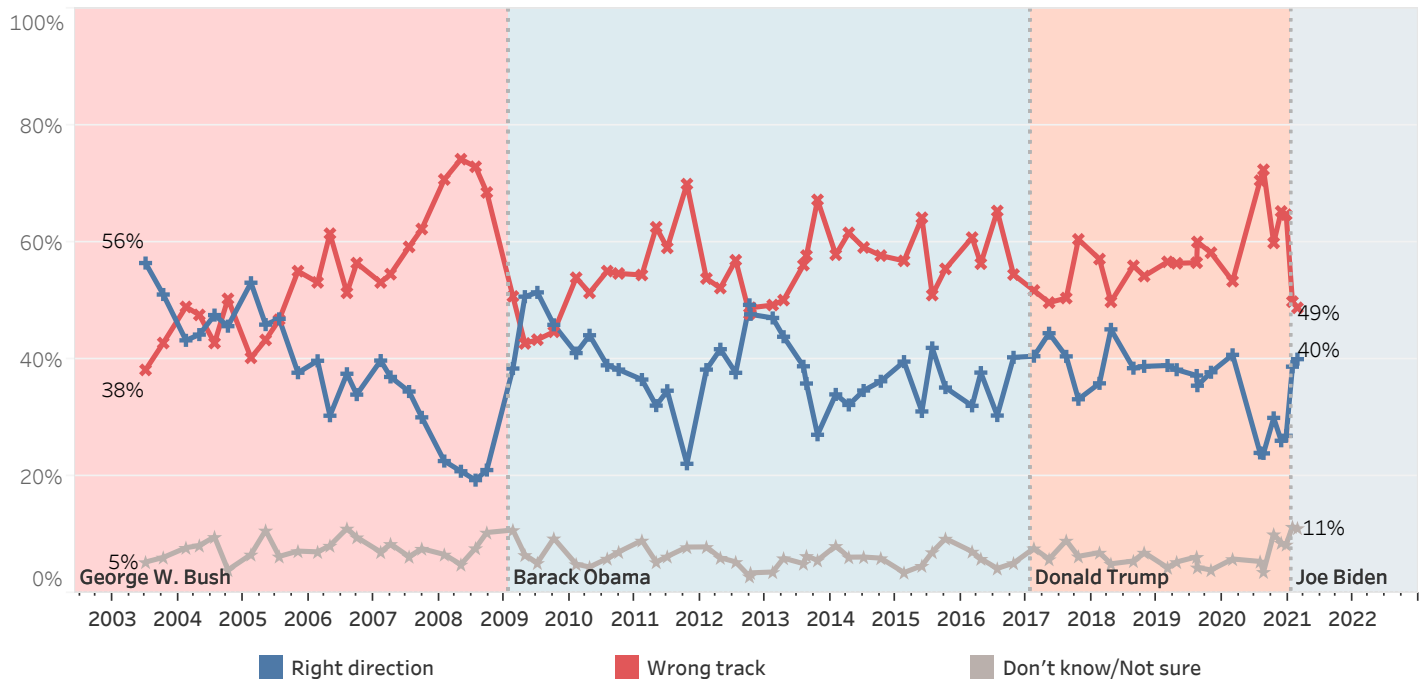

Definitely or Probably Want Trump to Run for President in 2024 - By Party ID

U.S. Heading in Right Direction or On Wrong Track

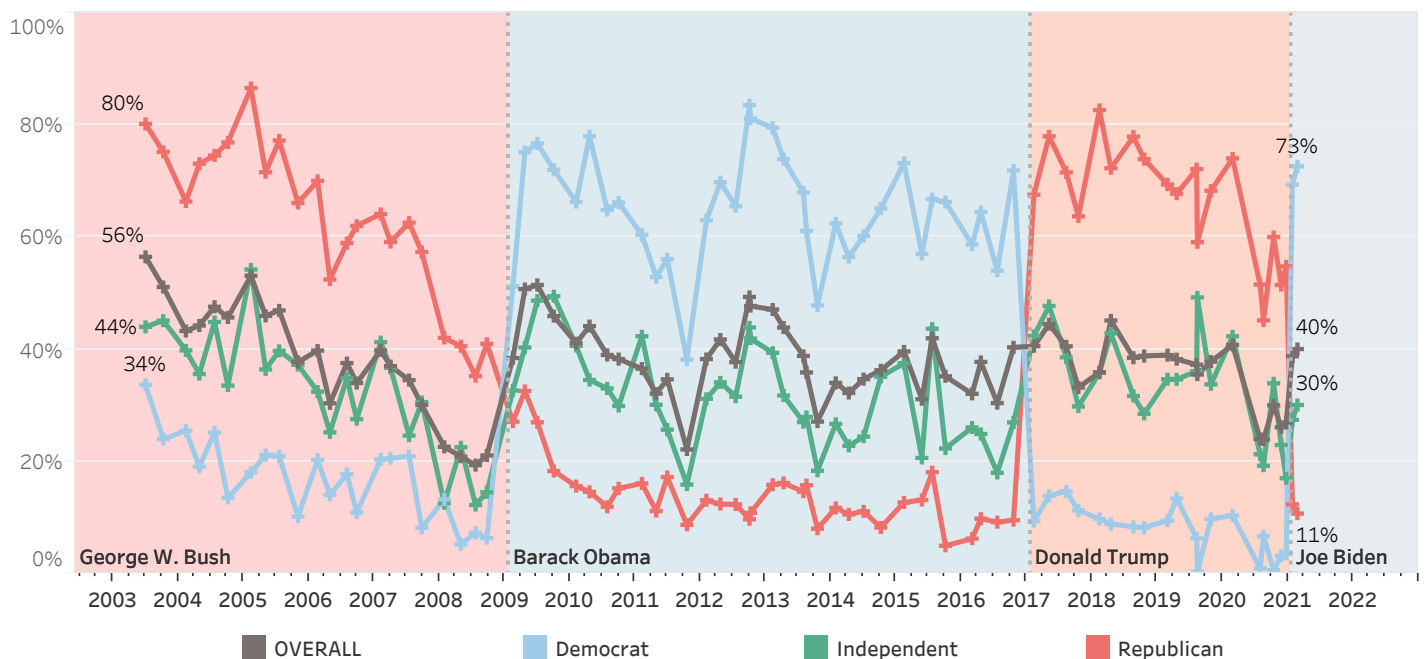

Forty percent of New Hampshire residents believe that things in the United States are going in the right direction, largely unchanged since January (39%); 49% of Granite Staters believe things are seriously off on the wrong track while 11% are unsure.

Right Direction or Wrong Track

Nearly three-quarters of Democrats (73%) say the country is headed in the right direction, largely unchanged since January (69%), but only 30% of Independents agree. Eleven percent of Republicans feel the country is headed in the right direction, largely unchanged since January (12%) but far lower than in December 2020 (55%) and about equal to September 2016 (10%) before the election of Donald Trump as president. Many commentators believed that a Biden presidency would bring the country together, but early indications do not support this hope. The gaps between Republicans and Democrats on this measure, 62 percentage points, is as large as it was during the Trump administration.

Right Direction - by Party ID

Granite State Poll Methodology

These findings are based on the latest Granite State Poll, conducted by the University of New Hampshire Survey Center. One thousand eight hundred and sixty-one (1,861) Granite State Panel members completed the survey online between February 18 and February 22, 2021. The margin of sampling error for the survey is +/- 2.3 percent. These MSE's have not been adjusted for design effect. The response rate for the February 2021 Granite State Poll is 33%. The design effect for the survey is 2.5%.

Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the NH Secretary of State and to 2020 election results in New Hampshire.

The Granite State Panel is part of an effort by the University of New Hampshire Survey Center to investigate new ways of gathering and understanding the opinion of New Hampshire residents. Approximately 5,750 New Hampshire adults were recruited from randomly selected landline and cell phone numbers to participate in the panel. Panelists are then asked to participate in online surveys sponsored by the UNH Survey Center.

The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions. Due to rounding, percentages may not sum to 100%.

For more information about the methodology used in the Granite State Panel, contact Dr. Andrew Smith at (603) 862-2226 or by email at andrew.smith@unh.edu.
