A LINGERING DEATH!

Tabled!—In the long list of parlia­ments that have passed their time, which offers so many possibilities for being revived in another midnight, there is none perhaps more likely to find itself included in the list of subjects that should be referred to the Committee on Legislation and be heard from again next year than the subject of the winter sports program. If it is the will of the University to have a winter sports program, the object of the two house bills that have been introduced is to make the program a success. It is not intended to prevent the faculty in plenary session some­thing being done, but it is to be done in the proper manner; the time thus permitting intensive study will be used more effectively. CROSS WORD PUZZLE IS POPULAR FEATURE

New Hampshire Readers Submit Solutions to SATURDAY TIMES Wire Price of Free Subscriptions

The readers of the New Hampshire at the Bermuda Time have at least one thing in common, a desire to submit solutions of puzzles that passed in the last week’s issue of The New Hampshire. They are from all parts of New England, from the grocer in Keene to the professor at the University of New Hampshire.

The puzzle consisted of a grid of blue and white squares. The image shows a solution to one of these puzzles with the word “BELLOWS” being the key to the puzzle. The puzzle was intended to be a fun and engaging way for readers to interact with the newspaper.
