STAKE OUT YOUR CLAIM IN THIS FIELD

No field where there is still undeveloped territory, still room for pioneers, is the electrical industry. This will be encouraging news to those who want to get into this field.

If your aptitude is technical, there are years of usefulness ahead of you in helping to design, construct and operate public utility lines. And too, for running a plant or the operation of more and more college-trained men in the manufacturing end of this industry.

If your interests are along commercial lines, there is a broad opportunity for you in helping to plan for and sell to various departments of purchasing, accounting, distributing, selling and advertising.

was expected, but not so easy to win, as B. U. had been
nearly defeated by Harvard in their last meet. The New

the decision to fight the meet. The meet was held at the
