TEN LEADERS IN VOCATIONS HERE SUNDAY

"After College What?" Day At Comm. House March 7

NEW ACTIVITY FOR "Y"

Object to Help Students to Get in Touch With Opportunities Qualifications and Requirements of Various Occupations

Ten leaders in various occupations have already been secured by the combined Christian Associations to speak at the "After College What?" Day to be held at the Community House on March 7. The entire day is to be devoted to helping students get in touch with opportunities in several occupations, and enabling them to choose their vocations wisely.

This vocational day will be filled with talks by the various vocational representatives, averaging fifteen minutes in length, and interviews with these speakers in order to determine one's qualifications for certain occupations. Although the program includes many talks, it will not be necessary to stay to those which are not of special interest. Appointments for personal talks with one or more of the speakers during the day can be made through the "Y" Office Miss Emily Simmons, at 110 Smith Hall, or C. N. Elliott, at the Phi Mu Delta house.

The list of speakers includes men and women from this state and other states, China and Japan. These speakers are all successful in their fields of work, and many of them have been on other campuses to give vocational advice. Dr. George Baker, graduate of Cornell, where he was a prominent athlete; later a popular students' pastor near the Cornell campus; and now secretary of the National Baptist Board of Education, will be the principal speaker; giving a talk on "Choosing One's Vocation." The attractions of law will

"WILDCATS" BEAT TUFTS AND M. I. T.

Trounce Jumbos 29-22 Engineers Defeated 20-19

SEE-SAW BATTLE WITH M. I. T.

Cotton and Craig Star for Blue and White—Dowson and French Best For Tufts—Forrester Keeps N. H. Guards Busy

The varsity added two more wins to their string of victories by defeating the Tufts Jumbos, 29-22, and the M. I. T. Engineers, 20-19, on their week-end invasion against the Greater Boston teams. Both were very fast throughout, but the blue and white quintet had the edge all the way over their opponents. The teamwork and accurate shooting of Cotton and Craig featured for the Wildcat team, while Capt. Dowson and Van French were the best for Tufts. Forrester was a hard man to keep covered on the Tech team.

The Jumbos kept within close reach of the New Hampshire team, but the latter always managed to lead for the greater part of the contest. Bridge and Davis started as forwards, but Cotton and Craig soon entered the game to score two baskets each before the half ended. Davis seemed to have bad luck on his famous hook shots and did not score from the floor. Taylor was counted on for his

CHI OMEGA'S OFFER THE CHARM SCHOOL

Play to be Presented at Community House March 10 and 12—Dorothy Hebert Has Leading Role

The Chi Omega play "THE CHARM SCHOOL" is to be presented at the Community House on March 10 and 12 for the benefit of the Chi Omega House Fund. The play is based on Alice Duer Miller's story.

Dorothy Hebert, '26, is taking the part of Austin Bevans, who has been left a Girl's Boarding School by his aunt. He decides to revolutionize the method of management and turn it into a Charm School. The appearance of three young men in a girls' school brings about unexpected and thrilling complications. The comic effect is decidedly increased by having all the men's parts taken by girls of the Sorority.

Mr. Troy, the new English instructor, who has had training in dramatics at Yale, is coaching the play. The proceeds will be used for purchasing new furniture for the Chapter house, which will be ready for occupancy next term.

The cast: Austin Bevans, David MacKenzie, George Boyd, Homer Johns, Elise Benedotti, Miss Hays, Miss Curtis, Sally Boyd, Muriel, Ethel, Lily, Lillian, Madge, Charlotte, Dorothy Hebert, Mildred Fifield, Charlotte Hirschner, Ruth Milan, Dorothy Clark, Helen Humphrey, Dorothy Griffin, Doris Rydin, Celia Campbell, Hattie Record, Annette Menard, Alice MacWenim, Dorothea Savithes, Constance Arnold.

GIRLS WILL STAGE INTER-CLASS GAMES

Basketball Squads Practicing for Games—Teams Not Yet Picked—Team With Highest Percentage Will Win League

The class basketball squads, which were chosen the first of the week, have been practicing in preparation for the interclass games scheduled for next week.

The schedule is as follows: Monday, Freshmen vs. Juniors, and Sophomores vs. Seniors; Tuesday, Freshmen vs. Seniors, and Sophomores vs. Juniors; Wednesday, Freshmen vs. Sophomores, and Juniors vs. Seniors. The team having the highest percentage will win the league. Miss Macdonald will referee, and Miss Ould will umpire.

This year the two court system is being used. Teams have not yet been picked, but they will be announced by Monday. Girls playing in three halves will be awarded 100 points; subs will receive 50.

Seniors: H. Brady, G. Cunningham, D. Hebert, M. Hubbard, W. Scott, E. Andrews, M. Grover, R. Long.

Juniors: L. Hodge, G. Jones, E. White, C. Cassily, E. Atwood, M. Hill, C. Smith, F. Fairchild, H. Humphrey, B. Ingalls, C. O'Kane, A. Martin, E. Kelley, H. Coe, P. Mountain.

Sophomores: M. Blaisdell, P. Morris, E. Robinson, G. Castle, I. Coolidge, M. Fifield, R. Joy, A. Melindy, A. Weinbeck, M. Zacharias, E. Flaherty, M. Steves, A. Baldi, A. Burnham, M. Donovan, A. Foster, R. Milan.

Freshmen: M. Britton, R. Pitcher, M. Timmins, M. Corey, T. Rohr, L. Stewart, M. Dahlberg, M. West, J. Gaddois, M. Duncan, E. Childs, J. Locke, P. MacLaren, J. Blake, C. Campbell.

AGGIE STUDENTS VISIT LOWELL FERTILIZER CO.

Last Friday, twenty-five members of the College of Agriculture visited the plant of the Lowell Chemical Fertilizer Co. Dean F. W. Taylor was in charge. This trip is made every other year in order that the students may obtain an idea of the manufacture of commercial fertilizers.

FRESHMEN WIN TRIANGULAR MEET

Coach Sweet's "Kittens" Rout Pinkerton and Nashua Tracksters—End Successful Season

The Freshman Winter Track Team, working in top form, easily defeated the Pinkerton Academy and Nashua High tracksters on the board track, Saturday afternoon. The score stood 32, 11 and 2 respectively.

In the 50-yard dash, Bartlett of Pinkerton had little trouble in beating Kelly and Watts to the finish. The time was 5 3-5 seconds.

The 45-yard high hurdle race was a close contest with Starke of N. H. breaking the tape a few inches ahead of Pillsbury of Pinkerton. Smith of N. H. was a close third. Time, 6 3-5 seconds.

The 300-yard run was held in two heats and the three fastest times were taken. Bartlett, Huntoon and Schwarzenberg, all freshmen, made clean sweep of that event. The winning time, 36 2-5 sec.

The 1,000-yard run was a battle between Whitney and Cahalan of N. H. Whitney piled up a substantial lead in the closing laps. Sheridan of Nashua placed third.

EXPERIMENT ON ALBINO RATS IN ZOOLOGY DEPT.

Effect of Gland Feeding Now Being Carried Out

GIGANTISM MAY RESULT

Research So Far Successful—Final Results Unknown as Work Still in Progress—Is First of Ten Year Program by Department

A very important experiment in zoological research, involving the prenatal feeding of the anterior lobe of the pituitary gland to albino rats, is being worked out by George N. Tamcales, a graduate student of the University, under the direction of Professor Jackson of the Department of Zoology. This experiment is one of the first of a ten year program of zoological research and study in this department. The final results cannot be given yet because the experiment is still in process. The ultimate results will be known by June.

DURHAM CHESSMEN DEFEATED BY TORRE

Expert Plays Ten Simultaneous Games With University Faculty —Played in European Tournaments Last Year

Carlos Torre, one of the world's best class chess players, demonstrated his skill and ability in the ancient pastime of kings here last Friday by defeating ten of the leading chess players of the University, most of them members of the faculty, at a match held in the Faculty club building, moving rapidly down the battery of tables where the players were lined up and playing the ten games simultaneously.

Mr. Torre is a young Mexican, about 21 years of age, who has lived in New York city for some years. His phenomenal skill at chess brought him to the attention of the leading players of the Metropolis so that last year he went to a great tournament of masters of the game at Arien-Barden, Austria, where he placed among the leaders. From there he went to the tournament at Baden-Baden, Germany, where he also ranked high in the final summary. He has recently returned

DRAMATIC CLUB PRESENTS PLAY

First Performance Is Overwhelming Success

PLAYS AGAIN TONIGHT

Talent of Students Exhibited in Colorful Presentation of "The Whole Town's Talking"

The production of John Emerson's farce comedy, "The Whole Town's Talking," last evening at the community house was an overwhelming success both financially and dramatically. The auditorium was filled with an appreciative crowd. Each part was played to the limit, which reflects the careful coaching by Professor Hennessey. The production is a three-act farce, which has been playing in New York for a year and has recently come to Boston. A deep, dark plot, with a humorous outcome makes every minute an interesting one. The second production will take place this evening, and a crowd which is equal in size to last night's is expected.

Ethel Simmons, a very charming but cruel young lady, has vamped Chester Binney into loving her. Ethel will not give Chester any time for she is in love with Roger Shields, a very modern young man who is only fooling her. Ethel's father considers Chester to be a very suitable prospect for a son-in-law, so he rumors a love affair which is supposedly existing between Binney and a movie actress, in the hopes of arousing Ethel's jealousy. Ethel does not pay any particular attention to the matter until all the girls start falling for Chester, which makes her very jealous indeed. Chester becomes a very-much-talked about young man, which makes him very popular.

Everything runs along very smoothly until the movie queen herself appears on the scene and Chester is put in a very tight position. Chester does not know what to do. Then all at once a light appears on the horizon, for, instead of revealing the bluffers Ethel Blythe carries on with the scheme. Donald Swift, her lover gets jealous and threatens to give Chester a beating. He makes a lunge for Chester and the lights go out. When the room is again flooded with light, two men are squabbling on the floor, and Chester is hiding under a table in the middle of the room. It seems as though when Swift dives for Chester, Roger Shields enters the room in the dark and is grabbed by Swift who supposes it is his rival. Ethel enters the room in time to see Chester standing with one foot on each of the gladiators, and a very calm look of victory expressed on his

LAMBDA CHI HAS BOXING TROPHY

Phi Mu Deltas Second—Theta Kappa Phi Third

NECKER TAKES FARRELL

Delta Pi Epsilon in Fourth Place—College Championship Bouts to Be Featured by Fast Bouts in All Weights

Scoring a total of twenty-nine points, the Lambda Chi Alpha fraternity won the loving-cup which was to be presented to the winner of the Interfraternity Boxing Tournament which was held on Tuesday, Thursday and Saturday evenings last week in the Gymnasium. Phi Mu Delta placed second with twenty-three points; Theta Kappa Phi was third with eighteen; Delta Pi Epsilon took fourth with sixteen; Alpha Tau Omega and Alpha Gamma Rho with nine points each tied for fifth place.

Results of the final round of the tournament were as follows: In the 115 lb. class Nodes, Theta Kappa Phi, won a very clever decision over Ricciardi, Theta Kappa Phi. The two small boys were evenly matched and both put up a speedy and interesting fight. Nodes was more aggressive throughout the fight and deserved his decision.

(Continued on Page Three.)

MR. MANTON'S WORKS TO BE GIVEN IN WASHINGTON

Mr. Manton has recently published two choruses for men's voices entitled, "The Saracens," and "The Day Grows Old." They will be rendered sometime this spring in Washington, D. C., by the Davison Club, a large choral organization.

On the press are five more of Mr. Manton's works: "Sea Marge," a chorus for men's voices, dedicated to the Harvard University Glee Club; "New Hampshire Idyls," a suite for pianoforte; "Wanderer's Song," tenor solo and men's voices; "Two Minnelieder," for men's voices; and a new suite for piano entitled, "From Unforgotten Times."

COLBY DEFEATED BY N. H. FORENSIC TEAM

Johnson Superb in Rebuttal—Neville Makes Fine Speech—Levine Nucleus of Colby Negative—Vote 2 to 1

New Hampshire debaters distinguished themselves both at home and abroad last Thursday, February 18, when the New Hampshire Affirmative team, Otho F. O'Leary, '27, Harry Page, '27, and Paul Johnson, '27, met the Colby Negative team in Durham, and the New Hampshire Negative team, Cleveland Sleeper, '27, John Neville, '27, and Robert Folsom, '26, met the Colby Affirmative team in Waterville. The question was, "Resolved, that the Federal government should own and operate the coal mines." Both New Hampshire teams won by judges' vote of two to one. The debate at Durham was hotly contested and very close, while reports from Waterville indicate that the New Hampshire Negative team had a decided advantage.

In the Durham debate the work of Paul Johnson for New Hampshire and A. B. Levine for Colby was especially noteworthy, Levine excelling in his opening speech and Johnson in rebuttal. In the Waterville debate Neville was acclaimed the best speaker, which is the more to his credit as he joined the team only the night before the debate due to the sudden illness of Lloyd Simpson who was to have made the trip. Comments by judges and expert debaters in the audiences at both debates indicated that the New Hampshire teams won in the rebuttals.

OFFICIAL COMMENCEMENT SCHEDULE IS ANNOUNCED

The schedule for commencement week has been officially announced as follows:
Class Day—Saturday morning, June 12.
Alumni Day—Saturday afternoon and evening, June 12.
Baccalaureate Day—Sunday, June 13.
Commencement Day—Monday, June 14.
Final examinations will be held one week earlier.

EDUCATORS BACK FROM MEETING

Washington Conference Proves Very Successful

ADDRESSED BY COOLIDGE

Prof. Wellman Appointed One of Committee of Three to Represent Dept. of Education in N. E. Colleges

Prof. Justin D. Wellman of the Dept. of Education and Dean DeMeritt, returned from the annual convention of the National Education Society at Washington, D. C. Prof. Wellman represented the education department at the meeting of the Association of Departments of Education in State Universities and Land Grant Colleges, while Dean DeMeritt attended the conferences of the Association of Deans of Women, both held

FEES

To satisfy the critical inquiry prevalent throughout the student body in regard to the disposal of the enormous income received by the administration from the students who pay an annual fee of \$50, an explanation will herein be attempted.

Years ago, before this little college in the foothills of eastern New Hampshire had graduated from a mere institution of Mechanic Arts and Agricultural into a prominent university of high standing among state educational institutions, the authorities deemed it wise to itemize each separate charge made to the students, listing them as laboratory, library, military art, physical training, and athletic fees. Small charges ranging from \$2 to \$10 were made for each individual department and for each separate course for which the students registered. By this method each student was charged different amounts, according to the courses and the departments under which he received his instruction.

However, as the college grew in size, so business methods became more efficient; the aggravating "red tape" was done away with; and the administration solved the problem by listing a separate charge of \$50 for fees, which is approximately the same as that formerly charged the individual student by the old itemized method which required much work on the part of the registrar and inconvenience to the students, many of them seeking to be released from paying certain charges. And so, ever-questioning students, you are not being "rooked." You are merely receiving a separate bill that is a total of the separate charges which are made by the administration to each and every student registered in the institution.

The chief criticism of this up-to-date method of doing business is that the students mis-interpret the charge for the fees. Everyone seems to think that it is a separate charge for athletics. But no, this is not true. The athletic department receives only a portion of this money that is collected from the students at the beginning of each term. All the money received is placed in a fund, tuition charges and all. Budgets for each department are made out each year and the athletic department receives its share. That share, however, does not equal a charge of \$50 per each student. It has been approximated that less than \$28 are expended per each student registered in the institution for athletics annually.

Now then, ever-knowing students, is this explanation sufficient? Will you realize in the future that the primary motive for collecting fees from each student is not merely to support athletics, but also to reimburse the administration and to pay for expenses which occur in every "going concern."

It would be well for the administration to make a separate charge for athletic privileges. It would be better to call the tuition \$125 for state students, rather than making two charges of \$75 for tuition and \$50 for fees. But it has been proven that the administration receives a greater income by the present method, and so it will remain unless sentiment becomes strong enough to warrant a change.

"AFTER COLLEGE WHAT?"

The Y. M. C. A. and Y. W. C. A. are to be complimented for the excellent program of speakers they have arranged for the "After college what" day at the Community House next Sunday. This is the first time that the students have had a chance to meet prominent men of the business and professional world and really get an idea of what they have to face after graduation. Probably some are planning to teach, others to enter business, but how many have any definite idea of the conditions existing in the various spheres of life? This meeting will undoubtedly enlighten many in the choosing of a career. Today we enter that occupation which seems to offer the easiest livelihood and the most money. Some of us grope blindly for a while and later discover that we have chosen the wrong vocation entirely.

The program Sunday will help us to realize what we are to face in later life. Let us profit by the experiences of others and not make needless mistakes later on.

NOTICE

Outdoor classes in girls' athletics will begin April 18. These will be track, baseball, and, if possible, swimming and tennis.

FRICTION

In another column on this page we note with satisfaction that a member of the faculty has answered "Bored." How significant, how interesting, perhaps it is the beginning of a great awakening, we hope so at any rate. There is no doubt that there is a certain barrier between the faculty and the students that has long existed. In classes, necessity compels both to work in conjunction with each other, but outside of classes what? Do we see faculty and students helping each other to get the most out of college? Do we see a student and a professor entering the movies together? Do we see faculty and students together at a game? Seldom if ever.

Now something has started, may it continue. No one will be inclined to say that there is nothing wrong with the students; and no one will say the same thing about the faculty. There is plenty of cause for criticism on both sides. Without doubt there are certain courses in the University that are terribly monotonous for a student to sit through. There are also many students who go to classes simply because they have to. They are frowned upon by the faculty. What is to be done?

There is plenty to do. Why are some courses the same, year in and year out? Change a few of them, make them more interesting and results will follow. We will exclude the few students who do not care about any courses, they are in the minority, they are not here for learning but for the fun of it. But the majority will change their attitude when the courses are changed and will take a new interest in life.

And that is the first step in breaking down that invisible barrier. Both faculty and students will look upon each other in a different light and there will be closer harmony all around. Let's get going.

NOTICE

"The Whole Town's Talking" will be played tonight and Friday night at the Community House. The added Friday night performance will be played for the benefit of the Community House.

"WILDCAT"

"Wildcat," the animal picked by the student body at convocation to be the mascot of New Hampshire teams has been officially adopted by the Student Council. No more will "Bulls" and N. H. be related in any way whatsoever (except, perhaps, in the form of beef.) "Bulls" has followed the path of "N. H. State College." It is a thing of the past; to be remembered, but not mentioned.

The final decision of adopting the name "Wildcats" has been withheld by the Student Council until the Alumni had offered their approval or disapproval. Last fall the alumni were almost unanimously in favor of "Bulls," but the way that they have accepted the new mascot picked by the student body, has assured the Student Council that "Wildcat" was a venerable substitute for our old friend, "Bull."

Now let's forget all old mascots; get behind the "Wildcat" and boost it to the sky.

FROM OUR MAIL BOX

To The Editor:
 May I take this opportunity to thank you for your editorial of last week on the Convocation situation? Every sentence was to the point.

Too often in the past our convocations have taken the form of a high school assembly,—an excellent place to read notices of committee meetings, delinquencies in studies, and to present cups and medals. All these things are necessary and correct, but the pitiful part of the whole proceedings has begun when "the speaker of the day" has been introduced. Many times the only enjoyable feature of the gathering from that point on has been the suave and polished introductory speech of our President. Many, many times these speakers have been sincere and well meaning people who have been obviously at sea in an attempt to address a critical college audience on a subject in which it was also very obviously not interested. Frankly, it is usually a waste of a college man's time, and I write this with a comprehensive understanding of how little a college man's time is worth, to listen to these reformers and religious workers who were invited because they were "glad to look into our young faces" without the remuneration of a lecturer's fee.

The fault for these purposeless meetings has not been due to lack of interest on the part of those who arrange the convocation programs. The reason for the failure of the programs, I am informed, is the lack of funds available for the payment of expenses to men who can talk. The time has now arrived when the University administration should provide in its budget a sum of money sufficient to hire men of ability to come here and address the student body. Many of them will come for their expenses, but even these have been prohibited if the speaker was to come any distance. This student body is ready to listen attentively to men with a message, men who have done things, men who have travelled up and down this world of ours and can talk about their experiences, as Dr. Bohn did last week.

Please keep up the good work in The New Hampshire. Hammer home your point. Let's hear from other students. Experience has shown that every worth while movement which has the weight of student opinion behind it finds ready supporters among our faculty members and executive officers.

Yours for better convocations,
 Bored but Willing, '26.

RAILROAD OFFICIAL TALKS TO TRANSPORTATION CLASS

Mr. Hass, first assistant to the Mechanical Engineering Department of the New York, New Haven and Hartford Railroad gave a very interesting talk to the class in transportation last Friday afternoon. Mr. Hass is a graduate of the Sheffield Scientific School at Yale.

The World's Loudest Voice

On the rolling plains of South Schenectady, in several scattered buildings, is a vast laboratory for studying radio broadcasting problems. Gathered here are many kinds and sizes of transmitters, from the short-wave and low-power sets to the giant super-power unit with a 50- to 250-kilowatt voice.

Super-power and simultaneous broadcasting on several wave lengths from the same station are among the startling later-day developments in radio. And even with hundreds of broadcasting stations daily on the air throughout the land, these latest developments stand for still better service to millions of listeners.

Only five years old, yet radio broadcasting has developed from a laboratory experiment into a mighty industry. And alert, keen young men have reaped the rewards.

But history repeats itself. Other electrical developments will continue to appear. And it will be the college man, with broad vision and trained mind, who will be ready to serve and succeed.

OPINION ON MASCOT FROM PHILADELPHIA

Alumni Have Record Attendance at Last Meeting—Band Fund Aided

With an attendance of twenty-one members at the last meeting of the Philadelphia Branch all records were broken. Those who were the guests of president and Mrs. Huse at the Electric Club for the last meeting were Mr. and Mrs. Annis, Mr. and Mrs. Campbell, Mr. and Mrs. Reid, Mr. and Mrs. Williams, Mr. and Mrs. Dodge, Miss Perkins, Miss Mildred Flanders, Miss Dorothy Flanders, Miss Brehm, and the Messrs. Smart Parkhurst, McConachie, Wentworth, and Kenney. At the business meeting \$25 was voted for the Band Uniform Fund and a committee was authorized to proceed with the preliminary arrangements for a visit of the relay team which may participate in the Franklin Park Relays in the spring.

The following is taken directly from the secretary's report of the meeting: "The Club discussed the subject of acceptable names for our Athletic Teams and the views expressed to the effect that a general discussion of the subject was desirable, but that the name should not be selected with undue haste. Possibly some incident will occur during some game which will suggest a name, and by this means fittingly perpetuate it. Perhaps the history of New Hampshire may record some Indian Chief noted for his courage, war-like skill, sterling characteristics and capability as a leader of his people whose name could be applied to our teams."

After ten o'clock the club made a trip through the Philadelphia Public Ledger Building.

The next meeting will be held at the home of Mr. and Mrs. Huse, 7115 Boyer street, on March 12, at 6.45 o'clock.

ALUMNI NOTES

Changes in Addresses

- Neil S. Franklin, '06, 112 River Avenue, Bedmar, N. J.
- Mrs. Edmund E. Kiough, '19, 59 Appleton Street, Pittsfield, Mass.
- Charles H. Hood, '80, 494 Rutherford Avenue, Charlestown, Mass.
- Elmer N. Sanders, '18, 112 Milton Street, Woodlawn, Pa.
- Helen B. Bonahoe, '20, 114 Fairfield Avenue, Bridgeport, Conn.
- Chester L. Lane, '20, 617 Toledo Edison Bldg., Toledo, Ohio.
- C. W. E. Scott, '89, 3760 Kite Street, San Diego, Calif.
- Everett H. Alexander, '25, Y. M. C. A., Pittsfield, Mass.
- Max McConachie, '20, 1321 Walnut Street, Philadelphia, Pa.
- Lester Merrill, '18, Exeter, N. H., c-o Farm Bureau Office.
- Reginald Emerson, '24, Fitzwilliam N. H.
- Charles W. Hardy, '75, 55200 Broad Branch Road, Washington, D. C.
- T. R. Anderton, '20, 718 Trenton Avenue, Wilkingsburg, Pa.
- P. R. Butler, '24, Springfield, Mass., c-o W. E. M. Co.
- Harold I. Leavitt, '21, 1029 South Avenue, Wilkingsburg, Pa.
- Leon J. Lemieux, '24, 722 Wood Street, Wilkingsburg, Pa.
- Elmer Sanders, '18, 112 Milton Street, Woodlawn, Pa.
- Chester A. Scammon, '20, 534-4th Avenue, Parnassus, Pa.
- E. H. Young, '24, 513 Hill Avenue, Wilkingsburg, Pa.
- Kyle C. Westover, '17, 46 Jones Avenue, Morgantown, W. Va.
- Hester Bickford, '24, Farm Bureau Office, Laconia, N. H.

CLASS OF 1908

Merritt C. Huse has recently had two articles published on electric lighting. The first of these is "The Industrial Lighting Campaign—Latest Results from Philadelphia" which was published in the Edison Sales Builder for February, 1926. This article deals with a study of good lighting in industrial plants by the installation of experimental equipment; the training of salesmen for this work; the development of cooperation between contractors and jobbers; comment on the 275 trial installations; reduction in labor turnover due to improved working conditions, and improvement in labor efficiency; and the conclusion that the industrial lighting market can best be reached by direct sales effort. The second article, "By Its Fruit It Is Sold," was in the February issue of The Light. This article deals with practically the same material as the first, but it has different applications.

CLASS OF 1920

Chris O'Leary (Lambda Chi Alpha) president of the Alumni Association, spent the week-end in Durham visiting members of the Alumni Association, The New Hampshire, and old acquaintances.

Harold Ladd (Theta Chi) and Mrs. Ladd (Katherine Williams, '19) have left Hanover, N. H., and are now living in Ossipee, N. H., where Ladd is teaching.

CLASS OF 1924

Martha Higgins (Chi Omega) was back for the week-end recently.

CLASS OF 1925

Dorothy Conant (Chi Omega) and Elizabeth Griffin (Chi Omega) have both been spending their vacations in town. "Teddy" is teaching Math. in the high school at Bennington, Vt., and Elizabeth, English and History at Essex, Mass.

CLASS OF EX-1928

Haven Huchins (Phi Delta Upsilon) has transferred to Norwich University.

MRS. CORNISH PRAISED FOR NEW YORK CONCERTS

Mrs. Winifred Young Cornish, the wife of Robert S. Cornish, M. A., Instructor in Economics at this University, is giving a series of three piano concerts in New York City, the first of which was given February 13th, the second February 23rd, and the third will be given on March 6th.

All New York papers and musical magazines give Mrs. Cornish high praise for the achievement of a singular eloquence and clarity brought about by her unusual gifts as an interpreter and for the display of exceptional talent showing a great appreciation of color and bringing out all that is beautiful in her numbers. She possesses a nobility of utterance and phrase which reached her many auditors through the medium of a scholarly reading.

THRILLS GALORE FEATURE OF THE UNGUARDED HOUR

An airplane accident, in which Doris Kenyon crashes to earth amid tangled wires, broken propeller blades and smashed wings, furnishes one of the biggest thrills of "The Unguarded Hour," which comes to the Franklin Theatre next Monday. Milton Sills appears in the stellar role, with Miss Kenyon as the featured feminine player. The supporting players include Jed Prouty, Claude King, Dolores Cassinelli, Vivia Ogden, Cornelius Keefe, Lorna Duven and Charles Beyer. Lambert Hillyer directed the picture.

THETA CHI FRATERNITY HOLDS ANNUAL ELECTION

At the regular meeting of Zeta Chapter, Theta Chi fraternity on Tuesday night, Barney G. Johnson, '27, was elected president for the coming year; Todd B. Wallace, '27, vice president; Walter S. Hopkins, '27, treasurer; and Frederick B. Mitchell, '28, secretary. The men will be installed in office, March 9. Johnson is business manager of the 1927 Granite and manager of football for 1926. He is an architectural student in the University.

PLEDGING NOTICE

Alpha Tau Chapter of Alpha Chi Omega announces the pledging of Marion Cheney, '29, of Berwick, Me.

ALUMNI NOTICE

Remember The "Get-Together" at The Faculty Club after the basketball games, March 6.

SHERBURNE, '26, PRESIDENT OF AGRICULTURAL CLUB

At the regular meeting of the "Aggie" Club held in Morrill Hall last Monday evening, the following officers were elected: President, Ronald Sherburne, '26; vice president, Paul Farrar, '26; secretary, Charles Abbot, '26; treasurer, Frederick Sibley, '26; master of program, Charles Fogg, '26; sargent, Paul Bickford, '28; assistant master of program, Elbert Farrar, '27; and executive committee, Ralph Bemis, '26; Roland Dearborn, '27; Donald McLeod, '27. At the next meeting to be held March eighth, a representative of the DeLaval Separator Co. will give a lecture accompanied by moving pictures.

Plans for the annual "Aggie Ball" are being made. It will be held early next term and promises to be one of the best ever. In the past, the dance has been held during the winter term.

CONNECTICUT OFFICERS ELECTED FOR THE YEAR

The following were elected officers of the Connecticut Branch of the Alumni Association at the last meeting which was held last November in Hartford: President, W. E. Britton, '93, of New Haven; vice president, Beryle Davis, ex-'23, of Manchester, N. H.; and secretary-treasurer, J. A. Manter, '12, of Storrs, Conn.

FRESHMEN WIN TRIANGULAR MEET

The final event on the program was the triangular relay race. There was not much opposition for Coach Sweet's quarter milers, and they beat Pinkerton by nearly a lap, while the Nashua quartet was lapped in the third relay. The time, 2 min. 40 1-5 sec. was much slower than the Frosh have done, as none of the men were pushed.

The teams: Freshmen (Watts, Kelly, Bartlett, Huntoon); Pinkerton (Moore, Tappan, R. Whitney, R. Bartlett); Nashua (Sheridan, Juchnovitch, Smith, Pieper.)

TEN LEADERS IN VOCATIONS HERE SUNDAY

(Continued from Page One.)

be portrayed by Burt R. Cooper, of the firm of Cooper and Snow, Rochester, N. H. Opportunities for teachers will be outlined by Mr. William H. Buker, Superintendent of Schools in Rochester. The profession of medicine will be presented by Dr. J. A. Hunter of Dover. Mr. E. Curtis Mathews, Jr., Cashier of the Piscataqua Savings Bank, and a member of the Rotary Club, of Portsmouth, is to talk on Business. The different engineering professions will be discussed by Dean Case, of the College of Technology.

Mrs. Katherine C. Foster, Mt. Holyoke, University of Cincinnati, and Boston University; prominent in national Y. W. C. A. work; is to speak on Rural Callings and Y. W. C. A. openings. Mr. Fred S. Morrison, State Secretary for the Y. M. C. A., will deal with the reasons for being a "Y" Secretary. The ministry will be represented by Rev. Harry T. Stock, Knox College, University of Chicago, secretary of the National Congregational Education Society. Foreign Missions will be explained by Rev. James Yard, who is at present the representative in this country and Canada of the West China Union University. Miss Esther Thurston, a Methodist missionary from Japan, will supplement Mr. Yard's talk.

Miss Eleanor Wellman and Richard Longley, the committee in charge, is arranging a supper for the evening of the seventh, to be held at six o'clock in the Community House. This supper will be for all who wish to come, and a small charge will be made. Tickets are on sale by members of the committees.

DRAMATIC CLUB PRESENTS PLAY

(Continued from Page One.)

countenance. Ethel calls him her hero and tells him that she cares for him more than she ever supposed. The movie queen takes her lover and evacuates the town in haste. Poor Roger is jilted, much to the delight of Ethel's father, and everyone lives happily ever after.

It is the hope of the society that the production can be staged in Manchester and Concord if arrangements can be made.

"WILDCATS" BEAT TUFTS AND M. I. T.

(Continued from Page One.)

two baskets and came through with them in his usual manner. This game was the first of a two game series, the Jumbos playing on the local floor this Saturday night.

The Tech Engineers furnished a thrilling game for Coach Cowell's team, and nearly stopped the "Wildcats" from clawing out a victory. Both teams were poor on shooting fouls, New Hampshire missing eight and M. I. T. losing seven points by fouls. At half time the Tech five led by the slender margin of one point, the score being 8-7.

At the start of the second half the New Hampshire team scored a basket, only to have the score tied up by a foul try by a M. I. T. player. The remainder of the half found the score tied or one point ahead for the invaders. Nicora left the contest with four personals after five minutes in the second half, and Kelsea filled his position. A little later in the same period Taylor was forced to leave for the same reason, "Abe" Smith going in to jump at center. The substitutes held the small lead of the varsity men, until the final whistle gave them the game by a 20-19 score.

The summaries:
NEW HAMPSHIRE 29
Bridg, lf
(Craig)
Davis, rf
(Cotton)
Taylor, c
(Smith)
Kelsea, lg
Nicora, rg

Baskets made from floor: Cotton 4, Craig 4, Nicora 2, Taylor 2, Bridg, French 5, Dowson 3, Abrams, Stanley. Goals from fouls: Davis, Bridg, Kelsea, Stanley, Dowson. Referee: Hoyt. Timer: Manley. Time: 2 20m halves.

NEW HAMPSHIRE 20
Davis, rf
(Cotton)
Bridg, lf
(Craig)
Taylor, c
(Smith)
Nicora, rg
(Kelsea)
Kelsea, lg
(Davis)

Baskets made by: Davis 3, Cotton, Craig 2, Taylor 2, Estes, Forrester 3, Hinck. Goals from fouls: Davis, Bridg, Kelsea, Taylor, Nicora, Biehle, Forrester 6, Hinck 2. Referee: Hoyt. Umpire: O'Connor. Time: 2 20m halves.

LAMBA CHI HAS BOXING TROPHY

(Continued from Page One.)

Abrahamson, Lambda Chi Alpha, completely outclassing his opponent throughout the bout, took the decision from Donovan, Theta Kappa Phi.

"Abie" won the points in every round of the 125 lb. bout. Alec Currie, Delta Pi Epsilon, won a well fought battle in the lightweight class from McLeod, Delta Pi Epsilon.

Dewyea, Theta Kappa Phi, defaulted to Stewart, Phi Mu Delta, in the welterweight bout.

"Sandy" Roy, Phi Mu Delta, took a close decision from Wendelin, Alpha Tau Omega, in the light-heavyweight finals.

Necker, Lambda Chi Alpha, won the heavyweight bout by handing a knockout to Farrell, Kappa Sigma, in the last minute of the third round. Farrell showed classy spurts of fighting in the first two rounds, but the ceaseless punishment of Necker's right won the fight.

In the unlimited class Clark, Theta Chi, lost a rather uneven bout to Sargent, Lambda Chi Alpha.

The College Championship Bouts which are to be held next week give promise of real interesting action, with several of the old mittmen out for medals, as well as the new candidates, and members of the varsity squad.

EDUCATORS BACK FROM MEETING

(Continued from Page One.)

in connection with the general convention.

High lights of the convention opened with a visit to Arlington where Pres. Ballou of the association placed a wreath on the grave of the unknown soldier. Pres. Coolidge addressed the convention on Washington's birthday and Herbert Hoover spoke on "The Teacher as a National Asset." A general session of the whole association was held every morning, while the afternoons were given over to the problems of the various groups.

Prof. Wellman has been appointed one of a committee of three to represent the departments of Educations in New England colleges, to study the teaching of educational subjects. He is also to work out a questionnaire, which will be sent to each New England college in an attempt to ascertain the content and the length of courses in the educational departments with the ultimate aim of standardizing these courses everywhere.

The main group of the convention was the department of superintendents of the N. E. A., of which Dr. Ballou, superintendent of schools in Washington, D. C., was president last year. R. J. Condon was elected president for the year 1926.

The principal discussion of the conferences centered around the contents

of courses in the education departments of state universities. Dr. G. C. Arts was president of the group, and many prominent members addressed the delegates. The reorganization of time units in the educational systems of the nation was thoroughly discussed.

Prof. Wellman said that the modern tendency in education is to start with nursery schools, taking the child from the age of two to four; continuing with the kindergartens from four to six years; the six elementary grades from six to eleven years; three grades in the junior high schools from twelve to fourteen years; the three years in high school from fifteen to seventeen years; two years of the junior college and two years of the senior college.

The reorganization of curricula in teachers' colleges and education departments also occupied the thought of the conferences.

Prof. Wellman and Dean DeMeritt both thought that the conference was most helpful and successful and brought out many practical ideas which will aid them in their work here.

EXPERIMENT ON ALBINO RATS IN ZOOLOGY DEPARTMENT

(Continued from Page One.)

In brief, the main purpose of this experiment is to determine whether the administration of the desiccated anterior lobe of the pituitary gland of a sheep, given in the form of a solution, to pregnant albino rats, has any effect on the embryo during the gestation period. In other words, the object of the completed operation is to find out whether the pituitary gland at the base of the sheep's brain is transmitted through the different foetal membranes to the embryo.

The direct effect of this gland on the individual, which is supposed to result in gigantism, has been tried by different experimenters. None of these experimenters, however, have administered the anterior lobe with the purpose of observing its prenatal effects. Thus Mr. Tamcales has the distinction of being the first to watch these results.

The results to date are very satisfactory. Under this experiment the weight of a litter of seven rats, eight-days old, is double the weight of rats of the same age under standard conditions.

When old grads drop in—and around the fire experiences of then are fondly retold—have a Camel!

WHEN famed men return. And by dancing firelight they relate their stories of old—have a Camel!

For Camel helps all men who rise proudly to rise higher and more jauntily. Camels never harm or tire your taste, no matter how plentifully you smoke them. You'll never find more friendly flavor than you get in Camels.

So this night when those from long ago return to think of the roads that join. As you see in their past your future unfold, then zestfully taste the smoke that's prized by the world's experienced.

Have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and Domestic tobaccos. The most skillful blending. The most scientific package. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

THETA CHI LEADS RACE FOR WINTER SPORTS CUP

By taking first place in the ski jumping on Tuesday afternoon Clarence Gustafson garnered 18.61 points, placing the Theta Chi's in the lead in the Intra-Mural Winter Sports meet. Dearborn, Alpha Gamma Rho, was second with 14.69 points; Moore, Lambda Chi, third with 14.41 and Johnson, Theta Chi, fourth with 7.91 points. Owing to the icy condition of the big jump, the contest was held on the sight of the ski proficiency on Bagdad Road.

The thaw that set in at the first of the week prevented the program from being fully carried out and the skating races will have to be postponed until later in the week pending a drop in temperature.

To date the standing shows Theta Chi leading with 18 points, A. T. O. second with 16 and one-third points, Alpha Gamma Rho 14 and one-third points, non-frat fourth, two and one-third points, Lambda Chi fifth, two points, Phi Delta Upsilon sixth, one point.

SCHOOL BASKETBALL TOURNAMENT MAR. 12-13

Full Week-end Promised Youthful Fans—Eight High School and Four Prep Teams Entered—Tournament Drawings Made—Dover vs. Portsmouth Tonight

The Fifth Annual Interscholastic Basketball Tournament will be held here on March 12 and 13 with all signs pointing to a most successful affair. There are eight high school and four prep teams entered in the high and prep school divisions. Each division competes for a separate trophy as in the 1925 tournament.

Portsmouth and Dover are waging a pre-tournament battle at the University gym on Thursday, March 4, for the honor of representing the seacoast district. Either Ashland or Franklin will represent the Lake district.

The remainder of the teams have been chosen. The drawings for the tournament play are as follows: Friday 3-6 p. m. Dover or Portsmouth vs. Ashland or Franklin; Sanborn vs. Colby; Littleton vs. Bartlett. Friday 7-10 p. m. Manchester vs. Keene; Proctor vs. Tilton; Nashua v. Lebanon. Saturday 10-12 a. m., Winner No. 1 vs. Winner No. 4; Winner No. 3 vs. Winner No. 6. Saturday 2.15 p. m., Winner No. 2 vs. Winner No. 5. Saturday 7.15 p. m., Winner No. 7 vs. Winner No. 8.

This year each session of games, not counting the Varsity game, will be 50c. A tournament ticket, admitting to all games, including Varsity, will be \$1.25. The admission to the boxing meet with M. I. T. will be 50c and not included in the tournament ticket.

Tournament details will be handled by the Department of Physical Education, assisted by the managers, Sphinx, Harry Steere, '26, and Charles Fogg, '26.

WARN LOCAL FARMS AGAINST EXPANSION

New England Experts See Somewhat Poorer Markets This Year Due to Probable Depression

With a probable decline in business activity ahead and so a somewhat poorer market, New England farmers are advised to be careful about expansion of production during the coming year. This is the general conclusion of the conference of agricultural experts held under the auspices of the New England Research Council on Marketing and Food Supply in Boston. Their statement under date of February 23 predicts much the same level of prices for fluid milk in 1926 as 1925, and a probable depression in poultry prices by the last half of the year. Potato growers are urged to watch out for over-expansion due to the favorable prices of the past year. The long-time outlook for quality apple production is considered good.

The number of dairy cows has declined 6 per cent since 1920 in New England, and the number of dairy heifers to a much larger degree. Prices of dairy cattle are higher. On the whole the outlook for fluid milk producers appears more satisfactory than that for dairymen who produce for the butter market. Feed prices will probably continue favorable through the first half of 1926.

The outlook for poultry prices for the first half of the year is better than for 1925, but the prospects for lower egg prices and more hens make it seem likely that increased offerings will depress poultry prices for the last half of 1926. There has probably been a 50 per cent increase in number of hens since 1920 throughout New England; and despite the industrial prosperity of consumers, egg prices have tended to move downward for the past two years.

LAST NUMBER ON LYCEUM COURSE MARCH ELEVENTH

The last number on the winter lyceum course, held under the auspices of the University, will be given in the men's gymnasium on Thursday evening, March 11th. At this time a concert will be rendered by Heinrich Gebhard, pianist, and Harrison Keller, violinist.

HARD SCHEDULE FOR DEBATERS

Both Men's and Women's Varsity Team Make Trips

"MARRIAGE LAWS," "WORLD COURT"

And Coal Among Subjects Discussed —Ends Season for Women—Bates Meet Cancelled

The New Hampshire debating teams will encounter strong competition in the contests scheduled for this week with Rhode Island State, Maine, Middlebury, and Boston University as opponents.

On Thursday, March 4, at 8 P. M. in the Zoology Lecture room in Thompson Hall, the New Hampshire Negative team, Robert Brown, '28, George Summerville, '26, and Jerry Bond, '28, will meet the Rhode Island State Affirmative team on the question, "Resolved, that Congress should pass uniform Federal Marriage and Divorce laws, Constitutionality waived." Mrs. Lucinda P. Smith will preside, and the judges will be Mr. Frank Bliss, cashier of the Strafford National Bank of Dover, Rev. Leon Morse, minister of the M. E. church of Dover and Mr. Harlan Bisbee, principal of Robinson Seminary in Exeter. At the same time, New Hampshire's Affirmative team, John Neville, '27, Harry Page, '27, and Paul Johnson, '27, will debate the University of Maine Negative team on the same question at Orono, Maine.

On Friday, March 5, New Hampshire's Affirmative women's team for the question, "Resolved, that from all the facts the Senate was justified in agreeing to join the World Court," will debate the Boston University Negative team in Boston. The New Hampshire girls making the trip will be Dorothy Davis, '28, Katharine Flanagan, '28, Ruth Finn, '26, and Evelyn Davis, '28, alternate.

On Tuesday, March 9, another women's team, Gwendolyn Jones, '27, Carolyn Woods, '28, and Gladys Harris, '27, will maintain the Affirmative side of the question, "Resolved, that the anthracite coal mines of the United States should be owned by the Federal government," in a single contest Oxford plan debate at Middlebury College, Vermont, while the Negative will be upheld by a Middlebury men's team, William T. Hade, '26, of New York City, James S. Jackson, '26, of Akron, Ohio, and Dana S. Hawthorne, '26, of Waldoboro, Maine, all of whom are prominent leaders in Middlebury collegiate activities.

These last two debates will complete the season for the women's teams as the proposed debate with a Bates College women's team had to be called off because of the crowded condition of the Bates schedule during the New Hampshire debating season. The University of Maine women's team was obliged to cancel its scheduled March 5 debate with a New Hampshire women's team because of the illness of some of the Maine debaters. The Middlebury debate was arranged for in place of the debate with the Maine women's team.

MEN'S GLEE CLUB GIVES CONCERT AT BOY'S CLUB

The Men's Glee Club gave a concert in Dover Thursday, February 18, before the Boy's Club. Many trips are planned for this spring, including Peterboro and Concord, N. H., and possibly Quincy, Mass.

The Combined Glee Clubs are planning to perform "Hora Novissima," of Horatio Parker, with a professional quartet from Boston, some time in May. They will be assisted again by Mr. Harris S. Shaw. This will be the first time this oratorio has ever been performed in New Hampshire.

DEAN POTTER WILL BE HERE MARCH 18

Branch of the American Society of Mechanical Engineers Formed Here —Members Discuss Engineering Subjects at Meetings

A student branch of the American Society of Mechanical Engineers has recently been formed. Juniors and seniors of the Mechanical and Industrial departments are eligible for memberships. Meetings are held weekly at which time members give half hour talks on engineering subjects of current interest. One half hour credit is given for participation in the organization. The following officers were elected: Honorary chairman, Professor E. L. Getchell; chairman, H. W. Steere; secretary-treasurer, E. E. Grover; member of the executive committee, F. A. Matthews.

Through the efforts of Professor Getchell, Dean A. A. Potter of Purdue University, a well known writer of engineering books, has been secured to give an address before the engineering students on March 18. It is planned to have examinations set ahead one half hour on this date so that all engineering students may attend the special convocation. The society anticipates that convocation credit will be given those attending.
