Looking Back

As we print the last issue of The New Hampshire for the year, 1926, and cease work on the problem which has been a part of our lives for the past year, we are all aware of the many things that have happened. Some have done wonderful work to make our College a success; others have used public office on account of their outside interests. Some have been well worth the while. But all of us can be grateful that the year is over and we can look back on the year and visualize our University as it was and as it will be. It is a good idea to realize our mistakes and accomplishments. We will have done well if we can remember today that we have made mistakes. It is to be hoped that we can learn from them.

In conclusion, let us remember that the University is the body of the students. It is a living, breathing thing, and it will exist only so long as the students have a life in it. Let us make sure that the same mistakes are not repeated in the future.

Dorothy L. Macdonald, Treasurer, Board of University Committees.

All Members of the R. O. T. C. I would like to take this opportunity to extend my joyful congratulations and wish you all the best of luck in the coming year. The R.O.T.C. is a great organization and I am sure that you will all enjoy it.

Respectfully submitted,

Dorothy L. Macdonald, Treasurer, Board of University Committees.

The retiring cadet officers wish you all the best of luck in the coming year. They hope that you will do your best in every way to make the University proud of you.
