DURHAM, NH - Incumbent Governor Chris Sununu holds a wide lead in the 2022 Republican gubernatorial primary over his Republican rivals. Sununu remains popular among likely Republican primary voters while a majority don't know enough to have an opinion of each of his challengers. A majority of Granite Staters, and 85% of Republicans, approve of Sununu's performance as Governor.

2022 NH Republican Gubernatorial Primary

Chris Sununu is running for a fourth term as Governor of New Hampshire but is being challenged by some Republicans who are unhappy with his handling of COVID-19 and for his criticisms of former President Donald Trump. Despite these challenges, Sununu is likely to easily win the GOP nomination. If the 2022 Republican primary election for Governor was being held today, 72% of likely Republican primary voters say they would vote for Sununu, only 7% would vote for former Brentwood School Board member Thad Riley, 5% support former Franklin City Councilor Karen Testerman, 1% support for Marine veteran Julian Acciard, 1% would vote for another candidate, and 14% say that they are undecided.

Among likely Republican primary voters, less than two-thirds of those aged 18 to 34 plan to vote for Sununu while one in five support Riley. Riley also garners a larger share of the vote among conservative radio listeners and *The Joe Rogan Experience* listeners, but Sununu retains a clear lead even among these groups.

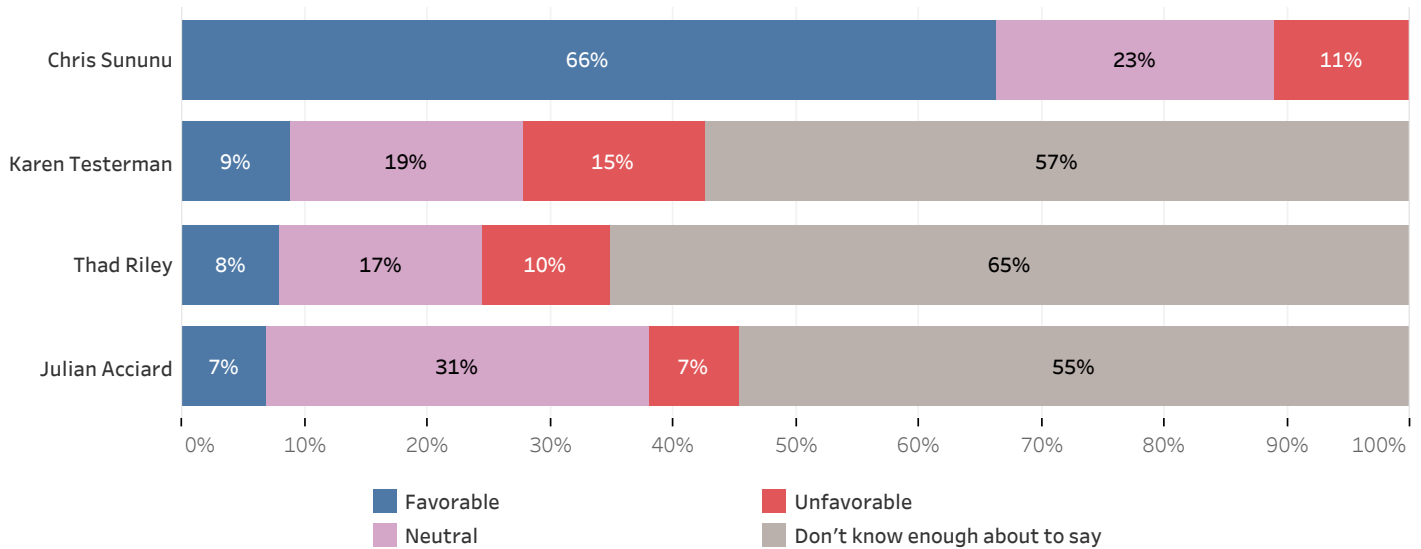

2022 New Hampshire Republican Gubernatorial Primary - Preferred Candidate - August 2022

* We ask that this copyrighted information be referred to as *the Granite State Poll*, conducted by the University of New Hampshire Survey Center.

Sununu is by far the best known Republican candidate among likely Republican primary voters: 100% know enough about him to have an opinion, compared with 45% who have an opinion about Acciard, 43% who have an opinion about Testerman, and 35% who have an opinion about Riley. Sununu is very popular among likely Republican primary voters, enjoying a net favorability rating (the percentage who have a favorable opinion minus the percentage with an unfavorable opinion) of +55. By contrast, likely Republican primary voters are neutral or slightly negative in their opinion of Acciard (+0), Riley (-2), and Testerman (-6).

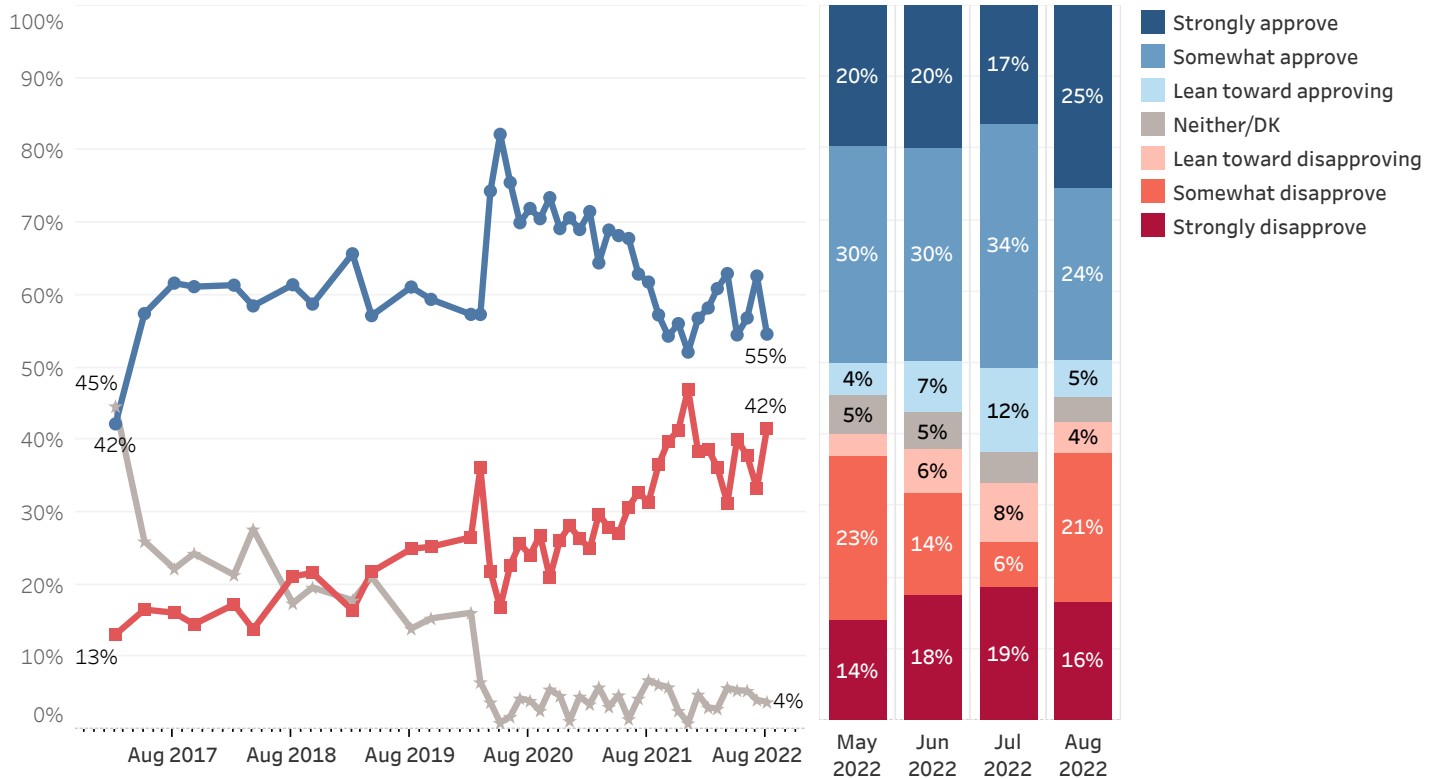

Favorability - NH Gubernatorial Candidates - Among Likely GOP Primary Voters - August 2022

Gubernatorial Approval

Sununu continues to be a popular governor - 55% of New Hampshire residents approve of Governor Sununu's job performance, 42% disapprove, and 4% neither approve nor disapprove or don't know. Sununu's net approval rating (the percentage who approve minus the percentage who disapprove) is +13, down from +29 in July. Eighty-five percent of Republicans and 53% of Independents approve of Sununu's performance as governor but only 26% of Democrats agree.

Approval of Governor Sununu's Job Performance

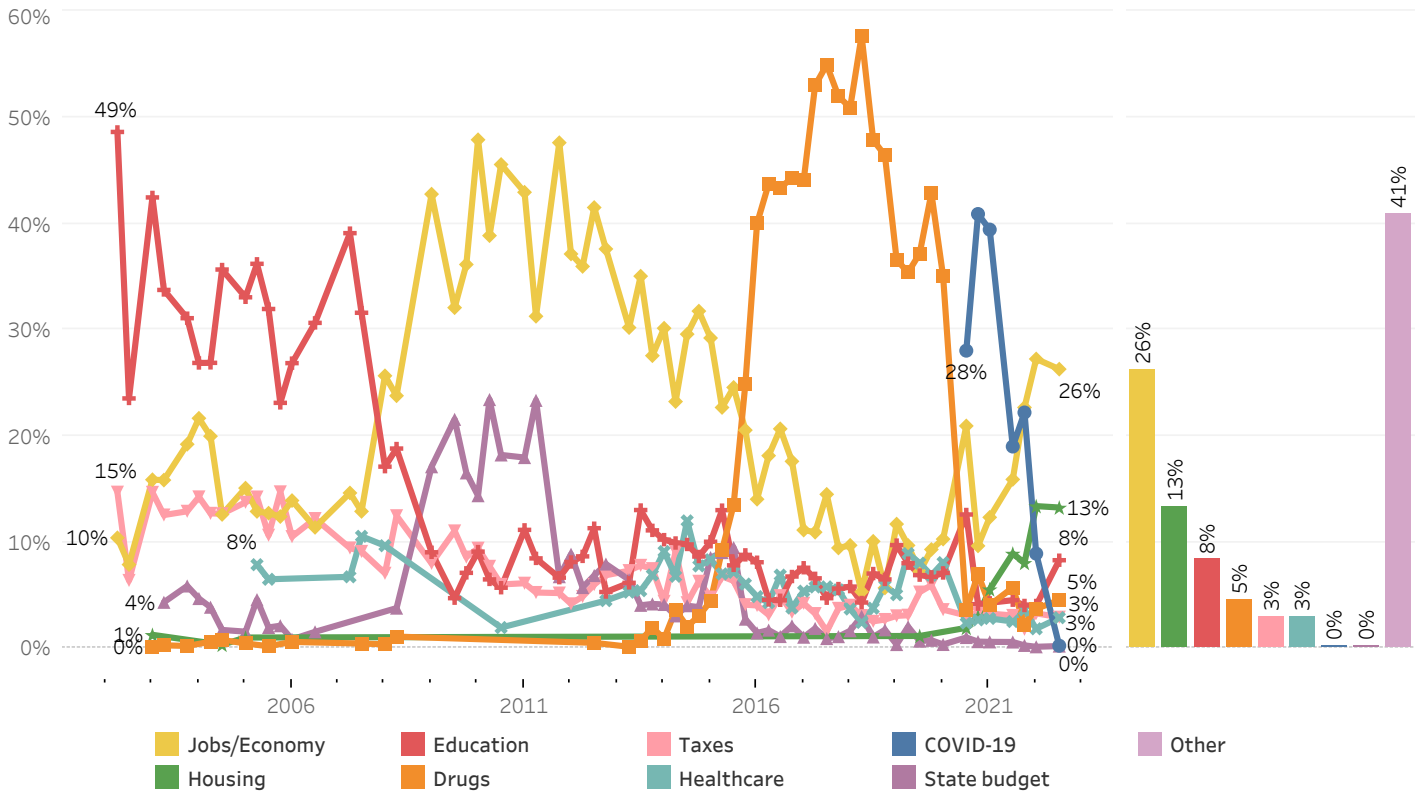

Most Important Problem Facing New Hampshire

Twenty-six percent of New Hampshire residents say that jobs and the economy is the most important problem facing the state while 13% believe housing is the most important problem and 8% believe education is the most important problem. Fewer cite drugs (5%), taxes (3%), healthcare (3%), the COVID-19 pandemic (<1%), or the state budget (<1%) as the most important problem facing the state, while 41% say something else is the most important problem.

Most Important Problem Facing New Hampshire

August 2022

Granite State Poll Methodology

These findings are based on the latest Granite State Poll, conducted by the University of New Hampshire Survey Center. One thousand, nine hundred and ninety-three (1,993) Granite State Panel members completed the survey online between August 25 and August 29, 2022. The margin of sampling error for the survey is +/- 2.2 percent. Included in the sample were 892 likely 2022 Republican primary voters (MSE = +/- 3.3%). These MSE's have not been adjusted for design effect. The response rate for the August 2022 Granite State Poll is 26%. The design effect for the survey is 2.9%.

Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the NH Secretary of State and to 2020 election results in New Hampshire.

The Granite State Panel is part of an effort by the University of New Hampshire Survey Center to investigate new ways of gathering and understanding the opinion of New Hampshire residents. Approximately 7,500 New Hampshire adults have been recruited from randomly-selected landline and cell phone numbers to participate in the panel. Panelists are then asked to participate in online surveys sponsored by the UNH Survey Center.

The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions. Due to rounding, percentages may not sum to 100%.

For more information about the methodology used in the Granite State Panel, contact Dr. Andrew Smith at (603) 862-2226 or by email at andrew.smith@unh.edu.
