DURHAM, N.H. -- The University of New Hampshire's eighth annual Undergraduate Research Conference (URC) April 23-28, 2007, will feature hundreds of UNH students from all academic disciplines presenting the results of their research, scholarly and creative works.

Students at UNH work with faculty mentors to conduct scholarly inquiry into topics that intrigue them and engage in a process that teaches creative thinking and problem solving within their chosen disciplines.

Undergraduate Research Conference events are open to the public and feature student work from all of UNH's schools and colleges at both the Durham and Manchester campuses. It is the perfect time for parents to encourage their children to explore higher education with a visit to one of the many URC events highlighting students at work. The full schedule for UNH's Undergraduate Research Conference is available online at <http://www.unh.edu/urc/>
