10. NATHAN L. GRIFFIN

"A friend in need is a friend indeed!" A friend we have all learned to know while we were students here at the University of New Hampshire. He was not so fat and not so tall, but a strange and interesting character. A true philosopher and a man of letters. He was a man whose loss to the University and to the town is a great one. We have差别大了 with such a man and it is impossible to express our sentiments to those who have spoken and to those who have not.

Convocation

Last year at this time there was considerable excitement on the part of the students because of the Convocation committee in charge of arrangements. At the time, the New Hampshire State Board of Regents expressed the desire that the students of the University of New Hampshire shall be given the opportunity to announce their sentiments and the things that they want to see changed. The students were not satisfied with the results of the Convocation and they have not had any of the changes that they wanted.

Philadelphia Club Elects

P. Blanchard, '17, SPEAKS TO The new president of the Philadelphia Club (See page 3) was elected at the quarterly meeting of the club, held at the residence of Mr. Robert G. Cravath, president of The Philadelphia Club.

"Personality of the individual candidate is of the utmost importance. He should be a man of marked ability and strong, marked character. He should be a leader, one who can stand his ground and fight his corner."

Mr. Blanchard, who was also a member of the executive committee of the club, spoke of the work of the club in the past year and of its future plans.

"The club has a fine record for the past year, and I am sure that it will continue its good work in the coming year."
