2006 Mainstream Triennial Review Is Complete
Effective September 15, 2006

The current CALLERLAB Program Policy requires a review of all CALLERLAB dance programs at least once every three years. This review is conducted by each applicable dance program committee and is known as the “Triennial Program Review.” This review is conducted as follows: first the Mainstream Committee completes its review of the Mainstream Program, then the Plus Committee conducts its review of the Plus Program, then the Advanced Committee conducts its review, and finally the Challenge Committee conducts its review. During these reviews each program committee will review the applicable dance program to determine if any changes are required. Changes can include additions or removal of calls from the program.

The Mainstream Committee has completed the review of the Basic and Mainstream Programs. The following is the result of that review:

**Added:** SPIN CHAIN THRU was added to the Mainstream Program

**Removed:** No calls were removed from the Basic or Mainstream Programs

All callers and dancers are reminded that the call SPIN CHAIN THRU has NOT been part of the Mainstream Program since 2001. It is recommended that Mainstream dancers be provided a walk-thru or review of the call before it is used at an open Mainstream dance.

Copies of the revised Basic and Mainstream Program lists, definitions, and checklists are available on the CALLERLAB website at: www.CALLERLAB.org.

56th National Square Dance Convention®

DID SOMEONE ASK ABOUT “DANCING?”

TRAIL DANCES: These dances are held “On the trail to the National Convention.” The dances can be sponsored by any group or club and celebrates the visitation of dancers as they travel on their way toward the Queen City of Charlotte. *And the dancing continues...*

SQUARE DANCING: All levels (programs) of square dancing are provided during the convention. Hundreds of callers from all over the world will participate providing their unique calling skills from 10:00 am until 10:00 pm every day and then call for another two hours at numerous After Parties. *And the dancing continues...*

CONTRA: There will be a full Contra Program for your dancing pleasure. You may be surprised to learn that Contra predates Modern Western Square Dancing with its roots going back several centuries to France, England and Scotland. There will also be Traditional Dances called as well. You will enjoy dancing to great music with an “Unhurried” style. Since there is a walk through before each session, non Contra dancers will enjoy this special form of dancing. *And the dancing continues...*

ROUND DANCING: Over 100 Round Dance Leaders will be attending the convention to cue and teach rounds at every level (program) including an introduction to rounds for beginners. *And the dancing continues...*

CLOGGING: For those with strong legs, this one is for you. Instructors will provide a full clogging program every day just for you. *And the dancing continues...*

COUNTRY WESTERN/LINE DANCING: During the convention in Charlotte in 1998 (47th NSDC) there were 23 of the finest instructors bringing fun, fellowship and fast feet to those who enjoy this part of our Western Heritage. The 56th NSDC plans on continuing with this fine tradition. *And the dancing continues...*

TRAIL END DANCES: Your “Trail” is over and these dances are held the night before the official start of the National Convention (Wednesday), at the site of the Charlotte Convention Center. There will be several dances held at different halls. You will want to check the official web site for that information, just before you leave for the convention. *And the dancing continues...*

AFTER PARTIES: After the regular programmed dancing is over there will be more dancing. So save some of that energy for two hours of great dancing. These After Party dances are sponsored by national organizations, record companies, and future national conventions. *And the dancing continues...*

EXHIBITIONS: WOW! You never know what to expect during the exhibition dance presentations. This is one of the most, sit back and relaxing entertainment times of the convention. You will not want to miss this special time of relaxing and enjoyment, while someone else provides the entertainment... Visit the 56th Official Web Site (www.56thnsdc.com) for all the latest information about the convention!
We stood alone; the problem was we were two traveling strangers from another state visiting an unknown square dance club. In our many years of dancing and traveling, as we visit a new city we will look in the international directory (now on line) or call a local square dance clothing shop and find a new club where we can dance. After we sign in we greet some people and let them know where we are from and join with them in a square. In this instance just before the caller went on the stage, three squares went to the floor and left us sitting. After the tip the caller announced that the round dance cuer had called in sick, so there would be a short break between tips and the next tip would be plus. As JoAnn and I waited sure enough the caller (who didn’t greet us), started for the stage so we went to the floor and held up our hands for someone to join with us for a plus tip. Two squares went to the floor and the remaining dancers went to their chairs, indicating to us that they didn’t dance Plus. We stood alone. The caller said nothing, the dance tip started and we sat down. Shortly after that we left the dance.

Square dancing is friendship set to music. While dancing with old friends is nice, remember to dance with new friends as well. New dancers, experienced dancers visitors from other local clubs and strangers from other parts of the world all join together in one common bond of friendship, fellowship, and enjoyment of square dancing. This recent visit was so unusual I felt I had to write about the experience. In our many years of dancing this has only happened once before and the caller took steps to see that we were invited to dance. I can only hope that dance clubs and dancers understand that the responsibility of making strangers feel welcome is not a chore, job or task, it is fun. After all Square Dancing is “Friendship set to music.”
A Message from the ARTS Chairman...

In its efforts to fulfill the ARTS Mission the ARTS Governing Board has identified new opportunities to generate public awareness and promote growth and acceptance of contemporary Square, Round and Traditional Folk Dance by encouraging and assisting a coalition of allied dance groups.

Among these opportunities is the release of a movie this summer which will include Square Dancing. “The Astronaut Farmer” starring Billy Bob Thornton, Bruce Willis and others is scheduled to be released in August. The plot of this movie - A NASA astronaut is forced to retire so he could save his family farm. But he cannot give up his dream of space travel and looks to build his own rocket, despite the government’s threats to stop him. While on the farm, he is enticed to try Square Dancing. Dance groups are encouraged to contact theaters in their area showing “The Astronaut Farmer” and offer to put on demonstrations. With the release of this movie scheduled for August the timing is perfect for clubs to promote their upcoming classes. The subtitle for this movie is “one small step for man, one giant leap for farmers.” It is hoped that by seizing the opportunity to promote square dancing in conjunction with this movie we can capitalize on the enthusiasm generated and take “one small step for man, one giant leap for dancing.”

During the ARTS Summer meeting in San Antonio the Governing Board viewed an interesting presentation on incentive/buzz marketing, involving the awarding of prizes for enticing new dancers into the activity. An informative presentation of the “Friendship Set to Music – The TV Show” developed by the Central East Region of the Square Dance Federation of Minnesota was shown to ARTS.

In addition to these new initiatives, the Alliance of Round, Traditional and Square-Dance (ARTS) continues to advance its current programs: ARTS Add-A-Buck: ARTS Dance Travel; Dance America Benefit Dance (February 29, 2008); Learn to Dance 866-455-ARTS; Demographic Surveys; Square Dancing 101; Grant Applications; and many others.

All Dancers are encouraged to support these programs and lend a hand wherever possible.

If you don’t see your festival or convention information listed in the What’s Ahead section ask, “Did someone remember to send the information?” We will include any dance that we feel might be of national or international interest.

American Square Dance, November 2006
35th Georgia State Square Dance Convention

“Dance and Mix in 2006!” and that’s exactly what we all did, at the Georgia State Square Dance Association’s 35th Annual Convention held September 14 to 16 at the Macon Centreplex.

It all started out on Thursday night with the Trail End Dance which was well attended with over 300 dancers. On Friday, the full swing started at 11:00am and went until 11:00pm, with some fantastic callers and cuers on hand directing the dances. According to the room count, we had on Friday around 600 and then on Saturday, we jumped to over 1,000, with our Youth Hall having an unbelievable gathering of over 20 youths participating. Those children are the future for our square dancing and it appeared to all of us that they were having a ball. Their Scavenger Hunt and Pizza Party were a great success, I only wish we could have taken part with them!

Our callers, cuers, line dancing and contra instructors outdid themselves this year and had all of the rooms full with eager dancers including the EZ Mainstream room, an extraordinary idea for all the new graduates. Another great idea again this year, was the dancers break area, with all the finger food and coffee that was provided.

I certainly don’t want to omit all the great “stuff” that went on Saturday from the 1800 Club Dancers plus all the lovely models for our fashion show. Our meetings were well attended, starting off with the National Convention Education Seminar, the Singles Meeting, Sewing Clinic along with the very informative Insurance/Leadership meeting.

Many hours went into preparing for this once a year event and we, the Board of Directors, would like to thank everyone for their participation and look forward to seeing you next year on September 13 to 15, 2007.

Bystander Finds Danger In Square Dancing

By Lou Daniels, Correspondent

I’ve been having a lot of fun lately, going to watch the square dancers at the various square dance clubs. Why nobody gets killed or has a fractured skull is beyond me.

I guess I go for the same reason that people go to the auto races. (If there’s gonna be a wreck, I wanna be there to see it!)

My pal, Betty, decided that she would like to take up square dancing, but after watching them one night I told her that she had better either “up” her life insurance or forget the whole thing. Looked risky to me!

These square dancers are nice people, don’t get me wrong. I think they just like to live dangerously.

To demonstrate how kind and friendly they are, they always greet each other with what they call a “Yellow Rock”. This is a big hug which enables the men to pick the girls up off their feet and whirl them around over their heads. The girls squeal, the men guffaw, the evening is off to a great start.

The ladies wear something that looks like an open umbrella only there are two handles sticking out the bottom instead of one. (These are their legs, you dummy!)

I think the flared out skirts are intended to make everybody look like they have a 16 inch waist. It doesn’t always accomplish this purpose, but I am reasonably sure that this is the intention.

The men generally wear jeans and long sleeved western shirts and all look extremely manly in comparison to the frilly girls.

Once the music starts and the caller takes his place, all the dancers rush out on the floor and form groups of eight. These are called squares or diamonds or something like that, and each dance is called a top. (Or is it a tip?) Anyway, everybody looks expectant and ready to go.

Suddenly the caller gives a call and all hell breaks loose. It’s like somebody stepped on an ant bed and all the survivors are scurrying around trying to get out of the way. How anybody knows what they are doing is beyond me. When he calls, “Bend the line,” I would expect that a straight line would suddenly curve and maybe become a circle or something. No such luck. Instead of a curve the dancers all end up in a straight line facing each other.

I think this call is intended to confuse the bystanders and all the square dancers are in on it. Pretty dirty pool!

The Do Sa Dos and Promenades are fairly easy for me to recognize, but when they get into Box the Gnat, Spin the Top, and Rollaway half sashay, I have no idea...
what anybody is doing.

Every once in awhile the caller will inquire, “Anybody hurt?” which leaves me with the distinct impression that this is certainly a possibility.

I did see one man go down like a pole axed steer once but everybody continued dancing politely around him until he regained consciousness and then welcomed him back into the group and didn’t seem to hold it against him which I thought was pretty decent of them.

Betty seemed to fit right in and took her lessons with a group of square dancers known as the Bean Pickers in a nearby town. These folks have what they call, “Guardian Angels” who are really the experienced dancers who are kind enough to kind of adopt beginners and put them through their paces until the students learn all the calls themselves.

It wasn’t long before ole Betty was out there doing the Ferris Wheel, Pass Thru, Shoot the Star, and Grand Square with the best of them I kinda learned the calls but never had any idea what they were gonna do when that particular call was made.

Somebody at the Back Yard Swingers, another club we attended, said there are more than a hundred calls to learn. Since I can’t even remember names for more than five minutes at a time I figured it was a good thing I never got involved in square dancing. It only takes one clutz to bolix up the whole square of eight people, which seems like an unenviable position to be in.

But all kidding aside, most of these dancers are incredibly good at what they are doing. If they were each carrying a little chunk of bread in their mouths I could easily gain the impression that these were a bunch of ants scurrying through all the various tunnels and patterns and only running into each other occasionally.

Lots of laughing and whooping goes on and everyone seems to really have a ball. When the dance is finally over all those still able to stand up face each other with loud “Thank Yous” and everybody gets another Yellow Rock.

I trust you remember what I said this was at the beginning of this Column. If you don’t remember, forget about Square Dancing. They’ve got 99 other calls to remember too.

Drop in at lemonade hall some Saturday night and watch the dancers. Bring your hard hat and shin guards!!! You’ll enjoy it!!!
Get In The Swing & Get Fit With Square Dancing

The American Callers' Association in its attempt to be of service to all callers, dancers, and associations has provided current, timely, and effective information on new dancer recruitment, winning ways to retain club dancers, and pitfalls that drive square dancers away. ACA really appreciates the positive comments, encouragement to continue, and contributions from callers and dancers all over North America and abroad to continue these initiatives. ACA will continue to provide information that will help the square dance community recruit, retain and retrieve square dancers as well as encourage the dancers to speak out on the cumbersome dance programs.

This month’s ACA Viewpoint is from a dancer’s viewpoint and highlights what is RIGHT about square dancing. Like last month’s article, it is again from Ms. Pat Latta in New York State. She points out the benefits and blessings of square dancing. Pat published her Get In the Swing in Mature Life magazine which has distribution in 12 counties in New York State. She offers this to all of the readers to be used in your recruiting of new dancers, retaining present dancers and retrieving former dancer to square dancing. ACA advocates that square dancing has the potential to be of interest to everyone.

Square dance benefits include such things as physical and mental health. Does your doctor tell you to get more exercise? Pat’s answer: Square Dancing. Do you not have much to do on the weekends or week nights? Pat’s answer: Square Dancing. Have you lost touch with old friends or want to make new friends? Pat’s answer: Square Dancing. Are you young, old, married, single, or divorced and want new excitement? Pat’s answer: Square Dancing. Pat hits the nail right on the head relating to peoples’ needs.

Pat continues that today’s modern square dancing is dancing to a specified set of directions that are called to modern music. Dances are usually held in fire house halls, schools, churches or community centers where refreshments minus alcoholic are served. Square dance calls are in English and are standard throughout the world in Europe, Asia and Australia as well as in all 50 states and Canada.
Pat explains that there are many active clubs throughout the country. Through square dancing men and women have found the secret of keeping mentally and physically healthy and alert while having fun. You can dance with different people throughout each evening of dancing and can dance most every night of the week. Pat explains that square dancing is: “exercise to music” and is an integral part of a weight loss plan and can keep muscles and joints moving, which is a great way to dance away the pounds and soreness. People can square dance regardless of their health. People with hip and knee replacements, with heart problems and those missing a limb can still square dance.

Pat also believes that square dancing increases mental alertness because dancers never know the order of the calls and must listen as the caller sings his commands. It is a case of eight people working together and having fun to keep the square going. Pat adds that square dancing is a fun type of diversion from concentrating on the stress of a job or family. Square dancing is for all ages.

Square dancers travel throughout the country in their RV’s, take square dance cruises, attend weekend camping dances and entertain residents of assisted living and rest homes. Lastly, square dancing is very inexpensive with the average price of a dance to be around $5.00 including no cost refreshments. Square dancers often carpool to save gas. Pat’s final comments are, “Square dancing is fun. Go ahead and get square dancing for the music, exercise, friendship, economy and travel but most of all for the fun of it!”

The American Caller’s Association is again very grateful to Ms. Pat Latta for presenting her viewpoints to be communicated and discussed. Her willingness and desire to revitalize square dancing is praise-worthy. ACA thanks her for taking the time to communicate to us. Pat can be reached at patlatta1@usadatanet.net

Any individual, club, caller, or association who wishes to communicate his/her opinions on this subject is encouraged to contact the American Callers’ Association at Loulet@aol.com or Dr. Patrick Demerath at pdeemerath@troy.edu. Please visit our website and newsletters at American Callers.com/news.

Until next time, happy dancing, see you in a square.
USDA Handicapable Program

Distribution of Handicapable Funds

Since it is difficult for Handicapable clubs to know exactly how many of their members will be attending until the convention actually occurs, the allotment of funds will be addressed in the following manner.

The application for registration reimbursement must be received by July 31 indicating the number of Handicapable dancers in attendance at the National Square Dance Convention® just past.

The amount of reimbursement could be anywhere from partial registration reimbursement to full registration reimbursement. The total per Handicapable dancer will not exceed the full registration fee.

The amount of reimbursement depends on available funds and the number of requests. The amount of funds available will be determined at the USDA annual meeting. The funds available will be divided equally among those submitting applications.

Once all applications are received by the cut-off date of July 31, the Handicapable Committee will review all forms for completeness and then send them on to the Treasurer for reimbursement. A check will be sent to the contact person in the club’s name.

Explanation of Program

The USDA Handicapable program is monetary in nature. It consists of allocating monies toward the registration fee for eligible Handicapable dancers to attend the National Square Dance Convention®, that is held yearly.

Eligibility

The only requirement to be eligible is to be a Handicapable dancer in a Handicapable club. Any Handicapable club in the United States may apply for these funds.

How to Apply

In order to apply for funds, a club contact person must fill out the application form in this pamphlet and send the form to the USDA Handicapable Committee chairperson:

At a true Square Dance!
In 1979 at age eighteen Jay Silva learned to square dance, with the Riverside Teens in Danvers, Massachusetts under the direction of Gordon and Shirley Anderson. In 1980 he attended caller school under the direction of Art Nurse. A year later he attended callers school at East Hill Farm in Troy, New Hampshire, taught by Earl Johnston, Clint McLane, Al Brundage and Duce Williams.

While calling a dance in November of 1985 he met his wife to be, Sandi. They were married in September of 1986. They have four daughters and two granddaughters and reside in Northwood, New Hampshire. They both enjoy and love the square dance activity and each other.

Jay has been calling for 27 years and received the Quarter Century Award from CALLERLAB in 2004. In Jay’s early years of calling he called a lot of party nights. He still enjoys calling party nights. Jay has called and taught in many different clubs throughout his calling career. Some of the clubs he has called for are: The Single Squares (Woburn, Massachusetts), Checker Board Squares (Chelsea, Massachusetts), Down East Westerns (Elliot, Maine), Bradford Country Squares (Bradford, New Hampshire), Wolfeboro Wranglers (Wolfeboro, New Hampshire), and Twirling TNT’s (Teen Club) (Manchester, New Hampshire).

Beginning this season, he will be teaching a class for the Border City Squares of Nashua, New Hampshire. He conducts an A-1 workshop for his group, the Silverado’s. He has been a featured caller at several square dance weekends at Bonnie Oaks Resort (Vermont), East Hill Farm (Troy, New Hampshire), Horse-
shoe Acres (Andover, Vermont), and Lake Shore Farm (Northwood, New Hampshire). He teaches and calls Basic through A-1.

He and his wife Sandi were the Sound Chairmen for the 34th and 35th New England Square and Round Convention in Manchester, New Hampshire, in 1992 and 1993, and for the 44th and 45th Convention in Sturbridge, Massachusetts, in 2002 and 2003. They have been appointed the General Chairmen for 2008 and 2009 for the 50th and 51st New England Square & Round Convention in Sturbridge Massachusetts. They are members of the Tri-State Callers, CALLERLAB, CO-OP, EDSARDA, ACA and life members of the Square Dance Foundation of New England. As members of Tri-State, they have been appointed delegates to the New England Council of Callers Association (NECCA). They are also on the board of directors of NECCA.

5-6 CHARLESTON TWICE;
7-8 FULL BB TRN; RK FWD, REC, RK BK, REC.
I have been having a ball using a simple little routine that Chuck and Becky Jaworski of Chicago, Illinois, presented at CALLERLAB last spring. It is hilarious and a great relaxer. I have since found out that the music and directions are vocalized so that not even a “walk-thru” is necessary. Even those that didn’t dance the routine at the CALLERLAB session, laughed themselves silly. It is available on a nursery school CD. It is called - - -

**Tooty Ta**

**Formation:** All face the center of the circle. No partners necessary.

**Music:** [www.songsforteaching.com/drjean/tootyta.htm](http://www.songsforteaching.com/drjean/tootyta.htm)

**Routine:** All circle left taking side steps. Mimic the actions sung during the song, adding one action at a time.

**Meas.** 4 measure intro.

**Singing:** Atooty Ta, Atooty Ta, Atooty Ta Ta

**Response:** Atooty Ta, Atooty Ta, Atooty Ta Ta

**Thumbs Up:** Both hands extended forward with fists clenched, thumbs sticking straight up.

All repeat Thumbs Up.

Repeat the Atooty Ta chorus as above.

**Thumbs Up**

**Response:** Thumbs up

**Elbows Back:** With thumbs still sticking up, push elbows way back.

Atooty Ta chorus repeats again.

**Feet apart**

**Chorus**

**Knees together**

**Chorus**

**Bottoms Up** Stick rear end as far back as possible.

**Chorus**

**Tongue out**

**Chorus**

**Eyes Shut**

**Chorus**

**Turn around**

**Chorus**

This one has been danced on every program at every age level since the Jaworskis shared it with me last spring. Great laughter at all ages.

Following is a simple square dance routine that rather “fits” the season. It is called - - -

**When The Work’s All Done This Fall**

**Formation:** Square

**Music:** When The Work’s All Done This Fall. Available from the Kentucky Dance Foundation

**Routine:**

First couple lead to the right and circle four hands round

*American Square Dance, November 2006*
Leave her there and on to the next and circle three hands round
Take that lady to the last and circle one more time
Now leave her there and home you go, walkin' the old chalk line.
Side two gents turn right hand lady with right hand around
Now turn the left hand lady with the left hand once around
Two lone gents you do-sa-do around on a heel and toe
Then swing your little lady and promenade you go
(Use a 16-count vamp for the promenade and then send couple 2 out to the right, then 3 and finally 4.)

I took some time last week to peruse through a section of my dance library and came upon a copy of Ted Sannella's book, "Balance and Swing", which he had autographed for me after we had spent a week together on staff at Pinewoods Camp. Much to my surprise, I discovered the real name of a dance that I had prompted for several years, but had lost its identity. It is quite a simple routine and I had used it in my classes for a long time. I called it, "Crooked Stovepipe" but now I find that the correct title is - - -

Three To Get Ready

Formation: Alternate duple. 1, 3, 5, active and crossed over.
Music: "Crooked Stovepipe"
A1 Right hand star with the next below (8)
   Back with a left hand star (8)
A2 Actives go down the center, turn alone (8)
   Come back to place and cast off (8)
B1 Right and left through, over and back (16)
B2 Same four circle left, (go) once around (8)
   Actives swing in the center (8)

Party on!

Your Rovin’ Corners

Jim and Betsy travel across the US and around the world, dancing and promoting dancing. Each month we share with you our experiences and thoughts. This month we want to talk about Thanksgiving, newer callers in square dancing and recruiting.

Summer is over, recruiting for the fall classes is complete and new classes are formed. Now is the time to nurture, bond with, and help these new students. Of course we are “preaching to the choir” because the people who read this are doing what we suggest. You know who you are. You have worked hard to recruit new dancers, dragging them to class and sharing your passion for square dancing with them. The new students are working hard, learning to dance and find their place in this new activity.

We think back to when we learned to dance and remember how we made mistakes, how the old members welcomed us and forgave our errors and made us a part of this great activity we call square dancing. The experienced dancers were helpful, being that firm, confident hand in the square that we knew we could rely upon to pull the square together when all went wrong. They had the warm laugh, the friendly smile, the firm handshake at the end. How wonderful it was to have someone to accept us, whatever errors and mistakes we made.

Thanksgiving is coming and many clubs sponsor various Thanksgiving dances. We remember well how all the clubs in San Jose joined together, bringing turkeys, pies, dressing, and all the side dishes to the Thanksgiving special – admission was one unwrapped toy per dancer. The toys were donated to the Salvation Army for distribution at Christmas. This is also the custom in Texas as the Lake Livingston Levis and Lace club in the Sam Houston Association hold their annual Thanksgiving Dance.
American Square Dance will always be happy send you free magazines to give to your graduating class!

At Thanksgiving we always like to recall the wonderful early days when we began square dancing. Truly, square dancing is the best thing ever to happen to us. Oh, we get exercise, we use our minds and bodies, we enjoy the warmth and friendship of square dancing, but the best part of square dancing is bringing it to new people – making our great circle bigger! I like to tell non-dancers how much square dancing has meant to us. I tell the story that square dancing is the biggest secret adult activity in the world. It was kept such a secret that they did not tell me about it for 50 YEARS! The secret got out, though, and I went into square dancing like a rabbit down a hole.

Betsy and I met square dancing and have since danced all over the USA, and around the world. The friends we have developed, including you, dear reader, have been the best part of square dancing. Svetlana, our Russian neophyte caller writes to us that she is making good use of the laptop computer that Caller Roger Smith of San Jose gave to her, as well as all of the square dance clothes she returned to Russia with. The Rocking Jokers of San Jose extended themselves to great lengths in this. The St. Petersburg “Palace Dancers” have started their fall classes and are growing in numbers and skill. Ji Ronfen, from Beijing wrote that they recently hosted 42 Japanese square dancers in a special dance in Beijing. Considering the rocky history of China and Japan that is really something!

We went to Houston in September to enjoy an evening with the “Texas Po’ Boys.” These four excellent callers had a special dance at the Houston Square and Round Dance Center. Driving the 100 miles there we listened to some country western music and were struck that if we were going to a George Strait concert, we would pay $40 or more for the cheapest seats – and not even get to participate except as a passive receiver! We had FOUR excellent singers who could individually out sing most C/W singers and the cost was only $8.00 each! Plus they harmonize beautifully and even fill in squares and dance while calling! Wow!

We all have so much to be thankful for! Be sure to thank your caller, your club officers and those in your association, and all those who work so hard to make square dancing possible for us. You might even shoot off a thank-you email to this square dance magazine for their fun-filled and informative publication!

Jim and Betsy’s email is jimbetsy@aol.com. Feel free to write to us. We would love to hear about your adventures in square dancing! When you read this we will be en-route to Barcelona, Spain, to join Scot and Erin Byers for a transatlantic Square Dance Cruise. We will report on this when we return.

This monthly column is written by Jim Pead and Betsy Waite for the good of square dancing. It is available to your publication or any publication you like. It is not copyrighted and there is no charge for using it. If you wish you may modify or change it in any way. – Thanks, Jim and Betsy

American Square Dance, November 2006
The “This & That” Squares, (who are made up of members of many various square dance clubs throughout western New York) entertain a church group of senior citizens in Tonawanda, New York. While others perform the old, but still popular “Chicken Dance”, Jerry Egel sits this out, along with Nancy Schafer. Jerry is President of the Waterwheel Squares of Amherst, New York and Nancy is Treasurer. Norm Kluck, who is also from the Waterwheel Squares, is in the background.

This display in the Williamsville Library in Amherst, New York (a suburb of Buffalo), cost a whopping .99¢ (for the tissue paper which decorated this eye catching display). The Waterwheel Squares of Amherst, loaned me its’ attractive banner. From the scrapbook of the “This & That” Squares, photos from its’ appearances at nursing homes, senior centers and church groups also dotted the display. Square dancing needs advertisement. Most localities have a library. How about putting up a display at yours? No matter how big or small your city or town, I’m sure that you can find a community display case for this exercise. Square dancing could use a “shot in the arm.”
NSDCA Pull Tabs Tops Goal Again

Members of the National Square Dance Campers Association have been collecting soda can or pop tabs for many years. Chapters are free to choose whatever project they wish to support through the recycling of those tabs. At the International Camporee last July, the president of Chapter #118, Ozark Camper Dancers in Missouri, informed all that their chapter had donated 26 pounds of pull tabs to the local Ronald McDonald House in Springfield, Missouri. Two Wisconsin chapters #010, Pioneers, turned in their 54 pounds to their local Ronald McDonald House as did Chapter #002, Pine Tree, whose members donated 19 pounds to their local Ronald McDonald House.

This year the International Camporee Committee in Crescent City, Illinois, designated one table in their Display area for the collection of Pull Tabs. And soon the table was overflowing with all sorts of bags, boxes and plastic containers from the campers! By the time the 2006 International Camporee Chairman, Bob and Sally Wilcox, and committee finished weighing all the pop and soda can tabs that had been turned in, the total was 259 pounds! The benefactor from this collection was the local Ronald McDonald House. Question: If we counted 1,536 small tabs in a pound, how many tabs were turned in at the recycle center?

If you know how many tabs have to be turned in to receive $119.50, then you'll know how many pounds were turned in by the four Nebraska chapters (#073 Camp ‘N’ Dancers, #148 Rolling Stones, #170 Star City Squares and #185 Central RV Dancers) at their Nebraska State Camporee. The money received was sent to the Girls and Boys Town of Omaha, Nebraska.

Have you or your club started saving tabs yet? If not, why not? It’s an easy, worthwhile project any club or person can adopt. Any Festival or Convention should also be able to generate a goodly number of tabs. Make some signs to ask attendees to save the tabs, then put out containers for collecting and see how many pounds you can get before the end of the summer of 2007. If you have no place to recycle them, contact the NSDCA website for assistance (www.NSDCA.org). Our goal for our camper/dancers is at least 207 pounds by mid July in 2007. Maybe you can top the NSDCA members! Keep us posted!

Please let us know if you accept our challenge and how you make out. Happy collecting!
The Following five routines have been choreographed by Peg and John Kincaid:

**Friends & Lovers**
Phase III+2 (Dia. Trn/In & Out Runs) – Waltz – Coll. Zs8 69129 Friends & Lovers by Gloria Loring and Carl Anderson
Nice waltz music accompanies this easy waltz routine. Solo turns, canters, chasses, cross hovers, dia. turns, cross wraps and wheel, twinkles. Ending is dip back and hold.

**Kisses In The Dark**
Phase IV+2 (0/S Spin/Natl. Hov. X) – Waltz – STAR 226 or CD DLD 1054 Gold Standard
Dance starts in shadow position and goes into shadow cross hovers and shadow whisk. Outside spin, hover cortex, open in and out runs, chair and slip, natural hov x with synco ending. Ending is leg crawl and extend.

This is an open letter to CALLERLAB and fellow dancers of every level. The decline of enrollment into our activity has, indeed, reached alarming proportions. Efforts by individual clubs to enroll new members are, apparently, not enough. Interest in square dancing can’t be improved until our poor image is improved. I’m a firm believer that a major move to enlighten the American public to the advantages of square dancing is a must. The current trend of reality shows, such as the nationally popular Dancing with the Stars, is perfect for our purpose.

I visualize a series of opening scenes showing a montage of square dancing in foreign countries indicating our universal approval rating. The perfectly cast host would summarize the intention of teaching our national dance, square dancing, to a group of celebrity couples. Among these could be such popularly known couples, i.e.: Regis and Joy Philbin, Kelly Ripa and Mark Consuela, William H. Macy and Felicity Huffman, and Kevin Bacon and Kyra Sedgwick. The host would explain, of course, that the most challenging part of learning this national pastime is that there really is no dance to learn, and it does not require dancing talent. You learn, instead, responses to a list of calls, which the caller could later choose from, to choreograph a dance sequence; almost like the quarterback calling football signals.

The four couples will be introduced and it would be further noted that this is not a competition, but a team effort to dance through the sequence with which the caller challenges them, utilizing calls selected from a previously learned list. He would then introduce the caller; the one we have decided is the best to represent us, in skill and entertainment ability. Hoping the series runs a pre-determined number of shows, we could either have the same caller for all, or a different one each time.

Watching these popular couples go through the learning process should be interesting and entertaining. Each week the previously learned calls would be reviewed and the public would see how the learning process takes place and is built-upon. We could have an on-line website advertised for viewers to send their comments and also to do a little advertising on our own for potential future dancers.

An added feature, each week, could be a visit to a different, real-life dance taking place in different parts of the country, and also in other countries. Viewers would be shocked to visit active dance clubs in England, Germany, Denmark, or Japan, among many others. Some couples might be in full regalia and express their feelings about keeping to the traditional dress code. Others, however, might be dancing in casual clothes.

You see where I’m going with this, but I have no idea how to proceed from here. I need your help. First of all, do you agree with me that this could work? If so, does anyone know how to go about making this suggestion to the right people in TV? Would it take all of us requesting it at the same time – inundating the powers that be with thousands of requests at the same time – or what???

Thanksgiving Prayer For Square Dancers
by Chet Lowe

O Greatest Caller, who knoweth all moves from basics thru challenge and beyond,
We are thankful for the opportunity to weave a ring of friends;
To circle to rhythms reflecting the order of Thy universe;
For ears to hear music and laughter;
For eyes to see Thy rainbow of colors shining here;
For love in its myriad forms.
Extend to us Thy blessings.
May all our turns be courteous as we pass thru Thy way;
May we bend our line to your will,
May we see Thy star thru our troubles and cast off three quarters of these on Thee;
Keep us square thru life as we wheel and deal with our neighbor.
Bless those who lead right as we cross-trail thru this world.
And when we walk around the corner and our last tip is over,
And we roll away to Promenade Home,
May it be with Thee. Amen.
(This prayer was written in 1994 and is posted on the bulletin board of the
building run by square dancers in Anchorage, Alaska.)

Square Dance Benediction
by Warren Tilson, Atlanta, Georgia

May your dance of life be filled with joy and harmony thru
the giving of your whole self to listening to the Divine Caller,
Doing your part and being forgiving of those who missed the call,
even as you and I have missed the call. Amen.
(This prayer was written about 15 years ago.)

Welcome back folks to the Wonderful World of Line Dancing. Each month I scour all my available resources to find a dance that is relatively easy, teaches you something, and is fun. Whether the dance is fast, slow, easy or complicated; part of the fun comes from the music. The music is the key factor that can make or break a dance. The song used in this month's dance is one of my favorite two-step songs. Each time I hear this song, it makes me want to get up and dance.

Parts of this month's dance are repetitive and should be easy to learn. I hope you enjoy this dance. If you have any questions about this dance or a suggestion for a future column, please contact me at PO Box 2685, Topeka, Kansas 66601-2685. I can also be reached via e-mail at KSDanceguy@aol.com. Until next time, I will save you a spot on the dance floor.

This Month's Line Dance: Hey Hoalina!

Basic Steps (Official NTA Definitions):

Heel Strut: Moving forward, place the heel and then the ball of the foot on the floor for counts 1, 2, with a weight change on count 2.

Hold: To perform no movement; to do nothing for a specified time.

Pivot Turn: A change of direction turn in the opposite direction of the forward foot in 5th position. Usually making 180° turn, returning or replacing the weight to the original foot.

Point: To point the free foot forward, backward, sideward, or crosswise.

Rock Step: AKA Break Step, Check Step. Two weight changes in opposite directions using two beats of music. Forward and backward Rock Steps are...
performed in 5th position (Toe to Heel) while side Rock Steps are performed in 2nd position (shoulder width apart).

Step: The transfer of weight from one foot to the other.

American Square Dance, November 2006
Think back. How far can you remember into square dancing's past? Based upon the statement “From yesterday we learn for today how to prepare for tomorrow”, we have asked several leaders to search their memories. Here are the delightful results.

Research and Tradition

DON ARMSTRONG, New Port Richey, Florida

My Objective in square dancing, which to me includes contras, rounds, etc., could probably be summed up best in the word “pleasure”. Some people use the word “fun”, but to me that word sometimes is confused with hilarity and I want to avoid that. I use the word pleasure which can include fun and also hilarity, but it leaves the door open for other words – joy, beauty, grace, comfort and consideration. These words also fit in my definition of pleasure in dancing.

Therefore it seems to me that a mixture of the traditional and the contemporary can certainly provide more pleasure for those I am working with than either does by itself. I feel about traditional and contemporary dancing and their terminology just as I feel about music.

Just because something is old does not make it good – or bad. The same thing is true about something that is really good and new. Musicwise, many people of the traditional school sound upon such as the Beatles, but those of us who appreciate music have realized that in many cases the Beatles have turned out some fine musical arrangements and compositions.

On the same ground, there is no reason to reject the music of traditional dancing or its forms just because they are old. There is a tremendous amount of pleasure – using the words I used before – comfort, grace, beauty, etc. – to be found in many of the traditional dance arrangements. This applies not just to contras but to squares and to rounds.

I have tried to present, over the past 25 years, a combination of the traditional and the contemporary that will give the maximum amount of pleasure to the dancers on the floor. The choice of material – contra, or quadrille or
circle dance - depends upon the capabilities of the floor and what they have been exposed to in the past. But there are levels of traditional dancing that will fit almost any bracket from the absolute beginner to the past master of the art of square dancing.

There is a tremendous amount of challenge in traditional material to do it well - to music, gracefully and beautifully, in time and in keeping with the other people in your set or group just as there is in the later contemporary dance action of the present day square dance caller. The challenge is there on both sides.

The dancing of today can be enhanced tremendously by appreciation of the dancing of yesterday and I feel that a leader should never reject anything just because it is new or old. From both sources comes excellent dancing pleasure for people. After all, this is what we have done with square dancing. We have taken traditional material and improved upon it in many cases; we have based our activity today on what our activity was in the past.

The leader of today who fails to take advantage of the traditional material and music of the past is failing, in my humble opinion, to provide the maximum benefit of pleasure to the dancers. And I think the leaders will add to their own pleasure with this approach.
Petticoat Or Not?

Angelika Reinheimer, Darmstompers, Darmstadt, Germany
Reprint from: Darmstompers Woog’s Whispers, February 2006

This year I have been a square dancer for 27 years. For the first 22 to 23 years I defended very strongly and also without compromise the petticoat as the only possible square dance outfit.

After numerous conversations with square dancers, students, square dance interested, and also non-interested people, I have been looking at our clothing more critically and have changed my opinion completely.

We all experience that our lovely hobby in the last few years unfortunately finds only little interest by non-dancers. Many clubs only have very small classes or none at all. Our clothing is definitely not the only reason, but by now I think it is one of the reasons.

In many conversations, I keep trying to find out what effect we as square dancers have in the eyes of the non-dancers who meet us at a demo or an Open House. What impression do we make? Through what kind of eyes do they see us?

I can give the following summary:

Young People — If they did not grow up with square dance, find our outfit, sorry it sounds cruel, “ridiculous” and “gross”. They would be ashamed to have to run around “like this” and would definitely not want to be seen by their friends like this. Unfortunately, not the best conditions to hope for many young people in our next classes!

Older ladies have resentments because of the short skirts which needlessly fly so high that the legs (and more) are completely out in the open. When the figure is not so flawless anymore that she wants to show everything, she is not so keen on a petticoat either.

Also, not to forget: the question of costs. To buy a complete outfit is connected
with high costs for a new dancer. For blouse and skirt, petticoat and pants, belt and maybe dancing shoes, one has to spend several hundred Euros today. And only one outfit is not enough for an enthusiastic dancer.

First we should know that the long skirt without a petticoat was the original lady’s square dance outfit. Under the influence of Rock ’n’ Roll, the petticoat was added and the skirts were shorter. That means back then, the square dance outfit was changed to the modern fashion. Now more than 50 years later, we have not adjusted our clothing to more modern times!

A large part of the square dance skirts and blouses of today are decorated with lots of lace and frilling and also with puffed sleeves. The woman of today feels this “girlish” and “little doll” style in her daily life unsuitable and old-fashioned. We would not wear this in our job or in “real” life. In the square dance scene it has survived more than 50 years. Maybe it doesn’t strike us anymore because we are used to it. We don’t think about it, but many outside people look at our clothes and decide it is out of the question for them.

Does it help us when we, for traditional reasons, insist on the petticoat? Will it contribute to not finding any (also young) newcomers anymore? Tradition is a good thing, but if we grow pedantic with this, then tradition makes no sense to me anymore. Instead we should act flexible and be prepared that square dance clothing will adjust to a changing fashion.

I don’t want to do away with the petticoat! Everybody who wants to and feels comfortable with it should wear it. But we should show an alternative to the dancers of today and also especially to the interested of the future and give them the opportunity to choose, which kind of clothing they want to wear.

The so-called prairie-skirts are accepted since some years officially as Square Dance skirts and are being worn more and more, not only in our area, but also in America and worldwide.

If square dancing would only survive in the future if we give up the petticoat, then I say: “Rather square dance without petticoat than no square dance at all!”

Angelika Reinheimer started dancing in 1979. She is married to Kenny Reese, a full time professional caller from Germany, which is why she dances five to six times a week and still loves it. Even more important than dancing, are the people she has met from all over the world and the friends she has made. Angelika would do whatever she could “to keep this beautiful activity alive.”
Attorney's Advice – No Charge

Read this and make a copy for your files in case you need to refer to it someday. Maybe we should all take some of his advice! A corporate Attorney sent the following out to the employees in his company.

1. Do not sign the back of your credit cards. Instead, put “Photo ID Required.”
2. When you are writing checks to pay on your credit card Accounts, DO NOT put the complete account number on the “For” line. Instead, just put the last four numbers. The credit card company knows the rest of the number, and anyone who might be handling your check as it passes through all the check processing channels won't have access to it.
3. Put your work phone # on your checks instead of your home phone. If you have a PO Box use that instead of your home address. If you do not have a PO Box, use your work address. Never have your SS # printed on your checks. (DUH!) You can add it if it is necessary. But if you have it printed, anyone can get it.
4. Place the contents of your wallet on a photocopy machine. Do both sides of each license, credit card, etc. You will know what you had in your wallet and all of the account numbers and phone numbers to call and cancel. Keep the photocopy in a safe place. I also carry a photocopy of my passport when I travel either here or abroad. We’ve all heard horror stories about fraud that’s committed on us in stealing a name, address, Social Security number, credit cards.

Unfortunately, I, an attorney, have firsthand knowledge because my wallet was stolen. Within a week, the thieve(s) ordered an expensive monthly cell phone package, applied for a VISA credit card, had a credit line approved to buy a Gateway computer, received a PIN number from DMV to change my driving record information online, and more. But here’s some critical information to limit the damage in case this happens to you or someone you know:
5. We have been told we should cancel our credit cards immediately. But the key is having the toll free numbers and your card numbers handy so you know whom to call. Keep those where you can find them.
6. File a police report immediately in the jurisdiction where your credit cards, etc., were stolen. This proves to credit providers you were diligent, and this is a first step toward an investigation (if there ever is one).

But here’s what is perhaps most important of all: (I never thought to do this.)
7. Call the three national credit reporting organizations immediately to place a fraud alert on your name and also call the Social Security fraud line number. I had never heard of doing that until advised by a bank that called to tell me an application for credit was made over the internet in my name. The alert means any company that checks your credit knows your information was stolen, and they have to contact you by phone to authorize new credit.

By the time I was advised to do this, almost two weeks after the theft, all the damage had been done. There are records of all the credit checks initiated by the thieves’ purchases, none of which I knew about before placing the alert. Since then, no additional damage has been done, and the thieves threw my wallet away this weekend (someone turned it in). It seems to have stopped them dead in their tracks.

Liar, Liar Pants On Fire
Ken Ritucci, W. Springfield, MA

In a short time, beginner classes will be starting up again. It is usually an exciting time of the year for square dancers. Everyone is hoping for large classes. Some clubs are just hoping for a class.

There is no doubt that square dancing is in trouble in regards to the lack of new dancers entering the activity each Year. New England is is not immune from such problems. This scenario has been around for some time now.

Let’s take a trip back ten years ago to at the CALLERLAB Convention in Baltimore. There was a great deal of concern regarding the length of time it took new dancers to not only learn the activity but also adjust to “club level.” Most of the callers present at the convention agreed that square dancing needed a program that can be taught in 25 weeks and possibly combine the “popular” Mainstream calls with the “popular” Plus calls.

After such discussion, CALLERLAB appointed a committee to come up with an experimental list of calls that encompassed some of the Mainstream calls with the “popular” Plus calls.

There was also another experimental list of Bold Faced and Italicized Mainstream calls. The bold faced calls were to be taught first and then after the dancers “graduated”, the italicized calls would be taught. The intent was to get dancers into the activity sooner.

The experimental programs were to be trialed on a one year basis for those callers who so desired. They were not meant to take the place of the existing Mainstream and Plus Programs. The combined Mainstream/Plus program was optional and was directed to those geographical areas in which Plus was directed to those geographical areas in which Plus was the pre-dominate dancing level, such as New England is today.

For many reasons, too lengthy to get into here, the trial lasted about one year and feedback was received by those callers who were actually using the lists. In

Now, here are the numbers you always need to contact if your wallet, etc., has been stolen:
1.) Equifax: 800-525-6285
2.) Experian (formerly TRW): 888-397-3742
3.) Trans Union: 800-6807289
4.) Social Security Administration (fraud line): 800-269-0271

If you are willing to pass this information along, it could really help someone that you care about.
the end, CALLERLAB did not endorse the experimental lists and business went on as usual. Many of the comments from those concerned callers back in 1986 were the same as you hear in 1996. Except today, the dance population has been reduced further from what it was.

Many leaders felt that by making the experimentation program an option, it just added confusion to the situation.

The area was predominately Plus, then perhaps a combined Mainstream/Plus program would work, because in essence that would enable dancers to graduate into the reality of what people were actually dancing. There might not be a need to force dancers through the Plus program to keep up with their friends. We are experiencing the same problems in 1996 as we were in 1986.

There is a growing concern among dancers and callers not only in New England, but also across the country, that perhaps it is time to have just one dance level below the Advanced and Challenge program. How would you achieve this? Ask many people you will get too many difference of opinion. No one knows for sure, but most likely Mainstream and Plus would be combined and certain calls from both programs would be eliminated. Perhaps these calls would be put in the Advanced Program. Who knows?

There are pros and cons whether this “one level” would work. But if you listen to the conversations from the callers who were concerned back in 1986 and in New Orleans at the CALLERLAB Convention in 1987, you would hear almost the identical references to the same challenges we face in 1996. There was such talk regarding “one level” back then.

Here in New England, where the dance level is predominately Plus, maybe a “one level” of dancing would actually work. Let’s not kid ourselves, new graduates are virtually forced to learn Plus if they want to dance “club level.” There is no sense trying to point blame in anyone’s direction. We are all guilty of pushing the new dancers.

So, why don’t we stop “living a lie” and face reality. How many times have you seen the following:

1. It’s a Mainstream dance but a Plus tip is called somewhere during the evening.
2. It is a Mainstream dance but a workshop tip is called with many times a Plus call being requested as a review.
3. It is a Mainstream dance with six to ten squares, but seven to nine of those squares get up for a Plus tip.
4. It’s Summertime! Time for those workshops to begin, and guess what they are teaching? You got it, Plus!

I could go on and on, but you get the picture. This happens every year and it is not limited to New England.

Just take a look at the Summer education in this magazine. Count the number of workshops that are designed for new grads or “refresher courses” in the
Plus level. What are we actually telling the new grads? Well, Mainstream is fine, but if you want to dance with the majority of the clubs, you will need to learn Plus.

Yes, there are some small, isolated areas/clubs that do dance strictly Mainstream. Well, you might say, if callers made Mainstream more interesting, then Mainstream dances would be better attended. We have heard that before, but we are talking reality here. The majority of the dancers who say that they would probably choose a Plus dance over a Mainstream dance anyway. For a few of the callers who actually make Mainstream fun and interesting, there are simply too many who either do not know how to or are less concerned. There is some truth to the fact that many callers would rather call Plus than use Mainstream calls in slightly different formations or arrangements. It is less work for many of them.

Dancers and caller who simply say that if we all worked together, and I mean all, then we would slow down this rush to Plus. That sounds terrific, but it is not realistic. First of all, you will never get that kind of cooperation and second, they really don’t believe themselves. What many people are saying is, let’s stop living a lie and realize that if plowing dancers through the Plus program is what the majority want to do, and in New England, we are doing that, then why don’t we just have one level of dancing and stop living a lie?

Some individuals are concerned with how this would affect the entire world regarding dancing. Well, we can’t be concerned with the entire world. It’s not our business. If Mainstream is alive and well overseas, then so be it. Let the overseas dancers enjoy the great Mainstream programs. In our realistic view of dancing in New England, we are forcing dancers to learn through the Plus program just to exist. It’s time we get our heads out of the sand and face the truth of square dancing in New England.

What better way to see all square dancers dancing in the same hall, enjoying our activity with their friends. With one level of dancing it might force callers and dancers to sincerely concentrate on the new graduates to make the dancing more acceptable and enjoyable. And, where have you seen that lately?

Does New England have a monopoly over this situation?
WHAT'S AHEAD

Association/Federation festivals, conventions or benefit dances can be listed free of charge in What's Ahead.

We need the event date, name, location including city and state, contact address, phone number, and email if any.

Please send us the event information as early as you want, but we prefer to receive it more than six months in advance of the event’s scheduled date.
