

## Varsity Eleven Prepared to Invade Colby Camp in First Game of Year

### New Hampshire Team Completes Week's Work to Begin Trip to Waterville Friday to Have Rest Before Contest

Starting Line-up Not Yet Decided Upon by Coach Cowell—Five Regulars  
From Last Year's Team Undoubtedly to Have Positions When  
Whistle Blows—Two 1930 Freshmen May Get Into Fray  
At Beginning

It is an untried Wildcat football eleven that faces the strong Colby team at Waterville, Me., Saturday. The Blue and White squad is light while a lack of veteran players adds further complication, but what the team lacks in experience will be made up in aggressiveness and fight.

For the past week the various squads have gone well at practice. Teams "A" and "B" have given each other stiff opposition in daily scrimmages. Up until yesterday afternoon there had been no final decision made as to who would start the Colby game with competition keen for every position. Capt. Dane will probably be at his regular end position while the other wing berth is unsettled, both Jean Grenier and Oscar Kelsea, last season's end, showing up well. Since his return to college, Kelsea has been given a try in the fullback position and has also worked out at his old post at end. If the team "A" backfield goes into the game as it has been practicing during the past week Reynolds, Rice, Rogers, and Regali will be seen in action. However, these positions are not positive as men from other combinations that have been used during the past week have been showing up well. Silvia and Lucinski from the "pony" backfield of 1926, as well as Paolina, have been doing some real work.

The Wildcat line presents another problem. Lyle Farrell, veteran of the 1926 squad, will doubtless get the call at his regular guard berth. Walls is showing up well at tackle while Roy, last year's halfback, may be shifted to a line position. Bianchi, Wettergreen, and Averka are sure to play in the Colby game. Clark, O'Leary Lawrence, and a score of others may see service in this opening contest of the 1927 season.

In the first game of the season the New Hampshire squad meets a strong foe in Colby which has one of the heaviest college teams in Maine. In their first game last week the Collegians scored a 13-0 win over Wesleyan. This victory, and the experience that goes with it, gives them a good advantage over the Wildcat eleven. New Hampshire will enter the game as an underdog, so to speak, but will not be unprepared. Every man is in good condition, and there is a great possibility of unknown power coming to the surface in this first game.

The remainder of the New Hampshire schedule this fall is as follows:

October 8—Bowdoin at Durham; 15, R. I. State at Durham (Dad's Day); 22, Connecticut Aggies at Manchester; 29, Springfield at Durham.

November 5—Tufts at Durham, (Homecoming); 11, Maine at Orono; 18, Brown at Providence.

### FACULTY APPOINTMENT FOR MRS. NORMAN ALEXANDER

Mrs. Norman Alexander, née Edith Reid, '25, has been appointed instructor in the social science and history departments of the university. She comes to the University after two years' work at Shelter Island, N. Y., and graduate study at Columbia University.

While a student here Mrs. Alexander was active in the work of Alpha Xi Delta sorority, Book and Scroll, the orchestra, and the girls' glee club. She is also a member of Phi Kappa Phi, honorary scholastic society.

### NEW DIRECTOR OF PUBLICITY CHOSEN

Edward Y. Blewett, '26, Takes Charge of Handling All University News—News Bulletins Issued to 26 Periodicals

A publicity department for the university has been established and is now being run under the direction of Mr. Edward Y. Blewett, '26. Last June at commencement many of the Alumni expressed a desire to see some sort of organized publicity for this university. The work was formerly done by Dean Morse when President Hetzel was here, but grew to such an extent that the need for a separate department was evident.

This department handles all publicity of any type that is issued regarding the university. A daily bulletin of school news collected by John D. Fleming, school reporter, is issued every day to a chain of twenty-six newspapers throughout this part of the country. On Mondays and Thursdays a summary bulletin is issued to this same group of papers. Any photographs of special events desired by the various papers are also distributed by the publicity department. In this way all publicity is centralized and can be done more efficiently and extensively than heretofore.

On being interviewed, Mr. Blewett outlined tentative plans for a student press club whereby students from the various towns of the state could send home to their newspaper any news of activities which might interest the people at home.

### SOCCER CANDIDATES REPORT FOR PRACTICE

Six Letter Men Back for 1927 Eleven—Capt. Fifield Lost to Team—Dartmouth Opens Wildcat Schedule at Hanover on Oct. 7.

The largest squad of soccer candidates in the history of the University of New Hampshire turned out last week to prepare for the vigorous schedule which the Wildcats must play this fall. Coach Henry Swasey has six letter men from last year's eleven as a nucleus around which to build his team.

The veterans on the squad are Cromwell and Nelson, inside forwards; Pickwick, Karabelas, and Currie, halfbacks; and Evans, fullback; all letter men, and Ricciardi and McNab first string substitute forwards last year. Defensively the team should be very strong, and the problem at present is to develop enough fast forwards to guarantee a scoring punch for the big games.

Fifield, a fast forward on last year's team and captain-elect, did not return to college and it is expected that the letter men will elect either Nelson or Currie to lead the team this year. Walter Ramsey, a half-back on the 1926 team, will not report this year. Another blow to the hopes of the New Hampshire soccer men came when it was learned that "Whitey" Gustafson of Manchester, scoring star of last fall, has transferred his attentions to the football team this year in an effort to secure a backfield berth.

The new soccer candidates who have been showing up well in the practice sessions include Abrahamson, Lee, Couser, Fosburgh, and Ricciardi in the forward line; Brooks and Houston, halfbacks; and Woodward, goal.

The opening game on the soccer schedule comes October 7 with Dartmouth as the Wildcat opponent at Hanover. Other teams on the list are Clark University, Northeastern University, Brown, Bridgewater Normal, and M. I. T.

### ALPHA CHI OMEGA TAKES POSSESSION OF NEW HOUSE

Alpha Tau chapter of Alpha Chi Omega took official possession of its new chapter house Registration Day, although the girls have been working through the summer months, to get everything in readiness for the college year.

The house which was formerly the home of Dr. Clarence Scott, Professor in the History and English Departments, became the property of the chapter last spring, and has been completely renovated.

Mrs. Leon Wheeler of Manchester makes a very charming hostess. A tea was given Friday at the chapter house in her honor. The guests were Mrs. Elizabeth DeMeritt, Mrs. Ralph Paine, Mrs. T. G. Phillips, Mrs. A. E. Richards, Mrs. T. J. Laton, Mrs. Adrian Morse, Mrs. E. G. Ritzman, Mrs. Mabel Redman, and Mrs. Fred Buschmeyer.

### PLEDGING NOTICE

Alpha Tau chapter of Alpha Chi Omega announces that Isabel Stevens, member of Alpha Delta Pi Sorority at Boston University, has accepted house privileges for the coming year.

### LARGEST REGISTRATION IN UNIVERSITY'S HISTORY

The largest number of students ever enrolled in the history of the University was reached Monday, September 26, when the figures totalled 1,550. According to "Dad" Henderson, University registrar, this is an increase of 157 at this time last year, when the number of students registered had reached 1393. The rooming problem, always a serious one, was materially increased by the comparatively small outgoing class last June and the relatively large incoming class of 530.

There are 135 freshman girls this year in contrast to the 152 of last year, but the number of transfers and the overcrowded conditions in the girls' dormitories has necessitated seventeen girls living in the various homes in town. In Congreve Hall, the largest dormitory, there are 51 freshman girls with three girls in every suite.

### Frosh Victors In Rope Pull

### Sophs Win Four of Seven Events on University Day

Class of '30 Capture Men's and Women's Shoe Races, Relay Race, and Cage Ball—Freshmen Take Cane Rush

The class of 1930 has weakness for taking an annual bath in the waters of the college pond, and this year it was administered by the class of 1931. At the annual "University Day" held a week ago last Wednesday, the class of 1930 was the winner in four out of the seven events, while the feature event, the rope pull, was won by the team representing the freshmen in the fast time of seven minutes.

Although, having lost the poster fight, as is the custom of all freshmen classes, the class of '31 demonstrated that it had more muscle power than the class of '30. After the first half minute it became apparent that the freshmen were gaining, and it was merely a matter of time before the sophs were pulled into the muddy waters of the pond.

A pistol shot started the pull at 4.33, and at the sound the huskiest men in both classes dug their toes into the mud, straining the rope taut. The sophomores gained a slight advantage at the start, but within a minute the frosh had overcome it and were ahead. At 4.39 the first soph struck the water, and a minute later the yearlings were the victors.

Classes were dismissed at noon. At 1:30 the entire freshman class met in front of Hetzel Hall, and marched to the Gym behind the college band. At 2:15 the first event, the men's freshman-sophomore shoe race, began with twenty-five men from each class lined at each end of Memorial Field. The shoes were then piled in the center and mixed up. At a given signal both sides rushed to the pile. The sophs won this battle, having five men who had their shoes on and laced up, when the stop signal was fired.

The sophomore women easily won the cage ball contest from their less-experienced opponents by winning two straight games by one-sided scores. This was followed by the men's freshman-sophomore mile relay race, which was one of the most closely contested event of the whole afternoon. The freshmen got the pole and number two and three men opened up a big lead, but Captain Small of the sophomore team overcame a big lead to win on the home stretch by a close margin. Runners on the sophomore team were Pillsbury, Roberts, Johnson, Eastwood, Gibson, Wallace, Pettie and Captain Small. The freshman relay men were Saltmarsh, Lawrence, Such, Benedict, Wollie, McLaren, Lazaur and Lovell.

The sophomore women captured an easy victory in the women's shoe race, winning by the large margin of five to one. The can rush, an event which most students look forward to, was another closely contested battle. Forty canes were placed in the center of the field with the two class teams lined up on opposite sides. The rush narrowed down to three canes surrounded by three pushing, jamming mobs. The freshmen got one, then another, and the time was up with the other cane still in the center of the group of freshmen and sophomores. The freshmen won the rush by taking the greatest number of canes through the sophomore line.

The freshmen took all four places in the 100 yard, free style, swimming race. The order in which the winners placed is as follows: Ryder, Peterson, Girardin, and Edmunds.

## President E. M. Lewis Makes First Appearance Before Student Body

### Addresses Class of '31 in Gym With a Talk on the Benefits of Freshmen Week as Given at New Hampshire

Receives Grand Ovation from Audience When He is Introduced—Now Taking  
Up Official Duties—Plans for Inauguration Being Formulated  
But Date Uncertain—President Views Events of University  
Day Held on Memorial Field Last Wednesday

President Edward M. Lewis

President Edward Morgan Lewis made his first appearance before the students of the university last week when he addressed the freshman class, members of the faculty, and a few of the upper classmen who were in Durham before the official opening of the school year. President Lewis has been in Durham since the first of September preparing to take over the duties of his office to which he was appointed last April at the spring meeting of the board of Trustees to replace President Ralph D. Hetzel.

President Lewis outlined a favorable policy for students to pursue while in college and made his talk extremely interesting. He spiced the speech by the frequent use of sport terms with which he is familiar because of an early liking for the great American game of baseball. The president was greeted with a loud applause when he was introduced and was continually interrupted throughout his speech by the enthusiastic freshmen.

President Lewis drew a comparison between himself and the members of the freshman class. He said that like them he was just beginning his career at New Hampshire and would probably find problems similar to theirs. He made it clear to the audience that the freshmen were just touching the externals of college life in the freshman week which they were enjoying and that the week to follow would show them the true side of college. President Lewis stated that "Freshman Week" was a fixture at the University saying that its benefits were numerous and decidedly helpful to the first year student.

The new president has not yet met the entire student body and will probably not have the opportunity until suitable conditions for the holding of convocation can be arranged. At present the men's gym is undergoing much needed repairs and the time of their completion has not yet been set.

Plans are being made for the inauguration of President Lewis in the near future. In the meantime he is becoming acquainted with the members of his staff and a few of the students with whom he comes in contact in his work in the president's office in Thompson Hall.

### FALL HANDICAP DATE SET FOR OCTOBER 17

Program for Annual Event Covers  
Three Day Period—All Men in  
College Eligible to Compete  
In Regular Track Events of  
Meet

The annual fall handicaps will be run off on October 17, 18, and 20. Anybody who is regularly enrolled as a student at the University of New Hampshire, is eligible to compete. All of the regular track events except the javelin will be on the program.

All entrants must enroll at the gym with Coach Sweet between the 10th and 15th of October. When all the entrants have signified their intentions, the committee will award the handicaps. The man in each event that has the best record, will start at scratch, and the others will be awarded their handicaps in comparison. There will be medals for the first three places in each event.

Coach Sweet of the track and cross-country teams hopes that many will sign up for the handicaps, as it affords him his only chance to look over the track men before next spring, especially the freshmen runners.

### WOMEN'S ATHLETIC AS- SOCIATION ENTERTAINS FRESHMAN GIRLS

The Woman's Athletic Association started their fall program by giving a party in the form of a "weenie roast" to the freshmen women last Friday night at the Cabin in the College Woods.

After the roast Beulah Merrill, '28, president of W. A. A., spoke to the freshmen, explaining the present point system of athletics and urging them to get into the various sports.

Marion Smith, '30, outlined plans for hiking and asked for the cooperation of the class of 1931 in this sport. Muriel Steeves, '28, explained the national organization to which the W. A. A. of New Hampshire belongs and informed them of a conference to be held in 1930 which will be of interest to the incoming classes in the next two years.

### LARGE YEARLING FOOTBALL TEAM REPORTS TO COACHES

The freshman football team, which was called out last week by Coaches O'Connor and Hoagland, is rapidly shaping into condition for the opening game with St. John's Preparatory School next week at Danvers, Mass. From early season appearances there is a wealth of material from last year's high and prep school elevens, several captains being numbered on the squad.

Regular routine conditioning exercises were given to the Blue and White yearlings last week while signal drills and short scrimmages among the various freshman teams have characterized the work of the coaches this week. Wednesday afternoon the real test for the Wildcat cubs was made when the frosh elevens scrimmaged for a short while with several varsity teams. The squad will probably be cut to a more workable size this week, enabling the coaches to settle down to hard workouts before the St. John's game on October 8.

SHOW INTEREST

With the beginning of each college come new problems which perplex and mystify—problems which occupy our time to a greater degree than seems necessary when we consider the multitude of their numbers and the inconsequence of their significance.

This is the first issue of the college year. There will be many more with a tendency to increase efficiency as the number of the issues grows.

LOCAL SINGER WINS PRAISE OF CRITICS

Roland E. Partridge Appears as Tenor Soloist with New York Symphony Orchestra During Summer Months

Mr. Roland E. Partridge, sociology instructor at the university, was engaged during July and August as tenor soloist at the summer concerts of the New York symphony orchestra at Chautauqua, N. Y.

Although Mr. Partridge had only contracted to sing during July he was persuaded to stay during the month of August, taking the place of another tenor who was unable to come.

While there he did "Elijah" twice in operatic form, taking the part of Obediah. Other notable compositions sung by Mr. Partridge were Stoughton's "Esther," and Bach's "God's time is Best."

The following criticism taken from the "Chautauqua Daily" after two performances of "Elijah," is evidence of the merit of Mr. Partridge's work; "Roland Partridge has shown his ability as a concert artist, and now he proves that he has operatic skill.

On the basis of his performance in "Elijah" Mr. Partridge was offered a contract by Vladimir Rosing to sing leading roles in the American National Opera company at New York and Chicago this winter.

PRONOUNCED SUCCESS FOR FRESHMAN WEEK

Class of '31 Shows Increase in Colleges of Agriculture and Technology—Liberal Art Division Shows Slight Gain

Freshman week, introduced three years ago at the University to help incoming students become acquainted with the college and to give them various lectures and mental tests, was tried again this year with equal success.

The psychological and English tests were given Wednesday, September 14, with the following list of results:

Men—Highest score, 356 of a possible 363; Men—Lowest score, 23; Women—Highest score, 236; Women—Lowest score, 38.

Men—Highest score, 240 of a possible 272; Men—Lowest score, 32; Women—Highest score, 220; Women—Lowest score, 50.

Men—Highest score, 119 of a possible 140; Men—Lowest score, 10; Women—Highest score, 108; Women—Lowest score, 11.

The mathematics test was given on Thursday, September 15. All freshmen who entered late and missed any of these tests will be required to take them when they are repeated, sometime in October.

Among the student leaders to address the first year students Friday evening were: William Hoagland, '28, president of Mask and Dagger; Ned Elliot, '28, president of the Student Council; Evelyn Davies, '28, president of Y. W. C. A.; Mr. Roland Partridge, an instructor in the University, discussed musical organizations while Lester Brooks, '28, president of Casque and Casket, explained rushing rules and forensic activities.

A much smaller percentage of the frosh men were disqualified for military drill this year than last, only fourteen among the 356 being physically unfit for the work.

"NOW ROLLO'S A BROTHER"

The following editorial is reprinted from the issue of November 12, 1925. We place it here for the benefit of the freshmen who within the next few days will make their choice of fraternity.

"The current of a hundred lives was fixed last night for the next four years when the freshmen indicated their fraternity preferences. Freshmen they are today, tomorrow they will be big men, regular fellows, sophisticates, or jazz hounds according to the character of the fraternity they join.

"Types. A man no longer is an individual. He is poured like raspberry jello into a mold and comes out smoothly round and unobjectionable, angular and important or grotesque. These are the shapes we have decided we like in raspberry jello. These are the types we have decided we want in an undergraduate body.

"We all grow old but who grows wise? There, among men who have travelled the same primrose path, he begins his apprenticeship in the philosophy of success. And Rollo becomes a brother. Only the strongest of mentalities in the best of fraternities can survive, unspoiled, the four abortive years that follow."

FROM OUR MAIL BOX

My dear Editor: The Eleventh Annual Membership Roll Call of the American National Red Cross to enroll members for 1928, will be held from Armistice Day through Thanksgiving, November 11-24.

You can be of material assistance to us in our membership campaign by calling to the attention of your readers the dates for the annual roll call. Permit us to express to your readers our appreciation of the support you have given the Red Cross in the past and to thank them for whatever further assistance they may render in its membership this year.

Cordially yours, Douglas Griesemer, Director Roll Call

The Water Tower accepts the homage paid to it by the class of '31 but can't quite understand why the class of '30 didn't return to college this year—or if it did why hasn't the tower got a good bath?

It's just about this time that a great many mermaids are at a loss as to their reason for taking Phys. Ed. swimming in the fall. It's really not very warm and what's the use since there are no male members of the species to recline on the bank at that time of day.

It does seem too bad that the freshmen are not allowed rebates when they fail to eat for a week at the Commons especially during rushing season.

The "tear" gas used in the poster fight wasn't needed to produce the effect after the freshmen learned that they couldn't win.

The Water Tower sincerely hopes that the Wildcats on the freshmen girls' tams will be inductive to some savage cheering on their part at the football games this fall.

Now that the men have a smoking room in Murkland hall the campus should be kept clear of cigarette butts. In all probability the girls will see fit to carry on tradition in this field, however, particularly since the introduction of a "New Hampshire" cigarette.

"ENCHANTMENT" You looked so lovely in your flowered gown, The ribbon round your hair, I lingered just to gaze upon A beauty chaste and rare.

I pictured you on queenly throne, Serenely tall and slender, I fashioned you a mother true, An angel soft and tender.

I placed you in heaven, a star And thought us far apart, I dreamed for you an hour too long, For now you're in my heart.

REMINISCENT It's study—study—study—with a slow grinding brain And a will that's rapidly weakening under the strain. And a hand that's shaking, trembling, with a light brown stain. Cigarette and smoke and books scattered all around. And papers torn and crumpled are kicked with rustling sound. Figures, words and faces—dim remembered things In a whirl of scintillating—kaleidoscope rings. And I wonder how in this maze of work and shams, Just how I'm ever going to pass these darn exams.

Travel School Returns Home

Summer Spent in France After Visit to London

Interesting Places Viewed in Summer Excursion on the Continent By University of New Hampshire Students

The members of the second Travel School in France, of the University of New Hampshire, have returned to the University or to their positions in their several schools. The Travel School was organized for the purpose of giving to students, teachers, and others interested in travel and study in France an opportunity to see something of France and to perfect themselves in speaking French.

This year the group, directed by Professor Allen of the Department of Modern Languages, sailed from Boston on the twenty-sixth of June and landed at Liverpool on the fifth of July. The party went at once to London where three days were spent in visiting historic places in and about the city.

On the tenth of July the group went to Paris where three days were passed in becoming acquainted with the city and some of its interesting places, not forgetting the inviting shops. One evening the party attended a performance at the Opera, another evening was given to the Comedie Francaise when L'Abbé Constantin was the play.

The next three days were spent in the Chateau Country when the group made the acquaintance of Tours, Blois, and Orleans, and visited several of the famous chateaux, Loches, Amboise, Chambord, Chaumont, Chenonceaux, etc. On Saturday evening, the sixteenth of July, the members of the school arrived at the French school, Le Montcel, at Jouy-en-Josas, which is near Versailles, to pass six weeks in study.

Le Montcel is an eighteenth century chateau which stands in a private park of forty acres. A few years ago it was bought by the three brothers Jeanrenaud, and is used by them for a private school for boys. For six weeks in the summer a few Americans are received and given the benefit of instructions by and association with excellent professors.

During the stay at Le Montcel the members of the Travel School made several interesting trips, to Paris, Versailles, Fontainebleau, Chantilly, Ermenonville, St. Denis, Port Royal, etc.

**ALUMNI NEWS**

To the alumni—Every weekly issue of THE NEW HAMPSHIRE will contain at least a column of Alumni News for all the Alumni to read and some to remember. We will publish important notices, reports of a brief nature, and general notes throughout the year. Look for this column in every number of the paper. When you hear of any news about Alumni and their doings drop a line to the Alumni Secretary and we will tell the world about it both in these columns and in the "Alumnus." By the way, I hope you haven't forgotten that your Alumni dues are payable now. Three dollars and a half will pay your dues

for one year and will also bring you THE NEW HAMPSHIRE every week. Several people have dropped into the office to see us and to say Hello. Better come up some time and look us over. Incidentally, you are invited to make this office your headquarters when in Durham. We will furnish everything except sleeping quarters and food. Now, here goes for the news.

1927

Edgar Bruce is now employed at the Brockton, Mass., Y. M. C. A. as assistant to R. C. Bowden, 1915 who is Boys Work Secretary.

Frederick Waite is a chemist in the Solvents Dept., of the Merrimac Chemical Co., at their Everett, Mass., plant.

Furio Abbiatti is selling lacquers which are the products of the Anderson Chemical Co. "Abby" for the present has a territory which includes Connecticut and Rhode Island.

G. L. Varney is studying for his Master's degree in forestry at the New York State College of Forestry in Syracuse. He would like to have other alumni in and near Syracuse get in touch with him.

Donald C. Calderwood is in general engineering work and is connected with the Pennichuck Water Works in Nashua.

John Day and Melville Taylor are student salesmen for Jordan Marsh Company in Boston.

Margaret Marnoch is Dean of Women and teacher of Physical Education at Proctor Academy.

1926

Charles Fogg is now an Assistant County Agent in Orleans County in New York State.

Philip Davis is employed with the firm of Haskell and Jones, Clothiers in Portland, Maine.

"Dick" Boyd, Harold Calderwood, and "Jerry" Foss are with the Western Union in New York and are residing at 130 Hollywood Ave., East Orange, N. J.

E. N. Henderson has been transferred from the General Supervisors Office of the N. Y. Tel. Co., to the office of the General Traffic Engineer.

1925

Donald Sampson is married and lives in Pelham, N. Y. He is with the U. S. Steel Corp., in N. Y. City.

W. W. Lufkin is with Lawrence and Co., 24 Thomas, N. Y. City, a prominent textile house.

1924

Marion Madden is teaching in the High School in Brockton, Mass.

Adaline Young is teaching in the High School in Amesbury, Mass.

Leslie R. Bacon and Charles F. Pickett received their Ph. D. degrees from New York University last June. Both men received the degree in Chemistry. Bacon is a research chemist with the Philadelphia Quartz Co., and Pickett is also doing research chemistry with the Lazote Co., in Bell, West Virginia.

1923

Catharine E. Dodge spent the summer traveling with friends in Europe.

A. N. Lawrence, who has been connected with the College of Agriculture here, has resigned to enter the retail drug business at Lisbon Falls, Maine.

Elna I. Perkins is teaching in St. Mary's School in Raleigh, North Carolina.

1922

J. Frederick Russell is in the Building and Real Estate business in Deland, Fla., associated with his brother there. On numerous trips to Tinker Field, in Orlando to witness Florida State League Baseball, he has seen "Ken" Hall, '23, who is in the Builders Supply business in Orlando.

D. A. Newman has returned to his position as instructor in chemistry and physics at Northeastern University in Boston.

1921

N. Jemima Dore was married at Wolfboro Aug. 19 to Frank Brennan of Crawford, N. J.

Edward A. Pickett is teaching chemistry and physics at the Port Washington N. Y. High School.

William E. Knox was married to Miss Ella C. Griffin on June 10. They are living at 100 Elm Ave., Mt. Vernon, N. Y.

1920

Florence Kelley attended McGill University summer school.

Estelle M. Hayes was married July 11th to Warren Cobb of Walpole, Mass., where they are making their home.

**NEW HAMPSHIRE MAN IN EUROPEAN TRIP**

Dixi C. Hoyt, '24, Visits France and England—Sees Commander Byrd Land—Flies to England to Watch Bobby Jones in Tournament Play

Dixi C. Hoyt of the class of 1924 visited his Alma Mater last Friday after returning from a trip to Europe and was greeted cordially by many of his friends both in the student body and among the members of the faculty. Mr. Hoyt while in college was a member of Sigma Alpha Epsilon fraternity and was very popular among his classmates. He is at present engaged in the clothing business in Boston.

Mr. Hoyt confided some of his experiences to a staff reporter who notes many interesting incidents in this New Hampshire graduate's journey across the ocean. He sailed from Quebec to Cherbourg, France in the early part of the summer. From Cherbourg he traveled to Paris where he stayed at the Continental hotel and met Commander Byrd on his arrival in France after the disaster to his plane off the coast of that country. Mr. Hoyt had met Commander Byrd previously in United States, and congratulated him upon his safe arrival in Paris.

At Marseille the New Hampshire alumnus became acquainted with a group of American Naval officers who were on diplomatic service for a fourteen months period. He travelled over the continent and visited many famous points of interest including Venice, Nice, Monte Carlo, Genoa, and Rome. A series of fortunate circumstances enabled him to fly from Le Bourget field near Paris to Croyden airport, London in order to watch Bobby Jones win a tournament match. In England he visited Oxford, Edinburgh, Glasgow, the Shakespeare country, and the St. Andrew's golf course. From the Isle of Wight Hoyt viewed the King's Cup races for yachts in which 9,000 crafts took part.

**LIBRARY NOTES**

This summer witnessed important developments for the Library due to improvements in the building and to gifts of books and money. Many libraries are fortunate in having endowments as a source of income but the University of New Hampshire Library has had in the past to rely almost entirely on its appropriations. However, this summer the Library received several gifts of importance.

On August 30 the announcement was made of the acquisition of about 1,500 books comprising the law library of the former J. Kendrick Kinney. The gift is made as a tribute to his memory by Mr. and Mrs. John Grant Dater who have a summer home at East Andover, New Hampshire. The collection contains rich source material, many valuable early books, and thus fills a gap in the University Library.

Stone and Webster Inc., has given \$500 to be used for the purchase of books on mechanical engineering. A third gift is of \$50 from J. D. Hoffman of Purdue University, former president of the Society of Heating and Ventilating Engineers. This

money is for books on heating and ventilating.

The biggest change in the building is the new room on the second floor, Room 206, for required reading. This means that all the reserved books are kept in this room and must be used there. Students are requested to refrain from conversation in order that the best possible conditions will be available for study. There will now be more room in the two main reading rooms on the first floor for reference work and leisurely reading.

New shelves are being placed in what used to be the basement classroom. Here United States Government Documents and some duplicate books will be shelved to relieve the crowded condition of the stacks.

**BOOK AND SCROLL HOLDS FIRST MEETING OF YEAR**

The first meeting of Book and Scroll, Mr. Robert Webster, president, presiding, was held at the home of Mrs. Melvin Smith Monday evening, September 26. An entertainment committee and a nomination committee for new members were appointed, and names of students interested in English who are eligible to join, were discussed. It was voted that Book and Scroll should meet Monday evening of every other week. Programs for the coming years were discussed, and it was suggested that a literary man be invited here to speak to the student body. Refreshments were served and an informal discussion followed.

**SORORITIES OPEN RUSHING SEASON UNDER NEW RULES**

The rushing season for the sororities started last Tuesday when the six sororities on the campus entertained freshman girls for the first time. Following the custom of former years, last week was a week of silence during which time no rushing or calling on freshmen was permitted. Upper class girls did not wear their sorority pins during this period.

The rushing rules voted by Pan-Hellenic are nearly the same as those of last year. Each day of the week except Sunday is assigned to a sorority for rushing, and no other group may rush on that day. Each sorority has three rush days and a rush party. The dates for these parties have already been chosen and will take place on Wednesdays and Saturdays. Pledging takes place on Tuesday, October 25 which is the day of silence. The customary plan of preferential bidding will be used with Miss Katharine Watson comparing the list of freshman choices and sorority bids and announcing the results.

General rushing rules include the following: "no sorority girl may take a freshman girl home over night or stay over night with her. All parties are 'Dutch treat' with the exception of the one rush party allowed each year. There will be no rushing after ten o'clock at night."

**Freshman Girls to Relight the Lamp of Knowledge During Year**

By E. B. B. 29

The entering class of freshmen girls promises to endow our depraved campus with unusual industry. They come, 140 of them, fired with an overwhelming desire to "further their educations"; or, if not that, "to become genuinely useful in their future lives". At least, that's what they say and how they say it. A few braver souls, the "originals" of the class of 1931, say they want cultural background, this campus being the logical place to get it. Or else they want a "comfortable position in life". We admit the adage that "Position in life is everything", so we'll be looking for the proverbial feet on the desk, although we should like to point out that it is still considered a bit odd for persons of the feminine gender even in this age of noses thumbed cordially at convention. One of the far-sighted ones says she wants to learn how to "earn a living intelligently". Mmm—maybe Most people don't, but of course, everyone has noticed that the class of 1931 is "unmistakably different".

The university, bent on hunting down statistics asks "Who or what influenced you to come to N. H. U.?" The answers vary from the most respected and reverend minister to the most hopeless reprobate on the campus. One girl, however, candidly admits "Its reputation" drew her. This has all the ear marks of a left-handed compliment to us, but we can judge better when 1931 adds its reputation to that of the university. Another sincere seeker of the greater and better things says that the beauties of our campus ensnared her soul. To do her justice, she didn't say it just like that.

We're sure all the professors are sincerely pleased by the good will and ambition displayed by the class of 1931, although we have to admit somewhat shamefacedly that they've been justly disappointed in other classes of all time who have boasted the same things year after year and have concluded in making their much vaunted "better education" of secondary importance.

**Less burning of the midnight oil!**

HERE'S a good business proposition! Invest in a Remington Portable and reap dividends in the form of bigger and better rest at night.

Much faster than writing by hand, this little Remington enables you to finish your long reports or theses—not fall asleep trying to finish them. Not only that, but think how

much neater and more business-like they look when typewritten!

Examine the Remington Portable. It is the smallest, lightest, most compact and most dependable portable with standard keyboard. (Carrying case only 4 inches high. Weighs 8½ pounds, net.)

Monthly payments. The Recognized Leader—in Sales and Popularity.

### GRANITE CHIPS

A representative from the White Studio of New York City will arrive on the campus next week to prepare for the taking of individual photographs of each member of the junior class for publication in the 1929 Granite, according to Editor-in-Chief Charles Johnson. Appointment cards will be sent to each member of the class early next week and an appointment list will also be placed on the bulletin board so that any possible errors may be averted.

At the time the pictures are taken \$3.50 will be collected from each junior, the cost of the sitting and of the making of the cut for the Granite.

Charles Johnson, editor of the year-book, states that the members of the class will assist the Granite board greatly if they are prompt at appointments since only a very short time is allowed for each sitting. Further instructions will be posted on the bulletin board.

### SALE OF FACULTY SEASON TICKETS UNDER NEW POLICY

Faculty athletic tickets will not be mailed to members of the faculty this year, owing to the limited demand for faculty season tickets in the past.

Tickets may be purchased from Coach Cowell's office at the usual price of \$7.50 either on personal application, or by mail order accompanied by check. Checks should be made payable to the department or cash, but not to the University because they cannot be indorsed at the athletic office.

Children's season tickets, for boys and girls under sixteen, are available for one dollar per ticket. These tick-

ets will not be on sale on the days that games are scheduled. All orders should be addressed to C. O. Nason, Dept., Sec.

### 4-H CLUB DELEGATES MEET AT CAMP VAIL

Twelve local Members Attend—Two also are Sent to the International Training School at Springfield

Twelve 4-H club delegates to Camp Vail, Eastern States Exposition, and two to the International Training School were at Springfield this week as representatives of the boys' and girls' clubs of the state according to J. C. Kendall, director of the University Extension Service. The Camp Vail delegates are: Esther Smith, Andover, clothing project; Barbara Holmes, Stratham, clothing; Theodora Fall, Amherst, clothing and canning; Helen Despres, Marlboro, clothing; Mildred Cochrane, Henniker, canning, clothing and food; Bertha Hobbs, North Haverhill, canning, clothing, and food; William Osgood, Pittsfield, poultry, forestry and fruit; Maurice Parker, Henniker, potato; Stanley Nelson, Washington, poultry; Paul Henderson, Merrimack, garden; David Campbell, Hudson, forestry, garden and potato; Leslie York, Wolfboro, forestry.

The delegates to the Leadership Training School were Elizabeth Ricker '28 of Laconia and Paul Fenton '28 of Andover. Both have been club members, former delegates to Camp Vail, and are students at the University, where Mr. Fenton is president of the University 4-H Club and Miss Ricker secretary.

## Many Report for Cross-Country

### Good Material Found in Varsity and Freshman Men

Last Year's Winning Freshman Out-fit Adds Strength to Varsity—Prep School Stars on Freshman Squad

The largest cross-country squads that have ever assembled at the University of New Hampshire answered the call of Coach Paul Sweet last week, and are now working out daily under his guidance. In 1926 the freshman and varsity cross-country teams won the New England Championships, and with the wealth of material now on hands it is expected that they will be well up in front in this year's competition.

The varsity squad lost Littlefield and Willard by graduation, and Whitney has not returned to college. The men left from last year's winning combination include Captain Weeks, Cahalan, and Eastman. Burke, who won his letter in 1925 and was kept out of the running last year owing to injuries, has returned and is fully able to be on the squad again. Of last season's winning freshman team there remain six to join the other varsity hill-and-dalers. These include Hobbs, Levine, Corpening, Nudd, Smith and Wallace. During the past summer Hobbs defeated two of America's best in a six-mile run, namely DeMar and Hannagan.

The complete roster of the squad is as follows: Burke, Cahalan, Cleveland, Corpening, Chadwick, Colby, Daland, Dodge, Eastman, Farnsworth, Hall, Hobbs, Levine, Langford, Mason, Nudd, Noyes, Niebels, C. M. Smith, H. W. Smith, Szuch, Tufts, Vogle, Woodward, White, Wallace, Weeks, Winch, Low and Eastwood.

The freshman squad includes many high and prep school stars with Benedict of Melrose, Mass., Howard of Lawrence, Mass., Kasain of Tilton, Moore of Pinkerton, and Tardow of Berlin as the leading candidates. This material is untried in intercollegiate cross-country, but there seems to be fine possibilities. The complete list of the freshman squad includes Baker, Beecher, Benedict, Blanchard, Boothroyd, Cheetan, Cochrane, Connell, Currie, Dodge, Dustin, Hazen, Hogkins, Howard, Kasain, Lamson, Lovering, Lazore, Lloyd, Lovejoy, Merrill, Moore, Newell, O'Janen, Pinkham, Putnam, Reid, Richardson, Selleck, Smith, and Sullivan.

The schedule for the varsity hill-and-dale includes University of Maine at Orono, Oct. 15; Bates at Durham, Oct. 22; M. I. T. at Boston, Oct. 29; Springfield at Durham, Nov. 5; N. E. I. C. A. A. at Boston, Nov. 14. The freshman schedule calls for meets with Tilton at Durham, Oct. 15; Pinkerton at Durham, Oct. 22; M. I. T. '31 at Boston, Oct. 29; and N. E. I. C. A. A. at Boston, November 14.

### NEW INSTRUCTORS ADDED IN WOMEN'S ATHLETIC DEPT.

Three new instructors in women's physical education have been added to the staff of that department this year under the efficient direction of Miss Katherine Watson.

Miss Bertha Kirk, a graduate of University of Illinois and of Columbia, comes to the University after spending a year at the University of Texas where she taught physical education last year.

Miss Marguerite Muerless taught physiotherapy and recreation at the North Reading Sanatorium. Miss Muerless is a graduate of Boston School of Physical Education and plans on completing her studies here.

Miss Marion Russell is a cadet student from the Boston School of Physical Education, assisting in the direction of the various sports for women.

The department now has twelve freshmen registered as majors and eight upperclassmen, making a total of twenty. This major course was started only last year and is proving very popular.

### Y. W. C. A. NOTES

The annual tea for Freshmen girls will be held Friday afternoon, September 30 from 4 to 6. All freshmen girls are cordially invited.

A Y. W. C. A. Retreat will be held Saturday and Sunday at Highland Farm. Maqua delegates and cabinet and committee members will attend. Reports on the summer's conference at Camp Maqua will be given with plans for the coming year. The new chairmen for the year are as follows: Ruth Hammond, hospitality chairman; Alice Foster, student forum discussion chairman; Helen Abbot, chairman of meetings; and Winifred Lowe, chairman of the Freshman Commission.

The Y. W. C. A. is cooperating with the Student Forum discussions which are to be held every Sunday evening at seven o'clock throughout the year in the Community Church.

The freshmen girls turned out well for the first gathering of the year given by the Y. W. C. A. girls in the form of a treasure hunt. Two groups followed a system of arrows to the college woods to find the treasure which consisted of marshmallows and apples. Everyone gathered about a blazing fire to sing songs, toast their marshmallows, and get acquainted. It is hoped that the new freshman class will continue to attend all future meetings of the year with the same enthusiasm. Save Monday nights from seven to eight for the Y. W. C. A.

## MASK AND DAGGER TO PRESENT "ICEBOUND"

Owen Davis' Play is Selection of Professor Hennessy For Fall Term Dramatic Production—Try-Outs to Take Place This Week

Mask and Dagger, the dramatic society of the University, will hold try-outs this week for the cast of its annual fall-term production, according to an announcement made by Professor William G. Hennessy of the Department of English, coach of the society's plays. The play for the present term will be "Ice Bound" by Owen Davis.

The plays this year will be given on the new stage in Murkland Hall, the College of Liberal Arts classroom building completed during the past summer and in use for the first time this fall. The equipment for the stage, given by the University as a present to Mask and Dagger, is due this week and will be installed immediately. It consists of a lighting system, curtain, and a one-scene living room set. These additions to the society's already well-stocked "prop" room should enable it to produce collegiate theatricals which will compare favorably with those of any institution in this section of the country.

The activities of the dramatic society have become more and more popular on the campus during the past three or four years and at present the club is obliged to give a play during each of the three terms of the college year and to play three and sometimes four nights in order to accommodate the ticket seekers. During the winter term the society takes its play to Concord and Laconia, and it is understood, several other cities are bidding for the company to appear during the spring. The officers of Mask and Dagger for the present school year are William Hoagland, president; John D. Fleming, vice-president; Gertrude Nye, secretary; and Ned Ward, treasurer. Arthur Andrew, student technical director of the productions has not returned to school and it will be necessary for the members of the club to elect a new man for the position in order that the work on the new play may commence.

### HOME ECONOMICS EXHIBIT PLACED IN THOMPSON HALL

The Home Economics department has placed on exhibit in Thompson Hall collection of articles made by the Junior Red Cross of Greece, Rumania, Poland, and Czecho-Slovakia. The exhibit, which was exchanged for Junior Red Cross work done in this country, includes hand woven articles, peasant embroidery, and dolls dressed in national costume.

## THE NEW UNIVERSITY ATHLETIC STORE

It is our aim to cater to the athletic wants of the student body.

Athletic Outfitters for all Sports

WHOLESALE - RETAIL

GORMAN BLOCK, DURHAM

It takes more than Camels or Old Golds, Freshman caps or tams, dances or a good football team to make college students.

We can furnish texts, notebooks, stationery, fountain pens and ink; the teaching staff will provide instruction; but you must make the effort.

Postcards, Picturesque Notes, and Folders of Views of the University.

P. A. is a grand little pal

PRINCE ALBERT is the kind of a smoke you get clubby with, right off the bat. You'll be calling each other by your first names after the very first pipe-load. It is so genuinely friendly, in spirit and in fact.

P. A. treats your tongue and throat as gently as a mother handles a new-born baby. Never a bite. Never a parch. These are details, of course. The thing you'll remember longest is that wonderful taste! So cool, so sweet, so soothing.

No matter how hard you hit it up, this long-burning tobacco never hits back. You can go to it before classes, and right through to Lights Out. Get yourself a tidy red tin of Prince Albert today. The School of Experience has never produced a greater smoke than good old P. A.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

## PRINCE ALBERT

—no other tobacco is like it!
