President E. M. Lewis Makes First Appearance Before Student Body

Addresses Class of '32 in Gym With a Talk on the Benefits of Freshmen Week as Given at New Hampton

President Edward Morgan Lewis made the address of welcome to the students of the university last week following the inauguration ceremonies of his predecessor, Mr. John J. Storer. In his talk, President Lewis congratulated the students on their excellence as an example to all students in the world. He then went on to discuss the benefits of the freshmen week and how it can help to shape a student's future.

President Lewis said that the freshmen week is an important event in the academic calendar of the university. It serves as an opportunity for the freshmen to get to know each other and to become familiar with the university's resources and facilities. He also emphasized the importance of the freshmen week in fostering a sense of community among the students.

President Lewis then turned to the topic of the benefits of the freshmen week. He said that the freshmen week is a time for students to reflect on their goals and aspirations and to develop a plan for achieving them. He also stressed the importance of the freshmen week in helping students to develop a sense of responsibility and leadership.

President Lewis concluded his talk by thanking the students for their attention and asking them to make the most of their time at the university. He encouraged them to take advantage of the many opportunities available to them and to work hard to achieve their goals.

Lost Year's Winning Freshman Out

Still Strongest Track at Freshman

The largest cross-country squad that has ever assembled at the University of New Hampshire made the call of Coach Paul Sweet work, and are now working out daily under his guidance. In 1926 the freshman and varsity cross-country teams won the New England Championship and the New England Intercollegiate Athletic Association meet. For the track season 1927 the squad will be the “Young” of the University.

The varsity squad lost Littlefield and Willard by graduation, and while the latter has not retired from the coaching staff, the former has returned to his former duties to the University as a professor of Physical Education and assistant coach for the cross-country team. The combination includes Captains Wilson and Plante, who are both upperclassmen, and thus they will be the only two veterans of last year’s championship team.

The freshman squad includes many of the past stars, and with the addition of freshmen, the team is well on its way to the New England meet. The freshman squad is composed of six members, and it is expected that they will do well at the New England meet. They will also be the only team in the University that will be able to compete in the New England meet.
