COACH COWELL

In this, the first issue of THE NEW HAMPSHIRE since the close of the 1927 football season, we feel it appropriate to comment upon a topic suggested by the unfortunate wording of an article which recently appeared in a contemporary newspaper and which dealt with a resolution concerning Head Coach William H. Cowell passed by one of our local alumni branches. We believe that the matter should not pass unnoticed, although we are assured that the alumni had no intention of criticizing the coach in any way and we sincerely believe this to be true.

We feel that we are expressing the views of the entire student body when we say that the coach deserves the gratitude of everyone connected with the University for his work during the past twelve years as a coach and for his highly beneficial influence as a man and a leader. No man has proved a truer friend of New Hampshire and all that she stands for and no man has done more to promote her welfare insofar as it was in his capacity to do so. The students have every confidence in him and if such is not the case with some of the alumni we feel sure that it is because they are not acquainted with the conditions which the coach has had to face during the present season when he had to turn out a team of inexperienced men to play a schedule which happened to contain some of the strongest teams which New Hampshire has faced in years.

The coach worked hard and the men worked hard as the great improvement during the latter part of the season showed and, if there is any criticism due, we believe it should come from the coach and the players because of a lack of support and co-operation from the sidelines (which all the term implies) rather than that the criticism should come from the sidelines themselves.

Coach Cowell is president of the American Football Coaches' association, the highest honor a coach may receive in the realm of intercollegiate football, and he was elected upon the recommendation of some of the greatest coaches in the country, men surely qualified to judge upon the merits and deserts of a colleague. He has turned out more winning teams since he has been here than losing ones. He has been here the University more than an "even break". We suggest that the University and all connected with the University and all connected with her do likewise for the coach.

HOME ECONOMICS NEWS

Friday, December 9, the Y. W. C. A. and Psi Lambda girls are to conduct a joint Christmas sale. The Y. W. girls will sell Japanese favors, and serve tea. The Psi Lambda organization will sell hand woven linens, and pottery from Berea, Kentucky. It will also offer fruit cake, mince meat, marmalade, jellies, and home made candies for sale. The hours for the sale will be 3:30 to 5:30 in the afternoon and 7 to 9 in the evening.

Mrs. McLaughlin, head of the Home Economics department, has been in Chicago attending the Land Grant College Association meetings during the past week.

In Thompson hall, laboratory 110, there is an exhibit of very old textile material loaned by Mrs. DeMeritt. Any one interested is invited to see this rare fabric.

HONOR ROLL

The following students are listed on the honor roll for the school year, 1926-27, according to a statement issued recently by Registrar O. V. Henderson:

High Honor

Senior Class:—Caroline E. Woods, Charles L. Morreels, Katherine P. Flanagan, Margaret B. Torrey.
 Junior Class:—Lewis M. Stark, Kenneth S. Lane, Kenneth E. Glidden.

Sophomore Class:—Elizabeth M. Ahearn, Ruth C. Towle.

Honor

Senior Class:—Malcolm B. Sargent, Angelo Del Bianco, Jessie I. Daniels, Paul M. Hunt, Dorothy Story, Margaret F. Brown, Charles M. Smith, Lawrence E. Smith, Elizabeth A. Redden Evalyn M. Davis, Doris M. Reney, Helen L. Reid, Edgar St. Clair, Kelsea Griffin, Patrick J. Murnane, Priscilla Morris, Edna G. Batchelder, Muriel F. Steeves, Harold E. Haley, John J. Anglin, Emile M. Cus-teau, Albert F. Dagget.

Junior Class:—Frank C. Ames, Edward McClenning, Mary E. Timmins, Eunice P. Gales, Roland L. Wentworth, Iva L. Handy, Carl E. Walker, Randolph W. Chapman, Harold W. Avery, Elisabeth B. Bauer, James J. Johnson, Maurice S. Nichols, Ruth E. Pitcher, Gertrude E. Nye, Charles A. Sewall, Lois U. Tompkins, Irene L. Gadois, John D. Fleming, Beatrice A. Gray, Esther E. Otis, Isabelle Paige, Homer H. Richardson.

Sophomore Class:—Elisabeth A. Varney, Doris V. Paradis, Jean Brierly, Margaret E. Gleason, Edith L. Stone, George W. Randall, Dorothy A. Sewell, George W. Watson, Eleanor L. Sheehan, Ellen J. Farley, James G. Papadopoulos, Marion B. Frame, Katherine C. Dwyre, Grace A. Randall, Dorothy E. Tarr, Jacob R. Seiget, Pauline E. Whittemore, Samuel T. Adams, Mary L. Oakman, Halstead N. Colby, Phillip Nudd, Kenneth E. Wheeler, Sara L. Brunel, Dorothy E. Nason, Leona L. Petazzi.

Mask and Dagger Players

PRESENT "ICEBOUND"

(Continued from Page 1)

"Ella" played by Dorothy Davis '28. The role of "Judge Bradford", perhaps the best character part in the production, is to be portrayed by Randolph Wilkinson '28, an outstanding politician and orator on the campus for the past two years. One of the best pairs of comedians ever to be cast in a Mask and Dagger play are found in Joseph Connell '31 who plays "Orin" and Mary Lovell '31 as "Sadie", his mother. Both of these actors are freshmen, the only yearlings to be cast for the play.

Practically the entire cast is prominent on the campus, in various other activities. Miss Jones, secretary of her class and a member of the Alpha Chi Omega sorority, Lyle Farrell '29, who plays "Jim Jay", and Wilkinson, members of the varsity football team, and Dorothy Davis of the women's varsity debating team, are among the best known students on the campus.

The stage manager of the production is Eunice Wilson '30, while Frederick H. Smith '29, has charge of the scenery. According to Professor Hennessy all seats will be reserved and the house will be limited to its seating capacity each evening. The Delta Kappa sorority is to sell candy for its house fund during the presentations of the play.

The cast: Henry Jordan, Malcolm Conant, '28; Ben Jordan, Arthur Somers '29; Ella Jordan, Dorothy Davis '28; Emma Jordan, Gertrude Nye '29; Nettie, Madeline Pickwick '30; Sadie Jordan, Mary Lovell '31; Orin, Joseph Connell '31; Jane Crosby, Dorothy Jones '30; Judge Bradford, Randolph Wilkinson '28; Doctor Curtis, John DeCourcy '29; Jim Jay, Lyle Farrell '29; Hannah, Arlene Morin '30.

It was our privilege to witness a recent rehearsal of "Icebound" which is to be presented by Mask and Dagger next week. In our opinion it is the best cast and the strongest play which Professor Hennessy has worked with since coming to the University and the result should be well worth seeing. Dorothy Jones as "Jane" and young Joe Connell and his lollypop alone make the play one which will be talked about long after the final curtain.

It is reported that the Lambda Chi Alpha and Delta Sigma Chi fraternities engaged in an official cribbage meet last Sunday afternoon which was won by the former fraternity. Shades of the Puritan founders! A card game in Durham on Sunday! We may as well permit eleven-thirty dances now. The *nth* degree of iniquity has been reached as it is.

The president of the senior skulls recently dined at one of the sorority houses and washed the dishes afterward while clad in a rubber apron. "Mother of Men, Old Yale" and "Broeder of Husbands, New Hampshire".

The campus seemed to approve of the recent Alpha Chi Omega "house warming". In fact, according to some of the youths on the campus, the warmer the sorority house, the better. Or the sorority, for that matter.

The Dartmouth "Jack-O-Lantern" recently published the ghost song, "I ain't got no body". Sophomore tucklers tell us that the same idea seemed to work out in the recent freshman-sophomore football clash in so far as the freshman backfield men were concerned. And they used a "ghost ball", too.

We agree with the recent motion of the student council that the matter of an award for varsity cheer leaders be locked into. The cheer leader's job is one which requires constant work and unselfish application to it and we feel that some emblem of the position should be given the senior cheer leader at the beginning of his term of office. A system for training cheer leaders from freshman year on seems called for also.

We understand that Yale men are now greeting Bruce Caldwell, their deposed football star, with "Et Tu, Bruce?"

Undergraduate students may submit as many drawings as desired—on any subject—in black and white, before January 15. Two other famous artists, Arthur William Brown and Gaar Williams, will decide with Flagg on the winning 81 drawings.

Three original drawings by these three artists will be presented to the comic magazines or publications on whose staff the prize winners are regular contributors.

EVOLUTION CAUSE

OF COMMOTION

(Continued from Page 1)

those students who do not study the subject thoroughly for fear it might undermine their religion. The second group is very small (fortunately, for a small campus like this) and considers evolution as more or less a weapon against the church. They are the "smart" students who pride themselves on being advanced thinkers, and accept materialism as the scientific philosophy of life. They feel the secret elation of the bad school-boy smoking because he is forbidden to do so. However, the third group, which comprises the majority of students here, make it a point to delve into the subject more deeply, and they find evolution a tremendous substantiation of their religious belief, and as a result gain materially by virtue of the study. Professor Jackson was emphatic in his statement that although a large percentage of the students profited of the study, it caused much harm to others.

When asked if last winter's quota of youthful suicides in our American colleges had any connection with their probable study of science, the professor believed it to be due to pessimism developed through the lack of a philosophy of life. "An individual can't take a materialistic view of life, and get any joy out of living", he declared.

That there is no conflict between religion and science may be amply demonstrated, and that they are conducive to each other's benefit, may be clearly illustrated. Most biologists of the present day believe the teach-

FLAGG TO COMMENT ON ART DRAWINGS

Leading American Illustrator Offers to Criticize Contributions to College Humor Contest by New Hampshire Publications

James Montgomery Flagg, dean of American illustrators, has consented to criticize and make personal comments to artists who submit drawings of exceptional merit to New Hampshire publications and College Humor in their \$2,000 art contest. For more than 37 years Flagg's illustrations have appeared in the leading magazines of America. His comments and criticisms, impossible to be obtained in any other way, should be invaluable to the fortunate artists. All students of the University of New Hampshire are eligible.

Undergraduate students may submit as many drawings as desired—on any subject—in black and white, before January 15. Two other famous artists, Arthur William Brown and Gaar Williams, will decide with Flagg on the winning 81 drawings.

Three original drawings by these three artists will be presented to the comic magazines or publications on whose staff the prize winners are regular contributors.

EVOLUTION CAUSE

OF COMMOTION

(Continued from Page 1)

ings of religion and apply them to evolution as good, sound scientific principles. For example, the precept of brotherly love plays an important part in the scheme of things, and biologists regard it as the most progressive factor in the development of the human race.

Cooperation is the keynote of evolution so far as evolution is concerned. The human race and civilization will survive "only so far as we co-operate with one another in a national sense as well as individual".

The belief of evolution as a cruel struggle for existence by some people was amusingly pointed out by Professor Jackson by an incident which occurred during the World War. A German soldier confined to an American that the weak should perish, and that the war was precipitated for the purpose of killing them off.

Science and religion are two different fields altogether, and although some people hope to place religion on a scientific basis in the future, this will be an impossibility, as was explained by Professor Jackson. "Science deals with demonstrable facts which can be seen. That animal life has gone through an evolutionary process has been ably demonstrated. Religion deals with things which are not subject to scientific measurements. At present religion is a matter of speculation, but it would cease to be so if it became demonstrable. Science cannot tell what life is and cannot measure it. Therefore, there can be no conflict in the two reaches of thought."

Dr. Rice, a Methodist professor of zoology at the Ohio Wesleyan University, believes in Heaven and immortal life, but at the same time a staunch supporter of evolution. He explains evolution as a creative process, and sees no conflict between the two views.

ON OTHER CAMPUSES

The Business Manager of the college paper at the University of Washington offered a prize to the man who submitted the most subscriptions. The prize was a Ben Wade K. P. pipe valued at five dollars. The contest was won by one of the co-eds, much to the surprise of the editor.

Ohio Wesleyan University has taken a definite stand on the smoking issue. Henceforth, and woman student seen smoking at a dance, unless the authorities have received written permission from her parents, will be expelled.

In a class in Socialism, at Lafayette College, Professor Miller declared that employment in this country was almost impossible even when a man wants it. Roland Finley, a member of the class, placed a wager that he could get a job anywhere within twenty-four hours. The professor offered to pay Finley's expenses if he won and the experiment was tried. With no recommendations or special influence, Finley got his job in New York City and won his bet.

FRANKLIN THEATRE

DURHAM, NEW HAMPSHIRE

FRIDAY, NOVEMBER 25

A First National Picture

"VENUS OF VENICE"

Constance Talmadge, Antonio Moreno

Unlike the Venus de Milo, Venus of Venice has two well-formed arms. Unlike the statue, there is no controversy over the possible positions of the arms of this modern living model. A comedy-drama.

Educational Comedy

SATURDAY, NOVEMBER 26

A Metro Picture

"CAPTAIN SALVATION"

Pauline Starke, Marceline Day

Because this sailor-parson befriended a fallen woman, he was scorned by friends and sweetheart. For consolation he turned to his one enduring love, the sea. Lars Hanson, Ernest Torrence, George Fawcett, Sam de Grasse

Comedy—SMITH'S BABY

MONDAY, NOVEMBER 28

A Pathe Picture

"JIM, THE CONQUEROR"

William Boyd, Elinor Fair

A gripping melodrama of the great American Plains when rustlers rode the range and cattlemen shot to kill. This story starts with a romance in Sunny Italy and ends in a hail of bullets. Story by Peter B. Kyne.

Grantland Rice Sportreel—DOWN TO THE SEA

TUESDAY, NOVEMBER 29

A Warner Bros. Picture

"THE HEART OF MARYLAND"

Dolores Costello

A thrilling picturization of David Belasco's melodrama of the Civil War, spiced with the romance of southern ardour and northern dash.

International News

WEDNESDAY, NOVEMBER 30

A Metro Picture

"THE UNDERSTANDING HEART"

Joan Crawford

Peter B. Kyne's story of the Forest Rangers. We usually think of them as leading a lonely life, but the characters in this tale surely got their love affairs somewhat tangled. If its locale was in France it might have been a bedroom farce. Rodcliffe Fellowes, Francis X. Bushman, Jr., Carmel Meyers.

ALUMNI NOTES

Alumni Office—Well, the fall sports are over for another year. The football teams, both varsity and freshmen were not very successful. The varsity season was the most disastrous ever suffered by a New Hampshire team in football. It was expected. All who knew of the prospects, the available material, the lack of any big men, and the dearth of experienced football men, realized that we were in for a bad year and we certainly got it.

The problem is not entirely one that can be solved by the administration nor by the student body. All you folks are hit by the poor season. You can help; we need to have all your shoulders to the wheel if New Hampshire is to put out undefeated teams in the years to come. How? Well, here are a few things you can do. Send us some material to work with. Have you enough interest in your Alma Mater to try to influence some worthy athlete to enter New Hampshire? We need big men here. There was only one man on the squad this year that tipped the scales at 200 lbs. Send us some linemen as well as some backfield men, and let them all be big, husky fellows that like the game of football. We would ask that they would have ability as students, also. Why not get a crowd together and collect enough money to establish a scholarship which will enable your town to be represented on the campus by a first-class athlete? Have you paid up your pledge to your class Memorial Scholarship? You see, the problem is yours as well as ours, and it is up to you to help.

Alumni Secretary.

CLASS OF 1922

Mr. and Mrs. Harold "Smiles" Leavitt (Frances Pease, '23) are the "smiling" parents of a son, Richard Pease, born on November 22, 1926.

Floyd P. MacDonald, who is employed by Swift and Company, has been transferred from their plant in Marion, Indiana to Cleveland, Ohio, where he is general superintendent of the produce plant of the same company. His new address is Swift and Company, Packing House Mkt., Produce Dept., Cleveland, Ohio.

"Bob" Jesseman reports that the flood around Sugar Hill has receded and he is now able to wander far without wearing rubbers. There was a time when "Jess" was unable to get more than a mile from his door.

Pauline Stewart is a laboratory technician in the Worcester City Hospital in Worcester, Mass. Mail will reach her if addressed to the hospital laboratory.

1917

Rachel Colby is director of the visiting nursing work in New Britain, Conn., where she has recently moved from Washington.

1927

"Chuck" Sanborn is working for the New York Telephone Co. in New York City. He is living at 105 W. 69th St. Good luck, Chuck.

Otho F. O'Leary is now with the W. T. Grant Company at Rochester, N. Y. He and Fred Besette, '26, are rooming together at 1010 Bay St. Fred landed there last Friday, November 11th from Elizabeth, N. J. The two men met and decided to room together. Fred is in charge of a Photomaton machine in one of the Neisner stores in Rochester.

1928

Announcement has been received of the marriage of Paul Dixon, '28, to Miss Marion V. Palmer, Saturday, October 22, at Dover. Mr. Dixon's home is in Milton. He is a member of the Senior Class, majoring in Horticulture and expects to take up Extension Work upon completion of his work here. He is a member of Alpha Gamma Rho Fraternity. Miss Palmer has been on the clerical staff of the College of Agriculture for the past six years. They will make their home in Dover.

DELTA KAPPA SORORITY ARRANGES FOR XMAS SALE

The Delta Kappa Sorority has made plans for an Xmas sale in Gorman's Drug Store, December 9. Many gifts for Christmas selection will be placed before the students.

Last Tuesday evening the pledges of the sorority were entertained by the active members at Mrs. O'Kane's. At the meeting Mrs. Sylvester was chosen as a patroness. Gwendolyn Jones, recent aspirant for political honors, visited a number of the Kappa girls last week-end.

VALLEY GROUP OF N. H. U. ELECTS ALUMNI PRESIDENT

The Connecticut Valley Alumni Association of the University of New Hampshire at a recent meeting in Hotel Clinton, elected Don Melville, '20, president. This association went on record as endorsing the present football system at the University, but decided to petition university authorities for an additional coach because they feel that coach William H. Cowell has been overworked.

Other officers elected were vice-president, Elizabeth Baker, '24, of Agawam; secretary-treasurer, Percy A. Campbell, '04; delegate to advisory board, John E. Miltimore, '18, of West Springfield.

Directors at Chicago Meeting

Department Heads Talk With Land Grant Colleges

Director John C. Kendall, Deans F. W. Taylor and George W. Case and Professor Helen F. MacLaughlin Attend Annual Convention

Director John C. Kendall of the University Extension service and Experiment Station; Deans F. W. Taylor and Geo. W. Case; and Professor Helen F. MacLaughlin, of the home economics department attended the Forty-first Annual Convention of the Association of Land Grant Colleges and Universities in Chicago last week. This Association is made up of three major sections, agriculture, engineering and home economics. An additional section to include divisions of Liberal Arts in these institutions has been under consideration for some time and may be added in the near future.

Director Kendall served on the committee of experiment station organization and policy. This committee advocated that all patents should be taken over as public service patents in the field of experiment station work. The Director brought back an important report made by the national committee of university officials in regard to the present agricultural problems. In the past the agricultural authorities have had to wait for Congress to act on special emergency cases but it is hoped that the next Congress will enact laws whereby such cases can be handled without delay.

Dean Taylor attended the meetings of the resident teachers' section where two important matters were discussed at length. The first matter of importance was in relation to the great amount of time spent by students in preparing for, and in attendance at the cattle judging contests particularly the National Dairy Show and the International Live Stock show. The Dean also learned that nearly all of the traveling expenses of the students was paid by the students themselves. Some institutions allowed their students to be gone for only five days while others gave participants as long as a month in which to attend this type of convention.

The discussion of the relative amount of time units for graduation in the colleges of Liberal Arts, Technology and Agriculture showed that in most cases more work was required in the two latter colleges. A few of the larger institutions have decreased the amount of work in the "Tech" and "Aggie" departments to correspond with that of the College of Liberal Arts.

The meetings of the Engineering Section considered portions of the

studies which have been underway for five years, that are being made by the Society for the Promotion of Engineering Education under a grant of about \$150,000 by the Carnegie Foundation for the investigation of engineering education. This Section discussed the special application of these studies to engineering schools in Land Grant institutions and applied specially to student welfare from the time the prospective student might be considering engineering work while in the high school and followed him step by step through the various years in college, into his graduate work and finally special employment such as research in the engineering experiment stations of these Land Grant institutions.

This study has apparently demonstrated the fact that engineering schools have been unnecessarily harsh in their requirements and probably a more liberal policy would have accomplished as satisfactory results. This more human point-of-view seemed to apply especially to the freshmen during the fall term of that year, when they are starting work under conditions varying so greatly from those which they experienced during their high school years.

The usual criticism of engineering education, that practically the entire curriculum is prescribed, was absent in these discussions. This practice seemed to be taken as an important element in the success of engineering schools in selecting graduates able to withstand the rigid requirements they must meet after graduation.

The matter of restriction in enrollment received considerable consideration as it does in many like meetings and the view generally expressed was that since these institutions are supported by the people of the state by taxation, applicants for admission should be accepted and allowed to make a try in the work they elect. If the enrollment becomes larger than the facilities justify, it was thought best to frankly prescribe the number to be admitted and close enrollment when this number is reached. At New Hampshire the feeling exists that the prospective student should be informed in regard to conditions he must meet to be successful in any particular line of work and given aptitude tests to determine his fitness according to Dean Case. Such measures taken during Freshman Week may assist prospective students in making wiser selections than they would otherwise be able to make. This practice may tend to limit enrollment by selection the dean stated.

DURHAM WOMEN TO HOLD CHRISTMAS BAZAAR AND TEA

The Ladies' Aid will hold a Christmas bazaar at the Community House Friday, December 2, at three o'clock. There will be on sale fancy work, aprons, candy, flowers, and food. There will also be a tea room, conducted for patrons of the bazaar.

Coach Paul Sweet Produces Third Cross-country Championship Team

Coach Sweet has turned out one winning varsity and two championship teams at the University since he came here in the fall of 1924. That year his varsity harriers took third in the New England, but fell back to ninth position the next season. The freshman run was started in that year and the New Hampshire frosh broke into prominence by tying for second place.

Last year marked the peak of success in cross-country running at New Hampshire, when both the frosh and varsity sped home to the New England championships by wide margins. The freshmen deeply impressed the spectators at Franklin this year when they ran away from their competitors for such distance that no college even threatened to take the lead at any time. Third place was taken by the varsity this fall.

Three cross-country championships in two years is a proud record which the University boasts of, and with another winning frosh club next year the University will have permanent possession of the three-year championship cup offered by the N. E. I. C. A. A. for the Franklin Park course of three miles which saw the Wildcats cover it in 17 minutes and 44 seconds.

Coach Sweet himself is a joint holder of former national and world's records set up by the University of Illinois relay team in 1923. In addition to this record, he held the high jump interscholastic record of Wisconsin at all the meets held in that

state, placed third in the 100 yard dash and second in the 220.

In his sophomore year at Illinois, Coach Sweet dropped all the events but the quarter mile, and for the remainder of his college career groomed himself for that distance. Reward came to him for two years of practice when he won the Conference championship at 440 yards in 48 1-5 seconds, the fastest intercollegiate record at that time.

As a member of the university relay team that year Sweet helped to establish a new world's record for a quarter mile, each of four men stepping 110 yards for a total time of 43 1-10 seconds. The mile was covered by the same team in three minutes and 20 seconds, each runner averaging 50 seconds for 440 yards. Then to cap the climax of a big season, Coach Sweet and his companions hung up a new intercollegiate record in the half mile with a minute, 27 5-10 seconds. All these records, the New Hampshire coach has said, are now held by new individuals and teams.

After graduating from Illinois with a degree in physical education Coach Sweet continued in championship form, this time as a coach. At County High School at Elko, Nevada, where there were but 50 boy students, he won the state junior championship in basketball and brought to the town its first title, and then in spring was second in the state interscholastic track meet. The next year he started in as track coach at this institution.

ALPHA CHI OMEGA HOLDS UNIQUE HOUSE WARMING

A unique plan for campus house-warmings was introduced here this week-end when the Alpha Chi Omega Sorority held open house to the faculty and townspeople Saturday, and to the students of the university Sunday. Mrs. Leon Wheeler of Manchester, matron of the house, Dorothy Pray, and Marjorie Allyn received the guests, and patrons of the fraternity were invited to assist in entertaining them. On Saturday afternoon, Mrs. C. W. Scott, Mrs. A. F. Richards, Mrs. E. G. Ritzman, Mrs. Dora McCrillis of Laconia, and Mrs. David Hill of Manchester poured. Mrs. E. P. DeMeritt, Mrs. Ralph D. Paine, Mrs. Louise Potts, Mrs. A. O. Morse, Mrs. T. J. Laton of Madbury, and Mrs. Mabel Redman of Exeter poured on Sunday. They were assisted by members of the fraternity.

NOTICE

There will be an Episcopal Evening service at the Community church at 4 P. M. November 27.

CONCORD BRANCH ALUMNI ELECTS OFFICERS FOR YEAR

The Concord branch of the Alumni Association held its November meeting Monday evening, November 10. Alumni secretary Blewett was present to give a short talk. Election of officers for the year resulted in the reelection of president Lawrence Carlisle, '08, and secretary-treasurer Mrs. Mary Beggs Dye, ex '21. F. R. Wilson, '23 was elected vice president. A discussion of meetings followed and a program for the year was finally adopted.

TEA GIVEN IN HONOR OF PHI MU PLEDGES FRIDAY

A tea was given at the Community house last Friday afternoon, by the Phi Mu Sorority in honor of its pledges. Mrs. F. W. Taylor, Mrs. Howard Rollins and Mrs. Whitney were guests. An initiation took place Tuesday evening, at which Ellen Farley '30 and Hazel Bronson '30 were the initiates.

CLOSE BATTLE IN LEAGUE BASKETBALL

A. T. O.'s Leading National League
With Phi Alpha Second—Phi Mu
Delta and S. A. E. Tied for
First Place in American
Division

The intramural basketball tournament is rapidly progressing toward a close, with another week of games to be played. Due to the remodeling of the gym the tournament has been much later this year than usual, but the championship games will be played off before the Christmas, so that the varsity can get under way with the opening of the winter term. In one league the A. T. O. team, last year's champions, has taken the lead with Phi Alpha and Tri Gamma the leading competitors. In the other fraternity league Theta Chi, S. A. E., and Phi Mu Delta have shown superior brands of basketball. So far the commuters have had things pretty much to themselves in the non-fraternity league.

In Monday's games Delta Pi Epsilon lost to Theta Kappa Phi 16-11. Theta Chi ran away from Alpha Gamma Rho, scoring 27 points to the Aggies 9, while S. A. E. defeated Kappa Sigma 20-9. On Tuesday A. T. O. gave Phi Alpha a setback by the score of 18-12, and Phi Mu Delta climbed up a notch by defeating Lambda Chi, 22-12.

The summaries of games:
Lambda Chi, Alpha Gamma Rho 16-11. Substitutions, McIntire for Russell, Referee, Kelsea.
Tri Gamma, Theta Kappa Phi 16-11. Substitutions, Harriman for Bruce, Referee, Kelsea.

Phi Mu Delta, Theta Upsilon 16-11. Substitutions, Harriman for Bruce, Referee, Kelsea.
Phi Mu Delta, Theta Upsilon 16-11. Substitutions, Harriman for Bruce, Referee, Kelsea.

Phi Delta Upsilon, Phi Alpha 16-11. Substitutions, Harriman for Bruce, Referee, Kelsea.
Phi Delta Upsilon, Phi Alpha 16-11. Substitutions, Harriman for Bruce, Referee, Kelsea.

Students Visit Modern Schools

Institutions of Danvers And Beverly Inspected

Home Economics Dept. of Essex
County Agricultural School and
High School at Beverly Examples
of Modern Educational Methods

The members of the Education department made a tour last week of Danvers and Beverly, Mass., visiting there places of interest to the department.

The group first visited the Essex County Agriculture School at which the main interest was in the Home Economics Department. The department is situated in a building which is but two years old and contains all modern improvements. Work is run on a highly organized scale, classes in cooking or sewing, as the case may be, last half the school day, thereby giving ample time to accomplish something worth while. The cooking classes prepare the luncheons for the pupils and the faculty of the department.

In Beverly the new million dollar high school was visited. After inspecting the whole building interest was centered upon the Home Economics department there. The Home Economics department is new and is not running satisfactorily as yet, although working improvements are being made all the time. The school cafeteria was of special interest be-

cause of its excellent organization, cleanliness, and ability to serve so many students in such a short time. This high school was built to accommodate two thousand students but because of the scarcity of class rooms, some of the science rooms are used for classes. This arrangement separated the Home Economics Department into two sections of the building.

In the trade school the boys work out actual projects not pseudo jobs. Work is done on automobiles, in sheet metal and in wood. These boys go to school one week and then work in the shop the next week.

Next two hours were spent in the United Shoe Machinery company, during which a hasty tour was made of that enormous building. Boys work here under the supervision of men who give the necessary instructions. The boys work under the two shift plan and are paid at the rate of one-half of price of the article which they make. There are more than thirty-five hundred people employed here and that number more than supplies the labor turnover.

The company maintains a cafeteria, rest-room, club-house, and hospital for the benefit of its employees. The upkeep of these and the factory amounts to about thirty-five thousand dollars.

March 9-10 Set For Tournament

Annual Interscholastic Basketball Plans Made

Committee to Select Representative
Teams to Consist of Three Univer-
sity Coaches—Dean A. O. Morse
to Handle Drawings for Play

The seventh annual inter-scholastic basketball tournament conducted by the University will take place on March 9 and 10 according to an announcement made this week by Professor Henry C. Swasey of the University athletic department who had charge of drawing up the rules for the tournament. The competition is an annual affair sponsored by the state university in the interests of inter-scholastic athletics and the teams winning the titles in the high and preparatory classes are considered the champions of the state for the year in their respective groups.

The state is to be divided into eight geographical sections in selecting the high school competitors as was the case last year and one team will be chosen from each section to play here. The selections will be made by a committee consisting of three coaches of the University's athletic department and the drawings for play in the tournament will be handled by Adrian O. Morse, dean of men. Any high school which is supported by tax payers of the state will be eligible for consideration providing that the school is a member of the headmasters' association for 1928.

The teams wishing consideration for the tournament, according to Coach Swasey, will be required to mail a detailed report of each game to the athletic authorities here within 48 hours after it is played. In the case of two teams being tied in a certain district in the opinion of the authorities here, the committee may ask the teams to play on a neutral floor. Selection of the teams to compete will be March 1 and the teams will arrive here March 9 to be the guests of the various fraternities for the week-end. Coach Swasey said that each player must present a health certificate before being allowed to take the floor in the contests.

In the preparatory school class any school will be eligible which is controlled and supported by private individuals and whose team members have registered in the school before October 15, 1927. Unlike the case of high school teams there will be no twenty-year age limit placed upon the players, nor any four year playing rule to bar them. Four teams instead of eight will be invited to participate. All other rules for the preparatory school class are to be one of the most interesting and exciting.

The tournament is one of the most interesting and exciting week-ends of the winter term. High schools from every part of the state compete and competition is always keen. The mythical "all-state" teams are usually picked by the officials of the tournament and New Hampshire athletic authorities as a result of the individual playing of the men during the tournament. Last year the tournament was won by Manchester high school after a particularly exciting game with Franklin high school which the Queen City youths won 19-18.

Medals are awarded the most valuable player to his team in each class and also to the individual players on the two championship teams while trophies are presented to the two winning schools as units. The officials for the tournament are chosen from the leading basketball experts of the East. Last year Oswald Tower of Williams, noted referee and member of the basketball rules committee had charge of the officiating for the games. The tournament closes on Saturday evening when the final game is played off and the prizes distributed.

WOMEN ATHLETES GIVE PARTY TO WINNING TEAMS

The women's athletic association of the University held a poverty party in honor of the Junior soccer and Fresh-

men hockey teams, the class champions of the past season, Monday evening, November 21, in the women's gymnasium. After several feature stunts, the best poverty costume was chosen and a prize awarded to the wearer.

This party was the conclusion of the hotly contested series of class games and was attended by the players, the coaches, and other members of the association.

COMBINED GLEE CLUBS IN

ANNUAL CAROL SERVICE

The combined men's and women's glee clubs of the University will take part in the annual Carol service conducted here by the Community church according to an announcement made here today by Professor Robert W. Manton, head of the Department of Music. The services will take place on the evenings of December 11 and 12 in the Community church.

The glee clubs will be under the direction of Professor Manton and will be accompanied by Mr. Harris Shaw of the Music department. The program, which is to be announced at a later date, will contain a combination of the best ancient and modern carols. The practice of having the university glee clubs participate in the carol services, which are held early in order that they may not interfere with the examinations of the fall term, was instituted here several years ago and become a regular custom.

A poll of New England colleges shows that there are but two other institutions where a meal ticket is provided with 21 consecutive meals at \$6.

COMING TO DURHAM

Put your pipe on P.A.

WHAT you get out of a pipe depends on what you feed it. Millions of contented jimmy-pipers will tell you that Prince Albert commands a pipe to stand and deliver. You suspect you are in for some grand pipe-sessions the minute you get a whiff of P.A.'s aroma.

The first pipe-load confirms your suspicions. What a smoke, fellows! Remember when you asked for the last dance and she said "You've had it!" P. A. is cool, like that. And sweet as knowing that she didn't really mean it.

Sweet and mellow and mild and long-burning.

Put your pipe on P. A. You can hit it up to your heart's content, knowing in advance that P. A. will not bite your tongue or parch your throat. That one quality alone gets P. A. into the best smoke-fraternities. And then think of all its other qualities!

P. A. is sold every-
where in tidy red tins,
pound and half-pound
tin humidors, and
pound crystal-glass
humidors with sponge-
moistener top. And
always with every bit
of bite and parch re-
moved by the Prince
Albert process.

PRINCE ALBERT

—no other tobacco is like it!
