### CAPTAINS OF SPRING SPORTS TEAMS

Capt. Paul Toolin and Ray Hoyt

### Alumni News

Alumni Office—We're back "on the air" again after a short recess. Because we have so much news to dispense and because we think you might enjoy a respite from the usual "alumni chatter," which we try to conduct weekly, we will omit it this week.

Alumni bowling comes in for its share of attention this week. Our only regret is that our bowling tournament has not received more attention in the past. Concord and Philadelphia are now reporting scores. The Concord Branch reports the following scores:

March 29			
Sandquist	84	87	84 255
Hartford	83	85	85 253
Strong	68	78	81 227
Carlisle	66	73	65 204

Total	1217
Total with factor	2027

April 5			
Eastman	91	88	99 278
Sandquist	93	89	90 272
Hartford	89	85	91 265
Taylor	101	80	80 261
Wakefield	74	75	77 226

Total	1302
Total with factor	2170

The New York scores are as follows:

February 10			
Hewitt	177	128	170 475
Balch	194	126	119 439
Pickett	156	102	142 400
Spencer	102	142	142 386
Dudley	118	131	129 378

Total	2078		
Spencer	157	237	154 548
Kennedy	160	202	167 529
Hewitt	121	163	188 472
Hussey	159	165	143 467
Walker	152	135	179 456

Total 2472  
The April number of the ALUMNUS is being mailed to all alumni this week. It contains full information concerning the activities and meetings of all the active branches. Secretaries are urged to attend to the election of the club delegates to the meeting of the Advisory Board on June 16.

The regular April meeting of the Boston Club will be held 7:30 p. m., April 17 at the Club's meeting place, the Hotel Princeton, 1277 Commonwealth Avenue. Plans for the annual banquet to be held in May will be discussed. George Carens, a veteran sports writer and now Sports Editor of the Boston Transcript, will speak to the club. Mr. Carens, a fine and interesting speaker, will warrant the attendance of all New Hampshire alumni living in and around Boston.

1927—Frederick Robinson is now with Armour and Company in Providence, R. I. He is living at the Y. M. C. A. at 160 Broad St.

1923—"Del" Borah, who has enjoyed great success as athletic coach at Sanborn Seminary and Fairhaven High, has recently been signed to take charge of athletics at Newburyport, Mass. High School.

2 yr-1916—The address of Sidney J. Green is now 388 Whitney Ave., New Haven, Conn.

1920—The January number of Modern Priscilla contained some tasty recipes written by Dorice Elkins, who is a member of the Proving Plant staff of the magazine. Several articles by Miss Elkins have appeared in the past, but this one was the first to be called to our attention.

1926—"Joe" Brooks reports his address changed to 192 Northland Ave., Buffalo, N. Y.

1924—Leslie Bacon is a research chemist with the American Doucil Co., a subsidiary of the Philadelphia Quartz Co. "Les" is living at 5613 Ridgewood St., Philadelphia.

1922—"Bob" Doran recently passed his examinations for the Massachusetts bar and is practicing law in Springfield and Holyoke.

1917—Vance Batchelor, Captain in the U. S. Cavalry, is at present stationed in Providence as Executive Officer for the 315th Cavalry, a reserve organization.

1920—Mr. and Mrs. Harry L. Smart announce the birth of a daughter, Barbara Fletcher, on March 31 at Boston, Mass. Mrs. Smart was Helen Barton.

1926—"Charlie" Fogg was recently elected Farm Bureau manager of Livingston county, New York. Mr. Fogg has been engaged in agricultural extension work since his graduation.

### Varsity Track Team Works Out

here with Springfield College on June 2. It will be seen that three varsity meets are scheduled to take place in Durham thus giving plenty of chance to see the Wildcats in action on the track.

Seventy five freshmen responded to the call for spring track and seem to present a well balanced team. There are several men out for each event, although at this time the team seems to be rather weak in the dashes and especially strong in the weight events.

The freshmen run Dartmouth freshmen here May 4 and the Brown freshmen at Providence a week later. Their last meet is with the M. I. T. freshmen and will take place the last of the month.

### Intramural Sports Program Planned

Association Sets Dates For Spring Athletics—Minor Changes in Rules—Conant to Have Charge of Baseball

The Intramural Association of the University held its first meeting of the term last Monday night in Coach Swasey's office Jeffrey Francoeur '28, was elected secretary to take the place of Charles Schurman whose term of office had expired.

Malcolm Conant was chosen to take charge of the Intramural baseball to take the place of Jerry Bond, who did not return to school. It was announced that baseball will begin the 30th of this month; that the track meet will be held the 28th of this month and that competition in tennis and swimming will not take place until later in the term.

Several minor changes were made in the rules. A representative from one of the fraternities said that in a recent game in which there were two umpires, the game proceeded more smoothly and was played in much less time than usual. It was then voted to change the rules to read that there must be two umpires for each game. It was also stated by Chairman English that any games not finished, will revert back to the last even inning. It is thus to the advantage of every fraternity to see that the games begin promptly, especially during the first of the season when the days are short, he stated.

Paul Toolin will have charge of track, Richard Daland of tennis and Rolland Chandler swimming. These are the same men who had charge of these sports last year. The fraternity standings according to the intramural

Telephone men of today are extending the horizons of speech to points beyond the sea.

## New Worlds for Old

LIKE Galileo, every pioneer seeks to establish the era of "distance speech." new worlds. In the telephone industry this has led to discoveries of ways and means to better service. Telephone pioneers of yesterday hewed a way through intricacies of science, finance and business management to establish the era of "distance speech." Telephone pioneers of our own day imagined a 'cross-ocean service—and then made it.

Telephone pioneers of tomorrow will face the challenge of new and greater problems sure to arise.

### BELL SYSTEM

A nation-wide system of 18,500,000 inter-connecting telephones

"OUR PIONEERING WORK HAS JUST BEGUN"

## SKILL

THE twist of the wrist, the "throw" of the arm, the shifting of the weight—these are among the many little points which make the skill that you admire in the javelin thrower as he hurls the shaft two hundred feet or more.

As on the track or the football field, in the gymnasium or on the water, so in industry progress is the result of fine improvements—a thousandth of an inch here—a minute variation in a curve there—slight changes foreseen by engineers and carried out by skilled workmen.

It is this attention to detail that is constantly improving General Electric apparatus and contributing to the electrical industry, which, though still young, is already a dominant force, increasing profit and promoting success in every walk of life.

Whether you find this monogram on an electric refrigerator for the home or on a 200,000-horsepower turbine-generator for a power station, you can be sure that it stands for skilled engineering and high manufacturing quality.

### Major Pitz to Coach Tennis

Press of Duties Forces Dr. Howes to Resign Work

Schedule Calls for Five Varsity Meets—No Veterans Available for Team—To Discontinue Tennis Next Year

Tennis at the University got under way Monday with a new coach at the helm and a large but inexperienced squad at the first workout. The coach appointed this year is Major Hugo E. Pitz, commandant of the military department and an amateur player of note. Major Pitz succeeds Doctor Horace A. Howes, who was forced to relinquish the work by the press of his duties as head of the Department of Physics.

Tennis as a sport will be discontinued by the University at the end of the present season because of lack of proper facilities for developing a team, but the schedule arranged by Manager Henry Hill of Needham, Mass., will be played out as announced. The first meet will come at Riverside on May 3 when the Wildcats will face Boston University. A meet for May 5 is pending and on May 9 the second team will face the Exeter Academy team. Clark University comes to Durham May 12 for the third varsity match and the New Hampshire men will face Bates here a

### HONOR STUDENTS IN ENGLISH ANNOUNCED

Freshman Reading Course Completed by 317 Students—Dorothy Nulsen and Elizabeth Rand Lead With Average of 94%

Of the 317 students who during the winter term finished the course in English Reading required for freshmen in the College of Liberal Arts, Mrs. Dorothy Nulsen of Durham led by a fraction of a point over Elizabeth Rand of Exeter. As the grades are recorded in whole numbers, both received marks of 94%. Eleven students in the subject earned grades of ninety or more in the second team as compared with ten in the first term. There were twenty failures.

Those who made ninety or better in the course were: Dorothy Nulsen of Durham, Elizabeth Rand of Exeter, Yvonne Beaudry of Claremont, George Cook of Fairhaven, Mass., Monroe Walker of Chelmsford, Mass., Elsie Nightingale of Plainfield, Conn., Evelyn Otis of Farmington, Yvette Menard of Somersworth, Pauline Winner of Quincy, Mass., Margaret MacDanolds of North Haverhill, and Donald Perkins of Sunapee.

week later on May 18. The two final meets of the year will take place here on May 19 and 26 when the New Hampshire men will face Boston College and Colby respectively.

The five men awarded letters on last year's team were all veterans and members of the senior class and all have been lost since by graduation so that it was impossible to elect a captain or make any sort of reliable predictions as to this year's team. It seems safe to predict, however, that Clifford James of Everett, Mass., a substitute on last year's team, and Ronald Tetley of Laconia, speed skating star, and winner of the University singles tournament last fall, will make places on the aggregation. Other men who have been showing up well on the courts for the past two weeks are Jack Adams of Somersworth and Frank Silvia of Middleboro, Mass.

### West Virginia Banned by N. C. A.

Accused of Renumerating Members of Football Team

Censured Year Ago for Athletic Methods by Association—Action Against West Virginia Most Drastic Ever Taken

Morgantown, W. Va. (by New Service)—The University of West Virginia has been expelled from membership in the North Central Association of Colleges and Secondary Schools, for paying athletes and failing to audit its athletic funds. Specifically, it has been charged with paying members of the football squad.

The organization, which met last week in Chicago, comprises 251 colleges. Its action against West Virginia was the most drastic it ever has taken. The southern institution, which was granted membership two years ago, was censured last year for its athletic methods. It was ordered to clean up or get out. Its representatives tried to stave off action at the latest conference by offering to make a change in policy, but its promise of reform came too late.

Charges were filed by the executive committee, of which Dr. George F. Zook, president of the University of Akron, is chairman. Inadequate supervision of athletic funds and proselyting by alumni were charged in the indictment. The executive committee insisted that the academic, health and character interests of student bodies should rank first. It recommended firm opposition to payment of money to athletes, and the abolition of free training tables. Solicitation of prospective athletes by coaches through promises of money compensation was denounced also. Alumni of the University of West Virginia are charged with having established a fund with which to induce athletes to attend the University.

The conference also recommended that each school's athletic policy should be controlled by the faculty. It proposed that coaches be put on the same basis as other members of the faculty, both in relation to tenure of office, and salary. Coordination of athletic and general educational problems was given as the aim of the association by its president, Dr. H. M. Gage, president of Coe College.

### ONE DISH MEALS CAN SAVE LABOR

Properly Balanced With Salad, Bread and Dessert. They Also Improve Diet, Says Extension Worker

Unless a woman really likes to wash dishes,—and cooking dishes at that—she will probably seize with joy the one-dish meal project which is being promoted by the University of New Hampshire Extension Service. Miss Louise R. Whitcomb, nutrition specialist, states that the method can save the average housewife at least half an hour's time.

"There is less preparation and watching while the food cooks," she says. "Once in the oven these combination dishes take care of themselves until it is time to serve them direct to the table in the baking dish or casserole itself. Furthermore, they are economical, using less expensive cuts of meats with the long slow cooking. One of their best features is that they introduce into the diet more vegetables which are a safeguard to the family's health. To make a well balanced meal the only additions usually necessary are a salad or cole slaw, a dark bread and a simple dessert."

A circular giving thirty recipes recommended for one-dish meals has just been issued by the Extension Service, and will be sent on request.

### LIBRARY NOTES

April's Library Lantern names several new books that have been recently added to the Library. Of special interest are the new French books, "L'Otage," "L'Annonce Faite A Marie," "Le Pain Dur," by Paul Claudel; "Le Phalene," by Henry Bataille; "L'Envers D'Une Sainte Les Fossiles," "L'Invitee;" "La Nouvelle Idole," by Francois de Curel; "Sept Dialogues De Betes;" "Les Vrilles De La Vigne," by Colette; and "Le Coeur Innombrable," by Comtesse de Noailles. These books will be very valuable and entertaining for both French people and students in French.

Lovers of Eugene O'Neill's plays will be pleased to find his latest play "Strange Interlude" among the new books.

In the field of biography, "Disraeli" by Andre Maurois is especially worthwhile. This book is very valuable and readable.

Probably the most unique of the books is a geography of American Antiques. Lovers of old furniture will be enthusiastic about this book. Each American Colony has a chapter devoted to its own specialties in furnishings. The New Hampshire pages are devoted to pottery and porcelain.

The principle book of fiction recently added to the Library is "Winter-moon" by Hugh Walpole. This is Mr. Walpole's latest novel and well worth reading.

Durham's First Four Cylinder Ford with its owner, Dean F. W. Taylor

### New Ford Makes Sensational Trip to Mountains in Four Days, 1908

By E. B. B., '29

A vague rumble, a few groans, one or two chugs for good measure, and one of Durham's pioneer Fords is on its first journey to the mountains. In June, 1908, Dean F. W. Taylor, Mrs. Taylor, and their son Ralph, owners of the first four-cylinder car in this town, began their memorable four-day initial trip to Crawford Notch. The same distance that they covered at that time can be done easily now in a day.

The entire family went vented their several types of eloquence at two successive blowouts, the somewhat mutilated vehicle finished its first day's lap at Wolfeboro.

Here both the family and the car recuperated, and Dean Taylor telephoned to Dover for a new supply of tires. Newly equipped, the journey was continued on the second day. This time the Flume House proved to be the destination at the Franconia Notch. Dean Taylor admitted that here he made the fatal error of supposing that his car would run solely with its own exuberance of spirit, without the more material aid of the ordinary fuel—gasoline. He walked three long miles to North Woodstock for a supply, the eternal red filling station around every bed being more of a hope than a reality to him at the time.

The third day saw them safely at their destination, Crawford Notch. The idea of this trip taking three days seems to us a sort of legend, but people took it for granted then and saw nothing odd in it, according to Dean Taylor. Not only the car, but the roads as well combined to make it more of an adventure than blasé citizens are apt to regard it now.

At Crawford Notch, the car apparently balked at the incline to the base station of Mt. Washington, and the engine steamed so that the travelers found it advisable as well as safe to let it rest for a few hours. The fourth day they reached home, feeling they had had the ordinary share of trouble that pursues the adventurer in a "model S" early Ford. Dean Taylor bought the car in September, 1907, for \$750. It was the predecessor of the "model T" Ford, of which hay had been sold, and which preceded the present model of Ford. It was the first four-cylinder car

in Durham, and the third of all the cars here. A. W. Griffiths, of Packer's Falls at this time owned a one-cylinder Olds, really the first car, and President William D. Gibbs of the University had a two-cylinder Ford. These, presumably, were the forerunners of such vehicles as the "May-flower," "Leapin' Lena," and other tottering but stubborn specimens of the motor art which have been so ruthlessly cast out from the campus.

Dean Taylor's car had no head lights, being equipped only with two side oil lamps. It had no battery, dry cells being used for ignition purposes. Altogether, it seems rather a crippled means of conveyance to us in the modern sense of taking complete equipment for granted, but considering the fact that the populace expected less and was more satisfied, it ranked with the best, as "flivvers" always have from time immemorial. It had the unique feature of a box on the back which Dean Taylor built to accommodate the youngest member of his family. The tires were 3 by 28 inches, cost \$26, and were good for a distance of 2,000 miles on the average, as Dean Taylor learned to his deep disgust at Wolfeboro. However, he drove the car for 12,000 miles in five years. He eventually sold it to Tinker Prescott, former plumber in Durham, and bought one of the famed "model T" Fords.

In trying to trace the history of his earlier car, the best that we can learn of it is that it has gone to the heaven where all good Fords go that have gasped their last gasp.

### INTRAMURAL SPORTS PROGRAM PLANNED

(Continued from Page 3)

sport system have been completed to date and are as follows:

W. R. OVERHOLT, Contract Administration, Ohio Northern, '08

### The San Francisco Ferries

Where do young college men get in a large industrial organization? Have they opportunity to exercise creative talent? Is individual work recognized?

SAN FRANCISCO now has the finest ferry fleet in all the world. Recently there were added to it four Golden Gate Diesel-electric auto ferries; one Southern Pacific Diesel-electric auto ferry; one Northwestern Pacific Diesel-electric auto ferry; and the Key Sys-

tem's two electric-drive giants—the largest passenger ferries ever built. These modern steel boats—all Westinghouse-equipped—give to the Bay cities a ferry service unsurpassed for speed and safety, cleanliness and comfort.

The big jobs go to big organizations. Westinghouse attracts young men of enterprise and genius because it daily provides opportunities for pioneering and

outstanding work which smaller companies can seldom offer.

The Key System ferries are each equipped with two 2,250-shp. Westinghouse main propulsion motors; one 1,900-kilowatt Westinghouse generator; and one 3,010-hp. Westinghouse-Parsons turbine. The Southern Pacific, Northwestern Pacific, and Golden Gate boats likewise have Westinghouse propelling motors and generators. Auxiliary units, such as motor-drive pumps and steering apparatus, are Westinghouse on all these ferries.

# Westinghouse

## Fleming Heads Mask and Dagger

### Dramatic Society Elects Officers and Members

Ralph Garlock Elected Vice-President, Gertrude Nye Secretary, Gilbert Reed Technical Director, Frederic Smith Science Artist, William Colby Senior Electrician and Edith Lundstrom Musical Director

Mask and Dagger, University dramatic society, elected John D. Fleming, '29, president for the coming year at the first meeting this term held last week. Fleming succeeds William L. Hoagland, '28, whose term of office expired at the end of the recent winter term. Other officers elected for the year are, Ralph Garlock, '29, vice-president; Gertrude Nye, secretary; Gilbert Reed, '29, technical director; Frederic Smith, scenic artist; William Colby, '29, senior electrician; and Edith Lundstrom, '30, musical director.

Fleming is editor of the New Hampshire and completed his term as vice-president of Mask and Dagger last term. He recently was elected to Senior Skulls, honorary senior society, and is a member of the Kappa Sigma fraternity. While in college Fleming has been prominent on the University stage, having played parts in "The Merchant of Venice," "The Whole Town's Talking," "She Stoops to Conquer," "Seven Chances," and "Dear Frutus."

At the election meeting, in addition to selecting officers for the coming year, the society ratified the choice of "Adam and Eva" by Guy Bolton and George Middleton as the spring term play and elected new members who had completed the eligibility requirements. These are Dorothy Jones, '30, William Nelson, '30, Dorothy Davis, '28, Richard Daland, '28, Charlotte Hirschner, '29, Lyle Farrell, '29, Clinton Mason, '30, Harold Robinson, '30, Frederick Gardner, '30, Eunice Wilson, '30, Eleanor Harris, '29, and Joseph Terry, '30.

### Y. M. C. A. NOTES

Sunday evening, April 22, there will be a general meeting of the Y. M. C. A. in the Organization Room of the Commons. The speaker is unknown at present.

On April 20 there will be a picture given in the Big Gym at 7 o'clock. Title, Don Q. Son of Zorro, with Douglas Fairbanks. There will also be vaudeville. Admission 25c. The proceeds will be given to the Y. M. C. A.

Mr. W. H. McCance, of New York City; recently of India, will speak at a joint meeting of the Y. W. C. A. and Y. M. C. A. at seven o'clock, Monday, April 16, in the Commons Club Room on "Attitudes and Opportunities in Modern India."

This week-end the Y. W. C. A. is holding its spring retreat at the Highland Farm for cabinet and committee members and others interested, in order to plan the spring work and plan for the summer conference. About twenty girls will make the trip.

On April 17 Miss Oril Henthorne will meet with High School Club Girls at Concord. The subject will be, "Youth Wants to Live Bravely, Fully and Colorfully." Miss Henthorne will also go to the University of Maine April 18-19 to meet in conference and speak on "Social Relations on Campus."

A deputation team will go to North Conway on this coming Saturday and stay over Sunday. The team consists of Ned Elliott, William Vacilos Vecilou, Margaret Dicy, and Carrol Rudd.

April 29 there will be two deputation teams at work. One will go to Newmarket and the other will go to Bristol. The Bristol team will consist of Clifford Ellis, Malcolm Conant, Danforth Googins, and Tom Brownlow. The Newmarket team has not been made up as yet.

Ballot, Y. M. C. A., April, 1928. For president, Warren Gee; vice-president, Harlan McIntire, Allan Skoog; secretary, Edward P. Strobbridge, Brownlow Thompson, Floyd Willey, Leslie Potts, Clifford Ellis; treasurer, Clifford Ellis, Harlan McIntire, Frank Rogers. Other names may be added to the ballot and voted for.

### COMPETITORS FOR JUNIOR ASTRONOMER FILE BY 28TH

Applications for junior astronomer must be on file with the Civil Service Commission at Washington, D. C., not later than April 28, according to word received from the United States Civil Service Commission. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications.

The examination is to fill vacancies in the Naval Observatory and Nautical Almanac Office, Navy Department, Washington, D. C., and vacancies occurring in positions requiring similar qualifications.

The entrance salary is \$1,860 a year. A probationary period of six months is required; advancement after that depends upon individual efficiency, increased usefulness, and the occurrence of vacancies in higher positions. The Navy Department states that for this position in the Naval Observatory men are desired.

## APPLE TREE TAKES 47 MINUTES' CARE

And Another Hour to Harvest Its Fruit, Finds Time Study by New Hampshire Station

It took one hour and forty-seven minutes to care for the average apple tree and harvest its fruit according to time studies taken for one year in ten commercial orchards in New Hampshire by the University Agricultural Experiment Station.

The orchards varied in size from 565 to 3100 bearing trees with a total of 13,650 trees and a harvest of 36,000 boxes. Most of the trees are not yet in full bearing, but are believed to be typical of commercial conditions in this section.

One hour of the total time per tree was devoted to the picking and hauling the apples. Pruning requires an average of 11 minutes; brush disposal, 4 minutes; spraying, 9 minutes; fertilizing, 2 minutes; culture (in most instances sod mulch) 10 minutes; setting and resetting, 1 minute; protection, 1 1/2 minutes; thinning, 4 minutes; propping, 1 1/2 minutes; miscellaneous, 2 1/2 minutes. Only a few of the trees were tilled, and these required much more time than the others.

In considering the time by months and using a weighted average of the requirements per tree, Professors H. C. Woodworth and G. F. Potter, who conducted the studies, found that a block of 1000 trees took 190 man hours in April, 144 hours in May, 130 hours in June, 87 hours in July, 108 hours in August, 328 hours in September, 609 hours in October, 92 hours in November, 3 hours in December, 5 hours in January, 11 hours in February and 83 hours in March.

The figures suggest that, as far as time required is concerned, a 1000-tree orchard as now operated may well be considered a minimum unit for specialized fruit farms.

## FRESHMAN BASEBALL SQUAD CALLED OUT

Large Number of Candidates Respond to Call—Batteries Addressed by President Lewis—Yearlings Face Hard Schedule

The Freshman baseball squad, numbering in the vicinity of sixty candidates, has been working out for the past week under the direction of Coach Ernest Christensen. When his duties permit Athletic Director William H. Cowell will assist in coaching. Thus far the practices have been held in front of Demerit Hall, but it is expected that the freshman baseball field will be in condition soon.

The Yearling batteries have been working out daily and last Monday evening joined the varsity batteries in attending a lecture by President Edward M. Lewis, who played major league ball after leaving college. The large number of infield and outfield candidates has been receiving less individual attention, but the first cut, which is expected soon, will reduce the squad to a more convenient size.

A very hard schedule confronts the 1931 team, with the first game slated for May 3 with Pinkerton. The schedule contains such strong prep schools as Clark and Tilton as well as the Maine B. U., and B. C. Frosh, and Wentworth Institute.

### THREE JUDGES CHOSEN FOR INTERCOLLEGIATE CONTEST

Three judges for the Intercollegiate short-story contest have been chosen according to Dr. Alfred E. Richards. They are Professor H. T. Baker of Goucher College, Baltimore, Maryland; Professor Alexander Cowie of Wesslyn University; and Thornton Wilder, author of "The Bridge of San Luis Rey" and "The Cabala."

The institutions participating are the Universities of Maine, New Hampshire, and Vermont and decisions in three branches of the contest which also includes competition in the field of the informal essay and poetry.

### DOCTOR FRANKLIN SPEAKS AT PHI SIGMA INITIATION

The Phi Sigma initiation and banquet is to be held April 12 at 7:00 o'clock in the Commons Building. Dr. William Franklin of Massachusetts Institute of Technology will be the speaker of the evening.

The Initiates are as follows: Liberal Arts College: Alice Burnham '28, Doris Roney '28, Ruth Gove '28, Isabel Africa '28, Anna Philbrook '28, Elizabeth Redden '28, Ervill Stoddard '28; Technology: Alice Watson '28, Ira Gove '28, John F. Stevens '28; Agriculture: Charles Meloon '28.

Competitors will be rated on mathematics including algebra, geometry, trigonometry, plane analytics, calculus, and mechanics; elementary questions in general and spherical astronomy and related branches of physics; and practical computations including the use of logarithms.

Full information may be obtained from the United States Civil Service Commission at Washington, D. C., or the secretary of the United States civil service board of examiners at the post office or customhouse in any city.

## Schedules Made for Spring Term

### Varsity Second Team to Play Seconds of Harvard

Freshmen to Play Boston College For First Time—Games Arranged With Old Rivals, Maine and Clark School

With the varsity and freshman baseball teams well under way in their early season practice, Coach Ernest Christensen of the second team has announced schedules for the freshman and varsity second teams both of which provide plenty of action for the Wildcat minor nines.

In the ten game schedule for the freshmen two newcomers who boast habitually strong teams are Boston University and Boston College. The New Hampshire yearlings will play the former team here and the latter in Newton at University Heights. A third newcomer on the New Hampshire schedule is Newburyport high school which will wind up the freshman season here on June 9 in order that the yearlings will have time to give their undivided attention to the final examinations. These games to-

gether with the teams of such old rivals of the Blue and White freshman teams as the University of Maine and Clark School coached by Robert Nicora, former New Hampshire baseball captain and three letter man give the New Hampshire yearlings a hard and interesting list of contests.

A feature game of the varsity team will be the battle staged for Cambridge on May 14 with the Harvard second team. Other important games on the list are those with the Bowdoin second team and Phillips Andover Academy which the scrubs also played last spring.

The schedules announced were:

- VARSITY SECONDS**  
 May 7 Bowdoin Seconds, Durham.  
 May 14 Harvard Seconds, Cambridge.  
 May 17 St. John's Prep, Danvers.  
 May 25 New Hampton, New Hampton.  
 June 2 St. Anselm's Prep, Manchester.  
 June 6 Andover Academy, Andover.
- FRESHMEN**  
 May 3 Pinkerton Academy, Durham.  
 May 9 Dover High, Durham.  
 May 11 Tilton School, Tilton.  
 May 12 Clark School, Hanover.  
 May 18 Maine Frosh, Durham.  
 May 19 B. U. Frosh, Durham.  
 May 25 Wentworth Institute, Boston.  
 May 26 B. C. Frosh, Boston.  
 June 2 Proctor Academy, Durham.  
 June 9 Newburyport High, Durham.

### PLEDGING NOTICE

Delta Sigma Chi announces the pledging of Leon Sawyer, '30, of Wilmet, New Hampshire.

### FROM OUR MAIL BOX (Continued from Page 2)

Because of the great number who desire to play, and the limited opportunity, a sort of custom has grown up which states that doubles must be played, that only one set can be played and that no deuce sets can be played to completion. One often waits from an hour to two hours for the opportunity of playing fifteen to twenty minutes on a court which never appears to have known decent care.

One often hears complaints from the athletic department to the effect that they have so little money to spend in comparison with other institutions. Yes, but it is doubtful if there is a high school in Shady-rille or in Pumpkin Center, South Oshkosh which hasn't at least two

or more tennis courts for its students to play on.

From time to time during my sojourn at this institution I have heard rumors that new tennis courts were to be built back of the Gym, back of the Post Office and in various other spots. These have never been anything except rumors. They have never had the slightest appearance of materializing.

Seniors in school tell of the fact that it was four years from the time the lower tennis court at the Barracks was started until the time it was finished. FOUR years to build one tennis court. During that time the University grew by leaps and bounds, but the athletic department evidently thinks that it has done their duty for another ten years.

### Sophomore Hop Plans Complete

#### Class of 1930 Presents Semi-Formal Dance Friday

Music by Jack Brown's Orchestra of Boston—Men's Gymnasium Specially Decorated—First Major Social Event of Term

At a meeting of the Sophomore Hop Committee held Monday night, final plans were made for the annual dance to be held at the Men's Gymnasium on Friday evening. Work on the decorations, under the direction of Miss Ruth Stolworthy and Robert Leitch, will begin Thursday. As planned, the decoration of the gymnasium will be a departure from those usually employed. A false ceiling of light blue crepe paper stretched across wires from one side of the building to the other, will be the main feature; while the sides will be decorated with arches and trellis work extending from the floor to the balcony. Behind these arches and the trellis work will be placed chairs for the convenience of the dancers.

The music is to be furnished by Jack Brown's orchestra from Boston. Mr. Brown, the leader of this orchestra, was formerly a student at Harvard University, where he led an orchestra composed of students. After his graduation from Harvard, Mr. Brown disbanded his team with the intention of going into business. However, so well known was his name as the leader of a college orchestra, that he soon re-organized his band to comply with the demands for his music. In this way, students attending the Hop will listen to music that will be in keeping with the atmosphere of a college dance.

This dance, the first major social event of this term, will be semi-formal. Tickets at two dollars a couple are for sale at Ben Hill's, Gorman's, and the University Book Store, as well as in the various fraternity houses.

The Chairman of this committee is Kenneth Robinson, who has been aided in the work of planning the dance by Miss Anna King, Miss Miriam Neilly, Miss Winnifred Ham, Miss Ruth Stolworthy, Robert Leitch, George Hadley, and Frank Rogers.

### Changes Announced In Coaching Staff

Christensen to Take Freshman Baseball in Place of "Eddie" O'Connor—Major Pitz Gets Tennis—Marsh to Help Sweet and Kelsea

Freshman baseball at the University will be coached by Ernest Christensen, former pitcher at the state university, according to an announcement concerning several important coaching decisions made by Director of Athletics William H. Cowell, here last week. Christensen, varsity hockey coach and line coach in football, will replace "Eddie" O'Connor, former New Hampshire star, whose recent sale by the Salem Club of the New England league to Pittsfield of the Eastern league makes coaching impossible for him this spring.

Another important change in the schedule of coaches is the appointment of Trainer "Bill" Marsh, former nationally known professional track star, to assist Coach Paul Sweet with the weight men and thus relieve the New Hampshire mentor of some of the burdens entailed in his work this spring with a squad of nearly two hundred men, the largest ever to report for track at the Granite state university. Director Cowell announced that Oscar Kelsea, a three letter man who graduated last year and has just concluded his work as coach of the freshman basketball team, will assist Coach Sweet with the tracksters. Captain Paul Toolin of Leominster, Mass., star hurdler, is also expected to render valuable assistance in developing the many candidates for berths on the Wildcat speed aggregation. Major Hugo E. Pitz will replace Doctor Horace Howes as coach of varsity tennis.

When press of his other duties permit Director Cowell will assist Coach Christensen with the yearling ball-tossers and both will cooperate with Head Coach Henry Swasey of the varsity nine. Director Cowell handled the varsity team up to 1921 when the press of his other duties required his relinquishing the work as he was also obliged to do with varsity basketball which he turned over to an assistant this winter. He still retains his duties as head coach of the varsity football team, however.

#### HALF HOLIDAY FAVORED AT STUDENT COUNCIL MEETING

The Student Council at its last meeting voted to go on record as being in favor of making the Saturday following Junior Prom a half-holiday.

A request has already been drawn up and presented to Dean Morse for his approval, according to C. Ned Elliott '28 president of the organization, who presented the request.

### Extension of College Forensics Planned to Meet Growing Demand

College forensics are becoming an important phase of student life and the courses offered may be broadened during the ensuing year, according to Mr. Edmund Cortez, director of Debating. The value of speaking with poise, of presenting opinions clearly and of considering both sides of a question with broadmindedness, is an indispensable asset in the professional or business world, which is easily recognized by the student. Added to the development of his reasoning powers, the student derives real enjoyment from the classroom debates.

The courses offered at the present time are Argumentation and Debating, a related course in logic offered by Dr. Rudd, and an inter-collegiate debating course for those interested in varsity teams. A new course is proposed for certain freshmen students in addition to advanced courses and public speaking, but this will not be available until the administration feels that it can be offered. However, every effort is being made to improve and broaden the curricula offerings and the activities of the Department. Plans for next year's debating teams are now going forward and are to include four varsity teams, two for men and two for women. The work of these teams will begin late in the fall term, to be concluded at the close of the winter term. Sophomores, juniors and seniors are eligible and may apply at any time at Mr. Cortez's office, 113B Murkland Hall.

An important phase of interscholastic forensics are the interscholastic debates and prize-speaking contests. This work reaches all the accredited high schools in the state that are willing to join the Interscholastic League. This year twenty-four high schools took part in debating and fourteen in prize-speaking. The results attained were so satisfactory that next year the number of schools to join may be doubled, it was learned recently.

### To Drop Tennis And Soccer Here

#### Lack of Facilities Make Drastic Change Necessary

Winter Sports, Boxing and Hockey Retained—Men in These Sports Will Receive Letters and Sweaters in Future

Tennis and Soccer will be indefinitely discontinued as varsity sports at the University according to an announcement made by Director of Athletics William H. Cowell here last week. Cramped facilities and the impossibility of maintaining a sufficiently large coaching staff at the present time make the dropping of these sports imperative according to the Athletic Department announcement.

Up to 1924 there were only five varsity sports at the Granite state institution, but tennis, winter sports boxing, hockey, and soccer were added to the football, basketball, track, cross-country and basketball teams already maintained at that time. The present change will make it possible for the Athletic Department to carry boxing, winter sports and hockey as full major sports and to award sweaters as well as letters in these sports, whose budgets will be somewhat increased.

The present schedule of tennis for the spring term will be played through, but no new arrangements will be made for a year or two at least. There are only two tennis courts available to the men's Athletic Department at present, the remainder of the courts available to the campus belonging to the faculty, women students or fraternities. On the two available courts the coaches have been obliged to carry on a dozen classes in physical education tennis as well as varsity practice and matches. A similar condition is true in soccer, which team has been obliged to use one of the practice football fields in the fall thus badly cramping matters. The reason for these conditions is due, according to Director Cowell, to the rapid increase in the size of the student body which the physical plant has not quite kept up with.

#### FRENCH DEPARTMENT GIVES NEW TWO UNIT TERM COURSE

This term the French department is giving a new course, a series of lectures on French life and literature by Mr. Grigaud. The course is given twice a week and at the end of each lecture a quiz is given. It carries two units of credit and requires no preparation. Those who wish to register for the course must see either Dr. Allen or Mr. Grigaud. Next year Dr. Allen hopes to have the course given throughout the year.

#### DEMONSTRATION OFFERED DURING BETTER HOME WEEK

A Better Home Demonstration will be held on Tuesday, April 24, at the Community Church in connection with the observance throughout the country of National Better Home Week. The Demonstration is due to the cooperation of the Home Economics Department and the Durham Better Home branch of the National Association. Mrs. O. V. Henderson is the local chairman.

### Song-Book Now Ready to Print

#### Famous Songs of Other Colleges Included in Book

Prof. R. W. Manton and E. Y. Blewett Make Collection—3,000 Copies in Preparation—On Sale Near Middle of May

The new University of New Hampshire Song-Book, which is being prepared under the direction of Prof. Robert W. Manton and E. Y. Blewett, Alumni Secretary, is now ready for the press and will be on sale near the middle of May. It will be by far the best song-book yet published in this country, containing in addition to the usual song-book contents several new features. In order to have a great variety, only the best and most popular songs have been selected, thus making the book of high quality throughout.

The book will be of standard song-book size and will contain 56 numbers, covering approximately 112 pages. The cover is dark blue with "University of New Hampshire Song-Book" printed across the front in silver; underneath the title will be the University seal, also in silver. Silver lettering was chosen instead of white because it presents a richer and more lasting appearance.

In addition to all the New Hampshire songs there will be the famous songs of other colleges. There will also be a collection of the best folk songs and old favorites. For unusual features the book will contain groups of selected Negro Spirituals and English Sea Chanties.

The official date of publication is to be before Junior Prom week, as the book will make an excellent Prom gift, and it is hoped that many will take advantage of the opportunity. There will be 3,000 copies printed in the first edition, which should be enough to supply the campus and the alumni. The book is being printed by the E. C. Schirmer Music Co. of Boston, specialists in college song work. The cost of the book will probably be one dollar per copy.

### ELECT 11 SENIORS TO PHI KAPPA PHI

Annual Initiation and Banquet Will Be Held This Evening—Dr. William Franklin of M. I. T. Speaker

Dr. William Franklin of the Massachusetts Institute of Technology will address the University chapter of Phi Kappa Phi, the national honorary scholastic society, at the organization's annual initiation and banquet which will take place this evening at the University Commons building. Dr. Horace Howes of the University faculty, who was recently elected president of the local chapter, will preside at the dinner and at the initiation ceremony afterward.

Eleven seniors were elected to the organization at a meeting held early this week, according to Miss Elythe Tingley, secretary. These, together with the members of the organization who were elected at the end of the fall term, will all be initiated with Doctor Franklin present as the guest of honor.

The new members of the organization are: From the College of Agriculture, Charles Meloon; from the College of Technology, Alice Watson, Ira Gove, John F. Stevens; from the College of Liberal Arts, Alice Burnham, Doris Roney, Ruth Gove, Isabel Africa, Anna Philbrook, Emilia Stoddard, and Elizabeth Redden.

Election to Phi Kappa Phi constitutes the highest scholastic honor that a student can win at college. The organization corresponds in many state universities to the Phi Beta Kappa chapters of privately endowed institutions. The New Hampshire chapter holds three elections a year, one shortly after the opening of college and one each after the close of the fall and winter terms. Only seniors are eligible and only the highest fifteen per cent. of the class are elected. The next election will take place from the class of 1929 and will be held next fall.

#### SENIOR WOMEN ORGANIZE NEW HONORARY SOCIETY

The committee on student organizations has granted a petition for the formation on the campus of a new secret society, "Cap and Gown," an honorary senior society for women. Members are to be chosen from the women outstanding in campus activities at the end of their junior year. The president of the society is Priscilla Morris, vice-president Katherine Flanagan, secretary-treasurer, Margaret Flint.

The other charter members are: Dorothy Pray, Virginia McCrellis, Marjorie Allen, Anna Philbrook, Elsie Kennerson, Muriel Steves, Barbara Hoffses, Ruth Pushee, Evelyn Davis, Helen Abbott, Edna Batchelder, Jessie Daniels, Mildred Fifield, Ruth Gove, Kelsea Griffin, Ruth Hammond, Grace Lord, Beulah Merrill, Carolyn Woods, Dorothy Hoitt, Margaret Torrey, and Winifred Soderland. "Cap and Gown," as a local society, corresponds to "Mortar Board," a national honorary society for women.
