DURHAM, NH - More than six in ten Maine residents believe that former President Donald Trump will be convicted in at least one of the cases currently being brought against him, up from just over half who expected this in April. However, only one in five expect Trump will spend one or more days in prison. Majorities of state residents feel that Trump committed a crime in each of the four cases for which he has been indicted. A majority of Mainers believe that Hunter Biden has done something illegal and that he is receiving favorable treatment because he is Joe Biden's son.

Trump Investigations

Former President Donald Trump was recently indicted in a case concerning illegal interference with the 2020 presidential election in Georgia and over the past four months, has been indicted in three other cases. Sixty percent think that Trump definitely (46%) or probably (14%) committed a crime in a case concerning the mishandling of classified documents, 37% believe he probably (15%) or definitely (22%) did not commit a crime in this case, and 3% are unsure. Similar majorities believe that Trump definitely or probably committed a crime in the cases involving "hush money" payments to adult movie actress Stormy Daniels late in his 2016 presidential campaign (59%), that he tried to overturn the results of the 2020 election and aided the January 6th riot in Washington D.C. (58%), and that he illegally interfered with the 2020 presidential election in Georgia (58%).

Overall, nearly two-thirds (64%) of Mainers believe that Trump has committed a crime in at least one of the four investigations, up slightly from 60% in April. Almost all respondents say they have heard a lot or some about each of these cases.
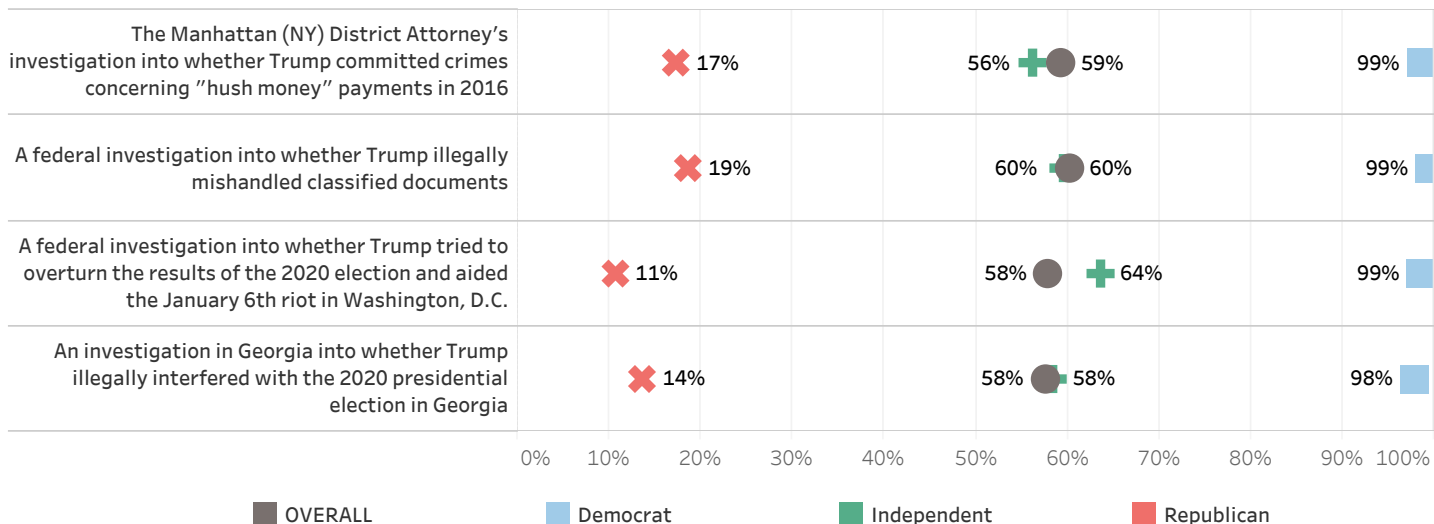

**Believe Trump Committed a Crime in Following Cases**

Pine Tree State Poll Methodology

These findings are based on the latest Pine Tree State Poll, conducted by the University of New Hampshire Survey Center. Five hundred fifty-five (555) Pine Tree State Panel members completed the survey online between August 17 and August 21, 2023. The margin of sampling error for the survey is +/- 4.2 percent. These MSE's have not been adjusted for design effect. The response rate for the August 2023 Pine Tree State Poll is 21%. The design effect for the survey is 2.5%.

Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the ME Secretary of State and to 2020 election results in Maine.

The Pine Tree State Panel is part of an effort by the University of New Hampshire Survey Center to investigate new ways of gathering and understanding the opinion of Maine residents. Approximately 2,750 Maine adults have been recruited from randomly-selected landline and cell phone numbers to participate in the panel. Panelists are then asked to participate in online surveys sponsored by the UNH Survey Center.

The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions. Due to rounding, percentages may not sum to 100%.
