Qualifications of Candidates For Presidential Nomination Set Forth By Campus Orators At Convocation

The students of the University of New Hampshire held a mock political convention for the purpose of organizing their efforts and discussing the candidates for the Intercollegiate Democratic Convention. The convention was held as a Procrustean element rather than as a Democratic or Republican participation. It was thought that the students at Keene could use such an event to discuss the issues of the campaign in a more accessible manner.

CONDUCT IN KEENE

The current military encampment of the student regiment, which is being held here in connection with the resident term, is in order to call for a word of caution on the part of the students. In no way do we mean to detract from the right of the students to have a good time. The only official publication which reaches all of the students in the city of Keene is taking this coming invasion of our very own campus. It is our duty to be good guests of the "city with the wide main street." The Tilton school nine defeated the New Hampshire frosh at Tilton last Friday in a close game by a score of 8 to 7. It was not until the tenth inning that the game was over, and the Tilton team carried off the win. According to the regular army instructors of the University who inspected it, it is admirable. The Tilton team is to be situated on a former country club site which is now used as an athletic field by the high school at Keene.
