S. A. E. HOUSE LEASED FOR NEW INFIRMARY

To Install Accommodations for Thiry-Five Patients; Dr. W. A. Peck Made Resignation

Raymond C. Magurn, Treasurer and Business Secretary of the University, has leased the present S. A. E. house at 191 High St. to the doctor's headquarters if it is needed.

The present infirmary is inadequate and the fund committee is prepared to give the new building if the doctor's headquarters is to be housed there.

Dr. Peck stated that the university would not require more than thirty-five patients and that the house would be arranged to accommodate forty patients. The rooming arrangements would be based on the income and the class of the patients.

The medical staff of the university consists of Dr. Peck, Dr. F. H. Ridgway, Dr. J. W. Rice, and Dr. E. F. Seabrooke, with the latter as assistant in charge.

The Infirmary is in a house that is almost a century old, a former residence of Mr. W. T. Andrews, the late mayor of Durham. The house was purchased as a residence by Dr. Peck for the use of the students of the Medical School.

The infirmary will be equipped with the latest surgical and medical apparatus and will have a complete staff of medical and surgical assistants.

Dr. Peck is expected to be in charge of the infirmary and will take charge of the medical care of the patients. The infirmary will be open at all times and will be available to patients at all times.

The infirmary will be open to all students and will be available to all students at all times. The infirmary will be open to all students and will be available to all students at all times.
SUPPORT THE FRESHMEN

The big game for the freshmen will be played on Memorial Day. The day's program will consist of sports and athletic events, and the New Hampshire fans will have an opportunity to attend the game that is being played in the neighboring town.

DOROTHY JONES SELECTED AS STAGE MANAGER FOR PLAY

The protagonist is Arthur Levy, an American physician and psychiatrist, who is well known for his work on the subject of the human mind.

The argument has been raised that there is no need for a Jewish mission in the Balkans with the three thousand years of the religion of rapture with the lands in the Balkans. The protagonist is Arthur Levy, an American physician and psychiatrist, who is well known for his work on the subject of the human mind.

Not many students are planning to attend the varsity football game for the freshman year. It seems as though they are all busy with their studies and interests, and not many are interested in football.
