

## The Pine Tree State Poll

April 25, 2024

### MOST MAINERS SAW THE SOLAR ECLIPSE, NEARLY ALL WHO TRAVELED SATISFIED

DURHAM, NH - One in five Mainers traveled outside of their town or city to view the April 8th solar eclipse. About two-thirds of state residents saw only a partial eclipse, but most who traveled to view the eclipse saw a total eclipse.

#### April Solar Eclipse

A solar eclipse passed over northern Maine on April 8th, giving Mainers a rare opportunity to see this phenomenon. Nineteen percent of Mainers traveled from their town or city to see the eclipse, 49% stayed home, but took time out of the day to see the eclipse, 23% did not purposefully take time out of the day, but saw at least some of the eclipse, 9% did not see the eclipse at all, and less than 1% don't know or can't remember.

Residents of Northern Maine are more likely than others to have traveled outside of their town or city to see the eclipse while Downeast/Coastal Maine residents are most likely to have not purposefully taken time to view the eclipse or not seen it at all.

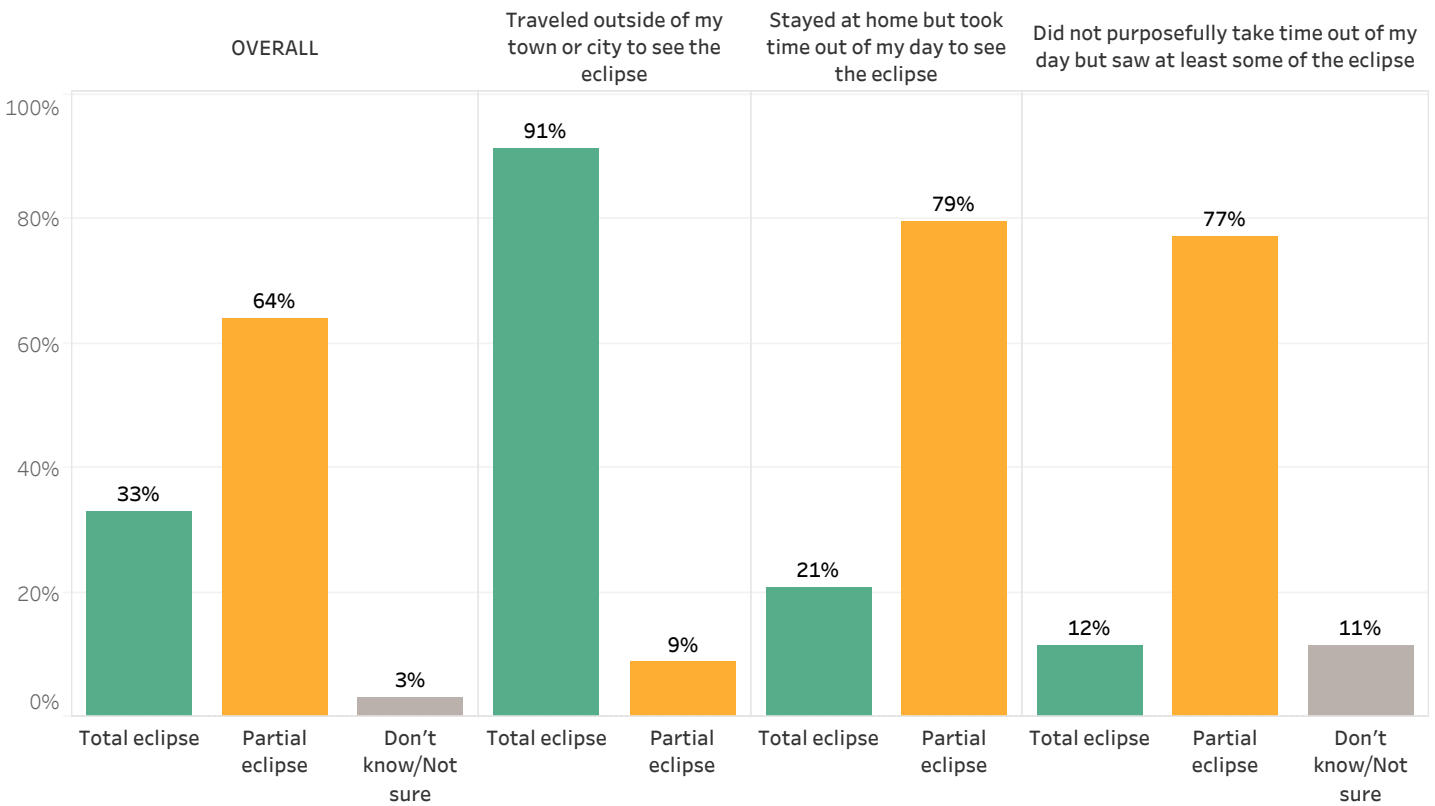

#### What Did You Do for April 8th Eclipse - April 2024

\* We ask that this copyrighted information be referred to as *the Pine Tree State Poll*, a States of Opinion Project, conducted by the University of New Hampshire Survey Center.

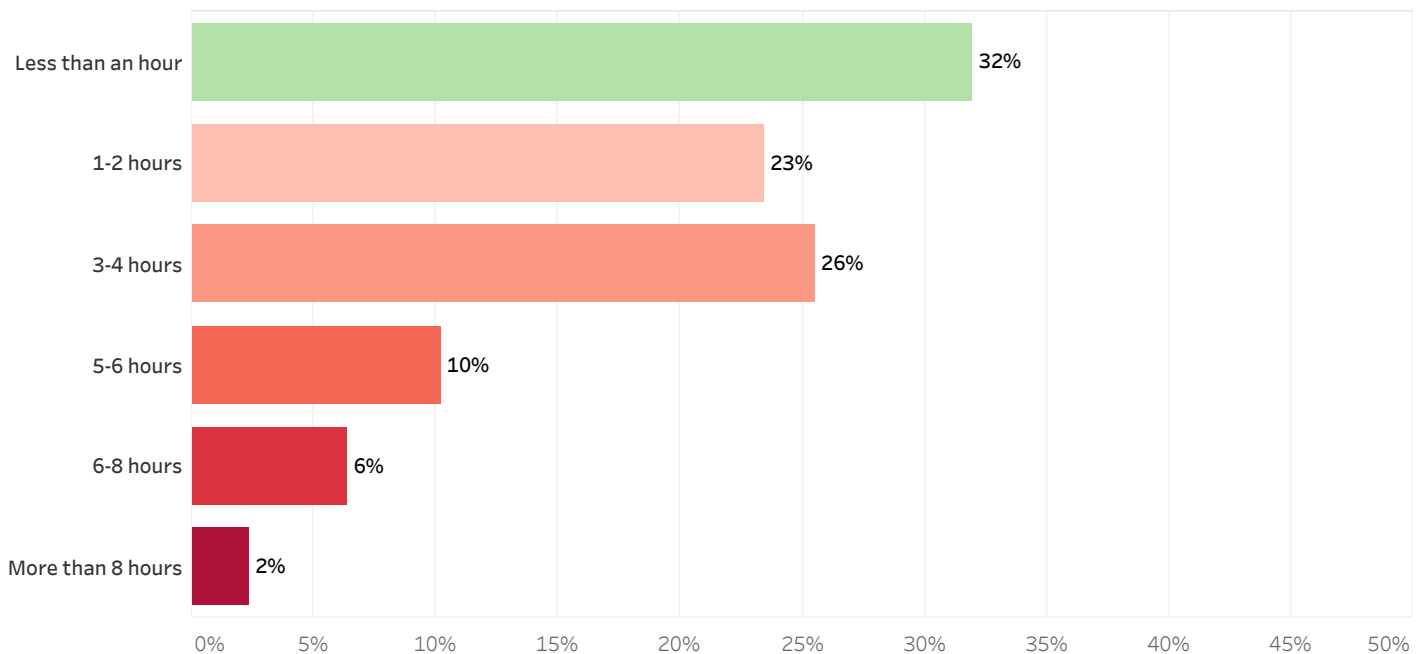

Some of the northern parts of the state experienced a total eclipse while the rest of the state experienced only a partial eclipse. Among those who saw at least some of the eclipse (N=722), 33% saw a total eclipse, 64% saw a partial eclipse, and 3% are unsure. Among those who traveled outside of their town or city to see the eclipse (N=151), 91% saw a total eclipse and 9% saw a partial eclipse. By contrast, 79% of those who stayed home but took time out of their day to see the eclipse and 77% of those who did not purposefully take time out of their day but saw at least some of the eclipse saw only a partial eclipse.

### Viewed Partial or Total Eclipse - By What Did for Eclipse - April 2024

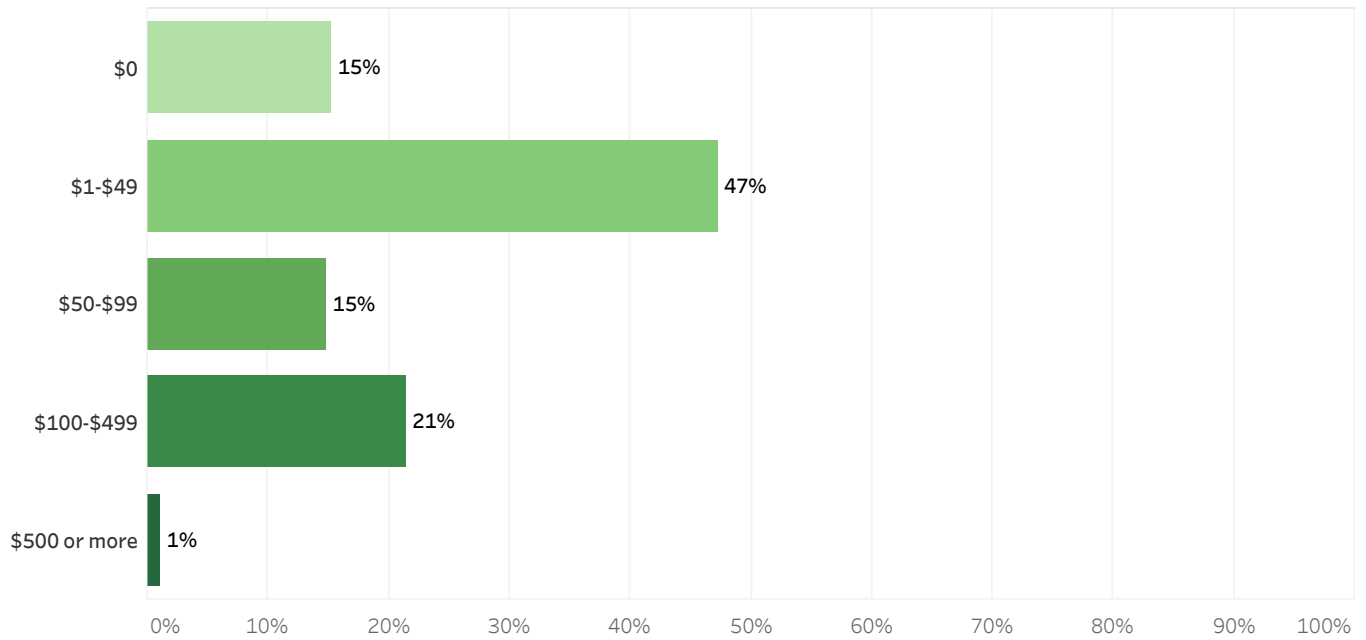

Among those who traveled to see the eclipse (N=151), 32% spent less than an hour in total traveling, 23% spent 1-2 hours, 26% traveled for 3-4 hours, 10% traveled for 5-6 hours, 6% traveled for 6-8 hours, and 2% spent more than 8 hours traveling.

### Total Time Spent Traveling on Eclipse Trip - April 2024

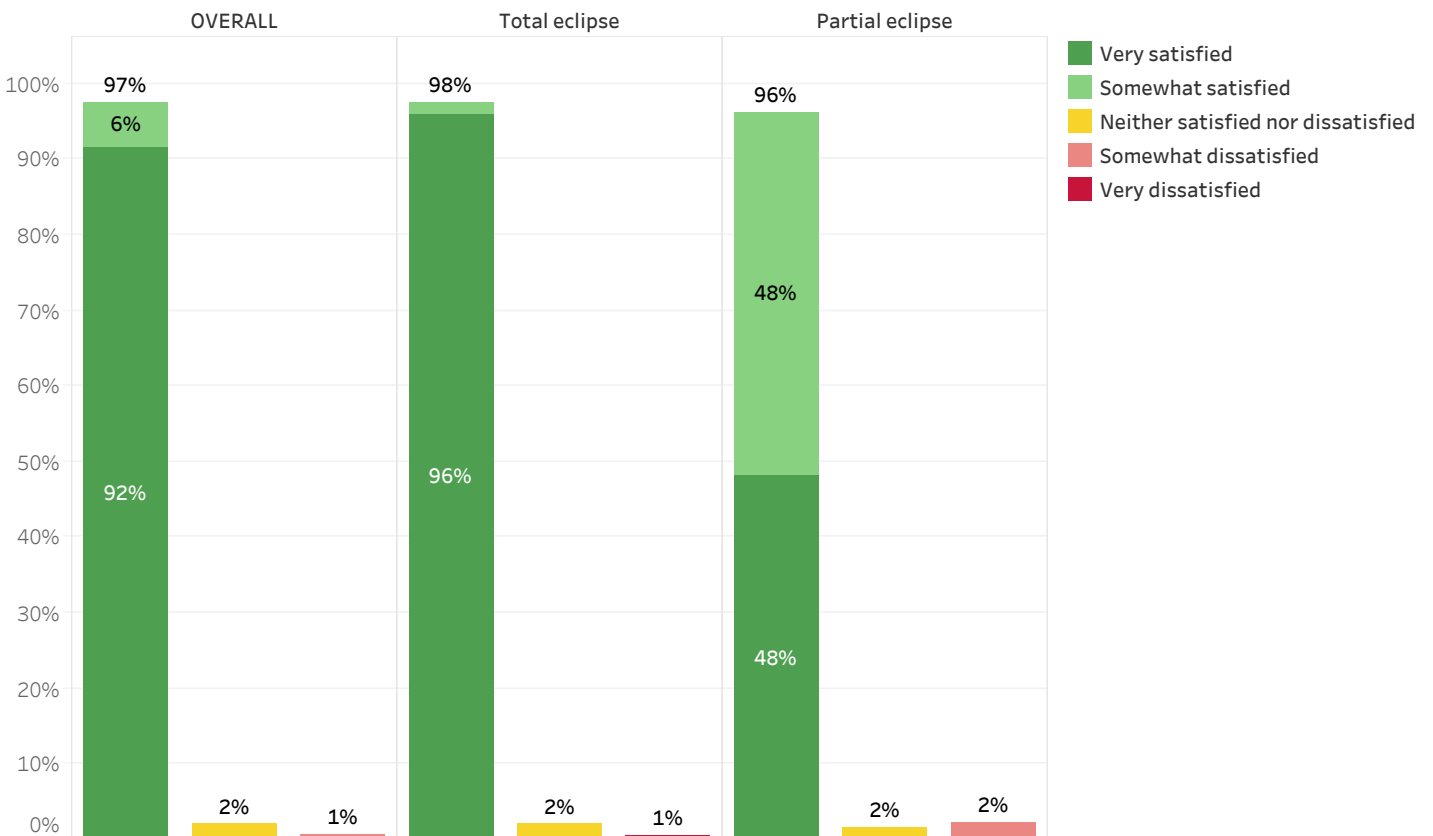

Among those who traveled outside of their town or city to see the eclipse, 15% say that they spent nothing on their trip to see the eclipse, 47% say that they spent between \$1 and \$49, 15% spent between \$50 and \$99, 21% spent between \$100 and \$499, and 1% spent \$500 or more. The median respondent reports spending \$13 in total.

**How Much Spent on Eclipse Trip - April 2024**

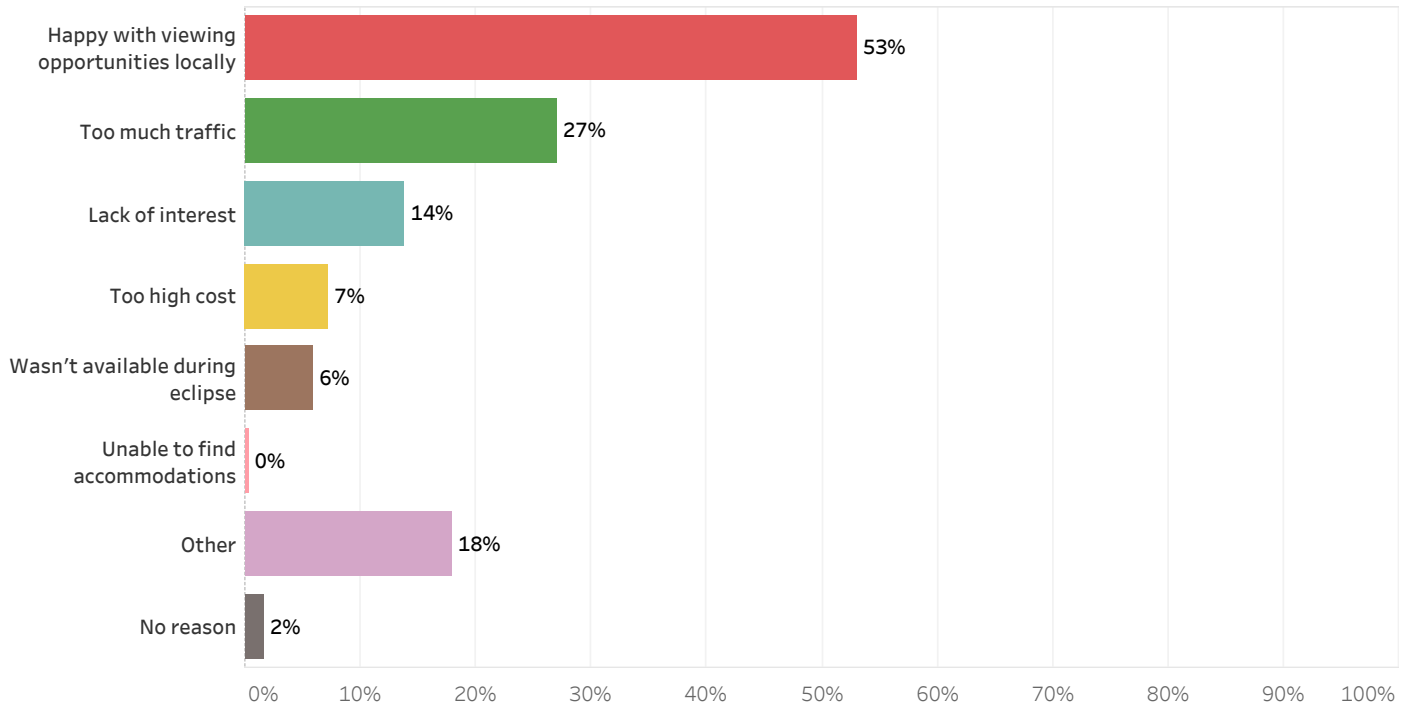

Among those who traveled outside of their town or city to see the eclipse, nearly all (97%) were very (92%) or somewhat (6%) satisfied with their trip, only 1% were dissatisfied, and 2% were neither satisfied nor dissatisfied. Ninety-six percent of those who traveled and saw a total eclipse were very satisfied with their trip, but only 48% who saw a partial eclipse were very satisfied.

**Overall Satisfaction with Eclipse Trip - By Seeing Total or Partial Eclipse - April 2024**

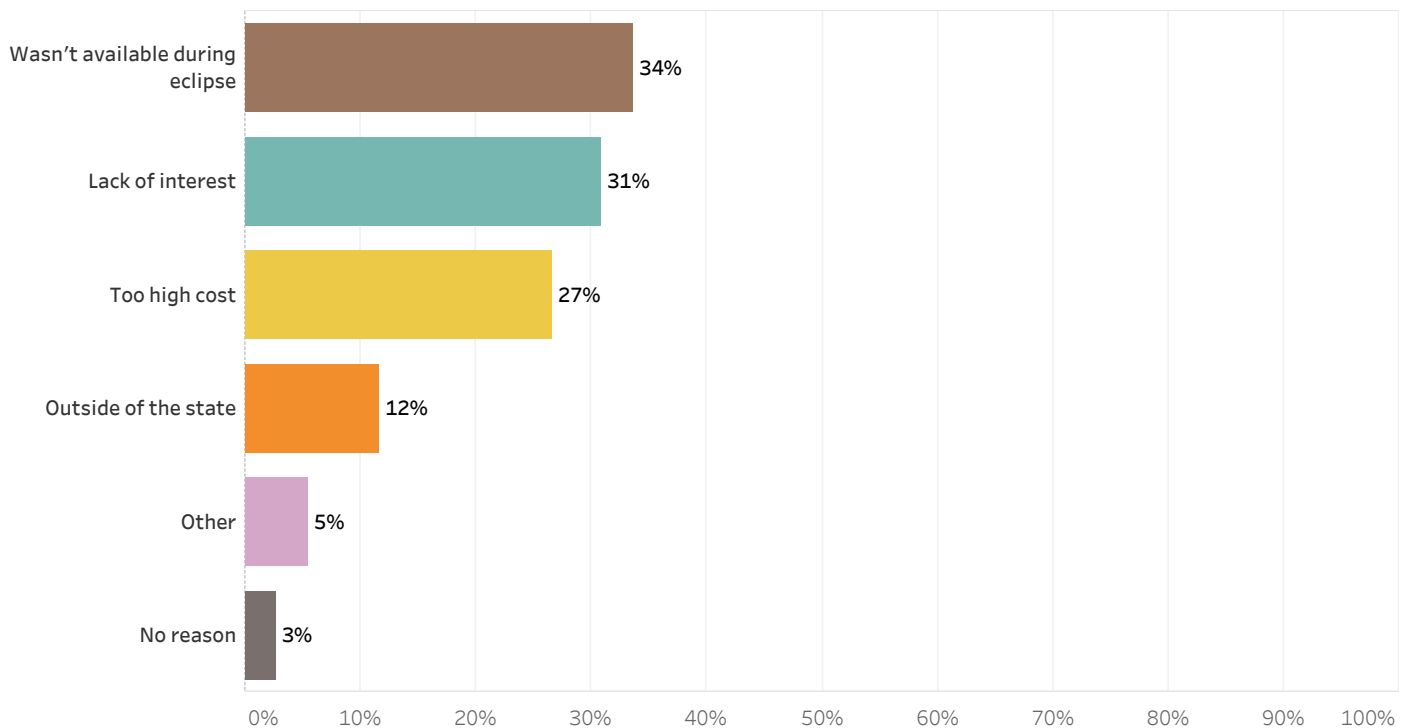

Among those who stayed at home but took time out of their day to see the eclipse (N=388), 53% say that they decided not to travel to see the eclipse because they were happy with their viewing opportunities locally, while 27% say that there was too much traffic. Smaller percentages didn't travel because of a lack of interest (14%), the cost being too high (7%), not being available during the eclipse (6%), or being unable to find accommodations (<1%).

**Why Decided Not to Travel to View Eclipse - April 2024**

Among those who did not purposefully take time out of their day to see the eclipse but saw some of it or did not see the eclipse at all (N=255), 34% decided not to take time to view the eclipse because they weren't available during the eclipse, 31% were not interested, 27% say the cost was too high, and 12% were outside of the state at the time.

**Why Decided Not to Take Time to View Eclipse - April 2024**

## Pine Tree State Poll Methodology

These findings are based on the latest Pine Tree State Poll, conducted by the University of New Hampshire Survey Center. Seven hundred and ninety-nine (799) Pine Tree State Panel members completed the survey online between April 18 and April 22, 2024. The margin of sampling error for the survey is +/- 3.5 percent. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. These MSE's have not been adjusted for design effect. The response rate for the April 2024 Pine Tree State Poll is 39%. The design effect for the survey is 2.3%.

The Pine Tree State Panel is a probability-based web panel of Maine residents. Approximately 2,100 Maine adults have been recruited from phone, text-to-web, or mail-to-web surveys sent to randomly-selected phone numbers or addresses. Panelists are then asked to participate in online surveys sponsored by the UNH Survey Center.

Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the ME Secretary of State and to 2020 election results in Maine. Surveys were taken in English, all respondent data included passes Qualtrics data quality checks, and single-use survey links were used to prevent multiple submissions by respondents.

The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions. Due to rounding, percentages may not sum to 100%. All coding of open-ended responses is conducted by human coders.

For more information about the methodology used in this Pine Tree State Poll, contact Dr. Andrew Smith at (603) 862-2226 or by email at [andrew.smith@unh.edu](mailto:andrew.smith@unh.edu).
