Date for Ninth Annual
March 7 & 8
Two Divisions Made in High School
Class—Many Prominent Teams in State With Rivalable Records

Basketball will be played on a large scale as Durham Hall, Mask and Dagger, and the university dramatic society, presents the first performance of its season. The program will be given at the college gymnasium, at 8 p.m. Monday, January 27, 1909.

Written and produced by Howard Winter, the production will feature an exciting plot and a cast of characters that will keep the audience on the edge of their seats.

Tickets are available at the college bookstore and at the door. Doors open at 7:30 p.m., and the show will begin at 8 p.m.

So This Is London, Offered by Seasoned Cast Tonight

Yes, exactly! The cast is seasoned with experienced talent, bringing you a delightful farce that will leave you laughing and delighted. The show is being held at the college theater, with performances at 8 p.m. every Thursday and Saturday night until January 31.

The cast includes William Nelson, Paul Blaisdell, Dorothy Jones, and Gunner Kenttmand, with several guest appearances by other prominent actors.

Brown's Lecture
Well Received

Noted Educator Talks About Creative Ability

Professor Bello B. Broun Speaks on Being a Man of Letters. Lecture by Book and Ball

Students at the university were invited to attend an open-air lecture on Thursday evening, to hear one of the most influential and engaging speakers in recent years. The lecture was given by Professor Bello B. Broun and was followed by a lively discussion and questions from the audience.

The lecture was held in the college auditorium, with overflow seating in the adjacent hall. The audience was captivated by Professor Broun's engaging style and insightful commentary on the role of the individual in the world today.

The lecture was recorded and will be available for viewing on the college's online learning platform. A transcript of the lecture will also be posted on the college's website.

The lecture was well received, with many attendees expressing their appreciation for the opportunity to hear such a distinguished speaker and the chance to engage in meaningful discussion.

Thanks to all who attended, and we look forward to more exciting lectures and events in the future at the college!
The Alumni News is a quarterly publication of The University of New Hampshire. It contains news and updates from the University community. The newsletter includes articles on alumni events, updates on members of the university community, and other information relevant to the alumni and friends of the university. The newsletter is typically published in the spring, fall, and winter months.

Debaters Swing Into Schedule

A affirmative team meets Boston College Sunday

By Virginia Powers, '32

Women in the newly formed freshman team of Radcliffe may be with Keene’s Negative team under way whereby Radcliffe may win the first debate of the season, discussing the affirmative team of the University, on March 6, and the last debate affirmative team of the University, on March 15. The women will continue their series of debates with Tufts and as both teams have excellent records, this struggle should prove to be an exciting one. The winning team will receive a large silver cup. The members of this team are: Harriet Hummel, Joan Haggerty, Margaret Price, and a team may possibly compete in a match for the championship of Oyster River, a deep argillaceous sandstone, is of considerable interest to geologists. It is found in the northeastern part of the state and may be utilized for many purposes, such as building materials. It was formed into a rock by the action of water, which was carried away by the force of a stream. This stream carried away the water, which was then changed into a solid mass by the action of heat. It was then called a sedimentary rock. This rock is a sedimentary rock. It was formed by the action of water, which was carried away by the force of a stream.
