

Many Subscribe To Senior Fund

Forty Names Already on Class Scholarship List

Effort Being Made to Secure Greatest Possible Number of Subscribers So That an Amount of Individual Subscriptions May Be Minimum

Subscriptions for the Senior Scholarship fund opened last week. During this period over forty subscriptions have been received from the members of the graduating class. The committee is making a strong effort to secure as many subscribers as possible, in this way decreasing the amount of individual subscriptions.

In view of the fact that the graduating class will be large and subscriptions allowed two years for fulfillment, the amount will be negligible, amounting to only two or three cents a day during this period.

The following members of the senior class have already subscribed: Bryce Atwood, Robert Ballard, Loretta Bannon, Helen Bernaby, William Boardman, Ruth Bunker, Millicent Callahan, Beatrice Calnan, Jesse Clark, Mary Cummings, Rene Daigle, William Dubois, Gilman Frye, Fred Gardner, Howard George, Charles Gillette, Danforth Goggins, Winifred Ham, William Hammond, George Hartshorn, Kate Harwood, Carrie Hopkins, Anna King, Hazel Luce, Helen Maynard, Theodore Minah, William Nelson, Philip Parks, Cristy Pettet, Madeline Pickwick, James Ronald, Leon Sawyer, Harold Scott, Harry Smith, Jr., Ruth Stolorworthy, Ethel Swann, Florence West, Carl Wendelin, Edward Wolf, Charles Woodward.

ALPHA TAU OMEGA MEMBERS VISIT DARTMOUTH CAMPUS

Twelve members of the Alpha Tau Omega fraternity visited the Dartmouth campus last week-end as the guests of the Dartmouth chapter. This is a continuation of the meeting that the two chapters have inaugurated to be held twice each year, once in Durham and once in Hanover.

The men attending were, Seth Lamson, Harry Smith, William Sterling, Fred Gardner, Gunnar Kellstrand, Gordon Moore, Carl Wendelin, Fred Clark, Wilbur Schurman, Lee Stimmell, Clayton Crawford, and Julian Teague.

TWO TALKS DELIVERED TO CHRISTIAN ASSOCIATIONS

Two talks on religion were given in Durham this week. The first was by the Reverend Michael J. Ahern, S. J., of Weston college who addressed the students of the university last Monday on the subject of "Catholicism." The other was given by the Reverend Douglas Horton of Boston, Mass., who spoke last night on the subject of "Protestantism."

This last speech completed the series of four which were sponsored by the Y. M. C. A. and Y. W. C. A. at the university. The first meeting was a talk and discussion of Hinduism by Sundar Joshi of Bombay, India, and the second was on Judaism, when Rabbi Feldman, of Hartford, Conn., addressed the students.

TAX EXEMPTIONS

For the benefit of those freshmen and sophomores who may be justly due exemption from taxation for the payment of damages done by those classes on the night of Wednesday, April 9, the student council will consider all such cases individually. Any student desiring exemption may write to the council, stating his case, and his appeal will be acted upon.

Exemption is subject to the following conditions:

1. That said student must declare himself a commuter.
2. That said student left the scene of disturbance and retired after the bonfire.
3. That each student claiming exemption will be questioned by the Student Council.
4. Letters must be worthy of acceptance by the council and must be in its hands not later than next Monday, May 5.

Durham Players Perform Monday

Is First Production of American Folklore Play

Written by Henry Bailey Stevens—Incidental Music by Professor Manton—Cast Includes 18 Members of Faculty—Many University Departments Cooperate

The initial production of "Johnny Appleseed and Paul Bunyan," an American folklore play in three acts and a prologue, written by Henry Bailey Stevens, with incidental music by Professor Robert W. Manton, will be presented by the Durham players in Murkland hall on Monday evening at eight o'clock.

This play has been purchased by the Walter Baker company, and will not be released for public performance until next spring. It is by means of a special arrangement with the Baker company that the Durham players are being allowed to give this premiere production. One of the clauses of the agreement prohibits direct newspaper advertising of the Durham performance.

The play is the story of a conflict between Johnny Appleseed, the legendary planter of apple trees in the western part of the United States, and Paul Bunyan, the traditional hero of the lumbermen throughout the country. Appleseed plants trees, and Bunyan cuts them down. As might be expected from such a plot, the play contains many humorous scenes and characterizations. This is the first time that these two folklore heroes have appeared together in the same stage production.

Various departments of the university are cooperating in this presentation. (Continued on Page 4)

Y. M. C. A. NOTES

On Saturday, May 3, University Mother's day, the Y. M. C. A. will extend a cordial welcome to all mothers who wish to gather in the Commons Organization room for tea. Christian Work will present a bouquet of flowers to all mothers who call there.

N. H. Nine Plays Harvard Today

Local Team Loses Opener To Worcester Tech, 8-4

Lord to Appear in First Game Since Recent Illness—Practice Hindered by Poor Weather—Lowell Tech to Play Here Mother's Day

The University of New Hampshire baseball team is playing its second game of the season this afternoon when it meets the Crimson team on the Cambridge field. The Blue and White met with defeat in its opening game with Worcester Tech last Saturday by a score of 8-4. The team has had but little actual practice so far this season because of the unusually long cold spell, which prevented actual workouts on the field with the exception of two brief periods during the week previous to the Worcester Tech game. The pitchers suffered from the layoff more than the other members of the team, as ordinarily, the pitchers have a chance to let out their arms by the time the first game is to be played.

Worcester Tech had the advantage along this line as it had already played previous to meeting New Hampshire. Joe Jablonowski pitched the first of the game and was relieved by Dunlap in the latter part of the game. Neither has reached his season form yet, due to reasons noted above, but both performed creditably. With experience in games already played, the Worcester team took the lead early in the game and was enabled to play differently than if forced. The New Hampshire team broke into the hitting in the last innings, and showed promises of developing a good hitting team before the season has progressed much further.

The weather having been more favorable during the last three days, the (Continued on Page 3)

Schoolboy Meet Here Next Week

Over 40 Teams Entered In Annual Track Contest

Dual Varsity Meet With Bates to be Held in Connection with Eighteenth Annual Interscholastic Event—Fraternalities to Entertain Visiting Teams

More than 700 high and prep school boys are expected to be in Durham on Saturday, May 10, to participate in the eighteenth annual interscholastic track meet which will be held on that date. According to plans announced by Coach Paul Sweet, more than forty teams will probably battle for the track honors, including nineteen out-of-state high schools, seven out-of-state prep schools, twelve in-state high schools and four in-state preparatory schools.

Last year, over 600 youths took part in the meet and Coach Sweet, director of the meet, promises a much larger group of contestants this season. In the morning the preliminaries in the running events and the finals in the weight events will be held, starting at nine, with admission open to the public, free of charge. The finals in the remaining events will be run off in the afternoon, commencing at one-thirty. Immediately following these events, a dual track meet between New Hampshire and Bates will take place.

The increased number of entries this year, both in-state and out-of-state, show that interest in interscholastic track meets is increasing rapidly, and those who have followed the progress of many of the entered teams this year feel certain that this meet will far surpass any of previous years and that undoubtedly many of the present records will be shattered. During their stay on the campus the visiting teams will be entertained at the various fraternity houses as has been the custom during the past years.

ALPHA GAMMA RHO

The Omega chapter of Alpha Gamma Rho announces the initiation of eleven freshmen. They are: Robert Baker, Leslie Blaisdell, Forrest Smith, Paul Henderson, Harold Garland, Laurence Titus, Raymond Willard, Roland Joy, Leon Meader, Elwyn Meader, and George Kittredge.

STUDENTS ATTEND YALE MODEL LEAGUE

International Relations Club Members Journey to New Haven for Model League of Nations Assembly—Represent Spain in Discussions

Several members of the International Relations club, including Vincent Scamporino, '30, Henry Kelly, '30, Richard Fitzgerald, '30, James Hanley, '30, and Elwyn Southmayd, '30, acting in the capacity of official representatives of the university of New Hampshire attended the New England Model Assembly of the League of Nations at Yale University last Saturday. Groups of delegates from thirty-five colleges in New England represented the various nations seated at the League proper. To the New Hampshire contingent the place of Spain, the sixth power of the League, was assigned.

The purpose of the assembly was to permit discussion and study of important controversial questions in the field of international relations insofar as they affect the workings of the League, and to give the students an idea of the actual workings of the League of Nations.

On the Friday evening preceding the assembly the student diplomats were the guests of Yale at a dance given in their honor. The actual session was opened with an impressive address by President James Rowland Angell of Yale.

After the election of presiding officers, the main business of the meeting was started. Three topics were discussed, "Compulsory Settlement of All International Disputes by Peaceful Means," "Security and Sanctions Against Aggressor Nations," and a proposal to delete the words, "like the Monroe Doctrine" from article 21 of the Covenant.

The preliminary work was done by student members of the Yale Liberal club assisted by numerous colleges and universities including Harvard, Smith, Mount Holyoke, Princeton, Brown, Amherst and Wellesley.

COLLEGE TEACHERS TO HOLD MEETING

New England Association of College Teachers to Convene at Durham for Annual Meeting—Southern New Hampshire Group to Join for Round Table Talk

On Friday and Saturday of this week, May 2 and 3, the New England Association of College Teachers of Education will hold an annual meeting in Durham in Murkland auditorium. The members of the association will be guests of President E. M. Lewis tomorrow evening. The business session will be held on Saturday at nine o'clock. At 9:30 there will be an address by President Franklin W. Johnson on "The New England College and the Preparation of Teachers for Secondary Schools."

The Southeastern New Hampshire association will join the group at 10:30 for the purpose of conducting a round table talk at the close of President Johnson's address. Dean George N. Bauer, who is in charge of freshmen, is making arrangements for the conference and will also preside. Dean Norman Alexander will open the discussion and Headmaster Elwood Fraser of Rochester will speak on "Articulation Between High Schools and the University."

The members of the university faculty and interested students are invited to be in attendance at the address of Dr. Johnson which will be given at Murkland auditorium.

HOME ECONOMICS NOTES

Tomorrow morning, May 2, the Department of Home Economics will give an exhibition in the home economics laboratory, Thompson 110. A consignment of self help children's clothing which the Bureau of Home Economics in Washington, D. C., has sent will be on display.

In the afternoon at 1:30 o'clock Mrs. McLaughlin will speak on "Foods for Children." At 3:00 Mrs. Mary Davis of Concord will talk on "Child Health" and at 3:30 Miss Bowan will talk on "Self Help Clothing for Pre-school Children." All are cordially invited both to the exhibition and to the lectures.

Psi Lambda met Monday night at the Alpha Xi Delta house.

R. O. T. C. WILL HAVE IMPROVED UNIFORMS

These Uniforms Will Probably Be Ready for the Opening of the 1930-31 College Year

It has been announced that the R. O. T. C. basic students at the University of New Hampshire may be equipped with an improved uniform next year. Although it is not definitely settled as yet, it is very probable that the new uniforms will be ready for the opening of the 1930-31 college year.

The uniform has an improved overseas cap, roll-collar coat with blue lapels, full length trousers, and flannel shirt. The color will be of olive drab. The material used in the uniform is Melton cloth.

The officers of the unit will wear the same uniform that is in vogue now and thus will not be affected by the change.

Commons Scene Of Junior Prom

May Twenty-Third Date of Gala Term Function

Committee Headed by Albert Lazure Makes Elaborate Plans for One of the Most Brilliant Dances Ever Held

The main floor of the University Commons, rather than the men's gymnasium, will be the scene of this year's Junior Prom, the major social function of the spring term. May 23 has been decided upon as the date when young ladies will don their newest frocks and their escorts will struggle into tuxedos for an evening of merriment with one of the popular dance orchestras of the East furnishing music for the occasion.

Decorations are in charge of Edward Haseltine who is planning one of the most elaborate settings yet attempted. Together with the natural interior beauty of the commons, the scene should be one of the most beautiful that has been seen at a Durham function.

Favors will be dispensed with this year, and the committee will concentrate on a more unique program. This committee headed by Granville Shattuck is composed of Elisabeth MacNaught, Marion Tibbetts, and Marion Phelps. Keith Burdett will have charge of refreshments, Albert Lazure is general chairman, and Professor Arthur W. Johnson is acting faculty advisor.

Patrons and patronesses will be President and Mrs. Edward M. Lewis, Professor and Mrs. Thorsten Kaljarvi, and Professor and Mrs. Arthur W. Johnson.

BRISTOL ENTRANT WINNER OF CONTEST

Many New Hampshire Schools Represented in Interscholastic Prize Contest Given Under Supervision of Interscholastic Debating League—Held Here Last Friday

Kenneth Platts of Bristol High school was the winner of the eighteenth annual Interscholastic Prize Speaking contest held at the university last Friday afternoon and evening, under the supervision of the New Hampshire Interscholastic Debating league which, in turn, is sponsored by the department of public speaking at the university.

Newmarket High school's representative, Miss Ann MacDonald was the second place winner, while third place went to Miss Muriel Sears of Milford High school. The prizes were three silver cups.

The schools represented in the contest were, Acworth High school, Antrim High school, Austin-Cate academy, Bristol High school, Groveton High school, Laconia High school, Madison High school, Milford High school, Newmarket High school, North Stratford High school, Penacook High school, Raymond High school, Robinson Female seminary, Sanborn seminary, and Woodsville High school.

The elimination contest was held at three o'clock in the afternoon and the finals were held at eight o'clock that evening. The judges were Philip Neserius, of the Political Science department and Lucinda Smith and Nellie Pottle, both of the English department.

500 GUESTS EXPECTED FOR FIFTH ANNUAL MOTHERS' DAY

Sports Form Large Part of Celebration Saturday; Full Program of Events Planned by Committee

Regimental Review and Parade, Baseball Game, Track Meet, Luncheon, Girls' Sports, Reception, and Tours of Campus Included

BROWN TRACK TEAM HERE ON SATURDAY

Twelve Last Year Men on Varsity Squad—Team at Bowdoin Yesterday for First Meet of Season

The first track meet of the 1930 season was held yesterday at Bowdoin, Maine, when twelve members of Coach Paul Sweet's last year track team and sixteen men who have not yet won the NH met the Bowdoin college squad. This year the track team is attempting something new in the matter of meets, in that they are competing with two teams in the same week. Saturday the Brown university track team will be seen on Memorial field before a large Mother's day gathering, for the second meet of the week.

Last Saturday, Brown won on the track and field from Rhode Island state college by the scant margin of 68-67. The last event of the meet assured Brown of victory when Fogarty and Hazenfratz took first and second places respectively in the javelin throw. Brown did not score at all in the low hurdles or the hammer throw.

Eunice Wilson To Manage Play

Cast Includes Actors Of Dramatic Experience

Production Different from Previous Presentations of Mask and Dagger—William Nelson, '30, Has Leading Role

Eunice Wilson, '30, has been chosen as the stage manager for the spring term production of Mask and Dagger, *Captain Applejack*, according to William G. Hennessy, director for the play. Miss Wilson is a member of Mask and Dagger and of the Chi Omega sorority.

The lead in the play, which differs from any ever produced by the society, will be played by William Nelson, retiring president. Mask and Dagger's new president, Edward Hazeltine, '31, will play the part of "Johnny Jason."

Dorothy Jones, '30, will play the part of "Anna Valeska." Miss Jones has played in many other Mask and Dagger plays, starting with *Icebound*, and including *Dear Brutus*, *The Dover Road*, and *So This Is London*. Marion Pearson, '30, whose first appearance at Murkland hall was in *The Truth About Blayds* is "Poppy Faire" in *Captain Applejack*. "Aunt Agatha" will be played by Phyllis Glazier, '30, who made her debut in the part of "Nettie Minick" of Edna Ferber's play *Minick*, last spring.

Harry Smith, '30, makes his first appearance in a Mask and Dagger play this term with the part of "Borolsky." Carl Wendelin, '30, as "Lush" and Marjorie Atwood, '30, as "Mrs. Pengard," are also playing this term for the first time. Frederick Gardner, '30, is playing the part of "Mr. Pengard." He played the title role in *The Truth About Blayds* last fall. All members of the cast excepting Hazeltine are seniors.

BETA GAMMA OF PHI MU HOLDS SPRING TEA DANCE

Beta Gamma chapter of Phi Mu held its first tea dance of the Spring term in the chapter house on next Saturday afternoon. Mrs. Smith, house mother at the Theta Chi house, Mrs. Virginia Lee Tewksbury, and Mr. and Mrs. Howard Rollins were the chaperones.

The guests were: George Colburn, Harry Tounge, John Stone, William LaFarge, Charles Fay, Robert Leitch, John DeCourcy, Harry Lord, Francis Robinson, James Ronald, Gerard Morin, Edward Sucke, and James Hayes.

The music for dancing was furnished by The Red Ramblers.

Approximately five hundred mothers are expected to gather on the campus Saturday in observance of the fifth annual Mothers' day held under the auspices of the university. As many of the mothers have expressed their approval of Mothers' day, which was inaugurated four years ago to bring about a closer relationship between the university and the parents, the program of the day will be carried out practically the same as it has been in the past.

All mothers are requested to register upon arrival at the Faculty club on Saturday morning. It is important that all guests register at this time so that they may receive tickets for the luncheon and the games in the afternoon as well as any additional information they may desire. At nine o'clock faculty members will conduct three tours of the university starting from the Faculty club. Each will give special attention to one of the three colleges and also touch lightly on the fields of the other two. Mothers can choose their group according to the college they wish to see most thoroughly. Those who prefer may, of course, go around by themselves rather than join a group. A second similarly conducted, but necessarily shorter tour of the colleges, will leave the Faculty club at nine-thirty for those who arrive too late for the earlier one.

At eleven o'clock, girls' sports will be held on Memorial field followed at eleven-twenty by a regimental parade of the cadet corps. After this all mothers with their sons and daughters are invited to gather in the men's gymnasium where they will be informally greeted by the members of the faculty and where President Edward M. Lewis will address them.

Luncheon will be served to all the mothers on the main floor of the Commons at twelve forty-five; tickets to be given out at time of registration. (Continued on Page 4)

CHRISTIAN WORK SPONSORS INSTITUTE

"Vocational Guidance". Subject of Three Day Meeting on Wednesday, Thursday and Friday, Next Week

"Vocational Guidance" will be the subject of a three day institute sponsored by Christian Work to be held on the campus next Wednesday, Thursday, and Friday. Fred C. Smith of the Harvard Bureau of Vocational Guidance will open the institute with an address to the students at the regular weekly convocation. Wednesday night he will lead a discussion on some phase of vocational guidance, for those who are interested, in the organization room of the Commons. Thursday morning will be spent by Mr. Smith in speeches before three university classes. He will be free for personal conferences with students on both Wednesday and Thursday afternoons. In addition to his connections at Harvard, Mr. Smith is editor of the Vocational Guidance magazine, and is a special lecturer for the Massachusetts Federation of Women's clubs on Vocational Guidance. He was formerly vocational guidance secretary of the Y. M. C. A.

Jean Dayton and Mabel Curtis will be the other two speakers for the institute. They will conduct meetings and will interview students on Thursday and Friday.

Miss Dayton, who is national secretary for the Baptist Board of Education, will speak Thursday evening on the opportunities for Christian service work. Miss Curtis is a member of the Women's Industrial union and will address the women students at the women's convocation, Thursday afternoon.

Everyone realizes that the scholarship fund drive, which is conducted each year by faithful and useful members of the graduating class, who approach their classmates soliciting signatures to the fund pledge, is a worthy campaign. Seniors nearing matriculation must feel indebted to their alma mater. The goal is close by. They have accomplished. Certainly they will not be so smugly self-centered and satisfied that they will not have any thought in the interests of other students, not yet in the university, who will, in future years, be working towards the same accomplishments of education.

Right now the drive is being conducted on the campus by members of the Class of '30. The committee is securing many pledges toward the total sum of the scholarship fund. Why not? There is no question of the worth of the whole thing. The seniors should all be ready and willing to aid the project. Again there is an indifferent bunch who must be coaxed. What surprises, is that, in this obnoxious category we find the names of prominent campus personalities—athletes, officers and members of honorary societies, and those who have received scholarships and loans from the university. One would naturally expect them to be the first to put their John Hancock on the lists. This group, we presume, has had good draughts from the campus cup of attainment and success. They are hardly acting fair.

These great gobs of Spring that are crowding into the atmosphere should crack these self-centered shells of indifference pretty soon. These people will realize that they have a duty they owe to their class. They should meet it and be glad they were big enough to see that the campaign is commendable.

EDUCATION NOTES

Superintendent Earle P. Freeze of Bristol was on the campus last Saturday visiting his son and interviewing candidates for the two vacancies which he has in the Bristol High school.

Superintendent Gaius Barrett of Littleton was in Durham on Monday interviewing candidates for teaching positions.

Superintendent Leonard S. Morrison of Whitefield, who graduated in the class of '10, was in Durham Saturday, interviewing candidates for the position of headmaster of the Carroll High school.

The following students have received positions for the coming year: Hazel Luce, Lincoln; Roger F. Barton, Orleans, Vt.; John H. Adams, New York state; Stephen T. Crowther, Headmaster of North Woodstock; Donald Harriman, Lincoln; Dorothy E. Nason, Barranquitas, Porto Rico; Daniel E. Perkins, Bellefontaine academy, Pennsylvania; Gardener Simons, Essex Center, Vermont; Alice Watson, Perdue university; John Whittemore, Raymond; Eugene Rourke, Carroll.

By Enzo Serafini

Well folks, we have it! A theme song for the Mil Arters. "Every Place I March along I March along with You."

Here's an original joke. Fraternity brother rushes into the house: "Is there a gun in the house?" Brother nitwits: "No." First nitwit: "Good! Then I'll sing the "Stein Song."

Our idea of an optimist is the man who calls at a cremator's house in quest of ashes.

Here's a good bit in an Edgar Guest vein:

LINES ENGRAVED ON LINCOLN'S SNOW SHOVEL
I've heard it said, this thing "procrastinashun"
(Whatever that is) steals away our time.
Now, I ain't much at them big words an' phrases,
An' how I uses English is a crime;
But I could tell them guys that writes the big words,
Some things in phrases simple, yes, an' few;
It ain't "procrastinashun" does the stealin'—
It's puttin' off the things you'd oughter do!

F. D. G., '30

Another theme song. This one is for the Kappa pledges during the hell week that just passed—"The Rain Descended and the Floods Came."

Congratulations to the Sophomore Hop committee. Very good decorations and music were, of course, conducive to a good time. Who said that?

Speaking of the music, the Red Ramblers crashed through. To the best of our memory, it was their first real big engagement on the campus, and they proved equal to it. A few of the numbers were ragged, but as a whole . . . fine!

We wonder why they do not play at more of New Hampshire's big functions? Other colleges use them. Some of their spring engagements include Dartmouth, Middlebury, and the University of Vermont.

As far as that goes, the campus is really fortunate in its orchestra situation. We can think of four different teams at present and they are all good.

Fifteen Frats In Ball Series

Four-League Division With Five-Inning Games

Wins Scored by Theta Chi, Kappa Sigma, Sigma Alpha Epsilon, Lambda Chi Alpha, and Alpha Tau Omega

The intramural baseball season is underway with fifteen teams participating. The teams are divided into four leagues, and the league winners will play an elimination series for the intramural championship. All games will be five innings, except in the championship series when seven innings will be played.

The first game played April 23, was an 11-6 victory for Theta Chi over Theta Upsilon Omega. Determined to continue with high scores, Kappa Sigma, on the following day in a two and one-half inning game, impressively trounced Delta Pi Epsilon, 11-0. There was a slight decline on the next day's score; Sigma Alpha Epsilon defeated Delta Sigma Chi, 4-1. The result on April 28, however, showed that high scores were still in favor, Lambda Chi Alpha humbling the Alpha Gamma Rho's in a three-inning game, 10-1. On April 29, Phi Alpha lost to Alpha Tau Omega, 7-3.

The games scheduled for the week are as follows: Thursday, Phi Mu Delta vs. Phi Delta Upsilon; Friday, Delta Pi Epsilon vs. Theta Upsilon Omega; Monday, Phi Mu Delta vs. Theta Kappa Phi; Tuesday, Kappa Sigma vs. Theta Chi; Wednesday, Delta Sigma Chi vs. Alpha Gamma Rho.

Following are the fraternities listed in their respective leagues: League one: Theta Chi, Kappa Sigma, Theta Upsilon Omega, and Delta Pi Epsilon. League two: Sigma Alpha Epsilon, Lambda Chi Alpha, Delta Sigma Chi, and Alpha Gamma Rho. League three: Alpha Tau Omega, Phi Kappa Alpha, Alpha Tau Alpha, and Phi Alpha. League four: Phi Mu Delta, Theta Kappa Phi, and Phi Delta Upsilon.

The managers in charge of the games are Robert Morrison, '32; Clarence Ferry, '33; and Bartlett McKinney, '33.

We understand there's a new geology course now that isn't in the catalogue . . . Beach-combing 3c . . . No pre-recs required except a little money and a knowledge of the difference between a fox-trot and a waltz (although we know some people who take the course have little of either). The room is at the Hampton Geological base.

This week-end will be devoted to our mothers. If it were not for their sacrifices, a great many of us (Continued on Page 3)

From Our Mail Box

To the Editor:

It is requested that this letter be given space in your publication.

Plans are being made to professionalize the Federal prison service by enlisting high grade officers and by establishing a system of professional training and promotion on merit. In the belief that college-trained men may be interested in this type of work the leading colleges and universities in the country are being circularized. Any undergraduate or graduate who wishes to consider the possibility of entering the service is requested to write the Superintendent of Prisons, Department of Justice, Washington, D. C.

Prison work has long represented a career for college-trained men in European countries. It calls for intellectual and moral qualities of a high order. It offers opportunity for advancement to positions which are better paid than most college professorships. There are numerous other important positions to which a man of ability can rise with experience and training.

It is the purpose of our present training program to prepare men for these positions as well as for that of guard. An officers' training school has been established in New York City. All men enter the service as guards and are sent to the school for a four months' course. Here they receive instruction in such subjects as the mental and physical characteristics of the criminal, the causes of crime, the operation of probation and parole, the development of modern penology, etc. They are also instructed in the use of firearms, boxing and Japanese wrestling.

The aim of the course is not only to give officers a broad socialized viewpoint on the theoretical aspects of penology but also to prepare them for the actual problems which they will encounter in prison work. At the conclusion of the training course officers are assigned to one of the Federal penitentiaries at Atlanta, Leavenworth, and McNeil Island (near Tacoma, Washington), the Industrial Reformatory at Chillicothe, Ohio, the Federal Detention Headquarters in New York City, or one of several prison camps in various parts of the country.

A man enters the Federal prison service as a guard with a base pay of \$1,620 per year and allowances which bring the total remuneration to \$1,860, the equivalent of a beginner's salary in the teaching profession. Within the guards' grade it is possible to reach a salary of \$2,100 a year, and salaries in administrative positions for which one may qualify after experience range from \$2,100 to \$7,000.

College men with specialized training for prison work have their place

in the progressive penal program laid down by the Attorney General and the Superintendent of Prisons and embodied in bills now before Congress. An urgent appeal is made to the undergraduates and recent graduates of American colleges and universities to consider entering the Federal prison service at this time.

Very truly yours,
SANFORD BATES,
Superintendent of Prisons,
Washington, D. C.

To the Editor:
Dear Sir:

In a recent issue of THE NEW HAMPSHIRE a contributor who signed himself as "Sybarite" made a direct attack against the activeness and accomplishments of the Sphinx.

If the gentleman who was so kind to think of forming better organizations for the university would investigate the matter a little further and not judge by mere rumors, he might be slightly surprised. It might please him to know that in the latter part of the fall term and also during the winter term numerous meetings were held which were very important.

During the basketball tournament, Sphinx men met the different teams and conducted them to the various fraternity houses. Perhaps some of them "slipped up" for certain unknown reasons, but that is no reason to condemn the entire organization.

If "Sybarite" thinks that all that is done in Sphinx meetings is the calling of the roll, he is greatly mistaken. Ask any Sphinx man about that.

Next month the annual interscholastic track meet will take place here. Last year the Sphinx and the pledges worked hard on that occasion. We are going to do the same thing again this year.

The Sphinx has revised its constitution and will continue its good work and endeavor to live up to its aims.

1932 Sphinx.

To the Editor:

Dear Sir:

During the past several weeks your column of public expression has been well cluttered up with inconsequential accounts of how things look to the casual observer from the road, so to speak. Bearing this in mind I am taking the liberty to express a certain opinion of mine on how things look to me from where I sit in convocation.

FACULTY MEMBER TO TEACH AT HARVARD UNIVERSITY

F. K. Arnold, a member of the faculty of the Department of Languages is planning to take up new duties at Harvard university. Mr. Arnold will conduct and carry on graduate work along with part time tutoring in French. He has been an instructor at the university since last fall.

Being a Junior, I am assigned a seat (fully as uncomfortable as any other) on the ground floor. Now, when a speaker rises and steps to the rostrum to deliver his message to the throbbing mass of humanity before him, he is directly in my line of vision with the windows in the center of the East side of the gym. As it happens these windows are uncurtained and the form of the speaker is thrown into silhouette. For all that I can tell the guest might as well be Booker T. Washington or a Harlem policeman. It adds a great deal to the very slight pleasure derived from convocation to be able to discern the physiognomy of the orator present.

Not only is this optical phenomena noticeable at box XY, row 11,000 but over a large portion of the main floor. However, it would seem to the casual observer (to be inconsistent) that if a shade of some sort were arranged on the windows directly behind the raised dais, everyone would be able to see clearly his entertainer (or source of annoyance, as the case may be). To compensate for the light thereby excluded several of the ancient, honorable and time worn shades at the sides of the platform could be well removed.

It may be so that even then there would be so little light as to render it difficult for the speaker to read his script, but at that, anyone who will deliberately read a speech ought to be blind anyway.

Thanking you, and happy days,
G. B. C., '31½.

BUILDINGS

in Which

You Take Pride

ON THE CAMPUS, where class buildings

and memorial structures are so often

distinguished by their noble form, flood-

lighting equipment serves to prolong the

enjoyment of their beauty and to enhance

pride in the institution. » » Such an

application is made for the new 165-foot

campanile at South Dakota State—mag-

nificent gift of an alumnus. Electrically

operated chimes sound the hours and

are heard in concerts. At night, shafts of

light from General Electric floodlighting projectors effect a picture of superb beauty

done in the school colors and white. From the air, the tower is identified by the

beam from a G-E airway beacon surmounting the floodlighted dome. » » Thus,

G-E equipment plays its part in promoting progress and fine appreciation. Back of

every G-E product is an organization in which college-trained men are largely

responsible for the planning, production, and distribution.

Drawing of the Coughlin Campanile at South Dakota State College, Brookings, S. D. Perkins and McIlwaine, architects

The pause that gives poise

the Pause that refreshes

Comes a time (as they say) every day when it's good to drop things—relax—and, calm, collected, cool, seek the hidden meaning of life.

Sign off for just a minute, now and then, and refresh yourself with an ice-cold Coca-Cola. Ready for you—anytime—around the corner from anywhere. Nine million times a day the Thinkers and Doers of the nation find the pause that refreshes is what keeps the world wagging.

9 MILLION A DAY—IT HAD TO BE GOOD TO GET WHERE IT IS

GENERAL ELECTRIC

GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

N. H. NINE PLAYS

HARVARD TODAY

(Continued from Page 1)

team has held intensive practice for the Harvard game. The scores for the past two years between these two teams have been close, New Hampshire having been defeated 9-5 two years ago, and by a score of 4-1 last year. This year's contest should be fairly close, since the New Hampshire team shows promises of hitting that should show in this game and in later contests, when the men have had opportunity to practice unhindered by the cold weather that seems to have ceased recently. Several on the squad have been on the lineup against Harvard in past contests, and were ready to see service on the Cambridge field again this year.

There will be several changes in the lineup for the game today. John Shea, veteran catcher and football star, has been seriously bothered with a sore arm, and will be replaced by Mitchell who has done well in practice. Redden has been moved to third base, the position that he held on last year's team.

Don Lord will pitch his first game of this season today. Lord pitched on the team last year and his performance today will be his first appearance

on the mound since recovery from illness during the spring vacation. Jablonowski and Dunlap will be the relieving pitchers for the game.

On Saturday afternoon the New Hampshire nine meets the Lowell Textile team on the home field. A large Mother's day crowd is expected at this, the first home game of the year, and the team is hoping to make it a finale to a successful Mother's day program, as well as a successful opening on the home grounds, by making the game a victory for New Hampshire. Dunlap will probably start on the mound and the line-up will be similar to that of the Harvard game.

With several men on the line-up from the last year team, it is expected that the season will be quite successful should the men perform up to the standards set in previous games. A hard hitting team is in development, and sufficient practice is all that is necessary to make it a reality in future games.

The line-up for the Harvard game is as follows: Lord, p; Mitchell, c; Dawson, 1st; Tilton, 2nd; Redden, 3rd; Small, ss; Horrigan, lf; Hanna, cf; Smith, rf.

Jablonowski, Dunlap, Casey, Stafford, Chaloner, and Chase will also make the trip.

SPORTISMS

by The Observer

Probably one of the best exhibitions in the field of sports seen in Durham this term is that of Brad Dearington, S. A. E., in the orange colored Curtiss-Robin monoplane. Brad comes up from the East Boston airport once in a while and does a few zooms up over Madbury Road. On one of his recent trips his game seemed to be to see how close he could come to the steeple of Thompson hall and still miss it.

We can see no reason why we should confine our interests to university sports activities alone, so we mention the baseball schedule of the Durham Junior high school boys. Under the management of Henry J. "Smithfield" Polk the youngsters are playing games with several of the smaller state high schools.

Some may have noticed Will Rogers' remarks in his daily "Dispatch" about the Mayo brothers' operation on Knute Rockne. Will seems to have stolen his idea from a new book called "The Gladiator" which tells of injecting serum from the hind leg of a grasshopper into prospective football players. You should read it!

We missed the varsity nine game with Worcester Tech and so have nothing to say about the team, except that we do expect them to fall into their winning stride before long. Today they are due to meet Harvard, and Saturday sees Lowell Tech at Durham. We will watch with interest the outcome of these games.

Varsity track is to meet Brown Saturday. At the time of our going to press the outcome of the Bowdoin meet was not known, so once again we must wait before commenting.

If the Wildcat nine can do as well for the mothers against Lowell Tech as the football team did for the "dads" it will be quite a score for New Hampshire and not much for the Massachusetts team.

The Delta Sig house has lost another window, this time at the expense of the Phi Alpha's. Costly baseball practice seems to be the vogue in the Strafford avenue section, as does golf and baseball throwing contests. The Phi Delta Upsilon and Delta Sig baseball teams held a practice session a few mornings back. The early hour seemed to detract from the ability of the players.

We note with interest that "Bill" Hoagland, former football and track star is back in Durham for a few days. Makes us think of "the old days" to see "Bill" around here again.

would not be here. Let's give them a good time. Those dates can wait until next week.

For the benefit of our dear old public, the 1931 GRANITE will be out before the end of May. And may we also correct several erroneous reports. All six pages WILL be numbered. The pictures will not be upside down because the book is printed upside down and all you have to do is turn the book upside down—and there you are.

The covers are going to be in the middle of the book, but the middle of the book will be on both ends, therefore the covers will be in the right place. Simple, isn't it?

A free GRANITE and a copy of the latest NEW HAMPSHIRE will be given to that individual who finds the largest number of mistakes and doesn't tell the board about them.

Freshmen Win
From SanbornOpening Game of Season
Favors Frosh; Score 6-0Poor Condition of Field Slows Game
—W. White Pitches Good Game
for Yearlings—Visitors
Held to Three Hits

In a game marked by the brilliant pitching of Winslow White, yearling hurler, and weak hitting on the part of both teams, the Freshman baseball team successfully opened its season last Saturday on Brackett field by defeating Sanborn seminary, 6 to 0. White was in rare mid-season form, and had the Sanborn sluggers well in hand. He allowed but three hits and retired eleven by strike outs.

The Kittens were noticeably weak at bat, making eight hits. They bunched them in the third, fourth, and fifth innings to score six runs. They were guilty of four errors, but the poor condition of the playing field and lack of practice make these excusable. Trzuskoski and Applin, who are fighting it out for the first base position, looked good in the field and at bat. Trzuskoski had a perfect day at the plate, getting two hits from two times at bat, one was a beautiful triple which figured in the scoring in the third inning. There is a possibility that, because of their hitting strength, one of the two will be shifted to the outfield. The other infield positions are still open for competition.

Only once during the game did Sanborn threaten to score. With two strikes on Galuska, White put one in the groove. Galuska connected for a third base hit, but was stranded on third base when White struck out the next batter.

Nelson Dente, freshman rightfielder, contributed a circus catch in the seventh inning when he came in from deep right field to catch a pop fly, falling and turning a somersault but still holding on to the ball.

Coach Lundholm used two teams in the game and there was no noticeable difference between the two. Each fielded fairly well for the first game of the season.

The Freshmen play West Side high of Manchester, coached by "Jerry" Ceremonty, tomorrow at 3:30 on Brackett field. West Side, with practically a veteran team, is expected to give the Frosh a great deal of trouble. Either Chaloner, Derby, or Edgerly will draw the pitching assignment for the Frosh, and Dunman or Stevens will be behind the plate.

The summary of the game is as follows:

FROSH TRACK TEAM
LOSES TO EXETER

Defeated 87 2-3 to 33 1-3 in Opener of Season—Gibbons Wins the 100 and 220 Yard Dashes and Pike Takes High Jump

The freshman class opened its track season last Saturday afternoon at Exeter where it was defeated by the academy team, 87 2-3 to 33 1-3. Gibbons and Pike were the outstanding men on the New Hampshire team, Gibbons winning both the 100 and 220 yard dashes while Pike placed third in the same events, second in the broad jump, and first in the high jump. Next Saturday, while the varsity is at home engaging Brown, the Freshmen will visit Cambridge and compete with the M. I. T. yearlings. The summary of the meet Saturday:

One hundred twenty-yard high hurdles—Won by Kahn (E); second, Tyson (E); third, Haynes (NH). Time—1:38.
Two hundred twenty-yard low hurdles—Won by Kahn (E); second, Schoch (E); third, Giman (NH). Time—26.38.
One hundred-yard dash—Won by Gibbons (NH); second, Duffy (E); third, Pike (NH). Time—10.28.
Two hundred twenty-yard dash—Won by Gibbons (NH); second, Blackman (E); third, Pike (NH). Time—22.28.
Four hundred forty-yard dash—Won by Tribuno (E); second, Lane (E); third tie between Amazeen (NH) and Sawyer (NH). Time—53.8.
Half-mile run—Won by Klein (NH); second, Murray (E); third, Rogers (E). Time—2m. 7s.
Mile run—Won by Bonthron (E); second, Demouillep (NH); third, Sweet (E). Time—4m. 44s.
Hammer throw—Won by Lemke (E); second, Knox (NH); third, Spencer (E). Distance—140ft. 10in.
Shot put—Won by Dean (E); second, Cheek (E); third, Bauer (E). Distance—48ft. 7in.
Pole Vault—Won by Lyman (E); second, Arndberg (NH); third, tie between Wood (E), Woodbury (E), and White (NH). Height—11ft.
Javelin throw—Won by Tyson (E); second, Burgess (E); third, Kinsbury (E). Distance—162ft. 9in.
Broad jump—Won by Hollister (E); second, Pike (NH); third, McGowan (NH). Distance—24ft. 10in.
High jump—Won by Pike (NH); second, Scheffey (E); third, Cosby (E). Height—5ft. 5in.
Discus throw—Won by Bauer (E); second, Cheek (E); third, Tyson (E). Distance—120ft. 1 1/2 in.

CHEVRONS AWARDED
TO BAND MEMBERS

Insignia Presented by Captain James H. Day at Regular Military Drill—Award Based on Leadership, Musical Ability, and General Attitude

At the regular Wednesday afternoon military drill last week, several members of the university band were presented with chevrons. The presentation was made by Captain James H. Day of the Military Science department.

The following men received the awards: Drum Major (sergeant), Gordon L. Moore, '32; sergeants, Louis Schwartz, '30; Carlo E. Lanzilli, '32, J. Robert Ayers, '32, and Laurence A. Barker, '32; corporals, Henry G. Stenberg, '32, Gordon R. Ayer, '32, Bernard F. Crowley, '32, and Joseph Schwartz, '32; musicians first class, Frederick A. Gates, '32, George W. Scott, '32, and Lawrence A. Prentice, '32.

This is the first year that chevrons have been awarded to members of the band and is part of the program of the Military Science department to reward members of the band for

efficient duty. Among the points taken into consideration in awarding the chevrons are: musical ability, leadership, attitude on the drill field, attendance, and general attitude.

Marine Lab to Open June 23

Isles of Shoals School To Begin Third Session

Renovations Being Made to Accommodate More Students Than in Former Years—Geology Courses to be Offered for First Time

The third session of the University of New Hampshire Marine Zoological laboratory will be held at the Isles of Shoals from June 23 to August 15. The past two sessions have been a success from every point of view. Twenty-four students have attended each year, and more would have been in attendance if accommodations allowed.

The Isles of Shoals make an ideal place for summer studies, furnishing a fine base for graduate and advanced students to conduct problems and to complete work under more favorable conditions than on a college campus. Material is on hand for study of aquatic and land forms, and comparisons of the life on the mainland with that of the islands are being made. There have been many students from other colleges at the laboratory as it is quite necessary for teachers, research workers and other scientific workers to have at least a season's attendance at some marine laboratory. Steamer connections, as well as privately owned boats, make the Shoals easily accessible, yet comparatively free from unwelcome intrusions. Fishing, boating, and bathing conditions are at hand for amusement.

Historically the Shoals furnish much of interest. Since the time of their discovery by Captain John Smith in the year 1613, up to the present time the islands have been the scene of all kinds of occurrences. Shipwrecks, buried treasure, Indian conflicts, murders, disastrous fires, and storms have all played their part. At one time the largest island, Appledore, was the site of an academy to which early settlers from Dover, Portsmouth, and other towns on the mainland sent their children in order that they might be comparatively free from Indian attacks. At one time when Dover, Portsmouth, and Rochester were in their infancy, the town of Gosport at the Isles of Shoals was the home of fourteen hundred people, of whom fishing was the main industry. In later years the

PORTSMOUTH HEARS MEN'S GLEE CLUB

Present Program of Music at Arcadia Ballroom—Trips to Stoneleigh Manor, Laconia, and Claremont Planned

The men's glee club of the university appeared in Portsmouth last Friday evening at the Arcadia ballroom where they presented a program of music to a small but attentive audience. Owing to a severe cold contracted by Danforth Gogins, baritone in the male quartet, it was necessary for Director Manton to take his place.

The members of the club made their appearance dressed in blue coats with white flannels and blue ties. At the rehearsal last night they had a group picture taken in this new "uniform."

After the presentation of the program, seven members attended the dance in Peirce hall where the Kampus Kut Ups were playing and here they sang "On to Victory" and "Cheer Boys."

The club is busy preparing for trips to Stoneleigh Manor on May 10 and Laconia on May 15. A trip to Claremont is also under consideration.

The program as presented at Portsmouth:

500 GUESTS EXPECTED FOR FIFTH ANNUAL MOTHERS' DAY

(Continued from Page 1)

During the afternoon the athletic department of the university will entertain the mothers at either the varsity track meet with Brown university on Memorial field, or at the varsity baseball game with Lowell Textile institute on Brackett field. Complimentary tickets admitting the mothers to these events will be presented at the time of registration.

Mothers' Day has now come to be a tradition on the campus and it is the wish of the administration that the mother of every student registered at the university will endeavor to be present at this, the annual exhibition of what the university is doing for those who are attending it.

village deteriorated, the inhabitants moved to the mainland, and the Shoals became one of the most popular summer resorts along the New England coast. The home of Celia Thaxter, one of the most noted of the Shoals dwellers, was a gathering place for some of the most distinguished of the artists, poets, authors, and celebrities of the nineteenth century. The famous Appledore hotel, which accommodated four hundred visitors, was burned to the ground twenty years ago, and, since then, the automobiles have aided in drawing summer vacationists to resorts on the mainland.

The Marine laboratory utilizes three main buildings, formerly privately owned cottages, the largest of which has been converted into the main laboratory. The other two buildings are the men's dormitory and the women's dormitory. Extensive repairs are about to be made on these buildings. The water system is being changed, electric lights are being installed, and other repairs are in process. Most of the rooms have fireplaces, and an air of congeniality is always present. Another noticeable factor is that although the neighboring towns on the mainland may be sweltering in mid-summer heat, the Shoals is made much more pleasant by cool breezes.

This summer, due to the renovations made, more students can be accommodated, and in addition to the work in zoology given, several courses in geology are offered for the first time. Field work in both geology and zoology, and material for laboratory work are of the best to be found since all conditions exist from small bays and sheer rocky bluffs, to areas of grass and brush in places which, with the ever changing ocean, offer the greatest possible variety of conditions for study.

A pamphlet on the marine laboratory may be obtained on application to Professor C. F. Jackson, of the Zoology department.

Alumni News

DELINQUENTS

Members of the Alumni who, as undergraduates, received financial aid from the Student Loan committee of the university, have, in most instances, been prompt to pay back, after leaving the university. This is directed to those few who have been negligent in meeting their obligations. THE NEW HAMPSHIRE wishes to remind these delinquents of the generosity of the committee which aided them during their undergraduate days. It is expected that they will realize that the committee is still carrying on that splendid work. Each outstanding account deprives the committee of funds with which deserving students might be aided. These delinquents should recall circumstances existing at the time when they, as students, appealed for aid, and should amend the unjust neglect. They should realize the injustice they do their university.

BOSTON CLUB

The banquet committee of the Boston club has added dancing as an additional feature at its annual banquet to be held at the University club on this Saturday evening, May 3, at 6.30 p. m., Daylight Saving time. There will be dancing from nine-thirty to midnight. Tickets for the banquet (\$2.50) include dancing. Reservations must be sent at once to Frances E. Taylor, 2 Crawford street, Cambridge, Mass. A check must accompany each reservation.

The guests at the banquet will include Dr. and Mrs. Edward M. Lewis; Styles Bridges, Commissioner of Public Utilities in New Hampshire; Albert S. Baker, president of the Alumni Association; and Charles W. Pattee, alumni secretary.

All alumni are cordially invited to be present.

'25 Mr. and Mrs. James S. Simpson (Eleanor Pray) have moved from Pawtucket, R. I., to 116 North Street, Auburn, N. Y., where "Jim" is working for the Columbian Rope Company.

'19 Mr. and Mrs. Murray H. Strain announce the arrival of Richard Maxham on April 4. ex-'27 On April 19 Durham solemnized the marriage of Catherine V. O'Kane to Joel C. Sheldon. They have now taken up residence in Burnt Fork, Wyoming.

'26 Dorothy W. Griffin is doing secretarial work in New York City and is living at 28 Grove street.

'18 Fred J. Howe has moved to 42 School street, Arlington, Mass.

'29 James J. Johnson is a chemist for the E. I. DuPont de Nemours Company in Chicago. His resident address is 4059 Waveland avenue, Chicago.

2-yr. '14 Edward J. McKenzie has moved from Lisbon to Franconia, where he is interested in hotel work and retailing lumber.

'29 Paul Kirvan is traffic manager of the New England Telephone and Telegraph Company in Brockton, Mass., having been transferred from Providence.

'19 Louis Hoffman has been made technical director of the Fox Movie-tone news. His address is Blind Brook lodge, Rye, N. Y.

'26 Henry B. Applin (Hank) has been appointed director of the state bureau of criminal identification in Providence, R. I., succeeding the late Herbert B. Caffrey. "Hank" has been assistant to Superintendent Caffrey for two and one half years. Prior to entering that department he was a college instructor and athletic coach in Vermont.

'23 Joseph B. V. Coburn has been traveling through New England, Eastern N. Y., and Northern N. J., as sales service representative for Riley Stocker corporation of Worcester, Mass. His address is Maple street, Holden, Mass.

The engagement of Ethel M. Reed, '30, to Roger St. Clair, ex-'28, has been announced. St. Clair is a draftsman for the Connecticut River Development company in East Barnet, Vermont.

Bill Hoagland, '28, has been in Durham this week. Bill had been in the hospital for the past six weeks. He is recovering now and expects to return to his work in New Bedford, Mass., soon. Dick Daland has been accompanying Bill on his visit to Durham.

James M. McDuffee, '25, writes from Everett, Washington, that he was successful in surveying his first water aqueduct tunnel so accurately that there was not any deviation when workmen digging from each end met in the middle.

INITIATION NOTICE

Beta Gamma Chapter of Phi Mu takes pleasure in announcing the initiation of Florence Anna Bartlett, '33, of Claremont.

Y. W. C. A. NOTES

Next Monday there will be a poetry meeting of local talent.

Christian Work, incorporated, with the Y. W. C. A. and Y. M. C. A. will serve tea from four until six o'clock to those Mothers who will visit the campus Saturday.

The Reverend Everett Baker, a Unitarian minister of Providence, Rhode Island, will be on the campus today. There will be a supper given for Reverend Baker and the Unitarian students of the campus at the Commons organization room tonight.

DURHAM PLAYERS PERFORM MONDAY

(Continued from Page 1)

tion. Paul H. Schramm of the architectural department is making the properties, including the apple tree about which the plot of the play revolves. Bertha Kirk of the physical education department is assisting in the direction of Indian dances. Professor William Hennessy of the English department has given valuable advice and suggestions. The play is being coached by Mrs. Florence B. Wilber. There are eighteen members of the faculty in the cast, including several former stars of Mask and Dagger.

Professor Manton's incidental music is especially designed to suit the varying moods of the play.

The cast of characters is: John Chapman, also called Johnny Appleseed, John A. Floyd; Leather Lips, an Indian, Paul Schoedinger; Dryad, Dorothy Murphy; Israel Woolery, Arthur W. Johnson; Hannah Woolery, his wife, Edith Alexander; Gertrude Woolery, his daughter, Gertrude Nye; Jean Baptiste (Napoleon) Bounyon, known to later generations as Paul Bunyan, the logger, M. Gale Eastman; Inkslinger, clerk and bard, Edward Y. Blewett; Chief Black Turtle, Earl P. Robinson.

Indians: Joe Sky, George Ham; Wheel-Barrow, Edward J. Rasmussen; Big Kettle, Kenneth Barraclough; Sharp Horn, John F. Sheehan; Black Thunder, J. Raymond Hepler; Fire Bird, Elmer Rowalt; Mad Buffalo, L. Phelps Latimer; Red Eagle, Robert Fox; Pine Needle, Agnes Ryan.

Tickets are one dollar, seventy-five cents, and fifty cents. All seats are reserved. Tickets may be obtained from Mrs. Helen F. McLaughlin, secretary-treasurer of the Durham players, at the College pharmacy, or at the University Book store.

Encouraging the long distance habit

An interesting example of organization is the development of long distance telephone business. Men and women of the Bell System made this service worthy, and the public has recognized this by its greatly increased usage.

The Bell Laboratories improved the quality of sound transmission by modifying existing apparatus and designing new. Western Electric manufactured the necessary equipment

of the highest standards. Operating telephone companies, working with the American Telephone and Telegraph Company, shortened the time for completing calls and reduced the rates.

In all a coordinated work, bringing together many and varied activities, and typical of the way in which telephone service is constantly being made a better tool for the nation's needs.

BELL SYSTEM

A nation-wide system of inter-connecting telephones

"OUR PIONEERING WORK HAS JUST BEGUN"

... on the court it's **FLASH!**
... in a cigarette it's **TASTE!**

"A FACT is more powerful than twenty texts." Two puffs tell more of a cigarette's taste than any two-hour speech.

Taste must speak for itself... and Chesterfield's refreshing, spicy flavor, its characteristic fragrance, do just that.

Making Chesterfields, making them right, making you like them, requires only this:

"TASTE above everything"

MILD...and yet THEY SATISFY

Chesterfield

FINE TURKISH and DOMESTIC tobaccos, not only BLENDED but CROSS-BLENDED
