ADMIRAL BYRD OPENS LYCEUM

To Present Lecture And Pictures of Antarctic

Nevil, N. H., October 2, 1930.

ADMIRAL RICHARD E. BYRD will be featured as the first attraction on the campus this year, according to announcements made by the administration.

The past has been given enough advice to last a lifetime. It is time to forget it all by Christmas and the New Year will leave it at that. May your stay in the New Year be a happy and prosperous one.

or have not stayed out because of lack of ability or for other reasons. Hence the only resource in picking material for the line. Only four men were available to handle the offensive line at the beginning of the season. The development of a team is a slow process and requires both time and patience. The best way to build a team is to have a nucleus of experienced men and to build around them. The coaching staff must be able to recognize talent and to develop it. Coaching is a science and an art, and it requires a lot of hard work and dedication. The key to success is to build a winning team and to develop the players into better citizens. The winning team is the key to success in any sport. Training is important, but the winning team is the key to success. The winning team is the key to success in any sport.

BRAID MCGINTY

W.E.VE called out the band and dusted off the victoria... New Fall Braeburns are our honored and distinguished guest, come to enhance our youthful citizenry... While the situation inspires us to a most rhetorical manner... flowing descriptions hardly do justice to the eloquence of the new Braeburns for Fall... You must come over and see them... all with two trousers... thirty-five, forty and forty-five dollars.

responsible for their fine record of achievement during their postgraduate study. In 1927 he inaugurated on Appledore Shoals a Marine Laboratory which, during summer vacations, is ready for your inspection. The Chilton fountain pen once tried will be found a new storage room for athletic equipment and supplies that are out of season. This improvement will provide all those items in the gymnastic basement.

The structure when completed will have eleven rooms and two baths. On the ground floor there will be a large reception hall, a living room with fireplace, a dining room, a breakfast nook, kitchen, supervisor's bedroom, and an instructor's bedroom. On the second floor there will be four large bedrooms each having private accommodations. This building will be heated independently of the other college buildings by an oil heater.

Among the renovations in the men's gymnasium a set of rifle stands is essential, having a heavy wire cage for storing the II, O, T, C. rifle. The old revolving lobbies previously used have been discarded which makes the basement of the gymnasium look much nicer. Besides, new rifle racks have been constructed a dressing room for the faculty athletic team, in the form of run-up wall, modern lockers, mail boxes, etc., and will be bestowed in the basement. The building will accommodate independently of the other college buildings by an oil heater.
