

Begin Work On 1932 Granite

Editor Makes Call For More Sophomore Heelers

New Features Planned for Junior Yearbook—All Juniors Must Have Pictures Taken by Tomorrow Afternoon

Work on the 1932 Granite is progressing rapidly according to the editor, Conrad Peterson. Several new features are planned for this year's issue. However, the details have not yet been worked out and so are not ready for announcement.

Twenty-five heelers are working for positions on the staff. This is not as great a number as the staff needs. Sophomores especially are urged to join the competition for positions on the staff of the 1932 Granite.

All junior pictures must be taken before 4:30 tomorrow afternoon. No pictures will be taken after that time. Pictures are being taken at the Commons organization room every day between 8:30 A. M. and 4:30 P. M. All juniors who have not paid for their copies of the Granite should consult Malcolm Brannen at the Kappa Sigma house before having their pictures taken.

The personnel of the 1932 Granite staff is as follows: Editor-in-chief, Conrad Peterson; Business Manager, Malcolm Brannen; Assistant Business Manager, Raymond Whitehouse; Advertising manager, Baron Rogers; Sales manager, Malcolm Chase; Publicity manager, George Blanchard; Men's Managing editor, Stewart Stokes; Junior editor, Edward Hoyt; Men's Organizations editor, Preston Rolfe; Military Science editor, Robert Ayers; Men's Athletic editor, Karl Smith; Men's Questionnaire editor, Francis Kibbey; Women's Managing editor, Nancy Meehan; Class editor, Celia Downing; Women's Organizations editor, Charlotte Atwood; Women's Athletic editor, Ethel Duffy; Women's Questionnaire editor, Audrey Bowman; Faculty editor, Claire Bresnahan; Fraternity editor, Eileen Gadd; Special writer, Florence Baker; Art editor, George Abbe; Assistant Art editor, Arline Hooper; Photographic editor, Mary Seyward; Assistant Photographic editor, Margaret Egbert.

CATTLE JUDGING TEAM IN NATIONAL DAIRY CONTEST

The Dairy Cattle Judging Team, consisting of Joseph T. Brown, Ralph Dodge, and Edward Mecheski, is attending the National Dairy Show being held at St. Louis this week. The team will compete in the intercollegiate judging contest. Professor J. M. Fuller is in charge. All members of the team are juniors.

RALPH N. MILLER ELECTED PHI MU DELTA PRESIDENT

At a recent meeting of the Phi Mu Delta fraternity, Ralph N. Miller, '31, of Townsend, Massachusetts, was elected president of the organization in place of J. Raymond Sawyer who was forced to resign his position because of the University extra curricula activities point system. Miller was former vice-president of the fraternity and a member of the 1931 Sphinx. He served as assistant manager of baseball last spring and is a member of the Y. M. C. A. cabinet.

John Cleary, '31, of Manchester, was elected to the office of vice-president to fill the vacancy left by Miller.

Professor Neserius Proposes Plan for International Comity

NOTICE

The athletic department wishes to call attention to the rules governing the use of A. A. tickets both for the benefit of the holders and for its own protection.

The conditions are clearly stated on the tickets but there have been frequent claims of ignorance. Every student should read the conditions carefully. Each ticket must be signed by the owner with ink. It does not admit to freshman games. The athletic department is not responsible for any loss of the ticket. The ticket is not transferable and cannot be loaned.

These are and have been the standard rules but on account of some abuses a new rule has been added as follows: "A Student ticket presented by anyone but the owner will be taken up and admission refused bearer." If so taken the owner's name will be filed with the Dean of men, and the privilege of an athletic ticket denied for the remainder of the college year.

The department would welcome a spirit of co-operation from the student body and wishes to urge upon them an active loyalty to the University in all its interests, athletic as well as scholastic and social.

Frosh Victors Over B. U., 21 - 0

Terriers Overwhelmed From Start to Finish

Great Improvement Over Exeter Game Evident—Team One Of Lightest In Years—Brewster And Tilton Next Opponents

By winning over the Boston university freshmen last Saturday by the score of 21 to 0 the New Hampshire freshmen showed that the playing of the team in the Exeter game was not just a flash in the pan but that the first year men have a scrappy, aggressive organization and without doubt will improve with the next few games.

The score of the game does not tell the story because the winners should have scored several times more and had it not been for a penalty and a continuous line of substitutions the score would have been different.

A very few minutes after the opening of the game the result was plainly to be seen. Graffam threw a pass to Knox which resulted in the latter going over the line for a touchdown. Graffam kicked the extra point with a well directed drop kick. The pass was good for 20 yards and Knox ran the remaining distance, eluding several would be tacklers before he scored.

The second New Hampshire touchdown was scored on a fifty yard run by Knox. This score was made behind beautiful interference by the remainder of the team. Sweetser took out.

By J. Robert Ayres, '32

Two American professors, who teach political science in widely separated colleges, have joined in a proposal whereby the United States will regain back a great deal of the prestige she lost in her attitude on war debts since the World War. These two men are Professor Philip G. Neserius, of the political science department of the University of New Hampshire, and Professor Emerson P. Schmidt, of the economics department of the University of Minnesota, who worked together during the past summer when Prof. Neserius taught at the University of Oregon.

A letter was sent to the *Christian Science Monitor* by these men explaining the plan which was subsequently picked up by other papers throughout the country, until the plan has become a matter of governmental interest.

Now that the question of war-debt cancellations and reducing Germany's financial obligations are temporarily settled, the United States might well take the next step in developing an international esprit de corps which would arouse the esteem of its adversaries and the serious attention of thinking men and women of the world.

It is generally recognized by statesmen, scholars, and missionaries that the good will created between China and the United States after the Boxer uprising of the early years of this century is in a large measure due to the fact that instead of extracting the last pound of flesh, America refunded in part the indemnity which it might have collected. The money due on the indemnity agreement was set aside to create scholarships for Chinese students. The result has been of value to both countries.

Here in America they spend their money; mingle with American men and women; study their cultural origins; try to understand the peculiarities they find here; and return to their native land with new ideas and with a feeling that fundamentally

LIBRARY ACQUIRES HISTORIES OF ART

Important Collection Traces Entire Development of European Art Through the Ages by Articles and Reproductions

An important collection of art books which has recently been acquired by the Hamilton Smith Library will enable interested students to study the entire development of European art through the medium of reproductions of which there are more than two thousand. From the Byzantine mosaics to Rembrandt's "Night Watch," all the great stages of culture are represented. The history of art has been given the most important place because of its immediate appeal but the histories of architecture and sculpture are presented in such a manner that their study will help place the paintings in their proper environment.

These volumes together with Faure's History of Art and Cavalcasse and Crowe's Italian Painting as reference books will furnish complete material for either study or recreation. They are written in both French and German with notices given in English. The German books which come from the famous series, "Klassiker der Kunst," show the whole development of Italian painting, and reproductions of the works of Giotto, Botticelli, Raphael, Titian and other Italian artists are presented. Less complete but more diverse and attractive are the French volumes which deal with the study of schools rather than of individuals. Egyptian art, French sculpture of the middle ages, the Dutch school, and many other periods of art are illustrated by the most typical examples. These volumes are considered one of the most valuable cultural additions to the library and it is hoped that most students will avail themselves of the opportunity to look at them.

NOTICE

Fred A. Gardner will address the members and guests of the Woman's club of Durham at their "Family Tree" night at the Community house tomorrow at eight o'clock. Everyone interested is invited to hear the talk by Mr. Gardner. Cider and doughnuts will be served by the club.

Varsity Tops Lowell Textile

Blue and White Eleven Scores Thrice in Game

Maine Team Looms As Formidable Opponent For Saturday—Memorial Field Location Of Traditional Battle This Year

The University of New Hampshire varsity football team defeated the Lowell Textile team at Lowell Saturday by a score of 20 to 0. The Wildcat team held the upper hand throughout the game, the playing being in the Cowell territory practically all of the time. However, the Lowell Tech team stiffened when the ball neared their goal posts, and although the Blue and White team penetrated to good scoring positions on seven occasions during the first of the game, they could not make a touchdown and lost the ball on downs, only to receive a punt and carry it back up the field again.

In the second half, however, the Wildcats came back as they did in the B. U. game the preceding week and ran up three touchdowns. The first was the result of another series of runs up the field, this time ending with the ball over the goal line. The second score resulted from a short pass near the goal line, Slack to Elizabeth, after another march up the field. The final scoring came in the last part of the game when Eustis, New Hampshire's fleet-footed half-back intercepted a pass and raced down the field sixty-five yards for another six points. Lowell Textile's special plays went for naught, only one making a gain, and the passing during the game was only moderately successful.

On Saturday afternoon New Hampshire's traditional rival the University of Maine team looms more formidable than ever. The teams are evenly matched and the odds are up for the team that shows better development this week prior to the game. Maine has one of the strongest outfits in the last few years, having won both of her first two games decisively. Rhode Island, which gave Brown an even fight was driven under by Maine and the strong Connecticut Aggie team has also received a trouncing from the Maine eleven. New Hampshire has tied one and won one of two easier contests, and both teams should be at their best fighting mettle on Memorial field Saturday. The clash should furnish one of the greatest of the home season openers for some time. Maine is strong, heavy, seasoned and proved on the field of battle.

Word has been received through the office of Edward Y. Blewett, assistant to the president here, that among the guests at the Maine game will be President and Mrs. Harold A. Boardman and Dean and Mrs. L. S. Corbett of the University of Maine.

AUTUMNAL TEA DANCE HELD AT ALPHA XI DELTA HOUSE

On Saturday the Alpha Xi Delta fraternity held a tea dance from 3 to 5:30 at the chapter house. Autumn leaves and jack o' lanterns were used for decoration, and cider and doughnuts took the place of the usual tea and wafers. Mrs. Gertrude S. McClintock, Mrs. Clara Flinders, and Mr. and Mrs. Raymond R. Stark were the chaperones for the afternoon. Among the guests were: Messrs. Robert McNamara, Robert Winer, Robert Richards, Clesson Duke, Cleon Duke, Karl Knabenshue, William Monahan, Frank Randall, George Abbe, Philip Prescott, Frank Horrigan, Robert Ives, Henry Tiffany, Robert Eadie, Oliver Tufts, Richard Daland, Theodore Mozes, Lewis Starke, Robert Griffiths, and Robert Phipps. The Blue Vagabonds furnished music for the occasion.

ALPHA CHI OMEGA ELECTS MORTON VICE PRESIDENT

Sarah Elizabeth Morton, '32, of Concord, N. H., was elected vice president of the Alpha Chi Omega sorority. She succeeds Charlotte Thompson of Manchester. Virginia Thompson, '33, of Manchester, was elected corresponding secretary. She succeeds Carol Mather of Manchester.

Elsie Thurston, '31, represented the sorority at the national convention held at Del Monte, California, last July. She was accompanied by Pauline Nerbonne, '30.

Political Gages Thump on Bar as Mayoralty Tilts Draw Near

"The recent sophomore, junior, and senior class elections will be put to shame and shown up as examples of low grade politics when the annual campaigning for the exalted post of Mayor of Durham starts Monday," said Mayor Soap Blaisdell, whose term of office terminates the evening before the Vermont game, in a private interview with Herald, THE NEW HAMPSHIRE'S Rover Boy Reporter.

It is rumored in political circles that Blaisdell will be a big gun behind the scenes in general to see that fair play is always in order and to safeguard the welfare of his beloved citizens.

Already the gages are thumping on the bar, and campaign plans are being laid in the garrets. Under a camouflage of cigarette smoke the wards are being organized and platforms erected.

From the attic of the Schunmaker estate report comes that William Crowley, '30.5, will be a candidate for the desk in City hall. Who will be the henchmen of "Gentleman Bill" is not definitely known but it is rumored that Paul Blaisdell has been sitting in on the conferences. Henry Kelley, who has already been corrupted by politics in Manchester and week-ends in Lawrence, has long been an advisor to Crowley and no doubt will stick a thumb in the mug. Lady Killer Jack Holt has taken a position as ward boss under the Crowley ticket, and he states that no form of pulchritude will escape his eye.

Tom McKeon has announced that under his managership Edward Haseltine will enter the fray. Haseltine will be remembered as the representative of the people in last year's campaign. Snapper says his experience under the invigorating leadership of "Cy" Perkins will be brought to bear during the coming week. Enzo Serafini, well known in political circles, has accepted a position on the Haseltine staff and promises a deluge campaign. Serry is an old hand at the game, having been manager for Alex Currie in the war of 1928.

UNIVERSITY ASSISTS IN MACHINE EXHIBIT

Dean Taylor Announces New Hampshire's Contribution to New York Exhibition of Science and Industry—"Men and Machines"

In a notice to members of the University of New Hampshire faculty Friday, Dean Frederick W. Taylor of the agricultural college here announced that this institution is co-operating in a modest way with the wonderful exhibit of "Men and Machines" now being shown at the Museum of Peaceful Arts, 220 East 42nd street, New York.

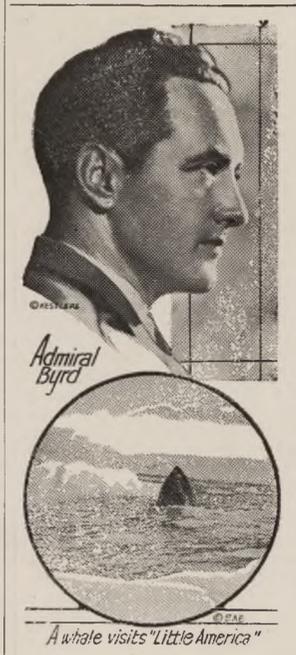

New Hampshire's exhibit consists of the Daniel Webster Plow and other old-fashioned farm tools, Mr. Taylor revealed. "Men and Machines" is a special exhibit of the developments of the last 150 years in contrast to those of the preceding period. It shows that, before 1780, man had a dozen metals. Today he chooses from some 10,000 metals and alloys. It also shows that before 1780, man could command only animal, wind, and water power to supplement his brawn, as contrasted with the steam, internal combustion, and electrical power of today. The exhibit also portrays advancements in tools.

Dean Taylor has urged everyone, having the opportunity, to visit this museum of science and industry which carries this special exhibition until November 15.

ANNOUNCE NEW RULES FOR ALPHA CHI OMEGA PRIZE

The Alpha Chi Omega sorority announces a change in the Alpha Chi Omega prize essay contest rules.

The rules read formerly: "A ten dollar prize will be awarded annually by Alpha Tau chapter of Alpha Chi Omega to the undergraduate student of the University who submits to the head of the department of English the best informal essay of less than three thousand words. The title may be chosen by the student. The essay must be submitted by June 1." Under the new rules, the last sentence has been struck out and the following has been added: "All essays must be written specifically for the Alpha Chi Omega prize. Such essays will be due by May 27, 1931. After the prize has been awarded, all essays will be returned upon request."

A whale visits "Little America"

Fight On For Intramural Cup

Fourteen Fraternities In Basketball League

Hoopsters Continue Play for Trophy Tonight—Relay Races to be Held at Football Game

The intramural basketball season started on October 9 with fourteen fraternities contending. The teams are divided into two leagues. Kappa Sigma, Phi Alpha, Sigma Alpha Epsilon, Phi Mu Delta, Theta Upsilon Omega, Phi Delta Upsilon, and Alpha Gamma Rho comprise league one. League two consists of Theta Kappa Phi, Pi Kappa Alpha, Delta Sigma Chi, Theta Chi, Delta Pi Epsilon, Lambda Chi Alpha and Alpha Tau Omega.

In the first game of the season Theta Kappa Phi trounced Pi Kappa Alpha, 16-9. Too many fouls caused defeat for the vanquished. On the same day, Phi Mu Delta was victor over Sigma Alpha Epsilon, 18-11. Again, too many fouls cost a victory. A weird game was played between last year's finalists when Phi Alpha humbled Kappa Sigma, 15-3. Theta Chi nosed out Delta Sigma Chi, 10-8, in the closest game of the week. The loser's inability to score on foul throws caused defeat. Delta Pi Epsilon outshot Lambda Chi Alpha, 12-5. Alpha Gamma Rho sunk Theta Upsilon Omega, 21-8. The Theta Kappa Phi's continued with high scores by smothering Alpha Tau Omega, 21-7. The week's most decisive victory was conceded to the Phi Mu Delta's, when they defeated Phi Delta Upsilon, 29-3.

The games for the week follow: Tonight, Pi Kappa Alpha vs. Delta Sigma Chi; Sigma Alpha Epsilon vs. Kappa Sigma; Friday, Phi Alpha vs. Alpha Gamma Rho; Theta Chi vs. Delta Pi Epsilon; Monday, Lambda Chi Alpha vs. Alpha Tau Omega; Phi Delta Upsilon vs. Theta Upsilon Omega; Tuesday, Phi Mu Delta vs. Kappa Sigma; Theta Kappa Phi vs. Delta Sigma Chi; Wednesday, Sigma Alpha Epsilon vs. Phi Alpha.

The Delta Pi Epsilon's, by virtue of victory over Theta Upsilon Omega, moved into the semi-finals of the intramural relay. They will race at the Maine football game, with Lambda Chi Alpha who ran into the semi-finals by defeating Theta Chi.

Phi Mu Delta and Alpha Tau Omega, who were scheduled to race on October 14, will play off the post-ponement this evening for position in the semi-finals. The winner will race at the Maine game, with Delta Sigma Chi, to which team Phi Alpha forfeited.

PLEDGING NOTICE

Alpha Sigma chapter of Kappa Delta announces the pledging of Constance Tobey, '33, of Hampton, and Beatrice Nutter, '33 of Rochester.

Byrd Addresses Large Audience

Interesting Pictures Feature Lyceum Program

Feats of Comrades and Tales of Antarctic Perils Graphically Told by World Famous Explorer

Rear Admiral Richard Evelyn Byrd, the conqueror of the Arctic, the Antarctic, and the Atlantic by air opened the University Lyceum course for 1930-31, last evening at 8.00 P. M., with a vivid description of his adventures and accomplishments around the curious little city of Little America. He illustrated his lecture with a new series of motion pictures selected and assembled under his own personal direction.

The city of Little America, situated about seven and a half miles from the edge of the Ross ice barrier, was most interestingly described and pictured by Admiral Byrd. Many of the difficulties encountered during the construction of the "capital city," as for example, the numerous blizzards, the breaking of the barrier, and the crossing of the many ice crevasses were portrayed.

He described the feats of his comrades and praised their work which made possible his flight to the South pole. Then with his well-known modesty he explained that which he accomplished for science and knowledge.

His motion pictures included views of the unique little Adelie penguins, schools of killer whales, dog teams in action, and many kinds of seals and petrels along with many scenes of action as flying over the Liv and the Axel Heiberg glaciers and the South pole. Numerous pictures were shown of the ice barrier and its treacherous pressure ridges and crevassed areas, the ice-coated City of New York, the pack ice in Ross sea, the *Floyd Bennett*, and of little Igloo, the inseparable mascot of all Byrd's adventures.

This is the second time the University Lyceum course program has been graced with the young flying cheviator of the air for back in 1927, just before sailing on this famous expedition to Little America, he was again the leading feature of the program. It is also the second time that he has been so enthusiastically received by a record student and out of town audience.

Admiral Byrd arrived in Dover from Portland, Maine, early yesterday afternoon where he was met by a group of New Hampshire officials including Major Hugo E. Pitz of the military department and Raymond C. Magrath, business secretary.

The second number of the Lyceum course for the year will bring to the University a super-man in the art of magic, Frederick Dunworth. On Wednesday, December 3, the University audience will see the master of sleight-of-hand perform. He has successfully mystified record audiences for over a quarter of a century.

ALBERT LAZURE ELECTED SENIOR CLASS PRESIDENT

Albert Lazure was elected president of the senior class at a meeting held Monday night. Lazure is a member of Pi Kappa Alpha social fraternity. He is a member of the cross-country, winter sports, and track teams. He is also a member of Blue Key, Sphinx, and a member of the Student Council, and is president of the Athletic Association.

J. Raymond Sawyer was chosen vice-president. He is a former president of Phi Mu Delta social fraternity and is the present head of Tau Kappa Alpha. Sawyer is manager of 1931 track and has been recently elected to the executive committee of the N. E. I. A. A. Other activities include membership in Casque and Casket, Blue Key, and Student Council.

The position of secretary will be filled by Lois Jackson, who is a member of Theta Upsilon sorority and vice-president of Phi Lambda Phi.

Kenneth Buckminster was elected treasurer. He is president of Phi Delta Upsilon social fraternity, circulation manager of THE NEW HAMPSHIRE, treasurer of Casque and Casket, and vice-president of Blue Key.

Paul Reed heads the commencement ball committee. Other members include Granville Shattuck, Francis Robinson, George Hadley, Betty Melendy, Elizabeth Gates, and Lillian Trombly.

MUD

The fraternity politicians went better organized than ever before to the junior and senior class meetings Monday night, and succeed in making open hostilities in both. We derived considerable pleasure from the unscheduled appearance of 20 non-fraternity persons at the junior meeting, thereby disrupting the plans of both combinations.

There were only two unattached men at the senior meeting as far as we could discern. We little wonder at that. The "barbs" must feel pretty discouraged at ever getting recognition. We wonder still less that there are men far more intelligent and capable than the Greek politicians hidden away in dormitories and harboring socialistic theories.

The actual result matters little; it is the ear-ache we get listening to the post-mortems. Although both parties talk incessantly about electing the man most fitted, it is evident that hollow honor and rushing prestige are the immediate motives. There is nothing so complicated about the majority of class offices that the average Durham high school boy could not discharge the duties satisfactorily. But since fraternity politics have come to be a recognized American college institution we can do no more than show our indignation and disgust that the vanity of man should lead him into practicing shallow deception and trickery.

CONSTRUCTIVE WORK

An article will be noticed elsewhere in this issue on the proposed plan for war debt scholarships presented by one of our more recent additions to the faculty in the Department of Political Science.

This, work, as well as other writing done by Professor Neresius, has already gone far toward gaining for the University recognition it really deserves. The majority of students do not seem to realize that work of this kind done by members of the faculty always reflects back on the institution in which the professor is teaching, although the school may not take notice of such work. In other words, we gain without showing appreciation. We are usually uninformed from direct sources and the first we hear of this and similar projects is from some outside source. We should be the first ones to show an interest in such activities, realizing that by making a name for himself in national and international affairs such a member is carrying with him the name of the University of New Hampshire and the entire student body, gaining for them whatever recognition he may obtain for himself. In this way other circles begin to regard us with new interest, and cease to consider as merely a small college, but a productive institution capable of producing intellectual stimuli which set the civilized world thinking. For this reason we of the student body should consider it our duty to wish the professor success in attaining the aims of his plan.

J. R. A., '32.

To the social committee should be given the honor of conducting the most informal dances recorded in history. It may be that fear of embarrassment from the more uncouth and less superior members of the University has led to the present ice box system.

We have been present at quite a

FROM OUR MAIL BOX

Editor of THE NEW HAMPSHIRE

Dear Sir:

Ever since Freshman week the drinking fountain system on the first floor of Fairchild hall has been seriously in need of immediate repairs—in fact it does not render the fluid at all when the request is demanded of it. Why is this deficiency permitted? Why can not a new fixture be installed? Do they think we are all dries? (Not rhetorical questions.) The roomers on the first floor earnestly solicit any aid you may be able to render us in regaining the use of our health-giving apparatus.

Sincerely yours,
Why Nott, '33.

To the Editor

Dear Sir:

One subject the mayoralty candidates would do well to advocate seriously in next week's campaign is cooperative buying of foodstuffs by fraternities and sororities.

The advantages of cooperative buying are obvious, the greatest, of course, being the appreciable saving of money. The disadvantages are equally as obvious, the greatest being fraternity politics.

However, the element of politics could be kept out of the business largely by directing the business through Casque and Casket and Pan Hellenic, which truly represent every fraternity and sorority on the campus. The job of buying would require the full time services of an experienced buyer.

It will take ten years of continuous pounding to get this proposition across to the student body at large. It is a breaking away from the established order. However, we start the struggle and hope some fool will carry on after we have graduated; we have our children's interests at heart.

D. L. S. and T. E. R.

N. E. I. A. A. ELECTS SAWYER TO EXECUTIVE COMMITTEE

J. Raymond Sawyer, '31, of Plymouth has been appointed to the executive committee of the New England Intercollegiate Athletic association and attended his first meeting at the Lenox hotel in Boston Sunday, according to an announcement by Director William H. Cowell of the University of New Hampshire athletic department. Sawyer is the first member to be selected from New Hampshire although this institution has been a member of the association for several years.

The chief purpose of the meeting was to elect a graduate secretary-treasurer to fill the vacancy of Major Briggs who died. E. J. Theberge of Lawrence, Mass., was selected.

Sawyer is a member of Phi Mu Delta fraternity and belongs to a number of honorary organizations on the campus. He was recently elected vice president of his class.

number of parties at colleges other than New Hampshire and have always been cordially received though only a rank outsider.

For a remedy we suggest a stag line, the age old remedy for dull parties the world around. It is recognized feature at balls everywhere and is to be found in almost any college.

We cannot move around in a steady circle of friends all our lives, and no doubt it would be worthwhile learning a little of other people and acquiring poise in treating decently people we know little or nothing of.

A political candidate in Boston has evolved a plan to make the Harvard stadium bone dry. We proceed to eclipse that bit of fancy in a single bound by proposing to drain the northern half of the Atlantic into the southern portion in order to make conditions better for trans-oceanic flyers not equipped with water wings.

Casque and Casket pre-rushing appear to mean little or nothing in actual practice. We have caught seven fraternities in violation of the rules so early in the season.

by Enzo Serafini

Tammany Hall may have the reputation but the real science of politics must have had its birth in Durham. Witness the recent class elections.

We must congratulate the winning faction in the recent senior elections. It was the most thorough, complete, and finished piece of fraternity politics that we have ever witnessed... or hope to witness.

It may all seem a big joke and all that but nevertheless the situation is really serious. Are we electing men or are we electing faction members? What is it going to prove in the end? Are we benefiting the school?

If we could think of a suitable escape from fraternity politics we would be only too glad to suggest it. Meanwhile all ideas would be welcomed by THE NEW HAMPSHIRE.

From a non-partisan viewpoint it seems that Senior Skulls and Blue Key had it out with the latter gaining the decision.

We maintain that a man is a man wherever he is and that whether he is governor of a state or a hod carrier will make him no more nor less a man. Which goes to prove that the organization of the Keys against the Skulls was both unnecessary and petty.

We are informed that a new beverage has been concocted on the campus and named the Wildcat. The exact formula has not as yet been disclosed. We are told, however, that the name is derived from the fact that the drink goes down sleek and smooth and after a little while claws and claws.

This story is pathetic and yet it has humorous aspects. A freshman, working in a local hashery, was taken downstairs to the storeroom. There he was shown stacks of dummy candy boxes and was confidentially told that he could have one after the boss left. In the interim the generous donor cut out the bottom of a candy box and inserted garbage in it. The freshman trudged happily roomward with his candy. But alas, the joyous opening did not occur at his room as the donor had intended. No. The lad had a girl on campus. He would give the box to her. He was a kind soul. Here our tale must necessarily end. You can construct the remainder of it.

Overheard just before dinner in a fraternity house. One man enters the room and another bellows to him from the other side of the room, "Hey B—, what time did you wake up in that ——— course anyway?" *Discreetly omitted.

Once upon a time there was an election unmarred by politics. Adam voted for himself.

Maine invades Saturday and it will be a game worth seeing. The Pine Tree Staters are traditional rivals of the Wildcats and there is always a scrap when the two meet.

Try cheering out loud for a change instead of just making your mouth work. Cheering has been woefully weak at New Hampshire the last few years.

How about a few contributions?

PLEDGING NOTICE

Delta Delta chapter of Alpha Tau Omega announces the pledging of Richard Low, '33, of Derry.

Lambda Chi Alpha announces the pledging of Kenneth Kearns, '33, of Wolfeboro, N. H.

TESTING MATERIALS LAB. MOVED TO CONANT HALL

The Testing Materials laboratory of the Mechanical Engineering department has been moved to the basement of Conant hall. Professor Edward L. Getchell is in charge.

In addition to old material which has been moved over from DeMerritt hall there is a new Universal one thousand pound testing machine. The department of Mechanical Engineering has designed and is now building a beam testing machine which will take full size beams up to ten feet in length. This machine will also be located in the new laboratory.

The laboratory is intending to have, within the next few years, a full equipment of testing machines including a large Universal machine and probably a column testing machine.

DEAN CASE SPEAKS BEFORE CLAREMONT ROTARY CLUB

George W. Case, Dean of the College of Technology, addressed the Claremont Rotary club Tuesday afternoon. Dean Case's talk was concerned with the university, especially with the College of Technology.

FROSH VICTORIOUS OVER B. U., 21 - 0 (Continued from Page 1)

the only B. U. man in position to stop Knox.

The third and last touchdown was made possible by Graffam who gained fifty yards in four consecutive rushes to place the ball on the B. U. one yard line. From here Gailen rushed through tackle for the last touchdown. Graffam, for the third time kicked the extra point, making the score 21. Broad, Smith and Brattin played well for the visitors.

The offensive strength of the team has improved greatly since the Exeter game and the way that the men interfered and blocked helped a great deal in the victory Saturday. The backs ran well, but without the fine interference the line gave they could not have been as successful as they were. According to Coach Lundholm the timing of the offence will have to improve.

This team is one of the lightest that Coach Lundholm has had in the three years that he has coached freshman evens, and to date it is one of the scrappiest as well.

This week-end while the varsity is engaged with Maine the freshman squad will be divided into two teams, A and B. Team A will go to Tilton and meet Tilton school. Last week Tilton held Dartmouth freshmen 19 to 7. Tilton undoubtedly has one of the strongest teams in years.

While this group of freshmen is at Tilton, the group designated for the day as team B will go to Wolfeboro and contest with Brewster academy. This team was defeated by Holderness and according to Coach Lundholm is in the class with any freshman team B.

The grouping of men into A and B is not to be done until the day before the game and on the following Monday the teams will combine and work as one unit until it is necessary to make another division. These divisions are always temporary and never permanent.

OUTING CLUB MEMBERSHIP DRIVE STARTS TODAY

The Annual Membership Drive of the University of New Hampshire Outing Club starts today. Following the plan adopted last year outing club banners will be presented to the fraternity, sorority, men's dormitory and women's dormitory having the largest percentage of paid up members. Membership in the outing club entitles the member to use without charge of all property belonging to the club. The club sponsors all kinds of out of door recreation for its members. It is a member of the U. S. Eastern Amateur Ski Association and through its membership furnishes the only representation the institution has in the Eastern Association. Do you want to continue these activities at the University of New Hampshire? If so join the outing club now. The membership fee is one dollar per year. We want a one hundred percent membership this year.

DEAN CASE SPEAKS BEFORE CLAREMONT ROTARY CLUB

George W. Case, Dean of the College of Technology, addressed the Claremont Rotary club Tuesday afternoon. Dean Case's talk was concerned with the university, especially with the College of Technology.

LOCAL A. A. U. W. TO HOLD FIRST MEETING TOMORROW

The Great Bay branch of the American Association of University Women will hold their first fall meeting Friday at 3 P. M. in Smith hall.

There will be a short business meeting at which time the year's program will be given and discussed. A program has been planned consisting of reading of poems by our well known poetess, Miss Agnes Ryan, with music by campus musicians. Tea will be served. The year's program promises to far excel that of previous years in interest. Mrs. Edmund Cortez and her program committee has several very worthwhile meetings planned.

Miss Gwendolyn Jones, as study group chairman, has organized the following very promising groups: The art group, which will continue their interesting resume of art. The choice for this year is English art. The theatre group will study the origin of the theatre and its problems. The athletic group will attempt to keep up their agility by some practical means, even though they may now be sedate graduates. Keeping abreast of the times will probably be the most pretentious study group with numerous lectures by various authorities along educational interests, such as history, science, psychology, philosophy, sociology, art, literature, library work, and education.

The Great Bay branch feels unusually fortunate in its opportunity to secure so many talks and lectures by the university faculty members.

RECEPTION HELD FRIDAY FOR MEMBERS OF FACULTY

The annual reception of President and Mrs. Edward M. Lewis of this University to the faculty was held in the main dining hall of the Commons Friday evening.

Several entertainers, all of whom are members of the faculty, took part in the program of the affair. A group of piano selections was presented by Professor Robert W. Manton, of the music department. Miss Frances De Wolfe, instructor in voice, sang several selections. Professor William G. Hennessy of the department of English read a paper which he had prepared for the occasion, and Dr. Harold A. Iddles, head of the chemistry department, sang several numbers.

Following the entertainment, dancing was enjoyed by the guests, music being furnished by the Blue Vagabonds.

NOTICE

THE NEW HAMPSHIRE regrets the error in last week's issue as regards the resignation of Bandmaster Lewis Swain from the faculty of the University.

The facts of the case are that Mr. Swain has been granted a leave of absence from this institution for a period of one month at the end of which time he will resume his position as leader of the band.

DIRECTOR KENDALL VISITS NEW JERSEY

Only New Hampshire Representative at Fiftieth Anniversary Celebration of Agricultural Experiment Station

New Hampshire was represented at the 50th anniversary celebration of the New Jersey agricultural experiment station last week by J. C. Kendall, director of the extension service and agricultural experiment station of the University of New Hampshire. Six internationally-known scientists were presented with honorary doctor-of-science degrees by Rutgers University at the closing exercises of the event.

The men so honored were Sir John Russell, director of the Rothamsted experimental station, Harpenden, England, one of the world's leading investigators in soil fertility and plant nutrition; Dr. Sigurd Orla-Jensen of the Polyteknikum, Copenhagen, noted for his investigations on dairy bacteriology; Dr. L. O. Howard, principal entomologist, U. S. Department of Agriculture, who has received wide recognition for his fight against the mosquito and other insects; Dr. Lafayette B. Mendel of Yale University, who has made many contributions to the present day knowledge of proteins, and other foodstuffs; Dr. C. F. Marbut, chief of the soil survey division, U. S. Department of Agriculture, under whose direction all of the soils of the United States are being mapped and classified; and Dr. Theobald Smith, director emeritus of the Department of Animal Pathology of the Rockefeller Institute for Medical Research at Plainsboro, New Jersey.

JUNIOR CLASS CHOOSES WETTERGREEN PRESIDENT

Charles Wettergreen was chosen president of the junior class at the first meeting of the year on Monday evening. He is a member of Sigma Alpha Epsilon social fraternity and is on the football squad.

Gordon Thayer, last year's treasurer, was elected to the position of vice-president. He is a member of Phi Mu Delta social fraternity and a hurdler on the track team.

Jean Nevin, a member of Alpha Chi Omega sorority, will act as secretary; and Malcolm Chase, a member of Theta Chi fraternity will fill the position of treasurer.

Mesopotamian Farmer Studies Under Direction of University

by Charles Walker

The Statistician is back on the job again. And the first thing that crossed his eager vision was a letter to the University from a man who is, undoubtedly, at present the student coming from the home farthest distant. Unless we are ignorant of our geography, he lives farther away from the University than any other student has in the whole history of the University. Just imagine staying in Baghdad, Iraq, right at home and studying at the same time, with the University of New Hampshire in Durham, New Hampshire in the United States. Looks as though we were really getting well known even if it is in the agricultural way. The letter is so interesting that we append it *verbatim*: "The New Hampshire College of Agriculture, Durham. Dear Sirs: I am willing to have Poultry Husbandry course and I will be obliged if you would kindly let me know if you would conduct such course by correspondence. Would you kindly send me full particulars and the amount of the course fees you charge me? I am interested in Poultry only. Yours obediently, K. Hamdy. Address: Khalid Hamdy, 12-72 Haiderkhana St., Baghdad, Iraq." In case you didn't already know it, Iraq, is just another name for Mesopotamia.

It certainly looks as though, with modern poultry methods thus worming their way into the romantic atmosphere supposed to lurk in the metropolis of Baghdad, the prices of eggs in that particular section of Asiatic Turkey may drop considerably and, incidentally, Khalid had better look out or things will drop on his head if his poultry commit the folly of waking a neighborhood accustomed to early morning quiet, as they seem to everywhere in the U. S. Haiderkhana Street in Baghdad will soon become, we suspect, a much noisier street than it has been in the past.

Mr. Hamid's is the first enrollment this fall in any of the fifteen extension service correspondence courses. A year ago a total of 162 people, the majority rural New Hampshire folk, started the courses in soils and fertilizers, farm crops, farm stock, orchard management, dairy farming, poultry husbandry, swine husbandry, the farm woodlot, vegetable gardening, bee keeping, small fruits, farm management, feeding the family, clothing the family, and household management. The majority of the enrollments in these courses are received during November and December.

Then the Statistician dropped in on his reliable friend, the Registrar, whom most of us know as just Dad. Dad had a lot to say about certain significant facts shown by a close in-

spection and thorough perusal of the tables of miscellaneous data he is still busy compiling. Mr. Henderson says that for the past six years there has been a constant increase in the enrollment of the College of Technology and a corresponding decrease in the College of Liberal Arts. The Technology college this year has reached the 400 mark. The Registrar comments further that "New college students are showing a greater tendency toward a technical training with a corresponding decrease in evidence among those entering the more general education offered by the liberal arts college."

Although there are comparatively few who enter the Agricultural college, there is a slight increase in freshmen taking agriculture this year. It is significant, furthermore, that seven students from out of the state have come here this year for agricultural training.

The freshman class now numbers 462. Of these, 271 are in the Liberal Arts College, 154 in the Technology college and 37 in the Agricultural College. The total enrollment is 1,558 which is just 20 more than the 1,538 who were here last year.

At present there are 99 in all in the College of Agriculture, all of whom are men. Women seem to be shy of farming, for which we don't blame them a bit. In the College of Liberal Arts there are 1,014 students in toto, 555 of them men and 459 women. Pretty evenly divided there. Not quite 100 more men than women. In our engineering college there are exactly 400. Only two of these are women. And then, of course, there are 40 graduate students, 24 men and 16 women. Add to these the 27 men who are taking the two-year agricultural course and we have the grand total of 1,580 students, 1,103 men and 477 women. Over twice as many men as women. Last year there were 1,080 men and 469 women, making a total of 1,549.

In a percentage comparison of last year with this we find that there is a 46% increase in freshman enrollment in the College of Agriculture, an 18% decrease in upperclass enrollment in the same college, and a 28% increase in the two-year enrollment. There has been six-tenths per cent decrease in the total enrollment in the Liberal Arts College, a very slight decrease indeed. In the Technology College there has been a 10% increase. The increase in toto for the entire University enrollment is 2%. All this, of course, does not take into consideration the ever-growing enrollment in the summer school, which the University has maintained now for several years.

Well, that's enough figures for one reading. We'll have more for you next week.

NANCY CARROLL FEATURED IN AUTHOR-DIRECTOR MOVIE

"The Devil's Holiday"—a new Nancy Carroll picture, is coming to the Franklin Theatre tomorrow.

It is an original play by Edmund Goulding, sensational author-director. Goulding chose a typically American locale—the Mid-Western wheat country, for this stirring romance drama. It concerns the lives of God-fearing farmers and the enemy-breed, the urbanites who attempt to prey upon them.

As a gold-digging manicurist in league with several tricky salesmen, Miss Carroll gets a commission for winning and dining the farmer-buyers of agricultural implements. After she gets them "ga-ga" about her, the salesmen put over the finishing touches by closing the sales. It's an "on-the-level" racket, but it's not exactly open and above board, and there comes a day when Nancy regrets that she ever engaged in it, for she falls in love with Phillips Holmes, handsome young son of a wealthy farmer, after she baited him for a deal with a tractor salesman.

Heavy emotional scenes follow when Nancy tries to compromise her mode of living with the simplicity of life to which Holmes has been accustomed. The story has many stirring, dramatic moments.

PHILLIPS-EXETER HEAD SPEAKER AT CONVOCATION

The second convocation of the fall term was addressed by Dr. Lewis Perry, principal of Phillips-Exeter academy. The well-known speaker was introduced to the student body by Dr. Edward M. Lewis, president of the university. Dr. Perry's talk revealed a real understanding of the complexities of college life. His message was enthusiastically received, a fact which bears witness to his wide experience in dealing with those engaged in the process of acquiring an education.

Dr. Perry is recognized throughout New England as an able analyst of the adolescent mind and because of this is much in demand as a speaker, especially for young people.

POLITICAL GAGES THUMP ON BAR AS MAYORALTY TILTS DRAW NEAR

(Continued from Page 1)

Accompanied by the twanging of a banjo comes the information that Edward Bromley, x-'37 (Brom is not the mystery murderer of College Point) has thrown his hat in the ring. Wade Roberts has signed the pledge as Banjo's manager. Neither of these boys have had any previous experience in political jamborees, but there is little else they have not tried and both are willing.

Robert Leitch has taken off his gauntlet and will exhort the populace of Durham under the guidance of Fred Gardner, Seth Lamson, and Paul Blaisdell, who from advance reports must be tramping around from one camp to another in seven league boots. Leitch is familiar with economic, social, and political conditions in Durham and its environs. He is a veteran of the memorable race of 1927 when he held the position of assistant to candidate Rowland Smith. He says he became so fed up with the annual promise of steam heated sidewalks by mayoral candidates that during the summer he arranged the installation of the extensive system now under construction on Main street.

All Durham is looking forward to an exciting campaign, and prognosticators are giving the advance information that the U. V. M. eleven will be drowned in the fun and good cheer that will accompany the election of any one of these candidates.

FRESHMAN CLASS ELECTS FRANK KNOX AS PRESIDENT

Frank Knox was elected president of the class of 1934 at a meeting in Murkland auditorium, Tuesday evening. Knox attended Clark school at Hanover before entering New Hampshire. He is a member of the yearling football team. The president was elected chairman of the class at the first class meeting held during Freshman week.

The other officers elected were: vice-president, Harrison Chesley; secretary, Edna Tibbetts and treasurer, Robert Downes.

HILL AND DALERS RUN NORTHEASTERN

Varsity and Freshman Cross Country Races to End on Memorial Field Between Halves of the New Hampshire-Maine Game

Although defeated by Harvard, the New Hampshire varsity hill and dalers are confident of taking the Northeastern university team into camp next Saturday when the first home race of the season will be held.

Captain Henry Hazen of the Wildcats is favored to lead the pack to the tape over the gruelling five mile course. The race will wind up on Memorial field in front of the main stand and will be timed to end between the halves of the football game.

Coach Sweet has put the team through a stiff practice session this week and he is confident that the squad will come through with a victory. The Northeastern outfit was recently beaten by the crack Bates college team.

Boasting wins over Harvard and Holy Cross, a fast group of New Hampshire freshman speedsters will toe the mark against the Northeastern yearlings at the same time.

Henry Raduazzo, freshman leader, is picked to repeat the win he blood in the first race. Edward Hood, Maurice Nonbonne, and Richard Lowe will strive to annex places among the first five and give the race to the

FRESHMEN NOTICE

Those who did not receive their dollar subscription rebates Monday or Tuesday may get them next Monday afternoon between one and two o'clock. This is the last chance.

DURHAM PLAYERS MEET TO REORGANIZE FOR SEASON

Members of the faculty and townspeople who are interested in the production of plays, met in the Community church Monday evening to reorganize the Durham Players for the coming year. The following leaders were chosen to select casts and plays and also to elect a president and secretary: Mrs. H. H. Scudder, Mrs. George White, Mrs. J. O. Wellman, Mr. E. Y. Blewett, Mr. John A. Floyd, and Mr. E. Barton Hills.

Sixty-five people belonged to this organization last year and were very successful in the giving of four one-act plays, *French Without a Master*, *Tie Game*, *Crabbed Youth and Age*, *Wurzel Plummary*, and *Johnny Appleseed and Paul Bunyan*.

Kittens.

The freshman course is approximately two and one-half miles long and the race will end on Memorial Field.

MISS RUMNEY AT SUMMER CONCLAVE

Theta Upsilon President Delegate to National Convention at Biloxi, Mississippi—Visits New York, Washington, and New Orleans En Route

During the past summer Miss Jeanette Rumney, president of Tau chapter of Theta Upsilon sorority, attended the national convention of Theta Upsilon at Biloxi, Mississippi.

Miss Rumney went from New York to Washington by train. After spending a few days in Washington, she continued to Biloxi where she was met by a representative of the Chamber of Commerce.

The delegates to the convention were guests of the Buena Vista hotel, which overlooks the Gulf of Mexico. The conference lasted for five days during which time members were entertained by the Chamber of Commerce.

The convention consisted of business meetings, a Watermelon Spree, a tea held at the Country club, a real southern dinner, a visit to the Island of Caprice and a formal dance to which southern members of Lambda Chi Alpha fraternity were invited as guests.

Miss Rumney then went to New Orleans where she stayed for a time finally returning by boat to New York and then home.

Both Pocket and Desk Pen Now in One

Only Parker Duofold SAVES PRICE OF A SECOND PEN Offers This Combination PEN GUARANTEED FOR LIFE

As a Pocket Pen
Getting the Parker Duofold is now like getting two Pens at the price of one. Attaching a tapered end converts it into a Desk Set Pen. Removing the taper restores it to a pocket Pen.

Even at higher prices, other makers have been unable to match this classic. Now that it takes the place of a special pen for the pocket and another for the desk, its sales are soaring beyond all previous heights.

Go and ask the nearest dealer to show how the Duofold is changed back and forth from a Pocket to a Desk Set Pen. If you own a Parker, take it with you. If not, go anyway and see this revolutionary invention.

THE PARKER PEN COMPANY, Janesville, Wis. Offices and subsidiaries: New York, Chicago, Atlanta, Buffalo, San Francisco, Dallas, Toronto, Canada; London, Eng.; Berlin, Germany.

★ Point-smiths Paid a Bonus
Eleven merciless inspections are given each Parker Duofold point. Then we pay a bonus to our point-smith who made it. Points are rejected if they fail even one inspection, and the point-smith pays us a forfeit. Yet, 7 out of 8 points earn a bonus, because we limit each man to a given number a day.

Parker Duofold
PEN GUARANTEED FOR LIFE \$5 \$7 \$10

THETA U SORORITY OCCUPIES NEW HOME

Local Chapter Of National Organization Purchases House On Madbury Road—Mrs. Ralph C. Currier To Continue As House Mother For Group

Tau Chapter of Theta Upsilon sorority, installed at this university last spring, moved, the first week of this term, into its new house at 25 Madbury Road, where 23 members of the sorority together with their house mother, Mrs. Ralph C. Currier, are now residing.

The house, which is a three story structure, was purchased from Lester Langley of Durham during the latter part of the spring term, and during the summer months was remodeled for the accommodation of the new occupants. The sorority originally resided on Strafford Avenue in the house now occupied by Delta Epsilon Pi fraternity.

One of the outstanding features of the new property is the building used as the chapter room. This structure is a one story building, located on the east side of the grounds and was used as a tea room a few years ago. This building is large enough to accommodate the entire membership of the organization and is used for meetings and other chapter affairs.

The purchasing of this house by the Theta Upsilon sorority makes a total of nine houses located on Madbury Road which are now occupied by either fraternities or sororities.

PLEDGING NOTICE

Phi Delta Upsilon takes pleasure in announcing the pledging of Andrew Nickerson, '33, of Portsmouth, N. H.

Many Teachers In 1930 Class

Twenty-five Candidates Earn Master's Degree

Eighteen Graduates Received Positions Early in Spring Term—Teachers Located from Vermont to Nebraska

Of the members of the class of 1930 who received a bachelor's degree last spring, 78 have accepted teaching positions. In addition, 24 of those who received the master's degree in 1930 are teaching this fall. The list of masters is as follows: Allan, William H., Hartford, Vt.; Bailey, Thomas C., Hartford, Conn.; Beales, Robert B., Keene, N. H.; Connor, Regina, New Britain, Conn.; Daggett, Albert F., U. N. H.; Eddy, George N., Springfield International College, Springfield, Mass.; Ekdahl, Hulda, Reed's Ferry, N. H.; Elliott, C. Ned, Montpelier, Vt.; Germonty, Francis, Manchester West; Herzog, Fred J., Simsbury, Conn.; Joyal, Raymond, Southington, Conn.; Kendall, Raymond O., Weathersfield, Conn.; Martin, Josephine, Bureau of Juvenile Research, Columbus, O.; Melville, Eva H., Springfield, Mass.; Melville, George Donald, Springfield, Mass.; Nulsen, William B., U. WILMER KITCHEN ADDRESSES Y. M.-Y. W.

Secretary of College Christian Association Direct from International Conference in Switzerland Speaks on "The World Student Christian Movement"

A joint meeting of the Y. M. C. A. and Y. W. C. A. was held in the Commons organization room on Thursday evening at which the speaker was Wilmer J. Kitchen of Boston, Secretary of the College Christian Association. His subject was "The World Student Christian Movement." Mr. Kitchen has just returned from an international student christian conference held in Switzerland and he brought with him a great amount of interesting material.

Saturday and Sunday a deputation team made up of Norman Wright, '32, Wayne Ricker, '32, Gunther Blombach, '34, and Benjamin Andrew, the secretary, journeyed to Keene. Meetings were held in Westmoreland on Sunday morning and at the Court Street Congregational church in Keene in the evening.

Tonight Paul Schoedinger will play a series of victrola records. Mr. Schoedinger has added several new recordings to his collection during the summer. The meeting will be held at 7.15 in the Commons organization room.

PLEDGING NOTICE

Zeta Chapter of Theta Chi fraternity takes pleasure in announcing the pledging of Earle S. Greenwood, '31, of Goffstown.

PROFESSOR NESERUS PROPOSES PLAN FOR INTERNATIONAL COMITY (Continued from Page 1)

America is sincere in its insistence of the Open-Door Policy in China and a freedom for all nations to develop internally in accordance with the cultural and life-giving forces within them.

Since 1920 the United States has lost a great deal of its prestige in Europe. Our friends across the Atlantic are skeptical and suspicious of the conduct of our foreign policy. A finger of scorn has been pointed our way and we have even had to hear the epithet of "Shylock." Might it not be opportune for us to initiate another master stroke of noblesse oblige, by repeating our remission of the Boxer indemnity, this time by creating scholarships for European students? We are collecting millions from the European countries in war debts, and the payment of damages on the part of Germany is making it possible for us to collect this money.

If the United States set aside, it is proposed, \$1,500,000 out of its annual war debt collections, it would create 1,000 scholarships of \$1,500 each which would bring to the universities of this country 1,000 college men and women destined to be among the future leaders in the political, educational, financial, economic, and social affairs of their respective countries. At the present rate of payment this would amount to only about three-fourths of one per cent of the annual debt payments to the United States. The candidates would, of course, be selected on the basis of scholastic attainments and training and qualifications by their own countries. Provisions should be made whereby the candidates could be the recipients of the scholarships for two and three years in succession if deemed advisable.

To give the plan all the aspects of good will available it might be well to have the United States transfer the funds to the international bank at Basel. The plan would be administered to the Bureau of Education of the Department of the Interior of the United States, and the Social Research council of New York City might be designated as an advisory body.

In regard to the distribution of students among the 27 European nations, we recommend that any country's quota be equal to the ratio of its own population to the total European population multiplied by 1,000. That is, if the total population of Europe is 450,000,000 and England's population is 50,000,000, then England is entitled to send us each year one-ninth of 1,000 students, or 111. This plan would entitle the peoples of less developed countries to send proportionally as many students as the more advanced countries. In each case a country would be entitled to send at least one student regardless of population.

The fruits of such a plan over a period of fifty years will probably far surpass all the preaching, teaching, and exhortation for brotherhood. This plan, as presented by the two well known political scientists, has been the object of much favorable comment by editorials in many papers. All who have heard of the plan have agreed that it would yield to the United States greater returns in the friendliness of European nations than the expenditure of that amount of money would otherwise produce.

Varsity Loses Harvard Meet

Yearling Runners Win In Three Corner Meet

Hazen Places Second in Hard Battle with Harvard's Best Harriers—Frosh Score 25 Points Against 42 for Cambridge Cubs

New Hampshire's varsity harriers were easily defeated, 19 to 44, by Harvard in the opening race of the season which was run on the Charles river basin course Friday.

N. Penrose Hallowell, Harvard's premier distance star, led Henry Hazen, the Wildcats ace, to the tape by 15 yards. Hazen was the only New Hampshire man to place among the first eight. Hallowell, established a new record for the course of 30 m. 15 secs.

The Crimson runners led from the start but they were soon overtaken by Hazen before a third of the race was run. From then on, it was a nip and tuck battle between the Wildcat speedster and two Harvard runners. About a mile from the finish the Harvard men had a lead of 100 yards over Hazen, but the New Hampshire man quickly narrowed the gap to 15 yards and moved into second place at the tape.

Andberg was the second Wildcat harrier to score with Dave DeMoupled, '29, freshman captain, a close third.

While the Blue and White varsity runners were fighting an up-hill battle against the Crimson squad, the yearlings were leading Harvard and Holy Cross to the tape over a three-half mile course.

Led by Henry Raduazzo, the New Hampshire freshmen placed men in the first, third, sixth, seventh, and eighth positions to easily clinch the meet with a score of 25 points to 42 for Harvard and 74 for Holy Cross.

The Kittens were out in front all the way, easily setting a pace that left most of the runners far in the rear. Edward Blood, Maurice Nerbonne, Dick Low, and Albert Harrison were the other runners who scored for the New Hampshire frosh.

CAP AND GOWN SPONSORS SENIOR AND FRESHMAN TEA

Cap and Gown, honorary senior society of women, sponsored a tea Friday for the seniors and their freshman sisters, in the reception rooms at Congreve hall between four and five-thirty.

Tea was served to 300 in the rooms artistically decorated with autumn leaves. In the receiving line were Dean Demeritt, Mrs. Whitney, and Lillian Twombly, the president of the society. Mrs. Aspinwall and Mrs. Buschmeyer poured for the occasion.

The freshman sisters enjoyed mingling among the upperclassmen, renewing old acquaintances, and making new ones. Much credit is due to the sponsors and it is hoped that they will give a tea next year to the incoming freshmen.

Select your dining hall with great care. Much of the success of your college year will depend on correct eating habits.

The University Dining Hall is equipped with all modern service conveniences—a clean kitchen inspected regularly by the University Health Department, an attractive dining room, and prices that the student can afford to pay for high quality food.

Protect your health by dining where no effort is spared to provide health-building meals.

Cafeteria tickets (\$6.00 value for \$5.50) and 21-meal tickets for \$6.00 (meals to be taken at the option of the patron).

The University Dining Hall

When you need a Lefax or National notebook to record systematically your class notes, when you need the extra quality of ink a Chilton fountain pen supplies, or when you need correct stationery, call at the Bookstore.

Maintained and operated for the benefit of the student body, it is a pleasure to serve faithfully all the demands and desires of the University group.

THE UNIVERSITY BOOKSTORE

Half of you men in college have "ATHLETE'S FOOT"

.... says U. S. report

YOU may call it toe itch, golf itch—the "doc" may call it ringworm—millions of people who catch it, call it "Athlete's Foot"—but all of them are the same. A ringworm parasite, *trinea trichophyton* by name, causes that redness between the toes with i-t-c-h-i-n-g. Tiny blisters or a thick, moist skin condition may be another symptom. Again dryness, with little scales, is a signal.

"At least half of all adults suffer from it at some time," says the U. S. Public Health Service. In universities as far apart as Pennsylvania and California 50% of the men have it. And the co-eds are not immune either.

It lurks in the very places where we all go for cleanliness and health—on the edges of swimming pools and showers—in gymnasiums—on locker- and dressing-room floors. In spite of modern sanitation (you have to boil socks 15 minutes to kill it)

this fungus parasite infects and reinfects bare feet almost any time they come in contact with damp floors.

Absorbine Jr. kills the germ of "ATHLETE'S FOOT"

Tests in a famous New York "lab" have revealed that Absorbine Jr. penetrates flesh-like tissues deeply and that wherever it penetrates, it KILLS the ringworm germ.

It might not be a bad idea to examine your feet tonight. At the first sign of the symptoms mentioned here, douse on Absorbine Jr. And keep a bottle handy in your locker as a preventive. Use it after every exposure of bare feet on damp floors. At all druggists—\$1.25. W. F. Young, Inc., Springfield, Massachusetts.

Absorbine Jr.

FOR YEARS HAS RELIEVED SORE MUSCLES, MUSCULAR ACHES, BRUISES, BURNS, CUTS, SPRAINS, ABRASIONS

BLUE VAGABONDS FURNISH MUSIC AT INFORMAL DANCE

A large attendance received the second informal dance of the college year. The music was furnished by the popular outgrowth of the Red Ramblers and the Isle of Blues, known as The Blue Vagabonds.

As usual the evening was uneventful, except for the fact that the orchestra broke the practice of previous informals and played a waltz. Strangely still, they played a complete waltz, without turning it into a fox-trot. The hall was well filled with a jovial crowd.

The chaperones were Mrs. Hoyt, Mrs. Haywood, Mrs. Smith, and Mrs. Gribbin.

INITIATION NOTICE

Mu Alpha Chapter of Chi Omega takes pleasure in announcing the initiation of Margaret Doe, '33, of Dover; Jennie Bujniewicz, '33, of Laco-nia; Barbara Boardway, '33, of Claremont and the pledging of Rose Corri-veau, '31, of Dover; Anne McCamer-on, '33, of Portsmouth, and Ruth Fitch, '33, of Lancaster.

Sheaffer's College Leadership Guarantees Writing Satisfaction

AMONG the one hundred leading American colleges, each registering 1,700 or more students, the majority prefer Sheaffer's. Sheaffer's college leadership means that these pens will delight you, too.

Think! Here are pens with points made for your hand alone—instruments that Balance° comfortably in your hand—graceful things of beauty. And here is a Lifetime° guarantee that your Lifetime° pen will serve you satisfactorily while you remain on

earth. The longer you and your Balance° Lifetime° live and work together, the better you'll get along. Start today, why don't you?

The ONLY genuine Lifetime° pen is Sheaffer's; do not be deceived! All fountain pens are guaranteed against defects, but Sheaffer's Lifetime° is guaranteed unconditionally for your life, and other Sheaffer products are forever guaranteed against defect in materials and workmanship. Green or Black Lifetime° pens, \$8.75; Ladies', \$8.25. Black-and-Pearl DeLuxe and Marine Green Lifetime° pens, \$10; Ladies', \$9.50. Petite Lifetime° pens, \$7 up. Golf or Handbag Pencil, \$3. Others lower.

*A recent survey made by a disinterested organization showed Sheaffer's first in fountain pen sales among the 100 leading American colleges having registration of 1,700 or more students. Documents covering this survey are available to anyone.
