FRATERNITY PLEDGING

The University of New Hampshire is one of the few American colleges where pledging of the kind by which a freshman is accosted by seniors, is permitted. It is a common sight to witness, on the morning of a pledging cession, the junior members of the fraternity with the offers of initiation that await such an eventuality. Although the pledges are generally confined to a specific fraternity, in some instances members of different fraternities are sometimes present, and the pledges are overheard with interest and amusement, as the recitations of the pledges are usually not exactly accurate. The pledges are generally required to bring presents of money, various articles of clothing, and other personal belongings, and it is a common practice for the pledges to be required to sing a song at the close of the ceremony. The pledging ceremony is generally held in the evening, and is preceded by a series of social events, such as the pledging dance, which is usually held on the evening preceding the pledging ceremony. The pledging ceremony is generally considered a necessary part of the pledging process, and is regarded as an important step in the social and personal development of the pledges.

JUNIOR WOMEN WIN OVER SENIORS IN SOCCER GAME

The first serious contest of this season in women's soccer was played between the junior and senior members of the University of New Hampshire. The game was played on Saturday afternoon, and the score was 3 to 2 in favor of the seniors. The game was played on the university campus, and was attended by a large crowd of spectators. The seniors were led by their captain, Miss Jane Jones, and the juniors were led by their captain, Miss Margaret Smith. The game was played in a very vigorous and enthusiastic manner, and the seniors were victorious in the end. The game was a good test of the fitness of the players, and was a good indication of the future prospects of the women's soccer team.
Correct

Bostonians always create the right impression—correctly and pleasantly.

And a man who wears them will tell you they've a world of comfort you'd never suspect.

SPRINGFIELD GROUP HEADS HEARS H. M. BISBE

Local correspondent

The New Hampshire College Club in Massachusetts City—Talk Enthusiasm For Participation in the Modern School

Professor H. M. Bisbee, who is in charge of the radio teachers, spoke to New Hampshire Club in Massachusetts City.

The program consisted of short talks by instructors of the English and the World War. The audience was present, and the speaker was the president, Mrs. Hazel Jones Hayes, who is a New Hampshire graduate.

Professor Bisbee spoke on modern education in terms of the civilization school, emphasizing pupil participation.

The subject is a means of establishing good citizenship and good citizenship begins in the establishment of character. Contributing to the education of a generation fifty years ago with the present, Professor Bisbee said that in his former class the child was only a boy to be filled up whereas now it is realized that the child has tendencies and abilities of his own, and the teacher is simply an instrument to aid in development.

The best part of an education is obtained outside of school, and in the home. If he is a home, a boy has responsibility, a task, no mother here will perform for him, meets the challenge of this great growth, which, by actual test, writes a very important instrument in his education.
