DEBATING CONTEST

Winner of Finals Between Delta Epsilon Pi and Delta Sigma Chi to Meet Theta Upsilon Sorority for Edward Stone Cup

The interfraternity debating contest has now progressed to the final stage with a debate between Delta Epsilon Pi and Delta Sigma Chi approaching

next week. Tuesday evening Delta Epsilon P defeated Pi Kappa Alpha in a fast and stirring argument, the semi-final fraternity debate. Adolph J. Baer, '31, Delta Epsilon Pi while Robert N. Murdoch, '31, and Romeo J. Bucknam, '34, defended Pi Kappa Alpha. The judges for the contest were Professor Herbert F. Rudd, Professor Philip G. Neserius, and Benjamin F. Andrew.

On Thursday evening Theta Upsilon defeated Alpha Xi Delta in the only all-women's argument of the season. W. Smith, '32, argued for Theta Uppha Xi Delta. Professor Justin O. Wellman and Professor Harold B. Stanton acted as judges for the con-

are competing for the Edward Monroe Stone cup this year. Seven fraernities and one sorority have been eliminated to date. The final debate between fraternities will be between Delta Epsilon Pi and Delta Sigma Chi. The winners of this debate will meet Theta Upsilon sorority to determine the recipient of the cup.

DURHAM, N. H., APRIL 16, 1931

CLASS MEETINGS

During the last few days considerable discussion has taken place in regard to the small number of students that attend class meetings. A large part of this discussion is without doubt the result of the poor attendance at the very important senior class meeting held last Thursday eve ning in Murkland auditorium.

Those who were present were readily aware of the fact that less than one quarter of the entire class was present. Those who were not there cannot justify their absence as due to ignorance of the meeting and its vast importance.

The affair was announced both verbally at convocation and by means of a notice in THE NEW HAMPSHIRE. It is admitted that not all seniors attend the convocation exercises and that many do not even read THE NEW HAMPSHIRE, but surely such an event as the selection of a class marshal, or even the choosing of any participants in commencement activities, should not be ignored to such a degree as is apparently the case.

There may be come reasonable excuse for not attending meetings as are often held by the three lower classes since business transacted at such meetings is often superfluous in nature, but when seniors, men and women who have come to this University for an education, ignore such an important event as the selection of concluding events of the entire four years, there must be something radi cally wrong.

Where is the good old "school spirit" of which we hear so much especially before athletic contests? Where is the so-called responsibility that college men and women are supposed to cultivate? Maybe these LOCAL A. S. M. E. CHAPTER things have reached such a point that the student no longer considers them important. If such is the case, when responsibility is considered, it seems almost that the senior has missed one Ernest G. Thorin, '32, of Dover, as of the outstanding points of a college

issue you will find an article telling lation manager of THE NEW HAMPsomething of the Fox point bridge SHIRE and was business manager of bill which is shortly to come before the 1933 freshman handbook. the state legislature. Much credit is due Registrar "Dad" Henderson to bring about the passage of a bill which undoubtedly will mean so much not only to Durham and vicinity but to New Hampshire as a whole.

STYLE EXPERT PREDICTS

Devolution, the opposite of evolution, marks the trend in hat styles this spring, according to Miss Hazel E. Hill, extension clothing specialist of this University. The Watteau style of about 1906 in which the brim of the hat was set up on the crown is noticeable this season. The both features suggesting that the back to Durham on time. goal of the retreat of hat styles may be 1870 when milady's bonnet was often no more than a wisp of ribbon phys. ed. classes are going to stage and lace set well back on her head horse races tomorrow. There goes and held in place by a band run- the Prince of Wales' record. ning under her chin.

Thousands of rural New Hampown hats again this year, using felt this column last week. as the material and obtaining the latest style effects, Miss Hill points out. They are schooled in millinery in training schools in each county each year and are becoming so proficient that their work is often not distinguishable from the factorymade product. Hat making in one New Hampshire county alone last year saved the women approximately \$1,000 on their millinery bill.

The halo effect was pointed out by the specialist as another mark of 1931 hat styles. Forming the brim of the shallow-crowned hats, the "halo" may consist of a roll of felt, belting, heavy silk crepe, or other materials or wreathes of flowers or leaves. This type of hat is sometimes described as "a skull cap with a halo."

Sailor hats are back after long ab- hands. sence, but the "merry widow" would not recognize them with their irregular soft brims, it is believed.

> There used to be a lawn in front of the library, but last winter, when the construction gang was building the new stretch of cement sidewalk, there was a detour across the spot where the lawn used to be. Perhaps Professor Ekdahl can explain the habit processes whereby college students continue to cut across the lawn sidewalk.

school alleges that they are, "snuck, to 1. snick, snucken," and the moderns swear they are, "snuck, snuck, snuck." The Tower welcomes any suggestions. No prizes offered.

The East and West halls horseshoe nitching teams have started intensive training, with no particular object! in view. People laugh, but it takes tory tournament?

The storm boards have been taken off the library steps and the winter entry to the bookstore has been taken down. Spring must be here.

DEFINITION

In olden times Gods and goddesses walked among mortals: Witches and warlocks cast spells over Witches and warlocks cast spells over people;
Dryads and naiads and genii and sprites were everywhere.
But there is no magic today:
No potions, no powders,
Nor magic wands, nor lamps, nor incantations;
And so I can't account for you,
Unless you are all magic itself.
—Didge.

Blue Embers

by W. M. Stearns

Five Wildcat teams will seek glory for themselves and their Alma Mater in the 44 remaining engagements of the spring term. The varsity followers of the diamond, cinder path, and racquet will carry the colors of the Blue and White into 28 encounters, while the Kittens will sharpen their claws on 16 opponents.

The Brown Bear will provide the most frequent competition, appearing on the Wildcat lists twice in baseball, once in varsity track and lacrosse, and again in freshman track. No doubt the Bruin seeks revenge for New Hampshire's victories in football and basketball.

Harvard will cross sticks with the Felines in lacrosse as well as in varsity and freshman baseball. Dartmouth is scheduled by both baseball

A win over Harvard would mark the initial victory of the year over the Cambridge institution since the Crimson was victorious in both cross country and basketball.

The Oyster bay tribe will invade the lair of the Dartmouth Indian with the scalps of the Big Green basketball and baseball teams dangling from their belts.

The West Point cadets still remember the feline invasions in cross country and hockey although the It is rumored that the women's 'honor of the service" was redeemed in boxing and basketball.

Although the New Hampshire racquet wielders lost the initial contest of the season to the undefeated Brown varsity at Providence, a survey of their opponent's scores still leaves room for optimism. The Boston university Terriers, who invade Memorial field Saturday, were routed by the Army, 35 to 0. Tufts dropped its opening encounter, 9 to 1, at Dartmouth. The Boston lacrosse club, which was nosed out by Brown, 9 to 7, finally broke into the winning colcke, in Salem, Virginia, have formed umn by defeating Springfield, 3 to 2. a goldfish club. Iniates must swal- Harvard defended the honor of the Crimson by swamping the much beaten Long Island university aggregation, 14 to 1. Considering the fact that the Bruins scored their margin of victory in the closing period, we see no reason for an air of impending gloom.

> The Brown squad still echoes the story of the Wildcat defense man who swung at a Bruin attack man with his fist instead of his racquet. The referee made a slight error and ejected the innocent victim. Plato was right, there ain't no justice.

In baseball the Harvard nine, victors over Northeastern and Bowdoin, time are brown, black, blue, and some within thirty-six hours. The famous lost the opening game of their Southern invasion to William and Mary. "Just like Lee took Manassa."

> Dartmouth dropped its third game in four starts to Yale at New Haven: the University of Virginia is the sole victim of the Big Green, which lost two of its Southern games to the V. M. I. Generals at Lexington.

The shadow of misfortune has hove ered over the Dartmouth nine all season and a series of injuries has marred its chances of again winning the Eastern Intercollegiate league

FROM OUR MAIL BOX

Dear Editor,

In your various ambles around the expansive woods surrounding our fair campus, have you ever noticed the beautiful panorama which greets the eye: vast areas of sweet-scented woodlands broken only by occasional heaps of gaily colored tin cans and musty rank smelling ash piles, placed at immense distances from each other, at times nearly four or five feet apart; fresh clear bubbling streams in which idly float back and forth with the current more tin cans, discarded mattresses, worn automobile tires, and empty ketchup bottles; smooth green Dusty Answer. appealing mounds of grass and pine needles hiding behind their backs delicately contoured forms which prove to be staggering picture puzzles

of the "what is wrong" type? And as you hurry home rested and refreshed from your short and solemn communion with Mother Nature, you see in the flowery dooryards of some That the University holds some teams and the lacrosse outfit, while greater heaps of similar beauties, 1,300 shares in La Campagnie des the varsity nine will journey to West waiting patiently until several hardtheir comrades in the shady nooks. Florence M. Baker, '32.

JOAN CRAWFORD FEATURED IN "DANCE FOOLS, DANCE"

"Dance Fools, Dance," which will open Friday at the Franklin theatre, is Metro-Goldwyn-Mayer's latest talking picture starring Joan Crawford. This is the most glamorous of Miss Crawford's recent roles, reflecting of her mind as shown by Miss Lehboth the glitter of "Our Blushing Brides" and the tragic drama of

"Paid," her last two screen offerings. The story, with a Chicago locale, principally concerns the underworld and newspaper life of the metropolis. nificant comment on life. The out-It is an original by Aurania Rouverol standing thing in this novel, we feel, with screen continuity by Richard is the revealed difference between Schayer.

Harry Beaumont, who brought Miss Crawford to stardom in "Our Dancing Daughters," and recently added to this triumph with "Our Blushing of Spanish studies at Oxford, has just Brides," again directed.

Lester Vail, a newcomer to the screen who recently made his debut the supporting cast includes such film Madariaga speaks with some authorfavorites as Cliff Edwards, William Bakewell, William Holden, Clark Joan Marsh and Russell Hopton.

The story, despite lavish touches, is an intensely dramatic one, the plot motivated by murder on a wholesale scale. It is a daring theme from the society angle and a still more daring reader, we can think of no better one from the viewpoint of exposing book on international affairs and their crime and racketeering. There is a wealth of newspaper atmosphere, realistically supplied.

Miss Crawford plays the part of a society girl, reduced to poverty, who turns to newspaper work for a livelihood. In her hunt for the gangster er brother up.

in the picture.

BRADLEY CHOSEN POULTRY SPECIALIST AT UNIVERSITY

R. C. Bradley of Enid, Oklahoma has recently been appointed extension poultry specialist at the University and will start work on May 1. He has been serving as manager of a poultry farm for the last four years and holds a Ph.D. degree in poultry husbandry from Cornell university. Mr. Bradley replaces Walton P. Clarke, formerly of Georgia, who came to New Hampshire January 1 and died on March 20.

While at Cornell university Mr Bradley did graduate work and residence and extension teaching in poultry husbandry. He then went with the Pacific Egg Producers as research specialist in New York City, and also took charge of his sister's poultry farm in Oklahoma. While managing this poultry farm he specialized in the production of Leghorn breeding stock and hatching eggs.

In addition to his education at Cornell, Mr. Bradley also graduated from the Central Missouri State Teacher's

The Critic

by Monroe Walker

A Note in Music by Rosamond Lehmann, the author of Dusty Answer, the English novel which created such a sensation in both England and America a few years ago, was published last fall but had evaded our perusal until a few days ago. We must confess that we did not read Dusty Answer, so that we can not compare this novel with the author's previous work, but we have been told that A Note in Music is not as welldone a novel, on the whole, as was Not knowing very much about

music, at least technically speaking, we are entirely unable to say what particular significance that title holds. Suffice it to say, that as far as we could observe, the novel was little more than an almost journalistic reporting of the interior workings of the minds of several distinct charof the most promising residences even acters. There is no action of importance except as it tends to aid in portrayal of character. We feel that earned dollars shall send them to join Hugh is rather too ideal a character, "too much of a good thing" to seem real, while the constant, veiled references to Oliver Digby, Esq. arouse a curiosity that is never satisfied, for we know no more about Oliver Digby when we close the novel than we did when we first opened it.

Grace, the main female character, is very interesting and has the reader's sympathy in her unhappy marriage from the start. The workings mann provide an excellent opportunity for an understanding of human nature in general. The paradoxical diversity of her external appearance and her mental life constitutes a sigpeople's interpretations of any one person's actions and words.

Salvador de Madariaga, prominent Spanish internationalist and professor published a collection of inimitable essays on internationalism, the world community, and world peace. Having in "Beau Ideal" is Miss Crawford's been late director of disarmament and leading man in her new picture, and League of Nations secretariat, de ity in this collection, which is published under the title of 1. Americans. Gable, Earl Foxe, Purnell B. Pratt, This Spaniard certainly does have Hale Hamilton, Natalie Moorhead, the ability to pick tricky titles. And for clever irony and satire we doubt if any can surpass him. These essays are serious and humorous at the same time. De Madariaga teaches and amuses all at once. For the lay correct interpretations.

FRESHMAN BASEBALL SQUAD CUT FROM 45 TO 29 MEN

The freshman baseball squad was cut last week from more than 45 to 29 members. This will be the only cut of the entire season. The present squad will work out daily this week on an improvised diamond, rolled out for the purpose on one of the football practice fields.

The lack of promising material for shortstop and second base will probably necessitate the revamping of outfield candidates to fill these two positions. The squad as a whole is fair in hitting but, according to Coach Lundholm, is not up to the standard of last year's kittens.

FORTY-FOUR TEAMS ENTER TRACK MEET

May 9 Date of 19th Annual Interscholastic Track and Field Meet -List of Entries Close April 28

The 19th annual interscholastic track and field meet conducted under the auspices of the University will be held on Memorial field, Saturday, May 9. Forty-four secondary schools from all over New England have already signified their intentions of entering the meet making an even larger array than last year when over 700 athletes from 35 institutions paraverages in the different dormitories ticipated. Several more entrants are closing date for the entry lists.

The meet will be under the direcing Arnold Rhodes, '34, who was the held in the afternoon. As in the divisions including the in-state, and out-state, high, and prep school classes. Team trophies and individual medals will be awarded in each

> Among the more consistant winners of the past who have again entered teams are Manchester central and Berlin in the in-state high school class; Tilton school in the in-state prep division, and Hebron, Huntington, and Bridgton academies in the out-state prep section. Due to extremely keen competition no team has been able to win consistantly in the out-state high school class.

WILLIAM MORRISON SPEAKS AT WEEKLY CONVOCATION

The weekly convocation, presided over by President Edward M. Lewis, yesterday afternoon was addressed by William Y. Morrison, headmaster of Manchester Central High School. Mr. Morrison is particularly well known about this campus, due not only to the large number of Manchester students here, but also to the fact that he was formerly headmaster of Portsmouth High School. He is also a former inspector of the secondary schools of this state.

APRIL 24 SELECTED FOR SOPHOMORE HOP

College Inn Orchestra Engaged to Play Next Friday Evening for Annual Semi-formal Affair

All preparation is being made for the annual Sophomore hop which is to take place at the men's gymnasium, Friday, April 24. The affair will be conducted between the hours of 8-12, and will be of a semi-formal nature The College Inn orchestra has been engaged to play for the dance. The decorations are to be rather simple. The dance programs are blue, and the seal of the University will decorate their covers. The committee in charge of this hop includes Robert Hadley, ex-officio chairman; Charles Dawson, chairman; Priscilla Roberts, Ann Mc-Cammon, Dorothy Williams, Thomas

Garland, and Eugene Gormley. The admission to the dance will be two dollars.

ADOPTION OF GREAT BAY BRIDGE BILL TO BENEFIT STUDENTS AND TOWNSPEOPLE (Continued from Page 1)

bill now faces. All bills in the state legislature are submitted to committees for public hearing. The committee then holds an executive session and votes for one of two things to become of the bill. They can recommend that it "ought to pass" or that it is "inexpedient to legislate." If the House adopts this first report the bill goes on to the Senate. If the "inexpedient to legislate" is adopted the bill is killed immediately. There are pattern. Falling of Water **Shapes Vehicles**

Dr. Oscar G. Tietjens **Announces New Discovery**

New Era in Coach Construction Predicted by Westinghouse Research Director—Aerodynamics Enter Field of Transportation

One drop of falling water is showhigh speed vehicles.

That drop of water helped them to work out the present designs for Zeppelins, for airplane wings, for racin locomotive and coach construction Charlotte Hunkins; is about to break.

Demands for higher speed have been a real help. Therefore, when Dr. Tietjens joined the staff of the Westinghouse Research Laboratories, he soon realized the great possibilities of applying Aerodynamics to the extremely important field of transportation

More than a year ago the work was started by building a wind tunnel for testing models of present type trains as well as those of the streamline experience in the development of aircraft and racing car designs, gave him much valuable data and knowledge of the problems to be encountered. The special work in aerodynance.

duced one-half and wind resistance could be accomplished, the necessary speeds could be obtained with less portation service would then be available at a lower operating cost.

is moving 40 miles an hour wind retian Work, Tel. 47. sistance is almost 50 per cent of the total resistance. When its speed is resistance has become more than 75

In the case of a heavy locomotive and two heavy coaches, stream line equipment of similar weight, accordhouse Research Laboratories.

It requires 286 horsepower to drive car 80 miles an hour. Tests made in At the meeting the following officers fact that Durham was not located on the Westinghouse wind tunnel indithe streamline design can be driven power required for the present type increased energy or fuel requirement.

> From these results, Tietjens concludes that streamlining will be worth while for medium and high-speed, light interurban cars and for heavy high speed trains.

> From this entire program of activity, it is expected that new styles in high speed cars and trains revolutionary in character and appearance as well as notable for their efficiency

If the student body could cast the vote on the bill there is little doubt that it would pass.

At one of the public hearings the objection was raised that the increased traffic through Durham would be a hazard to students going from dormitories and fraternity houses to classrooms and crossing the main street. Jeremy Waldron of Portsmouth, former Attorney General and a staunch supporter of the University, said at that time that in his opinion the students at New Hampshire knew enough to look where they were going. It would seem that Durham could afford to run this negligible risk for the advantages to be received therefrom.
