Editor to the Editor:

The passage a year ago in our Assembly of a plan for extending Sunday sports and movies in town was greeted with jubilation by the student body, and with approval by the local authorities. The plan, which was adopted by the student body, was carried out by the school board and the city council.

In spite of the fact that I feel the student sentiment was in favor of Sunday sports and movies, I am going to vote against the plan, on the ground that it is a violation of the rules of the school board and the city council.

I do not believe that the school board and the city council have any right to interfere with the student body in this matter. I think that the student body should be left alone to make its own decisions.

I am therefore going to vote against the plan, and I hope that all the other members of the student body will do the same.

Yours truly,

DURHAM BULL

After coming out of a huddle with this band of stalwarts Mr. Bromley said to me, "Hello, beautiful Bull." We wonder how many of them have been practiced this season for backfield in rotation.

FOLKS who smoke really fresh cigarettes made from choice sun-ripened tobaccos never have to give a thought to their throats. That's because such fresh cigarettes retain natural moisture—and are gratefully smooth, cool, throat-pleasing. Cigarettes are the fresh cigarette—everyone knows that now—they're blended from the finest Turkish and mild Domestic tobaccos that make and can buy.

We would never dream of parching or toasting these choice sun-ripened tobaccos—that would only drive off or destroy the natural moisture that makes Camels fresh in nature's own mild way.

The Camel Humidor Pack protects a fine cigarette fresh with natural moisture—it could do little or nothing to enhance a cigarette that is dried-out or factory-stale.

If you smoke for pleasure, see for yourself what freshness means in mildness and flavor—switch to Camels for just one day—then leave them, if you can!
