Christian Work

Meeting with Ben Andrew and Bill Farmer Tuesday, at the Highland House, Sunday afternoon and evening, May 16, to about thirty members of the T. M. C. held a retreat and made plans for the coming year. At the meeting in Highland, Bill Farmer outlined the general scope of the work done by the Christian organization during the year. He pointed out that the work done in connection with depart- ment stores has been done in cooperation with the union movement and is going on very satisfactorily. But whereas, during the first part of the Christian organization period, the work was done in a large and theatrical capacity, the present trend is in the direction of a conscious effort to bring the light of Christian values. Following the meeting, there was a short devotional session and a brief meeting of interest to the freshmen. This discussion was followed by a tea dance in the University gymnasium and a practice period. At the evening meeting, Don J. B. R. Larrick, who represented the faculty at the meeting, and Bill, explained the importance of the freshman retreat, and if, so, to decide on the kind of retreat the freshmen should have. You Inhale?

Certainly... 7 out of 10 smokers inhale knowingly... the other 3 inhale unknowingly

Dyoginhale? Seven out of ten smokers know they do the other three inhale without realizing it. Every smoker breathes in some part of the smoke he or she draws out of a cigarette.

Think, then, how important it is to be certain that as much smoke as possible is not inhaled and—be sure you don’t inhale certain impurities!

Do you inhale? Lucky Strike has dared to the test, to find out how many smokers inhale unknowingly. It was necessary to know which cigarettes were a factor in their habit. This is done by a method of excellent food merits your consideration on such a reasonable basis.
