The American National Red Cross starts its annual drive tomorrow. This organization does the champ of every local American. The year’s work is always too much to be done by the single local committee. Many of the distinguished citizens of the United States will come to the aid of the organization. Each chapter of the American Red Cross will have a permanent collection box in the post office.

The Welcome Woman, theentine Mrs. O’Brien, is thrilled with the idea of the drive. She says, “I have always been a red cross worker, and I am sure that this year’s drive will be a success.”

There was little to choose between the parties this time. Both stood on the same side in this crucial issue. Both stood on the same side in their support for the war effort. Both stood on the same side in their support for the government. Both stood on the same side in their support for the people. Both stood on the same side in their support for the country. Both stood on the same side in their support for the world. Both stood on the same side in their support for the future. Both stood on the same side in their support for the present. Both stood on the same side in their support for the past. Both stood on the same side in their support for the present and the future. Both stood on the same side in their support for the present, the future, and the past.

In the very early days of the organization it was decided that the goal of the drive would be to raise $10,000,000. Today the goal is $100,000,000.
